#### THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Londonderry in the County of

Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Central School in said Londonderry on Tuesday, the ninth day of March, next at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.

3. To see what rate of discount the Town will allow on taxes for the

ensuing year.

4. To see if the Town will authorize the Selectmen to borrow money

in anticipation of taxes.

- 5. To see if the Town will vote to authorize the Selectmen to sell at public Auction, property acquired by the Town through Tax Collector's Deeds.
- 6. To see if the Town will vote to accept State aid for the construction of Class V roads and to raise and set aside for said purposes the sum of \$1,900.22 and the State to contribute the sum of \$12,668.12.

7. To see if the Town will vote to authorize the Selectmen to purchase a fire truck that meets with underwriters' approval and to negotiate a five-year loan, in the amount of \$30,000.00 to finance this

appropriation. By petition of Homer L. Brewer, et al.

- 8. To see if the Town will vote to raise and appropriate a sum not to exceed \$500.00 for the purpose of surveying and purchasing 8 acres of Lot 6, Map 6, shown on the Londonderry Tax Map from the Londonderry Housing Authority. \$1.00 to be paid to the Londonderry Housing Authority for the 8 acres of land, providing the banks and I.D.A. will release it, and the remainder to be for the survey work.
- 9. To see if the Town will vote to raise and appropriate the sum of \$27,000.00 for the purpose of erecting a town garage and to authorize the Selectmen to negotiate a loan to be set up for a period of 5 years.
- 10. To see if the Town will accept federal aid, as available, for the construction of a new town library, and to raise and set aside for said purpose the sum of \$54,000, and the federal government to contribute, as available, the sum of \$36,500.00 and to see if the town will vote to authorize and empower the Selectmen to negotiate a ten (10) year loan in the amount of \$54,500.00 for said purpose.
- 11. To see if the Town will vote to appropriate a sum not to exceed \$92,000.00 for Land acquisition, final engineering work, and preparation of construction plans and specifications for Phase One construction of the North Londonderry Water System as outlined in the February, 1971, "Report of Study of Water Supply and Distribution Facilities"; and determine whether any such appropriation would be raised by borrowing according to the Municipal Finance Act, and in the event

that said money is to be raised by borrowing, to authorize the Selectmen to negotiate the terms and conditions of the notes or bonds to be issued and to do any other act necessary to carry out the intent of this article.

- 12. To see if the Town will vote to raise and appropriate a sum not to exceed \$8,000.00 for the purpose of securing ambulance service from the Derry Fire Commission.
- 13. To see if the town will vote to raise and appropriate a sum not to exceed \$1,000.00 for the purpose of conducting a survey on the future of Grenier Field in conjunction with the City of Manchester and the State of New Hampshire.
- 14. To see if the Town will vote to raise the sum of \$1,000.00 to be used by the Londonderry Athletic Field Association to complete the ball field for the Youth of Londonderry. By petition of Joseph Rioux, Jr., et al.
- 15. To see if the Town will vote to raise and appropriate the sum of \$1,500.00 for the Conservation Commission.
- 16. To see if the town will vote to establish a Recreation and Park Commission in accordance with New Hampshire Statutes annotated Chapter 31 sections 44-50A, the members of which shall be appointed by the selectmen, and shall consist of five members, who must be citizens and residents of the town of Londonderry. This commission to be responsible for the development and supervision of a comprehensive recreational program for the town of Londonderry.
- 17. To see if the town will vote to raise and appropriate the sum of \$2,500.00 to be used by the Recreation and Park Commission for the establishment of the first year's program.

18. To see if the Town will vote to accept the following Trust Funds:

George & Alberta Charland	\$100.00
Robert & Irene Cook	100.00
Oswald & Bertha M. Sorensen	100.00
Mrs. William Young	100.00
Wayne A. Hill	100.00
William Phillips	100.00
Helen B. Manning	100.00
John P. Watts	100.00

- 19. To see if the Town will vote to authorize the Board of Selectmen to appoint a committee of five to investigate whether the needs of the town warrant a change in its present form of government and to report to the Town Meeting in 1972 any recommendations in this regard for consideration and possible adoption.
- 20. To see if the Town will vote to direct the Selectmen to deed to the Londonderry School District Lot No. 44, Lot No. 45, Lot No. 46 and Lot No. 47 as shown on Map 9, Londonderry Tax Map.
- 21. To see if the Town will vote to adopt the following resolution:

WHEREAS, certain areas of the Town are subject to periodic flooding from the (STREAM(S)) causing serious damage to residential properties within these areas; and

WHEREAS, relief is available in the form of flood insurance as authorized by the National Flood Insurance Act of 1968 as amended; and WHEREAS, it is the intent of this Town to comply with land use and

management criteria regulations as required in said act; and

WHEREAS, it is also the intent of this Town to recognize the duly evaluate flood hazards in all official actions relating to land use in the flood plain areas having special flood hazards; and

WHEREAS, RSA Chapter 31 authorized New Hampshire Towns to

enact zoning ordinances;

NOW, THEREFORE, BE IT RESOLVED, That this Town Meeting hereby assures the Federal Insurance Administration that it will take legislative action as follows:

- (1) Enact by December 31, 1971, and maintain in force for those areas, adequate land use and control measures with effective enforcement provisions consistent with the criteria set forth in Subpart A of Section 1910 of the National Flood Insurance Regulations; and
- (2) Take such other official action as may be reasonably necessary to carry out the objectives of the program. Such actions will include but not be limited to;
- (a) Assisting the Federal Insurance Administrator, at his request, in delineating the limits of the flood plain having special flood hazard on available local maps of sufficient scale to identify the location of the building sites.
- (b) After flood insurance is made available, furnishing representatives of the National Flood Insurers Association (also appropriate Federal or State agencies, upon request) information concerning new or substantially improved structures within the area of special flood hazard. This information will include floor elevations and, if there is a basement, the distance between the first floor and the bottom of the lowest opening where water flowing on the ground will enter.
- (c) Cooperating with Federal, State and local agencies which undertake to study, survey, map and identify flood-prone areas as well as cooperating with neighboring jurisdictions with respect to adjoining flood plains in order to prevent aggravation of the flooding problem.

(d) Providing the name of the individual and the office that will be responsible for furnishing the first floor elevation information.

BE IT FURTHER RESOLVED, that this Town Meeting hereby appoints (AGENCY OR OFFICIAL) with the responsibility, authority and means to implement the commitment made herein.

22. To see if the Town will adopt the following amendment to the Zoning Ordinance, Chapter 1, Section II, Paragraph A: (6) Conservation District AND to add the following as Section VIII of the Londonderry Zoning Ordinance and renumber the present Sections VIII through

XVI to read Section IX through XVII respectively:

- A. Conservation District
- (1) All land otherwise in an Agricultural-Residential Zone and along Beaver Brook below the new bridge at Kendall Pond, which is at or below elevation 220 feet, U.S.G.S. datum, except any land west of Chase Road and Bockes Road.
- (2) All land otherwise in an Agricultural-Residential Zone and along Beaver Brook and along Kendall Pond ("Goff's Pond") above the new bridge at Kendall Pond which is at or below elevation 240 feet, U.S.G.S. datum, except any land which is southeast of South Road: or any land west of Kendall Pond Road and Meadow Drive.

#### B. Conservation District Uses:

The Conservation District is intended for the preservation and maintenance of the ground water table: to protect the public health and safety, persons, and property against the hazards of flood water inundation; and for the protection of the community against the costs which may be incurred when unsuitable development occurs in swamps, marshes, along water courses, or in areas subject to floods.

In the Conservation District no building or structure shall be erected, constructed, altered, enlarged, or moved, nor shall any premises be used, for any purposes except:

- 1. Conservation of water, plants, and wild life.
- 2. Recreation, including play areas, nature study, golf, boating, fishing, and hunting where otherwise legally permitted.
- 3. Grazing and farming, including truck gardening and harvesting of crops.
  - 4. Forestry.
- 5. Telephone, telegraph, power, and gas transmission, streets, municipal water and sewer lines;
- 6. Residential uses such as: lawns, gardens, parking areas, and play areas.
- 7. Any of the following uses, on approval of the Board of Adjustment:
  - (a) Nonresidential buildings and structures, such as
- (1) barns, stables, or kennels for shelter, breeding, boarding, hiring, or sales of animals, and for storage of crops raised on the premises;
- (2) boathouses, duck-walls, and landing including renting of boats or canoes and recreation equipment, and sales of bait;
- (3) stands for sales of produce raised on the premises; provided that any such building or structure permitted by the Board of Adjustment shall be designed, placed and constructed to offer a minimum obstruction to the flow of water and shall be firmly anchored to prevent floating away and this threatening other building or blocking of openings in restricted sections of the water course below.
  - (b) Extraction of sand, gravel & other materials.

- (c) Dams, changes in water courses, or drainage works only as part of an overall drainage basin plan constructed or authorized by a public agency.
  - (d) Temporary storage of materials or equipment.
- (e) If any land shown on the Zoning Map as being the Conservation District is proved to the satisfaction of the Board of Adjustment, after reference of the proof to and report by the Planning Board and Health Officer, as being in fact not subject to flooding or not unsuitable because of drainage conditions for residential use, and if it is proved that the use of such land for residence will not interfere with the general purposes for which the Conservation District has been established, and will not be detrimental to the public health, safety, or welfare, the Board of Adjustment may permit the use of such land for single family residence under all the provisions of this by law applying to the "Agricultural Zone."
- (f) Driveway or road, provided that the Board of Adjustment is satisfied that there will be adequate drainage and that such driveway or road will not interfere adversely with the natural flow of water in the area.

Except as provided above, there shall be in the Conservation District:

- (a) No land fill or dumping in any part of the District.
- (b) No drainage other than flood control works by an authorized public agency.
- (c) No damming or relocating of any water course except as part of an overall drainage basin plan.
  - (d) No building or structure.
  - (e) No permanent storage of materials or equipment.
- 23. To see if the Town will adopt the following amendment to the Zoning Ordinance, Chapter I, Section III, Paragraph G-1, to be added as:

#### Multi-Family Zoning

- 1. Multi-family Subdivisions shall consist of only multi-family dwellings (two or more units).
- 2. The Multi-family Subdivision shall only be approved where a minimum frontage of 400 feet exists on one of the following roads: Route 128, Mammoth Road, Route 102 (Nashua Road), Old Nashua Road (South of Route 102 and West of Route 128), Route 28, and Grenier Field Road.
- 3. The Multi-family subdivision shall consist of a minimum of ten (10) acres.
- 4. In addition to the requirements of Section III, Paragraph G., 5,000 square feet of land shall be added per unit, set aside and developed for recreational use.
- 5. Individual buildings shall be limited to a maximum of eight family units; and no dwelling units shall be below ground (no basement apartments.)

Each building shall be limited to a maximum of two stories above ground level.

No multi-family building shall be erected except in a "Multifamily Subdivision" where both a subdivision plan and a building plan has been approved by the Planning Board and the Building Inspector.

A "sewerage disposal plan" shall be approved and signed by the New Hampshire Water Supply and Pollution Control Commission before a building permit will be issued.

To see if the Town will adopt the following amendment to the 24. Zoning Ordinance, Chapter I, Section III, Paragraph G-2, to be added as: Two-Family Dwellings

1. Two family dwellings are permitted provided the dwelling is owner-occupied and all other requirements of the district are met.

To see if the Town will adopt the following amendment to the

Zoning Ordinance, Chapter I, Section XV, to be added as:

The regulations of this ordinance shall be held to be the minimum requirements for the promotion of the public health, safety, and general welfare provided, however, that where this ordinance is found to be in conflict with any other lawfully adopted ordinances, codes, covenants or regulations, the provision which imposes the higher standard or is the more restrictive shall prevail.

To see if the Town will adopt the following amendment to replace Section III of the Londonderry Building Code (Chapter IV):

A. Alteration — Any extensive repairs or any change in a building involving the change in condition of structural elements such as the foundation, exterior walls, etc. but excluding the construction of closets, built-in cupboards, the replacement of roofing, flooring, wall paneling, doors, exterior windows, siding and such other nonstructural repairs.

B. **Building Permit Required** 

It shall be unlawful to start any work for the purpose of construction, alteration or removal of any building unless a building permit has been issued in conformity with this ordinance.

C. Application for Building Permit

Any application for a building permit shall be in writing and in duplicate signed by the applicant. Such application shall include such information as lawfully may be required by the Board of Selectmen and shall include a site plan at a suitable scale showing:

The shape, size and location of the lot to be built upon.

2. The shape, size, height and location of the buildings to be erected, altered or removed.

Any buildings already on the lot. 3.

4. Setback lines of buildings on adjoining lots.

Any other information needed by the Building Inspector, Planning Board, or the Board of Adjustment to determine whether the provisions of this ordinance are being observed.

One copy of the application and plans shall be returned to the applicant by the Board of Selectmen who shall have marked such copy either approved or disapproved with explanation and attested to same by their signatures on such copy. The Second copy of such application and plans, similarly marked, shall be retained by the Board of Selectmen and shall be kept on file as a public record. The Board of Selectmen shall issue written notice of their decision within thirty days of the date of filing of the application.

