WARRANT FOR ANNUAL TOWN MEETING
THE STATE OF NEW HAMPSHIRE

[L. S.]

To the inhabitants of the Town of Tilton in the County of Belknap, qualified to vote in town affairs:

You are hereby notified to meet at the Town Hall in said Town on Tuesday, the 8th day of March next to act on the following subjects:

1. To choose a Town Clerk and Town Treasurer for a term of one year, one Selectman for a term of three years, one Road Agent for the ensuing year, one Trustee of Trust Funds for a term of three years, two Auditors for the year ensuing, and one member of the Park Commission for the term of two years.
2. To see how much money the Town will vote to raise for Memorial Day expense.
3. To see how much money the Town will vote to raise and appropriate for the care of Cemeteries.
4. To see how much money the Town will vote to raise for the use of Hospitals for the ensuing year.
5. To see if the Town will vote to raise and appropriate the sum of \$400.00 for White Pine Blister Rust Control to be spent in cooperation with the State Forestry Department.
6. To see if the Town will vote to raise and appropriate the sum of \$175.73 to obtain Town Road Aid from the State, the State to contribute the sum of \$702.90.

7. To see if the Town will vote to petition the State Tax Commission to have an audit made by the division of Municipal Accounting and make an appropriation to cover the expense of such audit.

8. To see if the Town will vote to raise and appropriate the sum of \$286.00 which is $\frac{1}{100}$ of 1% of the assessed valuation of the town to the Lakes Region Association for the purpose of publicizing and promoting the natural advantages and resources of the town, in cooperation with other towns in the Lakes region.

9. To see if the Town will vote to accept as a Town street the Park Road (so called) running from Main St. opposite the cemetery, to Winter St.

10. To see what action the Town will take in regard to providing a suitable Memorial for the service men of World War two and raise money to pay for same.

11. To see if the Town will vote to raise and appropriate the sum of \$500.00 to the Winnisquam Fire Department for the purpose of maintenance and operation of the department. (By petition).

12. To see if the Town will vote to authorize the Tilton and Northfield Fire Precinct to extend the Fire Alarm System and include the Johns-Manville Plant and East Tilton and raise money to pay for cost of material and installation. Estimated cost \$1674.00.

13. To see what action the Town will take on the street lighting plan for the Lochmere and Winnisquam area and raise money to pay for same if accepted. The plan to be presented at Town Meeting. (By petition).

14. To see if the Town will vote to observe, during the month of August, 1949, the 50th Anniversary of Old Home Week, and raise and appropriate a sum of money therefor. (By request of Governor Sherman Adams).

15. To see if the Town will vote to allow a discount on early paid taxes.

16. To see if the Town will vote to allow the Selectmen as agents of the Town to administer or dispose of any property acquired by tax deed.

17. To see how much money the Town will vote to raise for all purposes for the year ensuing.

18. To see what action the Town will take in regard to the reports of its officers and agents.

19. To choose any other officers or agents for the year ensuing.

20. To see if the Town will authorize the Selectmen to borrow money in anticipation of taxes.

21. To transact any other business that may legally come before said meeting.

Given under our hands and seal this 19th day of February, A. D. 1949.

JOSEPH L. LEDOUX,
MYRON L. MESERVE,
CHARLES A. FRENCH,
Selectmen of Tilton.

CHARLES A. FRENCH,

Selectmen of Tilton.

HIGHWAY AGENT'S REPORT

Payrolls :

Bailey, George	\$1,483.80
Barnes, Harold	5.60
Daniels, George	2,332.30
Daniels, Thomas	15.00
Griffin, Robert	6.40
Huckins, Perley	1,003.40
Langlais, Roland	24.30
Leclair, Chester	19.35
Moulton, Ralph	114.40
Nadeau, Roland	4.00
Riley, Robert	619.20
Rogers, George	8.80
Sheehan, John	164.75
Valliere, Archie	1,065.00
Whitehouse, George	2,067.30
	<hr/>
	\$8,933.60

Respectfully submitted,

GEORGE C. DANIELS,

Road Agent.

Having examined the accounts of the Selectmen, Treasurer, Tax Collector, Town Clerk, Road Agent, and Trustees of Trust Funds for the year ending December 31, 1948, we find them correctly cast and properly vouched.

HELEN Y. ANDREWS,

HENRY A. ROBERT,

Auditors.

Auditors.

Jan. 22, 1949

ANNUAL REPORT OF THE DISTRICT NURSE

Fiscal Year Jan. 1, 1948 to Dec. 31, 1948

Home and office calls were as follows:

Office visits	464	
Medical	1942	
Surgical	144	
Prenatal	23	
Postnatal	108	
New Baby	110	
Pre-school and Infant School	54	
Orthopedic	9	
Home consultation	86	
Welfare	82	
Eye, Ear, Nose and Throat	27	
Baby and Pre-school office Conferences	223	
Total calls		3,352

Through the efforts of Dr. Kathleen Robinson and the cooperation of the State Board of Health the District Nursing Association has been able to provide regularly, triple Toxoid Clinics and Baby Health conferences once a month for seven months of the year. The mothers have responded well and at the end of the year we are able to report that 165 children received Toxoid, 58 completed the series, 51 were vaccinated, 37 received health examinations. Several conditions were noted and given medical attention that might otherwise have escaped detection.

I wish at this time to thank Dr. Kathleen Robinson for giving so much of her time and interest. I also wish

to thank the ladies for their assistance and the American Legion for the use of the hall where some of the clinics were held.

Transportation was furnished for 20 patients to clinics, hospitals and specialists.

Mrs. Mary Jones, R. N., substituted for the regular nurse for her month's vacation.

The Rotary Club supplied Christmas gifts that were delivered by the District Nurse to children of 9 families which meant 22 children received gifts from them.

The Ladies' Auxiliary of the American Legion supplied toys to 10 children.

Christmas was made merry for 18 families and 5 individuals by the contributions of the Elks with their Christmas dinners.

The Odd Fellows gave a complete Christmas dinner to a family of 5 and supplied toys to 4 children.

The Salvation Army furnished 4 complete dinners for 4 families.

\$6.00 was contributed by the boys of the Golden Rule Farm and given to the District Nurse that was used for Christmas gifts for 10 children.

In behalf of the Nursing Association, I thank the Tilton and Northfield Firemen for the use of the garage for the last 2 winters.

It has been a happy year working for the Tilton and Northfield people. I appreciate and thank the Nursing board members, the Doctors, the Episcopal Guild for the dressings made and the residents for their friendliness and their cooperation in assisting me in many ways in my work.

Respectfully submitted,

ALICE M. FRENCH, R. N.

TILTON AND NORTHFIELD FIRE DISTRICT
WARRANT

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of Tilton Fire District, qualified to vote in District Affairs:

You are hereby notified to meet in Tilton Town Hall, Friday, March 11, 1949, at 7:30 o'clock in the afternoon, to act upon the following subjects:

1. To choose a moderator for the ensuing year.
2. To choose a clerk for the ensuing year.
3. To choose a treasurer for the ensuing year.
4. To choose three firewards for the ensuing year.
5. To choose an auditor for the ensuing year.
6. To hear reports of the treasurer and firewards and pass any vote relating thereto.
7. To see what action the District will vote to take in regard to renewing the lighting contract and raise money for same in sum of \$6,000.
8. To see what action the District will vote to take in regard to renewing the water contract for hydrants and raise money for same in sum of \$3,300.
9. To see what action the District will vote to take regarding payment of administration, firemen, new equipment, complete covering north and east sides of Fire Station with Birds' insulation siding, and other incidental expenses in the sum of \$7,370.
10. To see if the District will vote to pay the Iona

Savings Bank the sum of \$2,000 and interest of \$60.00 for Precinct note due as of July 19, 1949.

11. To transact any other business that may legally come before the meeting.

ARTHUR A. COVIEO,
ROY A. JORDAN,
H. HOWARD ALIEFF,

Firewards.

To the Inhabitants of Tilton and Northfield:

It is a pleasure at this time to present to you citizens of the Precinct a brief summary of what has transpired during the past year.

With what funds we had available we have endeavored to act judiciously in the expenditure of same.

The detailed statement of expenses during the year give you a clear conception as to how your funds were used and to whom paid.

The estimated expenses for the coming year are slightly under the amount required for the year 1948. It is our aim to curtail in every way possible, but there are certain articles of equipment that have to be replaced yearly providing you wish to maintain an efficient fire department for the safety of your homes and all public buildings, also for the protection of the men within the fire department who have demonstrated their competence on all occasions. Our hats are off to the members of Engine No. 1 and Engine No. 2 for the wonderful job they have done this past year.

