EMMA P. LITTLEFIELD,
HIRAM M. SANBORN,
GERTRUDE EASTMAN,

School Board of Bartlett.

July 15, 1930.

AUDITOR'S CERTIFICATE

This is to certify that I have examined the books and other financial records of the school board of Bartlett, of which this is a true summary for the fiscal year ending June 30, 1930, and find them correct and properly worded.

GEORGE W. MORTON, Auditor.

TREASURER'S REPORT

Year Ending June 30, 1930

Cash on hand July 1, 1929,	\$ 551 42	
Received from selectmen, appro- priations,	7,799 32	
Dog tax,	91 50	
From interest	47 11	
From all other sources,	53 00	
Received from all sources,		\$8,542 38
Paid School Board orders,	\$6,559 59	
Balance on hand as of June 30, 1930	1,982 79	
Total accounted for,		\$8,542 38

ELIZABETH A. GALE, Treasurer.

AUDITOR'S CERTIFICATE

I have examined the accounts of the school treasurer and find them correct with a balance of \$1,982.79, as of June 30, 1930.

GEORGE W. MORTON, Auditor.

SUPERINTENDENT'S REPORT

It will be recalled that the money appropriated for schools last March was considerably less than the amount called for by the school board's budget for this year. This was due to the fact that there was a large balance from

the previous year, due to the saving effected by the closing of the Goodrich Falls School, and also because some of the money raised for high school tuition the year before was not used. At the end of this year there will apparently be no deficit but the balance will be small, and therefore it will be necessary to raise the amount estimated for next year's expenditures.

During the summer, sanitary toilets were installed at the Glen school. This is one of the best improvements made in recent years. These toilets should be installed in every school house. Ventilating stoves should also be placed in each school. The stove at Intervale is burned out and the stove at Glen, while adequate for heating purposes, does not help the ventilation which is very poor in this school. Open window ventilation is satisfactory at certain seasons, but in cold weather it is not practicable.

The Goodrich Falls school in its present condition is not very satisfactory for school occupancy.

The most difficult problem in school administration is to secure efficiency and school accomplishment in eight-grade schools of twenty-five or more pupils under one teacher. Notwithstanding this handicap, our teachers are doing a very good job. There is probably no way at present to remedy the situation. One two-room school for the district would solve the educational problem but difficulties as to location and transportation are such that this plan has not seemed feasible.

Respectfully submitted,

JOHN H. FULLER.

BARTLETT SPECIAL DISTRICT

SUPERINTENDENT'S REPORT

Prior to the opening of the fall term the school board made a contract with the Conway School District for part time services of Miss Harriet M. Curren, a school nurse. This action had been recommended to the board at the last district meeting, and as a rearrangement of the Conway Nursing Union was made during the summer, it appeared to be an excellent time for Bartlett to enter such a union. The cost is \$300 but part of this is paid by an extra allowance by the State Board of Education in the allotment of state aid.

Because of an expressed desire on the part of a number of high school pupils to study Latin, a beginners' class

of fourteen was organized in September. The present plan is that this class will continue the study of Latin for a second year. No beginners' class will be formed next fall but in September 1932 another class will be started if there is any demand. Further than this, it is impossible to plan in advance. It is possible to give every pupil an opportunity to have at least two years of Latin without increasing our teaching force or eliminating work in science and mathematics which we must retain in order that our pupils may be prepared to enter higher institutions.

All of our teachers are well trained and experienced. They are all graduates of normal schools or colleges. It goes without saying, however, that they need the cooperation of all parents and citizens in order to do their best work.

JOHN H. FULLER.

February 1, 1931.

REPORT OF SCHOOL NURSE

GRADE SCHOOL

The preliminary examination of 106 grade children including weighing and measuring, vision and hearing tests, show that there is a large number of defective teeth and diseased tonsils, which have always proved a serious menace to health and which we hope will be corrected by the end of the school year. Some dental corrections have been made since September.

Number examined,	106
Number visits to school,	15
Class room inspections.	15

HIGH SCHOOL

The routine examination of the high school, like that of the grade school, takes place in the spring but a preliminary examination has been made, as well as class room and individual examinations for symptoms of communicable diseases.
