## ANNUAL REPORT OF THE WEARE VOLUNTEER FIRE DEPARTMENT

---

During 1951 the Weare Volunteer Fire Department answered 37 alarms as follows: 7 fires involving buildings, 19 chimney fires, 2 oil burner fires, 1 electric motor fire, 2 truck fires, 1 rubbish fire, 2 grass fires, 1 false alarm and 1 brush fire in an adjoining town.

The number of building fires is on the increase and this past year were of a serious nature. In several instances the fires had gained headway when discovered and a considerable portion involved on the arrival of the department. This resulted in the highest yearly fire loss in the history of the department. The causes of these building fires could not possibly be more diversified, and from the investigations made apparently were the results of: a defective oil burning stove, the dust from sanding floors, children playing with fire, smoking in bed, materials in contact with a hot stove and a short circuit in the wiring of an automobile. Nearly all of the above fires could have been prevented by the correcting of defects in the equipment responsible or by the practice of good fire prevention measures.

We had a good year in regard to brush and grass fires. We had no forest or brush fires and only 2 grass fires during the year. Frequent rains kept the woods moist and the fire danger accordingly low. The coming fire season may be the opposite of last year and we should not relax our vigilance or become careless about the burning of rubbish or with any other outdoor fires. Burn only with a permit from the Forest Fire Warden.

Our water hole program for 1951 was confined to the rebuilding of the dam at North Weare. This proved to be a big job. Much of the frame timbers were replaced and the planking and boarding all new. The timbers and plank were all taken from the town forest. No other water hole work was done as this job proved to be more extensive than anticipated and cost considerably more than the entire appropriation for this type of work.

The completion of the new highway through South Weare made possible the securing of a site for the new fire station

which we hope to get built in the spring. A good start has been made on this project. We have the site, the \$500.00 raised in 1951 for the building, about 1500 ft. of lumber on hand, and promised donations of materials. The department hopes to cut the remaining lumber for the job this spring.

During 1951 the following equipment was added including: 1 length of 3½ inch suction hose for the tank truck, 3 electric lanterns, 1 gasoline lantern and 3 backpack pumps.

The meeting hall at the Central Fire Station is used by a constantly increasing number of local organizations.

The Ladies Auxiliary has been active and served several much appreciated hot lunches at fires.

This past fall the department conducted a campaign to raise money to purchase a resuscitator by selling fire extinguishers. We have realized the need for such a machine for years for use in the event of drowning or any other instance where a person's breathing is obstructed, or in the event of electric shock. It would take too long to secure such a machine from another town.

The response to this fund raising has been excellent. The organizations in Weare and some of our citizens have donated money and we expect to have the machine soon.

The department held 12 monthly meetings and the companies each had several drills during the year. The department appreciates the continued support and cooperation of the people of Weare, and hopes that by more attention to preventing fires and consequently smaller losses 1952 may be a very successful year.

Respectfully submitted,

## REPORT OF FOREST FIRE WARDEN

---

In the past year your local forest fire organization did a very fine job of pre-suppression and suppression of forest fires. Our early spring was very dry and with extra high winds and all our fires were during that period. We find that the general public is still very careless with matches and cigarettes.

In the "Keep America Green" program there is a story of two bad boys who cause most of our forest fires. The first one we call, "I don't care," he is the person that builds fires anywhere, never gets a permit to burn brush or has a safe place for his home incinerator. He is also very careless with matches and cigarettes. The other one is called, "I don't know any better," and the best way to describe him is a plain dunce. It is only with your help that these two bad actors are controlled. Their carelessness can be the cause of our pretty and valuable woodland to be destroyed by fire. Even your own home can be burned by them.

It is up to you and you alone to report these characters to your local forest fire warden whenever you see them operating. To have our woodlands green and our mountain streams clear, your cooperation is needed by:

1. Seeing that your incinerator is tight and is sitting on clean ground.
2. Always clean a space about any open fire to prevent it from spreading.
3. Never burn in dry, windy weather.
4. In all cases a written permit is required from your local town fire warden.
5. Be sure that your matches, cigarettes and pipe ashes are out before discarding.