The Public Service Company has done a very fine job on our street lighting system. The lights on Main street

have been raised and larger bulbs installed. This change has greatly improved same. Many changes have been made throughout the Precinct on various streets after careful study and inspection. The results of same have proven very satisfactory. There are still a few changes to be made and the Public Service Company has informed us that same will be completed with all due dispatch.

The two idle hydrants in question have been taken up and replaced by the Aqueduct Company—one on Vine street extension and one on Prospect street. The changes should prove most beneficial in the future when needed instead of being idle as heretofore.

During the past year under the able supervision of Miss Barbara Bird, all members of the Fire Department took a refresher course in Red Cross First Aid. This is just another step towards building up the efficiency of the Department. Miss Bird is to be complimented for the hearty cooperation in this work with the Department members.

We are pleased to announce at this time that during the past year the Red Cross has presented the Department with a fine Aluminum Boat to be used in conjunction with our Rescue Car. This is certainly greatly appreciated as it adds a very important piece of equipment in connection with the Rescue Car. We still have a few necessary articles to purchase for this Car in order to have a complete unit. The young men assigned to operate this car have all passed physical requirements necessary to carry on the duties in connection with same, such as entering burning buildings to take out anyone unable to care for themselves, people in drowning accidents, First Aid, and many other duties.

In addition to the Boat the Red Cross has also presented the Department with six First Aid Kits and a stretcher to be used in the Rescue Car.

All of the above mentioned equipment has been made available through the untiring efforts of Miss Barbara Bird.

The Firewards wish at this time in behalf of the Citizens of Tilton and Northfield to express their sincere thanks and appreciation to Miss Bird for her cooperation and efforts in procuring for us this very valuable life saving equipment.

The weekly drills during the summer months were very well attended by all the members of both Companies. The experience gained at these drills along with the instructions rendered by Chief Jordan and Assistant Chief Robert have proved most beneficial to all.

Our greatest conflagration during the past year was the fire at Emery Thibodeau's Stucco Block on Main street. This fire started in the plant of the Tilton Cleaners and soon spread over the entire building. The other occupants of the building were the Boston Dress Shop and F. S. Shepherd Furniture Store. The greatest loss was in the Tilton Cleaners plant, whereas the other occupants suffered mostly from smoke and water. Owing to a steel ceiling the firemen were greatly hampered but from past experience with a similar fire, it was confined to the building and shortly brought under control. The loss was estimated at \$30,000 by Chief Jordan. Mr. Thibodeau has completely renovated the building and has one of the most modern store buildings on Main street.

The firemen have renovated and equipped a very fine

kitchen over the Station. They have built-in cupboards, installed a gas range and purchased some dishes. They did the work themselves and paid for same out of their Building Fund. Anyone having any silver to donate the boys will be graciously accepted. They now will begin renovating the hall and when completed will give them very fine quarters for their social activities.

We regret to state that during the past year there were eleven (11) more Box Alarms and five (5) more House Calls than the previous year. We attribute this to two conditions. First—Many people are burning softwood not fully dried and this will cause soot to form in your chimney very rapidly, so please have your chimneys looked after at least twice during the year, thereby protecting your home and save expense for the Precinct. Second—Many people become spasmodic when they see a chimney burning out and call the Fire Station. They get no response for the reason that there is not a permanent man on duty, so they rush out and pull in a Box Alarm. This is very expensive for the Precinct. Please note: When you get no reply from Fire Station, please call Chief Jordan's house or Assistant Chief Robert at his Service Station. This will save time and money, also assist in getting the proper equipment to the scene with all due dispatch.

We have received notice from the Motorolo Incorporated that around March 1st we will receive our F. M. Radio. In recent tests made from the Gulf near Sanbornton Square, Gulf beyond Soldiers' Home and the Franklin Fire Station, it has proven to be 100% perfect both in sending and receiving from the Fire Station.

We are working in conjunction with the Selectmen rela-

tive to installing a Fire Alarm Box at the Johns-Manville Plant and one at Cozy Corner. This will greatly increase the efficiency of the Department and benefit the citizens in said locality.

Another project that we are working on with the Selectmen of Tilton and Northfield is the purchase of a Tank Car of 750 gallons capacity mounted on a 1½ ton chassis with pump and hose attached. This Tank Car would be used outside the Precinct for the protection of farm property without proper water supply. Many towns have this additional equipment and same has proven very effective in saving many farm buildings.

In closing may we express our appreciation to all the Firemen for the wonderful work they are doing; and to you citizens of Tilton and Northfield, may we say Thank You for the fine support you have given us both financially and otherwise.

Respectfully yours,
 ARTHUR A. COVIEO,
 ROY A. JORDAN,
 H. HOWARD ALIEFF,

Firewards.

SCHOOL WARRANT

THE STATE OF NEW HAMPSHIRE

Belknap ss:

To the Inhabitants of the Tilton and Northfield Union School District, qualified to vote in District affairs:

You are hereby notified to meet at the Tilton-Northfield High School in said District on Wednesday, March 9, 1949, at 8:00 p. m. to act upon the following subjects:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Treasurer for the ensuing year.
4. To choose a member of the School Board to serve for three years to fill the vacancy arising from the expiration of the term of appointment of Dorothy B. Buswell.
5. To hear the reports of agents, auditors, committees, or officers heretofore chosen and pass any vote relating thereto.
6. To choose agents, auditors, and committees in relation to any subject embraced in this warrant.
7. To determine and appoint the salaries of the School Board and other district officers.
8. To see if the district will vote to make any alterations in the amount of money required to be assessed for the coming year for the support of public schools and the payment of the statutory obligations of the district, as determined by the School Board in its annual report.

9. To see what action the district wishes to take to increase needed school facilities and raise and appropriate necessary money for this purpose.

10. To see if the district will vote to raise and appropriate the sum of twelve hundred sixty-four and seventy hundredths dollars (\$1,264.70) for the construction of a playing field at the rear of the Tilton-Northfield High School, or to take any other action relating thereto.

11. To see if the district will authorize the School Board to acquire the part of the former Charles E. Tilton Estate Park adjacent to the high school grounds, and to raise and appropriate the money for this acquisition.

12. To see if the district will authorize the School Board and School Treasurer to issue notes in the name of the district, amounting to eleven thousand dollars (\$11,000.00), repayable two thousand twenty dollars (\$2,020) annually starting in March 1950, with interest, to cover an estimated operational deficit for the 1948-49 school year, or to take any other action relating thereto.

13. To see what sum of money the district will vote to raise and appropriate for the operation of summer playground and recreational activities in 1949.

14. To see if the district will recommend that the School Board permit the use of school property for public Sunday athletic contests, and to raise and appropriate funds for additional expenses of fuel, electricity, and janitor service incurred by the district in such public use.

15. To transact any other business that may legally come before this meeting.

Given under our hands at said Tilton this 26th day of
January 1949.

JOHN W. CRAWFORD,
DOROTHY B. BUSWELL,
HELEN T. RANDALL,

School Board

NED C. ROGERS

Treasurer of School District

AUDITOR'S REPORT

This is to certify that we have examined the books and other financial records of the school board and treasurer of the Tilton-Northfield Union School District of which this is a true summary for the fiscal year ending June 30, 1948, and find them correctly cast and properly vouched.

FRED G. WILMAN,
Auditor.

REPORT OF THE SUPERINTENDENT OF
SCHOOLS

To the Members of the School Board, Parents and Voters:

Public Education Serves the Common Good

It is the constant practice of the administration in the Tilton-Northfield School Department:

1. To strive to serve the youth better,
2. To see their educational needs before there are pressing parental and public demands for their satisfaction.
3. To tell the public about the educational needs of boys and girls, and
4. To promote here the best educational system that the people will support.

If we wavered from this course through fear or favor, we would not be true to our professional responsibilities, nor true to ourselves.

Tilton-Northfield's Investment in Youth

Which Part For Boys and Girls?

**Tax
Dollar**

FOR THE SUPPORT OF SCHOOLS

There is competition among governmental departments for every portion of the tax dollar. The two-party political system demands some tribute; local government must be maintained; community services of fire and police protection, highways, street lighting, and sanitation are desired.

SO,

The library and the schools, two of the cultural influences in the community, must compete for a share of tax moneys.

WHAT PART SHALL GO TO BOYS AND GIRLS
AND THE PRESERVATION OF OUR WAY OF
LIFE???

IT IS GOOD BUSINESS JUDGMENT TO HAVE
GOOD SCHOOLS IN A COMMUNITY!

During World War II, we often thought conditions were difficult but that they would be relieved at the cessation of hostilities. We did not foresee that we would continue to live in an atmosphere of national anxiety, armed, conducting a "cold war", and that conditions would become more perplexing each year as tensions distress the peoples of the world. As the "atomic age" is being ushered in, we desire its princely benefits, not its pauperizing effects. In the midst of national buffeting in world currents, the schools stand as shrines of cultural enrichment and as temples for further enlightenment.

