The actual cost of supporting the paupers at the Farm has been \$14,411 66. The total number of weeks' board furnished \$10,272. Dividing this aggregate expense for the year by the whole number of weeks' support, we have as the cost of each pauper's support per week \$1.40.

The average number at the Farm for each week during the year has been 21 less than during the preceding year.

Respectfully submitted,

C. E. CASWELL,
Superintendent.

In presenting the thirteenth annual report we wish to call the attention of the tax-payers to several points more fully than we have been able to do in those portions of the Report that have preceded.

The item \$15,479.24 given in the Treasurer's report does not state the exact running expense of the County Farm for the year ending April 30, 1880. From it should be deducted the following amounts: *First*, \$963.81. This amount of salary was due

Mr. Caswell, as superintendent, and should have been paid prior to May 1, 1879, but was not paid until after this date, so that it does not enter as a part of the running expenses of the Farm for 1879-80, and has therefore been excluded by us. *Second*, \$550. This sum was expended for repairs on the old barn. The work was done by our predecessors, but the bill has been paid during our administration. *Third*, \$146.60. The attic has been sheathed (an improvement much needed for the comfort of the aged who sleep there) and changes in ventilation of the privies costing the above sum have been made during the year. Both of these amounts have been deducted because they both represent permanent improvements, and are not expenses incident to this year alone, and can not be considered as running expenses of the Farm. Deducting the sum of these amounts, we have, as the actual cost of supporting the paupers on the Farm during 1879-80, \$13,818.73.

Taking this as a basis, we have, as the cost of each pauper per week, \$1.40, which is a decrease of twelve cents for the preceding year. But the above amount does not represent the actual running expense for the year which has just elapsed, for the reason that we have paid bills to quite a large amount for provisions, medicines, and miscellaneous articles that have not been used during this current year, but in the year preceding. We have adopted the system of paying each year all bills against the County Farm which have been incurred during that year, believing that it is the only proper way in which to determine the actual cost during that year. We have paid every bill which has been incurred during our administration with the exception of about \$170. There is due the County for the board of inmates about \$270. By this means we shall be enabled to establish a basis from which to determine more accurately the running expenses for the next fiscal year.

The County debt has been reduced during the past year \$12,660.80. During the coming year it will be necessary to make some repairs on the Trickey House; new floors will have to be

laid in the wash-house, and it will be necessary to shingle the Snell Barn. The expense, however, attending these repairs will not be large.

During the summer which has just passed the Asylum for the Insane has been at times very much crowded, and there has not been sufficient cell room to confine all the insane. While we would not at present recommend any expenditure of money to enlarge this building, yet if this class of patients continues to increase, such a change will be essential in a few years at least.

It has been the custom for the last few years to send to the County Farm persons who have been convicted in the Police Courts of petty offences. While it may be true that such persons may prove available for certain kinds of labor, yet we have questioned the policy of making of our County Farm a penal institution, and subjecting the young, aged and infirm to such baneful influences. We have accordingly arrived at an understanding with the Police Justice, as a result of which such cases are not hereafter to be sentenced there.

We have found homes during the year for eight children, four of whom have remained away permanently, and the others have returned to the Farm. There are from 20 to 30 children at the Farm, ranging in age from 5 to 15 years. They have been taught in the English branches during the year. Instruction has been given during 48 weeks, and the children enjoy equally as good advantages as those within the City limits. Miss E. B. Caswell has been the instructress, and she is commended for her zeal and earnest endeavors in their behalf.

Mr. & Mrs. Caswell have continued during the year as Superintendent and Matron. Long years of service have made them thoroughly conversant with all the details of management of an institution of this kind. They have our hearty commendation for their excellent, frugal and careful management, both indoors and out, and the earnestness with which they have co-operated with us for the interest of the County. To fill such positions with credit to one's self and with profit to the County requires years of experience and a thorough knowledge of details.

Charles A. Fairbanks, M. D., has been retained by us as medical attendant at the Farm and Jail, and has given us entire satisfaction in the discharge of his duties.

SAMUEL A. SEAVEY, } *County*
CYRUS LITTLEFIELD, } *Commissioners.*

SAMUEL J. SMITH, *Deputy Jailer.*

Physician's Report.

TO THE COMMISSIONERS OF STRAFFORD COUNTY,—

Gentlemen: I have the honor to present the following report :

There have been but few cases of acute disease. We have been entirely free from an epidemic or a single case of measles, Scarlet Fever or Diphtheria. In this we may congratulate ourselves, for no better field could present itself for the ravages of these diseases, should they gain a foothold, than at our County Farm.

We have had an isolated case of Pneumonia, resulting in death, in the Insane Asylum

There have been three cases of Septicæmia, all of which were serious.

There has been one case of Pleurisy, with recovery.

During the summer months Diarrhœa was prevalent, but readily controlled.

There have been two cases of fracture of the femur, both of which were the result of injuries received away from the Farm. In one of these Septicæmia followed and death resulted. In the other a fair result has been attained.

There are thirty-one (31) persons confined in our Insane Asylum. Nearly all of them are chronic cases. During the year some who were temporarily deranged, have regained their reason, and have been discharged. We have given but little medical

treatment except in those cases where they have been attacked by acute disease. We have always found the Asylum clean and the sanitary surroundings excellent.

There have been nine (9) births at the farm during the year. In all of these cases but one the mother and child have both made a speedy recovery. In one child erysipelas developed itself one week after birth, and death followed.

In four of these nine cases the mother became pregnant before being sent to the Farm. In three other instances the father and mother were both temporarily away from the Farm when the child was begotten.

The aged and infirm have required unremitting attention. Many are broken down with long-standing diseases, demanding care and medical treatment constantly. Many persons have been sent to the Farm who have not left their beds from the day that they became inmates to the date of their decease. Three have died of Phthisis, who were beyond all hope of recovery when they became inmates, two of these having been at the Farm but about six weeks. Nine of those who are deceased had passed the limit of three-score and ten years, some of them by nearly a decade. Three others had for years been afflicted with incurable disease of the kidneys. One death has resulted from gangrenous ulcer of the leg of more than twenty years' standing, and from which death resulted after he had been at the Farm but four weeks. By reason of previous dissipation, age, constitutional condition and state of health in which some were carried to the Farm, in but three of the cases in which death resulted was there any reasonable expectation of recovery.

One of the beneficent results which has followed the establishment of our County Farm has been the provision which has resulted where those who are broken in health and are without friends or means may find a comfortable home and good care. The sanitary condition of the buildings is excellent, and as a result of the changes which have been made in ventilation, much improved from preceding years.

The following table gives the date, name, cause of death and age of those who have died during the year :
