ABSTRACT

This project developed a functional inventory of the numerous conservation lands located throughout the City of Dover. The City's inventory of conservation lands was disjointed and clearly in need of organization. A consultant was hired to conduct the research necessary to produce a complete, up to date and easily accessible "functional Inventory" that is readily accessible to municipal volunteers and the public through the City website.

EXECUTIVE SUMMARY

The City of Dover has engaged in land protection efforts for over 50 years. Dover is located in an area that represents the best remaining opportunities to conserve critical ecological, biological, and water resources of New Hampshire's coastal watersheds. The City, through its Open Land Committee and Conservation Commission, has had remarkable success in protecting many acres of conservation land, particularly over the last decade. The objective of this project was to complete and implement an updated, City wide computerized, on line "functional inventory" and associated map of all protected lands in Dover.

The completed inventory included formatted data for transmittal and entry into NH GRANIT conservation data layer. According to the criteria established for the Conservation Lands Audit / Inventory, a total of 282 tax parcels were included as conservation land. This represents 3,098 acres of conservation lands in the City. The project yielded an additional 742 acres of conservation parcels previously un-documented by GRANIT in Dover.

INTRODUCTION

The City of Dover applied for and obtained this grant from the Piscataqua Region Estuaries Partnership to enable the City to be able to hire a qualified and experienced consultant to complete the project. This had been a goal of the Conservation Commission and Open Lands Committee for many years, especially as more properties were being protected through the efforts of municipal staff and dedicated volunteers. The City was fortunate to be able use the PREP funding to hire Kane and Ingraham, a local conservation consulting firm with extensive experience in preparing very similar conservation land inventories in other coastal communities of New Hampshire.

PROJECT GOALS AND OBJECTIVES

The objective of this project is to complete an updated, City-wide functional inventory of all protected lands in the City of Dover and provide this information on-line via a portal on the City of Dover's website and through New Hampshire's Statewide Geographic Information Systems (GIS) Clearinghouse (GRANIT).

This project primarily implements Piscataqua Region Estuaries Partnership (PREP) Management Plan Actions LND-29 (Provide technical assistance in land protection and management to regional land trusts and municipal conservation commissions), and LND-36 (Encourage conservation easements).

ACTIVITIES

Work Completed (by Task):

1.4.1 COLLECT AVAILABLE DATA ON PROTECTED LANDS IN DOVER

Initial Coordination Meeting

A coordination meeting was held on February 26, 2010 between representatives from the Dover Conservation Commission and the Dover Open Lands Committee, the Project Manager from the Planning Department staff, the City GIS Technician, and Chris Kane and Peter Ingraham, the selected consultants. The purpose of this meeting was to discuss the work plan, budget and timeline for this project.

Confirm requirements for GRANIT data

Kane and Ingraham reviewed the data fields required to conform to the GRANIT requirements and obtained the latest data for Dover. Additional fields were added to the database to include data available from the City's Assessing Office. Care was taken to make sure the information collected would be compatible to GRANIT so that it could be submitted as an update once completed.

Meeting and Review of Existing Easement Documents

The consultants met with City staff to review property files, to develop property priority guidelines, and to glean information relative to properties in the City that need to be considered as a part of the project. This included obtaining a database of all City parcels from the City's GIS Technician and arranging to review a box of files provided by the former Chairman of the Conservation Commission. The consultant also obtained additional documents and file materials from the Strafford County Registry of Deeds. The consultant began recording all appropriate data into a database that is compatible with the City of Dover's in-house GIS system and GRANIT. The consultant met with the project manager to review the conservation files contained in the Open Lands Committee library in City Hall. During the course of the project, numerous e-mails and telephone conversations between the consultant and the project manager occurred to review the data collected and to discuss the details of particular properties.

Compilation of Database

The consultant recorded all appropriate data into a database that is compatible with the City of Dover's in-house GIS system and GRANIT. Data categories include GIS data, tax/lot sub-lot numbers, acreage, type of protection, book and page recorded documents and plans, and other relevant data.

In order to sync with City parcel data, each individual tax lot or portion thereof was created and tracked as a separate entry. A total of 249 such polygons comprise the database and GIS spatial data file. The spatial data and database are designed to link for the purposes of administering the GIS data, and to facilitate uploading it to the City website for public use. The data is also organized to be submitted to GRANIT essentially as-is for the updating of the Conservation Lands data layer.

On December 17, 2010, the project manager and two members of the Dover Open Lands Committee met to review the conservation lands database information and the conservation lands map that was submitted by the consultant. Utilizing the numerous years of experience of these dedicated volunteers, the information was reviewed for accuracy and completeness. The project manager then communicated the amendments and questions generated to the consultant, who investigated each question to correct and clarify the information. Given the overall number of properties involved, the changes were minimal.

As part of the final report, individual Conservation Property Profile sheets were prepared. Each sheet provides pertinent information on each conservation property, including owner, tax map and lot number, size of property, protection type, grantor and grantee. In the future, the City plans to supplement the Conservation Property Profile sheet with an aerial photograph for each property so that the public can get a better sense of the location of each parcel.

1.4.2 CONSERVATION LANDS INVENTORY ON-LINE ACCESS

Conservation Lands Inventory On-line Access

The City of Dover has created an on-line portal with a land parcel map on the City of Dover's website that provides access to data collected in section 1.4.1. The report prepared by the consultant, including the conservation map, will be available through a link from the Planning Department and Conservation Commission pages.

Submit data to GRANIT

The City of Dover has submitted the data collected by the consultant to GRANIT for the purposes of updating of the Conservation Lands data layer. The data was organized to be compatible with the GRANIT requirements.

1.4.3 ISSUE MEDIA/PRESS RELEASE

The City of Dover produced and issued a press release describing the project at the end of the project. The press release described the objective of the project and described the results achieved with the funding. The press release is attached.

OUTCOMES

The City plans to continue to update the inventory as more property is protected. One idea that resulted from this project was to produce an interactive conservation map that would be on the website and would allow the public to click on a parcel and be directed to information, including a property profile sheet and an aerial photograph, for that particular parcel. You could include any number of other items, including a copy of a deed, a baseline documentation report or more detailed conservation feature maps.

The City also wants to explore different variations of the conservation map, which can be produced by sorting the data based on different features or attributes. These different map versions would be added to the web-site so the general public could view them.

Christopher Parker, Director of Planning and Community Development
603-516-6008

Conservation Lands Inventory Completed for City of Dover

DOVER, N.H. – The Conservation Consulting firm Kane & Ingraham recently completed a comprehensive City-wide functional inventory of all protected lands in the City of Dover. A total of 3,098 acres of lands subject to some form of restrictions for conservation use were tallied in the course of the project. 742 of these acres were newly-documented conservation acres resulting from this study. The results of this project are available for viewing on-line via a portal on the City of Dover’s website at www.dover.nh.gov. For each conservation parcel, a profile sheet has been prepared. Information included on the profile sheet includes name, size, tax parcel number, type of protection, use limitations, and registry of deeds book and page information if applicable.

The inventory information will be used to update the conservation data maintained in the New Hampshire's Statewide Geographic Information Systems (GIS) Clearinghouse (GRANIT). This project was funded in part by a grant from the Piscataqua Region Estuaries Partnership, as authorized by the U.S. Environmental Protection Agency’s National Estuary Program, and helps implement the Partnership's Management Plan for the Region's estuaries.

The information gathered in the inventory will be very helpful as the Planning Board begins the process of updating the Conservation and Open Space chapter of the Master Plan.

###

Acknowledgements

The authors would like to acknowledge the assistance and advice of a number of people who helped in the development and improvement of this study. They include members of the Dover Conservation Commission and City staff. In particular, the following people were invaluable in their assistance:

Kathleen Meyers
Christopher Parker

Assumptions and Limitations of Project

The information contained in this report is based principally on stock geographic information systems (GIS) data publicly available from federal and state agencies. While the reader can expect these data to have a high level of spatial, temporal, and content accuracy, these data are meant for broad-scale planning purposes and have not been field verified in the City of Dover. Any property-specific land management or conservation activities initiated as a result of this planning effort should seek to verify actual locations of features and property boundaries in the field to provide more refined location information for the features mapped here.

Disclaimer

Every reasonable effort has been made to maintain a high level of quality in developing this Conservation Lands Audit and On-Line Inventory project and the accompanying large-format map ("The Project"). However, the City of Dover and Kane & Ingraham ("The Producers") make no warranties, expressed or implied, concerning the accuracy, completeness, reliability, or suitability of the data described or displayed in The Project. The Producers do not assume any liability associated with the use or misuse of this information. The information depicted in The Project is for planning purposes only. It is not adequate for legal boundary definition, regulatory interpretation, or property conveyance purposes. In addition, the resources described and mapped in The Project are subject to alteration by natural and human influences, and thus this project is a static representation of the natural and cultural resources in Dover, one that will benefit from periodic updates.

Appendix B: Conservation Parcel Profile Sheets

I. PROJECT SCOPE AND METHODS

The foundation of the project was a comprehensive inventory of properties in Dover that are either legally restricted by conservation terms in a deed, or that are otherwise considered conservation land by tradition, intent or vote of the City, or some other means. This Inventory culminated in a Conservation Database produced in MS Excel as single sortable worksheet, which was populated with salient information on each property. Over 300 tax parcels were initially reviewed as possible conservation / public lands over the course of the project.

