Warrant for Annual Meeting

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Wilton in the County of Hillsborough and State of New Hampshire, qualified to vote in town affairs:

You are hereby notified to appear at the Town Hall in said Wilton, on Tuesday, the 12th day of March next, at nine o'clock in the forenoon, to act upon the following subjects:

1. To choose all necessary town officers.
2. To bring in your ballots for the election of Delegates at Large, Alternate Delegates at Large, Delegates and Alternate Delegates to the National Conventions of the various political parties to be held to nominate party candidates for President and Vice President of the United States.
3. To hear the reports of town officers, agents and committees and pass any vote relating thereto.
4. To see if the town will grant free use of the town hall for the following purposes: Roy Bent Post No. 10, American Legion; the Wilton Fire Department for their annual party; the Roy Bent Post No. 10, American Legion, for Memorial Day exercises.
5. To see if the town will vote to authorize the selectmen to borrow money in anticipation of taxes.
6. To see what action the town will take in regard to real estate taken over by the town for non-payment of taxes.
7. To see if the town will vote to accept the budget as prepared by the budget committee or make any alterations relating thereto.

8. To see if the town will vote to raise and appropriate the sum of Five Hundred Dollars for the use of the Planning Board in preparing tax maps and assessment records under supervision of N. H. Planning Board or take any action relating thereto.

9. To see if the town will vote to raise and appropriate the sum of \$190.00 to the Monadnock Region Association in southern New Hampshire for the issuance and distribution of printed matter, newspaper and magazine advertising, calling attention to the resources and natural advantages of the town, in cooperation with the other thirty-seven towns in the Monadnock Region, or take any action relating thereto.

10. To see if the town will vote to raise and appropriate the sum of \$320.00 for the purchase of a door for the vault in the selectmen's room, or take any action relating thereto.

11. To see if the town will vote to raise and appropriate the sum of \$50.00 for the use of the Town Forest Committee, or take any action relating thereto.

12. To see if the town will vote to raise and appropriate the sum of \$150.00 for band concerts, or take any action relating thereto.

13. To see if the town will vote to purchase land for cemetery from the estate of Annie P. Denny, or take any action relating thereto.

14. To see if the town will vote to discontinue a section of highway on Abbot Hill near the residence of Mrs. Robert Emmet, beginning at a point on the Abbot Hill road, going southwest about 600 feet to a corner of the road which was discontinued in 1933, and thence southeast about 1700 feet leading back to the Abbot Hill road near Sheldon's corner.

15. To see if the town will vote to accept a strip of land to be given to the town by David Whiting and Sons, Inc., for a town forest, said land bounds the present town forest which was given to the town by H. W. Frye.

16. To see if the town will raise and appropriate the sum of \$200.00 to be used in the construction of a small dam at West Wilton to be used for fire purposes.

17. To see what sum of money the town will vote to raise and appropriate to defray town charges for the ensuing year, including town officers' salaries and expenses, election and registration, town hall, police department, fire department, health department, vital statistics, sewer maintenance, town road aid, town maintenance, town forest, planning board, parks and playgrounds, new equipment, street lighting, municipal court, town poor, old age assistance, aid to soldiers and their families, Memorial Day, cemeteries, interest, W. P. A. project, bonds, long term notes, county taxes, Monadnock Region Association, band concerts, sidewalks, door for vault, and miscellaneous items.

18. To transact any other business that may legally come before said meeting.

Given under our hand and seal this 24th day of February 1940.

DAVID J. BARRY,
J. E. BURKE,
PETER J. DUGAN,
Selectmen of Wilton, N. H.

BUDGET

**Estimates of Revenue and Expenditures for the En-
suing Year, Feb. 1, 1940 to Jan. 31, 1941, Com-
pared with Actual Revenue and Expenditures

Report of Water Commissioners

Water was supplied to the town for the major part of the year from the old reservoir, as usual. There was, however, some little time during the summer when, due to the drought, water had to be purchased. This water came from Burton Pond. During the winter the ice on the reservoir had to be cut, to insure a continued flow of water, because of the extreme cold.

The department has added a new line of two-inch pipe off Highland Avenue. In addition two new services were added. The only major repairing which had to be undertaken was the replacement of three goose necks on Main Street.

