TOWN WARRANT

STATE OF NEW HAMPSHIRE

Cheshire, ss:

To the inhabitants of Alstead qualified to vote in town affairs.

You are hereby notified to meet at the Town Hall in said town on the eleventh (11th) day of March, A. D. 1941 at nine o'clock in the forenoon to act on the following articles.

Art. 1. To choose the following town officers.—town clerk, town treasurer, one selectman and three years, tax collector, overseer of poor, one or more road agents, auditors, constables, library trustees, trustees of trust funds, fence viewers, sextons, cemetery committee, park commissioner, measurers of wood and surveyors of lumber, and other town officers required by law or as the voters may direct.

Art. 2. To see what sum of money the town will raise for ordinary town charges, old age assistance and for the support of the poor.

Art. 3. To see if the town will vote to finish graveling the Walpole Valley road, so-called, from the Walpole line to the gravel put in last year and oil the entire strip of about one mile and raise money for the same.

Art. 4. To see if the town will vote to gravel the road leading from the Walpole Valley road, so-called, at the Edwards corner to the Walpole town line, and raise money for the same.

Art. 5. To see what other sums of money the town will raise for highways and bridges.

Art. 6. To see what sum of money the town will raise to oil the village streets.

Art. 7. To see how much money the town will raise for additional snow fence.

Art. S. To see how much money the town will raise for the purpose of completing and painting the tractor barn, so-called.

Art. 9. To see if the town will raise \$400.00 for the control of white pine blister rust and apply for state aid.

Art. 10. To see if the town will raise \$542.41 for class V roads and call for state assistance, the state to contribute \$2,169.62.

Art. 11. To see if the town will authorize the selectmen to sell real estate acquired by tax sale.

Art. 12. To see what sum of money the town will raise for the care of cemeteries.

Art. 13. To see if the town will raise \$25.00 for water rent for the town hall and watering trough.

Art. 14. To see what sum of money the town will raise for the support of the library.

Art. 15. To see if the town will raise \$30.00 for Memorial Day.

Art. 16. To see if the town will raise \$100.00 for care of parks and playgrounds.

Art. 17. To see if the town will raise and appropriate the sum of one hundred dollars for the benefit of the Three Town Fair.

Art. 18. To see if the town will authorize the selectmen to borrow money in anticipation of taxes.

Art. 19. To see if the town will raise \$1,158.34 to reduce state aid construction notes.

Art. 20. To see if the town will raise \$835.00 for street lights.

Art. 21. To see if the town will vote to raise and appropriate the sum of \$80.00 to the Monadnock Region Assocation of Scenic New Hampshire for the issuance and distribution of printed matter, newspaper and magazine advertising, calling attention to the resources and natural advantages of the town in cooperation with the other thirty-seven towns in the Monadnock Region.

Art. 22. To see how much money the town will raise for an automobile chassis with a fire pump mounted thereon, and other fire fighting equipment.

Art. 23. To see if the town will vote to accept a trust fund of \$100.00 to be known as the H. E. Page Trust Fund, and a trust fund of \$100.00 to be known as the Frank E. Trow Trust Fund.

Art. 24. To see if the town will authorize the Selectmen to issue a quit claim deed to the Forristall School House lot, so-called, to Forrest Pratt.

Art. 25. To hear and allow accounts.

Art. 26. To transact any other business that may come before the meeting.

Given under our hand and seal this 21st day of February, A. D. 1941.

> BURTON G. DANA, ROBERT M. BRACKETT, BENJ. H. BRAGG,

> > Selectmen of Alstead.

A true copy of warrant—Attest:

BURTON G. DANA, ROBERT M. BRACKETT, BENJ. H. BRAGG, Selectmen of Alstead.

REPORT OF THE LIBRARIAN OF THE SHEDD-PORTER MEMORIAL LIBRARY For the Year Ending Jan. 31, 1941

As your librarian I hereby submit my second annual report.