If no significant progress of construction has been made within six months beginning with the date the permit is issued, the permit shall expire. In the case of extenuating circumstances, the Board of Selectmen may renew the permit. Furthermore, all previous building permits issued by the Town of Londonderry prior to the passage of this ordinance, unless significant progress in construction is made within this six-month period.

All building permits issued will be in conformity with applicable requirements of state statutes.

#### D. Fees

Before a building permit may be issued, the applicant shall pay a fee in accordance with the following schedule:

Application Fee – \$2.50 to be NON–REFUNDABLE	FEE
For projects with an estimated value under \$1,000.00	0.00
For projects with an estimated value of \$1,000.00 to	
\$5,000.00	5.00
For projects with an estimated value of \$5,000.00 to	
\$15,000.00	10.00
For projects with an estimated value of \$15,000.00 to	
\$25,000.00	20.00

For projects with an estimated value over \$25,000.00

Fee: plus \$2,00 per \$1,000.00 or fraction thereof.

Estimated value will be determined by the Board of Selectmen.

#### E. Penalties for Violation

Any person violating any provision of this ordinance shall, upon conviction, be fined not less than \$20.00 nor more than \$100.00 for such offense. Each offense shall constitute a separate offense for each day the violation occurs.

#### F. Remedies

If any building is erected, constructed, reconstructed, altered, repaired, converted, or maintained or any building or land is used in violation of this ordinance the Board of Selectmen or any other appropriate authority or any adjacent or neighboring property owner who would be damaged by such violation, in addition to other remedies may institute injunction, mandamus or any other appropriate action in proceeding to prevent such violation.

- 27. To see if the Town will adopt the following amendment to the Zoning Ordinance as Chapter I Section III Par. B-C, as submitted to the Londonderry Planning Board by petition of John J. Falvey, et al., on November 11, 1970 in accordance with the provisions of R.S.A. 31:63-b.
- B. Minimum Land Area. No residential lot shall be less than (2½) two and one half acres. A residence may be constructed on a single lot of record at the time this amendment becomes effective regardless of the area or width of the lot.

If two or more lots or combinations of lots and portions of lots with continuous frontage in single ownership are of record at the time of passage of this amendment, and if all or part of the lots do not meet the requirements for lot width and area as established by the amendment the lands involved shall be considered to be an undivided parcel for the purpose of the amendment and no portion of said parcel shall be used or sold which does not meet lot width and area requirements established by this amendment, nor shall any division of the parcel be made which leaves remaining any lot width or area below the requirements stated in this amendment.

(existing unbuilt upon sub divisions must be re-divided to conform to the (2½) two and one half acre lot requirement)

- C. Frontage. Every building lot shall have a minimum lot frontage of (200) two hundred feet.
- 28. To see if the Town will adopt the following amendment to the Zoning Ordinance as Chapter I Section III Par. B-C, as submitted to the Londonderry Planning Board by petition of John J. Falvey, et al., on January 15, 1971 in accordance with the provisions of R.S.A. 31: 63-b.
- B. Minimum Land Area. No residential lot shall be less than (2) two acres. A residence may be constructed on a single lot of record at the time this amendment becomes effective regardless of the area width of the lot.

If two or more lots or combinations of lots and portions of lots with continuous frontage in single ownership are of record at the time of passage of this amendment, and if all or part of the lots do not meet the requirements for lot width and area as established by the amendment the lands involved shall be considered to be an undivided parcel for the purpose of this amendment and no portion of said parcel shall be used or sold which does not meet lot width and area requirements established by this amendment, nor shall the division of the parcel be made which leaves remaining any lot width or area below the requirements stated in this amendment.

- C. Frontage. Every building lot shall have a minimum lot frontage of (175) one hundred seventy five feet.
- 29. To see if the Town will adopt the following amendment to the Zoning Ordinance as Chapter I, Section III, paragraph G as submitted

to the Londonderry Planning Board by petition of John J. Falvey, et al., on November 11, 1970 in accordance with the provisions of R.S.A. 31:63-b.

- G. Conversion of existing residences or the construction of new multi-family residences shall be permitted provided that (1) one acre of land area be required for each additional family unit and that additional lot frontage of (50) fifty feet be required for each additional family unit.
- 30. To see if the Town will adopt the following amendment to the Zoning Ordinance as Chapter I, Section III, paragraph G as submitted to the Londonderry Planning Board by petition of John J. Falvey, et al., on January 15, 1971 in accordance with the provisions of R.S.A. 31:63-b.
- G. Conversion of existing residences of the construction of new multi-family residences shall be permitted provided that (½) one half acre of land area be required for each additional family unit.
- 31. To see if the Town will adopt the following amendment to the Building Code as Chapter IV, Section IV, Paragraph M to be added as submitted to the Londonderry Planning Board by petition of John J. Falvey, et al., on November 11, 1970 in accordance with the provisions of R.S.A. 31:63-b.
- G. Conversion of existing residences of the construction of new multi-family residences shall be permitted provided that (½) one half acre of land area be required for each additional family unit.
- 31. To see if the Town will adopt the following amendment to the Building Code as Chapter IV, Section IV, Paragraph M to be added as submitted to the Londonderry Planning Board by petition of John J. Falvey, et al., on November 11, 1970 in accordance with the provisions of R.S.A. 31:63-b.
- M. That for each (1) one unit of multi-family residence containing more than (1) one bedroom or rooms normally used as bedrooms, that (10) ten units of single bedroom residence be constructed within the same development or subdivision.
- 32. To see if the Town will adopt the following amendment to the Building Code as Chapter IV, Section IV, paragraph M to be added as submitted to the Londonderry Planning Board by petition of John J. Falvey, et al., on January 15, 1971 in accordance with the provisions of R.S.A. 31:63-b.
- M. That for each (1) one unit of multi-family residence containing more than (1) one bedroom or rooms normally used as bedrooms that (5) five units of single bedroom residence be constructed within the same development of subdivision.
- 33. To see if the Town will adopt the following amendment to the Building Code as Chapter IV, Section IV, Paragraph I as submitted to the Londonderry Planning Board by petition of John J. Falvey, et al., on November 11, 1970 in accordance with the provision of R.S.A.

31:63-b.

I. Minimum Building Area. Every dwelling unit to be used by a single family shall have a minimum ground floor living area of at least (750) seven hundred and fifty square feet and that the total living area shall not be less than (1500) fifteen hundred square feet.

These requirements shall apply to each family unit of multi-family

housing construction.

- 34. To see if the Town will adopt the following amendment to the building Code as Chapter IV, Section IV, Paragraph I as submitted to the Londonderry Planning Board by petition of John J. Falvey, et al., on January 15, 1971 in accordance with the provision of R.S.A. 31:63-b.
- I. Minimum Building Area. Every dwelling unit to be used by a single family shall have a minimum ground floor area of at least (750) seven hundred fifty square feet and that the total living area shall not be less than (1000) one thousand square feet.

These requirements shall apply to each family unit of multi-family housing construction.

- 35. To see if the Town will adopt the following amendment to the Sign Ordinance by adding paragraph 9, 10, and 11 as submitted to the Londonderry Planning Board by petition of John J. Falvey, et al., on November 11, 1970 in accordance with the provisions of R.S.A. 31:63b.
- 9. That prior to construction of painting or making of any new sign that an accurate drawing of the proposed sign and its proposed location be submitted to the building inspector showing the material to be used the type of construction the type of illumenation if any and any mechinical movement if any is proposed. That the building inspector will have the right to refuse permission to the applicant for the new sign if in his opinion hte sign does not conform to common construction and safety standards.
- 10. That all approved sign applications be submitted by the building inspector to the Conservation Commission who will evaluate the sign application on the bases of the proposed signs relationship to the area in which it is to be located and its aesthetic value to the town. They will then vote on approval which will require a simple majority of the members present at an official meeting.
- 11. No sign may be constructed, painted or made without the prior approval of both the building inspector and the Conservation Commission.
- 36. To Transact any other business that may legally come before this meeting.

250th Anniversary: No action to be taken on this item. Recreation:

Parks & Playgrounds: \$250.00. Motion made by Mr. Cote to accept; seconded by Mr. Webster. Voted affirmative. Mr. Dutton moved that the remaining articles in the budget be accepted as shown in the yellow pages. Motion seconded by Mr. Russell. The remaining items were then read by the Moderator and after discussion, the remaining items were voted affirmative.

Article No. 3. To see what rate of discount the town will allow on taxes for the ensuing year. Motion made by Mr. Kimball to accept the rate of 1 per cent off, 30 days from when the tax bill is sent out. Seconded by Mr. DeCato. After discussion, voted affirmative.

Article No. 4. To see if the town will authorize the Selectmen to borrow money in anticipation of taxes. Motion made by Mr. Strino to accept that article; seconded by Mr. Ormiston. Voted affirmative.

Article No. 5. To see if the town will vote to authorize the Selectmen to sell, at public auction, property acquired by the town through tax collector's deeds. Motion made by Mrs. Powers to accept that article; seconded by Mr. Hicks. Voted affirmative.

Article No. 6. To see if the town will vote to accept State aid for the construction of Class V roads, and raise and set aside for said purpose the sum of \$1,916.72 and the State to contribute the sum of \$12,778.11. Motion made by Mr. Landry to accept the article. Seconded by Mr. Morris. Voted affirmative.

Article No. 7. To see if the town will vote to give the Londonderry Athletic Field Association permission to use an area of land approximately four acres in size located at the Southeast corner of the "Cross" property, this land now owned by the Town of Londonderry. Description of area as follows: "Beginning at the Southeast corner of the Cross land by the Nelson Road, going Southwesterly along the field line and wall four hundred feet to the tree line, then in a Northwesterly direction along the tree line four hundred feet to stone wall, then in a Northeasterly direction four hundred feet to the Nelson Road, then Southeasterly along the Nelson Road to the point of beginning." This land to be used for a baseball field and other youth activities. The Londonderry Athletic Field Association shall have the use of said property until authorization is rescinded by the vote of a Town Meeting. By petition of Horace Ethridge, et al. Motion made by Mr. David to accept the article as written; seconded by Mr. Gunzelman. After discussion, voted affirmative.

Article No. 8. To see if the town will vote to raise the sum of \$1,000.00 to be used by the Londonderry Athletic Field Association to build a ball field for the youth of Londonderry. By petition of Horace Ethridge, et al. Motion made by Mr. DeCato to accept the article; seconded by Mr. Chase. Voted affirmative.

The Moderator recognized Mr. Kimball and Mr. Kimball made the

following statement. We talked to town counsel and the meeting, as you see, could go on for quite a few hours. He told us that we could recess this meeting if we so desired. We have retained the school for Saturday at 2:00 o'clock. I don't know at this time if you want to recess the meeting until 2:00 o'clock so you can count the ballots and get home or keep on going.

Motion made by Mr. Shepard to recess this meeting until the specified time. Seconded by Mrs. Moore. After discussion, this motion was defeated.

Article No. 9. By request of John E. Webster, Jr. and others, to see if the town will adopt an official coat-of-arms for the Town of London-derry, County of Rockingham, State of New Hampshire, as its official Town Seal as presented at Town Meeting by the Coat-of-Arms Committee established for this purpose by the March, 1969 Town Meeting. Motion made by Mr. Webster to accept; seconded by Mr. Carr. After explanation and discussion, voted affirmative.

Mr. Strino moved that the following articles be taken up in this order: Article 14, Article 15, Article 17, Article 22, Article 23, Article 24 and Article 26. Seconded by Mr. Russell. Mr. Fogg then moved to amend the motion to include Article 12: seconded by Mr. Gunzelman. Amendment voted affirmative. Motion voted affirmative.

Article 12. To see if the town will accept State Aid in the sum of \$12,500.00 and raise and set aside the sum of \$12,500.00 to be used for the construction of the Kendall Pond Bridge over Beaver Brook. This article is an addition to Article 6 of the 1969 Town Warrant. Motion made by Mr. Kimball to accept; seconded by Mr. Vautier. After discussion, voted affirmative.

Article No. 14. To see if the town will vote to become a member of the Southern New Hampshire Planning Commission. The Commission has a membership of five of the municipalities in the metropolitan area. The objective of the Commission is to plan for and encourage regional planning analysis, provide consensus on major problems of regional concern, and to assist in the effectuation of projects which extend beyond the boundaries of a particular town. The agency will have no jurisdiction over any matter of local affairs. It will be purely advisory. Two members of the regional planning agency shall be from (the Town) to be appointed by the Selectmen. A YES vote is in favor of joining the regional planning agency. Motion made by Mr. George Hicks that the town become a member of the Southern New Hampshire Planning Commission; seconded by Mr. Webster. After discussion it was voted not to join the Southern New Hampshire Planning Commission.

Article No. 15. To see if the town will vote to appropriate the sum of \$.25 per capita, (a total of \$614.00) as the membership fee for the year ending June 30, 1971. Motion made by Mr. Kimball to table the article; seconded by Mr. VanGrevenhof. Voted affirmative.

