LIBRARIAN'S REPORT

The number of volumes in the Harrisville Library on Feb. 1, 1939, was 2,683. During the year 281 books were added making a total of 2,964 volumes on Feb. 1, 1940. The circulation is nearly the same as last year, the adult fiction 2,314, juvenile 1,412, and non-fiction 1,121. We are very glad that so many young people are using our library as a reading room and all we ask of them is that they be quiet. More students each year use our reference books and the librarian wants to help as many as she can to learn the use of the new Book of Knowledge, Dictionary or Atlas.

Once more the library sign has been erected and we hope it will be permanent now.

Donations of books have been received from Mrs. Bennett, Onni Saari, Mr. Thompson, Vaino Saari, the Dublin Library, Ruth Pitman, Carol and Warren Thayer. To any one contributing books we are thankful.

Respectfully submitted,

HELEN B. THAYER,
Librarian.

Harrisville, N. H., January 31, 1940.
REPORT OF SUPERINTENDENT OF SCHOOLS

I herein submit my seventeenth annual report as superintendent of schools.

The American system of public schools is today facing the greatest challenge of a century in the scholastic training of its youth during the formative period of life.

For half a century, to my knowledge, we have heard echoing down the stream of education the slogan "Back to the Fundamentals."

Admitting that this slogan has laid a firm foundation for our educational structure and also that it is highly essential today, yet we note in the rapidly changing conditions of the world, greater emphases must be placed on the preservation of American institutions.

Indeed, our pupils must drink more deeply and more freely from the fountain heads of Liberty and Freedom, viz. the Bill of Rights and the Magna Charta of English history and from our own Constitution.

It may be true that the pupils under a dictatorship are as well trained in the so-called fundamentals but they do lack the major part of that education which is needed for citizenship under our form of government. Democracy's slogan is onward to the most helpful conditions of living for the masses and of opportunities for participation in a democratic society. The founders of our republic believed education essential to the success of democracy. The experience of a century and a half confirm that belief so strongly that we may say without fear of contradiction "Our public schools are our first line of defense;" Our education is the bulwark of the citadel of Liberty."
When the cataclysm of arms in Europe has spent itself and we approach the world-wide renaissance of modern living, we must have our leaders prepared. They must be endowed with the highest type of citizenry, a type which implies the closest cooperation, supplementation and coordination of the three vital elements of society, viz, the school, the home and the church.

History tells us that in all great emergencies the great bulk of leaders come from rural sections of the country. Let us hope that Harrisville may furnish its quota.

These promotions were made on the following points: regularity of attendance, term rank, standard tests and examinations given by the teachers.

Metropolitan Achievement tests were given; one at mid-year and one in June.

The Otis Standard Graduation examination for elementary schools was given to the eighth grade.
These tests are very helpful in the gradation and placement of our pupils. By their use much of the personal equation of the individual teacher is eliminated. They show not only the strong features but also the weak in our educational system.
