AUDITORS’ REPORT.

We have examined the report of the committee of Special School District and find figures cast correct.

A. E. CHOATE, H. P. MORSE, Auditors.
First term commenced April 22, 1895, and closed June 28, 1895.
Third term " Dec. 16, 1895, and is still in session.

By an Act of the Legislature of 1895, School Boards are required to make their annual reports to the Selectmen and the Superintendent of Public Instruction in August, instead of March, as heretofore. Accordingly, your Committee made their Report in August last; and as our schools are now in session, and our School Registers not yet completed, we cannot here make an elaborate report, or exhibit in tabular form the status of our schools, as has heretofore usually been done. We will, however, present a few brief statements in regard to them.

Owing to the fact that the school-money of last year was not all expended, we are having rather more weeks of schooling this year than has usually been the case. This, together with the fact that the schools were stopped two weeks during the Fall term on account of prevailing sickness, is the reason why the Winter term is still in session, having just ended its fifteenth week.

We think the school has been fortunate in having the services of competent teachers, who, with unswerving rectitude, have endeavored to do their whole duty. The best of feeling has seemed to prevail between teachers and scholars, and we have thus far heard very few complaints.

Under the circumstances, we can give only meagre statistics,—those pertaining mainly to the First and Second terms.

An Enumeration of the children of the District between the ages of five and sixteen years was completed in April by Agent Harlan P. Morse, as the law prescribes, with the following result:
Number of children between 5 and 16 years old, 42.
Number of these who had attended school not less than two weeks during the last year, 38.
Number who had not attended school two weeks the last year, 4.
The expenses for text-books and supplies were:—First term, $23.20; Second term, $36.29; Third term, $12.55. For the year, $72.04, rather more than the average, as two series of text-books were exchanged during the year.

The Primary School has been taught from the beginning of the year by Miss Florette E. Eaton, who had taught this school a part of the previous year, greatly to the satisfaction of the School Board. Her labors have been faithful and painstaking, and the pupils under her care have made fine progress.

The Grammar School has been taught by Miss Florence H. Adams, of Warner, who commenced her services at the beginning of School-year. This teacher had had experience as an instructor before coming here, and had fitted herself for the responsible position by careful study of the
most approved methods. Her method of discipline has been strict and unswerving, and still she is a favorite with her pupils. Order has generally prevailed in the school-room, and the progress made in the studies pursued, has been very considerable.