As places for learning and as workshops for practice in group living, the schools should advance with the times; they should not stay static, much less retrogress. The higher birth rates are being reflected in the enrollment of youngsters. In increasing numbers, children will enter the schoolhouse doors.

In four or five years, school rooms may be needed for 50% more primary pupils than are now enrolled. Where 2 first-year pupils attend now, we may soon have 3. This prospect gives sufficient warning to districts, school boards and voters to provide more school rooms soon.

We have yet to heed the signs of building needs in the near future.

What Facilities Do We Need?

Psychologists have been studying the reactions of children for years. Their preliminary findings have been published in numerous writings and new phases are being reported frequently. Schools in some sections of the country are organized to recognize the physical and emotional make-up of children. The younger the school child the more space he needs—space for play, space for rest, and space for school activities. The span of attention of little children is short, so a dozen to twenty are assigned to one teacher. Small youngsters need to be shown patience, love, encouragement, understanding, assistance, and guidance, so teachers with temperaments peculiarly suited to this work should be trained and employed. The influence on pupils of right teachers is great, carrying its effect throughout one's lifetime.

We have yet to make use of our full knowledge of child psychology in our provisions for teaching small children.

What Are the Elements of a Modern Elementary Program?

There is a dearth of trained, experienced, and skillful persons for successfully teaching children in their early years of school. The proper type of teacher is in great demand. Our children need the best teachers, so we must compete in the

salary market to hire and retain them.

We have yet to provide sufficient teachers with the "know-how" to deal with little tots.

*How Can We Procure Teachers to Conduct a Modern
Primary School Program?*

Our older boys and girls, those in high school, are to earn their living in an "atomic age." If they are to be partners with their neighbors in government, preserving freedom of choice and initiative, they must be schooled in the ways of democracy and practice them daily in group living. For adolescents—teen-agers—the years ahead appear to be filled with great responsibilities and grave dangers. The high school program can be adjusted to help maturing young men and women govern themselves without dictators, to earn their living without doles, to rear their families without subsidies, and to share the blessings of liberty and worship in harmony with their neighbors around the world.

We have yet to fully reorganize our offerings in secondary schools so youths approaching maturity may cope with Life's responsibilities.

*What Are The Essentials in a Modern High School
Program?*

In the succeeding pages of this report, you will find recorded some information about the buildings and equipment, the care and use of school property, the pupils enrolled and the teachers employed, and financial support and obligations. Any successes indicated are the outcomes of our mutual interest and joint efforts. Any discouragements mentioned are the obstacles which temporarily impede our advance, but

hindrances must be removed so boys and girls can be the immediate beneficiaries.

BUILDINGS AND EQUIPMENT

Our Growing Need in School Buildings

S P A C E

SPACE—Classrooms for “book” learning, and workrooms for “group” living.

SPACE—Laboratories for practical training, handwork, domestic and manual skills.

SPACE—Play areas for development of strong bodies and alert minds.

SPACE—Rooms for food preparations, improvement in diets and provision for the undernourished.

SPACE—Quarters for good physical examinations and corrective exercises.

SPACE—Libraries, creative activities in art, instrumental music, music appreciation, juvenile theatricals, leisure-time programs.

The Union School

The Union School was built on honor in 1900-01 and first occupied by pupils in the Winter Term of 1901. The Building Committee report dated March 7, 1901 indicates the

structure cost \$23,202.00—about 10% of present day estimates!

There were eight classrooms made to accommodate in all approximately 240 pupils, and an assembly room with stage on the third floor for dramatics, music, and speaking. The doors of the eight classrooms opened into two main corridors on the first and second floors. There were two means of egress: (1) A double set of stairs from cellar to attic in one staircase which, in case of fire, would be converted into an open smoke and heat chimney; and (2) an iron fire escape attached to the rear wall of the building, with sash windows waist high for exits. Hot air ducts, surrounded by unblocked, wooden partitions from ground to roof, were built from the heating plant into each classroom. These were carriers of heated air as well as channels for smoke and fumes in a catastrophe. The interior finish on stairways and corridors was hard pine, and varnished so that it became a producer of acrid, deadly fumes when ignited. In each corridor, as added hazards, were immovable, grilled coat racks which extended into more than one-third of the space.

By 1948, the only major change in the structure in nearly fifty years was the installation of steam radiators in rooms. The hot air ducts remained, accumulators inside of layers of inflammable dust which constituted a real fire hazard.

As school enrollments increased and 360 pupils were placed in a structure designed for two-thirds of that number, discussions were held on means to give greater fire protection and better sanitation and lighting to the youngsters and teachers. These discussions resulted in the District's appropriating a maximum of \$20,000 for proposed building changes.

By Christmas vacation 1948, \$15,400 had been expended to:

1. Fireproof the boiler room,
2. Install an automatic sprinkler system,
3. Buy fire release locks for casement doors,
4. Paint the corridor basement with fire-resisting paint,
5. Erect fire curtains on the second floor.
6. Remove corridor coat racks,
7. Weld insecure sections of the fire escape,
8. Install new toilets.
9. Replace lighting fixtures with fluorescent units.
10. Attach fire gongs,
11. Remove dust-laden air ducts,
12. Block off openings in the partitions at each floor level,
13. Place wired glass in basement windows.

It is expected that all changes can be completed by the Spring vacation in April 1949. There remains to be done the following parts:

1. Install casement doors from classrooms to fire escape,
2. Weatherproof casement doors and loose windows,
3. Attach iron steps on fire escapes at classroom exits,
4. Cover varnished interior finish with fire-resisting paint,
5. Fireproof the coal pocket,
6. Replace old wiring in coal pocket,
7. Hang additional fire extinguishers recommended for each floor,
8. Put EXIT signs over classroom and corridor doors.

The 1948-9 Financial Report will show the names of firms supplying materials, the names of contractors or workmen

who made the alterations, and detailed charges.

Scout House

In last year's annual report was a section entitled: Expansion of Facilities, sentences in which were:

"The enrollment of pupils in the Union School has begun to tax the capacity of the building."

"One-half of the assembly room has been converted to temporary classroom space and the other rooms filled to capacity or above."

"Increases in the school population seem to indicate the School Board is using good judgment in considering the housing of pupils before the situation becomes acute. Temporary alternate plans are

- (1) to use the garage (Scout House) now on the playground for one classroom,
- (2) to construct temporary classrooms of wood in the rear of the building,
- (3) to utilize the south half of the assembly room on the top floor,
- (4) to purchase some War-time servicemen's quarters and move them to the Union School grounds, and
- (5) to erect a permanent addition to the brick school which has served Tilton and Northfield youngsters so well for many years."

Warned of the impending influx of youngsters by school census reports, the Scout House was readied for use if finally needed. The following changes were made.

- (1) The interior was cleaned, discarded material accumulated over the years was removed,
- (2) The walls were painted in light tints,

- (3) Window shades were put up,
- (4) Lights were installed,
- (5) Old fashioned, unadjustable seats and desks in storage were placed on skids to make them into movable units, but no teacher's desk was bought,
- (6) Movable blackboards were constructed,
- (7) A single lavatory was provided,
- (8) Shelves for books and lunch boxes were built,
- (9) An oil-burning stove was purchased,
- (10) A second exit was constructed on the south side.

Early in October the Scout House was put in use as a schoolroom for 30 pupils. Two half-time teachers were employed, one for the forenoon and the other for the afternoon.

Northfield Town Hall Prospective Classroom

The school officials are investigating available space for housing 60 young pupils in September 1949, and a request has already been made of the Selectmen of Northfield for the use of the Northfield Town Hall in an emergency. Some changes in the sanitary facilities, lighting, and heating of the Hall would be necessary, but for temporary use in 1949-50 these quarters might be utilized.

After 1949-1950, What?

Concerted action on the matter of space for the education of young boys and girls in Tilton and Northfield should be taken right away. It is not too soon this March to take positive steps towards constructing new quarters.

It is easy to predict now some of the needs of the School Department for the training of Tilton and Northfield boys and girls. There should be no delay in agreeing upon a long-range plan.

The needs:

- (1) School quarters for more elementary pupils.
- (2) National defense requirements of physical fitness in young men and women, as well as for their own welfare, impose a health and physical education program and certain facilities for its fulfillment,
- (3) Enlargement of quarters at Tilton-Northfield High School for practical arts, health and physical education, music, art, science laboratories, small work rooms, library, and storage space.

One of the most important aspects of school life is the development of sound bodies and good health in students. Accepting this as one of the major goals of schooling, a well-trained, mentally-poised man was secured to direct the physical education work for boys and girls of the high school on a part-time basis, in close cooperation with the school nurse and school doctors. The physical education program under present management is accepted in great zest by the students. Boys particularly come to the gymnasium and playground for healthy recreation every school day, and even during vacations they are present in groups for exercise and play.