Certain criteria were established by Kane & Ingraham and the Dover Conservation Commission and staff as to which lands would be included in the study. As a result of this filtering process, the following types of properties were included in the results as conservation lands:

- Properties restricted by conservation easements
- Properties with conservation restrictions in a fee deed
- Properties granted to City of Dover or a sub-division thereof, or that have the Dover Conservation Commission mentioned in the deed as an authority to the property
- Properties not specifically restricted, but owned by an organization whose primary purpose is conservation, such as the N.H. Fish & Game Department, or the Society for the Protection of New Hampshire Forests
- Relatively large, undeveloped open space properties owned by the City of Dover that do not have legal conservation restrictions, but that are relatively inaccessible and large
- Lands co-owned by neighbor / owner groups that have Restrictive Covenants for conservation in the deeds or on a plan
- City of Dover -owned lands that have established conservation uses, but no legal restrictions per se
- Lands owned by water districts for well-head / water supply protection
- Lands owned by the City of Dover and devoted primarily to organized recreation, but protected under an overseeing program such as the Land and Water Conservation Fund

Consequently parcels in the following categories were excluded from the final Conservation Database:

- City-owned lands that were acquired for purposes other than conservation
- Lands owned or primarily used by school districts

- Lands owned by the City but devoted primarily to organized recreation, and not protected under a restrictive program
- Lands owned for unspecified purposes by the State of New Hampshire
- Properties held by the NH Department of Transportation
- Vacant house lots in otherwise developed areas, that do not otherwise provide access to other open space
- Private lands registered under the Current Use program, but otherwise un-restricted
- Properties exempt from property taxes, but other but otherwise un-restricted
- Small parks that are not primarily open space
- Properties less than 1 acre in size unless specifically protected in some way by conservation restrictions in a deed, or whose apparent intent is for conservation

Conservation Lands Database

In the research for the Conservation Inventory phase of the project, all references to any lands in Dover that had appeared on any available list as potentially held for conservation purposes were researched. Other sources of data regarding conservation lands were also investigated, including the GIS mapping Conservation Lands data layer administered under the umbrella of “GRANIT”, the central clearinghouse for geospatial data at Complex Systems at the University of New Hampshire. All available records in the Dover Planning Department were searched, including reports of City-owned open space properties, monitoring files, Conservation Commission property files, old plans, and lists of City lands and Conservation lands.

A thorough search was conducted of the records on the Strafford County Registry of Deeds online website. Searches of Grantor/Grantee records were made for the following entities: City of Dover, Society for the Protection of New Hampshire Forests, Strafford County Conservation District, Audubon Society of New Hampshire, The Nature Conservancy, N.H. Fish & Game Department, Strafford Rivers Conservancy, Southeast Land Trust, and the Rockingham Land Trust. Any lead to a potential conservation property was followed using various search methods online. This provided much of the critical information and documents that the Inventory relied on.

Some protection methods extend over either portions or complete multiple lots. Others are restricted to a portion of a tax lot. For ease in reference to conservation parcels, the data unit of a tax parcel was chosen. As the information on each property was gathered, it was entered into a database by Tax Map, Lot and Sub-lot number.

70 fields of pertinent information were recorded, to the extent the data was available, for each parcel. To facilitate submission of conservation lands data to GRANIT, the database was designed as an expanded clone of the GRANIT Consland attribute table that forms the data

background for the GRANIT mapping of conservation lands. These 49 GRANIT data fields and a brief description are shown in Table 1.

Table 1. GRANIT Data Fields

Field #	Field Name	Field Description
1	TID	GRANIT ID number (GIS Consland Layer)
2	NAME	Tract Name
3	NAMEALT	Alternate Tract Name
4	P_NAME	Parcel Name
5	P_NAMEALT	Alternate Parcel Name
6	PPTYPE	Primary Protection Type Code
7	PPTYPE_Desc	Primary Protection Type Description
8	PPTERMTYPE	Term of Protection Code
9	PPTERM_Desc	Term of Protection Description (eg. Perpetual)
0	PPTERM	Length of Limited Protection Term
11	SPTYPE1	Secondary Protection Type 1 Code
12	SPTYPE1_Desc	Secondary Protection Type 1 Description
13	SPTYPE2	Secondary Protection Type 2 Code
14	SPTYPE2_Desc	Secondary Protection Type 2 Description
15	PPAGENCY	Primary Protecting Agency/Organization Code
16	PPAGENCY_Desc	Primary Protecting Agency/Organization Description

18	PPAGENTTYPE_Desc	Type of Primary Protecting Agency Description
19	SPAGENCY1	Secondary Protection Agencies 1 Code
20	SPAGENCY1_Desc	Secondary Protection Agencies 1 Description
21	SPAGENCY2	Secondary Protection Agencies 2 Code
22	SPAGENCY2_Desc	Secondary Protection Agencies 2 Description
23	RSIZE	Reported Size of Tract (acres)
24	CSIZE	Calculated Size of Tract (acres)
25	P_RSIZE	Reported Size of Parcel (acres)
26	P_CSIZ	Calculated Size of Parcel (acres)
27	PROGRAM	Code for Program or agency under whose auspices the protection took place
28	PROGRAM_Desc	Description of program or agency under whose auspices the protection took place
29	LEVEL_	Protection Level Code
30	LEVEL_Desc	Protection Level Description (eg. Permanent Conservation Land)

31	MSTATUS	Management Status Code
32	MSTATUS_Desc	Management Status Description (eg. entirely protected from conversion of natural land cover)
33	SOURCE	Source of information used for mapping the tract
34	ACCURACY	Code for general flag to indicate the accuracy of mapping
35	ACCURACY_Desc	Description of level of mapping accuracy
36	COBKPG	County, Book, Page of recorded deed in Registry of Deeds
37	DATEREC1	Date of recording of first conservation instrument
38	DATEREC2	Date of recording of subsequent for conservation instruments
39	ACCESS	Level of Public Access Code
40	ACCESS_Desc	Level of Public Access Description
41	DATEADDED	Date record (spatial/attribute) was added to the database
42	DATEALTER	Date of last revision of any of the tract boundaries or attributes
43	NOTES1	Additional notes field
44	NOTES2	Additional notes field
45	NOTES3	Additional notes field
46	NOTES4	Additional notes field
47	PID	Old GRANIT ID number
48	GAP_STATUS	Code for level of protection and management allowed
49	GAP_Desc	Description of level of protection and management allowed

21 additional fields were added the Conservation database to provide more depth to the data as it relates to the conservation specifics of each parcel. These additional fields are shown in Table 2 below.

Table 2. Additional Data Fields

Field #	Field Name	Field Description
50	Map_ID	ID assigned to tract on Conservation Lands Inventory map
51	Feature_ID	Unique identifier code for linking database to spatial data
52	PID_Dover	Parcel ID (links to Dover GIS)
53	Map	City of Dover Tax Map
54	Lot	Tax Lot
55	Sublot	Tax Sublot
56	Grantee	Grantee in deed, or property owner
57	Grantor	Grantor of deed
58	Location	General location of tract
59	Street	Street address (if any)

60	Plan	File number of recorded plan at Registry of Deeds
61	Purposes	Abstract summary of Conservation Purposes in deed or plan
62	Limitations	Abstract summary of Use Limitations in deed or plan
63	LegalNotes	Abstract summary of Reserved Rights of other terms in deed
64	SrcNotes	Source of data for this project
65	MapNotes	Notes regarding new parcel mapping
66	Notes	Additional notes field
67	GRANITNotes	Notes regarding mapping of and submission to GRANIT
68	DateComplete	Date data entry was complete
69	Staff	Staff who entered data
70	Owner_Name	Name of current property owner

As parcel data was completed, each parcel was mapped using the digital Dover tax parcel data as the basis for external boundaries where they apply. In cases where only portions of a tax parcel are protected, the non-protected portions were excluded from the mapping. Plans and legal descriptions were used to map these boundaries with a high level of accuracy. All parcels previously mapped by GRANIT were reviewed for accuracy, and in a number of cases were refined. Each parcel mapped was assigned a Map ID number to use in identifying that parcel on the accompanying GIS map of Dover shown in Appendix B.

Some 19,740 data cells constitute the data base, to the extent that data was available. The database is thus much too extensive to practically print, therefore this product was provided to the City of Dover electronically.

II. RESULTS AND DISCUSSION

According to the criteria established for this Conservation Lands Audit / Inventory, a total of 282 tax parcels were included as conservation land. This represents 3,098 acres of conservation lands in the City. Part of this project involved a refinement of the 2010 update to the GRANIT Consland database. After validating, adjusting and correcting this data, a total of 2,356 acres of conservation land were accounted for in Dover. The project yielded an additional 742 acres of conservation parcels previously un-documented by GRANIT in Dover. Table 3. below shows a break-down of the aggregate conservation lands acreage by protection type.

Table 3. Acreage of Conservation Lands in Dover by Protection Type

Primary Protection Type	Code	Total Dover Acres
Conservation Easement	CE	1,367
Deed Restriction	DR	139
Flowage Rights or Easement	FE	125
Fee Ownership	FO	1,223
Protective Easement (for Water Supply Lands)	PE	10
Set Aside Open Space Areas of Developments	SA	<u>234</u>
	Total	3,098

The resulting database and GIS products for this project will form a solid foundation for the on-going administration of land conservation, and for conservation planning in Dover. The resulting current, comprehensive and accurate mapping will also provide a better picture of the state of conservation in Dover and the region generally. As new properties are protected in the future, they can be added to the database and GIS system according to the same protocol.

On-line Access

These data have been provided in digital form to the City of Dover GIS department. Once a selection process is complete, select conservation lands will be available for display on the City's GIS website portal as a data layer.

