Town Warrant

To the Inhabitants of the Town of New Ipswich in the County
of Hillsborough in said State, qualified to vote in Town
Affairs

You are hereby notified to meet at Town House, in said New Ipswich on Tuesday, the eighth day of March next, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriation for the same.
3. To see if the Town will raise and appropriate the sum of two thousand dollars (\$2,000.) for the maintenance of the State Road.
4. To see if the Town will vote to raise one hundred fifty dollars for Memorial Day.
5. To see if the Town will vote to borrow money in anticipation of taxes.
6. To choose one member of the Electric Light Committee for three years.
7. To choose two members of the Trust Funds, one for two years, and one for three years; this same committee to serve as Trustees of the Spaulding School Fund.
8. To see if the Town will vote to raise one thousand dollars for Street lighting.
9. To see if the Town will vote to raise one thousand fifty dollars to pay the balance of principal and interest on the Electric Light Department note.
10. To see if the Town will vote to buy a Tractor and Snow Plow and to take the money necessary from the surplus in the Town treasury.
11. To see what action the Town will take in regard to procuring a resident physician and to raise such sums of money as

the Town shall see fit to provide a bonus for said physician. Any money appropriated under this article shall be taken from the surplus in the Town treasury.

12. To see if the Town will vote to purchase a Fire Truck and to raise and appropriate the sum of four thousand dollars for the same, and should any extra money be needed, to give the Selectmen authority to take it from the surplus in the Town treasury.

13. To see if the Town will vote to extend the Electric Light Line from the residence of Robert B. Walker to the residence of August Lilius and Mrs. John Koski and to raise and appropriate money for the expense of same. If proposed line is built, the following petitioners will give six days work each: August Lilius, Willis Mansfield, Mrs. John Koski, Matti Isola, William E. Aldrich, Niles Johnson, Ida Kavanen.

14. To see if the Town will vote to extend the Electric Light Line from the residence of Ilmer E. Aho to that of John Hill, thence to Matti Maki, and to raise and appropriate money for same. Should this line be built, Matti Maki, John Korpi, Sulo Saninen, John Hyvarinen, John Hill, and Waino Laarkso will each give one week's work.

15. To see what action the Town will take to widen and grade where necessary, the road leading from the residence of Leon R. Willard to the State Road near the residence of Daniel E. Putnam, and to raise money for the same.

16. To see if the Town will vote to raise two hundred dollars to prevent the spread of the white pine blister rust. If this amount is raised the State will give twenty-five dollars for every hundred dollars raised and furnish a supervisor for the work.

17. To see if the Town will vote to raise the sum of \$594.00 for State Aid Construction. If said money is raised, the State will give \$1336.50.

Given under our hands and seal, this seventeenth day of February, in the year of our Lord nineteen hundred and twenty-seven.

ROBERT B. WALKER
JOSEPH SILVER
WALLACE O. TENNEY
Selectmen of New Ipswich

A true copy of Warrant—Attest:

ROBERT B. WALKER
JOSEPH SILVER

Auditor's Report

To the Citizens of New Ipswich:

Your auditor has duly examined the accounts of the selectmen, town clerk, treasurer, chief engineer, electric light committee and administrators of the trust funds. He has found all these accounts in excellent shape, in agreement with each other, and with ample vouchers. The treasurer's accounts agree month by month with the statements of the Townsend National Bank.

The auditor has also examined and approved the accounts of two of this year's road agents, and one of last year's. The other of last year's road agent did not present his accounts for inspection, and one of this year's road agents lacked vouchers for several items in his breaking roads accounts. Consequently two accounts go unaudited this year.

The auditor believes these road agents to be honest and to have spent as represented the moneys they have received from the selectmen, but for their own protection they should have presented their accounts in shape for auditing. Thanks to the epidemic of defalcation and embezzlement that has spread over New Hampshire and Massachusetts the last few years, every man that handles public funds is easily open to suspicion, and should safeguard his reputation in every way.

The auditor would suggest that every subordinate official in New Ipswich handling public funds insist upon a receipt for

every payment, at the time the payment is made, and check his accounts monthly by comparison with the selectmen's books. The people of New Ipswich have a right to know, and should insist upon knowing to the last cent, exactly how the town's money is spent. Only by so doing can they avoid, in the long run, the disgraceful experience that so many towns in New England have lately had.

Respectfully submitted
 HERSCHEL W. LEWIS
 Auditor of the Town of New Ipswich

Report of the Committee to Procure a Resident Physician

To the Citizens of New Ipswich we hereby submit a report of our efforts to procure a resident doctor for the Town, for which the Town voted a bonus of \$900.

