Commissioners' Report

1928-1929

I. *Sidewalks.*

Two unusually severe storms last April carried away a long stretch of sidewalk at Bass Beach, north of the breakwater, and another section near the Rye Beach Fish Houses, in addition to undermining a large part of the walk. The District had the stones shovelled back into place and the sidewalk replaced near the Rye Beach Fish Houses. The State piled the rocks back into place with a steam shovel at the break north of the breakwater, and the District put in a new concrete sidewalk for the greater part of this stretch, with a temporary wooden walk where the State intends to extend the breakwater this Fall.

Other work on the sidewalks has included clearing the walks in the Spring, reinforcing walks where undermined, cutting grass and weeds from the sides of the walks, and minor repairs.

II. *Fire Apparatus.*

Arrangements are being completed to keep the District's fire apparatus in one of Ex-Governor Fuller's new garages. As there will be men around throughout the year to handle the apparatus when necessary, this arrangement should prove most satisfactory. The District thanks Ex-Governor Fuller for his generosity.

III. *Parking and Policing.*

The State and Town have done considerable filling in along the Beach Hill so that cars parking by the roadside will not get stuck in the sand. The District has paid for one day's work by the Town road department, enabling it to complete the filling in behind the bathhouses and for some distance to the north.

The Town is at present handling the policing along the water front. The section of the road nearest the bathhouses is being reserved, so far as possible, for the parking of cars of bathhouse proprietors and their guests. The beach in front of the bathhouses is being similarly reserved for their use so far as possible.

IV. *Appointment of Third Commissioner.*

The District regrets the change of residence to Hampton Falls of Dalton Boynton, one of its Commissioners. Blanche H. Boynton has been appointed a Commissioner for the unexpired term.

V. *District Taxes.*

The District's tax rate for 1929 is \$1.80 on \$1,000 valuation. It is proposed to have the District tax included as a second item on the Town tax bill, and to allow the same discount on District taxes as is allowed on Town taxes.

VI. *Drainage and Mosquito Prevention.*

The Commissioners took an active part last Winter in securing an appropriation of \$4,000 from the State Legislature to provide for the construction by the State Highway Department of an adequate drain or outlet from Little River Marsh.

It is understood that the Highway Department will commence work soon after Labor Day on a cast-iron trunk at the Fish Houses, which will extend below half tide so that it will not get clogged up with sand as in the past. As soon as the trunk is completed the District proposes to take steps to improve the drainage of Little River Marsh by cleaning out the ditches and digging new ditches to drain stagnant pools. It is also proposed to spray oil in stagnant places where mosquitoes breed. Request is being made to the owners of the marsh for permission to enter their land.

The Rye Beach District, with the approval of the Commissioners of Little Boar's Head District, has this Summer maintained a thorough drainage of the marsh north of Mrs. French's.

It is hoped that our District will make a substantial appropriation to be expended under the direction of the Commissioners for the purposes of drainage and mosquito prevention.

WILLIAM P. FOWLER,
MARION STOTT,
BLANCHE H. BOYNTON.

Commissioners.
