HEALTH REPORT

The third annual "clean up" day was successfully held part way. It is gratifying to have so many families cooperating with town officers in the effort to keep their homes free from accumulated rubbish, which is often a fire hazard, and the roadsides clear of unsightly debris.

The public dump on the Robert Moore land has been permanently closed, and one opened for use near Arthur Christian's. There is also one on the London road in East Westmoreland and another on the old Ferry road near Lawry Churchill's.

There have been a few cases of mumps and one of measles, otherwise the town has been free from communicable diseases.

RUTH H. BURT,
Health Officer.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Westmoreland:

I herewith submit my annual report as Superintendent of Schools.

ORGANIZATION AND ENROLLMENT

Two new teachers were elected to fill vacancies on the teaching staff. Miss Rose Dempsey received appointment as teacher in the four upper elementary grades at South Village school. Miss Dempsey is a graduate of Keene Teachers' College four-year elementary curriculum. Miss Doris Williams assumed her duties as the new teacher at East Westmoreland after seventeen years of successful experience in elementary and rural schools.

I have each year devoted a portion of my report to a discussion of some of the aims of our general supervisory program. Previous reports have covered the phases of the program applying directly to the content and improvement of instruction. Since effective instruction is influenced also by a continuous program designed to strengthen the organization of our schools, I believe that a brief outline indicating the nature of some of this activity should be of general interest.

Instruction sheets to all teachers in the supervisory union have repeatedly emphasized the importance of maintaining a uniform standard practice in relation to the following details of school management:

1. Permanent records of personal data, attendance, and scholarship.
2. Report cards, failures, and make up work.
3. Organization and supervision of all playground activities.

4. Organization and supervision of school programs, socials, entertainments, and athletic contests.
5. Exhibits of school work.
6. Conduct of school lunch program.
7. Fire Drills and safety control measures.
8. Details of class and room management.
9. Care, preservation, and use of equipment and reference materials.
10. Development of school libraries and use of circulation libraries.

The report card usually results in more misunderstanding and conflicts of opinion than any other item of school management. It is not surprising that this should be so since acceptable practices for reporting to parents are many and varied. However, regardless of the form used, I believe that pupil scholastic reports have meaning and value only when they are made by the teacher and interpreted by the parent according to some definite policy which is understood and accepted by both. It has been my experience in talking with parents to find that they usually desire a fair, truthful, and frank estimate of the actual quality of the work of the pupil as measured by the ability of the child and the standard for the grade. I believe also that our teachers generally have recognized their responsibility in this regard and try to mark pupils truthfully and fairly according to their best judgment. Teachers have been urged to consider the report card as a transcript of the pupil's school record and to report deficiencies consistently as they occur.

Although repeated failures may indicate that a pupil would profit by repeating the grade, they are more generally caused by inattention, failure to complete assignments, or careless work. Teachers and parents should make an honest attempt to ascertain the cause of pupil failures and cooperate in some effective measures to eliminate them when possible.

In most of our schools the teachers have been very conscientious in the performance of their duties in supervising playground activity during the noon or recess periods. The informal situation on the playground affords an opportunity for wholesome pupil-teacher relations and for practical instruction in proper attitudes and group conduct.

Last year many of the schools in the supervisory union conducted school programs and exhibits designed to demonstrate school work and pupil performance. Programs of this nature are very much worthwhile. They tend to promote interest and cooperation and are worthy of the encouragement and support of the community served by each school.

Two deliveries of surplus food commodities were made to the schools during the year. Apples, oranges, raisins, and canned peaches were used to supplement the hot lunch program. It is expected that this program will be continued. One shipment of surplus foods has been received this year at each school.

The Parent-Teacher Associations at the Westmoreland Depot and village schools have arranged for special music instruction by a qualified teacher. The special teacher works with the pupils once each week at the Depot school and twice a month at the village. Music is taught during the week by the regular teachers. Rote work is emphasized in the lower

grades and theory, including note reading, is taught to the pupils in the upper grades. Rhythm bands have been organized.

HEALTH

Health inspection in Westmoreland showed the following defects:

89 pupils were inspected.

12 pupils were underweight.

2 pupils showed defective vision-uncorrected.

7 pupils showed poor posture.

67 pupils were in need of dental care.

2 pupils were unvaccinated without proper excuse.

7 pupils were recommended to have throat and nose examination by a physician.

Dental clinics were held at South Village May 31, 1940 and December 12, 1940. East Westmoreland March 4, 1940, Westmoreland Point October 17, 1940. Dr. J. H. Grimes, Keene, N. H. dentist, with work done as follows:

Number of pupils treated,	64
Total number of cleanings,	44
Total number of extractions,	18
Total number of amalgam fillings,	56
Total number of porcelain fillings,	10

The above clinics were sponsored by the Parent-Teacher Associations. At the South Village each pupil paid fifty cents. The P.-T. A. paid the balance of the bill. At East Westmoreland the parents paid half the bill, the P.-T. A. the balance. At the Point the P.-T. A. paid the entire bill. The Depot program was sponsored by the P.-T. A.

14 pupils had their teeth cared for by their own dentist.

3 tonsil cases were treated at a clinic.

2 pupils had special eye examination and defect corrected.

Some funds were received from the local Red Cross for corrective health work.

BUILDINGS AND EQUIPMENT

The following repairs and improvements were made at the school buildings during the year:

The exterior of the village school building was painted. The lower section of the walls in the classrooms, hallways, and toilets was painted. The walls were lined to permit refinishing in two sections as needed. This method is economical and makes an excellent finish for the walls. The school desks and chairs were varnished. Two new link chain swings with ball bearing swivels were supplied by the P.T. A. The swing standard was painted. A cupboard was built in the basement for the storage of school and janitor supplies. A new flag pole was purchased. The screens and storm windows were painted and the roof was patched.

At East Westmoreland one coat of paint was applied to the front and ends of the building. The ceilings and walls in the activity room and back hallway were painted. The folding doors were repaired and varnished. A new sink drain was installed.

The roof at the Corner School was patched in places found to be leaking. Repairs were made to the chemical toilet.

The roof over the kitchenette and toilets at the Depot school was shingled. A new circulation heater was installed.

More playground space at East Westmoreland and playground equipment such as swing standards and teeter boards at East Westmoreland Depot, and Corner schools, would aid in the supervision of the outside activities during the recess and noon periods.

STATISTICAL REPORT 1939-1940

Total registration,	115
Average membership,	89.50
Percentage of attendance,	94.87
Cases of tardiness,	118
Number of pupils not absent or tardy,	9

The increase in the percentage of attendance and the decrease in the number of cases of tardiness is a very commendable improvement in the records of the school.

I wish to thank the members of the School Board, P.-T. A., teachers, parents, and pupils for their cooperation during the year.

Respectfully submitted,
CHARLES D. DALZELL,
Superintendent of Schools.