Much has been done in the library this past year to build up our supply of back numbers of magazines indexed in the Readers Guide. Many people have brought their used magazines to me thus making it possible to replace those torn or lost in my file of back numbers. I shall appreciate this help in the future.

As usual, new books of every description have been added to library and out of date and used and soiled books are now being discarded. This will clear the shelves of unused and unsightly books and make the good ones more accessible and allow better display.

A new Merriam Webster dictionary was purchased early in the year and a dictionary stand was built by Mr. Brainard Taylor. The dictionary has never been displayed to advantage before.

The ceilings and walls were washed and new fluorescent lighting was installed in the stack room in June making it much more attractive and convenient.

The library sends a box of books to East Alstead and Langdon frequently for use there and is always glad to ecoperate with the schools.

There have been a great many social and business meetings at the library the past year and your librarian is always glad to arrange for such. As there is no community house in town I feel that the library can very well serve in this capacity. I am very proud of the circulation this year which exceeds last year.

Number of books added by purchase,	297
Number of books added by gift,	24
Number of magazines received by subscription,	32
Number of magazines received by gift,	1
Daily papers,	1
Weekly papers,	1
Record of circulation:	

Non-fiction,	1,237
Fiction,	5,575
Juvenile,	$2,\!138$
Magazines,	2,917

11,867

Respectfully submitted,

HARRIET W. WHITTON,

Librarian.

SCHOOL WARRANT

STATE OF NEW HAMPSHIRE

To the inhabitants of the school district in the town of Alstead qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall, in said district, on the 11th day of March 1941 at 2 o'clock in the afternoon, to act upon the following subjects:

1. To choose a moderator for the coming year.

2. To choose a clerk for the ensuing year.

3. To choose a member of the school board for the ensuing three years.

4. To choose a treasurer for the ensuing year.

5. To determine and appoint the salaries of the school board and truant officer, and fix the compensation of any other officer or agent of the district.

6. To hear the reports of agents, auditors, committees, or officers chosen, and pass any vote relating thereto.

7. To choose agents, auditors, and committees in relation to any subject embraced in this warrant.

8. To see if the district will vote to make any alterations in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the district, as determined by the school board in its annual report.

54

9. To see if the district will authorize the school board to borrow money on notes for the support of schools if necessary.

10. To see if the district will vote to authorize the school board to sell the Mica Mine school.

To transact any other business that may legally come before said meeting.

Given under our hands at said Alstead this 13th day of February, 1941.

MAYBELLE H. STILL, CHAUNCY J. NEWELL, MARY C. BURROUGHS,

School Board.

A true copy of warrant—Attest:

MAYBELLE H. STILL, CHAUNCY J. NEWELL, MARY C. BURROUGHS,

School Board.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Alstead:

I hereby submit my annual report as Superintendent of Schools.

ORGANIZATION AND ENROLLMENT

Four new teachers were elected to fill vacancies on the teaching staff.

Mr. Paul Davis received the appointment as teacher of mathematics and science. Mr. Davis graduated from the University of New Hampshire in 1938. He attended graduate study courses at Boston University and the University of New Hampshire. Before assuming the teaching assignment at Vilas High Schools he had two years of secondary school teaching experience. Miss Dorothy F. Tilton, a graduate of Boston University, was employed to teach all courses in the commercial department. In addition to her teaching duties, she will organize the activities associated wth the publication of the school paper. Miss Mildred Hutton is a graduate of the University of New Hampshire. In addition to teaching all of the English and Social Science in the junior high school, she will supervise the physical activities for girls. The elementary school vacancy at East Alstead was filled by the election of Miss Laura Eaves. Miss Eaves is a graduate of the three-year elementary curriculum of Keene Teachers College. Previous to coming to the Alstead position, Miss Eaves had four years of teaching experience in the rural schools of Vermont and New Hampshire.