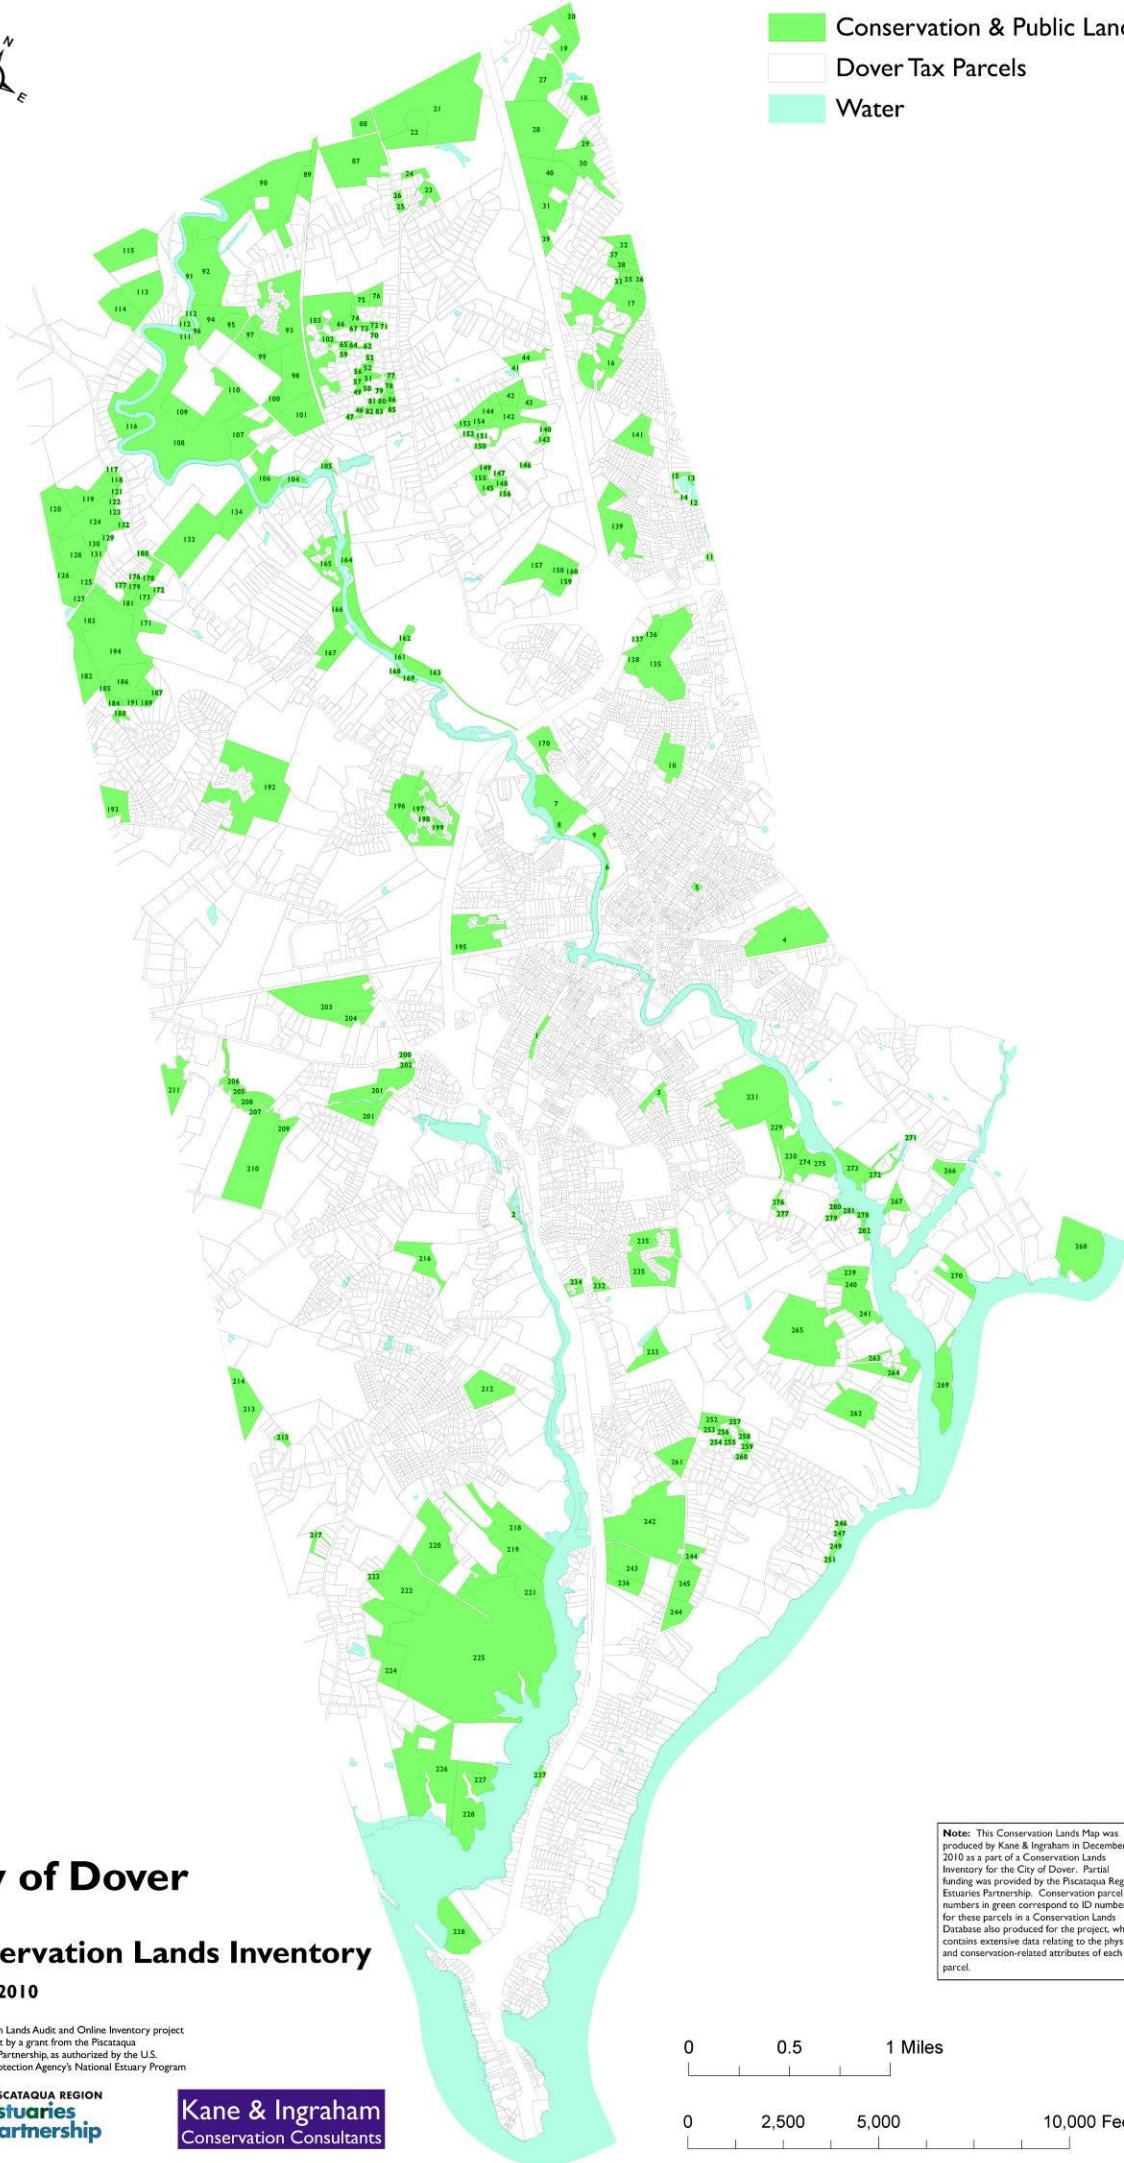

Conservation Parcel Profile Sheets

The enhanced ability of City staff to track individual tax parcels vis-à-vis any conservation restrictions is a useful outcome of this project. This will be especially useful for those parcels for which the City has stewardship responsibilities. In order to make the extensive data more accessible, 16 select salient fields of data were selected to display on individual sheets that can be filed by tax parcel. Appendix B is comprised of this complete set of Conservation Parcel Profile Sheets, provided in order of tax map, lot and subplot order (same order as Map ID).

Conservation Lands Inventory

January 2010

This Conservation Lands Audit and Online Inventory project was funded in part by a grant from the Piscataqua Region Estuaries Partnership, as authorized by the U.S. Environmental Protection Agency's National Estuary Program

Note: This Conservation Lands Map was produced by Kane & Ingraham in December, 2010 as a part of a Conservation Lands Inventory for the City of Dover. Partial funding was provided by the Piscataqua Region Estuaries Partnership. Conservation parcel numbers in green correspond to ID numbers for these parcels in a Conservation Lands Database also produced for the project, which contains extensive data relating to the physical and conservation-related attributes of each parcel.

Grantor: City of Dover

Grantee: Land and Community Heritage Investment Program Authority

Purposes: Purposes: To protect Property for agricultural, forestry, water quality, open space, public access, transitory low-impact outdoor recreation, and other conservation purposes (RSA 227-M).