Respectfully submitted,

PETER J. DUGAN,
OMER J. SHEA,
LESLIE N. CENTER.

Report of Municipal Court

WILTON, N. H.

During the fiscal year ending January 31, 1940 there were forty-one criminal cases, three juvenile cases, nine small claims and one civil case entered in the Municipal Court. Twenty of the criminal cases involved local persons and twenty out of town. The criminal cases consisted of twenty-one motor vehicle violations, six drunks, two assault, one adultery, one operating lottery and ten miscellaneous. The small claims law which went into effect in August has added materially to the work and costs of the court with but little additional revenue.

I hereby submit the usual

Report of Vale End Cemetery Committee

1939

During the past year we supervised the maintenance of Vale End Cemetery.

The work was handled by Mr. Archie Thompson and his efforts are shown in the general improvement of the grounds.

A new tool house was built during the year so that the equipment could be stored under cover.

There are only two sand top lots left and these we expect to make over to grass next year.

We list below the expenses for the year, as well as equipment at the yard. Also is shown the amounts charged to the several perpetual care funds.

Expenses for the Year:	
75 feet hose and nozzle	\$ 2 86
Truck and driver filling hole at entrance	9 75
Lumber, paper, shingles and hardware for tool house	28 69
Herman Glines, horse mowing	6 00
Sharpen lawn mower	1 00
Archie Thompson, labor	129 00
John Fitzgerald, labor	33 60
Electric current	12 00
A. Dick, labor	5 20
	<hr/>
	\$228 10

Equipment at Yard:

The same as 1938, with hose bought this year.

Charges to Trust Funds for Care of Lots:

Solon Tarbell lot	\$2 25
Andrew Burton lot	5 00

Geo. E. Burton lot	2 25	
Albert Townsend lot	2 00	
	<hr/>	\$11 50

Respectfully submitted,
WHITNEY M. FRYE,
LUTHER LANGDELL,
EDGAR BUTTERFIELD.

Report of Parks and Playgrounds Commission

The park was thoroughly cleaned last spring and was mowed weekly or as often as was necessary. We found it to be more economical to mow with a power mower and therefore purchased such a mower.

A portion of the park should be plowed and seeded to smooth but we think it best to forego this and roll it instead.

If we are to carry out the provisions of the gift of this land, it will be necessary to make a beginning soon on the planting of trees and shrubs.

In view of the fact that it will not be necessary to buy any new equipment this year, it is the hope of the committee that with the appropriation for which we have asked and such cooperation as we may get from organizations and individuals, a very definite program of planting can be inaugurated this year.

Respectfully submitted,
J. ELMER DRAPER, Chairman,
H. D. CHEEVER,
JOHN T. HURLEY.

Report of Planning Board

The Planning Board wishes to report progress on its program of developing a town map. Arrangements have been made for a W. P. A. project which will include the making of a map of the town showing the location of each piece of property and the setting up of a card system of records for use by the selectmen. Each piece of property will have a card showing the name and address of the owner, and on which will be typed the description of the property as taken from the last recorded transfer at the Registry of Deeds. This card will also contain information as to the number and size of buildings on the property, together with other data as to whether they are served by electricity, whether they have town water or their own supply, whether connected with town sewage system, etc. The land area and approximate acreage in tillage, pasture and woodland will also be recorded. Each piece of property will have a number corresponding with a similar number on the map.

This project will be under the supervision of the State Planning and Development Commission and is a joint project with the town, state and federal government participating. The map will be made from aerial photographs to be taken by Mr. and Mrs. Winthrop Perry. Aerial photographs have already been made of the village.

The Planning Board believes that such a map together with the records will be of much assistance to the town officers and of great permanent value to the town.

The total cost of the project is estimated to be \$5000.00. As is the case with all W. P. A. projects the local sponsors are required to finance the cost of all material and supplies used in connection with the

work, including in this instance the cost of the aerial photographs, together with all costs of transportation and local supervision. The town's share of the above is estimated to be \$750.00 and we are therefore asking for an appropriation of \$500.00, which added to the \$250.00 appropriated for the use of the Planning Board last year will be sufficient to complete the project. This project has been approved in Washington and arrangements are being completed to start immediate work on the compiling of the records at the Court House in Nashua.

