CHIEF ENGINEER'S REPORT.

The force of the fire department, as organized, consists of one Chief and five assistant Engineers. To the Eagle Steamer Company is attached fifteen men. To the Fountain No. 1 Company, fifty men. To the Union No. 2, thirty-seven men For the Fire Extinguisher, twelve men, and for the Hook and Ladder company, ten menmaking the whole number of men employed by the dapartment one hundred and thirty. Two years ago one hundred and fifty men were attached to the department, and after giving a trial of this reduction of twenty men, your board of Engineers are of the opinion the department is quite as efficient as under the former organization.

The duties of the firemen for the year have been unusually light—twice only being called out for active duty, consequently the wear upon the apparatus is trifling, and a small expenditure has kept it in condition for immediate use. Although the duties of the department during the year have been light, yet at all times when an alarm is given, the men promptly respond to the call, and are energetic and active in the performance of their duties. And your board of Engineers are of the opinion that all the companies to whom are entrusted the care of the apparatus, are filled with men, able and competent, and that the facilities which the department has, is better organized than in any previous year.

Respectfully Submitted,
B. L. MERRILL, Chief Engineer.

REPORT OF THE TOWN LIBRARY COMMITTEE

For the year ending March 12, 1878.

In addition to our usual duties we were directed by vote of the Town, at the annual meeting in March, 1877, to make certain repairs upon the Old Town Hall in accordance with the report of a Committee on that subject accepted in Nov. 1876. The work was done during the summer, and in September the library was reopened with greatly improved accommodations. At the same time the Natural History Society and the Grangers were provided with good rooms down stairs. The second story was divided into suitable rooms for the Post of the Grand Army and the Cornet Band.

The Selectmen had the outside of the building painted and the roof repaired temporarily, but it must be shingled or slated to preserve its valuable contents. All the gas pipe in the building now belongs to the town.

We wish to call the attention of all the citizens to the fact that the Library suffers every year from the carelessness of its patrons. Some books have been lost, and many more are abused. The books are for the good of every citizen, and all should take pride in making good use of them.

The size of the Library increases yearly, and the number of persons using it increases too; but too large a per cent. of the appropriation each year has to be expended in repairing and replacing old books. The thanks of the town for valuable books presented to the Library during the past year, are due to Oliver

J. Rand Esq. of Boston, Hon. B. Wadleigh, U. S. S., Geo. E Emery of Lynn, and Hon. Charles H. Bell.

The Library is open every Wednesday and Saturday from 3 to 5 and from 6 to 8 P. M.

The amount appropriated by the town for repairs was \$500, which has been expended as follows:—

Charles W. Young,	\$349 00
Geo. E. Lane,	11 80
John W. Getchell,	23 75
B. G. Purinton,	20 50

Since the last report some changes have been made in the investments, and the following shows the character of the stock and bonds held at this time :

250	Shares in	Bank of Commerce, New York,	par \$100.
80	"	" State of	" " 100.
130	"	Mechanics' Banking Association, New York,	par 100
75	"	Metropolitan Nat'l bank	par 100
40	"	Bank of New York, New York,	par 100
150	"	Merchants Bank, New York,	par 100
120	"	Merchandize Bank of Boston,	par 100
600	"	Delaware and Hudson Canal Company,	par 100
\$10,000 in bonds, City of Columbus, O.			
4,000	"	" St. Louis, Mo.	
2,000	"	" County of St. Louis, Mo.	

No dividend has been received on the Delaware and Hudson stock during the past year.

The Mechanics' Banking Association passed the November dividend. All the other banking institutions paid the amounts as above stated.

Respectfully submitted,

CHARLES BURLEY,

Treasurer.

REPORT

OF THE

SCHOOL COMMITTEE.

TO THE TOWN OF EXETER:—

The School Committee submit the following report:

In April 1877, the Selectmen reported the whole number of children between the ages of five and fifteen to be 489.

The largest number reported as attending school in any one term between the ages above named is 484. Average attendance reported for the two terms is 412.

The teachers for the year now near the close of the winter term, have been as follows:—

High School,—Mr. Albion Burbank.

Grammar School,—Mr. Sperry French.

Spring St. Intermediate,—Miss Maria A. Buckingham.

Spring St. Primary,—Miss Jennie Harvey.

Plains Primary,—Miss Mary A. Burnham.

Hall Place,—Miss Sarah Caverno.

Prospect Hill,—Mrs. Kate H. Davis.

Grove St.,—Miss J. A. Dustin, Miss Mary E. Calef.

School St.,—Miss Annie R. Dearborn.