Use Limitations: Deed conveys Executory Interest and Public Access subject to the following conditions: Public pedestrian access conveyed, on and across Property, for recreational purposes, but not camping. Grantor may post against / limit access for activities inconsistent with Purposes, or for public safety. Grantor reserved right to post against vehicles, hunting on active livestock field or during planting / growing season, or on forest land during active forestry. Conveyance of property prohibited. No construction, maintenance, or installation of physical improvements, no alteration of soil surface, except as necessary for allowed uses and purposes. Management according to stewardship plan, forestry according to scientifically-based practices. Activities and management not to materially impair scenic quality of property as viewed from public waterways, roads, trails, and not to harm State-listed rare species. No dumping, storage of hazardous materials, vehicle parts and bodies, etc. Annual inspection for compliance shall be assured by Grantor.

Property Name: Browne II Easement

Owner: CITY OF DOVER

Conservation Acres: *Reported Size:* 11.60 *Calculated size:* 11.35

Protection Type: Conservation Easement

Grantor: City of Dover

Grantee: Strafford Rivers Conservancy

Purposes: Purposes: To assure Property will be retained forever in open space, undeveloped condition, to prevent use that will impair / interfere with conservation values. A. Water quality and supply – The perpetual protection of the quality and yield of groundwater / surface water resources on the Property, to safeguard present / future community drinking supplies, and abutting water source Cotton Well / Blackwater Well. B. Preservation and conservation of open spaces, 11.6 acres of farm and forest land. C. Preservation of public scenic values of property as viewed from Blackwater Road.

Use Limitations: Prohibited Uses and Activities: Any activity inconsistent with Purposes is prohibited. A. No industrial / commercial activities except as otherwise permitted herein. B. No subdivision, division of ownership (except as permitted in Section III.B.) C. No structure, improvement such as a dwelling, tennis court, swimming pool, etc. except as necessary in accomplishment of allowed uses and approved by Grantee. D. No removal, filling, disturbance / erosion of soil surface, above / below water table, changes of topography except as necessary in conjunction with allowed uses (as further described). E. In sanitary zone no mining, excavation or removal of rocks, minerals, gravel, sand, topsoil, ground or surface water, except as otherwise permitted herein. 5 foot vertical minimum distance between altered land surface and high groundwater level, etc. F. No dumping, burial, storage, injection, etc. of man-made materials including construction debris, trash, tires, vehicle body parts, etc. or municipal plowed snow. G. No storage tanks with gaseous / liquid petroleum products. H. No substances that are a hazard to human health to be transported, used, stored, etc. I. Buildings / impervious materials as permitted in Section IV shall cover no more than 10% of property, if within sanitary zone, than subject to Grantee approval. J. Surface / groundwater quality shall be preserved, not polluted or degraded. K. Sustainable groundwater yield shall not be exceeded. L. No activities that would harm State-listed rare, threatened, endangered species.

Reserved Rights, etc: Permitted Uses and Activities: A. To develop and maintain a public water supply and associated facilities and improvements (as further described). B. To subdivide Property only as necessary to exercise right above (as further described). C. Agriculture / forestry allowed, including necessary improvements for this use according to management plan (as further described and restricted). D. Outdoor recreation allowed (specific uses in and outside sanitary zone listed). E. No activity / use detrimental or of threat to protection of preset and potential water municipal water system. Rights of Grantee listed.

Property Name: Frazer

Owner: FRAZER MARDEAN TRUSTEE

Conservation Acres: *Reported Size:* None *Calculated size:* 16.44

Protection Type: Conservation Easement

Grantor: Mardean Frazer, Trustee

Grantee: City of Dover

Purposes: Purposes: A. To ensure Property remains forever in scenic, open space and undeveloped condition. B. To provide limited public access, by reasonable advance notice, for education and promotion of easement conservation values. Intent to allow access as a part of organized groups: field trips, scouts, etc. not necessarily general access. C. To protect groundwater quality. D. To preserve valuable wooded land, wetlands, vernal pools, etc. and natural habitats / wildlife. E. To protect open space and water, forest, agricultural and wildlife resources, for scenic enjoyment of general public.

Use Limitations: Use Limitations: A. No industrial/commercial activities except limited agriculture, forestry, equine activities, all not to degrade productive capacity (allowed activities defined). B. No subdivision of easement area, but subdivision of said area from unrestricted land allowed (lengthy elaboration). C. No structures, improvements such as a dwelling, septic system, tennis courts, etc. No advertising structures except to identify property and trails/use, as mutually agreed upon with Grantee. D. No surface alterations, no filling, removal or disturbance of soils, topography, surface/sub-surface water systems, wetlands, etc. E. No mining, quarrying, extraction of minerals, sand, topsoil, etc. F. No dumping, burning, storage, etc. of synthetic or hazardous materials such as tires, refuse, vehicle parts, etc. G. No storage tanks for gases, petroleum products, etc. H. No substances hazardous to health. I. No (further) impervious surfaces, including buildings or paving. J. Water quality not to be degraded. K. No unsustainable water withdrawals. L. No activities that harm wildlife, listed species. M. No vehicles, motorized or wheeled, except for emergencies. No overnight camping, fires.

Reserved Rights, etc: Reserved Rights: A. To post against hunting, camping. B. To post against vehicles. C. To post against unlimited/general recreation inconsistent with Section 2.B above, signage to be mutually agreed upon by Grantor/Grantee. D. To mow fields. E. To develop replacement/expanded water wells/systems for residential/accessory use by structures on unrestricted land of Grantor. F. To maintain, repair, replace utilities to serve unrestricted Grantor land.

Property Name: Holley I

Owner: HOLLEY EDITH A TRUSTEE

Conservation Acres: *Reported Size:* 127.50 *Calculated size:* 90.01

Protection Type: Conservation Easement

Grantor: Edith A. Holley, trustee

Grantee: Strafford County Conservation District

Purposes: Purposes: To protect the Property's agricultural soils / viability / productivity in perpetuity, as well as additional conservation values. A. Preservation and conservation of open spaces, particularly 127.5 ac. of productive prime, statewide and local important soils, and farm/forest land and wildlife habitat, and scenic enjoyment of general public. B. Purposes consistent with Dover Master Plan. C. Purposes consistent with US IRS Code.

Use Limitations: Use Limitations: A. All agricultural operations must be in accordance with conservation plan prepared in consultation with NRCS and approved by Conservation District. NRCS reserves right to enter property following notice to monitor compliance. Provide copies of plan to NRCS and SCCD. B. Terms regarding compliance / non-compliance resolution process. C. If event NRCS standards for highly erodable land are revised, NRCS will work with Grantor to revise plan. D. Property to be used as open space without industrial/commercial activities, except agriculture/forestry (as defined and limited); E. Commercial Forestry defined. F. Commercial / industrial forestry goals defined. G. Forestry to be performed in accordance with a written forest management plan, submitted to Grantee at least 30 days prior to activities (etc, review procedures). H. FMP approval not to unreasonably be withheld, if clearcut/conversion proposed, must demonstrate consistency with plan, goals and Purposes. I. Forestry according to scientific principles and following erosion BMP's. J. In public areas forestry according to Jones Logging Aesthetics guide. K. No subdivision or separate conveyance or separate parcels. L. No structure or improvement including a dwelling, swimming pool, septic system, etc. unless necessary for agriculture/forestry/conservation/habitat management or non-commercial outdoor recreation. M. No removal/filling/disturbance of soils surface or changes in topography, water systems, wetlands, natural habitat except as necessary for allowed uses, and not to harm rare species. N. No outdoor advertising structures. O. No mining, quarrying, removal, etc. of rocks, mineral, gravel, topsoil, etc. except pursuant to allowed uses. P. No dumping/burial of hazardous materials. Production, storage,

etc. of pesticides, manure, etc. according to use labels and CP. Q. Maximum impervious surface of 2% (2.55 ac.) of easement area, to include structures permanent and temporary, roads, etc. R. Motorized vehicles prohibited except for farm vehicles, snowmobiles allowed. S. CE not to be used for density requirements. T. No granting of ROW, access easement or utilities, etc. without written approval of Grantee. U. Heavy use, large group activities prohibited.

Reserved Rights, etc: Reserved Rights: A. Right to use property for commercial/non-commercial forestry/agriculture, non-commercial low impact recreation as further qualified. B. To create ponds for fire protection and wildlife habitat according to NRCS approved plan. C. To erect, maintain signs to announce allowed uses, historically appropriate, and 10 ft² max. D. To erect signs with address, 10ft² max. E. To allow low-impact recreation and education of general public. F. To erect greenhouses, oe windmill and other structures (as qualified) but permanent/temporary residential/recreational structures (listed) prohibited. G. To drill and extract water for agricultural purposes, so as to minimize disturbance of important ag soils. H. To store/compost organic farm waste, and to import manure. I. To permit archological investigations (as defined and qualified). J. To permit or deny permission to use property for low-impact recreation, use secondary to agricultural values.

Purposes: Purposes: A. To assure Property is retained forever in undeveloped condition, to prevent significant impairment of conservation values. B. To preserve/protect natural wildlife habitat, conservation of wetlands/critical buffers. C. Protection of groundwater quality of Cotton Well, which abuts. D. Scenic enjoyment of general public (from Varney Road, Spaulding Turnpike). E. Preservation of land for outdoor recreation by general public for hiking, bird watching, etc. with prior written permission of Grantor.