The Planning Board feels that the town will never again have such a favorable opportunity to obtain a town map and records and strongly urges the appropriation of sufficient funds for this purpose.

Respectfully submitted,

PHILIP C. HEALD,
JAMES D. ABBOTT,
HAROLD D. CHEEVER,
WHITNEY M. FRYE,
JAMES E. BURKE.

Report of Fire Department

We wish to announce that the fire department at the present time is probably in the best condition in its history. Very few towns of our size (if any) have as much equipment as we have. No. 1 truck carries about 250 gallons of water and chemicals. No. 2 truck carries about 110 gallons of water and chemicals. No. 3 truck carries about 200 gallons of water and chemicals. No. 4 truck carries several chemicals and shovels; making in all over 600 gallons of water and chemicals, which will take care of most small house and brush fires.

We have bought the past year 500 feet of 1½-inch hose, making in all 1000 feet of 1½-inch hose on hand. We have also bought 20 three-gallon tanks that are working out to good advantage. In addition we have over 2000 feet of 2½-inch hose in very good condition, and thirty-odd acid and soda chemicals.

We have had a few bad fires the past year that were hard to cope with but owing to the fact that we had our new equipment ready and that the firemen knew what to do, these fires did not get out of control. Many fires the past year could have been avoided with a little care, thereby saving the town considerable money.

We feel that the new equipment that has been bought the last few years has paid good returns for the money invested, as without it the Davisville fire certainly would have gotten out of control.

The department responded to two forest fires at Sharon and the men who went had a chance to see what a real large fire could do and how fast it could travel.

A few persons are overloading their electrical circuits in their homes which eventually will cause

a fire in the partitions or elsewhere. Nothing larger than a 10 or 15 ampere fuse should be used on most of the old style wiring that has been installed several years. If a 15 ampere fuse burns out and keeps burning replacements it is an indication that the line is either overloaded or that something connected to the line has a short in it. If you are at a loss to know what to do, then consult your electrician and avoid a fire. Some go even further and put in pennies when fuses will not stand the load. This should never be done as it is sure to burn out your line or most likely cause a fire.

Sometime in the near future we hope the town can afford to give us some money to buy more foamite extinguishers as we have only one. Foamite is the only and best liquid for gas and oil fires.

Training of the men and keeping them familiar with the apparatus is our constant aim in having the department in A-1 condition.

Respectfully submitted,

WILLIAM E. HICKEY,
GEORGE G. DRAPER,
HAROLD HARWOOD.

Report of Town Forest Committee

Early in June the Committee set out about 1000 pine seedlings on the Harvey W. Frye Town Forest Lot on Route 101, and although the year was marked by a severe drought during the summer and fall a satisfactory amount of the plantings survived, which in years to come should increase the beauty of the lot. The Committee also erected Town Forest markers on each end of the lot which were submitted to and approved by the State Forestry Department.

The Committee has also investigated a proposed gift to the town by David Whiting and Sons of another tract lying directly back and north of the Harvey W. Frye Town Forest Lot and up to the brow of the hill which has recently been cut off. The State Forestry Department has approved the proposed gift and the Town Forest Committee recommends that the proposed gift be accepted and young pine or spruce trees be planted on this lot.

The Committee recommends that the sum of \$50.00 be appropriated for this purpose and other Town Forest uses. It also recommends that all other forest land now held or hereafter acquired by the town from tax deeds be turned over to the care of the Town Forest Committee.

Respectfully submitted,
PHILIP C. HEALD,
HAROLD D. CHEEVER,
Town Forest Committee.

January 31, 1940.

Report of Forest Fire Warden

As was expected, owing to the hurricane, the expense of fighting forest fires in 1939 was the largest for several years and we will soon be in the midst of another year of still worse conditions unless everyone takes the greatest care and caution, as the blow-down slash will be a great deal drier and therefore more dangerous.

I wish to ask every citizen of Wilton, and especially those that have a good view of the surrounding country, to report to your warden or deputies any sign of smoke or fire as soon as possible and to stay by phone (if sent in by phone) until you have given full particulars and location. If in doubt what to do then call the Wilton operator, who will know what to do and how to get the proper help, but stand by that phone if possible until you have given full details of fire. This is very urgent and, if needed, direct the fire department when they arrive to the nearest water if possible. Where there is a good chance for a water hole at a small expense I recommend for your protection that you make one.