EXPANSION OF SCHOOL PLANT

The Charles E. Tilton Estate Park

The future development of physical and recreational programs on a year-round basis for boys and girls in Tilton and Northfield may require the purchase of more land near the high school building for courts, swimming, skating, and playing fields. It seems wise to suggest the immediate purchase of the wooded area adjacent to the present school property, the Charles E. Tilton Estate Park, and to plan for the future.

There may be 50% more pupils enrolled in the primary years soon. When that prospective influx of youngsters reaches the junior and senior high school plant, more space for all school activities may be needed. Physical education is considered a necessity, both for the personal welfare of young people and also for national security. We must be a strong race of people these years. Hardly before we realize the situation, we may be faced with the problems of building expansion and building costs. It is none too early to purchase the land to meet foreseeable changes at the high school.

Physical Education

The physical education program must have, among other things, (1) space, (2) some equipment, (3) attention to bodily condition, (4) shower rooms, (5) lockers and storage space, and (6) good leadership. During the months of September and October, outdoor activities of archery, jumping, running, and contests were conducted at the rear of the high school on an improvised field. When cold weather set in, a schedule was made so the gymnasium was in use at all hours during the school day for conditioning exercises, folk dancing, running, skipping, basketball, and mat work.

Equipment in very limited quantities was obtained on loan, gift, or purchase for the promotion of physical education work. Wire baskets were secured to care for gym clothes. Wooden racks, constructed by the boys in the shop and by the coach, were placed in the two shower rooms. Wooden lockers obtained from War Surplus were put into a basement corridor.

It was evident late this fall that something must be done to provide play space outdoors for high school students, so exploratory work on the cost of grading part of the land at the rear of T-N HS was undertaken, first with the thought that

some of the task could be done by the students. For such heavy, rough work, this was finally considered impractical, so student effort may be utilized in moving loam and grading the top surface when the project can be completed. In the late spring, T-N HS students may organize a Field Day in which they may do a lot of manual work in finishing the project. Parents may be invited to give some of their time and the use of such equipment as wheelbarrows, shovels, rakes, dump and pickup trucks. A big dinner may be served by Home Economics students at noon to all who labor in the Field Day.

To satisfy the impending need, Mr. Roy B. Lavigne and Mr. Burt W. Smith, two public-spirited citizens, have been most generous with their time and resources. They secured the assistance of engineers from the Highway Department on their own time to survey the land and provide plans. Then, an estimate of the cost of constructing a ball field by contract was set. Finally it was felt that by local help, generously given, the job could be done by day labor at less than half a contract figure. Tilton Construction Company machinery was used to ascertain the approximate cost of building a field and Messrs. Lavigne and Smith have underwritten the venture to this extent:

Surveying and plans	\$ 87.50
Bulldozer exploring subsoil	105.00
Shovel, trucks, grader for rough work	1,073.20

In addition, Mr. Lavigne and Mr. Smith have given much of their own time, have charged only for part of the total time the power machinery was used, and have matched in hours the trucks loaned by interested citizens.

In every community, there are residents who will help to provide every facility and every service that will benefit boys and girls; there are others who will do nothing to assist young people or to improve their lot. Fortunately in Tilton

and Northfield there are many who feel that the best investments are those in boys and girls. Young people are our greatest asset. They are the future Tilton and Northfield. The better they like the twin towns, the greater the interest that many adults take in their welfare, and the more jobs that can be developed for them here, the more likely they are to stay after graduation from high school or return here following graduation from college. One of the ways we can attract and retain them is through recreation.

By the efforts of parents, students, teachers, voters, and interested citizens, Tilton-Northfield High School may have a very fine playing field close to the school building at a minimum cost, much less than would be charged under contract. There will be interest too in other essentials to the physical education and health program, such as: 1. Showers and locker space, 2. Asphalt-surfaced courts, 3. Swimming pool, 4. Bleachers or stands.

By united endeavors, the boys and girls stand to benefit from the recreational and physical education program. To this end, an Article in the School Warrant to raise and appropriate the sum of \$1,264.70 will pay for the rough grading which has been done. By community effort, all giving a little time, effort, or use of equipment, the job may be finished before the summer vacation without much more district expense.

Summer Playground

For the children of Tilton and Northfield in summers past, the Chamber of Commerce has sponsored playground activities at the Union School, hired directors, and subscribed funds for its operation. The School District has provided the equipment and facilities there, and a school bus to carry youngsters to Webster Lake for their swimming lessons.

In March 1948, the Union School District voted to support

the summer playground and recreational activities financially. The School Department then assumed responsibility for the summer program.

Good directors are essential to the success of a recreational venture. The District was fortunate to have the services of Mr. and Mrs. Richard P. Smart who were very conscientious leaders. They directed the groups for seven weeks, July 6 to August 20, and were paid \$30 per week each for their work. The average daily attendance was about 85 youngsters.

The activities included softball, volley ball, basketball, track, horseshoes, putting, badminton, swimming, story hours, handcraft, dramatics, swinging, jungle jim, hobby show, costume parade, pet show, marble tournament, doll carriage parade, and a play. Swimming instruction was made possible through cooperation with the Franklin Chapter of the American Red Cross in the Junior Life Saving Course. Leadership development was recognized when several teenage girls were given responsibility as subdirectors, leaders of groups of small children. Certificates of service as Playground Assistants were awarded these girls at the end of the season.

Lunch Room

The girls in Home Economics need all the available space in the kitchen for their classes, so a small room adjacent to the kitchen in the high school was built and equipped for the use of a cook in the preparation of noon meals. Though crowded, accommodations for necessary service can be provided in this way.

Insurance and Protection

A new rate has been established for insurance coverage at the Union School due to the added protection of the automatic sprinkler system, and the total amount increased to

\$100,000. The present policies are :

Abington Mut. Fire Ins. C

Public Liability Insurance

The school board has protected its members, the teachers, and the students at Tilton-Northfield High School through the purchase of public liability insurance covering injuries caused to pupils attending school and school activities. This does not cover immediate medical and surgical relief to pupils while engaged in athletic activities run by the school and it does not cover bodily injury claims due to the rendering of any professional services or their omission. For the shop and athletic teachers there is a higher rate than for other teachers but the cost depends on the number of pupils and

adults covered, and the risk involved. The coverage is:

American Fid. G. H. S. Staff and Students

No. 15340 Oct. 13, 1951 \$10,000-\$50,000 \$151.41

Increased Water Rates at Union School

The automatic sprinkler system increases the charges for monthly water rates at the Union School by \$11.23, or \$134.76 per year. This nullifies some of the savings in lowered insurance premiums anticipated by the installation of sprinklers, but the charge is similar to that made industrial plants locally.

Boiler at the High School

On December 2, 1948, the high school was closed for the day for repairs to the boiler. Four sections were cracked. The cause of this was an accumulation of iron rust as a sludge paste in the lower part of each of the thirty-two half-sections, a mass so sticky and firmly lodged that it had to be punched and slushed from sections, nipples, manifolds, and connections.

Repairs to the boiler will be necessary during the coming summer. Bids have been called for and the School Board has awarded a contract to the Northern Heating and Plumbing Company of Laconia.

Use of School Facilities

The Union School could serve community purposes better if the assembly room were located on the ground floor. The P. T. A. has held meetings there, but the comparative inaccessibility of the third floor room frequently deters groups from scheduling get-togethers in the assembly hall.

This situation does not exist to the same degree at the high school, but the distance of the building from the center of town sometimes stops folks from going there. However, the gymnasium is popular with sports groups. During the winter months, the quarters are often in use six nights a

week. Besides school basketball and dramatics, young married couples play badminton practically every Wednesday night, a basketball squad from the Johns-Manville Corporation uses the court on Mondays after 7:30 p. m., and other groups schedule dates.

Union School Janitor Service

An increase in work over that which a full-time janitor could give necessitated the employment of another man for a few hours each week.

PUPILS

Driver Education Course

There has been a great deal of publicity in newspapers and magazines about teaching high school students to operate automobiles properly. Some schools have offered Driver Education courses for a couple of decades but, more recently, the practice has become quite common in New England high schools. The AAA has promoted Driver Training classes through its plan to furnish an equipped automobile for the road instruction, and to train teachers for the purpose.

Students at the Tilton-Northfield High School have had the benefit of Driver Education and Training during all of 1948. A district-owned station wagon was equipped with dual controls and used for the road training of 35 students.

Closing Exercises

The Baccalaureate Service was held in the high school auditorium on Sunday, June 13, 1948, at 7:30 p. m. The Address was given by the Reverend John Watson of East Milton, Massachusetts, formerly of Laconia.

The Class Day Exercises took place on June 16, 1948 at two o'clock in the afternoon. The following program was offered.

