REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board of Deering, N. H.:

The sixth annual report of the Superintendent of Schools for the year 1924-5 is hereby submitted:—

At the beginning of this year consolidation of some of our schools was seriously considered, but it was finally thought best to continue with the same schools as formerly. Mrs. J. D. Hart returned to the Pond School and Miss Holmes to the East Deering, the other schools have new teachers. Miss Eveline Nelson, a graduate of the Hillsboro High School, and a student at the summer session of the Keene Normal School, taught at North Deering, Miss Ruth Brown of Hillsboro, and a graduate of Keene Normal School, came to Manselville, and Miss Esther Grout, who was also a student at the summer session of the Keene Normal School, taught at West Deering. Mrs. Hart, Miss Holmes and Miss Brown had experience in teaching while the other two were new to the work, but they both did well and were reengaged for the coming year. Each of our teachers received a salary of \$648.00, which is low compared with the salaries paid in other towns of about the same size in our state.

The average salary paid our teachers for the past four years is indicated below:—

1921-2	\$504.00	3 teachers
1922-3	\$648.00	4 teachers
1923-4	\$631.50	5 teachers
1924-5	\$648.00	5 teachers

From the table it will be seen that our salaries have remained about the same for the past three years, and that because the number of schools has been increased from 3 to 5, the total amount paid in salaries has increased from \$1,512 to \$3,240. Is this increase in the number of schools necessary? I notice that most people seem to believe in consolidation of schools in all cases except in their own district. Might it not be a good idea to dis-

cuss the matter of consolidation at the annual school district meeting, so that its difficulties and advantages may be more clearly brought out. Although it should be understood that the school board has the deciding voice in the matter.

No one will deny that our children deserve as good, as well prepared teachers as can be found, and when the time comes that our present satisfactory teachers decide to leave us, I recommend that we try to fill their places with New Hampshire trained Normal graduates. It is true that the minimum salary for such teachers is \$900, yet if it should be decided to have three schools again instead of five, and engage normal graduates, we not only would have teachers with the most approved training, but would actually save money, because three at \$900 each amounts to less than five at \$648 each.

Last year we had 56 Deering children in our schools, while this year we had 57. These were divided among the schools as follows:—

Manselville 20	West 10
North 10	Pond 9
East 8	

At one time there were 14 in the Pond School, but as 4 of them attended both that school and the East School, they were counted in the school they first attended. Another one of the Pond pupils came from Francestown, so that beside the 57 Deering children, we had one tuition pupil, or 58 as a total enrollment. Below is an enumeration of all the Deering children attending school here or elsewhere:—

Grades	Boys	Girls	Total
1	4	2	6
2	3	5	8
3	8	3	11
4	3	2	5
5	4	7	11
6	3	1	4
7	6	2	8
8	1	3	4
High School	4	3	7
College	2	2	4
Hillsboro Gr.	1	3	4
Total	39	32	71

That means that about 30% of our population is attending school, a very large percentage, and for a town of our size to have four in college is worthy of notice. Without making any careful investigation we can think of 18 residents of Deering, who have attended. That number does not include those who have attended college. Probably not many towns can claim 7.8% of the population as college alumni.

One of the eighth grade pupils left town before the close of the school year so that there were only three to be graduated, Thelma Wood, Grace Worth and John Loveren, and again 100 per cent attended High school, Thelma and John going to Weare, and Grace to Hillsboro.

Our second annual graduation exercise took place in the town hall at 8 P. M. June 12th, followed by a real social hour with refreshments. The hall was beautifully decorated by teachers, school board, superintendent and some of the pupils, and in every way the affair was a success, with the following program:

Invocation	Rev. W. T. Thistle
Class Prophecy	Thelma Wood
Transportation by Water	John Loveren
Song, Homeward Bound	North School
The Value of Good Reading	Grace Worth
Exercise, The Star Spangled Banner	West School
Song, Wahneta	West School
Wand Drill	Pond School
Recitation, Battle of Blenheim	James Laferriere
Song, My Bonnie	James Laferriere
Play, The Change of Name	Manselville School
Song, Father Time	Manselville School
Presentation of Diplomas, and Address	Supt. A. A. Holden
Social Hour and Refreshments	

Standard tests were again given this year, and the children as a whole stood well above the average.

During the past four years the superintendent has made the following number of visits of supervision and inspection: 1921-2, 42 visits, 3 schools; 1922-3, 53 visits, 4 schools; 1923-4, 59 visits, 5 schools; 1924-5, 94 visits, 5 schools.

The open winter, during which the automobile was used all but two weeks of the time made the large number of visits possible this year. On the average each teacher received a visit from the superintendent slightly more than once every two weeks.

Teachers reported 9 visits of the School Board. There were 174 visits by parents compared with 130 the previous year. The North District being the banner district in this respect, having had 59 visitors. The percentage of attendance, 92.9% was slightly better than last year, but not as good as we wish it to be. It ranged from 90.4% at West Deering to 94.3% at Manselville.

I trust that teachers, parents and pupils will help to improve our record in tardiness. There is far too much tardiness. Punctuality is a moral quality. Teachers are expected to train character, and they should be supported in that attempt, in so far as they are wise and tactful, by the parents. It is considered that three cases of tardiness per pupil each year is a poor record for a school and less than 1 per pupil is commendable. According to that the East and West schools had a bad record, the Pond and North schools had a fair record, and Manselville had an excellent record. To let you know what is possible, I will say that in one of my rural schools in another town, where it is just as difficult for the children to get to the school as it is in any of our schools, there has not been a single case of tardiness for two years. The record for our schools follows: Manselville 13, North 19, Pond 24, East 39, West 52.

If it were not for the Cote children we would have no Roll of Honor this year, as Archie, Bibian and Leonard Cote were the only ones in the whole town who were neither absent nor tardy for the year.

The greater the number of days of school per year.

the more the children can be taught. Last year we averaged 171 days of school out of a possible 180, and this year we averaged 176 days. That is a good record.

Dr. C. B. Abbott, the Medical Examiner, made the following report of his examination of 49 children:—

Defective vision	5
Skin disease	3
Defective teeth	40
Enlarged tonsils	5
Adenoids	3
Enlarged glands	12
Unvaccinated	10

That 40 out of 49 children should have defective teeth is a condition needing the attention of the parents. I am certain that the teachers emphasize the proper care of the teeth, and it may well be brought to the attention of the parents also. The law contemplates that all children should be vaccinated, except under certain conditions, and 10 is too large a number to be accounted for by those exceptions.

We feel that this has been in many ways a successful year, for which we again thank parents, teachers, pupils and the School Board.

Respectfully submitted,

A. A. HOLDEN,
Supt. of Schools.
