ALEXIS PROCTOR,	}	<i>Selectmen</i>
HIRAM FELLOWS.		<i>of</i>
ALBERT G. MORRISON,		<i>Franklin.</i>

The undersigned, one of the auditors for the year ending March 1, 1872, has carefully examined the aforesaid accounts, and believes them to be correctly cast and properly vouched.

ISAAC N. BLODGETT.

FIREWARDS' REPORT.

According to the laws of the State of New Hampshire, the board of firewards or engineers of the town of Franklin submit the following report :

FIRE DEPARTMENT.

The fire department consists of eight firewards or engineers and one hundred able-bodied and efficient firemen.

FIRE APPARATUS.

The fire apparatus consists of two hand fire engines. Franklin No. 1, located in the west village, is a Hunneman engine, 5 inch cylinder, with hose carriage, 350 feet leather leading hose, 24 feet suction hose, buckets, axes, belts, spanners, lanterns, rubber clothing for two leading hosemen, &c., all in good order, and Stark No. 3, located in the east village, Hunneman engine, 5 1-2 inch cylinder, hose carriage 200 feet leather, 350 feet linen leading hose, 28 feet suction hose, buckets, axes, belts, spanners, rubber clothing for two leading hosemen, &c., all in good order except the linen leading hose, which is considerably worn. Each of the engines have an engine-house appropriated to their separate use, with engine-room below, hall for meetings above, signs in front, on which are name and number.

RESERVOIRS.

The reservoir near Republican Bridge has been found difficult to keep full, and the engineers have expended a comparatively large sum on the supply pipe, owing, chiefly, to the condition of the pipe when laid down, the distance, and the short supply of water in the dry season. The reservoir near the depot is supplied by Warren Thompson. There has also been a connection made with the railroad tank, and water can be taken from it to an engine some 200 feet down either street.

EXPENSES.

Engine No. 1.	
Packing and repairs,	\$6 50
Sign,	14 00
Rubber clothing,	6 39
Pay roll,	75 00

Pay of steward,	10 00
C. W. Sleeper, for leather,	1 90
Bill, repairs, 1870.	10 25
A. M. Stewart, repairing hose,	24 25
	<hr/>
	\$148 29

Engine and Engine House No. 3,	
Packing engine, and repairs,	\$3 25
Rubber clothing,	16 91
202 feet leading hose,	307 13
Pay roll,	75 00
Pay of steward,	10 00
A. G. Morrison, floor boards,	17 27
T. H. Piper, work on engine house,	14 00
Oil and oiling hose,	8 50
S. E. Bickford, labor and material,	4 03
Chase & Co., nails for floor,	2 46
Sleeper & Paige, window,	2 75
Burleigh Bros., rope, &c.,	1 60
	<hr/>
	\$462 90

RESERVOIRS.

O. B. Davis, laying pipe,	\$43 02
J. E. Scribner, plank,	1 05
L. Richardson, material,	78
Daniel Osgood, making covers,	1 75
	<hr/>
	\$49 60
Total expense of fire department,	<hr/>
	\$660 79

It will be seen by referring to the foregoing statement, that a very large portion of the sum expended has been paid for leading hose for Engine No. 3, which has, heretofore, been supplied with linen hose, and which was found to be so worn as not to be reliable; also, that there has been some necessary repairs made on Engine House No. 3.

FIRE.

There has been but one fire the present year, and that a small wood house, on the Row (so called). Loss, small: cause, unknown.

In conclusion, the board of engineers would say, that, although the town has two good engines, with accompanying apparatus and two engine companies of which any town of the same size may be justly proud, we still suffer for a supply of water to extinguish fires. In many places, it is true, we can reach the river, still, there are others where water can not be had. In one place, by actual count, there are 93 buildings, including three churches, mostly dwellings, containing more than 100 families, where, in case of fire, not a drop of water could be got. In view of these facts, the board of engineers would earnestly call the attention of the town to this matter, for, however good may be the fire apparatus, and however prompt and energetic our firemen, nothing can be done without water, and plenty of it, at that.

All of which is respectfully submitted,
