## TOWN WARRANT

### THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Tuftonboro in the County of Carroll in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town House in said Tuftonboro on Tuesday, the thirteenth day of March, next at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.

2. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same. \$22,017.00 figures of the Budget Committee.

3. To see if the Town will vote to raise and appropriate the sum of three hundred dollars (\$300.00) to widen the road on Burke Hill, (so called), near Hoogkirk's.

4. To see if the Town will vote to raise and appropriate the sum of one hundred dollars (\$100.00) for repairs on Union Wharf.

5. To see what action the Town will take about raising the sum of four hundred dollars (\$400.00) asked for by the Forestry Department for the control of the White Pine Blister Rust.

6. To see if the Town will vote to raise and appropriate the sum of four hundred and seventy five

dollars and fifty-four cents (\$475.54) the State to contribute the sum of three thousand one hundred and seventy dollars and twenty-four cents (\$3,170.24) for Town Road Aid.

7. Shall the provisions of Chapter 171-A of the Revised Laws relative to playing games of Beano be adopted in this Town?

8. To see if the Town will vote to authorize the Selectmen to make a suitable lay out of the Pond Road, so called, by petition of Thelma Wiggin and others.

9. To transact any other business which may legally come before said meeting.

Given under our hands and seal, this 24th day of February, in the year of our Lord nineteen hundred and fifty-one.

CHARLES F. WHITTEN  
FORREST W. HODGDON  
LEROY A. MATTHEWS  
Selectmen of Tuftonboro

A true copy of Warrant — Attest:

CHARLES F. WHITTEN  
FORREST W. HODGDON  
LEROY A. MATTHEWS  
Selectmen of Tuftonboro

- 23 Murder In Montana
- 24 What Can I Do Now
- 25 High Green And The Bark Peelers

## REPORT OF FOREST FIRE WARDENS

Each year two hundred thousand forest fires annually burn over 36 million acres of the forest land of this great nation. This area is roughly the size of our New England states. Tens of thousands of man-hours costing over 40 millions of dollars are used in combatting these fires. They destroy valuable mature timber and new growth, and leave desolation and often death in their wake. With the large deficit in rainfall the past four to five years the need for extreme caution is great.

Every brush, grass or forest fire that you have in your town has its effect on you in several ways; such as increased taxes, loss of mature timber, marring of the landscape and spoiling the recreation value of our countryside. It is safe to say that approximately 97% of the fires occurring in this state are man-caused and because all man-caused fires are preventable, remember — only YOU can prevent forest fire.

Our forest fire organization is doing a grand job in keeping our fires small, but the public in general is becoming increasingly careless in discarding matches and cigarettes. Another form of carelessness is the neglect to secure the required permit from the town fire warden to burn brush or use an incinerator in or near woodlands. It is YOU and YOU alone who can help correct this shameful waste of our natural resource by:

1. Seeing that your incinerator is tight and is sitting on clean ground.
2. Always clean a space about any open fire to prevent its spreading.
3. Never burn in dry windy weather.
4. In all cases a written permit is required from your town Fire Warden.

It is with your cooperation that this shameful waste of timber and money can be stopped.

## ANNUAL REPORT SCHOOL DISTRICT OFFICERS

For The Fiscal Year Ending June 30, 1950

If some dramatic incident could shock the American people to an awareness of public education, they would re-act as unitedly as they did at Pearl Harbor. A parade of embarrassing statistics, however, fails to accomplish this purpose. The growing inadequacy of our public school system is creeping up on every community.

Year by year, community by community, we are watching one of two great strongholds of democracy be weakened. For the strength and backbone of our democracy is an informed electorate. We Americans achieve this strength through widespread public education — education which prepares the citizenry for active participation, and simultaneously assures their liberty.

For education makes a people easy to lead, but difficult to drive; easy to govern, but impossible to enslave.

I am not a horse-and-buggy reactionary, advocating a return to the simple country education which I knew in my boyhood. Although the effort for education for a country boy in Missouri had great merits in character building, and certain rewards in accomplishment through hardship, such conditions are out of date. Future generations of American citizens can be prepared for the important role they must play, if we make the most of the modern educational resources for our boys and girls.

