#### **REPORT OF SUPERINTENDENT OF SCHOOLS**

School Board and Citizens of the Rumney School District, Ladies and Gentlemen:

I hereby submit my seventh annual report as Superintendent of Schools. The statistical portion of the year 1935 - 1936 appears at the end. The supervisory comment covers the period from my last report to the present writing.

At the end of the last school year Mrs. Doris R. Ray was transfered from the Mont View school to Stinson Lake. During the last school year the membership at Quincy dropped to six and the Board in the interest of economy and efficiency started transferring to the Village in Sept. This gives the Quincy children larger school opportunity and strengthens the village school bringing its enrollment well into the range of State aid. Mrs. Lela Munson and Mrs. Doris Ray attended the summer session at Plymouth Normal School. Mrs. Nellie A. Baker a teacher of several years of successful experience is in charge of the Mont View school. The present enrollment of 31 is a full school, but not enough to qualify for another state aided teacher. It would appear that similar instances are in other districts because last year there were 23 rural schools in the state which had 30 - 39 pupils. This school can be operated efficiently with the full cooperation of pupils and parents which in general is being given. It is not always expedient to help children too much thereby detracting from their initiative to push ahead and solve their problems unassisted. To hear, "I did it myself," in any classroom is evidence of good instruction.

The work of the schools is examined from time to time by means of standard tests enabling us to find how we are progressing with other schools throught the country. So far they have been found very encouraging. The problem of how much time shall be devoted to the children of natural superior and inferior scholarship is always pressing. We try to direct and encourage the best students to forge ahead checking their results over longer periods thus enabling the teachers to assist those who need more individual help. The question of what shall be "standard" in any supervisory unit is difficult to determine. If the "standard" is placed conveniently low for everyone to receive flattering marks, soon a large number of children are doing little or nothing and the taxpayers have legitimate complaint that the appropriations are being disipated. On the other hand, if it is too high, discouragement pervades the school and motivation is retarded. Last year the percent of non-promotations was slightly less than that for the state at large, so it would appear that our experience in the district is about the same as elsewhere.

During the summer a well was dug at the Village School. The district now has full control of the drinking water at this school. It is hoped that in time similiar equipment can be secured at the Depot and Mont View. The annual expense of carrying water to these two schools would pay for itself in not very many years. During the summer the Mont View School was painted outside and the belfrey removed. A piano was installed there. Some painting and varnishing was done at the Depot School. The rooms at the Village were painted and varnished. Cement steps were made at Stinson Lake. The new highway cut off a corner of the yard of this school.

The Parent Teachers Association gave and placed a piano at the Depot School.

Respectfully submitted,

Rumney, N. H. Feb. 11, 1937 Allan M. McCurdy