No person has a right to build a fire to burn brush or any other material at any time of the year without a permit unless the ground is completely covered with snow. If you see persons walking through fire hazards, building camp fires, or about to do so, call their attention to the fire danger. Report anything out of the ordinary, and take their registration number if they have a car. Penalty for starting a fire without a permit is \$200.00 or 30 days in jail. Penalty for starting a fire willfully or carelessly is \$500.00 or not more than one year in jail.

When walking through dry grass, slash, or other inflammable material, please refrain from smoking and lighting matches until out of danger of setting a

fire. If a fire starts in one of these places it is almost impossible for one or two persons to put this fire out in a dry time without fire equipment.

The following men are my deputies:

Lawrence Paro, phone day or night.

Arthur Keilig, phone day, or phone night 2-3.

Charles Stearns, phone day 72-12, phone night 72-12.

George Perham, phone day 7-2, phone night 7-2.

J. V. Tuttle, phone day 48-14, phone night 48-14.

Respectfully submitted,

GEORGE G. DRAPER,

Forest Fire Warden,

Phone day 52, night 93.

Report of Auditors

Selectmen, Town of Wilton:

We have completed our audit of the books of the various officers of the town for the year ending January 31, 1940 and find them in good order.

The records of the Trustees of the Trust Funds, Trustees of the Wilton Public Library, Trustees of the E. A. Newell Book Fund and Judge of the Municipal Court have all been checked and found correct.

We have gone over the records of the Water Commissioners for sales, receipts and uncollected balance as of January 31 and found them to be correct. Collections were properly turned over to the Treasurer regularly. Town Clerk's records on registrations of automobile and dog licenses have been checked and found correct and collections turned over to the Town Treasurer.

The warrants, receipts and uncollected balances of the Tax Collectors have been checked and found to be correct. The uncollected accounts of the Tax Collectors and the Town Water Commissioners are being verified by sending individual notices to each debtor.

The records and reports of the Selectmen and the Town Treasurer have been checked and found correct. All invoices paid were on file and properly vouched for.

We very much appreciate the cooperation of the Town Officers in presenting their records for audit so promptly and congratulate them on their appearance.

Yours truly,

JOHN T. HURLEY,
PAUL V. HERLIHY,

Auditors of the Town.

February 17, 1940.

Report of Trustees of Trust Funds

Five funds for care of cemetery lots were received by the Trustees during the year, making total funds for that purpose 104, totalling \$11,260.00, with income for the year \$244.99.

The sum of \$202.50 was expended during the year for the care of lots, leaving accrued balances on cemetery funds \$1522.68.

The receipts from Howard and Spalding School Funds were paid to Treasurer of the School District.

A list of Trust Funds, showing receipts and expenditures for each fund follows.

Respectfully submitted,

W. L. STANTON,

For the Trustees.

AUDITORS' CERTIFICATE

(Required by State Board of Education from all
State Aided Districts)

This is to certify that we have examined the books, vouchers, bank statements and other financial records of the treasurer of the school district of Wilton, of which the above is a true summary for the fiscal year ending June 30, 1939, and find them correct in all respects.

JOHN T. HURLEY,
PAUL V. HERLIHY,
Auditors.

July 28, 1939.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Wilton:

I respectfully submit my seventeenth annual report as Superintendent of Schools.

Supervision

In my report last year I discussed the early stages of the process of learning to read, covering the work of the first two grades. I pointed out that we make several sections in each grade in order to have each pupil placed at the reading level at which he can do his best work. This procedure is now effective in the third grade as well as in the first two grades.

Sectioning by reading levels in these grades proves to be advantageous and is in itself nothing particularly new. As a given child shows readiness for the next succeeding reading level or stage, he is advanced sometimes with the same group and sometimes into the next group ahead; and of course slower learning pupils are sometimes outstripped by the others in a group and join the next group that comes along into that stage. Each child is thus enabled to progress according to his own ability and is not forced to take the pace of faster or slower pupils.