Immediately after the Town Meeting of March, 1926, the committee met and organized with Mrs. Bertha P. Preston as Chairman and Mrs. Bessie M. Cushing as Secretary. The committee held several meetings, talked the matter over and made plans. Each member of the committee wrote to and consulted various doctors, among these were Drs. Woodward, Pitcher, Simmons, Stimson and Donovan of Fitchburg, Dr.

Pease of Greenville, Dr. Norris of Cambridge, Dr. Duncan of the New Hampshire State Board of Health and many others. They advised us to apply to the different Medical schools, from every one of which we received the reply that they would keep our application on file and inform us. Among the Medical Schools written to were, Dartmouth Medical School, University of Vermont Medical School, College of Physicians and Surgeons in New York, Tufts College Medical School, Harvard Medical School, Boston University Medical School, Massachusetts Medical Society, City Hospital of Worcester and the Burbank Hospital at Fitchburg, Mass. Two members of your committee visited the Burbank Hospital several times in the hope of procuring an interne there, who had been highly recommended. He finally decided to return to his native state of Pennsylvania to practice. The following is quoted from a letter of the Dean of one of the Medical Schools:

“I am very sorry to say that I can give you, in general, little encouragement, and, immediately, no hope of success in your search for a doctor. I shall be glad to make your quest known to our men who may be looking for a place to locate. It would seem that most of them are dazzled by the glare of the city and would rather starve behind a brass plate in a skyscraper, than make a comfortable living behind the wheel of a flivver in the smaller cities and towns. The supply is very slow to respond to the demand and when new doctors are created, as a result of this demand, they are artificially diverted to a glutted market in the city.”

Before the work had progressed very far your committee as well as the town lost a valuable and esteemed member in the death of Lauriston M. P. Hardy. He was greatly interested in procuring a resident doctor. He had already communicated with a doctor in the northern part of the state, who, as soon as the roads were suitable, was to visit the town to look the situation over. After Mr. Hardy's death he had no desire to locate here.

We were finally advised to insert an advertisement in the Boston Medical and Surgical Journal, which is the official organ of the Massachusetts Medical Society. This Journal is subscribed to by doctors all over the country. From this advertisement we have obtained our best results. We have had letters from about twenty doctors asking for information about the situation here. This shows that there are doctors seeking a location or a change in location. Six different doctors have paid us a visit, and several times we have felt almost sure of obtaining one only to have him locate elsewhere. We

have decided to insert our advertisement again in the Boston Medical and Surgical Journal for six consecutive weeks. We have already received two answers and are in communication with these doctors. We are also corresponding with the National Physicians Exchange in Chicago.

Three problems seem to confront us: First, a suitable house for a doctor. Second, the requirements of the New Hampshire State Medical Board for a doctor to practice in New Hampshire. New Hampshire has reciprocity with a few states; and only a doctor who has passed examinations in those states can practice in New Hampshire. Otherwise he must take the New Hampshire State Board examinations, or pay a fee of \$20 and fulfill certain other specified conditions. These examinations are given at Concord only twice a year. Unless a doctor is fresh from Medical School, it means months of study to brush up on many theoretical subjects, which are not often used in daily practice and by many forgotten. Massachusetts has reciprocity with no other state. Several of our applicants have been from Massachusetts and they have preferred to locate elsewhere in Massachusetts than to pass in all its intricate details the four day written examination of the New Hampshire State Medical Board. We feel that but for this we might have had a resident doctor now.

Third, the bonus. We have found that other towns, desiring a resident doctor, are offering a larger bonus than \$900.

We believe that the town of New Ipswich should provide a bonus of \$1200 per year in order to compete with success with other towns in search of a resident physician.

SCHOOL WARRANT

To the Inhabitants of the School District in the Town of New Ipswich qualified to vote in District Affairs

You are hereby notified to meet at the Town Hall in said district on the 8th day of March, 1927, at 2 o'clock in the afternoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the district.
6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
7. To choose Agents, Auditors and Committees in relation to any subject embraced in this warrant.
8. To see if the district will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the district, as determined by the school board in its annual report.
9. To see if the District will vote to raise and appropriate money to open and conduct an evening school, for instruction of such persons as desire to become naturalized citizens, but are at present unable to do so on account of lack of education in the English language.
10. To see if the District will vote to authorize the School Board to make any more suitable arrangement for transportation of pupils to the Junior High School by purchase of one or more Trucks or Automobiles and hiring drivers to transport the pupils or any other arrangement, so that all pupils are transported from their homes to the school and back again, and raise and appropriate money for the same.

Given under our hands at said New Ipswich this 15th day of February, 1927.

 MABEL M. ALDRICH
 School Board

REPORT OF THE SCHOOL BOARD

TO THE CITIZENS OF NEW IPSWICH:

The schools are progressing very well this year with hardly an interruption thus far because of bad weather and but little due to sickness.