Class History

Lawrence Clifford

Class Will	Ruth Cotton
Class Prophecy	June Anderson, Leo Vangjel
“Alma Mater”	Chorus
Class Gifts	Joan Rollins, Richard Thomas
Address to Undergraduates	Alfred Pucci, President, Class of 1948
Presentation of Athletic Awards	Chris W. Sakelarios
Presentation of Awards	Russell S. Hanson, Headmaster
Arthur W. Abbott Junior High Shop Award	Paul Belair

Marlene Hanchett

The exercises closed with the Class Song, words by Marlene Hanchett and Dolores Virgin.

Graduation

The Graduation Program was held on Friday evening, June 18, 1948, at 8:15 p. m. Alfred H. Pucci presented the Class Gift to Headmaster Hanson. Hon. Sherman Adams of Lincoln, now New Hampshire's Chief Executive, delivered the Address to the Graduating Class, and Judge John W. Crawford, Chairman of the School Board, presented diplomas to the following graduates:

June Bernice Anderson
 Ruth Anne Burleigh
 Audrey Beryl Clark
 Lawrence Warner Clifford
 Omer Joseph Cote, Jr.
 Ruth Elaine Cotton
 Richard Taylor Currier
 Norma June Darker
 Charles E. Dean, Jr.
 Pamela Ann Fife
 Hazel June Fogg

 Dolores Rita Virgin
 Sara Elizabeth Wadleigh
 Lillian Ann Wheaton

Length of School Year

The State Board of Education has defined a school year as "not less than 180 teaching days distributed over not less than 36 weeks, during which the pupils and teachers are brought together for instructional purposes. Holidays and other days during which the teachers are absent from instructional activities for attendance at educational meetings, etc., shall not be counted in the 180 days; provided that not to exceed 5 of the 180 days may be used for the purposes of an organized, full-time program of in-service training for teachers when approved by the State Board of Education, and that not to exceed 3 additional days may be used for attendance of teachers at County Institutes and the Annual Convention of the New Hampshire Teachers Association."

SCHOOL CALENDAR FOR 1948-49

This School Calendar provides for 180 school days to compensate for a loss of one day for bad weather.

First Term begins Thursday, September 9, 1948

No School—October 12, 21, 22

November 25, 26

Close for Christmas vacation at usual time, December 23, 1948.

Second Term begins Monday, January 3, 1949

Winter Vacation—Close school at usual time on Friday, February 18, 1949

Third Term begins Monday, February 28, 1949

Spring vacation—Close school at usual time on Friday, April 22, 1949

Fourth Term begins Monday, May 2, 1949

No School—May 30, 1949

Summer Vacation—Close school on Friday, June 17, 1949

"No School" Signal By Radio

"No School" signals will be given by radio. The closing of any school after the beginning of the morning or afternoon session will be done by announcement of the teacher in charge.

Concord Radio Station WKXL (1450 on dial)

Laconia Radio Station WLNH (1340 on dial)

"No School" announcements at 7:15, 7:30, 7:45, 8:00 a. m.

Schools will be closed on account of weather only when the conditions make walking very difficult or travel by car hazardous.

The "No School" signal may not be sounded this year or next. Rain-or-shine, storm-or-cold, the schools will be kept open, save for safety's sake.

Prospective School Enrollments

The Director of the Division of Vital Statistics in New Hampshire has issued information about children born in the state who become six years of age between 1947 and 1952. There may be from forty to fifty percent increase in the number of 6-year old children to enter school. At the present time there are about 70 6-year olds in their first year of school. Five or six years from now there may be 100 and that increase will be reflected after 1952 and 1953 in larger enrollments.

Pupil Enrollments in October, 1948, and Teachers Employed Union School

Replaced by Helen D. Ernst and Grace T. Guptill	
Robert S. Holt	(Shop)
Arthur G. Lucier	(Soc. Stud.)
Helen E. Martin, part-time	(Driver Ed.)
Margaret E. Nichols (deceased)	
Replaced by Elmer I. LeLacheur (Comm.)	
Stella F. Nowicki	(Home Econ.)
Donald C. Taylor, part-time	(Agric.) (Vets. Agric.)
Jane C. Vogel, part-time	(Vocal Music)

Tuition Pupils

Attending Franklin Schools from Northfield:

Hubener, Allen V (George)	\$75.00
Hubener, James VII (George)	75.00
Hubener, Nancy VI (George)	75.00
LaBelle, Cecile XII (Irving)	135.00
LaBelle, Richard VI (Irving)	75.00
LaBelle, Robert IV (Irving)	75.00
LaPlante, Pamela, Kindergarten (Eugene)	
Millis, Theodore, Kindergarten (Theodore D.)	

Parental responsibility as a Kindergarten is not part of the established system in Tilton-Northfield.

Attending St. Mary's School, Franklin, from Tilton:

Bernard, Robert I (Fred)

Attending St. Joseph School, Laconia, from Tilton:

Abel, Yvonne Primary (Adrien)
 Stebbins, Charles VIII (Raymond)
 Stebbins, Maurice IV (Raymond)
 Stebbins, Raymond VI (Raymond)

Attending Gale School in Belmont, from Northfield:

Dow, Grace III (Cecille Heath)	\$75.00
Attending Belmont High School from Northfield:	
Lacroix, Gerard D. XI (Mrs. Grace)	\$100.0
Attending Tilton-Northfield High School from Canterbury School District:	
Brown, Arthur G. IX (Arthur G.)	\$125.00
Fife, Ruth E. IX (Clarence)	125.00
Fife, Shirley T. IX (Raymond)	125.00
Nichols, Owen K. IX (Clarence)	125.00
Noyes, Sydney R. XI (Ralph)	125.00
Walker, Richard C. IX (Charles)	125.00
Wallis, Barbara E. IX (Charles)	125.00
Wallis, Elizabeth A. XII (Charles)	125.00
Attending Tilton-Northfield High School from Sanbornton School District:	
Bath, Betty IX (Robert A.)	125.00
Currier, Richard PG (George)	125.00
Morse, Mary Sue XI (Nathan)	125.00
Patterson, Barbara X (Everett W.)	125.00
Perkins, Russell R. IX (Russell R.)	125.00
Thomas, Earl L. XI (Everett E.)	125.00

Transportation

Increased numbers of pupils to be transported required changes in several routes early in November 1948. One of the contractors purchased a 48-pupil capacity bus and started carrying 93 pupils in two trips from the Lochmere-Winnisquam area. This new bus is now proving too small because of additional pupils recently enrolled, so trips have been scheduled again along the Laconia Road, Route 3, for the District-owned station wagon to relieve the congestion on the big bus.

To secure adequate transportation, the School Board has recently made new contracts with owners of three large

buses. The payments under these contracts total \$55.70 per school day. There has been an upward revision in charges in the last two years. In September 1947, the per diem rate for three large buses was \$38.90, or \$7,002.00 for 180 days' transportation. In June 1948, there was an adjustment of \$2,004.00 which the District voted in a special appropriation, and made retroactive to November 15, 1947. New rates were established through that action, which held until November 2, 1948. On that date, the current charges of \$55.70 per school day became effective, and total \$10,026.00 for 180 days' transportation.

Changes in transportation routes effective November 2, 1948 were as follows:

Horace C. Wheaton—Five year contract for new 48-pupil bus, 52.4 miles daily @ 40c, or \$20.96 per school day, to cover two routes: Winnisquam-Lancaster Hill-Sanborn Road, and Lochmere-Laconia Road.

Lewis C. Read—Three-year contract for used 40-pupil bus, 43.7 miles daily @ 37c, or \$16.17 per school day, to cover two routes: Bay Hill-Shaker Road, and Calef Hill-School Street.

Central Garage and Supply Company—Three-year contract for used 40-pupil bus, 50.2 miles daily @ 37c, or \$18.57 per school day, to cover two routes: Northfield Town Line-Oak Hill-Northfield Center, and Bean Hill-Park Street.

T-N District-owned station wagon driven by Elmer H. Simmons, 20.5 miles daily, three routes on Zion's Hill and Cross Road towards Franklin.

Frank Plizga, Northfield (P. O. Franklin)—15.2 miles daily in conjunction with present route for Franklin, \$12.00 per school week.

Reductions in Transportation Expense

There have been two ways suggested to reduce expense of school transportation. One involves the use of trains from Winnisquam and Lochmere. The other takes advantage of a recently-announced proposal for State support.

Private school bus contractors in Tilton and Northfield give good service. The owners are always doing their best to provide safe and certain transportation for boys and girls. The rates paid these owners have been frequently adjusted to return to them not only the costs of operation but also a fair profit on the investment. However, the total bill for transporting pupils under private ownership is one of the bigger items of school department expense. No matter how high our personal regard is for local owners of privately-operated buses, we are obliged by the discharge of our duties to report present conditions of public ownership.

