Superintendent's Report

To the Dummer School Board and Citizens:

Herewith is submitted for your consideration the annual report on the condition and progress of your schools as seen by the Superintendent together with school statistics for year 1938-39.

For the last complete year, two schools, the West Dummer and Willis, were in operation for a year of 36 weeks.

The average attendance in these two schools was 94.7% for the West Dummer and 97.7% for the Willis; making an average of 96.2% for the two schools, a somewhat better attendance than for the previous year. A good school attendance is an important factor in the accomplishments and progress of pupils.

In June two pupils were graduated from the Eighth Grade at the West Dummer School. There was no graduation at Willis School as no pupils were registered in the Eighth Grade. This present year we have three pupils in the eighth grade at the Willis School and one pupil at West Dummer.

At the present time eight Dummer pupils are in attendance at High School—seven at Berlin and one at Gorham.

During the year, your Superintendent has made a total of 33 visits of inspection and supervision to the two schools. The work of different classes has been examined, standardized tests have been given and an effort made to keep the work of the various grades up to the standard of the State Program for the elementary schools. Progress and discipline on the whole have been satisfactory.

This present school year (1939-40) opened with the same experienced teachers as last year (Miss Ruth Wells at the Willis and Mrs. Lena Rich at West Dummer.)

The required health inspection work is being carried on by Mrs. Nina McCarthy of West Milan.

At the Willis School, hot lunches have been prepared for the noon hour pupils. This is a much worthwhile project and should result in better health for the pupils and consequently an improved quality of school work.