It is with your cooperation that this shameful waste of timber and money can be stopped.

**REPORT OF HEALTH OFFICER**Weare 1951

---

Due to the lack of a resident physician in the town of Weare we are, by necessity, dependent for services on the medical men of the surrounding towns. All of the physicians in these towns are kept extremely busy and as a consequence do not have the time to report to your Health Officer the various cases of communicable diseases with which they come in contact in town as requested by the state department of health.

To facilitate this matter the town's people are urgently requested to advise the health officer of any incidence of communicable disease in their family that may be reported as such to them by their physician. In this way health department records may give a better picture of the health conditions of this town and the state in general.

During the past year, the school in South Weare was closed and quarantined as a precautionary measure against the spread of scarlet fever. The closing of schools for such purposes is not favorably looked upon by most health officials. However, in this instance, a physician was called to prescribe treatment for a sore throat accompanied by a temperature. The patient received one of the so-called wonder drugs as a precautionary measure against serious illness. The child was allowed to return to school when the condition showed vast improvement within two days.

It was not until the district nurse detected signs of the ultimate ailment that the child was sent home. In the meantime the child came in contact with other children at school. The town was fortunate that by closing South Weare School, the condition was kept under control.

Without full cooperation of parents, closing of schools is useless. It is the responsibility of parents to keep all children at home, away from all unnecessary contacts with other children until school is reopened. The quarantine holds not only for keeping the infected child from attending school but from keeping him from associating with other children during the quarantine period.

The water in all town swimming areas was tested and approved. However, contamination must be prevented from

entering the river from its source at the foot of Weare Reservoir dam or else tests at the Clough Reservation swimming hole can easily show contamination making it unfit for public use as a swimming pool.

No privie, septic tank or dry well shall empty its contents within a minimum of 75 feet from the shore front of Weare Reservoir or Lake Horace.

Toilet facilities at Lake Horace are disinfected each week during the summer season.

In a community such as Weare, housing the tremendous number of fowl as it does, the rat situation can become a serious menace. Proper disposal of refuse and garbage can considerably facilitate the control of this problem. Garbage should be buried or burned, or if feasible, arrangements can be made with Samuel Bussell for its removal for a nominal charge. Disposal of garbage and refuse along the roadside is punishable by fine.

Sanitary conditions in the schools are no worse. Drinking water has been tested each semester and, in cases where the school is supplied with water from a distance source, tests have been made at both the original and the ultimate outlet at the school.

Deodorants have been placed in all school washrooms with the exception of the High School. Eating utensils used in the hot lunch program at the High School have met the state requirements by being rinsed with a disinfectant after being washed.

A course in First Aid was given during the past summer in East Weare. Specially trained teachers, Mrs. Iola Tenney, Mrs. Beatrice Bockus and Woodrow Wilson, conducted the classes under American Red Cross regulations. It is hoped that another course will be given in another section of town this spring. Home First Aid as well as other emergency treatment was emphasized.

Sanitary conditions in Weare are improving slowly and with the assistance of all residents, the improvement can be stepped up considerably.

Respectfully submitted,

JOHN H. CONNELL,  
*Health Officer.*

EUNICE C. MARSHALL,

*School Board.*

## RECORD OF JULY 26, 1951 SCHOOL MEETING

---

The meeting was called to order by the moderator Lyhl Perrigo.

Mr. Perrigo tendered his resignation as moderator. George Sawyer asked if there was any law to prevent him acting as moderator in view of the fact he was a member of the School Board. There being no law, it was moved by George Sawyer and duly seconded that Lyhl Perrigo remain as moderator. The vote was unanimous in the affirmative.

The warrant was read by the moderator.