It may prove to be more satisfactory, after some further experience with this plan, to designate pupils below the fourth grade according to reading levels instead of classifying them as grade one, grade two, or grade three; and promote from level to level at such times during the year as the children acquire mastery of the reading level in which they have been placed. Pupils would then be promoted into the fourth grade when they were ready to enter upon the study of the content subjects that usually begin in the fourth grade, and only when the

pupil is ready to do so with assurance of success, whether the time required to attain such mastery has been three years or four.

Reasonable mastery of the fundamental techniques of reading is essential to success throughout the remaining school years, and to permit a child to advance before mastery is attained is to give him a handicap that may later prove disastrous not only to his success in the content subjects but to development of his personality or individuality.

In all our plans and procedures we must think in terms of the **individual child** and remember that he grows as a whole. This is true not only of his years in the primary grades but throughout his school life. All the time that a child is increasing in skill and in understanding, he is also forming attitudes and ideals and interests that will contribute more to the development of his personality than all of the subject matter he may be able to absorb and retain. The facts a child learns slip away quickly, but the thinking habits he acquires and the attitudes and ideals formed are apt to be permanent.

The type of report card that we had developed in the previous two years for first and second grades is now adapted to the third grade as well. By this means we are trying to give the parent definite information as to the child's growth in reading and to point out the things that may be preventing more rapid growth. We believe this is more helpful to the parent and consequently to the child than the type of report card that merely states the child is "good," "fair," or "poor," because it is more constructive and less critical of failures and establishes better basis for helpful conference between the parent and the teacher.

The practice of giving the Stanford Achievement Tests in grades four to eight inclusive and the

Metropolitan Achievement Tests in grades two and three has been continued. The Stanford Tests given in October, 1939, show that the Wilton grades are above standard as compared with the nation-wide norms for these grades. Specifically, the fourth grade was two months above the norm, the fifth grade four months, the sixth grade two months, the seventh grade four months, and the eighth grade one month. The average for the five grades was about two and one-half months or one-fourth of the school year ahead of the norm. This test covers most of the subject fields taught in those grades. The corresponding figures obtained from the Metropolitan Achievement Tests in grades two and three show that the second grade is three months above the norm and the third grades exactly at the norm.

Since we have been giving particular emphasis to the teaching of reading in the primary grades and remedial reading where needed in the other grades, the following statement may be of interest. The reading tests, which are a part of both the Stanford and Metropolitan Achievement Tests, show the following results by grades: Grade 2, one month below the standard; Grades 3, 4 and 5 each four months above the standard; Grades 6 and 7 each one month above the standard; and Grade 8 six months above the standard.

In an effort to build up the reading abilities of the lowest pupils a special teacher has been giving three forenoons a week since November 1 to five pupils from the eighth grade, six from the seventh, five from the sixth, six from the fifth, six from the fourth, and four from the third. No test results are yet available, but there is a marked improvement in the oral reading and in the interest and understanding of nearly every one of these pupils.

Some work is done in the high school also in the

way of remedial teaching to individuals or small groups of pupils in the fields of English, Domestic Arts and Mathematics, and much of the work done in Public Speaking and Dramatics is in the nature of remedial work in the speaking voice. We expect that corrective work in Physical Education will be done on a more organized basis in the near future. These activities, together with a long list of student activities through clubs, athletics, and similar organizations, illustrate the very wide range of opportunities given the high school pupils, and in some cases to the junior high pupils also, to get training and experience in things that are more or less outside the strictly academic or textbook work but are of very great value to the individual who participates in them.

One project outside the usual classroom work that deserves special mention is that undertaken in the fall of 1939 by Domestic Arts girls under the leadership of Miss Houlder in planning and executing much of the work of redecorating and refurnishing the teachers' room. In this connection, acknowledgement and thanks should be given to a friend who wishes to remain anonymous, for the loan of some pieces of furniture and the gift of draperies and other materials.

Another project of an unusual nature was the work the eighth grade boys did in construction of a small drop-leaf table in competition for a prize consisting of a tool chest full of tools, made possible by the generosity of David Whiting and Sons who furnished the prize and also the native pine lumber for the construction of the project. This served to stimulate a greater interest in the shop work at a time when there was need for increasing such interest.

School Costs

The table below has been prepared in order to

give a picture of comparative school costs in Wilton and in the state as a whole in the past twenty years. Averages of five-year periods are used in order to bring out the real trends.