Dist. No. 3.—Miss Harriet L. Smith.

Dist. No. 4.—Mrs. M. L. Haley, Mr. J. McDuffee.

Dist. No. 5.—Miss Ida M. Sinclair, Mr. C. Kimball.

Dist. No. 6.—Miss E. F. Kimball, Miss G. Brown, Miss
E. A. Judkins.

The following table shows the Attendance, Studies, &c., &c., for the first two terms of the year.

			Length of School in weeks.	Whole No. of Scholars.	Average No. of Scholars.	Pupils in Reading.	Spelling.	Penmanship.	Arithmetic.	Geography.	Grammar.

	2d. Term.	8	25	20	25	25	15	16		14	7

THE HIGH SCHOOL

Under the charge of Mr. Burbank has shown in a marked degree, throughout the year, the effect of faithful and well-directed effort on the part of the principal. The same spirit of honorable ambition, earnestness and steady aim towards useful culture has been manifest, on the part of the pupils, as was noted last year.

At the close of the Spring term of 1877, eight graduates received their diplomas, and at the opening of the new year twenty-eight were admitted.

For the purpose of relieving the Grammar school from its over-crowded condition, the committee, at the last examination, promoted several meritorious scholars, who were not in Mr. French's first class, to the High school. The experiment proved, in the main, satisfactory, the pupils having, under this stimulus of advancement, maintained generally a good position, and are doing well.

The Committee feel compelled to say that the want of a few books of reference for use in this school is a serious hindrance to profitable work. Even a Cyclopædia, or some comprehensive work from which the pupils might obtain information on the subjects of Mechanics, Engineering, the Trades, the Arts, the Natural Sciences, etc., would be of immense benefit, and it is to be hoped that a few books of this character may be furnished to the students, who are now restricted to the use of a *dilapidated* quarto dictionary. Such aid as these books would furnish is absolutely necessary to carry out the design of the course of study, which is (as was stated in a former report), "particularly to give instruction in the higher English branches, and such general education as

shall prepare our young men for the requirements of business."

THE GRAMMAR SCHOOL.

Although an unusual number of promotions to the High School was made at the opening of the present year, yet the average attendance at this school has been about the same as given in the last report, and the committee see no reason why the excessive number will not continue another year, at least.

Mr. French, by his energy and industry, certainly brings about astonishing results, considering the small amount of time he is able to give to each pupil. His example, system and methods cannot fail to impress even the dullest scholar that attendance in that school means business, and the committee are pleased to say that much credit is due to the boys, who, in the absence of rigid rules, by their self-command, obedience and prompt attention, show their readiness to aid him in his laborious work.

SPRING STREET SCHOOL.

Miss Buckingham occupies a difficult position; that of preparing, as one class, for the Seminary and Grammar school, pupils gathered from all the Primaries, where a wide difference in home culture, always operates against uniformity in progress.

The examinations so far have shown that she has done faithful and satisfactory work.

THE PRIMARY SCHOOL,

Under Miss Harvey always has a bright and cheery aspect. The scholars are interested, make good progress, and the Committee are satisfied that the school has fallen into worthy hands.

For the reason that the number of pupils became too small to justify the expense of

THE PLAINS INTERMEDIATE,

It was closed, and Miss Burnham of the

PLAINS PRIMARY,

has had charge of those scholars who are preparing for promotion. She has faithfully carried on the work both in the advanced and primary classes, and has succeeded with the material placed in her hands, to an extent which is worthy of high commendation.

GROVE STREET SCHOOL.

This school, under the charge of Miss Calef, still holds its reputation. Her pains-taking care is bringing about good results, and meets with a hearty response and interest on the part of the children.

SCHOOL STREET PRIMARY.

Miss Dearborn has shown herself well qualified to meet the requirements of the young people under her charge. Her efforts for their improvement are a decided success.

HALL PLACE SCHOOL.

This school continues to exhibit the signs of improvement, indicated in the report of last year. The majority of the pupils require much care and labor to bring them up to their work, and Miss Caverno has done effective service in this direction.

PROSPECT HILL SCHOOL.

Mrs. Davis still maintains her well-earned position in the esteem of her scholars and their parents. Very gratifying evidences of improvement in all respects, in this school, have been shown in the past two years.

DISTRICT NO. 3.

Miss Smith has carried on the work in this school with the satisfactory approval of the District. Her efforts are, however, impeded, and the morals of the school are seriously endangered by some elements of character in the school, which defy the teacher's authority. It is to be hoped that the District will apply a remedy, if needed, on the opening of a new term.

