To the Public.

The officers and resident property owners hope to accomplish the following results within a few years: Replace all wooden bridges with concrete and steel or with steel tubes; reduce the town debt a little each year.

Continue on with the State aid road work and when we have accomplished the above result it will mean a very low tax.

Special Expenses.

The town the past year has been called upon to pay some special bills such as every town has to at times meet, but it is safe to say that it will be many years before such demands will again be made.

A few of the special bills are the following:

The school houses repainted throughout, new fixtures, entire new set of school books, maps, flags.

Every sign board repainted and new boards where needed, all sign posts new and of quality to last many years, several new signs put up to comply with the Highway laws.

The election officers bills were larger than in the history of the town caused by conditions that existed during the past year, and we hope will never occur again.