I have each year devoted a portion of my report to a discussion of some of the aims of our general supervisory program. Previous reports have covered the phases of the program apply-

56

ing directly to the content and improvement of instruction. Since effective instruction is influenced also by a continuous program designed to strengthen the organization of our schools, I believe that a brief outline indicating the nature of some of this activity should be of general interest.

Instruction sheets to all teachers in the supervisory union have repeatedly emphasized the importance of maintaining a uniform standard practice in relation to the following details of school management:

1. Permanent records of personal data, attendance, and scholarship.

- 2. Report cards, failures, and made up work.
- 3. Organization and supervision of all playground activities.
- 4. Organization and supervision of school programs, socials, entertainments, and athletic contests.
- 5. Exhibits of school work.
- 6. Conduct of school lunch program.
- 7. Fire Drills and safety control measures.
- 8. Details of class and room management.
- 9. Care, preservation and use of instructional equipment and reference materials.
- 10. Development of school libraries and use of circulation _ libraries.

The report card usually results in more misunderstanding and conflicts of opinion than any other item of school management. It is not surprising that this should be so since acceptable practices for reporting to parents are many and varied. However, regardless of the form used, I believe that pupil scholastic reports have meaning and value only when they are made by the teacher and interpreted by the parent according to some definite policy which is understood and accepted by both. It has been my experience in talking with parents to find that they usually desire a fair, truthful, and frank estimate of the actual quality of the work of the pupil as measured by the ability of the child and the standard for the grade. I believe also that our teachers generally have recognized their responsibility in this regard and try to mark pupils truthfully and fairly according to their best judgment. Teachers have been urged to consider the report card as a transcript of the pupil's school record and to report deficiencies consistently as they occur.

Although repeated failures may indicate that a pupil would profit by repeating the grade, they are more generally caused by inattention, failure to complete assignments, or careless work. Teachers and parents should make an honest attempt to ascertain the cause of pupil failures and cooperate in some effective measures to eleminate them when possible.

In most of our schools the teachers have been very conscientious in the performance of their duties in supervising playground activity during the noon and recess periods. The informal situation on the playground affords an opportunity for wholesome pupil-teacher relations and for practical instruction in proper attitudes and group conduct.

Last year many of the schools in the supervisory union conducted school programs and exhibits designed to demonstrate school work and pupil performance. Programs of this nature are very much worthwhile. They tend to promote interest and cooperation and are worthy of the encouragement and support of the community served by each school.

Two deliveries of surplus food commodities were made to the schools during the year. Apples, oranges, raisins, and canned peaches were used to supplement lunches brought from home. It is expected that this program will be continued. One shipment of food has been received at the schools this year.

The course in vocational agriculture which is offered to young men interested in farming as a vocation is being given again this year. This course has enrolled a group of about fifteen young adults who meet on one evening each week for fifteen weeks. The course includes lectures, discussions, and farm shop work and is 59

planned to meet the practical interests of a majority of the group.

This year the facilities of the farm shop are being used in cooperation with the government's plan for national defense training. Out-of-school young men between the ages of 17 and 25 have been enrolled in a class in auto mechanics dealing with both gas and diesel engines. The course extends over an eight week period and meets three nights each week for five hours. A practical operator and mechanic has been secured as instructor. The course is to be conducted without cost to the district.

Elementary pupils enrolled in schools outside of the district: West Gilsum, $\mathbf{2}$ Gilsum Village, 4

SCHOOL ACTIVITIES AND MUSIC

Our school activities have each year been more fully correlated and placed more definitely under the guidance and direction of members of the teaching staff. Athletics, dramatics, the social life, and the annual school publication are all considered a vital part of the school program. Our teachers cheerfully accept this extra responsibility and consider it an opportunity to teach, in a very practical manner, lessons of good sportsmanship, honesty, fair play and cooperation.