Article No. 17. To see if the town will vote to accept the Dump Or-

dinance as adopted by the Selectmen of the Town of Londonderry at the public hearing of November 6, 1969 as prescribed by RSA 31:39. Motion made by Mr. Morrissey to accept; seconded by Mr. Reagan. Chief Ball moved to amend Section D 2, Dump Permits, Paragraph 2, to read: "Admission to the Town Dump shall be permissible only to those residents who conspicuously display said permit on their motor vehicle upon entering the dumping area." Seconded by Mr. Boucher. After discussion, voted affirmative. Mr. Russell then moved to amend Section D 2, Dump Permits, Paragraph 1, of the Public Dump Ordinance, which reads: "Any resident of the Town of Londonderry upon presentation of proper identification to the Town Clerk or his designate shall receive a Dump Permit in the form of an adhesive sticker" - to insert the words, and the payment of \$.25 in that paragraph. So the paragraph would read as amended: "Any resident of the Town of Londonderry upon presentation of proper identification and the payment of \$.25 to the Town Clerk or his designate shall receive a Dump Permit in the form of an adhesive sticker." Seconded by Chief Ball. After discussion, the amendment was voted affirmative. After discussion, the article as amended was voted affirmative.

Article No. 22. To see if the town will vote to raise and appropriate the sum of \$30,000.00 for a comprehensive sewer survey for the town of Londonderry, and to authorize the Selectmen to negotiate a contract for same. Motion made by Mr. George Hicks to amend the article to read, "To see if the Town of Londonderry will vote to raise and appropriate the sum of \$60,000.00 for a comprehensive sewerage and water survey for the town of Londonderry, and to authorize the Selectmen to negotiate a contract for same. \$25,000.00 to be raised by taxes the current year and \$35,000.00 to come out of surplus money of the town." Seconded by Mr. DeCato. After discussion, voted affirmative. The article as amended was voted affirmative. Motion made by Mr. Day to pass over Article No. 23: seconded by Mr. George Hicks. Voted affirmative.

Article No. 24. To see if the town will vote to accept the responsibility of thirty (30) of the sixty (60) hydrants located on the land owned by the Londonderry Housing and Redevelopment Authority at Grenier Field, and raise and appropriate the sum of \$2,700.00 to be paid to the Manchester Water Works at the rate of \$90 per hydrant per year. Motion made by Mr. Kimball to accept; seconded by Mr. DeCato. After discussion, voted affirmative.

Article 26. To see if the town will vote and appropriate the sum of \$17,500.00 to purchase Parcel No. 5 from the Londonderry Housing and Redevelopment Authority; said parcel being the antenna site located on the High Range Road, Map 6, Lot 6, of the tax map, consisting of 20.9 acres of land completely enclosed by a security fence. This property would be of substantial value for the Highway Department for the storage of material and equipment. It also has two antenna

towers that could be used for the Civil Defense and Highway Department Communications. Motion made by Mr. Kimball to table this article; seconded by Mr. Brewer. After discussion, voted affirmative.

Mr. Kimball moved to recess the meeting until Saturday afternoon at 2:00 o'clock; seconded by Mr. DeCato. Voted affirmative. (Whereupon, the meeting was recessed by the Moderator.)

Saturday, March 14, 1970 – Meeting was called to order by A. Mack, Moderator, at 2:15 P.M.

Article No. 10. By request of John E. Webster, Jr. and others, to see if the Town will accept the Londonderry Youth Council as a Municipal function of Town government with the Selectmen empowered to appoint a Board consisting of nine (9) adults to serve as Commissioner. The term of office for the first year shall consist of three (3) one year terms, three (3) two year terms and three (3) three year terms. Each year thereafter three (3) three-year terms shall be awarded by written appointment.

Mr. Jolicoeur moved to accept article with an amendment to have five adults to serve as commissioners instead of nine in accordance with RSA 31;47 and 31:48. Second by Mr. Webster.

Mr. Russell moved to amend the amendment to request J. Webster and others see if Town will empower Selectmen to appoint a board consisting of five adults to serve as a Recreation Commission. This Recreation Commission to report back to Town Meeting of 1971 with a comprehensive program for the youth of Londonderry. This Commission to act during the current year as advisors to any local youth group wishing to undertake any activities. Second by Chief Ball.

Mr. Russell's amendment acted upon; Stand up vote — Affirmative Mr. R. Cote moved question. Second by Mr. R. Gunzelman. Affirmative vote. Vote on original article as amended by Mr. Russell. Affirmative vote.

Article No. 11. By request of Robert V. Reagan and others, to see if the Town will vote and appropriate the sum of five hundred (\$500) dollars to have an accountant approved by the State Tax Commission to audit the accounts of the Town of Londonderry.

Mr. Reagan spoke in favor of article referring to page 59 in Town Report. Mr. Baker moved to accept article 11. Second by Mr. G. Pierson. Mr. Day moved question. Second by Mr. Morris. Affirmative vote. Question: Yes, 61 and No, 38 — Affirmative vote.

Article No. 13. To see if the Town will adopt a final closing date for sessions for correction of the check-list seven (7) days prior to the day of election as provided for in Chapter 55:6 RSA of the State of New Hampshire.

Mr. J. Herrin moved to adopt article No. 13. Second by Mr. DeCato. Affirmative vote.

Article No. 16. To see if the Town will vote to raise and appropriate the sum of \$500.00 to be used to eradicate poison ivy along town roads and cemetery walls and fences.

Mr. DeCato moved to accept Article No. 16. Second by Chief Ball. Mr. Conner moved question. Second by Mr. Strino. Affirmative vote. Question voted affirmative.

Article No. 18. To see if the Town will vote to name the street leading from the Pillsbury Road to the residence of Wm. Lievens, "Apple Tree Road."

Mr. Kimball moved to adopt article No. 18. Second by Mr. Strino. Affirmative vote.

Article No. 19. To see if the Town will vote to name the road on the East side of Interstate 93 from Route 102 to Ash Street, "Londonderry Road. Mr. Conner moved to accept article No. 19. Second by Mr. Gunzelman. Affirmative vote.

Article No. 20. To see if the Town will vote to name that portion of the Old Nashua Road leading by the residence of Mason Young: "Young Road" as shown on Map 6, Lot 63.

Mr. Hicks moved to accept article No. 20. Second by Mr. Conner. Affirmative vote.

Article No. 21. To see if the Town will vote to give the Londonderry Youth Council permission to use the Town Hall until such time as the Selectmen should need this building again for the Town Office or see what other action the people wish to take on this matter.

Mr. Jolicoeur moved to accept article No. 21. Second by Mr. Webster. Mr. Russell moved to amend as follows: To see if the Town will vote to give Youth Groups of Londonderry, with the advice and consent of the Recreation Commission, permission to use the Town Hall. Second by Mr. Cote.

Mr. Russell withdrew his amendment and Mr. Cote withdrew his second. Mr. Conner moved to amend Article No. 21 — To see if the Town will vote to give Londonderry Youth, under proper supervision, permission to use the Town Hall until such time as the Selectmen shall deem it inadvisable to grant such permission. Second by Mr. Cote. Amendment voted affirmative.

Article as amended voted affirmative.

Article No. 25. To see if the Town will vote to raise and appropriate up to \$6,000, and authorize the selectmen to negotiate a settlement for lots No. 46 Map 9 owned by Andrew Forbes of Glen Head, Long Island and No. 47 owned by William R. Cochrone of Bellrose, Long Island, New York. These lots abut the Cross property lot No. 45 and equal approximately one-half of the road frontage of the Cross property.

Motion to accept by Mr. DeCato. Second by Mr. Strino. Affirmative vote.

Article No. 27. To see if the town will vote to deed to the London-

derry School district the following described land: A certain parcel of land thereon situated on the Easterly side of Mammoth Road in said Londonderry being more particularly bounded and described as follows: viz beginning at an iron pin on the Easterly side of said Mammoth Road at the N.W. corner of land now of Forbes thence N. 6°W. by said Mammoth Road 330.10 ft. to an iron pin at the S.W. corner of the land now or formerly of Smith, thence N. 85°36 ft. E. by said Smith land 200 ft. to an iron pin at the S.E. corner of said Smith land thence N. 6° 36-W. be said Smith land 267 ft. to drilled hole at N.E. corner of said Smith land and now or formerly of one Sargent, thence N 50°35-E by said Sargent land and along a stone wall 521.28 ft. Thence, continuing by said stone wall, etc.

Mr. Kimball explained misprint in article and said the correct map number is 9 and correct lot number is 45.

Mr. S. Wing moved to table article until such time that the school needs the land. Second by Mr. Hicks. Affirmative vote.

Article No. 28. To see if the Town will vote to discontinue the Mill Road Map 1, from the dwelling on Lot 7 southeast to the Bockes Road Lot 1 and 6, and made subject to gates and bars as provided by RSA 238:2 as amended. Mr. Paxton moved to table Article No. 28. Second by Mr. Desmarais. Affirmative vote to table article.

Article No. 29. To see if the Town will vote to discontinue the Otterson Road as shown on Map 9, from the Mammoth Road Lot 28, East to the Hardy Road, Lot 75 and 71, and made subject to gates and bars as provided by RSA 238:2 as amended.

Mr. DeCato moved to accept Article No. 29. Second by Mr. Gunzelman. Affirmative vote. (Unanimous vote)

Article No. 30. To see if the Town will vote to discontinue the Jacks Bridge Road, as shown on Map 17, from the Page Road Lots 36 and 35, East to the Clark Road Lot 44, and made subject to gates and bars as provided by RSA 238:2 as amended.

Mr. A. Conner moved to accept article. Second by Mr. R. Webber. Affirmative vote.

Mr. Usvaldo Verani opposed and requested it be so recorded.

Mr. and Mrs. John R. Evans opposed and requested so recorded.

Article No. 31. To see if the Town will vote to discontinue the Old Page Road, that section on Map 27, from the Mammoth Road, Lot 11 to the "new" Page Road, and made subject to gates and bars as provided by RSA 238:2 as amended.

Mr. DeCato moved to amend article to read: road discontinued from east side of Clarence Jache driveway to New Page Road. Second by Mr. Cote. Affirmative vote.

### TOWN CLERK'S REPORT

The duties of the Town Clerk are as varied as the business of the town, literally from the A in automobile registrations to the Z in zoning books. If anyone doubts the tremendous growth of the town, he has only to note the growth of the various areas covered in this report. Total payments to the Treasurer were over \$75,000, an increase of nearly 27% in one year. Motor vehicle permits constitute the bulk of this amount, totaling \$68,191.38, up 23% from 1969. The number of motor vehicle permits issued was approximately 4689, 16% over 1969, and the equivalent of about 3 permits issued for every 4 people in town. The new motor vehicle title law has caused much confusion for those registering newer vehicles for the first time. We suggest that you check with the Town Clerk to be sure you have the proper paperwork. It could save you an extra trip to the town hall. Building permit and other zoning applications took a large hike at \$2,201.50, up 243%. Even dump permits were up 200%.

The Town Clerk's work day doesn't often end with the close of the regular business day. In order to provide adequate service, facilitate the motor vehicle registration rush, and keep the books up to date, more than 85 hours of extra time was provided at no extra cost to the town. Extra help was hired to assist with the March rush for registrations at a total cost to the town of \$324.50.

January 1, 1970 – December 31, 1970

### ROAD AGENT'S REPORT

During 1970, we have added approximately four miles of new streets to be maintained, which, with the one mile of road we paved, brings our total to fifty miles of paved and twenty-six miles of dirt roads.

New streets are as follows: King James, King Edward, King John, King Arthur, King George, an extension of Cortland St., Mercury Drive, Constitutional Drive, Industrial Road, Blueberry Lane, Boulder Drive, an extension of Pleasant Drive, Tranquil Drive and Overlook Ave.

On our regular maintenance program, we resurfaced half of our existing tar roads. This is done each year.

We have widened a portion of Kendall Pond Road, hot-topped the edge of the road and the gutters and installed two new culverts.

On TRA projects for 1970, approximately one mile of Chase Road has been hard-surfaced and underground drains and catch basins installed on South Road near Chase Road. Elwood Road was widened and culverts installed for approximately one mile. Wiley Hill Road was widened and culverts installed from the tarred portion to the Litchfield Line.

New Construction projects consisted of widening Old Derry Road from Auburn Road to the Derry Line. Some new culverts were installed and dynamite work was done because of ledge. Alexander Road was widened from Litchfield Road to High Range Road, trees were cut and boulders removed to allow for better drainage and easier snow removal.

A portion of Scobie Pond Road was widened and graveled to permit entrance of large transformers by Public Service Co. to be placed at new sub-station which is being built in Londonderry.

Many new signs were installed, with many more needed this coming year, such as Stop signs, Street signs, Speed signs and Go Slow, Children signs.

This past spring we purchased the 1970 Chevrolet one-ton dump truck which was voted by the Town Meeting. This has proven to be a very handy piece of equipment for use when patching tar roads, repairing signs and other minor maintenance problems.

No final decision on a central communications system was reached this year, although plans for the coming year include trips to several towns to study their systems. We hope this plan will become a reality in the near future, to provide easier and faster service to all.

Winter maintenance included the plowing of approximately six miles of streets within the Londonderry Housing & Redevelopment Authority complex, and approximately 2 miles of Town-maintained streets within Grenier Field which are maintained the year around.