Last year we presented information on district-ownership of school buses. Within the last month, the State of New Hampshire, through the Office of the State Purchasing Agent, has offered to use State credit to buy school buses in quantity and sell them at cost to school districts. The next logical step in this program may be for the State to furnish accident liability protection to school districts through a sort of insurance pool. State financial backing can lower school transportation expense by purchasing school buses at wholesale, covering accident liability eventually, giving free registration, rebating gasoline taxes, and offering quantity rates on purchases of tires and oil. When all factors are considered, the school district may decide at some future date to use these means to lower expenses of school transportation.

Education Week

Many parents visited the schools during Education Week. At the Union School, portions of three afternoons were de-

voted to group meetings for an explanation of "pupil progress levels" by the Superintendent. At the High School an evening Open House was held. Parents visited classrooms where individual teachers explained the work in certain classes. Then, they assembled in the gymnasium where the program consisted of a music lesson. They filled out "evaluation sheets" which gave them an opportunity to make constructive suggestions about the Open House program.

Schools for Pupils in Group Living

Present-day thinking about schools indicates that:

"Classrooms are laboratories in group living."

"The old idea of the classroom as a filling station where the teacher simply connects the tank of knowledge with the tank in the child's mind is on the way out."

"Teaching is something more than pouring from the big jug into the little mug."

Now there is "less emphasis on competitive activities, and more stress on cooperative ones."

"It takes all kinds of people to make the world go round. Schools should have well-rounded programs through which every child can feel needed and can experience some degree of success. Don't put a premium on 'brain work' alone."

Reporting Pupil Progress

The high school staff developed a system of reporting pupil progress to parents and guardians, which is a definite step away from percentage ratings. The primary object is to evaluate a pupil's progress in terms of his own abilities and capacities, so that his efforts may show in success achieved, not in failure in work beyond his level of achievement. A pupil is constantly assisted in evaluating his own development.

The reports are mailed to parents or guardians. There are spaces on the reports for comments and interpretations by each teacher, and an opportunity for the symbols to be interpreted as E for Excellent, S for Satisfactory, U for Unsatisfactory Progress, and Inc. for Incomplete due to excused absence. The teachers' comments are most important.

Reading Among High School Students

In the junior high school, emphasis is being placed on continued drill and improvement in Reading. Some of the work is being done on an individual basis so those with Reading handicaps may make good progress. There is also time for group reading exercises. Often, adults have the impression that every pupil should have well-developed reading habits by the time he enters junior high school. This is a false assumption. Reading involves the development of many learning skills, muscular, emotional, and mental. Even high-standing students who are permitted to enter college have reading handicaps which they have never been able to overcome.

Reading is a difficult process for some people to learn to do, so the high school staff is emphasizing continued practice, using methods similar to those employed among younger, elementary pupils.

Guidance

One teacher has been assigned Counselling duties for a small part of each school day to aid the Headmaster in the work of advising students on their problems. The work is done in individual conferences so the students may feel free to present matters which concern them, studies, earning money, social relationships, career choices, military service, and whatever it may be.

Instrumental Music

There was once a high school orchestra here of twenty-

eight pieces. For several years now, instrumental music lessons have not been taught very much locally by private teachers. The result is that boys and girls are growing to maturity without enjoying hours of fun playing some musical instrument. Playing a cornet, a trombone, a drum, a violin, a saxophone or other instrument is one way for a person to be happy in leisure time. The school department should promote this instruction, so the school board has authorized sponsorship of Mr. Raymond Ladieu of Laconia and the Carl Fischer Company of Boston. Group lessons are to be given in school buildings at 35c apiece for 3 or more pupils in a group. Private lessons will be \$1.00. Instruments may be acquired through a purchase plan of the Carl Fischer Company. Parents of prospective pupils are being interviewed for decision on lessons.

Radio Broadcasts

A series of fifteen-minute round-table discussions on topics such as Health, and Conservation are being broadcast by T-N high school students over WKXL in Concord, and weekly five-minute newscasts on school activities are sent over station WLNH in Laconia. Occasionally, a musical program by our students originates in WKXL studios. The news items are written by members of English classes and serve as an effective combination of written and oral expression.

Correspondence Courses

In previous years, correspondence courses have been used to satisfy special subject requirements of a few students. This year, however, only one has been purchased from the University of Nebraska: Trigonometry and Solid Geometry.

School Lunch Program

A school lunch program provides nourishing foods to pupils. Applications for Federally-aided school lunch programs have been made for both schools. There has been a

moderate-sized noon lunch operated at the Tilton-Northfield High School for several years, but the pupils in the Union School do not yet have the benefit of this. A central kitchen could serve both high and elementary pupils but limited space precludes immediate expansion. It would be desirable if volunteer adult labor could be had when conditions favor expansion.

Under Federal reimbursements, a sponsor may receive for a

Type A	Meal—complete	9c
Type A	Meal—without milk	7c
Type B	Meal—incomplete	6c
Type B	Meal—without milk	4c
Type C	Milk only	2c

Physical Examinations

All pupils should be given complete examinations periodically. The school nurse's report shows

1. Examinations conducted by Drs. Bernard and Kathleen Robinson—strip examinations.
2. Visual acuity tests to all and audiometer tests to some.
3. None of the pupils have received toxoid treatments.
4. Tuberculosis patch tests have been given to some.
5. The teeth of all the pupils attending the Union School have been examined by a dentist; those at the High School have been inspected by a physician.
6. Corrective exercises for posture defects are being given.
7. Two elementary and one high school pupil receive lip-reading lessons.
8. Fluoride treatments for the teeth of children are to be undertaken soon by local dentists and hygienist.
9. Four tonsillectomies among small children were performed.

The Health Program in Tilton-Northfield is still quite

limited in scope considering that we declare good health is the most important asset a person can possess. Our national life and the maintenance of our strong position of leadership for good among the nations of the world depends on the health of our people, especially the young men and women eligible for work and military service. In some sections of the country the school health program approaches the ideal, and includes such points as:

1. Indoor and outdoor organized play activities taught and practiced in classrooms, playgrounds, and activity rooms;
2. Rest after meals, periods of quiet, soft music, story-reading for the smallest pupils;
3. School lunches to supplement home meals, milk or small lunch at mid-morning, lunches at noon which furnish $\frac{1}{3}$ to $\frac{1}{2}$ of the daily food requirements, and which encourage the use of vegetables, milk, and nutritious foods;
4. Control of communicable diseases through inspection of hands, face, and skin each morning; notice taken of physical condition and report of unusual appearances to the nurse;
5. Annual complete physical examinations by doctor with pupil undressed;
6. Correction of physical defects through clinics or corrective exercises;
7. Improvement of mental health, use of psychiatric measurements, development of poise and balanced personalities.
8. Intramural sports program, de-emphasizing winning teams in interscholastic contests, and involving many more pupils.

TEACHERS

The shortage of teachers throughout the country has been felt acutely in the smaller school systems. Teachers with college training and with several years of good teaching experi-

ence elsewhere are often unwilling to make their next step up the ladder of professional advancement by accepting a contract to work here. This makes very difficult the job of finding mature persons for the high school, and results in a turnover of personnel that no one desires. The salaries offered to men and women who are efficient teachers and who will remain in this area as career workers must be high enough to provide adequately for the support of their families. One of the reasons why the Union School staff has been peculiarly successful in its program with young children is its maturity and stability. This same condition is not true at the high school and the main means of bringing it about is higher salaries. With the relatively low salaries paid those with dependents, it has been impossible to get a settled staff. The Headmaster is always beginning with a new crew, training 50% of the teachers in school practices, then starting over again the next year with other new ones. There is seldom a firm foundation on which to make a fine high school organization. The staff is always changing, getting new jobs at higher pay elsewhere, or studying for a position of greater responsibility. Tilton-Northfield should supply the funds so married men who are skilled teachers can settle in this area with their families. Then, it should give them the materials and the space for a modern educational program. Our turnover among high school teachers will remain great as long as this condition exists. Meanwhile, our boys and girls are not securing the same type of solid training as those at the Union School.

Union School Teachers

Two of last year's part-time positions were combined and Miss Esma C. Ford of Laconia was employed. She is a Keene Teachers College graduate and has taught in Gilford, Campton, Hebron, and Newport, in positions which have

made her experience useful in operating the type of elementary school organization which has been in effect at the Union School in recent years.

After the opening of the Fall Term, an overflow room was started in the Scout House. Rather than seek a full-time teacher for this work at that late date, it was decided to employ two half-day persons who had previously substituted at the Union School and were familiar with the system. Mrs. Dorothy L. Metcalf teaches each morning and Mrs. Beatrice B. Pelletier each afternoon.