**Twenty-Year Study of School Costs Per Pupil in Wilton
and in New Hampshire**

	Averages of Five-Year Periods			
	1st	2nd	3rd	4th
	1919-24	1924-29	1929-34	1934-39
<hr/>				
Average membership in:				
High School	62	67	124	110
Grades 1-8	213	264	257	244
<hr/>				
Wilton Costs per pupil:				
High School	\$126.98	\$128.27	\$89.78	\$115.26
Grades 1-8	64.99	72.02	73.79	69.12
<hr/>				
State Average Costs				
per pupil:				
High School	\$130.40	\$144.27	\$120.66	\$107.23
Grades 1-8	65.36	73.71	73.26	74.07

It will be noted that **elementary** school costs per pupil have varied by comparatively small amounts throughout, and that Wilton figures are very close to the state averages in each period except the last.

High School per pupil costs, on the other hand, have varied more widely both in Wilton and in the state as a whole. Wilton costs were notably lower than the state average in the second and third five-year periods, but somewhat higher in the last period. A glance at the high school average membership in all four periods will suggest that the per capita cost has varied rather closely in inverse ratio with the number of pupils. The sharp reduction in Wilton cost in the third period is accounted for largely by the fact that the high school enrollment was nearly double that of the two preceding periods. As the membership has dropped again to an average of 110 in the last period, per pupil costs have risen correspondingly.

Wilton high school enrollment seems likely to continue at the lower level of 100 to 110 pupils indefinitely. This fact, together with the fact that Wilton's tax rate is high is raising a question in the minds of some thoughtful citizens as to the wisdom of continuing the broader program of courses and activities that was built up while the enrollment was larger. The following statements are set forth in sufficient detail to present a fairly complete picture for the purpose of centering thought upon the problem as a whole rather than upon isolated parts of it.

What Can Wilton Afford To Offer Its Youth Of High School Age?

Under the law, every public four-year high school must offer a course that will provide complete preparation for entrance to college. The bare essentials of such a course must include at least sixteen unit subjects in the four years, and that does not provide for any variation in the needs of pupils preparing for different types of colleges. Much less does it provide for individual differences in abilities and interests. Such a minimum program would require three teachers including the headmaster, and with such a plan two additional teachers would be required for the seventh and eighth grades.

In order to provide for the variations in college entrance requirements, and more especially to give the large majority of pupils who will not go to college subjects that will be worthwhile for them, certain other subjects need to be offered. That need has been met in Wilton by additions from time to time to the list of subjects offered, including Domestic Arts, Mechanical Drawing, and Commerce, together with more than the minimum requirements in Science and Social Studies. This has made necessary the addition of two more teachers, but some of the special subject teachers have classes in seventh and eighth

grades, so that only one full time teacher is required there. This has increased the teaching staff to six. Further provision has been made for work outside of the academic and semi-vocational subjects, by the addition of a full time music teacher and a full time physical director. The present staff consists of eight full time teachers and one half-time teacher. It should be noted that both the music teacher and the physical director devote some time to the grades below the seventh.

A careful scrutiny of the budget will reveal the fact that the only items in it which can be reduced in sufficient amounts to make any material reduction in the total budget and in the tax rate, are the items of teachers' salaries and transportation.

The only way a worth while reduction can be made in the item of teachers' salaries is to reduce the number of teachers, and that means a reduction in the subjects and activities offered to the high school pupils.

Reduction in the cost of transportation could be effected only if the district should see fit to refuse free transportation to high school pupils, or to elementary pupils outside the village limits but still within the two-mile radius, which is the limit set by law outside of which pupils attending elementary school must be provided with free transportation.

Maintenance of School Buildings

During the past summer the high school building was painted two coats outside, including window sashes and screens. Four classrooms, the upper and lower halls, and the superintendent's office were re-decorated. The temporary partition erected several years ago, to provide two small classrooms in what had formerly been one large room on the first floor, was changed so as to provide one good classroom and a smaller room which is used by various small

high school classes, and both rooms were redecorated. New semi-indirect lighting fixtures were installed in these rooms, most of the cost of which was absorbed by a credit for the electric stoves in the Domestic Arts room, when the Public Service Company adopted a new policy of furnishing electric stoves each year for this department without expense to the School District. The total cost of the work described above was approximately \$1000.