Richard S. Moore, Road Agent

## TOWN OF LONDONDERRY, N.H. HIGHWAY DEPARTMENT, 1971

Summer Road Maintenance	1970 Estimated	1970 Actual	1971

### LONDONDERRY POLICE DEPARTMENT

The continued growth of the Town is reflected in the activity statistics of the Department for 1970. An increase of approximately 50%, in one year, in the number of calls requiring action by the Department was recorded. A very positive effect in major problem areas is also revealed. The addition of two full-time men in June proved itself an excellent investment. The reduction of burglaries from 46 in 1969 to 29 in 1970 represents a considerable savings in dollars to Londonderry residents, and we believe it can be directly attributable to the increased patrol with two cruisers on duty during the more active times. The double coverage speeded up response time greatly. It also meant that when one cruiser was occupied with an accident or other type of response, the second vehicle continued patrol and discouraged illegal activities. Generally the town was divided into two sections in which the cruisers concentrated a very effective deterrent type patrol. We also note a reduction in accidents from 179 in 1969 to 170 in 1970. This, despite a substantial increase in traffic and motor vehicle registrations.

A highway safety program was initiated in an attempt to increase the safety of our roads. It has produced good results and will be continued, with the help of a radar set purchased in August. An unfortunate byproduct of the safety campaign was the increase in motor vehicle summons from 153 in 1969 to 234 in 1970. A breakdown of the court appearances showed that Uninspected Motor Vehicles headed the list with 54 summonses; 45 speeders were arrested; and 27 people were apprehended for operating without licenses; Defective equipment accounted for 22; Unregistered vehicles for 13; and lack of proper equipment 12; 7 Operators were convicted for operating while intoxicated; 20 persons violated stopsign regulations; the balance were for various offenses. There were 24 arrests for other than motor vehicle charges.

Increased violence in our area is causing great concern among law enforcement officials. Armed robberies in southern N.H. are becoming a common occurrence and represent a real danger to the public and police alike. In early January, 1971, the first armed robbery of a residence occurred, with the result that two ladies were tied for several hours while the home was ransacked. We feel that the best protection against this type of crime is an intensive tactical patrol and our efforts are centered toward this concept. The patrol, however, will only be as effective as the officer initiating it. Because of the physical and legal problems involved, we have attempted to set minimum standards for the hiring of new officers. These standards include a high school diploma, minimum size, and a maximum age of 35, plus a willingness to to continue his education on his own time. As an example, this year, Officers Levesque, Cote, and Chief Ball attended St. Anselm's Evening classes to receive credits toward degrees in Police Science. Only by meeting these standards can the officer hope to fulfill his changing role in today's society. He is being called upon more each year to deal with emotional problems that arise in his community; problems that have as many causes as there are people involved. It is the well-trained officer recognizing the serious needs of today's family confrontations and working with the ability and confidence that comes from knowledge in his various fields, who becomes the real asset to his town.

It is becoming very apparent, however, that we will not be able to hire men who can meet even our minimum requirements, nor hold the good men we have unless we adjust our wage scales to more nearly compete with those of surrounding communities. When adjusted to an hourly rate, the pay of a Londonderry Police Officer is about \$25.00 per week less than his counterpart. We find ourselves at the point where we must pay our officers more or reduce the number of hours (currently 50 hours per week) with the resulting reduction in protection and service.

Also, in planning future growth of the department, it is highly desirable that we seek a man with the proper background to work within the sphere of juvenile activities. Together with the listed minimums, he should have an educational background in the social sciences and a desire to work with problem youngsters through the various programs being initiated within the community. The need is already urgent but the task of finding a qualified person will be virtually impossible with present wage scales.

We are again seeking whatever federal funds that are available. Because of an increase in applications, we will only receive \$1,750.00 from the Highway Safety Agency this year compared to \$5,750.00 last year. We are preparing an application to the Governors Crime Commission, also.

For those residents who are unfamiliar with the operation of the Police Department, we use an answering service to receive calls and dispatch the cruisers between the hours of 4:30 p.m. and 9:00 a.m. on weekdays and from 4:30 p.m. Friday to 9:00 a.m. Monday. The operators are required to ask your name and address and the nature of your problem so that the officer on duty can establish emergency priority. While this system may leave much to be desired, it cost (about \$600.00 a year) and it's capability are presently adequate.

The following is a list of our activities for 1970:

	1969	1970	Con	nparison
Accidents	179	170	_	9
Assaults	2	2		0
Assists to other depts.	128	176	+	48

### LONDONDERRY CIVIL DEFENSE POLICE AUXILIARY

It has long been a grave concern of ours that the Police Department was poorly prepared to handle certain types of emergency situations involving numbers of people. We did not have a sufficient number of trained men who could be available for sustained periods. The 250th Anniversary Celebration brought this concern into sharp focus. Fortunately, at that time, a number of volunteers gave excellent assistance to us and no severe problems developed. However, it was very clear that we had an urgent need for a group of men with at least a minimum of law enforcement training coupled with a communications system that could properly coordinate their activities with those of the regular police officers.

Despite a long work week and attendance at St. Anselm's on his free time, Officer Roger Levesque volunteered his services to establish an Auxiliary Police Force. He then met with Civil Defense director Chester Eaton, and a training program was set up. Membership in the Police Auxiliary is now open to anyone 18 years of age or older, who will participate in the program and who has not been convicted of a crime. The training sessions are designed to hold the interest of the members and are supplemented with films, guest speakers and target practice with firearms.

The men have made themselves available, at no cost, for numerous town functions and it is comforting to know that they are available for emergency service when needed.

> Frederick L. Ball, Chief of Police

### **AUXILIARY POLICE**

Critical to the effectiveness of an Auxiliary Police program is the amount and quality of training the men receive. The basic training program spans a period of twelve months and involves a minimum of twenty-six two hour in class sessions with instructions as follows:

- 1. Fundamentals of Law and Order
- 2. Emergency First Aid
- 3. Specialized training in the use and handling of firearms.

The Auxiliary Police was the first unit to ever represent Londonderry at the New Hampshire Civil Defense Auxiliary Police pistol match which was held on September 20, 1970 at Newport, N.H. The pistol team competed against other units from the state and ended up favorably as they took second place for "High Place Team," and second place for "High Individual Score," a tribute to Londonderry and it's Police Department.

During their training the Auxiliary participates in traffic control; foot and mobile patrol, as well as other services. Some of these activities that he performed in 1970 were the following:

- 1. Weekend cruiser duty
- 2. Memorial Day parade
- 3. Fire Prevention parade and muster
- 4. Halloween patrol
- 5. Miscellaneous services

The vehicles used for patrol are the police cruisers and on occasion the police van. This vehicle was issued to the Auxiliary Police by the Londonderry Civil Defense so that it may be used to the best advantage, whether as a patrol vehicle or serving as an emergency unit under civil defense conditions that may arise. This emergency police van has been completely restored by the men of the Auxiliary police at no cost to the Town. It is radio equipped and contains such emergency equipment as first aid kit; blankets; stretcher; fire extinguisher; public address system, etc. This vehicle is also manned and maintained by an Auxiliary Officer who is responsible for keeping this unit and equipment in a state of readiness at all times. Under emergency conditions, the performance of representatives of law and order may be a crucial element in determining whether the community can function in an organized and effective manner. The quality of this performance will depend a considerable degree on the effectiveness of capable and properly trained police personnel, whether they be regular, Special or Auxiliary.

> Roger R. Levesque, Auxiliary Training Officer

## SECOND ANNUAL REPORT OF LONDONDERRY CIVIL DEFENSE UNIT

Few people would argue with the contention that the police need help today. Perhaps even fewer are aware of the volunteer assistance provided regularly to the Police Department by the members of the Civil Defense Auxiliary Police who wear the Blue and Grey uniform.

In this fast growing community of Londonderry, New Hampshire, there is such a Unit, who at this time is celebrating its first year as an active organization and is thought to be one of the most active in the State of New Hampshire. It consists of men dedicated to their community and country with an unselfish attitude to serve his neighbors. Their role is even more important today than it was at the start of the Civil Defense program some decades ago. In fact, the total number of volunteer man-hours for the Town of Londonderry, during the year 1970, was approximately 1,134 hours.

In addition to the police assistance, he provides, the trained auxiliary plays a significant role in better community relations which is vital to the attainment of police objectives.

During their training, the Auxiliary Police actively participate in mobile and foot patrol, traffic control and perform other services as required. These duties are normally performed with a cruiser or the Civil Defense Emergency Police Van which has been restored by the Unit for routine or emergency situations that may arise.

Our Civil Defense Unit has increased from fifty-three persons in 1969 to 98 persons in 1970. 1971 should see us over 125.

Our efforts to acquire an Emergency Operating Center continues. Our efforts to increase our Emergency Preparedness Training for all units continues: this includes instructor training from the University of New Hampshire. Our local Police and Fire Departments have continual training programs and with proper co-ordination with other units such as Radiological, Communications, Engineering, etc., Londonderry could cope with any type emergency.

Our Communications unit has 6 meter AM equipment that ties us in with the State Civil Defense Network and is presently considering the State's offer to place a mobile van consisting of two sets of 6 meter FM transceivers with accessories, and antenna tower installation. Insurance, etc. would be covered by New Hampshire Civil Defense, add mobiles to this unit with properly trained operators and obviously amateur personnel would be attracted. Communications also boasts of a Citizen's Band network of 8 stations and 15 mobiles which at this time is being increased.

Our monitors and those belonging to the Fire Department provides Londonderry with an excellent warning network that fans out locally and alerts all town key personnel. This is co-ordinated with the National Warning System and is tested locally by our Warning Officer at both Firehouses the first Wednesday of each month at 11:00 A.M. Police Blue phones and Fire Red phones are part of the system.

Volunteers are something special, they deserve a lot of respect, if the amount of man-hours expended in 1970 was specified here, it would be surprising and heart warming. We want more of the same in 1971.

We exceeded our appropriation for 1970 because of the terrific interest and growth of our auxiliary police. 50% of their uniforms are paid out of the Civil Defense appropriation and we were not prepared for such a response.

State Civil Defense surplus equipment has been procured for Police, Communications and Fire Department. Our unit has three emergency generators, approximately 41,000 volts, we could light up, communicate and cook, in case of a prolonged power failure. As previously stated we are after an Emergency Operation Center, another 10,000 watt generator is ours if we succeed.

We enjoy serving you.

Chester Eaton, Director William Begin, Deputy Roger Levesque, Deputy

### REPORT OF RECREATION COMMISSION

This commission was created at the Town Meeting of 1970 with the express purpose of reporting to the Town Meeting of 1971 with a comprehensive program for the youth of Londonderry, the five members to be appointed by the selectmen for a period of one year.

Those appointed were George Combe, Horace Ethridge, Charles Fowler, Robert Lincoln and Arline Spahn. At the first meeting Robert Lincoln was elected Chairman, Charles Fowler, Vice Chairman and Arline Spahn, secretary.

Regular meetings were held at the Town Offices at 7:30 P.M. on the second Wednesday of each month, these meetings being open to the public. Beside the regular meetings, there were many special meetings held with the Conservation Commission, Mr. Carignan from the Manchester Recreation Department, Mr. Tappley from the State Resources and Economic Commission, Superintendent of Schools and School Board, representative from Manchester Model City Program, Planning Board and Selectmen. Also, the commission in September sent out 1500 questionnaires to the majority of towns people.

Out of these meetings and the questionnaire the following recommendations are made:

- 1. The establishment of a permanent Recreation Commission.
- 2. That \$2500 be appropriated for the operation of the towns recreange program for 1971.

In conclusion, the Commission would like to thank the various town boards and departments for their cooperation and assistance during the past year.

Respectfully submitted, Robert Lincoln, Chairman

### LONDONDERRY FIRE DEPARTMENT

### Report For Year 1970

EMERGENCY CALLS ONLY AND ALWAYS	432-3138
Station 1 other than emergency	432-3442
Station 2 other than emergency	432-3369

The problem of people using the emergency number for calls other than emergency is still a problem. Townspeople MUST be made aware that a call to the emergency number 432-3138 activates the Department and this is most disconcerting when the inquiry may be only as to whether or not school is in session. PLEASE — pass the word to all you come in contact with — EMERGENCY CALLS ONLY ON NO. 432-3138. In December alone the Department had over 100 calls on the emergency number. Of these a matter of 12 calls were in the form of emergencies but yet the Department was activated all 100 times. The regular phones handled over 1400 calls in this same month. This volume of calls leads us to believe that a Central Communications System must be considered in the near future.

Fire loss in the Town this year amounted to approximately \$49,000.00. Total Town property valuation exceeds \$35 million. When loss and cost are compared to valuations it seems that the Department is doing quite a job.

