Report of Superintendent of Schools

To the Springfield School Board:

I herewith submit the annual report of the Superintendent of Schools.

The enrollment has dropped this year. There are now 42 pupils in our schools as compared with 55 last year. The graduating class of 1937 was rather large (14 pupils in both schools). This year there is only one eighth grade pupil (Center School). It is encouraging to note that most of last year's graduates continued their education. Ten entered Newport High School, one Sunapee High School, and one Enfield High School.

The pupils of Springfield are fortunate in having excellent

teachers and well-equipped buildings. The Center School is specially noteworthy for its piano, library, attractive stoves, orchestra equipment, playground apparatus, chemical toilet (for girls), and movable partition between the two rooms.

At the Maxfield School I would recommend that new toilet facilities be provided, with access directly from the school building. The best equipment consists of a septic tank with modern accessories.

The fall tests in reading and arithmetic showed that most of the pupils are up to grade. In the case of the few who are below grade we have rather definite information about the needs and can adapt the work accordingly.

The teachers are to be commended for the excellent work being done in music.

I am specially impressed by the strong community spirit which contributes so much to the successful operation of the schools. It has been a pleasure to be connected with such a progressive school system.

Respectfully submitted,

ALFRED W. SMITH,
Superintendent of Schools