High School Teachers

There have been interruptions in the progress of pupils at the high school because of the changes in staff. The school should acquire greater stability next year if it is possible to employ good personnel for the various positions now maintained on a part-time basis.

The physical education and health program has been initiated by a former Belmont High School athlete, Mr. A. Donald Bouchard, who, for a portion of each school day, directs outdoor and indoor classes where physical work takes place. He has promoted a sound program and has the wholehearted interest of the students in it. After school hours, he coaches the boys in varsity basketball, replacing Mr. Chris W. Sakelarios, now an active sales agent for a school and office supply concern. Mr. Bouchard is a graduate of Ithaca College, majoring in Physical Education, Health, and Recreation. He has taught all ages of young people from kindergarten to high school seniors.

Mr. Nachman S. Cohen of Gardner, Massachusetts, graduate of Northwestern University and student in various graduate courses offered at Harvard and the University of New Hampshire, assumed the responsibilities for instruction in English formerly in charge of Miss Helen E. Martin. Mr.

Cohen has taught in Orange, Massachusetts and Austin-Cate in Strafford. During the latter part of January, he will be released from his contract to accept one of the English positions in the Gardner, Massachusetts High School at a salary 20% above his present one here.

Mr. Homer S. Ransom moved to Massachusetts last June. To succeed him, Mr. R. Harold Gillmore of Concord, a man with extensive teaching experience, was secured to teach mathematics and science. However, in October, ill health overtook him, causing his resignation. At the time there were few mathematics and science teachers available but we did succeed in employing Mrs. Eleanor R. Sullivan as a substitute. She is a U. N. H. graduate with practice teaching experience in Rochester.

Miss Doris R. Glaude, formerly on the staff of the Belmont High School, accepted a contract to teach Latin and French here when Miss Virginia E. Rochelle left for employment as a secretary in Nashua. Her home is in Manchester and she is a graduate of Rivier College, 1945.

Mr. Wilfred C. Wolffer, shop teacher, has enrolled in Columbia University for advanced study. His place has been taken by Mr. Robert S. Holt, former pilot in World War II. Mr. Holt was graduated from the Keene Teachers College and occupies spare time by carpentering. He assists the sports program here by coaching the junior varsity.

Miss Sally A. Kott is now employed in the Manchester school system. Miss Jane C. Hermsdorf of Manchester accepted temporary employment as teacher of junior high home making and elementary science. When she left, two local part-time persons were asked to serve as substitutes. Mrs. Grace T. Guptill teaches Elementary Science during the morning session and Mrs. Helen D. Ernst, Junior High Home Making in the afternoon periods.

Miss Helen E. Martin is now a part-time teacher of Driver Education and Training each afternoon. During the morning she is employed in the supervisory union as a teacher of special subjects.

Miss Margaret E. Nichols of Tilton, young and popular teacher of Commerce, died on December 15, 1948. We were fortunate to find a Tilton man who could immediately assume the work. Mr. Elmer I. LeLacheur, owner of the Oriole Cabins, has a certificate in Steam and Electric Power Plant Engineering from Wentworth Institute, and a B. S. degree from Salem, Massachusetts Teachers College in Commerce. He has studied at Boston University and has had experience in accounting and business. Our previous Commerce teacher, Mr. Earl Q. Sanborn, is serving in the Army.

Professional Training of Teachers

The teaching effectiveness of staff members can be advanced through study. Teachers under contract for the 1948-49 school year were encouraged to enroll in a variety of training programs, and as further inducement, some of the expenses were paid by the school department. Opportunities were provided in:

1. An extension course in "Mental Hygiene" conducted by Dr. Anna Philbrook, State Psychiatrist, in the Tilton-Northfield High School from 4:00-6:00 p. m. each Monday afternoon from February to May 1948. This course was taken by Mr. Chesley, Miss Dearborn, Miss Gray, Mrs. Gray, Miss Kott, Mr. Lucier, Miss Martin, Mrs. McCook, Miss Nowicki, Miss Rochelle, Mr. Sakelarios, Mr. Sanborn, Mrs. Frances Smith, Miss Natalie Smith, Mr. Taylor, Miss Whitney, and Miss Wynott.

2. Columbia University's Intercession on "Science of the Environment" at Plymouth Teachers College between June 14 and July 2, 1948. From Tilton-Northfield, Miss Dearborn,

Miss Ford, Miss Hussey, Mrs. Gray, Miss Martin, Miss Natalie Smith, Miss Surowiec, Miss Whitney and Miss Wynott attended for two weeks each. Mrs. Meserve and Mr. Mattoon were present for about a week each. This resulted in a study outline in science for all elementary teachers in the supervisory union.

3. Summer session attendance at New England colleges was encouraged. Miss Gray, Mrs. Gray and Miss Martin attended Plymouth Teachers College for six weeks each. For a similar period, Miss Glaude was at Boston University, Mr. Taylor and Miss Vogel at the University of New Hampshire.

4. On September 7 and 8, 1948, a two-day in-service training session on "Group Planning" was conducted in the gymnasium of the Tilton-Northfield High School, and was attended by all local teachers.

5. The Southern Winnepesaukee Teachers Association holds bi-monthly meetings. The programs planned for the year 1948-1949 by the teachers include:

September 15, 1948—Specific Aids in Remedial Reading, Asst. Prof. M. K. Seavey, Plymouth Teachers College.

November 3, 1948—Demonstration of the Tape Recorder and Its Use in Language Arts, Fisk Visual Service.

January 5, 1949—Radio in Education, Representative from WKXL.

March 2, 1949—Improvement in Reading by Tachistoscopic Projector, Dr. Austin L. Olney, Audio-Visual Center, UNH.

May 4, 1949—Improvement in Health in the School Environment, Dr. Lura Oak-Bruce, State Department of Education.

6. On October 18, 19, 20, 1948, the teachers in the high schools of Belmont, Bristol, and Tilton-Northfield combined

for a three-day workshop on "Reorganizing the High School Curriculum" with Dr. Marcella R. Lawler of Teachers College, Columbia University in charge of the all-day meetings in Tilton.

7. During the Fall semester of Plymouth Teachers College, an Extension Course in Language Arts is being taught by Asst. Prof. Marion K. Seavey each Monday afternoon, 4:00-6:00 p. m., Tilton-Northfield High School. Local teachers enrolled include Miss Cross, Mr. Cohen, Miss Gray, Miss Martin, Mr. Taylor, Miss Whitney, and Miss Wynott.

8. Boston University has conducted a first-semester course on School and Community Relations in Concord each Thursday afternoon in the Fall of 1948, taught by Dr. Worcester Warren.

9. The University of New Hampshire's English Department furnishes Mr. John Baird as instructor for a second-semester course in "Speech for Teachers." Twenty-two sessions are to be held from January to May 1949, 4:00-6:00 p. m. Eleven sessions will be held in the Laconia High School and the other eleven at the Tilton-Northfield High School. From Tilton-Northfield, the following are enrolled: Mr. Chesley, Miss Cross, Miss Gray, Miss Martin, Miss Natalie Smith, Mr. Taylor, and Miss Wynott.

10. Miss Helen E. Martin of North Stratford, N. H., recognized as a person of superior teaching qualities, was secured on a part-time basis to work with teachers in visual education, social studies, science, and language arts. Vocal music instruction continues under Miss Vogel's direction. In the near future, boys and girls may secure broader cultural experiences and training through the employment of part-time teachers of instrumental music, drawing, physical education, and hand writing.

Regional Planning

The Tilton-Northfield teachers have been active in the Southern Winnepesaukee Teachers Association, embracing the personnel in the Tilton-Northfield Supervisory Union No. 59. On April 28, 1948, the teachers attended a late afternoon and early evening meeting at the Tilton-Northfield High School. The theme of the program was: "Thinking Together on Regional Planning for the Lakes Region of New Hampshire." At this meeting, a series of short talks were given by experts of the New Hampshire Education Department emphasizing three important changes or developments which may affect New Hampshire education within the next two, five or ten years. The trend in New Hampshire is towards the establishment of regional schools in which can be provided the educational offerings essential to the training of boys and girls in this complex age, modern plants to provide facilities for a good health and play program, opportunities for instruction through films, pictures and slides, and work experiences to prepare young men and women to earn a living. In the regional units, buildings and grounds can be spacious, rooms large, and school program expanded.

At the April 28th meeting, Dr. Gertrude M. Lewis, Supervisor of Elementary Education, spoke on "Elementary School Studies in the Immediate Future." Mr. Russell H. Leavitt, Chief of the Division of Instruction, suggested "Practices in High School Subject Offerings," and Miss Grace E. Felker, Director of Physical Education, explained "The Physical Education Program for Boys and Girls of All Ages."

Supper was served in the high school cafeteria, followed by one of the scheduled business meetings of the Southern Winnepesaukee Teachers Association.

