REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Roxbury:

I herein submit my eighteenth annual report as superintendent of schools.

Education today faces a crisis in history and civilization. If we are to maintain the ideals of democracy, we must not forget the boys and girls in our public schools who are soon to be the men and women that have to carry on in a changed world. They will have to cope against far reaching questions and pay enormous debts. Therefore, it is fitting that we scrutinize carefully our objectives and clarify our methods of procedure. Indeed, in our final analysis we must regard our boys and girls in the public schools as our first and last line of defense.

All isms and philosophies that are poisonous to democracy and the American Way of life must be banished from public schools and colleges.

We believe our methods of procedure must follow along three lines of thought, viz. (1) An invigorated drill and practice in fundamentals, the efficiency of the "Three R's" can not be overlooked, the purity of the English language must be maintained, the intellectual activity and vision of life extended. (2) The pupils must be imbued with a deeper feeling for, sense of appreciation of and a higher respect for the home, the school and the community. (3) Every child must be brought into contact with some situation of life that may give him control of himself, give him the power of decision between right and wrong.
The boys and girls of today are looking not only onward but also upward. Let our training be such that they will see more above them than airplanes but will grasp the fundamental ideas of a Divinity that rules the Universe.

With the coordination and correlation of the above mentioned lines of thought, we may be able to reach our objective, viz. the true Christian American citizen, to whom we may delegate with safety the welfare of the American Way of life, the Constitution and the highest ideals of democracy.