To complete the renovating of the rooms on both floors, there remains the redecorating of two classrooms and two offices on the first floor, and one classroom and the ceiling of another on the second floor, which will cost approximately \$200. The old lath and plaster ceilings in the boiler room and in the boys' locker room are loose and breaking, and should be replaced with metal ceilings, which would cost approximately \$150. To equip the remaining classrooms with the new type of electric lighting fixtures, with such wiring changes as would be incidental, would cost at least \$150. The hot air ducts in the Auditorium, back of the stage, should be protected by some kind of enclosure, and four large storage cupboards should be built in at the same time. This would cost approximately \$250.

The budget estimate of \$1200 for minor repairs and expenses is expected to cover these items, together with such unforeseen items as always arise in the course of a year to the amount of from \$400 to \$500.

Besides these items of ordinary maintenance, a beginning should be made soon on a thorough renovation of the basements. The old slate urinal in the boys' basement is both unsightly and unsanitary and should be replaced with modern porcelain units. This replacement would cost approximately \$500. Parts of the cement floor, particularly in the old por-

tion of the girls' basement and in the boys' basement and locker room, are so cracked and rough as to make it next to impossible to keep them clean and sanitary. Replacement of this cement would cost approximately \$200.

The condition of the floor in the Auditorium appears to be unchanged from what it was a year ago last summer, when a portion of it was rebuilt and excavation made underneath to provide better air circulation. Sooner or later the other section of the front bay and the whole area of the second bay from the front will have to be replaced. At that time more excavation should be made, with provision for ventilation such as was provided under the other bays when the building was constructed. Probably this is not so urgent a matter as the renovation of the basements in the main building.

From time to time in the past several years the question of substituting oil burners for soft coal has been studied, and estimates are being obtained from various sources at this writing.

Respectfully submitted,

VERNON S. AMES,
Superintendent.

Wilton, N. H., February 14, 1940.

REPORT OF THE SCHOOL NURSE

To the School Board and Citizens of Wilton:

I submit my eleventh yearly report.

The physical examination by Dr. Rice, 117 girls, and Dr. Powers, 157 boys, was completed in October and November 1939.

The routine health examination was supplemented for the basketball varsity members; blood pressure and recovery-time after exercise was checked for this group. Many were without defects; those remarked were minor ones.

Grades I-XII: Twenty-four pupils were "Malnourished," but with two exceptions had grown and gained sufficiently the preceding year. Ten had "Excessive Ceromen" (too much, or impacted, ear wax often causes temporary hearing loss in otherwise normal ears.) Four were so called "Nervous Children"; two having extreme fear phobias and two with facial tics. The latter are under treatment by optometrist and physician; the "fear" children having adjusted themselves to first grade, apparently are happy there.

Seventeen boys and girls have new glasses or lenses. Eight were clinic cases. Four were financed by the Wilton Winter Carnival Fund and four by the Wilton Chapter of the Red Cross.

Two cases of Scabies, two of Impetigo, and three of Pediculosis, excluded since September, have now been corrected and children have returned to school.

Thirty-five children in grades one to eight had chickenpox, and one in high school; no new cases in several weeks.

Two children showed marked skin improvement, following long continued treatment by innoculation as ordered by their physician for "acne." Fifteen children having minor orthopedic defects,

including flat feet, hammer toe, congenital and acquired chest wall defects, slight spinal curvature, varicosity, repaired club feet, round shoulders, poor posture, and one more seriously crippled child, are under supervision of family physician or Crippled Children's Clinic, Manchester. Three suspicious cases were examined for tuberculosis by Dr. Kerr at the Nashua Clinic; one was x-rayed, two sputums were sent to the State Laboratory and skin test made for one; all were negative. Three children had teeth cleaned and required extractions and fillings, also tooth brushes and paste to keep up the good work; financed by the Home Service Group, American Legion Auxiliary and the "Carnival Fund."

Two trips were made to Concord and Nashua Behavior Clinics with a problem child. Report of clinics showed nothing additional to our own information.

Clinic tonsil corrections ten, at the County Hospital by Dr. Provost; and circumcision one.