For the past 10 years, our preoccupation with saving this nation, and its way of life from aggression has frequently left the grade schools and high schools

of our communities behind. While the school-age population increased by leaps and bounds, schoolroom facilities and adequate teaching staffs were left behind.

Taken from an address delivered by General Omar N. Bradley, Chairman Joint Chiefs of Staff, delivered before the National Citizens' Commission for Public Schools, January 17, 1950.

---

## INDEX

### PART I.—Administration and Organizations

- A. Officers of the School District
- B. Report of the Superintendent

### PART II.—Instruction

- A. Teachers

## B. REPORT OF THE SUPERINTENDENT

### 1. Problems and Conditions General to the Union

Less than fifty years ago, the atmosphere which surrounds our earth was merely so much air to be breathed. Today, man talks through it by telephone and radio; he sends lightning-like messages through it by telegraph; he sends pictures through it by television; and he flies himself and his goods through it at a speed undreamed of even a few years ago.

The American home, uring these same fifty years, has been equipped with conveniences such as automatic heat and air conditioning, running water, electricity, automatic washing machines, ironers, electric stoves, refrigerators, vacuum cleaners, dishwashers, disposal units and many others, and the average family, an automobile.

In these same years this country has grown from a struggling young nation to a World Power.

To what do we owe these great accomplishments?

The United States Chamber of Commerce raised this question some several years ago and then set out to find the answer. They studied the natural resources, the climate, all other factors common to each nation and when they were finished, they concluded:

that education is a far more powerful instrument than most people have been willing to admit.

that the degree of education and technical competence determines the economic welfare of the various countries of the world.

that natural resources do not determine the income of a country.

that the degree of education and technical skill is

the factor that does determine the level of income in any country.

Our forefathers believed this and set out to establish in America the first free schools in the World. While fighting the Revolutionary War, they continued to develop public schools and found time and money to establish some thirteen colonial colleges. Our country and our schools have grown far beyond the expectations of our illustrious forebears.

Today, schools face two problems: We must prepare our children for the new world yet to be molded and we must find ways to pay for these schools as did those who have gone before us.

Our schools must be set up to prepare young folks for college and innumerable vocations, some very new to all of us, and others as old as agriculture, but in the new scientific manner. In the "good old days" schools did not need to prepare children for the vocations as most everyone who was not going to college followed in his father's trade and learned it at home or with some friend or neighbor. Schools, therefore, taught the children to read, write and do simple arithmetic (not the kind required on the income tax form today or the kind required to read the budget of our federal government). Schools must still do these same things but many more.

Children growing in this new way of life must know the world as well as they once knew their town. They must understand the many great scientific developments, and learn, we hope, to use them for good, rather than for destruction. If anyone doubts that our children are learning these things, he should engage them in conversation about atomic energy, jet engines, Guadalcanal, Estonia, the latest automobile of any make, or the United Nations.

Teaching school under these conditions is a far cry from what it was in former years, particularly before World War I. The amount of material to be covered has increased, especially in the scientific fields and in Geography and History and Government. Content has changed and continues to change. The sincere and conscientious teacher must continue to study and increase her knowledge. She knows that she must do her utmost to develop fully the potentialities of each and every child, for in our complicated society, the "dunce" is a liability to be paid off eventually by all of us.

America has prized its educational system, invested in it, believed in it because it promised to bring to real life the American dream of the good society. There is, however, another side to this picture. While we believe in our schools and put such trust in them, the **proportion** of our national income devoted to education has declined in the last twenty years and \$5 billion spent on public education compares rather poorly with the \$8 billion spent on liquor, or the \$9 billion spent on cigarettes and the \$19 billion spent on automobiles.

Providing money for our schools has become a vexing problem. To meet the needs of our present educational program, more money is required. Today, if you go out to buy a car or a pound of hamburg and the price is twice what it was in 1939, you are not surprised, for you know that the value of the dollar has gone down just about that same amount, but it is hard to transfer this same kind of thinking to the tax dollar spent on education.