Range of Departmental responses ran as follows:

Grass, woods and trash fires	44
House fires	22
Motor vehicle fires	8
Dump fires	8
Electrical fires	6
Junk yard fires	4
Mobile home fires	3
Industrial and commercial fires	3
Apartment fires	. 3
Hen house fires	. 3
Rubbish truck fires	. 2
Total responses for fires	106
Burner and building inspections	20

Checking smoke for possible fire	13
Mutual aid assistance	12
Filling pools	12
Miscellaneous and FALSE ALARMS	8
Pumping cellars	6
Police Department assistance	6
Resuscitator calls	. 5
Highway Department assistance	. 4
Ladder rescue calls	. 3
Total responses other than fires	89
TOTAL CALLS	195

It must be brought to the attention of all those concerned that oil burner installations require an application prior to installation, an inspection after installation and a permit issued before operation. Your Volunteer Department is the one to call, at 432-3442, to achieve this.

### Expenditures for the year 1970 were as follows:

Wages	\$20,308.71
Equipment	5,123.46
Addition to Station No. 1	1,772.68
Vehicle repair and maintenance	1,487.34
Telephone	1,383.78
Dept. share of pension fund	1,212.69
Communications systems	1,169.27
Insurance	872.80
Heating fuels	689.05
Gasoline and oil	650.22
Blue Cross	612.28
Electricity	427.09
Christmas trees for resale	411.20
Station maintenance	184.71
May Ball for fund raising	178.57
Miscellaneous	122.29
New in ground fuel tank	118.80
Uniforms	109.88
Fire Prevention Week	69.08
Association dues	50.50
Stationery and supplies	30.55
Subscriptions	12.00
Purchase of safe	10.00
Inspection tags	6.62
Refund of equipment expense	(150.00)
Refund of N.H. gas tax	(135.59)
Total expenses for 1970	36,727.98

NOTE: The Department raised 19.04% of the total expenses for the year and a matter of 23.52% as much as the Town appropriation. This is certainly commendable action and activity on the part of this Volunteer Department.

The May Ball and a concentrated selling of Christmas trees accounted for about 50% of the funds the Department raised. These two items enabled us to purchase a 1970 Chevrolet pick-up truck, outfit same completely and to pay for the addition to Station 1. The balance of monies raised offset the difference between appropriation and expenditures.

During Fire Prevention Week a house to house canvass was conducted passing out literature; Open House and a series of demonstrations were conducted with the able participation of the Manchester and Nashua Departments (who both demonstrated some fabulous pieces of apparatus) and a parade was held with the largest participation of surrounding community Departments that we have had to date.

Constant training has been conducted and it is my opinion that we have the best qualified Volunteer Department in N.H.

The Department is entering an article in the Warrant this year to see if the Town will purchase a truck to carry on a 5 year purchase policy. Equipment must be of a certain current age status or the Fire Underwriters' will not approve the trucks for use. This new truck would meet the original Underwriters' requirements for the purpose of maintaining the present reduced insurance rates which are saving Townspeople a substantial sum of money.

In closing I wish to thank each and every one who has assisted the Department in giving this unselfish effort to provide a maximum of protection to the Town at a minimum of cost.

Respectfully submitted, Homer L. Brewer, Chief

# REPORT OF THE FOREST FIRE WARDEN AND DISTRICT CHIEF

The fire season of 1970 was not a quiet one in this area. On the contrary it was a very busy time with some Towns reporting a greater number of fires than in past years. This record is not good. Both State and Towns are striving to meet this challenge. Results show that we are not doing enough. We must do more in the matter of fire prevention education, a more active inspection program and a more prompt complete investigation of fires, where definite cause is not known, with court action where the need is indicated.

We must insist that minor children are given needed supervision. This is a parents' responsibility. Your Warden and District Chief stand ready to help in this work.

Our gratitude to all who have helped in forest fire prevention and suppression this past year and we look forward to this continued help in our effort to improve our good prompt detection system and fast suppression action. This, coupled with a good prevention program, will improve our fire record.

### FOLLOW THESE SIMPLE SUGGESTIONS TO HELP:

Set a good example for others by observing fire permit laws and regulations. Take your debris and waste to the Town dump. Keep matches away from children. Be sure your smoking material is dead out when discarded.

All fire permits issued in Londonderry can be obtained as follows:

Monday through Friday, 8 A.M. - 5 P.M., at Fire Stations

Any other time permits can be obtained from:

Forest Fire Warden, David Hicks	432-5304
Deputy Warden, Chester Button	432-5538
Deputy Warden, Leigh Nesmith	432-5917
Deputy Warden, Fred Moody	432-5916

### Number of Fires Reported and Acres Burned – 1970 Season

State	484 fires	244 acres
District	189 fires	170 acres
Town	44 fires	8 acres

Ralph Stevens, District Fire Chief David Hicks, Forest Fire Warden

## LONDONDERRY FIRE DEPARTMENT WOMEN'S AUXILIARY

It is the function of the Auxiliary to assist the Fire Department financially and to render our services for other functions of the Department when called upon to do so.

This year we assisted the Fire Department during Fire Prevention Week, clothed burned out families, served coffee and lunch at major fires.

We have also paid the Firemen's Personal Injury Insurance. Our fund raising projects consist of two food sales, proposed raffle book sales and small miscellaneous contributions.

Our meetings are held the first Tuesday of each month at Station No. 1. All ladies are invited and urged to join.

Respectfully submitted, Jean I. Keefe, President

### REPORT OF HEALTH OFFICER

This report covers the calendar year 1970. During this year 31 complaints were received, investigated, acted upon by this office.

Overflowing sewage	10
Unauthorized garbage dumping	2
Unauthorized trash dumping	2
Unauthorized construction	4
Unauthorized business operation	2
Unauthorized trailers	4
Unauthorized dump	1
Open wells	2
Dirty conditions in homes	3
Dead fish in pond	1

All complaints are being resolved in the best interest of the town and its residents.

During the year, all lunch rooms were visited, and prevailing conditions were found to be good.

Respectfully submitted,

George W. Barrett, Health Officer

### REPORT OF BUILDING INSPECTOR

This report covers the period from January 1, 1970 through December 31, 1970.

	Permits	Est. Cost
Houses	116	\$2,260,572
Town Houses	18	1,345,000
Apartment Houses	13	1,013,000
Duplexes	3	80,000
Garages	11	30,300
Remodel	17	29,750
Additions	26	54,450
Restoration	1	10,000
Swimming Pools	10	44,000
Trailers	5	30,889
Trailers replacement	6	36,495
Sheds	15	9,630
Barns	4	2,000
Hen house	1	100
Commercial Garage	1	150,000
Shopping Plaza	1	145,000
Service Station	1	75,000
Packing Shed	1	50,000
Saw Mill	1	15,000
Industrial Garage	1	12,000
Screening Plant	1	12,000
Storage Tank	1	12,000
Offices	2	42,000
Radio Tower	1	500
Sign	1	1,500
Foundation	1	750
Operate Business	2 3	
Permits renewed	3	
Demolish building	1	05.4(1.63(
	265	\$5,461,936

The townhouses represent 132 units, the apartment houses represent 129 units and the three duplexes 6 units.

The buildings involved were visited during construction to ensure compliance with State and local health and building codes.

Respectfully submitted,

George W. Barrett, Building Inspector

### PLANNING BOARD REPORT

Londonderry is no longer a "small town" which can depend on parttime administration and a once-a-year look at town problems and programs. The community is fortunate to have had the large number of conscientious citizens serving in volunteer positions on the many boards and offices dealing with community problems. It is difficult to imagine that the town will be able to continue to ask so much of the committees (and individuals) without providing more full-time staff assistance and part-time professional and technical assistance to deal with the widening range and increasing volume of Londonderry problems, programs and services.

A million dollar business without a full-time administrator and an office serving 6,200 people with no office manager cannot provide the level of service which a growing and changing community needs and deserves. The day-to-day details of various planning problems and programs must wait a week for action by the Planning Board or an already overtaxed Board of Selectmen. A continuation of this arrangement will seriously hamper the capability of the Londonderry community to keep abreast of its growth problems and day-to-day planning administration in the future.

Not only will Londonderry need a better administrative capability in the future but also the town will need more specialized personnel and services to deal with a wider range of more technical problems. The town needs more technical staff in the administration of the town's codes and ordinances and to deal with the large volume of new development and a wider range of construction projects.

Furthermore, the town will need more engineering services to handle streets and highways, utilities and community facilities, design and construction projects. In such a period of growth as Londonderry is going through, a number of community investments will be made which it must "live with" for a great number of years. The community can ill afford to spend its funds or to take over any facilities not properly engineered.

The great responsibility of the Planning Board in this period of growth dictates the need for some part-time technical assistance. For only the large subdivision review workload the Planning Board has, some technical assistance would be advisable, particularly in view of the fact that there are no other personnel available in the municipality's employ who could assist the Board. Further benefits for consultation on other planning matters would be immeasurable. The community should appropriate some funds each year for technical assistance for its Planning Board.

The duties of the Planning Board in implementing and following up the comprehensive planning study fall into two broad categories: Specific actions to implement the plan and continuing planning activity to keep the plan up to date and in perspective with occurrences in the area affecting Londonderry.

In order to fulfill both of these broad objectives, it would be desirable for the Board to organize some formal division of prime responsibility for various subject areas and coordination activities. Both by dividing up the Planning Board itself into subcommittees and by involving persons outside of the Board in formal liaison with specific subcommittee efforts, the Board can better employ the limited time available to it and broaden the base of planning activity, knowledge and communications in the community.

Subcommittees organized on such topical areas as: Utilities, Community Facilities, Highways and Transportation, Economic Development, could be complemented by coordinating subcommittees such as: Schools, Airport (including Manchester Airport Authority, the Development Council, and the Londonderry Housing Authority), Interurban Problems (Particularly Manchester and Derry), Londonderry Clubs and Groups (To provide an exchange of ideas on club, church and other groups involved in or interested in community projects and problems.)

These types of subcommittees can help the Planning Board keep up on the many facets of community problems and can spread the workload out over the members. At the same time the Board can benefit from the contact with nonplanning Board members involved with these subcommittees.

Among the continuing activities of the Planning Board should be such important items as an annual updating of the Capital Improvement Program and Capital Budget, review of recent trends in building permits, school enrollments, population growth, and Board of Adjustment cases, evaluation of needs for specific research such as preliminary engineering studies of sewer and water system feasibility, review of the adequacy and relevance of the Town's zoning ordinance, subdivision regulations and building code and examination of the Town's Comprehensive Plan to see that it is up to date and still represents a realistic policy statement on the future circulation, land development and community facilities.

These things can be done only if the Board has adequate resources available to it and if it is well organized and well informed. Too many Planning Boards become mired in the daily problems of subdivision review, etc. and cease to be a future "Planning" Board at all. In a busy period of growth such as the one being experienced in Londonderry, this is a pitfall to be avoided at all costs. The completion of this study must be simply one step in the continuing process of planning in the Town of Londonderry.

Many of the suggestions put forward in the preceding paragraphs by the 701 Comprehensive Planning Study have been implemented by the Planning Board. In the future more of these will be put into action. It is planned to involve more people in the workings of your Planning Board by creating the sub-committees that we feel are required to better fulfill our obligations to the community. We will do this by enlisting the services of informed people from all sections of the town.

In the area of specialized help for our more complex problems we are asking for an increase in our budget. This will allow us to hire a person for one day a week to do most of our clerical work. In addition to this we feel there are times when we should consult with an engineering firm on such matters as, sewage, water, roads, surveying and many other items that come up in our expanding community.

In line with a policy of trying to give more and better service to the community at the least cost to the taxpayer the Planning Board raised sub-division fees to \$5.00 per lot in January of 1970, with this increase \$1,530.00 was raised as compared to \$123.00 in 1969. Along with this policy and because of the need for a more full time Building Inspector, we also have proposed an increase in the cost of Building Permits. If this had, for instance, been in affect during 1970 it would have brought in a revenue of over \$5,000.00 as opposed to the \$630.00 that was received this year.

The conservation department that was voted in last March has been of great value in its first year of existence. The problem of pollution of Beaver Brook and the proposed conservation district in this same area are just two of the many items they worked out solutions for. The Planning Board has been and will be glad to work with such an energetic Board in the future.

The Planning Board meets the second Wednesday of each month to act on sub-divisions. In this past year we have met on an average of twice a week to work on other items of great importance to our town, among these were water sewer studies, recreation, highways, and Ecological and environmental studies.

The Planning Board looks back on a year of great activity but it looks forward to a year of even greater activity and the chance to serve the best interest of the town of Londonderry and all its people.

Respectfully George P. Hicks, Chairman

### DOG OFFICER'S REPORT FOR 1970

The number of dogs licensed in 1970 showed an increase of 54 dogs over 1969. Approximately 450 calls on dog complaints were received in comparison to 300 complaints in 1969. The dog officer had to dispose of over 99 unlicensed or unclaimed dogs during the year.

The dog officer is requesting an increase in his budget of \$175.00 for hours worked, mileage and dogs disposed of. This is due to the continuous increase in complaints and work hours.

We would like to advise new residents that the law requires all dogs receive a rabies vaccine before a license can be obtained. All dogs over the age of three months are to be licensed by the Town Clerk. Be sure to bring the rabies receipt when applying for a dog license.