Though there was, the first of the year some difficulty in securing a permanent teacher at the Number Six school, it has been running smoothly since October with a promise of continued success.

There are a few repairs necessary to be made as soon as possible. The Smithville schoolhouse must be shingled and considerable work needs to be done to make the outdoor toilet at Number One school in proper condition.

It is our intention to supply better playground equipment for the Number One and Number Four schools; this, with the assistance of the pupils at Number One, who will gladly help to raise money by entertainments, etc.

Also the Parent-Teacher Association has signified its willingness to contribute toward this end. Too much cannot be said of the great work this association has done and is still doing in our community.

Transportation is an ever present problem and we have studied the situation in New Ipswich with advice from the State Board, and are confident that our system is as good, if not better than any we know of.

"If the district furnishes a conveyance to children at a point one mile or less from their home it has met the requirements of the law."

To do more than this, with the pupils so widely scattered, would call for such a sum of money as is practically prohibitive. Conveyance in comfortable, closed cars, almost every day, right through the winter is in our estimation "reasonable transportation."

And our drivers' daily schedule, with the mail route also to cover, is so definitely marked out that time varies scarcely any from day to day.

Respectfully submitted,

NETTIE E. LEWIS

GEORGE R. JAQUITH

SUPERINTENDENT'S REPORT

TO THE SCHOOL BOARD AND CITIZENS OF NEW IPSWICH:

I submit my fourth annual report as Superintendent of Schools

SCHOOL ORGANIZATION

The opening of schools in September 1926 found us again with a large number of new teachers, Mrs. Corthell and Miss Morrow only remaining in your service. The new teachers are: at Number One Miss Pearle W. Steele, a graduate of Keene Normal School last June; at Number Four Miss Blanche A. Grant, a graduate of a Normal School in Nova Scotia with several years of successful teaching experience in that province; at Smithville, Mrs. Alice Smith who has had several years successful teaching experience in Vermont; at Highbridge Miss Helene A. Martin, a graduate of Keene Normal School last June; at Number Six Miss Abbie Shea was substitute until Christmas vacation, and then we transferred Mrs. Smith from Smithville; Miss Annie Keene, a teacher of several years experience in Maine, has taken the Smithville school for the remainder of the year.

This experience still further emphasizes the situation referred to last year. We have not increased the permanency of the teaching force. How to hold good teachers longer is still our unsolved problem.

The census of September 1926 shows a decrease of thirty children between the ages of 5 and 16, and the total school enrollment shows a decrease of twenty-three from the previous year. The percent of attendance is slightly lower than the previous year but still a trifle above the state average.

SUPERVISION

The statistical report following shows 142 supervisory visits made during the year as compared with 147 the previous year. Not all of the supervisory work is done in actual school room visits but considerable is done by means of standard tests. The results of a series of standard tests and remedial teaching in language errors carried on last year illustrates what we are trying to do by this means. The test was given in October 1925 to all fourth grade children. Specific suggestions were given the teachers for remedial teaching and the test repeated in December. After another period of remedial teaching, a test was given in March and again in May. Following the summer vacation and a period without specific instruction on these particular errors, the test was given again in November 1926. The table below shows the percentage of all the fourth grade children in the district who scored A, B, C, D, and E. In each test the gain was steady throughout the period of teaching and was permanent as indicated by the test given six months later.

LANGUAGE ERROR TESTS—FOURTH GRADE 1925-26

Percent scoring:	A	B	C	D	E
October 1925	27	21	26	17	9
December 1925	40	28	20	11	1
March 1926	59	25	10	5	1
May 1926	71	20	7	2	0
November 1926	73	19	5	3	0

MEDICAL INSPECTION

The report of the medical inspection by Dr. Pease and Miss Frye shows the following results:

Number of children examined	151
Defective Vision	7
Cardiac Disease	2
Pulmonary Disease	1
Defective Teeth	98
Enlarged Tonsils	33
Unvaccinated	8

Treatments since the last examination are reported by the School Nurse as:

Number of diseased tonsils removed	7
Number of pupils having vision corrected	5
Treatment for pediculi	4
Number of pupils who have had dental work done	9

In January all pupils were weighed and measured. 21 were found to be underweight.

All pupils have been supplied with tooth brushes, and health devices encouraging the daily practice of all health habits are being used in each room.

