### Report for the Year Ending Jan. 31, 1942

We gratefully acknowledge the many gifts of books and periodicals received. We also wish to express appreciation of the fact that during the past two years, through the auspices of the National Youth Administration, a High School girl has been loaned to the library to assist Mrs. Rickard.

While the adult circulation has decreased slightly during the past year undoubtedly because many are engaged in defense activities, the Juvenile circulation has increased by 1,087, due largely to the efforts of the English Department at the High School.

## WHITE PINE BLISTER RUST CONTROL

---

That this work was important is evident by the fact that during 1941 the Federal Government declared blister rust control a part of the National Defense program since white pine is considered a state and national resource. The tremendous cut of white pine during 1941, and the war purposes to which it has been put, indicates that it is indeed a resource of no small proportions. Consequently, its protection is vital.

Upper Village: None reported for the entire year.

Merrill School: None reported for the entire year.

Flat School: Marion Dennis, Virginia Lougee, Sylvia Lougee, Merline Smith, Elizabeth Southwick.

The following pupils were graduated from the elementary schools of the Town district: Eunice Senecal, Marion Dennis, Marion Murdough, Barbara Baldwin, Carl Olson, Barbara Anne Crane, Helen Sweeney.

### General Discussion

The schools of the Town district opened in September with enrolments as follows: Center, 20; Flat, 24; Lower Village, 15; Upper Village, 27; Merrill, 9; making a total of ninety-five pupils. At this writing the full membership is less owing to the fact that several families have moved out of town. Twenty-one pupils from the district attend Hillsboro high school, which makes a total school enrolment of about one-hundred-sixteen. For the last few years the school population of the country as a whole is much lower than it used to be due to our economic and social conditions, which tend to a lower birthrate. It is not good for any nation to have a continued low birthrate.

Since last report the school board has made a heroic effort to improve the lack of water in the schools, by cleaning out and repairing old wells. The buildings have been kept up. And our policy of furnishing the pupils with up-to-date and modern materials has been continued. The children of this district who attend high school are giving a good account of themselves.

The question of whether or not the schools of this district should be consolidated in one way or another belongs in the hands of the voters of the school district. It can be shown that a consolidated school system will offer better athletic and social advantages. Such a system can offer more interesting, more lifelike activities, more comfortable living quarters, and wider contacts. Financial statistics compiled over a period of years both locally

and the state over do not prove either one way or the other that any one system is less expensive. The one room situation is probably less expensive to operate. It cannot be shown that a consolidated school system will mean better scholastic achievement in higher institutions of learning. The advantages which should be stressed in the life of any individual are chiefly a matter of opinion. They are also a matter which concerns the pocket-book. For these very good reasons the voters of the school district should turn out strong at the annual meeting, and this being a democracy, let the opinion of the majority rule.

In these days of national and international strife let us not forget that the education of our boys and girls must go on uninterrupted by the lure of high wages which even school boys and girls may command. We need all the advantages which education affords in order to maintain and propagate the principles of American democracy for the defense of which we have taken up arms. Dictatorships do not thrive among enlightened peoples.

A very important problem which school districts must face this year is the question of rising costs. Consequently school boards will be obliged to increase some of the budget items in their recommendations for the appropriations of the ensuing year. It goes without saying that the general public in Hillsboro is as well aware of these conditions as those of us who are directly connected with the conduct of the schools, and that these matters will be favorably and sympathetically considered at the annual meeting of the school district.

It has been a pleasure and a privilege to be associated with your school board, they work with open minds and a fine spirit of cooperation on behalf of the boys and girls of the community.

Respectfully submitted,

VINCENT GATTO,  
Supt. of Schools

Amount to be Raised by Taxation

\$27,356 00

We estimate the required amount for the school year July 1, 1942 to June 30, 1943, to be \$31,256.00; details of the amount to be found in the proposed budget of the Hillsboro Special School District. We expect receipts of about \$3,900; this leaves a balance of \$27,356.00 to be raised by taxation.

The remodeling of the high school gymnasium has been the major building improvement during the year.