The music program in our schools aims to develop a lasting love for music-both vocal and instrumental. Classes in vocal music are available to all pupils in the elementary and high schools. Instrumental instruction has been arranged at the Vilas school for pupils interested in learning to play the piano, violin, wind and reed instruments. The orchestra at Alstead has seventeen players. We lost many players from this organization at graduation time last June, but we are gradually rebuilding. The continued growth of the orchestra depends much upon the number of pupils enrolled in the instrumental classes. Four of the orchestra members were chosen to play in the All State School Symphony Orchestra. The All State Festival is to be held this year at Manchester. Each pupil desiring to play in the Symphony Orchestra will be given an audition at Keene before being accepted. We hope that some of our players will be interested to try out for it. The school band has ten players. The high school chorus presented the Operetta "The Moon Maiden" last year and is now at work on the operetta "Shooting Stars."

HEALTH

Health inspection in Alstead showed the following defects: 196 pupils were inspected.

- 9 pupils showed defective vision-uncorrected.
- 13 pupils showed poor posture.
- 18 pupils were underweight.
- 142 pupils were in need of dental care.
 - 5 pupils were unvaccinated—without proper excuse.

14 pupils were recommended to have throat and nose examination by a physician. A tuberculosis skin test clinic was held May 3, 1940 at the Vilas high school under the direction of Dr. R. B. Kerr of the New Hampshire Tuberculosis Association.

68 pupils were given the test.

64 pupils showed negative reaction.

4 pupils reacted, were taken to the Keene Community Hospital for X-rays and chest examination.

Dental clinics were held at East Alstead October 9, 1940, and at Vilas High School November 24 to December 4, 1940. Dentist Dr. J. H. Grimes, Keene, N. H., with work done as follows:

Number of pupils treated,	76
Number of cement fillings.	5
Number of perceluin fillings.	43
Number of amplgam fillings,	78
Number of cleanings,	62
Number of treatments.	37
15 numls had their teeth cared for hy their own dentist	

15 pupils had their teeth cared for by their own dentist.

8 pupils had special eye examinations and defects corrected.

1 tonsil case was treated privately.

1 tonsil case was treated at a clinic.

Some funds were received from the local Red Cross for corrective health work.

VILAS HIGH SCHOOL

The following extracts taken from the reports of the headmaster and teachers will indicate our educational aims and the type of work being done in the different departments of the school.

Special periods are set aside each day for make-up work. The teachers are glad at all times to assist pupils in their work and the pupils for the most part are conscientious in preparing their assignments.

Work in English proceeds as usual with emphasis on the practical side: conversation, letter-writing, etiquette, dictionary, reference books and the library, and reading for information and pleasure. The seniors take instruction trips to the local telephone office and to the Bellows Falls Times. Cheerful cooperation with the librarians in Alstead and in Aeworth has made it possible to have here at school a changing supply of good reading material. All students read eight books a year, and some many more. Students are admitted to study French only after they have attained a satisfactory score in a language prognosis test and declared a sufficient reason or strong desire to study French. These factors limit the size of the classes but insure the enjoyment and success of those who are admitted.

As far as it is possible, the Commercial Department this year is trying to provide work which will give the students actual office practice. The Office Practice students do work for the teachers, for the school office, and mimeograph programs and Vernacular for the school. Besides the regular business typewriting course, we are continuing the course of personal typewriting. Students who take this course study manuscript, outlines, letters, and other forms of typewriting which they will find will prove useful to them. The Junior Business Course aims to acquaint the pupils with such forms as cablegrams, telephone, selling, communication, and transportation.

Concrete algebra. geometry, and elementary business methods are being taught in the junior high school. First year algebra and geometry are being taught in the senior high school with the view to its application in life, as well as in the advanced sciences chemistry and physics. Advanced mathematics is offered also.

The basic course, general science, is offered in the two years of junior high school. The more advanced sciences offered are biology, physiography, and physics. The latter science is presented in a very practical way and with sufficient theory to explain fully the extensive application observed in the laboratory and in every day life.