Total dogs licensed 1969 - 599: 1970 - 653

Total money taken in from dog license 1970 - \$1,650.75

Total number of dog complaints - 1969, approximately 300

1970, approximately 450

Total dogs disposed of 1969 - 65

### VISITING NURSE ASSOCIATION

To: Town of Londonderry

Re: The Greater Derry Visiting Nurse Association

The Greater Derry Visiting Nurse Association is an approved Home Health Agency with Medicare accreditation. It employs registered professional nurses and serves the towns of Derry, Windham, Londonderry and Chester. Its function is to provide and teach the family to provide quality home nursing care to the patient in need of such care. It does not function as an emergency nursing service (which is occasionally a misunderstanding). People in need of emergency care are urged to call on their own physician.

From June 30, 1969 to July 1, 1970 a total of 230 visits were made by the Visiting Nurse Association in the town of Londonderry. From July 1, 1970 to November 1, 1970 a total of 184 visits were made. The types of visits made fall into the following four categories: 1. Visits made under written order of patient's personal physician to perform specific nursing procedures; 2. Maternal and child health visits. New baby. No fee charged; 3. Immunization checks on 6-18 month old babies. No fee charged; 4. Monthly health supervision visits. No fee charged. This includes Crippled Childrens Services and other services as laison for State agencies or to check on elderly or handicapped persons.

In addition to the regular services, the Visiting Nurse Association sponsored a German Measles Clinic which was made available to all the children in Londonderry. The Clinic was held at both the Central School and the North School. At that time 96 pre-school children were immunized and 275 school age children were immunized.

Parent Classes are now being conducted by the V.N.A. The first series of classes began on January 21, 1971 and is a big success. Four couples from Londonderry are attending these sessions. More people have expressed an interest in attending, however, since the first series of classes is overcrowded, they have been asked to wait for the second series which will begin on April 15, 1971.

Costs of running the agency have increased. Increased personnel and car maintenance contribute to this. According to the most recent cost analysis, each visit costs the agency \$5.95. Those able to pay the full \$4.00 fee asked for a visit are expected to do so. For those who cannot pay the full amount adjustments are made. Services are free for those unable to pay. All fees are applied to the agency budget.

### LONDONDERRY CONSERVATION COMMISSION

During the first ten months of existence, the Londonderry Conservation Commission has been engaged in defining the scope of its duties in relationship to town wishes.

The Commission has worked very closely with The New Hampshire Water Pollution Control Board and related agencies regarding the pollution and resultant fish kill of the Kendall Pond-Beaver Brook area below the Derry Sewer Lagoons. Although the stream has regained its normal appearance, monitoring is being continued in order to return the water to its Class B rating — suitable for swimming and fishing.

At the request of the Selectmen, the Commission inspected the Town's ten acres of timberland on Mountain Home Road to ascertain the possible benefit of a selective commercial cutting. The Commission felt that, once the snow melts, the county forester should be asked to inspect the property, to estimate timber values and footages, and to make usage recommendations.

Another point of concern to the Commission was the closed, state owned, rest area on Route 102 west of Mammoth Road. The Commission felt that with proper control the area should, and could, be reopened satisfactorily. Correspondence between the Selectmen, Police Chief Ball, and Commissioner Robert Whittaker of the State Highway Department has resulted in the State's enthusiastic approval to reopen and equip the area. The Londonderry Police have agreed to close the park after dark, on their normal patrol by means of a chain type gate, and to reopen it after dawn.

Through the Planning Board the Commission has proposed a green belt, conservation district along the Beaver Brook-Kendall Pond Water Shed to insure preservation of the area's extensive water resources, to control encroachment filling in the flood plain, and to protect the potential recreational qualities found there.

Due to the enlarging network of roads and increasing population, the Commission is aware that the town will, each year, demand more open space land management for recreational and environmental quality. The Commission intends to supplement its efforts towards these goals through the use of neighborhood study committees and extends an invitation to all of you to join us at 8:00 P.M. any first Tuesday of the month at the Town Offices to express your desires or concerns.

Please feel free to contact the Commission through any of its members at any time.

Hilliard — Mills Associates, Inc. Project Managers

GRENIER INDUSTRIAL VILLAGE Londonderry, New Hampshire 03053

Tel. 603 624-4004

### ANNUAL REPORT

of the

### LONDONDERRY HOUSING AND REDEVELOPMENT AUTHORITY

### "GRENIER INDUSTRIAL VILLAGE"

### HIGHLIGHTS OF 1970

### **JANUARY**

Appointment of Advisory Board representing various municipal and civic agencies and organizations.

### **MARCH**

Long term leases approved as a matter of policy, recognizing the need for assurance of continuing income and for stability for the lessees.

### APRIL

Final payment on the \$40,000 working capital loan.

### **AUGUST**

Joint meeting with City Officials of Manchester in the interest of cooperation and coordination of activities.

### **OCTOBER**

Negotiations begun toward land sales leading to agreements for sales totaling over \$300,000 when consummated.

### **DECEMBER**

Payment of \$3500 to the Town as reimbursement for municipal services approved by the Authority.

### STATUS OF BUILDINGS AND LEASES

The Air Force has released three more buildings which are cut by the Londonderry/Manchester line and will be demolished. This leaves eight buildings on the Air Force leaseback.

The Chapel and annex have been removed. These, together with seven others sold and removed, leave a total of 33 buildings remaining

available for lease.

At year's end there are 48 tenants leasing a total of 67 buildings. The annual rate of income from these leases is now more than \$100,000. The total space now under lease is 224,935 square feet, leaving over 200,000 square feet available. 45,224 square feet of the above are occupied by Town agencies and the USAF.

### STATUS OF LAND SALES

Three potential land sales prior to April 1, 1971 are all contingent upon certain action by agencies of the Town which are not within the jurisdiction of the Authority. Each requires a variance of the zoning ordinances or the subdivision regulations and two of these sales require final determination of the Londonderry/Manchester line. Also, assurance of continued use of the sewer system is necessary. Water service presents no problem on the three major parcels of land which are within the franchise area of the Manchester Water Works.

### STATUS OF SEWER SYSTEM

The New Hampshire Water Supply and Pollution Control Commission has advised the Board of Selectmen that a two-year extension has been granted to discharge wastes to the Merrimack River under the following conditions:

- (1) That the Town obtain a commitment from the City of Manchester either to accept the wastes from Londonderry for treatment in their treatment plants or reject such a plan;
- (2) That should Manchester reject this proposal, the Town must provide the necessary funds at the March, 1971 Town Meeting for final design of separate waste treatment facilities for the area served by the outfall in question.

### REVENUE TO THE TOWN

Tax revenues generated by the sale or use of the property of the Authority are as follows:

	Amount of Ta	ixes
Assessed Val	lue Actual 1970	Forecast 1971
\$ 91,750.	\$ 2,734	\$ 2,734
294,500	8,776	8,776
	2,000.	2,500
		5,387
	\$ 91,750.	294,500 8,776

Total from Taxes (based on 1970 tax rate: \$29.80) 13,510 19,397 Reimb. for Municipal Services 3,500

TOTAL \$ 17,010 \$ 19,397

### **JOBS**

A survey of employment by the tenants of Grenier Industrial Village indicates a total number of 340 jobs as of December 31, 1970.

### COMMERCIAL USE OF CERTAIN AREAS

The need for commercial use of an area not adapted to industrial use has been recognized and is urged by the Authority. There are two specific needs for the full development of Grenier Industrial Village as a self-sufficient and self-supporting segment of the Town of Londonderry:

Low cost apartment type housing is needed to provide a place for industrial workers to live which is convenient to their jobs. The Authority can by restrictive covenants in the deed control a balance between the housing development and the construction of industrial plants. This can to a great degree remove Londonderry from the category of a bedroom town to one in which residents can both live and work. At the same time a favorable balance of tax revenues over the cost of municipal services can be maintained.

<u>Facilities and services to support</u> the industrial activites and to meet the needs of people living in the area will also constitute commercial use.

The availability of public water and sewer systems together with adequate land area and highways, provide an opportunity for such development unequaled in any other part of the Town and at minimal cost to the taxpayers.

Charles H. Hall, Chairman

Rowland H. Schmidtchen, Treasurer

January 28, 1971

To the Commission Londonderry Housing and Redevelopment Authority Londonderry, New Hampshire

### Gentlemen:

We have examined the Statement of Condition and audited the books and records of the Londonderry Housing and Redevelopment Authority for the calendar year ended December 31, 1970.

Our examination was made in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other procedures as we considered necessary in the circumstances.

In our opinion, this Statement presents fairly the financial condition of the Londonderry Housing and Redevelopment Authority at the close of business December 31, 1970 in conformity with generally accepted accounting principles applied on a basis consistent with that of the preceding year.

John G. Drayton Company

### THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of Londonderry, New Hampshire qualified to vote in district affairs:

You are hereby notified to meet at the Londonderry Central School in said district on the 6th day of March 1971, at two o'clock in the after noon, to act upon the following subjects:

- 1. To hear reports of agents, auditors and committees or officers chosen and pass any votes relating thereto.
- 2. To see if the District will authorize the school board to make application for and to accept on behalf of the District any or all grants or other funds for educational purposes which may now or hereafter be forthcoming from the United States Government and/or the State of New Hampshire.
- 3. To see if the District will vote to authorize the School Board to accept in the name of and in behalf of the school district gifts for the use of the school.
- 4. To see if the District will vote to accept the provisions of Public Law 89-10 designed to improve educational opportunities with particular reference to low income families, and to appropriate such funds as may be made available to the District under the Federal Act for such particular projects as may be determined by the school board. Further, to see if the District will authorize the school board to make application for such funds and to expend the same for such projects as it may designate.
- 5. To see if the District will vote to purchase land situated northerly of the Londonderry Central School now owned by Horace Sargent and to authorize the school board to issue bonds and/or notes in an amount not to exceed fifty thousand dollars (\$50,000.00) for such purpose and to authorize the school board to apply towards the project all funds available from local, state or federal grants, aids or donations as well as all interest accrued or earned.
- 6. To see if the District will vote to construct and equip a school and to authorize the School Board to take all actions necessary in connection with the constructing and equipping of said school, to authorize the school board to issue bonds and/or notes in an amount not to exceed one million, six hundred thousand dollars (\$1,550,000.00) for the purpose of financing such construction and equipping and to authorize the school board to apply towards the project all funds available from local, state or federal grants, aids or donations as well as all interest accrued or earned.
- 7. To see what sum of money the School District will vote to raise and appropriate to make the initial interest payment on the bond issue.

- 8. To see if the District will vote to raise and appropriate the sum of fifty thousand dollars (\$50,000.00) to purchase land now owned by Horace Sargent and to obtain land options on the remaining Sargent land situated northerly of the Londonderry Central School.
- 9. To see what sum of money the District will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the District.

### STATE TAX COMMISSION

Concord, N.H. 03301

To: William Boucher, Chairman, Londonderry School District Box 397, RFD No. 3, Manchester, New Hampshire

Your report of appropriations voted and property taxes to be raised for the 1970-71 school year has been approved on the following basis:

TOTAL APPROPRIATIONS	\$968,684.80
Revenues and Credits	
Unencumbered Balance	4,687.32
Sweepstakes	6,359.21
Foundation Aid	72,611.56
School Building Aid	18,060.00
Intellectually Retarded	870.00
School Lunch & Special Milk Program	5,000.00
PL 874 (Impacted Area - Cur. Oper.)	1,100.00
PL 89-10 (ESEA)	11,000.00
Rent	50.00
Other Revenue from Local Sources	1,800.00*
TOTAL REVENUES AND CREDITS	\$121,538.09
AMOUNT TO BE RAISED	
BY 1970 PROPERTY TAXES	\$847,146.71
TOTAL APPROPRIATIONS	\$968,684.80

\*This money was received and spent for landscaping through the Budgeting Fund, 1969-70.

STATE TAX COMMISSION

Lawton B. Chandler, Commissioner

## ANNUAL REPORT OF THE LONDONDERRY SCHOOL BOARD

Your School Board is coming before the Town with another proposal for a physical plant to house grades 6 through 8 to relieve our overcrowded schools. We projected that the two schools presently being utilized would be filled to capacity by 1971-1972; they are at the present time filled to capacity. The result of this over-crowding has caused the Board to discontinue the Music program, it was not physically possible to schedule space for a teacher to conduct this program. There will be public hearings held to discuss the educational needs of the Town and the Board will solicit and welcome discussion on all aspects of our building needs.

There has been considerable inconvenience to the parents in the area of busing, but I feel that most of our problem has been due to the fact that the people coming into the system are unaware of the fact that our buses are contracted. This service is provided by an individual contractor on a bid basis and paid for at a per-mile rate. When a new route is created there is mileage added to a run, thereby causing more money. Time is a very critical factor and stops must be minimized in order to get the children to school on time, so try to keep your requests for new stops to a minimum. We are transporting 1010 students at the present time and with cross busing the number is greater with seven buses making three trips each. I am sure that we could do a lot better with seven additional buses, but by weighing the cost as opposed to the inconvenience, I am sure that you, the taxpayer, can put up with a little inconvenience.

