REPORT
OF THE
SUPERINTENDING SCHOOL COMMITTEE,

For the year ending March 1st, 1884.

To the Inhabitants of the Town of Greenland:

I present this, my second annual report, to your consideration, trusting that the condition of your schools is such as to meet your approbation. The improvement in our schools has kept pace with former years. The schools in Districts No. 2 and 3 have been taught by the same teachers that were employed last year.

The attendance during the school year has been about the same as in former years.

BRACKETT ACADEMY.

This institution of learning is closed at present. A subsidy is now asked for from the tax payers of Greenland towards supporting a school in this building. I trust a liberal sum will be appropriated for this purpose. Greenland expends annually eight hundred eighty-five dollars for the support of three schools. I believe if one-half of this sum could be expended

on one central school at the Academy, where the higher branches could be taught, a greater advancement would be made, and our scholars rank much higher than they do to-day. Gentlemen, make the Academy a free school; contribute as liberally to its support as you can do without injury to yourselves; educate your children in Greenland where a parental influence can be exerted over them.

We must look to the common school as the cradle of knowledge. Discrimination and judgment should be exercised in the selection of teachers. They must possess certain qualifications if they expect to succeed in their honorable vocation.

In conclusion, allow me to thank the parents for the aid they have given the teachers during the two years I have been connected with the school board.

DISTRICT No. 1.

SPRING TERM. MISS ELEANORE O. WIGGIN, Teacher.

Length of school, 9 weeks.

Average attendance, 14.

No. of scholars, 17.

No. of pupils not absent, 1.

Wages of teacher per month, including board, \$32.

FALL TERM. MISS ELEANORE O. WIGGIN, Teacher.

Length of school, 10 weeks.

Average attendance, 16.

No. of scholars, 20.

No. of pupils not absent, 3.

Wages of teacher per month, including board, \$32.

Miss Wiggin worked for the interests of her pupils, and endeavored to inspire in them a respect for themselves, as well as

their teacher. At the examination, the questions propounded were answered promptly and correctly. I am satisfied the scholars made a good advancement under Miss Wiggin's tuition.

WINTER TERM. MISS MARY E. BRACKETT, Teacher.

Length of school, 9 weeks.

Average attendance, 18.

No. of scholars, 25.

No. of pupils not absent, 2.

Wages of teacher per month, including board, \$32.

This was Miss Brackett's first attempt at teaching in her native town. Owing to an epidemic of measles in this district, I was unable to visit the school at the time intended. I learn from the parents that the teacher gave universal satisfaction. From my knowledge and observation I should say Miss Brackett was a thorough disciplinarian as well as a good impartor of knowledge.

DISTRICT No. 2.

SPRING TERM. MISS N. M. FOSTER, Teacher.

Length of school, 9 weeks.

Average attendance, 28.

No. of scholars, 30.

No. of pupils not absent, 5.

Wages of teacher per month, including board, \$32.

FALL TERM. MISS N. M. FOSTER, Teacher.

Length of school, 12 weeks.

Average attendance, 28

No. of scholars, 31,

No. of pupils not absent, 0.

Wages of teacher per month, including board, \$32.

WINTER TERM. MISS N. M. FOSTER, Teacher.

Length of school, 10 weeks.

Average attendance, 31.

No. of scholars, 34.

No. of pupils not absent, 0.

Wages of teacher per month, including board, \$32.

This school, under the management of its thorough, competent teacher, has prospered as in the past. Miss Foster's reputation as a teacher has been established. She needs no encomiums from me. Her work and its accomplishments can be seen by visiting her school, a model in every respect.

I find in this school pupils who can pass a satisfactory examination in all the branches usually taught in our district schools. Secure the services of Miss Foster for another year is the advice I give the tax payers of District No. 2.

This school is in session at the present time.

DISTRICT No. 3.

SPRING TERM. MISS SARAH P. HOWARD, Teacher.

Length of school, 10 weeks.

Average attendance, 27.

No. of scholars, 31.

No. of pupils not absent, 2.

Wages of teacher per month, including board, \$30.

FALL TERM. MISS SARAH P. HOWARD, Teacher.

Length of school, 10 weeks.

Average attendance, 25.

No. of scholars, 28.

No. of pupils not absent, 0.

Wages of teacher per month, including board, \$30.

WINTER TERM. MISS SARAH P. HOWARD, Teacher.

Length of school, 10 weeks.

Average attendance, 17.

No. of scholars, 22.

No. of pupils not absent, 0.

Wages of teacher per month, including board, \$32.

Miss Howard has had charge of this school during the whole school year. Progress has been made in the various studies. Teacher and pupils have co-operated together in making this a good school. I believe Miss Howard labored diligently and faithfully for the good of her pupils. The Winter Term was somewhat interrupted by an epidemic of measles, obliging the teacher to close the school sooner than was intended.

Respectfully submitted.

WILLIAM O. JUNKINS.