In the evening, Mr. Walter M. May, State Director of Vocational Education, spoke on "Utilizing the Facilities in

the Laconia Area Vocational School." Dr. John D. Langmuir, Executive Secretary of the New Hampshire Taxpayers Federation, explained "The Public's Growing Interest and Stake in Education." Mr. C. Maurice Gray, Superintendent of Schools in Bristol, discussed "Educational Planning on a Regional Basis."

In the morning of April 28th, superintendents in the Lakes Region met to hear Mr. Rhoden B. Eddy of Laconia describe "Highschool Offerings to Serve the Area Community." Dr. William W. Smith of Gilford, University of New Hampshire Extension Horticulturist, outlined "Agricultural Ventures of Interest to Central New Hampshire Young People." Mr. William A. Mahoney, Personnel Director of Scott and Williams, listed "Job Opportunities in Industry in the Lakes Region." Mr. Reid O. Besserer, Central New Hampshire Y. M. C. A. Secretary spoke on "Summer Jobs in Recreational Enterprises." Mr. Edward J. Gallagher, Editor, Laconia Evening Citizen and member of the State Planning and Development Commission, described "Regional Development of Central New Hampshire." Finally, Mr. Donald F. Piper, then director of Youth Services, State Board of Education, told of possibilities in a junior college plan for youthful commuters.

"Science of the Environment" Course

Arrangements were made with Columbia University for our teachers to attend a portion of the Intersession Field Course in Science conducted on the campus of the Plymouth Teachers College by professors from Columbia and visiting professors from other colleges and universities. This course was taught for four weeks in June and early July 1948. Union School teachers were asked to enroll for two weeks so that there could be improvement in the teaching of science among elementary pupils. As an incentive to undertake this

course, expenses were paid in exchange for time, effort, and travel. Union School teachers have contributed sections to a tentative course of study in Elementary Science which is being written by teachers in this supervisory union. An 80-page report will be issued for trial and constructive criticism and revision early in January 1949.

State Department of Education Survey

In November 1948, Tilton-Northfield submitted a report as a part of a survey of school building needs conducted by the State Department of Education. Using the general standard for classroom capacity as 25 elementary pupils, in a room having 660 square feet of floor area, the Union School is overcrowded when it has 355 enrolled in place of a rated capacity of 270. Then too, the following serious building deficiencies were indicated as "entirely lacking": Gymnasium, locker room, shower facilities, cafeteria, library, music rooms, practical arts or handwork rooms.

Visual Education

Pictures form a sort of universal language. Pupils learn much more rapidly through picture study than through textbook readings. Greater emphasis in instruction is being placed on the use of visual aids to learning. One of these means is motion pictures. Films are being obtained from many sources for classroom use. A library of slide films, still pictures, and stereopticon slides should become an important adjunct to our present equipment.

P. T. A.

The P. T. A. has made a fine start in Tilton-Northfield and can do much to bring the schools and the townspeople closer together. Programs designed to furnish information on the needs of youth as well as on topics of particular interest to parents are helpful.

FINANCES

School District Bonds

Twenty serial bonds totalling \$85,000, were issued in 1938 by the School District for the construction of the Tilton-Northfield High School. Of these, 11 were outstanding on July 1, 1948, and amounted to \$49,000. The bonds are repayable \$5,000 per year through 1953, and \$4,000 per year through 1958 with interest of 2 1/4% collected in October and April.

	on Principal	Interest
October 15, 1948	\$4,000	\$551.25
April 15, 1949		506.25
October 15, 1949	\$5,000	506.25
April 15, 1950		450.00
October 15, 1950	\$5,000	450.00
April 15, 1951		393.75
October 15, 1951	\$5,000	393.75

Long-Term Notes

Long-term notes carrying 3% interest were made per \$10,000 on July 6, 1948 and \$10,000 on September 13, 1948. One of these should be reduced about 1/5 when repayment of unused funds can be done in the Spring of 1949. However, at the present time there will be due:

	on Principal	Interest
July 6, 1949	\$1,000	\$300.00
Sept. 13, 1949	\$1,000	\$300.00

Financial Support of Schools

Funds for schools were raised both at the annual school district meeting on March 10, 1948, and at the adjourned school district meeting on May 7, 1948.

At the adjourned meeting, May 7, the School Board and Treasurer received authorization to make long-term notes to a maximum amount of \$20,000 to pay for proposed altera-

tions in the Union School. When the changes have been completed and bills paid, there may be \$2,000 or more unused, to immediately repay part of the original loan at the Citizens National Bank.

Under Article 8 of the Warrant for the annual School District meeting on March 10, the sum of \$97,094.54 was raised and appropriated for the support of public schools and the payment of the statutory obligations of the district. To this sum should be added \$17,274.70 as State Aid and \$2,850.00 as estimated other receipts from high school tuition, trust funds, dog licenses, and Federal aid, making a grand total of \$117,219.24 for school support in Tilton and Northfield. This sum proves insufficient for the purpose. There will be an operational deficit by the end of the current school year, June 30, 1949.

In these months of fluctuating prices, how far ahead can expenses be accurately predicted? Some say a month; others, two months; a few, six months. The period is short. But how about the school department's estimates?

In December 1947, estimates were made on the amounts of money needed 18 months ahead to balance accounts in June 1949, but it was predicted that there could be no certainty that estimates would prove exactly right, that a deficit might be expected. Prices continued to rise, wages increased again, pupils enrolled in greater numbers, school transportation charges were changed, costs of books and paper jumped again, fuel prices went up, and the charges for several other items increased. What happens to estimates based on 1947 prices when 1949 expenses are paid?

Over the country, various experts estimate that prices have advanced from 14% to 20% between 1948 and 1949. A

conservative general average rise is 16%. What does a 16% increase in the School Budget for 1948-9 mean? Now, 16% of \$117,219.24 is \$18,955.08; but our operational deficit does not equal 16%, it is about 9.4%, or close to \$11,000.

With an estimated operational deficit of \$11,000.00 for the school year ending June 30, 1949, the larger items are:

..	Repairs	\$2,500
	Transportation	2,000
	Scout H. Teachers	1,700
	Administration	1,150
	Equipment	800
	Tuition	610
	Medical and Health	600
	Playground	475
	Janitor Service	400
	Water, Electricity	300
	Insurance	100

In past years, operational deficits have been financed by loans with repayments distributed over a few years. By borrowing \$11,000 and repaying it in five equal installments of \$2,020, the tax burden would be spread over a period of time rather than falling all in one year.

CONCLUSION

The parents and voters of Tilton and Northfield are faced with some crucial problems. We are living in an "atomic age." The school program should be geared to give maturing young people some of the finer aspects of modern education. The schools are maintained as places for children to learn to live and to work together. Here are some of the problems, and possible solutions.

1. Enrollments in the primary years may increase 50% by 1953. Where will more pupils be housed?

(Add more rooms to the Union School and include some of the facilities which are essential in a modern elementary school plant.)

(Build several rooms in a wing at the high school and make the whole structure large enough to overcome the crowded conditions in rooms for practical arts, cafeteria, music, and storage. Move all the pupils from the second floor and assembly room of the Union School to a new wing connected to the high school and make a separate unit for youngsters 10-14 years of age. Assign small children to the rooms in the Union School.)

2. The demands of the present age and the increased needs of youth can be met by expanding and improving the school offerings. What should be done to meet the challenge?

(Organize a health program which really benefits every boy and girl, mentally, physically, spiritually.)

(Develop satisfactory play areas around the school buildings.)

(Have the school buildings serve as community centers until one can be maintained in the business section of town.)

(Offer drawing or art, instrumental music, physical education for small children, and work experiences for secondary students.)

(Transport high school students to Laconia H. S., or Franklin H. S., where a variety of vocational studies are offered.)

(Attract experienced teachers and retain their services for longer periods of time in high school work.)

(Furnish an opportunity for the Headmaster and some teachers to perform adequate guidance services for young people.)

The questions asked at the beginning of this report are worthy of re-emphasis in closing it:

1. What facilities do we need to house the prospective influx of pupils?
2. What are the elements of a modern elementary school program?
3. How can we procure teachers to conduct a modern school program in this "atomic age"?

In concluding this ninth annual report, I wish to express again my appreciation to the members of the school board for their critical questions, constructive suggestions, unfailing support, and unselfish service; to the teachers for their willingness to venture into the study and trial of better teaching techniques and materials, for their participation in teachers' meetings and study courses, and for their industry and enthusiasm; to the parents for their interest in the work of the schools, and for their contributions to the school program; to specialized workers in health, music, and driver education for their conscientious endeavors; and to all others who in divers ways have made educational progress possible for large numbers of boys and girls.

Respectfully submitted,

DONALD P. MATTOON
