¹ number of individual student forms

Notes: Statistics are based on students responding 'excellent to poor' on a 5-1 scale to question 14, "Overall, how would you rate this instructor", on the standard university form for teacher evaluation. All courses are weighted equally. Some departments or courses have received special exemption and do not use the standard university form for evaluation; in addition courses with five or fewer students enrolled do not require evaluation.

The number of course registrations determines enrollments.
