Dearest Elz:

As the clock tolled ten bells yesterday the allied offensive jumped off. It's still rolling northward as of this writing. It is hoped that it will wind up this Korean campaign.

However, Communist guerrillas are active in rear areas. Yesterday they took a town 30 miles north-east of PYONGYANG and 20 miles south east of our own location. They were 8,000 strong. The night before, they (another guerrilla force) captured a town 20 miles north of SEOUL. They're raising havoc with convoys. Everytime I take one south now, I cross my fingers. It is actually safer up near the front where we are than in some of the rear areas. Late reports tonight state that the towns have been retaken by our forces and the Reds driven back into the hills. When they'll come out again

(2) and where they will strike is a matter of speculation for convoy leaders.

I have received no mail from you in weeks. It's slow getting in. Only a few letters trickle in. We got a big batch of mail in today, but none from you.

This is the third letter I am writing and mailing under our FREE AIR MAIL SERVICE. Please note the dates and let me know how many days it takes for them to reach you — and whether the time length is the same as for the regular paid air mail service.

Indications are that we'll be in Korea until after the main body of Americans have departed. My guess (and it's only a guess) is that we'll go to Japan from here rather than be shipped ~~out~~ back stateside.

As for me, I'd rather remain right