Use Limitations: Use Limitations: A. Property to be maintained in perpetuity as open space without commercial / industrial activities except forestry/agriculture (as further defined) No use or activity inconsistent with CE terms. Forestry / agriculture according to written management plan (further defined) B. Property shall not be subdivided nor individual tracts conveyed separately (etc.). C. No structures, improvements including a dwelling, septic system, tennis court, road, etc. allowed, except ancillary structures/improvements as necessary for allowed uses and not detrimental to scenic, recreational, wildlife habitat protection purposes, and not to harm archeological/historic values. D. No removal, filling or disturbance of soils, topography, surface/subsurface water systems, wetlands, natural habitats unless commonly necessary for allowed uses, and do not harm NHP/NHL listed species, and do not impact wetlands, etc. and are not detrimental to CE Purposes. E. No outdoor signs except as desirable for allowed uses. F. No mining, quarrying, removal, etc. of rocks, gravel, etc. except pursuant to allowed uses, and none to be removed from Property. G. Waste from off-site not to be disposed of on Property. H. No dumping, burial, etc. of refuse/hazardous materials, etc. I. No acts that would degrade water quality (DES standard), result in unsustainable water withdrawal or harm listed species. J. Not to be used for density requirements. K. Activities may include community drinking water supply, other already allowed uses, according to stewardship plan with BMP's.

Reserved Rights, etc: Reserved Rights: A. To maintain, repair, replace existing utilities including power lines, waste disposal, etc. B. To create ponds for

agriculture, fire protection, wildlife according to NRCS developed plan, Grantee to receive 30 day advance written notice. C. To post against vehicles, hunting on active livestock fields, access to cropland during planting/growing season, to forestland during harvesting/planting.

Property Name: Estes

Owner: CORRIVEAU ROGER D

Conservation Acres: *Reported Size:* 0.82 *Calculated size:* 0.82

Protection Type: Conservation Easement

Grantor: Albert & Christine Estes

Grantee: City of Dover

Purposes: Purposes: 1. To assure Property will be retained forever in undeveloped, scenic, open space conditions, and to prevent impairment or interference with conservation values. 2. To protect unusual natural habitat of Reyner's Brook, adjacent wetlands, waterfowl habitat and beaver ponds. 3. To preserve open spaces, productive forestland, for scenic enjoyment of general public.

Use Limitations: Use Limitations: A. Property shall be maintained in perpetuity as open space without industrial or commercial activities, except agriculture and forestry (as defined in i). ii. Agriculture / forestry to be performed in accordance with coordinated management plan. B. No subdivision. C. No structure, improvement such as a dwelling, tennis court, swimming pool, etc. except as necessary in accomplishment of allowed uses. D. No changes in topography, surface / subsurface water systems, wetlands, natural habitats except as necessary in accomplishment of allowed uses, and in compliance with purposes, and not to harm rare species. E. No outdoor advertising signs / billboards except as necessary in accomplishment of allowed uses, and in compliance with Purposes. F. No mining, quarrying, etc. or removal of rocks, minerals, gravel, sand, etc. except in connection with allowed improvements. G. No dumping, injection, burial of hazardous materials, vehicle parts.

Reserved Rights, etc: Reserved Rights: A. To transfer development rights for use on land unencumbered by easement as allowed in Zoning Chapter 170. B. To allow utility crossings subject to Dover CC approval, provided all permits obtained, and not to permanently impair scenic quality or purposes. C. To develop public or private water supplies that do not adversely affect Reyner's Brook or adjacent wetlands / unique habitat. D. Advance written notification required.

Property Name: Day

Owner: DAY GEORGE TRUSTEE

Conservation Acres: *Reported Size:* 39.95 *Calculated size:* 39.22

Protection Type: Conservation Easement

Grantor: George R. Day, trustee

Grantee: City of Dover

Purposes: Purposes: A. To protect Property from future development, to conserve unique Property characteristics in present scenic / open space condition. B. To preserve biological diversity, native flora/fauna, environments, habitats, ecological processes. C. To preserve Property for scenic enjoyment of general public. D. To prevent uses/activities detrimental to drainage, flood control, water conservation/quality.

Use Limitations: Use Limitations: A. Except as otherwise described, Property to be maintained in perpetuity in undeveloped/natural condition. No use or activity inconsistent with CE terms. B. No structures, improvements including a dwelling, septic system, tennis court, road, etc. allowed (see Reserved Rights). C. Property shall not be subdivided nor individual tracts conveyed separately. D. Shall not be used to satisfy density requirements. E. No mining, quarrying, removal, etc. of rocks, gravel, etc. except pursuant to allowed uses, and no removal, filling or disturbance of soils, topography, surface/subsurface water systems, wetlands, natural habitats unless commonly necessary for allowed uses, and do not harm NHHNB listed species, and do not impact wetlands, etc. and are not detrimental to CE Purposes. F. No placing, dumping, burial, etc. of refuse/hazardous materials or vehicles/parts. G. No ROW, access/utility easements or roads, etc.

Reserved Rights, etc: Reserved Rights: To use Property for non-commercial agricultural and forestry uses, low-impact outdoor non-commercial recreation, to prevent pollution of water, soil or erosion; not to materially impair scenic quality; not degrade historic/archeological values. A. To conduct agricultural activities as defined. B. To use Property to harvest timber, wood products, construct and maintain permeable surface roads as necessary for such activities, and consistent with Purposes according to herein defined limits and forestry goals, according to a written FMP prepared or approved by licensed forester (etc. etc.) C. To construct/maintain fences, trails, culverts exclusively for on-site agriculture, forestry, recreation, etc. D. To install signs for allowed uses. E. To conduct organized archeological activities (NHDHR plan required). F. To post against

hunting, camping, motorized vehicles. G. To develop community drinking water supply to be owned by municipality that does not adversely affect Blackwater Brook (NHDES permit required). Public Access: Limited public access for hiking, fishing, etc. upon reasonable advance notice for education and promotion of conservation/cultural values, intent for organized group access.

Property Name: Holley III

Owner: HOLLEY EDITH TRUSTEE

Conservation Acres: *Reported Size:* 8.05 *Calculated size:* 7.87

Protection Type: Conservation Easement

Grantor: Edith A. Holley Revocable Trust

Grantee: USA (NRCS)

Purposes: Recitals / Purposes: A. Grantor owns subject property. B. Grassland and natural characteristics, etc. described in baseline documentation report. C. Grantor intends grassland, conservation values to be preserved, and intends to convey right to restore and conserve same. D. Acquisition authorized by Grassland Reserve Program. Term is perpetual.

Use Limitations: (Use Limitations): A. Grassland Uses – Grantor permitted to graze, hay, harvest, mow, conduct fire rehabilitation activities, etc. No mowing, harvesting during bird nesting season. B. Grantor reserves right to quiet use and enjoyment. C. Grantor not to perform acts inconsistent with purposes. D. No-perennial forage, seed production prohibited (except according to purposes). E. Tree, shrub nursery, fruit/nut production, aquaculture, etc. prohibited. F. Incidental lands may be maintained consistent with CE Deed purposes. G. No alteration of terrain except to restore/maintain grassland viability, prior permission required. H. No dumping, storing, etc. of waste, sewage, debris prohibited, except that animal waste may be applied as fertilizer, prior approval required. I. No mining, development, extraction, etc. of soil, sand, gravel, mineral, etc. except for subsurface exploration/extraction of oil, gas, minerals if disturbance is temporary, if Grantee determines it is consistent with purposes, prior approval necessary. J. Repair, maintenance, replacement of farm-related structures identified in Baseline Report permitted, but no expansion of footprint. New construction of same allowed with prior approval. K. Grantor may maintain watering facilities for livestock, wildlife, prior approval required. L. Existing fences may be repaired, replaced, new ones constructed. M. No paving or covering with concrete, asphalt, etc. and no such new roads. Existing roads may be maintained in current state. N. Trees may be cut to control insects, disease, injury, property damage, for personal firewood, fence construction. Any commercial forestry according to forest management plan. O. Passive recreation allowed such as hiking, hunting, fishing that do not impair grassland, etc. P. No motorized vehicles except for allowed uses, and no courses for snowmobiles, ATV's, etc. allowed. Q. Property not to be subdivided except as

permitted in deed. No signs except for trespassing, property ID, sale, etc. 15 ft. square max. S. I Introduction, cultivation, use of exotic species prohibited. T. Subdivision allowed according to deed terms. U. Installation / relocation of public / private utilities prohibited. (see further terms). Grantor reserves right to water rights (see examples) W. Restoration allowed subject to approval.

Reserved Rights, etc: Affirmative Rights: A. Grantor agrees to implement Conservation Plan (see further terms). B. Grantor responsible for noxious weed/pest control. C. Commercial forestry only in accordance with forest management plan, to be provided to Grantee.

Purposes: Purposes: 1. To ensure Property will remain forever in its scenic / open space condition, and undeveloped except for limited uses (as specified). 2. To provide the public with recreational access between Strafford County Farm to south, and Dover Tax Lot B-11-G. 3. To protect the unusual habitat of the Cocheco River. 4. To preserve open spaces, particularly productive forest land, for scenic enjoyment of general public.

Use Limitations: Use Limitations: 1. Property shall be maintained in perpetuity as open space for recreational access, and other conservation, equine, agricultural and forestry activities (as specified, allowed uses defined). 2. No industrial / commercial activities except equine, agricultural and forest activities (as specified and defined). 3. No structure or improvement such as a dwelling, tennis court, swimming pool, road, etc. except as reasonably required to accomplish equine, agricultural, forestry, habitat management, conservation and recreational uses. 4. No changes in topography, surface / sub-surface water systems, wetlands, natural habitat that would harm rare species, and otherwise none except as necessary to accomplish equine, agricultural, forestry, habitat management, conservation and recreational uses. 5. No outdoor advertising structures such as signs and billboards except for allowed uses including trail markers for instance. Signs to discourage access to unrestricted land of Grantor allowed. 6. No mining, quarrying, removal, etc. of rocks, gravel, soil, minerals, etc. except for allowed uses. No removal of said materials from encumbered property. 7. No dumping, injection, burial of hazardous materials including vehicle bodies / parts.

