KAESONG, KOREA

Dearest Cly. -

We are still in KAESONG, but movement further north is impending. Although the company headquarters is in KAESONG, the men and officers are usually on the road from rear areas to the front. We have one convoy at the front now. Lt Johnson left early this morning to haul rations and ammunition to the First Division of ROK troops (REPUBLIC OF KOREA TROOPS). I had just returned to KAESONG from ^{the} SEOUL and INCHON Depots where I picked up the ammunition and rations to bring up here. It was a 20 hour round trip. Inasmuch as the men and I had had no sleep and were quite fatigued, a new group of drivers and Lt Johnson were detailed to shuttle the supplies onward. We were lucky this time, for on other similar occasions there were no men or officers to relieve us and we had to keep on going because the supplies had to keep moving. Lt Johnson has now been gone 12 hours. He'll probably return within the next 15 hours.

I'm sure you were quite disappointed in not finding a house. In one way I'm not

Lt Johnson has now been gone 12 hours. He'll probably return within the next 15 hours.

I'm sure you were quite disappointed in not finding a house. In one way I'm not

very sorry we did not buy in Pittsburgh. I'm really in-
different to living there. But now that you did
not find a place there, just forget about it where
Pittsburgh is concerned.

Speaking of buying, I just got a letter (about
2 weeks ago) from the real estate man up in Enset, Mass. He
says the house can be bought for \$6,000 by a serviceman.
If I am interested, he wants to know. I am
enclosing his letter. I am and have been interested
all along. I wish you would get interested in it.
For your information, Camp Edwards has reopened
permanently. Lt Barrett and his company are still
there and a battalion of 4 truck companies
have been sent there from other posts. I read in
Star + stripe that Kilmer is again open to
process soldiers for overseas service in Germany.
If Camp Edwards is open (as it is) that house
will not last long at \$6,000⁰⁰ and is a real
buy for that amount of money. I am enclosing
a letter from the Real Estate Company which
I hope will stir you into favorable action.
Please return the letter to me with your
next letter if you are not interested. If
interested keep the letter as background

for your follow ups. Buying this house does not mean that you have given up the right to have another home - but is merely security from rising costs + prices. You will please me considerably by your cooperation because I intend to be stationed at Camp Edwards upon my return home. I hope to spend the rest of my Army time there when in the 21. The price of the house does not equal the amount of money we'd pay out for renting or the amount the govt would deduct from my pay if we live on the post. So lets agree that after finding nothing in Pgh that you try my side for a while even if you want to continue living in Plainfield. With the ^{camp Edwards} post being opened permanently, renting of the house will be no problem. We'll get from it more than what my monthly payments will be.

I am sending you several (8) pictures of the house taken from different directions and showing as much of the surrounding neighborhood as possible.

The interior of the house is as nice as its outward appearance.

9:00 PM 24 October 1950

I should have mailed this letter on the run. A Rush convoy call came thru. Even though I was preparing for bed, I had to dress and hit the road again. I took 30 trucks loaded to the gill with ammunition up to the outskirts of the North Korean Capital, PYONGYANG, for the 1st Cavalry Division. The trip was over rainy, muddy, mountainous roads. Two trucks skidded into a ravine and could not be pulled out till the next day. On Return Trip the wet slimy roads were even worse. Five trucks were disabled, one has not been recovered yet. One man was hurt, but not seriously. No combat casualties even though we were in the front areas. The day after our trip PYONGYANG fell to our troops. The following day our company moved into PYONGYANG and began to continue operations in support of the infantry boys. The town was still burning on our arrival... and some enemy pockets were declared

still existant in parts of the town. We move into
bivouac area at the air strip where we still
are this date. One day after our arrival here I
took a 30-truck convoy south to Inchon
(INCHON) for gasoline. I just got back three
hours ago with a guilty feeling for not
having mailed this letter as it was when
I was alerted for that convoy instead of waiting
for my return to finish it.

Is Marilyn back in school? What grade
did the Plainfield people put her in? I hope
she is still in 1-A. How is little Gertel?
And as for you — all of my love.

Hubby

George S. Cook

Note: what about that
air mattress?

We were just informed
that we got to move again.

The lines have moved up.

So here we go again:
