R E P O R T
OF THE
SUPERINTENDING SCHOOL COMMITTEE
FOR THE
T O W N O F A L E X A N D R I A ,
FOR THE YEAR ENDING MARCH 1, 1882.

Each school district has received \$81.34 the past year as its proportion of the public funds for the support of schools, an increase of \$28.17 over the previous year. In addition to this, several of the districts have contributed the board, thus giving longer terms than they would otherwise have. Each district has had two terms except Nos. 1 and 2, which have had one term each, in the fall. There have been in attendance 200 scholars. These generally, at their examinations, have shown that they have made good proficiency. Some have excelled, and there are in our schools many capable scholars of whom we may justly be proud.

In relation to text-books, an exchange of arithmetics has been effected without expense, giving to each scholar Robinson's Complete Arithmetic in exchange for whatever arithmetic the scholar might be using, thus removing the variety of old books, and giving an opportunity for well regulated classes. We have also signed the adoption papers for Worcester's New Spellers, to take the place of all spellers now used in our schools. They are to be introduced in the spring, the greater portion of our pupils being in need of a new speller. The exchange is made

at the trifling expense of eight cents for the smaller book, and ten for the larger one. These books are a great improvement on those now in use, and also contain much information of interest.

During the past year District No. 1 has built a school-house. The citizens of this district deserve special commendation for the zeal with which they have labored to secure so pleasant and comfortable a building for their scholars. It is constructed and furnished in modern style, and is an ornament to the town. It is hoped that all other districts may make such repairs as are necessary for the health and comfort of the scholars.

While we make the general statement that all of our teachers have seemingly been faithful to their charge, we make no mention of the special fitness of individual teachers for the work of teaching in our district schools; but there is not one among us who does not know that there is a difference in the labor of those possessed of equal strength and ability, according to the tact and interest shown in that labor. To become a good teacher one should have a thorough education coupled with an enthusiastic love for the work, and to secure such a teacher should be the first duty of the prudential committee. The majority of our teachers the past year have been graduates and advanced students, and have taught successfully the higher English branches and Latin, thus raising the standard of our schools, and giving all a chance to obtain a substantial education.

A word in regard to the registers. But eight of the fourteen teachers employed for the last term of the school year have answered the last eleven questions of the summary. Five have left the last twenty questions unanswered. In order to make out a correct statistical report, which must each year be returned to the Superintendent of Public Instruction, every question must be answered. The last eleven items can be obtained by consulting the prudential committee of the district. If the teacher does not obtain these items, the superintending committee must, which is a matter of much inconvenience. It is a part of each teacher's work to return a correct record for the

term or year, as the case may be, and the work is not complete until this is done.

The general prosperity of our schools during the past year must be gratifying to all interested in the cause of education. But while exactness and thoroughness of scholarship should be sought, strictly in connection with the welfare of our schools, and underlying all things else, are home influences, making that old proverb true,—“As the twig is bent, the tree is inclined.” Morality is the sure basis upon which to found an education—the corner-stone upon which we build our future hope.

C. N. PLUMER, *S. S. Committee.*

Alexandria, Feb. 24, 1882.

ROLL OF HONOR.

DISTRICT No. 2.—Mamie Taylor, Mary Pattee.