The other afternoon I went to the store to purchase an article, and the gentleman behind the counter announced that the price was 35¢, as much as he

regretted it. He knew, as I did, that only a week ago the price had been 25¢ and, I might add, twenty-five years ago it would have been 15¢. All he could do was pass it along to me. Unfortunately, when it comes to schools and paying for them, it isn't that easy. When it comes time to pay taxes, we still think in terms of the "old" dollars.

As our country has grown, more people have moved away from the farm and the real estate tax, from which we still get our money for schools in this state, is no longer a fair basis for measuring a person's ability to pay. Once, if a man had a fifty acre farm and thirty head of cattle and another may had a twenty-five acre farm and fifteen head of cattle, it was easy to say that one man was able to pay twice what the other paid. Today, we have three houses all alike. In one, lives a retired person with an income based on a dollar which has lost half of its value, in the next lives a family making \$6,000. and in the third house live three families, all working and making \$10,000. It is easy to realize that to tax each of these property units the same is unfair, yet that is what is done. The federal government long ago sought to get its taxes from other sources but in New Hampshire the real estate tax is still our method for collecting the money for our schools.

Much as we may not like to admit it, another reason we are having a time getting money for our schools is that people are more willing to spend their money for other things. We are for the schools, we believe in them, but we want radios, television sets, autos, alcoholic beverages, cosmetics, tobacco and fine clothes first.

All but one of the districts in this Union are doing as much or slightly more for their schools as the

average district in New Hampshire is doing but, unfortunately, all of our districts are like the Red Queen in Looking Glass Land who had to run hard to stay in the same place. Our problem in the last five years has been a difficult one because we have had to catch up with old shortages which are responsible for our present over-crowding, our unsafe, badly kept and inadequate facilities, as well as teacher shortages. Our districts can do nothing but ask for more money so long as the dollar continues to lose its value and an ever increasing number of children enter our schools.

At least three districts in this union must face building programs in the next three years. By now, we are all familiar with the old story, in time of war, we cannot build because costs are going up and you cannot get material, and in time of peace we cannot build because, while prices are going down, so is the amount of money that people are making. Since the turn of the century, we have been in one or the other of these positions and the building program has lagged behind the need for replacements and enlargements.

You have been interested in our work, you have attended meetings, made studies and supported our program. You must help us to retain good teachers who have a vision of the future needs of our country and who will strive to guide your children rather than to assign them pages in a book. You must continue to maintain the property which we have, and prepare to build those classrooms which will be needed so badly in the next few years.

The task is not an easy one but I feel sure that we all still have hopes and ambitions for our children and our country, and will find a way.

## 2. The Local Situation

During the past summer, the floor of the

auditorium, which had been a source of trouble for some years was taken up, a cement base laid and asphalt tile installed on the surface. You should now have a floor which will last as long as the school does. The new walks and the added grading have improved the outside appearance of your school. Mr. Dow continues to give freely of his time to see that your building is kept in order.

I am sure you are all pleased to welcome back Mr. Rockwell as your principal and Mrs. Colby as the teacher of the middle grades. The lower grades, this year, are in charge of Mrs. Wanda Brooks, who graduated from Keene Teachers' College two years ago and taught in Nashua last year.

Through the efforts of Mrs. Ruth Smith and Miss Thelma Wiggin, your children continue to enjoy the best in hot lunches. You are indeed fortunate to have someone as capable as Miss Wiggin looking after your program during the winter months and to have Mrs. Smith available to assist in the fall and spring. Your program could not be the financial success it is if it were not for the adults who continue to volunteer their services each day, not to mention the many fine things they donate to your program.

You may rest assured that the records of your board are in good hands as long as Mr. Eugene Tuttle continues to take care of them. The fifteen hundred dollars received from the Brewster Trust Fund has been used to pay for the grand piano now in your auditorium, additional athletic equipment, two new stoves to be purchased for your Home Economics department, moving picture films for use in the classrooms, a film strip machine with a supply of film strips, four hundred dollars toward the cement walks

and two hundred dollars toward the work on the athletic field.