Tonsil corrections will be resumed and clinic opportunities will be available in the spring and summer, as usual.

Seventy-one pupils had defective teeth when examined. I hope to have some of the most needy children's teeth cared for through a gracious allotment of \$50 by our Red Cross Chapter.

Wilton's annual Toxoid and Baby Clinic scheduled for November was postponed this year, as we were in the midst of an epidemic of chickenpox.

More than three hundred hours have been spent by the nurse in school work to date (February 9) in home visits for correction of defects, home visits to check unaccounted-for absences, routine school work, treatments at home and in school, business visits, visits with physicians, treatments as ordered

by physicians, clinics attended, and transportation.

Several towns nearby have a few cases of scarlet fever; we have no case yet; It behooves us to use great care. Be cautious!

Respectfully submitted,

EDNA J. GILBERT, R. N.

HEADMASTER'S REPORT

To the Superintendent, School Board and Citizens of Wilton:

I herewith submit my second report as Headmaster of Wilton High School. The high school opened last fall with 104 in the senior high and 54 in the junior high. Seven pupils have left the high school this year. Two of these pupils entered other schools and one was a post-graduate. Four have left the junior high school.

Attendance during the first half of the year has been about 95 per cent but there have been too many tardinesses in both the senior and junior high schools. The number of tardinesses can be decreased if teachers, pupils and parents will all give the problem their best thought and cooperation. Punctuality is a habit that should be taught early in life for the best enduring results. Absence from classes is often the chief cause for failure.

The teachers in the school are carrying heavy teaching loads and many are doing a great deal in the matter of extra-class work. Conducting a class with a large number of study pupils in the room produces a difficult situation for both pupils and teachers. This condition often brings about additional disciplinary cases. However, the number of disciplinary cases has decreased this year. We have endeavored to stress the importance of keeping the rooms neat, of showing proper respect for each other, and of respecting the property of others.

The improvements made in the building last summer and the new desks, lights, chairs and tables are greatly appreciated by the pupils and teachers. Ventilation could be improved, in some of the rooms, by installing deflectors at windows to prevent direct drafts when the windows are open. Steel lockers in

the dressing rooms would be a great asset to the health of the pupils and to the Physical Education Program. We have attempted to group the pupils, who are taking gymnasium work this year, into more unified age groups. This has resulted in fewer but larger groups and better work is being accomplished. Physical Fitness Tests have been given and these will be repeated next Spring.

Twenty-nine pupils have earned places on the honor roll this year and ten pupils have remained on the list since September.

Claire Stanton and Harold Smith of the class of 1939 entered the University of New Hampshire, Sarah Pollock entered Keene Teachers' College, Raymond Burke enrolled in Tilton School, Phyllis Tuttle and Dorothy Warren taking a course in the Nashua Business College. The other members of the class, with the exception of two, have found employment.

The various school activities are sound financially. Receipts are given for all money received and detailed memoranda of cash receipts and disbursements are posted for inspection and placed on record in the office.

Pupils will participate in many activities this year including Freshman Reception, Hallowe'en Ball, Carnival Ball, Operettas, two Senior Plays, Parties, Junior Promenade, Senior Dance, Class Picnics, Assemblies, Decorating Committees, Rifle Club, Social Club, Dramatic and Public Speaking Clubs, Automobile Club, Christmas Play, School Paper, Basketball, Baseball, Track, Safety Patrol, Musical Festival, Scholarship Day Activities, Tennis, Card Parties, Winter Sports, Glee Clubs, Orchestras, Hockey, Senior Class Trip to Washington, and several field trips in connection with Sociology, Science and History.

The various teachers give much of their time and effort to the above activities and their work is appreciated by the school. Teachers realize that their work is to train girls and boys as well as to teach them particular subjects. We are attempting to correlate subjects with real life activities and conditions in the world today and to help pupils do better the desirable things they will continue to do in later life. We must not, however, fail to teach them the American way of life.

I wish to extend appreciation for the kindness of pupils, teachers, superintendent, school board, Parent-Teacher Club and citizens who have co-operated in the many activities of the school.

Respectfully submitted,

ROLAND E. CURRIER,

Headmaster.

STATISTICS FOR SCHOOL YEAR ENDING JUNE 30, 1939