Article 1. It was moved by Crandall Wallenstein and duly seconded that Article 1 be postponed until Articles 2 and 3 were acted upon. After much discussion it was pointed out that Article 1 must be disposed of before considering Articles 2 and 3. Crandall Wallenstein then withdrew the motion. There being no objection, Crandall Wallenstein then moved that we build a four-room elementary school and facilities. After much discussion George Sawyer amended the motion to include "that we use lumber from the town forest wherever possible." Charles Eastman offered another amendment, "That we keep within the amount appropriated, \$47,000.00 to include the purchase of land." Crandall Wallenstein accepted these amendments and then offered a further amendment that we include facilities for eight rooms. This was not seconded.

The motion now reads: That we build a four-room elementary school and facilities using lumber from the town forest wherever possible, keeping within the amount appropriated, \$47,000.00 including the purchase of land. The motion carried.

Article 2. It was moved by Franklin Flanders and duly seconded that the School Board be authorized to put the East Weare School in usable condition. The motion carried.

Article 3. Voted to dismiss the article.

Article 4. Voted to dismiss the article.

Article 5. It was moved by Charles Eastman, and duly seconded by Gerald Hight, that the district recommend to the School Board that it acquire title to the Colburn land for the erection of a four-room elementary school and facilities, not to exceed the sum of \$3,000 this amount to be used from the Capital Reserve as voted at the district meeting in 1951 Article 13.

A motion was made to adjourn the meeting. The meeting adjourned.

A true copy of record.

## REPORT OF THE SUPERINTENDENT OF SCHOOLS

---

*To the Citizens of Weare:*

I hereby submit my annual report as Superintendent of Schools of Weare.

### *Teaching Staff*

The current school year opened with several changes in our teaching staff. Mr. Gordon A. Traver, who had served as headmaster and teacher of agriculture for the past four years, resigned in order to do graduate work in Tennessee. Mrs. Verna Sawyer (South Weare School) and Mrs. Georgianna Gile (Center School) resigned to accept employment in Hillsboro.

Mr. Lester Rysnik, who for the past two years had been instructor in Social Studies and English, took over the principalship of the high school. Mr. Claire Paine, a graduate of the University of New Hampshire in 1951, was employed as of July 1, 1951 as instructor of vocational agriculture.

Our increased elementary school enrollment necessitated an additional school unit, and a second room was made available at East Weare.

Mrs. Frances Gaffney and Mrs. Louise Parker, both of whom had previously taught in our Weare Schools, were secured to teach the two units at East Weare. Mrs. Reita Davis, who had previously taught at East Weare, was transferred to the South Weare School to replace Mrs. Sawyer.

Mrs. Esther Hight was assigned to the Center School. During the past ten years Mrs. Hight has served in various teaching positions in the town.

### *Enrollments and School Housing*

During the school year 1950-51 we had a total of 268 pupils in our schools, with an average enrollment of 249. At the present time we have a total of 278, of which number 177 are in grades 1-6.

Our pre-school census indicates that we can expect 187 pupils in grades 1-6 next fall, and this number will reach a peak of 195 in 1954-55.

Our Junior High (grades 7 and 8) at the present time totals 47. This number will steadily increase to a high of 76 in 1957-58. The high school enrollment will likewise continue to increase and will approximate 100 pupils in 57-58. This figure is subject to "drop-outs," but during the next two years, with transportation available to high school pupils, we have had far less mortality than in previous years.

The future anticipated enrollment figures indicate that our high school building will accommodate but few pupils other than grades 9-12 of the high school groups,—certainly grades 6 and 7, now in this building will have to be provided for elsewhere.

If we should continue to maintain two units at East Weare, we shall need in 1954 space for some 165 other pupils in grades 1 thru 7 (leaving 120 pupils in grades 8-12 in the high school building).

### *Conclusion*

I feel that the action taken by the district at its last annual meeting, at which a new elementary building was authorized, was not only a forward-looking step, but also a necessary step when our future enrollments are carefully analyzed. If no further funds are necessary, as now believed by your building committee for such a procedure, we should plan to provide for six units in our new plant,—four rooms to be finished for next fall, and the remaining two rooms left "in the rough" for future completion when such units are demanded to meet the increasing numbers of pupils.

Respectfully submitted,

LEWIS F. FOOTE,  
*Superintendent of Schools.*