Your Parent-Teachers' Association is now an integral part of your program. The leaers are to be commended for the progress which they have made. This organization deserves your support.

Number of Handicapped Children Found:

From 5 to 16 — 1

## PART FIVE

## AUXILIARY ACTIVITIES AND REPORTS

## A. REPORT OF SCHOOL NURSE

January, 1950 — January, 1951

Number of physicals by Doctor			74
Number of children examined by nurse			62
Defects found at physicals:			
Orthopedic	5	Heart Ailment	1
Nutrition	2	Vision	3
Tonsils	16	Overweight	3
Nervous disorders	1	Skin	1

The physicals this year were very satisfactory in that all of the school participated. Last year I mentioned that it was something of an insurance and it is gratifying to see so many take advantage of this policy. A new part of our program started this year with the start of urinealysis, which is really an advantage. One child was found to be diabetic and, thanks to the cooperation of her parents, she is back in school and happy in her school work. In doing these tests, the seventh and eighth grade boys and girls assisted me and did a very fine job.

In 1950, a dental survey was done of the teeth of all of the children by Dr. Weston.

Mr. Rockwell had a film showing the benefit of drinking milk and the increase of children to take milk after that showed the wise move it was. All of the teachers carry on health programs in their rooms and definitely lay the ground work for healthy living.

In observing your children at school, the parents of Tuftonboro should be happy to have such healthy, happy children. It is a pleasure to work with them.

My thanks to the teachers, superintendent and school board for their help and cooperation.

Respectfully submitted,  
AVIS McAULAY

## PART SIX

## SCHOOL CALENDAR FOR 1951-1952

1951

- Aug. 31 Principals' Meeting  
 Sept. 4 Registration of new pupils and Teachers' Meeting  
 Sept. 5 School Opens  
 Oct. 12 School closed — Columbus Day  
 Oct. 18-19 School closed — Teachers' Conference  
 Nov. 21 School closed at 1:00 P. M. — Thanksgiving Recess  
 Nov. 26 School reopens  
 Dec. 21 School closes at 1:00 P. M. — Christmas Vacation

1952

- Jan. 3 School reopens  
 Feb. 15 School closes at 3:00 P. M. — Mid-winter Vacation  
 Feb. 25 School reopens  
 April 11 School closes at 3:00 P. M. — Spring Vacation  
 April 21 School reopens  
 May 30 School closed — Decoration Day  
 June 13 School closes for Summer Vacation

(Days lost on account of bad weather will be made up beginning June 16 if necessary to complete 180 days of school.)

(Teachers may attend State Teachers' Conventions two days, appropriate County Institutes and Workshops totaling five days. These days are counted as part of the 180 days of school required by law.)

## PART SEVEN

### WARRANT, SCHOOL DISTRICT MEETING

#### THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District in the Town of Tuftonboro, N. H., qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 13th day of March, 1951 at 2:00 o'clock in the afternoon to act upon the following subjects:

1. To choose a Moderator for the ensuing year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the district.

6. To hear the reports of Agents, Auditors, Committees, or officers heretofore chosen, and pass any vote relating thereto.

7. To choose Agents, Auditors, and Committees in relation to any subject embraced in this Warrant.

8. To see what sum of money the district will raise and appropriate for the support of schools, for the salaries of school district officials and agents, and for the payment of statutory obligations of the district, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund together with other income; the school board to certify to the selectmen the balance between the estimated revenue and the appropriation, which balance is to be raised by taxes by the town.

9. To see if the district will elect to approve of the inclusion of its officers and employees (other than those eligible under the Teachers Retirement System) in the Employees Retirement System of the State of New Hampshire, which system is provided for by chapter 27-A of the Revised Laws, as inserted by chapter 183 of the Laws of 1945, and as provided by chapter 201 of the Laws of 1945 and any subsequent amendments thereto.

10. To transact any other business that may legally come before said meeting.

Given under our hands at said Tuftonboro, N. H., this 16th day of February, 1951.