SCHOOL ATTENDANCE

The purpose of the revision of the School Laws in 1919 was to equalize school opportunities. School attendance is only one aspect of this problem but it is an important one. Schools are required to be open at least thirty-six weeks each year and in the school year 1925-'26 no school in the state fell short of this requirement. However, the actual time schools were in session in the 252 cities and towns varied from 328 to 368 half days. Schools were in session 351 or more half days in 48 cities and towns, but 16 of these have 37 or 38 weeks instead of 36. At the other extreme were 40 towns with from 328 to 340 half days. The remaining 164 towns varied from 341 to 350 half days of school out of a possible 360. The six towns in this Supervisory Union were in this middle group. The average in New Ipswich was 344.

I proposed to the teachers at the opening of schools last fall that all days lost on account of sickness, weather conditions, etc., during this school year should be made up, so that we might be sure of at least 350 half days actually in session. In many cases we hope to exceed that number. Some School Boards are now making contracts with their teachers calling for 360 half days with allowance for Teachers' Institutes only. This is one way to increase school opportunities without increasing the cost.

CHARACTER EDUCATION

This section is based on a Chapter in the biennial report of the State Board of Education, just published.

We have read and heard much discussion in the past few years on the prevalence of lawlessness and immorality. This has always been so, for every generation believes that the young people are more thoughtless and less law abiding than formerly. So called "crime waves" have swept our country from time to time but there is nothing to indicate that they have affected the young people in any greater proportion than adults. On the other hand it is a matter of record that the number of misdemeanors and petty infractions of the law by children have decreased year by year. Exact comparison is difficult but I am

convinced that, if we could make an accurate comparison of the children of today with those of say fifty or one hundred years ago as to their behavior in school, on the street, or elsewhere, such comparison would be very favorable to the present generation.

Professor Bagley of Columbia University has attempted to determine the relative standing of the states of the Union as to morality and has reported the following tests:

1. He finds that in the list of 48 states New Hampshire stands second (being surpassed only by Vermont) in having the smallest proportion of its population committed to federal penitentiaries.

2. New Hampshire stands first in the list in having the smallest proportion of its resident population committed to state prisons.

3. New Hampshire stands first in the list in having the smallest ratio of homicides to the population.

4. New Hampshire stands third in the list (being surpassed only by New York and Nevada) in having the smallest proportion of drafted soldiers free from social diseases at the time of registration. Many other comparisons might be suggested but so far as I know have not been accurately investigated.

Some people, disturbed by what they believe an unusual laxity in morals, have insisted that the remedy lies in the introduction of religion into the schools. There has never been a law in New Hampshire requiring instruction in religion or the use of the Bible in the schools. But by common custom some part of the school day in practically every school in the state has been devoted to exercises of a devotional character, including the use of the great psalms and prayers and daily reading from the Bible. There is no doubt that these exercises are valuable in the development of character and they should be continued as one of the means by which the schools can encourage good behavior, but we must always guard against the use of any material that favors any one religious belief or creed above another.

As a matter of fact an increasing amount of attention is given in our public schools to definite instruction in the civic and personal virtues. Many outlines have been prepared and used for this purpose, and a new and more comprehensive program in character education has just been prepared by a committee of experienced public school teachers in this state, which is about to be placed in the hands of the teachers.

However effectively the principles of character may be imparted by direct instruction we recognize that much, if not more, depends upon the children's conscious or unconscious imitation of parents, teachers and associates. In the selection of teachers

high moral character is a prime consideration. No teacher can be certified to teach in New Hampshire until her character is vouched for by dependable people, and her certificate may be cancelled at any time for immorality.

“Character depends upon ideals, but in its expression it is shown by daily reactions and habits. Our schools inculcate character by daily routine and effective administration, by insistence on regular and punctual attendance, upon diligence and an attitude of respect, by arithmetic and history, and organized play in which the teachers and pupils work together.”

FINANCES

The budget submitted for the year 1927-'28 calls for \$300.00 more than last year for teachers' salaries because, in the opinion of the Superintendent and School Board, this is necessary to secure or to keep good teachers. There is no material change in the other items of the budget except high school tuitions and Academy rent.

We anticipate a larger number of high school tuitions to be paid next year as there are no New Ipswich pupils in the present senior class at the Academy and we may reasonably expect a good proportion of the present eighth grade to enter the Academy. Our estimate is based upon the tuition rate of \$70.00 per year.

Our method of raising the money with which to pay the Academy last year in a lump sum of \$400.00 has caused some misunderstanding both with the Academy treasurer and with the state office. In this year's budget, \$90 of the total sum is included without estimate of janitor service, \$100 with the estimate for fuel and \$10 with the estimate for janitor's supplies, because we have to report it in that form to the state office as a basis for the allotment of state aid.

In closing, I wish to express my appreciation of the support of the School Board, teachers and citizens.

Respectfully submitted,

VERNON S. AMES,

Wilton, N. H. Feb. 12, 1927.