The Board has been busy this past year with the AREA Study Committee; negotiating with Auburn, Litchfield and Windham in an effort to subsidize the cost of the new plant. The articles of agreement must be drawn up before this forthcoming School District Meeting in order to be eligible for State incentive aid. The three towns involved so far have expressed a desire to re-negotiate in 1974 when we enter into our second phase of construction, which will be the beginning of our Junior-Senior High School complex. The intent here is to involve these towns in a tuition paying agreement with Londonderry in order to help pay the cost of the facility.

### SUPERINTENDENT'S REPORT

To the citizens of Londonderry, I hereby submit my annual report as Superintendent of Schools.

In October of 1957, Russia placed in orbit an artificial satellite called "Sputnik."

Curriculum and curriculum development became front-page news and citizens began to realize the importance of more expensive curricula for college-bound as well as non-college bound youngsters. General education as well as better vocational offerings, particularly on the higher and more technical level were in demand. The necessity for meeting the needs of all our students became very important.

Traditionally, curriculum was only a collection of textbooks used by a given school system. As the purposes of educations have broadened, the idea of curriculum has changed to include all the means used by a school system to provide students with opportunities for a profitable learning experience. The business of living is now the curriculum of our schools. Over the past four years, in this Union, teachers, administrators, consultants and lay people have been working together to make available to the teachers curriculum materials. It will not be easy for these students to make decisions without the right information; it takes profound thought and knowledge, it takes courage to act and to behave democratically. Children have to be prepared for all of this. Your schools have been given the assignment of helping students to understand the world in which they live, and to make decisions about current problems and to prepare for a future world that we do not completely understand.

This Union has become increasingly aware that curriculum development is an integral part of the educational process. It is no longer sufficient to rely only on a textbook for a given subject. The teacher, through her curriculum guide, must be given the ideas and understandings that a community feel are important for their children. It is no longer enough to rely on the standard textbooks. Other media must be placed in the hands of the teachers. Current research in education has revealed that learning takes place through all the senses, therefore, the teachers must have access to such materials as filmstrips, visual transparencies, charts, models and tapes.

The main emphasis in curriculum study in this Union is to place in the hands of the teachers the ideas and concepts that are to be taught in each subject. Along with these concepts we want to provide a teacher with the necessary materials to enable her to do her job. When this has been accomplished, each classroom teacher will be able to organize and present the materials in her own particular style of teaching. We do not want a stereotyped teaching. We want to be certain, however, that each student has the opportunity to receive a similar background of knowledge in our Supervisory Union. We feel that the best way to do this is by the staff working together, with consultants, to write curriculum guides for each subject. We fully realize, however, that a good curriculum is never complete; that it undergoes constant evaluation so that it may meet the needs of our changing community.

I would like to express my appreciation to Mr. Arthur Mitchell, Assistant Superintendent of Schools, for his leadership in the curriculum program.

A most important problem facing the schools in Londonderry is the continued pupil growth. The Londonderry School Board will present to the voters of Londonderry a building program to provide for the needs of the Londonderry students in September of 1971. It is not the birthrate in Londonderry that is causing the increased growth; it is the in-migration of families into Londonderry. This rate has shown some decline in the past few months, but there are definite indications that the school population will continue to grow at a rate of between 8% and 10 percent annually. We are currently using all classroom space available in the Town of Londonderry, both at the North School and at the Central School. If projected enrollment growth continues, additional space must be made available by September of 1971.

The need for additional school space is not one or two years in the future, but six months away. The type of space to house the youngsters will depend on the citizens of Londonderry and their vote concerning the construction of school facilities.

I would like to express my appreciation to the Londonderry School Board, the principals and teachers in Londonderry for their whole-hearted support and effort to provide the best possible education for the children in Londonderry.

I would like to commend Mr. Anastas Christo, Director of Pupil Personnel, for his dedicated efforts to provide programs for the special students in this Union.

Respectfully submitted,

Bernard J. Ellis Superintendent of Schools

### REPORT OF THE ASSISTANT SUPERINTENDENT

The school year, 1969/70, was a rewarding one for the Londonderry School District. This was highlighted by the completion of the new wing at the North Londonderry School. The minimum life of an average building is fifty years. Planning in this day and age, with changes coming so rapidly, a building must be built to provide a great deal of flexibility for learning and instruction to take place. The open wing, adjacent to self-contained classrooms, provides for this flexibility. Children here are able to be grouped according to the level they work at successfully rather than just on the number of years they have been in school. This avoids having every child repeat in all subject areas, if he only needs additional instruction in one subject area. Planning by the instructional leaders within the building is a necessary prerequisite to good instruction. One must have time to assess what a child needs prior to giving him the instruction. If groups are to be flexible and provide interchange within the groups, then the instructors must have the time and a place to meet together in order to arrange their groups. The design of the school has provided a planning workroom for the teachers right in the instructional area. We hope, with time, the State will allow us more planning time for the teachers, as it takes a two or three hour session to plan appropriately, rather than trying to catch fifteen or twenty minutes here and there within or immediately after the school day. The new staff in the open wing, is to be highly commended for their ability to recognize a problem, solve it and improve upon the situation continually, all for the benefit of the student. These people volunteered their time in the month of August to work together and plan a very successful program, prior to the opening of school and again during Christmas vacation, they volunteered their time to come in and help move, set-up and organize the new wing in preparation for its opening after the Christmas vacation. This is truly a sign of dedicaand professionalism, of which many towns could become envious. With the new addition open, Mrs. Doris Currier's Special Education Class moved back to the North School from Central. Work was begun in conjunction with the principal, Mrs. Currier and the superintendent's office in planning a more comprehensive program for the students of the Special Education Class.

At Central School the year began under the experienced leadership of a new principal, Mr. Robert Shea. After becoming acquainted with his staff and surroundings, Mr. Shea dedicated himself to planning programs with his teachers, suitable to the needs of his students and the plant in which they were located. Teacher Aides were hired to provide students with more adult attention in classrooms that were overcrowded.

All children who would be six prior to December 31 were given a de-

velopmental preview to aid in our planning their instructional program for the coming school year. This program is in its second full year of operation and has proven to be extremely successful in providing the proper learning situation for children. Developmental research in relation to the learning situation has been carried on extensively by many groups throughout the world. Planning for the child's education in terms of his physiological development rather than just his intellectual progression, adds a new dimension of greater fairness to the learner. We are pleased to offer this program and have the staff willing to become trained in this approach.

Achievement tests from Scientific Research Associates were given in October. The results were subsequently given to parents and the local School Board.

In the area of curriculum, a great deal of time was spent. A workshop day was held in the fall for all instructional staff of Supervisory Union No. 10. Among the leaders of the workshop day was Dr. Robert Anderson, of Harvard University, world renowned educational leader and author of numerous texts. He talked with teachers about organization for team teaching and ungraded schools, team planning, and working for an improved educational organization. Joining with him were Thomas Wolpert, of Boston University, who worked with the teachers on language arts and activities. From Keene State College we had Michael Franklin, whose major area of concern was learning disabilities. Throughout the year we saw the results in benefits of this workshop day in many classrooms throughout the school district. The principals of Supervisory Union No. 10 were called together at the close of the school year to share their concerns and discuss improved organizational methods. All principals met with the superintendent's staff at the University of New Hampshire with Dr. Petroski. We reviewed our supervisory procedure and made plans for the coming year. Results have shown that we should repeat this procedure again. Following the close of school, another workshop was held in June with Dr. Kenneth Marrar of Boston University to train teachers in new methods of handling and developing their own audio-visual materials. Teachers learned how to make individual slides, screens and how to incorporate these into the curriculum. Their duty was to share this information with the rest of their staff throughout the coming school year. Teachers at North Londonderry School again volunteered their time to join with the teachers of Windham and Auburn School Districts in order that they may learn better ways and improve methods in individualizing instruction. Again, this shows the high degree of professionalism and dedication that these teachers have for your children. Numerous consultants were brought in for this program from a variety of Universities and all praised these people for their sincerity and dedication. These teachers asked to continue their in-service training and study into the 1970 school year.

The language arts, social studies and mathematics committees worked in the month of August to prepare material for the teachers. The mathematics committee developed diagnostic tests to be used by teachers in placement of the children for instruction. This material will be reevaluated and developed in another summer session. The language arts people purchased a booklet recognized by the State as a noteworthy accomplishment to aid teachers in instruction. The social studies group continued their development of plans for each grade level. We are planning to substitute the language arts committee for the science committee this coming summer in order that we may review and redevelop our science program to assure coordination throughout the school district.

In the area of teacher recruitment, nearly 300 teachers were interviewed in three states. In some areas the supply was plentiful. In the areas of science and math there still is a shortage.

All current staff members have been supervised in their classroom by the principals and some by the superintendent's staff. These written reports are submitted to the assistant superintendent after being signed by the teacher.

I wish to thank the Londonderry Board of Education, administrators and other professional staff for their excellent cooperation throughout the school year.

Respectfully submitted,

Arthur Mitchell, Jr.

#### REPORT OF THE PRINCIPAL

#### LONDONDERRY CENTRAL SCHOOL

It is my pleasure to hereby submit my first Annual Report to the people of Londonderry.

The first task I set for myself as Principal of the Central School, was opening lines of communications with the community and establishing a rapport with the staff. I felt this was necessary in order to explain my goals and aspirations for the improvement of a total school program.

When a new school administrator assumes the leadership of a rapidly growing school, there must be a built-in program of appraisal and reappraisal, if education is to keep stride with new ideas and not become static in a changing world. The demands for excellence are pressing and persistent.

The faculty at the Central School during the 1969-70 school year worked individually and collectively evaluating all aspects of the curriculum. The purpose of this was to maintain as well as expand the quality of education for the children in Londonderry.

This year the staff at both schools under the direction of Miss Shirley Borring, felt for a smooth transition to the "Open Area" at the North School, all students should be grouped in learning levels for Mathematics and Language Arts. This process of continuous education will be carried on through the child's elementary years. The students in the Junior High Program, in keeping with "Prescription Education", will be placed according to ability in Mathematics and Language Arts. They will also have the opportunity of working with other students of various interest and abilities in Social Studies and Science.

A coordinated Physical Education Program was developed for the first time under the direction of Mr. Roland Jutras. Mr. Jutras also broadened the sports program.

The teachers at the Central School worked hard and long hours improving their teaching techniques throughout the year. Education will not stand still nor step backward. The individual child is our prime interest, therefore, education can only progress in Londonderry.

I would like to thank the citizens of Londonderry, the School Board, Mr. Ellis, Mr. Mitchell and the members of the Supervisory Staff, for making my first year in Londonderry a pleasant experience.

I wish to express special appreciation to the teachers, staff members, and Mrs. Sophia Bleczinski, school secretary for the extra effort that it takes to make our educational efforts move in a smooth manner.

Respectfully submitted,

Robert J. Shea

#### REPORT OF THE PRINCIPAL

#### NORTH LONDONDERRY SCHOOL

This year was one of the most successful in the years that I have spent in Londonderry as a teacher and principal. The entire staff was most cooperative and energetic and willing to undertake new challenges. New programs were undertaken while others were expanded, especially the restructuring of our first year curriculum and the non-graded structure introduced at the intermediate level in a new open-concept addition.

A detailed accounting of the organization and structure of the openconcept program is worthwhile at this time.

The open-concept program came to be in Londonderry after careful study of our needs and concerns. Among some of these were:

- 1. Many students reading below grade level.
- 2. Many groups within each content area in a self-contained class.
- 3. Unable to provide many activity centered programs.
- 4. Providing for individual differences.
- 5. Impossible to share a master teacher with many classes or groups of students.
- 6. Methods of developing positive attitudes toward learning in students. After spending many days over many months visiting such open-concepts as those found in Franklin, N.H., East Rochester, N.H. and Winchester, Mass. and speaking to administrators and teachers we became convinced that such a program would be possible and beneficial in our community.

Teachers became directly involved by also visiting these schools and holding meetings with the Superintendents and the Principals. It was then decided to have all grades 4 and 5 at this school.

In May and June of last year, all students in grades three and four were given a Stanford Reading Diagnostic Test. Through a series of many meetings with these teachers approximately 10 ability groups were formed. Criteria for placement was given to past academic grades, teacher observations, and the reading test. These were long and difficult meetings due to the fact that we had approximately 220 students in these grades.

In September the open-construction wing was not ready for occupancy. Therefore, four classrooms were placed in our auditorium with semi-portable partitions. This situation was extremely difficult for students and teachers, since the teachers were scattered throughout the building. Nevertheless, we were able to proceed with no major difficulties in our non-graded program, despite working in very crowded areas.

It wasn't until January 5, 1970 that we occupied the new open-con-

struction wing of our school. The transition from self-contained working areas to larger open areas was easily accomplished.

Since we were crowded with approximately 240 students, we also occupied two self-contained type classrooms. This allowed teachers to use these rooms for various activities as well as groups that could be taught in a more traditional fashion.

In our program we also have a conference room, a remedial reading area and a science lab, quite complete, for these intermediate grades; which are part of the open-area and available to the entire school. I believe that we are one of the few schools in this state that have such facilities for these grade levels.

The educational program in the new open-area is not drastically different from what we have had for years here in our school system. Every student has been placed in groups for reading and mathematics since the first years in school. In open learning areas we are able to have larger groupings and provide more flexibility with team teaching.