Reserved Rights, etc: Reserved Rights: 1. To post property against hunting. 2. To post property against use by motorized vehicles, except snowmobiles. 3. To develop public or private water supplies provided they do not adversely affect Cocheco River, adjacent wetlands, or unique habitat. 4. To maintain, repair / replace utilities that serve Unrestricted Lands of Grantor. 5. To conduct forestry activities limited to removal of diseased / hazardous trees, salvage cuts and forestry in accordance with forestry management plan mutually agreeable to

Grantee and Grantor. Prior written notice required. Affirmative Rights of Grantee: 1. To construct, manage, use and maintain a public footpath not greater than 15 ft. in width to link aforesaid abutting properties. Design and location to be mutually agreed upon by Grantor and Grantee, including consideration of equine jumps. 2. To create, construct, manage, use and maintain vistas / overlooks associated with said trail, location to be mutually agreed upon by Grantor and Grantee. 3. To construct, manage, use and maintain a bridge to allow access over Dead Water Brook, but not an obligation build said bridge. 4. To reasonably access Property for inspection to determine compliance. Assurances of Grantee: As Specified in Section G.

Purposes:

1. To ensure Property remains forever in scenic / open space, undeveloped condition except for limited allowed uses, to prevent impairment of scenic / conservation values.
2. To provide public recreational access between Strafford County property to south (SPNHF CE) and Gabriel Easement property (Dover CE) at confluence of Cocheco and Dead Water Brook.
3. To protect valuable natural habitat of Cocheco River.
4. To preserve open spaces, productive forest land, for scenic enjoyment of public.

Use Limitations:

1. Property shall be maintained in perpetuity as open space for recreational access and conservation, equine, agricultural and forestry activities (as specified) provided productive capacity for forest / agricultural products is not degraded.
 - 1a. Allowed equine activities defined.
 - 1b. Allowed agricultural and forestry activities defined.
 - 1c. Agriculture and forestry to be performed according to a coordinated management plan based on scientific principles, and not to materially impair scenic quality as viewed from public waterways, ponds, roads and trails.
2. No industrial / commercial activities except for otherwise allowed uses.
3. No structures, improvements such as dwelling, tennis court, pool, road, etc. except as reasonable required for allowed uses. Temporary equine structures allowed.
4. No changes in topography, surface/subsurface water systems, and no harm to rare/threatened/endangered species.
5. No outdoor advertising structures except as reasonably necessary for allowed uses.
6. No mining, quarrying, etc. of soil, sand, gravel, etc. except in connection with allowed uses, and no removal of same from Property.
7. Property not to be used to meet designated open space (zoning/subdivision) requirements.

Reserved Rights, etc: Reserved Rights:

1. To post against hunting / camping.
2. To post against use of motorized vehicles.
3. To restrict access on agricultural cropland during planting / growing season that does not preclude access to other portions of Property.
4. To mow fields that were in existence at closing.
5. To designate the area for pedestrian access.
6. To develop public / private water supplies as not to adversely affect Cocheco River and associated wetlands / habitats.

7. To maintain, repair, etc. utilities that serve unrestricted Grantor's land. 8. To conduct forestry activities limited to removal of hazard / diseased trees, etc. according to forestry management plan that does not impair scenic qualities. Affirmative Grantee Rights: 1. Construct, maintain, use, etc. public trail / footpath not greater than 15ft. wide to link to aforementioned properties. Location to be mutually agreed on. 2. Create, construct, etc. vistas and overlooks associated with above trail. 3. Construct, manage, use, etc. a bridge or other trail system over Dear Water Brook (to property specified). 4. Post signs for ID of easement property.

Property Name: Strafford County Farm - S.P.C.E. #5

Owner: STRAFFORD COUNTY

Conservation Acres: *Reported Size:* 19.53 *Calculated size:* 20.49

Protection Type: Conservation Easement

Grantor: Strafford County

Grantee: Society for the Protection of NH Forests

Purposes: (A) provide access to the Cocheco River and to protect scenic roadway frontage (County Farm Road), (B) to protect diverse habitat including that for golden-winged warbler, northern harrier, upland sandpiper, and osprey, and to expand and enhance nearby protected lands, (C) to protect productive agricultural and forest land, (D) to protect groundwater resources, and (E) to preserve historic (Strafford County Asylum site), cultural, and archaeological features.

Use Limitations: (A) the property shall be maintained as open space with agriculture and forestry allowed subject to best practices(see easement) and management plans, (B) the property shall not be subdivided, (C) no structures shall be built except as to facilitate allowed uses, (D) no removal of soil or filling of wetlands, (E) no advertising signs/billboards, (F) no excavation of any substrate, (G) no dumping, (H) public access must be allowed for passive recreation

Reserved Rights, etc: Reserved Rights: (A) groundwater withdrawal and testing and drilling to facilitate such, (B) management of existing utilities, (C) maintenance of detention pond, (D) archaeological investigation

SCRD Book & Page: 17/2661/222 **Date:** 20021231

SCRD Plan: 68-5 through 68-11 **GRANIT Number:** 155-028 -001

Dover Conservation Parcel Profile: Map ID 102 1/2011

Tax Parcel: B-21-32

Property Name: Haven Farm

Owner: FARMHAVEN DEVELOPMENT ASSOCIATES LLC

Conservation Acres: *Reported Size:* 2.42 *Calculated size:* 2.42

Protection Type: Conservation Easement

Grantor: Farmhaven Development Associates, LLC

Grantee: City of Dover

Purposes: Purposes: A. To protect property from future development, to conserve and maintain unique characteristics of property substantially in scenic and open space condition. B. To conserve soil productivity for long-term forest/agricultural capacity. C. To preserve biological diversity, native flora/fauna, environments, habitats, ecological processes. D. To preserve Property for scenic enjoyment of general public. E. To prevent uses/activities detrimental to drainage, flood control, water conservation/quality, etc.

Use Limitations: Use Limitations: 1. Property to be maintained in perpetuity as open space, free from industrial / commercial activities, except forestry as qualified. Management plan, etc. required. 2. No subdivision unless approved by Grantee, Planning Board. 3. No structures, improvements except walking trails. 4. No removal, filling or disturbance of soils, topography, surface/subsurface water systems, wetlands, natural habitats. 5. No removal of topsoil, material, etc. 6. No dumping, burial, etc. of refuse/hazardous materials. 7. No advertising structures, signs, billboards. 8. No motorized vehicles except for forestry allowed. 9. Grantor reserves right to repair property damages. 10. Public bicycle/pedestrian access to trail from Boxwood Lane to Eric Drive allowed.

Reserved Rights, etc: Reserved Rights: A. To maintain, repair, replace utilities that serve unrestricted lands. B. To develop public or private water supplies that do not adversely affect adjacent wetlands, unique habitat. C. To post against hunting. D. To post against motorized vehicle use. E. To conduct forestry, salvage cuts, according to a management plan. F. to exercise aforesaid rights. (Also Affirmative Rights of Grantee listed.)

Grantor: Sherri L. Towle

Grantee: Strafford Rivers Conservancy

Purposes: Purposes: A. To assure Property is retained forever in undeveloped, scenic, open space condition and to prevent use that will impair conservation values. B. To preserve and protect natural wildlife habitat, conservation of wetlands and riparian zones, and critical buffers to that habitat. C. Preservation / conservation of productive farm and forest land, wetlands, critical wildlife habitat undeveloped frontage on Cocheco River. D. Long-term protection of capacity to produce economically valuable / sustainable source of agricultural / forestry products. E. Scenic enjoyment of general public of view shed of Cocheco River. F. Preservation of land for public outdoor recreation including hiking, cross-country skiing, hunting (the last by permission), etc. G. Protection of natural habitat for wildlife.

Use Limitations: Use Limitations: A. Property shall be maintained in perpetuity as open space without industrial / commercial activities except agriculture and forestry, and not to degrade productive capacity of property (as specified and defined). B. No subdivision or separate conveyance of parcels. C. No structure or improvement such as a dwelling, tennis court, swimming pool, road, etc. except as reasonably required to accomplish agricultural, forestry, conservation and recreational uses (further specified and restricted). D. No removal, filling, disturbance of soil surface, changes in topography, surface / sub-surface water systems, wetlands, natural habitat that would harm rare species, and otherwise none except as necessary to accomplish allowed uses. E. No outdoor advertising structures such as signs and billboards except for allowed uses. F. No mining, quarrying, removal, etc. of rocks, gravel, soil, minerals, etc. except for allowed uses. No removal of said materials from encumbered property. G. No dumping, injection, burial of hazardous materials. H. Property not to be used to meet open space requirements for subdivision approval.

Reserved Rights, etc: Affirmative Rights of Grantee: A. Grantee shall have reasonable access to Property for inspection, compliance. B. Hereby conveyed pedestrian access on and across Property for fishing, transitory passive recreation, but not camping, by general public, but not across unrestricted other land of Grantor. C. Grantee shall have right to

post signs identifying Property as conservation land. D. Grantee has right to construct, manage, use and maintain a public footpath and to erect signs for same, location may be changed from time to time.

