Comments

Wherever possible we first determined the amount of money that should have been received by the different departments, officers and agents of the Town and then compared our findings with the records kept by the Town Treasurer and Selectmen. For example, in verifying the amount of money that should have been received from tax collections, we made a detailed analysis of the tax blotter, thereby determining the amount turned over to the Collector for collection. Discounts given were investigated with respect to the dates on which payments were received.

The funds that should have been received from the State and County were verified by direct correspondence with the State Treasurer and County Commissioner. The receipts of other departments such as the Municipal Court and Town Clerk were veri-

fied through an audit of the records of the departments in each case.

We found satisfactory vouchers to support all disbursements.

Comments

We have sent a notice reading as follows to a representative number of delinquent tax payers and up to date we have not received any objections to the balance with which these taxpayers are charged on the books of the Town:

“The following is a statement of taxes due on your account with the Town of Lebanon, not including collection fees:

1927 \$	1930 \$
1928 \$	1931 \$
1929 \$	1932 \$

“If this statement does not agree with your records, please correspond at once with Archie M. Peisch & Company, Certified Accountants, Hanover, N. H., who are auditing the accounts of the Collector of Taxes and the Town Treasurer at this time.

Very truly yours,

BOARD OF SELECTMEN

Town of Lebanon, N. H.”

Purchase Charges:

The following letter was sent to a representative number of firms of whom the Town makes regular purchases by way of satisfying ourselves that all

charges assignable to the period under review had been properly recorded:

Gentlemen:

For the purpose of our annual audit, please advise Archie M. Peisch & Company Certified Public Accountants, Hanover, N. H., of the amount of any balance due you from the Town of Lebanon at the present time. Also please give them the date and amount of all charges and credits to the Town of Lebanon on your books since January 31, 1934.

Very truly yours,

HEALTH OFFICER'S REPORT

During the year the Doctors and Nurses have reported contagious diseases as follows: 2 cases of Mumps, 5 cases of Measles, 1 case of German Measles, 3 cases of Whooping Cough, 1 case Meningitis, 1 case Erysipelas, 4 Venereal Diseases, 8 cases Chicken Pox, and 30 cases of Scarlet Fever, while there have been quite a number of cases of this disease, most of them have been very mild, with no deaths. All of the cases of Scarlet Fever have been put in strict quarantine and held the full period, at some expense to the Town. There have been a great many complaints of various things, but the most serious of them all, has been reports of Rubbish of all kinds, being dumped into the Mascoma River, above the Pumping Station, of the Lebanon Water Works. We have followed up every complaint, and in some cases, been able to find the offenders. Notices have been posted along the River, but still the practice goes on. Pollution of Drinking Water, is a serious matter, and in the future will be dealt with as such. In this, I feel that I have the backing of our Water Commissioners.

I wish at this time to thank all who have in any way co-operated with me in the discharge of my many un-pleasant duties.

Respectfully submitted,

Geo. U. L. Leavitt,

Health Officer.

REPORT OF MILK INSPECTOR

We have had no outbreak of disease the past year due to our milk supply. This is very gratifying as there are so many diseases, other than Tuberculosis caused by using raw milk. One good example is Septic Sore Throat. Over one hundred deaths were caused a few years ago by this disease in the small town of Lee, Mass.

The general routine of past years has been carried out, such as visiting the producers and going over the proper technique of cooling, method of washing, and sterilizing bottles and utensils used in the milk room. Samples were taken from the milk trucks while in the process of delivery and same were shipped in iced cases to the State Laboratory of Hygiene for analysis. Different numbers of samples are required from each producer as some that are always low in Bacteria count and *B. coli* do not require the attention as others. I have done considerable testing of milk for pus organisms in the past year, using the Thybromol method. This method is used when we find a high bacteria count, and the technique of the producer is satisfactory. In this way we eliminate the individual animal causing the trouble.

W. B. Mowers,

Milk Inspector.

HOSPITAL REPORT

February 24, 1934.

Mr. Joseph B. Perley, Chairman,
Board of Selectmen,
Lebanon, N. H.

My Dear Mr. Perley:

During the year February 1, 1933, through January 31, 1934, the Lebanon Free Bed Fund in the Mary Hitchcock Memorial Hospital, Hanover, N. H., has rendered six hundred fifty-four days' service to twenty-six residents of the Town of Lebanon, N. H.

The portion of Free Bed Funds allotted by the Trustees to the Town of Lebanon was \$1,300.00 which, supplemented by cash payments of \$760.12 by the Town this year, brought the total amount of the Fund to \$2,060.12.

The charges at the minimum hospital rates for services rendered to the patients during the period amounted to \$2,190.17.

Very truly yours,

James A. Hamilton,

Superintendent.