The organization offers a continuous progress program for each student in the development of intellectual, emotional and social growth within each individual. To accomplish this we strive to establish, within each child, a desire for learning which in turn will develop the interest and aptitude to acquire basic skills.

The structure of fourth and fifth year students is all within levels of progress and ability. The program is developed in coordination with teachers, specialists and the principal. The extent of departmentalization, grouping procedures, teacher-pupil rations by level and subject is implemented only by a careful analysis of the student's needs and differences. Any form of organization may be used if it can meet the needs of the child.

Students are encouraged to proceed at their own pace with materials supplied for the range of abilities and learning styles within each level. Definite levels have been established in the integrated language arts program and in arithmetic. Science and Social Studies is in a more graded program.

In the line of equipment and materials, we have a great deal available. For example, every teacher has an overhead, record player, tape recorder and filmstrop projector available at any time; other equipment such as language master, filmstrip previewer, tachistoscopes are also available. Cordless headset sound loops are available in six areas. This allows for any sound program including TV to be used without any disturbance at all. It is possible for one group within a level to work with programmed instruction while the teacher works with the other group. We have available programs in listening skills and are acquiring some for math.

The structure and organization in each area in the open-concept allows for flexibility. The traditional student desk has been replaced by various shaped tables. Each student also has a plastic tote tray to keep his personal materials. These are placed in runners under tables when the student is seated at a table and then stored in cabinets at the end of the day.

The new addition has allowed us to employ various methods of teaching that otherwise would be difficult to implement in a self-contained classroom. Team-teaching, individualizing instruction and cooperative teaching are but a few of the different approaches or methods used. Basically these allow us to provide for each student's individual needs and differences in a continuous progress program with the use of some of the best educational materials available.

In evaluating this past school year, I am especially grateful to the outstanding staff at this school, including teachers, my secretary, librarian, custodians and kitchen staff; and certainly Miss Etta Merrill, who volunteered a day per week as an art consultant. Without their dedication, the North Londonderry School could not have progressed as it has. However, a special appreciation is extended to all the parents of this community who are keenly interested in the BEST education possible for their children.

Respectfully submitted,

Donald Jobin Principal

#### REPORT OF THE READING CONSULTANT

As I write this first Annual Report for the town of Londonderry I might entitle it The New Look In Reading. I was fortunate enough to step into a position where a well organized reading program was already in progress. During the past three years Londonderry has built its program from a single basal approach to a multi-basal approach to help meet the needs of the children. I am pleased with the quality of the newly purchased materials.

This year to continue our forward look in the area of reading and language arts we have concentrated our efforts and budget on items other than textbooks. We have introduced new records, tapes, and some film loops into our schools, to say nothing of the fine programs being watched over the educational television channel. We have also introduced into some of our third year and sixth year classrooms very fine individualized reading programs. All of these materials have been purchased with the thought in mind that children learn through ways other than through the hard-back basal reader. Therefore, supplementary materials are necessary. I feel that the items we have purchased this year will leave us much better situated during the coming year.

We have organized a series of levels this year in reading and language arts which incorporates grades four through six. It is our aim to make these levels as flexible as possible so that students may move from level to level as quickly as possible. Students in grades one and two are also being placed in levels. Again, we feel that this series of levels allows for flexibility in the grouping we wish to provide for our students. In the near future we hope to place students in grade three in levels to help complete our program for continuous growth in grades one through six. At this time we are looking forward to and planning for new types of grouping in language arts at the junior high level.

I have worked very closely with our reading teachers and feel that we are fortunate to have two very competent people working in this area. Mrs. Erma Knox, who works full-time at the North School, was indeed helpful this year in being able to introduce me to the on-going program in the school. Mrs. Marion Landry, the part-time reading teacher at Central, has carried on a most adequate reading program with students in grades two through seven. As our buildings increase in size, however, I can foresee in the near future the need for a full-time reading teacher at the Central School.

In the coming school year I would like to have the reading teachers, not only work with specific groups of students at specified times, but also be available to teachers to work within the classrooms helping to further promote the reading program. In this way the expertise of these two capable teachers would be available to more students and teachers rather than to a specified few.

It is my intention during the next school year to work closely with teachers developing a system of organizing their materials so that all teachers may benefit from the efforts of each teacher. Also, I will make myself available to any teacher who needs assistance in the area of reading or language arts, particularly new teachers. These are only a few of the possibilities for the coming school year.

It is, then, with these thoughts in mind that I close my first year in Londonderry and begin looking forward to a second year. I would like to express my appreciation to all those involved for making it a most rewarding experience.

Respectfully Submitted,

Shirley J. Boring Reading Consultant

#### SCHOOL HEALTH REPORT LONDONDERRY

#### **September 1969 – June 1970**

#### Reported Communicable Diseases:

The Rubella immunization clinic was held on November 19th with a total of 371 students in grade one thru six receiving the immunization.

The New Hampshire Division of Public Health's goal is to have immunized 70,000 of the children in these grade levels before June 30, 1970.

The Heaf test for tuberculosis detection was administered to 198 first and seventh grade students in December. All tests were negative.

For the first time in Londonderry Schools a Preventive Dental Program sponsored by the Londonderry Chamber of Commerce in conjunction with the School Health Department was held. This program consisted of prophylaxis plus a topical flouride application and dental hygiene instruction.

Mrs. Barbara Coish, R.D.H. of Windham was our dental hygenist.

Dr. Zumbrunnen, Director of the Bureau of Dental Public Health for the state of New Hampshire was most helpful to us in setting up this program. All equipment and supplies were furnished to us by his office. A total of 335 students took advantage of this clinic.

My sincere thanks to the members of the Londonderry Chamber of Commerce for making this program available to the children in our schools.

Investing in the health of boys and girls today, will assure the best chance for their success tomorrow. The advantages gained from their school experience will depend in large measure on such basic matters as a high level of wellness, which results in enthusiasm and energy, reasonable self-confidence, goals and expectations based on their unique potentialities and personal drives, and the friendly guidance of responsible adults who have a deep concern for, as well as understanding of, the difficult road to maturity.

Working together for the best interests of our greatest national resource should be not only our most important responsibility, but the greatest challenge that faces us today.

I wish to express my thanks to the superintendent, principals, teachers, parents and the school board for their co-operation.

Respectfully submitted,

Claire Hunter, R.N.

#### SPEECH THERAPY PROGRAM Supervisory Union No. 10

To the Superintendent of Schools and members of the School Board:

Federally funded through Title I, ESEA, in 1969-70, the Speech Therapy Program provided a full-time coordinator/speech therapist and three part-time therapists to serve the towns of Auburn, Chester, Derry, Londonderry, and Windham. 138 children in 11 schools were seen for therapy. The program also included a 4-week Summer Speech Clinic in 1970.

All third-graders were screened in the Fall for speech problems of voice, articulation, hearing loss and auditory perception, stuttering, and language development. The philosophy of early identification of a speech problem is basic to the program. In this way, a child can be enrolled in speech therapy before his incorrect speech pattern becomes stabilized as a habit that would be harder to correct when he is older.

In trying to effectively meet the needs of those children with speech problems and enhance the program, the children were seen on a block schedule of two 5-week periods during the school year. 90% of the children showed sufficient progress in the first 5-week block so that they carried-over the corrected speech outside of therapy and to the second time block.

The Special Education classes received a language program designed to raise the students' general linguistic functioning. Through language activities, the classes were directed to oral expression for language development.

Parents of children seen for therapy were given suggestions when needed to help their child at home and to maintain carry-over. Of particular consequence was the parental involvement in the child's therapy goals and understanding of the function of speech therapy in relation to the child, the school, and themselves.

I wish to thank the Superintendent of Schools, his administrative staff, the School Boards, principals, teachers, and staff of all schools for their participation and help in the program. A special thanks is extended to Miss Carol MacKinnon for helping me.

Respectfully submitted,

(Miss) Deborah Folley Coordinator/Speech Therapist

#### SUMMARY OF FINDINGS AND RECOMMENDATIONS

The School Board Londonderry School District Londonderry, New Hampshire

#### Gentlemen:

Submitted herewith is the report of the annual examination and audit of the accounts of the Londonderry School District for the fiscal year ended June 30, 1970, which was made by this Division in accordance with the vote of the District. Exhibits as hereafter listed are included as part of the report.

#### SCOPE OF AUDIT

Included in the examination and audit were the accounts and records of the School Board, School District Treasurer and the School Lunch Program Account.

#### FINANCIAL STATEMENTS

Comparative Balance Sheets — General Fund: (Exhibit A-1)

Comparative balance sheets — general fund — as of June 30, 1969 and June 30, 1970, are presented in Exhibit A-1. As indicated therein, the Net Debt of the District increased by \$127,083.26, from \$573,169.42 to \$700,252.68, during the fiscal year ended June 30, 1970.

Analysis of Change in Financial Condition — General Fund: (Exhibit A-2)

An analysis of the change in financial condition — general fund — of the School District during the fiscal year is made in Exhibit A-2, with the factors which caused the change indicated therein.

These were as follows:

Increases in Net Debt:		
Bonds Issued During Year	\$175,000.00	
Surplus Used to Reduce School		
Tax	1,830.58	
		\$176,830.58
Decreases in Net Debt:		
Net Budget Surplus	4,747.32	
Bonds Paid During Year	45,000.00	
		49,747.32
Net Increase		\$127,083.26

Comparative Statements of Appropriations and Expenditures – Estimated and Actual Revenues – General Fund: (Exhibits A-3 and A-4)

Comparative statements of appropriations and expenditures — estimated and actual revenues — general fund — for the fiscal year ended June 30, 1970, are presented in Exhibits A-3 and A-4. As indicated by the Budget Summary (Exhibit A-4), a net unexpended balance of appropriations of \$514.54, plus a revenue surplus of \$4,232.78, resulted in a net budget surplus of \$4,747.32.

Non Revenue Account: (Building Fund)

Comparative Balance Sheets: (Exhibit A-5)

Comparative balance sheets — building fund account — as of June 30, 1969 and June 30, 1970 are presented in Exhibit A-2.

#### **TREASURER**

Summary Statement of Receipts and Expenditures — General Fund: (Exhibit B-1)

A summary statement of receipts and expenditures – general fund – for the fiscal year ended June 30, 1970, made up in accordance with the uniform classification of accounts, is included in Exhibit B-1. Proof of the Treasurer's balance – general fund – as of June 30, 1970, is included in Exhibit B-2.

Building Fund Account: (Exhibit B-3)

The activity in the building fund account during the fiscal year is shown in Exhibit B-3.

School Lunch Program Account: (Exhibit C)

A statement of the school lunch program account is included in Exhibit C.

School Tax Account: (Exhibit D)

Exhibit D presents a statement of the School District tax account with the Town of Londonderry. As indicated therein, at June 30, 1970, the School District had received from the Town a total of \$678,000.00 on account of the 1969-70 school tax, the amount of which was \$678,052.32. The balance of \$52.32 due from the Town at June 30, 1970, on account of the 1969-70 school tax is shown as an asset account in the general fund balance sheets (Exhibit A-1).

The School District also received an advance of \$16,440.00 on account of the 1970-71 school tax from the Town during the fiscal year 1969-70. This amount is included as a liability account in Exhibit A-1, at the end of the fiscal year.

Bonded Indebtedness: (Exhibit E)

A statement of the outstanding bonded indebtedness of the School District as of June 30, 1970, showing annual debt service requirements is contained in Exhibit E.

#### **GENERAL COMMENTS**

Current Surplus:

The current surplus (excess of total assets over current liabilities) increased by \$2,916.74, from \$1,830.58 to \$4,747.32, during the fiscal year ended June 30, 1970, as shown herewith:

	June 30, 1969	June 30, 1970
Total Assets	\$4,405.75	\$40,056.79
Current Liabilities	2,575.17	35,309.47
Current Surplus	1,830.58	4,747.32

Note, Bond & Coupon Register:

The Treasurer of the School District should procure and keep a note, bond and coupon register as required by R.S.A. 33:12.

#### Conclusion:

The provisions of Chapter 184 of the Laws of 1955, require that the auditors' summary of findings and recommendations (letter of transmittal) shall be published in the next annual report of the School District. Publication of the exhibits included in the report is optional, at the discretion of the School Board.

We extend our thanks to the officials of the Londonderry School District for their assistance during the course of the audit.

Yours very truly,

Frederick E. Laplante, Director DIVISION OF MUNICIPAL ACCOUNTING STATE TAX COMMISSION

#### Certificate of Audit

This is to certify that we have examined and audited the accounts and records of the Londonderry School District for the fiscal year ended June 30, 1970.

Our examination was made in accordance with generally accepted auditing standards and accordingly, included such tests of the accounting records and such other auditing procedures as were considered necessary in the circumstances.

In our opinion, the Exhibits included herewith present fairly the financial condition of the School District as of June 30, 1970, together with the results of operations for the fiscal year ended on that date.

Respectfully submitted,

Frederick E. Laplante, Director DIVISION OF MUNICIPAL ACCOUNTING STATE TAX COMMISSION