Property Name: Measured Progress

Owner: 171 WATSON RD OF DOVER HOLDING CORP

Conservation Acres: *Reported Size:* None *Calculated size:* 11.16

Protection Type: Conservation Easement

Grantor: 171 Watson Road of Dover Holding Corporation

Grantee: City of Dover

Purposes: Conservation Purposes: "To preserve open spaces for the scenic enjoyment of the citizens of Dover and their invitees consistent with New Hampshire RSA 79-A: 1..." 1. Easement area to be forever retained in undeveloped condition. 2. To Protect Easement Area from future development, to conserve, preserve, maintain in present scenic, open space condition, endowed with scenic, cultural, natural resource significance. 3. To preserve biological diversity, native flora and fauna, environments, habitats and ecological processes which support them now and as they may evolve. 4. To prevent any use/activity which would be detrimental to drainage, flood control, water conservation and quality, erosion control, or any activity with potential to interfere with or impair conservation values. 5. Consistent with IRS Code Section 170(h).

Use Limitations: Use Limitations and Reserved Rights, etc.: 1. No motorized vehicles or equipment including snowmobiles except for temporary maintenance, permitted improvements. Use only for passive conservation/recreation including XC skiing, walking, fishing, etc. Grantor reserves right to restrict bicycles, no fires, barbeques. 2. Public access shall be provided, but restricted to entry along sewer easement off Watson Road to Liberty Mutual land. 3. Those using easement area shall not interfere with other land/buildings of Grantor, and access only during daylight hours unless otherwise arranged. 4. No trash or debris. 5. No firing or carrying of weapons, nor camping, or alcoholic beverages. 6. Right to post signs to identify access, and for conservation purposes. 7. Grantee retains perpetual right to patrol, maintain, clean easement area, with prior notification. 8. Grantee shall at its own cost provide an attractive and suitable limited entrance at Watson Road end, such as boulders, gates, etc. to allow access but prevent motorized vehicles. 9. Grantee shall have right to improve easement area by constructing path(s) for public use, and associated improvements. 10. Grantor reserved right to use Property for its personnel or invitees, including picnics, temporary placement of tables, gazebos, minor structures. Also the right to use easement area as credit for wetlands approvals, etc. and to use all or a portion of sewer easement as needed for constructing a

secondary access to other Grantor land or Measured Progress land that will then NOT be for general public use. Reference to Dover Planning Board approval of this concept. 11. Grantor and Grantee each have right to enforce violations by a third party.

Reserved Rights, etc: p. 1. Reserved Rights and Use Limitations shall control if in conflict with Purposes.

Property Name: Washington Highlands

Owner: DOUGLAS DODD GENERAL CONTRACTOR INC

Conservation Acres: *Reported Size:* 23.22 *Calculated size:* 23.30

Protection Type: Conservation Easement

Grantor: Douglas Dodd General Contractor, Inc.

Grantee: City of Dover

Purposes: Purposes: To assure Property will be retained forever in undeveloped condition, and to prevent impairment or interference with conservation values. Washington Highlands Homeowners Association may adopt management plan to protect natural condition, and protect against invasive species, plan to be developed in consultation with Strafford County Conservation District.

Use Limitations: Use Limitations: 1. Property shall be maintained in perpetuity as in undeveloped / natural condition without industrial or commercial activities and be maintained in natural vegetative state. 2. Ownership of Property shall not be transferred in any manner contrary to subdivision/conveyance approvals on Plan ("to be owned in common with 24 lot owners") unless approved by Grantee (as specified further). 3. No structure / improvement except walking trails. 4. No removal, filling, disturbance of surface / subsurface soils, changes in topography, surface / subsurface water systems, wetlands, natural habitats. 5. No excavation or removal of rocks, minerals, gravel, sand, topsoil, etc. 6. No dumping, injection, burial of hazardous materials, or dumping, burning, etc. of garbage building debris, yard waste, etc. foreign to Property. 7. No outdoor advertising structures such as signs and billboards except for allowed informational / conservation purposes. 8. No use of motorized vehicles. 9. Grantor reserves right to repair damages in conformance with conservation purpose.

Reserved Rights, etc: Reserved Rights of Grantee: 1. Right to access to entire property to maintain boundaries, determine compliance, etc. 2. Right to post signs for conservation purposes. 3. Right to repair damage in conformance with purposes. 4. To make alterations deemed necessary to prevent harm to conservation values caused by resident wildlife.

Tax Parcel: H-56-**Property Name:** Dowaliby Easement**Owner:** CITY OF DOVER**Conservation Acres:** *Reported Size:* 5.60 *Calculated size:* 5.32**Protection Type:** Conservation Easement**Grantor:** City of Dover**Grantee:** Strafford Rivers Conservancy

Purposes: Purposes: To assure Property will be retained forever in open space, undeveloped condition, to prevent use that will impair / interfere with conservation values. Water quality and supply – The perpetual protection of the quality and yield of groundwater / surface water resources on the Property, to safeguard present / future community drinking supplies, and abutting water source Ireland Well. B. Preservation and conservation of open spaces, 5.6 acres of productive farm / forest land, wetlands, 430 ft. frontage on Bellamy River. C. Preservation of public scenic values of property as viewed from Bellamy River.

Use Limitations: Prohibited Uses and Activities: Any activity inconsistent with Purposes is prohibited. A. No industrial / commercial activities except as otherwise permitted herein. B. No subdivision, division of ownership (except as permitted in Section III.B.) C. No structure, improvement such as a dwelling, tennis court, swimming pool, etc. except as necessary in accomplishment of allowed uses and approved by Grantee. D. No removal, filling, disturbance / erosion of soil surface, above / below water table, changes of topography except as necessary in conjunction with allowed uses (as further described). E. In sanitary zone no mining, excavation or removal of rocks, minerals, gravel, sand, topsoil, ground or surface water, except as otherwise permitted herein. 5 foot vertical minimum distance between altered land surface and high groundwater level, etc. F. No dumping, burial, storage, injection, etc. of man-made materials including construction debris, trash, tires, vehicle body parts, etc. or municipal plowed snow. G. No storage tanks with gaseous / liquid petroleum products. H. No substances that are a hazard to human health to be transported, used, stored, etc. I. Buildings / impervious materials as permitted in Section IV shall cover no more than 10% of property, if within sanitary zone, than subject to Grantee approval. J. Surface / groundwater quality shall be preserved, not polluted or degraded. K. Sustainable groundwater yield shall not be exceeded. L. No activities that would harm State-listed rare, threatened, endangered species. M. No activity which is detrimental or a threat to conservation purposes.

Reserved Rights, etc: Permitted Uses and Activities: A. To develop and maintain a public water supply and associated facilities and improvements (as further described). B. To subdivide Property only as necessary to exercise right above (as further described). C. Agriculture / forestry allowed, including necessary improvements for this use according to management plan (as further described and restricted). D. Outdoor recreation allowed (specific uses in and outside sanitary zone listed). E. No activity / use detrimental or of threat to protection of preset and potential water municipal water system. Rights of Grantee listed.

Property Name: Martineau, Raymond trustee

Owner: DOVER RETIREMENT RESIDENCE LLC

Conservation Acres: *Reported Size:* 14.27 *Calculated size:* 14.44

Protection Type: Conservation Easement

Grantor: Raymond J. Martineau, Jr, trustee

Grantee: City of Dover

Purposes: Purposes: A. To preserve, protect in perpetuity the natural vegetation, soils, hydrology, natural habitat and scenic/aesthetic character of Property. B. To prevent future development, construction, use that would impair conservation values (see Reserved Rights). C. Consistent with Dover Master Plan.

Use Limitations: Use Limitations: A. A. Property to be maintained in perpetuity in undeveloped/natural condition. No use or activity inconsistent with CE terms. B. Property shall not be subdivided. C. No structures, improvements including a dwelling, septic system, tennis court, road, etc. allowed, except as necessary in development of Back River Road Retirement Residence, to minimize detriment to Purposes. D. No removal, filling or disturbance of soils, topography, surface/subsurface water systems, wetlands, natural habitats unless commonly necessary for allowed uses, and do not harm NHHNB listed species, and do not impact wetlands, etc. and are not detrimental to CE Purposes. E. No outdoor signs except as desirable for allowed uses, and 5 ft² max. F. No mining, quarrying, removal, etc. of rocks, gravel, etc. except pursuant to allowed uses, and none to be removed from Property. G. No dumping, burial, etc. of refuse/hazardous materials, vehicles/parts.

Reserved Rights, etc: Reserved Rights: A. To develop installation of utilities shown on approved plan for development of Back River Road Retirement Residence, and utilities (further specified). B. To establish, maintain walking trails, minor ancillary structures and improvements such as bridges, benches, etc. that do not impact wetlands, intended for residents of said Residence. C. To conduct non-commercial forestry including thinning, etc. according to a plan. D. 30 day prior written notification to Grantee required.

Purposes: Purposes: A. To protect Property from future development, to conserve / maintain unique characteristics in present scenic and open space condition. B. To conserve soil productivity / promote long-term capacity to produce economically valuable forest / agricultural products. C. To preserve biological diversity, native flora / fauna, natural habitats and processes. D. To preserve Property for scenic enjoyment of general public. E. To prevent any activity detrimental to drainage, flood control, water conservation, water quality, or unique qualities, conservation / preservation of property.

