Grave Forest Situation Follows September Hurricane

Woodland problems of timber salvage and fire control created in many towns by the September hurricane are of the greatest importance. GOOD CITIZENSHIP CALLS FOR PERSONAL AND WIDESPREAD ACTION!

The salvage of every thousand feet of logs which can be sold means money for landowners, wages for workers, employment for trucks, teams and machinery, as well as reduced forest fire hazard for all. If owners of windthrown timber have not yet acted, they should communicate with those who can help. TOWN CHAIRMEN are fully informed; STATE ADVISORY AGENTS can help to start logging by suggesting names of operators and giving other useful advice; FEDERAL AGENCIES are increasing the number of log storage places as rapidly as possible. INDIVIDUALS MUST NOW COOPERATE!

Forest fire danger for several years will be greater than usual. So much work must be done by public agencies to reduce hazard along roadsides, near improved and other exposed areas that many places will remain hazardous for some time to come. INDIVIDUAL LANDOWNERS MUST TAKE A PERSONAL INTEREST! Aid in clean-up work through the Agricultural Conservation Program is available to any woodland owner at $4.00 per acre on areas up to 15 acres. The County Agent should be consulted.

Support your local Forest Fire Wardens and Deputies. They are planning, with State and Federal agencies, an intensive campaign to control fires. Help them by strict observance of the fire laws. Kindle no open fires without a permit from the Warden except when the ground is covered with snow. Cooperate by reporting fires you may see and in other ways. Fire fighting tool supplies are inadequate and should be reasonably increased by many towns. YOU CAN HELP, AND IT WILL PAY, TO PREVENT FOREST FIRES!

Superintendent's Report

To the School Board and Citizens of East Kingston:

I herewith present my twelfth annual report as Superintendent of Schools:

SUPERVISION

My primary duty should concern the welfare of the children in your schools. My philosophy is dependent upon that function. The supervision and improvement of instruction naturally come to mind as the first essentials whether they come from the introduction of a new textbook, advice to the teachers on school problems, or absolute direction to perform certain tasks. Your same two capable teachers remain in the service and ask for whatever help I am able to render. I trust that this aid and support to the teachers is indirectly helpful to the pupils.

We must look to the results to determine the value of instruction. Among the forty-seven pupils in your schools at the close in June, 1938, forty-five were promoted or 95.7%. In other words, it was found that less than 5% were in need of or could profit by remaining in the same grade for another year. I believe this is a splendid record but it is not unusual in your schools. Last year's graduation class of four pupils will serve as another example of accomplishments. Along with the other 82 graduates of the eighth grade in this Union, these four took the Metropolitan Achievement tests, Advanced Form. Suffice it to say that all gained scores in excess of their grade standards. As a further example of parental cooperation and pupil interest, I am pleased to list the following pupils who were perfect in attendance during 1937-38:

<table>

<th>Parent</th>

As the parent is more often as much responsible as the child, his name is added as extra credit.

The information which now follows gives a brief summary of statistical data about the school year, 1937-38

*Average per cent of attendance 95.19
No. pupils enrolled 50
Average membership 46.98

FINANCE

My secondary duty has to do with finance and the general operation of the physical plant. In a large Union such as this, too often this function comes ahead of the first ideal, supervision. Yet, certain situations must be faced and problems solved. Required reports must be finished on time, meetings held to review needs, plans made to meet conditions. Much time must be spent either by night or by day to determine the means for satisfying these needs by long-time planning. That is one of the School Board’s duties and mine, just now and a difficult one it is due to the emergency caused by an unexpected increase in school enrollment and in numbers attending high school. A year ago the district authorized the expenditure of money from cash balance to re-plaster the Pound School. This was done according to agreement and then the changed enrollment began to develop. Population shifts took place and added
greatly to tuition costs—all this during the past summer and early fall. There was adequate money for the most of these changes but not for all. Therefore, the budget for the next year is presented with this explanation.

To show certain facts concerning the financial management of your schools I list the following information taken from recent releases of the State Board of Education. These indicate the financial burden and how well it is being done in comparison with other towns of this union.

**APPRECIATION**

I am very appreciative of the interest and activity of the School Board in their unselfish efforts to make your schools the best that available funds will allow. We have
worked together for another year in harmony and for the best interests of the children.

I would like to express my gratitude for the cooperation of your citizens and parents. I am indeed grateful for their interest in the problems of childhood and schools.

I would not forget the loyal service and the active efforts of your teachers. I give them my thanks for their support and diligence in meeting our plans for pupil welfare. They deserve the bulk of the credit.

Very respectfully,

HAROLD C. BOWLEY.