DISTRICT NO. 4.

Mrs. M. L. Haley retired from this school at the close of the fifth week of the second term, and Jarvis McDuffee, Esq. consented to take the charge till the end of the term. It is a serious misfortune for those four or five children, that they cannot have the advantage of being

in a larger school, where they would be benefitted by contact with many children of their own age, and the wholesome stimulus of a cheerful school.

DISTRICT NO. 5.

Miss Sinclair retired from the charge of this school in January, on account of ill health, and Mr. Chas. Kimball was employed for the remainder of the term. Good progress has been made, especially among the younger of the scholars, and we hope that Mr. K. will soon be able to report well for some of the older portion, who have certainly not done themselves or their teacher much credit, as it is quite evident they chose to set her authority and influence aside, and behave in a manner entirely subversive to the cause of good morals.

DISTRICT NO. 6.

As stated last year Miss Kimball met with a good degree of success in the management of those under her charge, bringing the school out of an apparent state of deadness, and the Committee were led to expect good results as she gained in experience. But the prudential committee saw fit to make a change of teachers entirely uncalled for, and for no good reason, and the school lost ground in consequence. A second change became necessary, and the District is to be congratulated in securing the services of Miss Judkins, who has just closed her term of nine weeks. The school shows marked indications of a revival of interest and progress, and it is to be hoped that it will continue to have the benefit of her services.

We venture to say that this school house has a situation which, for natural beauty, is known to few buildings of its class, and the scholars of the district rejoice in the shade of those two grand old oaks which Gov. John Taylor Gilman once owned and permitted to grow, until now they are hardly equalled in our County if in the State. Yet the miserable and unsightly outhouse is allowed to remain year after year, a reproach to the neighborhood. It is entirely unworthy the people of the district and should be removed, and the buildings connected with the school edifice remodelled.

REMARKS.

The committee have satisfaction in saying that they believe the schools are in as good condition as at the beginning of the year, but it must be confessed that many of the district schools of Exeter are very far below the proper standard, and this mainly owing to the *entire want of aids*, which all teachers must have in order to secure the best results. A school-room without a globe, maps, or any of the useful apparatus which is to be found in most of the schools of New England is unworthy of the reputation of our town, and it is to be hoped that this great want will be supplied before another school year begins.

CHARLES BURLEY,
GEO. A. TITCOMB.

REPORT OF THE TRUSTEES
OF THE
ROBINSON FEMALE SEMINARY.

TO THE TOWN OF EXETER :—

At the close of the last School year it was apparent from the diminished income from the Robinson fund, that a very considerable reduction in the expenses of the Institution would be absolutely necessary. To effect this reduction and still continue "such a course of instruction as would tend to make female scholars equal to all the practical duties of life," agreeably to the will of the founder, the Trustees decided to re-organize the School. Accordingly a plan was adopted, dividing the Seminary into two distinct departments, called the Grammar department and the Academic department, the regular course of Studies in each to embrace four years. And in order to enable those pupils who could not pursue the full course of study prescribed for graduation, to enjoy all the advantages of the Institution possible during the time of their connection therewith, it was resolved that any scholar might take any particular studies in the Academic department which she might be found fitted to pursue.

Under this arrangement the following Instructors have been employed for the year ending in June next :

In the Academic Department, Miss Harriet E. Paine, Principal, Miss Annie M. Kilham, M^{rs}s Lucy Bell, Mr. Oscar Faulhaber.

In the Grammar Department, Miss Elizabeth C. Brydge, Principal, Miss Laura A. Colbath, Miss Dustin in place of Miss Hetta L. Clement who resigned at the close of term last year.

Want of funds has compelled the Trustees to dispense with the services of a teacher of vocal music, and also with the services of a Janitress.

The number of pupils at present in the Seminary is as follows :

Grammar Department,	135
Academic Department,	50
Pupils in French and German,	60
“ Latin,	34
“ from out of town,	10
“ graduated in June, 1877,	11

The Trustees regret that they have been compelled to make a very considerable reduction in the salaries of all the instructors and also in the pay of the Treasurer and Janitor. All realizing the necessity for this reduction have submitted to it without a murmur.

The Trustees have the gratification of reporting to the town, that in their opinion, the present organization of the School is a success ; that the School was never better conducted, and the progress of the pupils in their studies never more satisfactory than during the present year. The teachers are among the most accomplished

in their profession, and they have been eminently successful in their work.

The total expenditures for the School for the year ending July 1877 were \$10,148 75.

The expenditures for the year ending July 1878, will be about \$6,477, leaving a deficit of about \$362.