Use Limitations: Use Limitations: A. Property to be maintained in perpetuity as undeveloped open space. No use or activity inconsistent with CE Purposes. B. Except as otherwise permitted in CE, no commercial, industrial, residential activities, no structures, improvements including a dwelling, septic system (etc., listed) C. Property shall not be subdivided, nor separate parcels conveyed. D. Not to be used to satisfy zoning/subdivision requirements. E. No removal, filling or disturbance of soils, topography, surface/subsurface water systems, wetlands, natural habitats unless commonly necessary for allowed uses, and do not harm NHNHB listed species, and do not impact wetlands, etc. and are not detrimental to CE Purposes. F. No dumping, burial, storage, etc. of refuse/hazardous materials, vehicles/parts, fertilizer, etc. G. No additional ROW, access easement, etc.

Reserved Rights, etc: Reserved Rights: To use property for commercial/ non-commercial agriculture and forestry, low-impact non-commercial outdoor recreation provided they shall not a) Be inconsistent with Purposes, b) Degrade agricultural/forest capacity, c) Cause significant pollution / degradation of waters, soil, erosion, d) Materially impair scenic quality of public from roads, trails, waters, e) degrade historic / archeological values. A. Grantor retains right to conduct agricultural activities (as defined) and maintain permeable surface roads for such. (Agriculture defined) B. Grantor retains right to harvest timber, etc. and construct / maintain permeable roads 1. Commercial and non-commercial defined, 2. Forestry in accordance

with goals as listed. 3. Forestry shall be performed according to management plan by liscenced forester ot other qualified person, no more than 10 years old, etc. 4. Grantee approval not unreasobably withheld as long as in complienace with purposes, etc. 5. Forestry acording to applicable laws and regs. 6. Areas visible to public, in accordance with Jones, G. 1993 publication. C. Retains right to construct, maintain ancillary structures for allowed uses including dam, shed, fence, etc. of appropriate materials, D. Right to install signs, E. To professionally conduct archological activities. Public Access: No affirmative obligation of public access.

Purposes: Purposes: To protect the Property's agricultural soils / viability / productivity in perpetuity, as well as additional conservation values. A. Preservation and conservation of open spaces, particularly 11 ac. of productive prime, statewide and local important soils, and farm/forest land and wildlife habitat, and scenic enjoyment of general public. B. Purposes consistent with Dover Master Plan. C. Purposes consistent with US IRS Code.

Use Limitations: Use Limitations: A. All agricultural operations must be in accordance with conservation plan prepared by NRCS. B. NRCS reserves right to enter property following notice to monitor compliance. Terms regarding compliance / non-compliance resolution process. Plan to be provided to Grantee and SRC. C. In event NRCS standards for highly erodible land are revised, NRCS will work with Grantor to revise plan. D. Property to be maintained in perpetuity as open space without industrial/commercial activities, except agriculture/forestry (as defined and limited); E. No subdivision or separate conveyance of separate parcels. F. No structure or improvement including a dwelling, swimming pool, septic system, etc. unless necessary for agriculture/forestry/conservation/habitat management or non-commercial outdoor recreation, subject to impervious surface limit (K below). G. No removal/filling/disturbance of soils surface or changes in topography, water systems, wetlands, natural habitat except as necessary for allowed uses, and not to harm rare species, etc. H. No outdoor advertising structures except for allowed uses, and 10 ft² max or max allowed by Dover. I. No mining, quarrying, removal, etc. of rocks, mineral, gravel, topsoil, etc. except pursuant to allowed uses. J. No dumping/burial of hazardous materials. Production, storage, etc. of pesticides, manure, etc. according to use labels and CP. K. Maximum impervious surface of 1 ac. of easement area, to include structures permanent and temporary, roads, etc. L. Motorized vehicles prohibited except for farm operations. M. CE not to be used for density requirements.

Reserved Rights, etc: Reserved Rights: A. To create ponds for fire protection and wildlife habitat according to NRCS approved plan. B. To post against

hunting, fishing, public access from time to time. C. To stockpile and compost stumps, brush, tree limbs (all untreated or unpainted) biodegradable debris from Property, and to import, store and use max of 50% of this amount on Property. D. To convert forest land to farm land according to NRCS Conservation Plan. E. To lease Ag land to one or more parties. F. To permit archeological investigations (as defined, qualified). BLDR in file.

Tax Parcel: M-100A-**Property Name:** Hunt**Owner:** HUNT NANCY E**Conservation Acres:** *Reported Size:* 59.30 *Calculated size:* 59.19**Protection Type:** Conservation Easement**Grantor:** William C. & Nancy Hunt**Grantee:** Strafford Rivers Conservancy

Purposes: Purposes: To protect the Property's important agricultural soils / viability / productivity in perpetuity, as well as additional conservation values. A. Preservation and conservation of open spaces, particularly 59.3 ac. of productive prime, statewide and locally important soils, and farm/forest land and wildlife habitat, and scenic enjoyment of general public. B. Purposes consistent with Dover Master Plan. C. Purposes consistent with NH RSA 79-A:1. D. To provide public with recreational access to trails as designated by owner.

Use Limitations: Use Limitations: A. All agricultural operations must be in accordance with conservation plan prepared by NRCS. NRCS reserves right to enter property following notice to monitor compliance. B. Terms regarding compliance / non-compliance resolution process. C. In event NRCS standards for highly erodible land are revised, NRCS will work with Grantor to revise plan. D. Property to be maintained in perpetuity as open space without industrial/commercial activities, except agriculture/forestry (as defined and limited); E. No subdivision or separate conveyance of separate parcels. F. No structure or improvement including a dwelling, swimming pool, septic system, etc. unless necessary for agriculture/forestry/conservation/habitat management or non-commercial outdoor recreation, subject to impervious surface limit (K below). G. No removal/filling/disturbance of soils surface or changes in topography, water systems, wetlands, natural habitat except as necessary for allowed uses, and not to harm rare species, etc. H. No outdoor advertising structures except for allowed uses, and 10 ft² max or max allowed by Dover. I. No mining, quarrying, removal, etc. of rocks, mineral, gravel, topsoil, etc. except pursuant to allowed uses. J. No dumping/burial of hazardous materials. Production, storage, etc. of pesticides, manure, etc. according to use labels and CP. K. Maximum impervious surface of 1 ac. of easement area, to include structures permanent and temporary, roads, etc. L. Motorized vehicles prohibited except for farm operations, fire protection / safety. M. CE not to be used for density requirements.

Reserved Rights, etc: Reserved Rights: A. To create ponds for fire protection and wildlife habitat according to NRCS approved plan. B. To post against hunting, fishing, public access from time to time. C. To stockpile and compost stumps, brush, tree limbs (all untreated or unpainted) biodegradable debris from Property, and to import, store and use max of 50% of this amount on Property. D. To convert forest land to farm land according to NRCS Conservation Plan. E. To lease Ag land to one or more parties. F. To permit archeological investigations (as defined, qualified). G. To designate specific areas for pedestrian / equine access to property. Public access limited to trails if designated by Grantor. All trails off important ag soils to extent possible.

Property Name: Three Rivers Farm

Owner: SKLAR DANIEL W TRUSTEE

Conservation Acres: *Reported Size:* 17.70 *Calculated size:* 21.50

Protection Type: Conservation Easement

Grantor: Lucius Hallett III, John D. Davis, et al

Grantee: Strafford Rivers Conservancy

Purposes: Purposes: A. To assure Property will be retained forever in open space, undeveloped condition, to prevent use that will impair / interfere with conservation values. B. Preservation of open spaces, 5,400 ft. of frontage on Salmon Falls and Cocheco Rivers, for scenic enjoyment of general public.

Use Limitations: Use Restrictions: A. Property to be maintained in perpetuity as open space, wildlife habitat and farmland, with no industrial / commercial use. B. No subdivision or property division. C. No structure, improvement such as a dwelling, tennis court, swimming pool, etc. except as necessary in accomplishment of allowed uses. D. No removal, filling, disturbance / erosion of soil surface, above / below water table, changes of topography except as necessary in conjunction with allowed uses, and not to harm rare species. E. No outdoor advertising structures such as signs and billboards except for allowed conservation purposes. F. No excavation or removal of rocks, minerals, gravel, sand, topsoil, etc. except for allowed conservation purposes. G. No dumping, injection, burial of hazardous materials, or dumping, burning, etc. of garbage building debris, yard waste, etc. H. No hunting / firing of firearms, except for common pests. I. No motorized / manufactured vehicles without written permission of Grantee, except for allowed uses. J. No fires. K. No camping except for sleeping in open or in tent for one night. L. No formal functions that include tents, tables, chairs, dance floors, catered refreshments, except for burial service.

Reserved Rights, etc: Reserved Rights of Grantor: All rights not prohibited by easement. A. To drive to and on property on established dirt driveway (see plan) for access only, and no motorized vehicles allowed for recreational purposes. B. To mow fields at Grantor's expense. C. To mow Rollins cemetery and use it for burial of Rollins descendants (see plan). D. To convey Lots in Three Rivers Subdivision to Rollins descendants, and to pass / repass accordingly. E. To use property for reasonable recreational purposes (non-motorized). Rights of Grantee listed.

City of Dover

Conservation Lands Inventory

January 2011

This Conservation Lands Audit and Online Inventory project was funded in part by a grant from the Piscataqua Region Estuaries Partnership, as authorized by the U.S. Environmental Protection Agency's National Estuary Program

Note: This Conservation Lands Map was produced by Kane & Ingraham in January, 2011 as a part of a Conservation Lands Inventory for the City of Dover. Partial funding was provided by the Piscataqua Region Estuaries Partnership. Conservation parcel numbers in green correspond to ID numbers for these parcels in a Conservation Lands Database also produced for the project, which contains extensive data relating to the physical and conservation-related attributes of each parcel.
