AUDITOR'S CERTIFICATE

This is to certify that I have examined the books, bank statements and other financial records of the treasurer of the school district of Westmoreland, of which the above is a true summary for the fiscal year ending, June 30, 1936 and find them correct in all respects.

RUTH K. CHURCHILL,
Auditor.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Westmoreland:

I herewith submit my fourth report as Superintendent of Schools.

ORGANIZATION AND ENROLLMENT

I am pleased to report that no changes were made in the teaching positions. The advantage of retaining the services of qualified and interested teachers has been apparent.

The program of standard diagnostic tests which was begun last year will be continued with a few changes. In accordance with the program as outlined every pupil will be thoroughly examined for deficiencies in silent reading, fundamental processes in arithmetic, and language usage.

A grade standard has been established for each subject tested and the tests are especially designed to point specifically to types of deficiencies.

The real value of the testing program depends upon the thoroughness of the subsequent corrective work which is done by the teachers. Retests were given last year in several schools of the union after a period of remedial instruction. The results indicated a very fair percentage of correction.

The continued use of a testing program of this nature will influence the efficiency of instruction and will indicate where emphasis should be placed in teaching the fundamentals.

Standard tests however, are only rough estimates of the effectiveness of the general education of our pupils. We are primarily interested in the growth of our young people in ideals, attitudes, and habits. These traits are not measurable by any tests now in use, but we know from experience that they are developed by a good teacher in a well-conducted school.

Forms of the following tests are used according to the grades for which they are especially designed.

Haggerty Reading Examination
 Shank Test in Reading Comprehension
 Spencer Diagnostic Test in Arithmetic
 Gregory Diagnostic Language Test.
 Metropolitan Achievement Tests

A standard graduation test is given each year to all pupils in the eighth grade.

An attempt has been made to unify the text books in use in the schools of the supervisory union. For several years a definite program of text book adoptions has been followed. Books are selected which are adapted to the grades for which they are intended and which are in accordance with the material outlined in the State Program of Studies. New books are purchased, as far as possible, according to this standard with the result that the pupils in the various schools will eventually be using the same material. This will be an advantage when children transfer from one school to another.

The teachers are making very good use of the excellent work-book material which has recently been made available in the different subjects. This material when carefully selected and correctly used has much value. The better workbooks are prepared by recognized authorities. In rural schools the use of workbooks has helped to solve the problem of organizing the work of the study groups.

| Total registration, | 138 |
| Average membership, | 111.03 |
| Percentage of attendance, | 94.82 |

|--------------------|------------------|

A very substantial improvement was made in the percentage of attendance. A decrease of 104 in the number of cases of tardiness is commendable. The percentage of attendance now exceeds the average for the state. The people of Westmoreland are to be congratulated for the excellent improvement which has been made in the attendance record during the last few years.

Hot lunches are being served in all the schools during the winter months.

The Parent-Teachers Associations which are associated with the schools have continued their interest and contributions to the work. Financial contributions have been made for instruction in music and art, dental clinics, Christmas gifts, playground apparatus, and new equipment. Grateful acknowledgment should be made for the gifts made by individuals to the children in the various schools of the district.

I wish to express my appreciation of the co-operation I have received from the members of the School Board, teachers, parents, and pupils.

Respectfully submitted,

CHARLES D. DALZELL,

Superintendent of Schools.