Constitutional History—The purpose of constitutional history is to associate constitutional principles with actual political, social and economic conditions. The constitution is studied thoroughly, its source and operation. Important supreme court decisions are studied. Present day current events and state and local political situations are discussed.

History of Civilization—A narrative of human progress in all branches of civilization, from its beginning in Ancient Egypt, Crete, Greece, Rome, Middle Ages, formation of European countries to the present civilization. Economics—A study of vital significance to every student as it deals with the method of obtaining a living. It is a social science which treats of man's wants and of his efforts to secure the material things and the service to satisfy them. It serves to point out to the individual a better knowledge of our economic order.

In the Home Economics classes two outstanding projects of the last year were: "Painting Cabinets," and, "Making Slip Covers." Most of the girls in high school Home Economics had an opportunity to scrape paint, clean up the wood work in preparation for painting and paint on the four cabinets in our food laboratory. The 1941 class of H. E. girls has renovated an over-stuffed chair. The chair was taken apart, springs were retied, padding replaced and old upholstery sewed together. New Muslin cases were made for the springs in the cushion and a slip cover was made for the chair. The Home Economics class, with Miss Pierce and Miss Page, the cadet teacher, went on a shopping trip to Keene to select slip cover material for the chair. In May, 1940 a Home Economics team entered a state wide contest at Keene Teachers College and for the second year in succession won the honor of being in first place among the winners.

This year we have 28 boys taking Agriculture during the regular school day. In addition to their school work these boys have home projects in poultry, dairy and general agriculture. In the school shop many articles have been made for farmers in the community as well as the regular projects the boys made for themselves. The older boys have specialized in farm machinery repair including such projects as tractor, plows, and harrows. One of the boys bronght in a truck and made a farm tractor out of it. Our school was represented in the state public speaking contest and some of the boys exhibited eggs at the annual New Hampshire Egg and Baby Chick Show. Several of the boys taking agriculture went to the Eastern States Exposition in September, and nearly all of the boys attended the interscholastic judging contests held at the University of New Hampshire in October. In February five boys went on the Boston marketing tour where they had an opportunity to meet boys from many sections of the state and to study the Boston marketing district.

The school woodlot has been improved and since much of the land in this vicinity is covered with trees it is hoped that more time will be devoted to studying good forestry practices in the next few years. We have tried to secure a larger trace of forest land for this purpose, and special mention should be made of the splendid cooperation shown by the Selectmen of Alstead and several interested citizens. Burton Dana, George Porter, Gilman Ellis, and Mr. Newell offered us the use of their woodlots. Benjamin H. Bragg offered to give the school a tract of wood land and the selectmen of Alstead were willing to have the school use any land which they controlled. This generous support is greatly appreciated and should enable us to work out a very satisfactoory forestry program.

There have been definite goals set up for the girls' physical education program this year. In accomplishing these aims we have one major goal which is guiding us—the spirit of fine sportsmanship and good team work. To help foster these objectives the girls have again chosen leaders for the various activities. These girls comprise the Girls' Athletic Council whose duty it is to cooperate with the pupils and teacher in helping to keep our sports program along the line which all the girls will favor. One of the most important actions of the council has been to work out an activities point system whereby each girl in school may have the opportunity for earning a school letter. Not only does participation in sports help in obtaining a letter, but an active part in any school organization is required. By such a system it is our aim to make a school letter represent more than mere athletic ability. Such an emblem will be a sign of a real sportsman in every form of school activity. "Better Postures" has been set up as a headline in the girls' gym classes this year. In attaining this goal the aim is to teach the girls the desirability of good posture and to make each girl want to correct her own individual posture faults. The high school girls' basketball team found expression for their česire for competition in a game with the alumni girls. The school aims at non-competitive sports for girls, and we are planning to further this aim by joining in a playday at Keene with other schools of this vicinity.

