SUPERINTENDENT'S REPORT

February 1, 1929 to February 1, 1930

During this last complete year I have made 194 visits to the various schools of the town and have been in attendance at eight meetings of the School Board.

At the beginning of the school year in September an outline of the course of study based on the State program of study was placed in all the schools and it is thought that where this outline is carefully followed, and the work accomplished, the different grades will more nearly approach their standard degree of accomplishment.

I have endeavored to check up on the work being done by the pupils both by giving Standard Achievement Tests, and by oral examinations of the pupils while visiting the school.

As a general thing the degree of success with which a year is ended in the school will depend upon the ability, interest, and whole-hearted endeavors of the teacher.

The State law now requires that teachers shall either be Normal graduates or have had at least three years of successful teaching experience. This should eventually result in bringing about better teaching in our schools.

The percent of attendance for the last complete school year was 93 which is exactly the same as for the preceding year. From present indications, this mark of attendance will be bettered during the present year. We hope eventually to have a mark of at least 95% in all our schools.

Next to good teaching, good attendance is one of the fundamental requirements in a good school. We have, however, had but a few inexcusable absences.

The buildings throughout the town are now in good condi-

tion, but in some of the schools new furniture will soon be needed. I believe that when the time comes to install new desks in our rural schools that the adjustable, and moveable chair desks will be satisfactory, and more durable in the long run.

A class of 16 pupils was graduated from the 8th grade of the different schools, and nearly all of these pupils have continued their work in high school.

We have a total of 33 pupils now registered in high schools at Canaan, Colebrook and Lancaster.

Respectfully submitted,

W. S. ADAMS.
