PUBLIC LIBRARY REPORT

We have added to the library 25 books. We adopted the plan of asking patrons to suggest what books they would like to add. Consequently more of the books are near publishers price, though Messrs. Howes & Allen gave us a fair discount. The grange will notice that we have several books on Agriculture and it is hoped that farmers will take more interest in the library.

SCHOOL REPORT

At the opening of the spring term of schools there being only three scholars that would attend the school at the Centre Village the School Board concluded the only wise and proper course for them to do would be to have those scholars conveyed to the school at the upper village.

For many reasons this proved very satisfactory probably there was a better average of attendance which helped to secure State aid, more incentive for the scholars, and economy in the matter of spending the appropriation, and under the charge of an experienced teacher that has taught in every school in this town with perfect satisfaction.

At the time of commencing the fall term of schools the number of scholars in the Centre had increased to nine there was some objection to the scholars being carried, a school was opened at the Centre.

We were very fortunate in securing a very efficient and experienced teacher and the school has made good improvement under her charge.

There has been three changes in the teacher at the East Village School.

Miss Swain taught the spring term of 1911 with good success, but changed to the Upper Village School near her own home which was more convenient. The other changes were caused wholly by sickness. The teachers were chosen by their reputation as teachers and good recommendations which were well sustained.

It is the intention of the School Board to secure the

same teachers for the spring term.