The past year in the boys' physical education program has been devoted to some extent to promote an understanding of the various opportunities and values of our program. The general objectives have been to help the pupil to do better the desirable things that they are going to do anyway; to enrich life by showing the pupil additional interests and activities. Discipline, culture, preparation for adult life, and growth and adjustment of the child are of great economic and social value. A great deal of interest was aroused in our intra-mural games of last fall. Five teams were formed in the touch football programs and the results obtained were very interesting. The results were cooperation of captains and the various teams; precision, poise and a sense of responsibility. Tennis, softball, basketball, baseball and some track, calisthenics for better posture and coordination have received special attention throughout the year. The fifth annual father and son night was held in March with an increased attendance. The activities of the evening were, songs musical selections, tumbling, ring work, parallel bars, boxing, wrestling and a buffet lunch. The fifth annual field play day for the grade schools was held on the Vilas Athletic field in June under the direction of the Vilas Lettermen's Association. The grades are divided into groups participating in an activity in rotation. The activities include; high jumping broad-jumping, ball over bar, sack race, three legged race, 25 yard dash, volley ball and soft ball.

The socials are directed to a large extent by the students themselves. Once a month we have a social sponsord by one of the classes. These socials are directed and planned by a student committee with the help of a faculty advisor. Various classes put on assembly programs and devotional exercises under the direction of the Senior Class are held once each week. The moving picture machine is used regularly for School assembly program and class room instruction. The school band played in Langdon, Acworth, and Alstead on Memorial Day. A hot dish is served, at cost, in the school lunchroom each noon during the winter term.

BUILDINGS AND EQUIPMENT

The following improvements and repairs were made at the school buildings during the year:

Alstead Village School:

An automatic heat control device was installed. New ventilators were installed in the hallways and toilet rooms. The ceiling and walls in the upper primary room were painted. A steel tube swing standard was erected on school playground. The bulkhead door and front platform were repaired. Each room has been equipped with a sink with stands for the water cooler and wash water.

East Alstead:

A new celling was provided in the spare room. This room may now be heated and used as an activity room. The class room walls were painted and the ceiling whitened. The desks were varnished. The toilet rooms and hallways were painted. The window screens and screen door were repaired. A swing standard was erected with supports anchored in a concrete foundation.

Vilas High School:

The walls in the following rooms were re-finished in Dado in accordance with the interior painting program: Office, science laboratory and equipment room, commercial room, classroom No. 5, classroom No. 6, library, health room, teachers' room, and shop. The boilers, burners, and all the mechanical boiler room equipment were cleaned and serviced. The soap dispensers were replaced throughout the building as a service item. All floors in classrooms, laboratories, and supplementary rooms were refinished with filpore and wax. The gymnasium floor was refinished with two coats of lastincote.

Lawton House:

A full length dormer section with four windows was built on the south side of the house. This construction has provided an extra sleeping room and has improved the lighting and ventilation in the other rooms. All upstairs rooms were papered and painted. This work was done with money from the Vilas building fund.

Other lesser repairs at all buildings were attended to as needed.

STATISTICAL REPORT 1939-1940

This report includes the statistical data covering the full school year which closed in June 1940. The report is made each year as a matter of record and in form to permit facility of comparison.

Total registration,	220
Average membership,	197.82
Percentage of Attendance,	95.27
Cases of tardiness,	356
Number of pupils not absent or tardy,	18

The continued increase in the percentage of attendance and number of pupils with perfect attendance record, is very commendable. An examination of the school registers for the year indicates that the substantial increase of the number of tardinesses was due to the very irregular attendance of children from two large transient families and is not a reflection upon the record of the regularly enrolled pupils. I wish to make grateful acknowledgment to the individuals and groups in the different communities who by their gifts and support have assisted in the development of our educational aims.

I appreciate also the excellent support and cooperation which I have received during the year from the members of the School Board, teachers, parents, pupils and friends of the schools.

> Respectfully submitted, CHARLES D. DALZELL, Superintendent of Schools.
