For information about undergraduate admission to the University, students may contact: Eugene A. Savage, Director of Admissions

For information about courses and academic records, students and former students should contact: Stephanie Thomas, Registrar

It is the policy of the University of New Hampshire not to discriminate on the basis of race, color, religion, sex, national origin, or handicap in its recruitment and admission of students or awarding of financial aid, in the recruitment and employment of faculty and staff, or in the operation of any of its programs and activities, in accordance with federal and state laws and regulations. Inquiries concerning the application of or compliance with such laws and regulations should be addressed to the University Director of Affirmative Action.

General Information

Facts About the University

History

The University of New Hampshire, founded in 1866 as the New Hampshire College of Agriculture and the Mechanic Arts, was among the early state institutions of higher education whose formation was made possible by federal government land grants to establish colleges to serve the sons and daughters of farming and laboring families.

First located in Hanover as part of Dartmouth College, New Hampshire College moved to its present campus in Durham in 1893 after Benjamin Thompson, a prosperous farmer, bequeathed land and money to further the development of the College.

The College prospered in Durham, and in 1923 the state legislature granted it a new charter as the University of New Hampshire, composed of the Colleges of Agriculture, Liberal Arts, and Technology. The Graduate School was formally added in 1928. The two-year program in agriculture which had been offered since 1895 was formally recognized in 1939 (now the Thompson School of Applied Science). The Whittemore School of Business and Economics was established in 1962.

In 1963 the state's system of higher education was created when the teachers' colleges at Plymouth and Keene were brought under the same Board of Trustees as the University. In 1969 the state legislature recognized the extended functions of the College of Agriculture, renaming it the College of Life Sciences and Agriculture; and the School of Health Studies was established as part of the University's programs. Beginning in 1971, the Division of Continuing Education was authorized to offer Associate in Arts degree programs as an additional approach to higher education for New Hampshire residents. In 1975 the College of Technology was renamed the College of Engineering and Physical Sciences.

Since 1967, the University has provided a widening range of undergraduate and graduate studies through its program at the Merrimack Valley Branch in Manchester, where development of a permanent campus is under way. In 1972, the School of Continuing Studies was created to coordinate the off-campus, educational programs of the University System institutions and to carry instructional services to communities throughout New Hampshire.

In the 1976-77 academic year, the University had 10,348 students enrolled. The State Colleges at Plymouth and Keene had a combined enrollment of about 6,400, and more than 1,300 students were enrolled in Merrimack Valley Branch programs. The School of Continuing Studies had more than 1,030 students.

Academic and cultural resources of each campus are amplified through System-shared programs and facilities. Cooperative ventures among the 13 member institutions of the New Hampshire College and University Council combine public and private higher education resources.

Physical Plant

The University campus in Durham covers 156 acres. There are 35 buildings devoted to instruction, research, and administration; 30 residence halls housing about 4,500 men and women; and three modern dining halls. Total University lands—including athletic fields and woodlots—comprise 3,500 acres. In addition to new residence and dining halls, major construction completed during recent years includes:

University Library, with 710,016 volumes, 5,683 periodicals, more than 7,622 tapes and records, music listening rooms, and a substantial microfilm collection, has been expanded to accommodate up to one million volumes and to provide increased study area.

Whittemore School of Business and Economics occupies a new four-story building containing classrooms, seminar rooms, lecture halls, offices, and sophisticated business and technological equipment.

Parsons Hall, completed in 1970, provides modern facilities for the Department of Chemistry.

Athletics—Physical Education Facility, includes indoor swimming pool, track, and gymnasium. Snively Arena, an indoor ice hockey rink, also accommodates convocations and major cultural attractions.

Kendall Hall, a five-story building completed in the spring of 1970, is the home of the Animal Sciences Department with offices, classrooms, and laboratories. The library for the College of Life Sciences and Agriculture and for the Departments
General Information

of Microbiology and Zoology is located on the first floor.

The New England Center, a cooperative effort by the six state universities of New England to provide outstanding continuing education programs throughout the region, is located at Durham. Offices for several regionally oriented educational organizations are in its administration center, and its residence-dining-learning center provides modern facilities for adult education conferences and seminars.

Teaching, Service, and Research

The University of New Hampshire is committed to offering excellent educational programs and opportunities for its students. The University's 570 full-time teaching faculty provide a ratio of one full-time faculty member for each 18 students. More than 75 percent of the full-time faculty hold doctoral degrees, and many have earned national and international reputations in their professional fields.

A faculty member's first responsibility is to teaching students. In the tradition of the nation's land-grant colleges, the University also encourages its faculty to contribute to the growth of human knowledge through scholarly research and service to the community beyond the campus.

Accreditation

The New England Association of Schools and Colleges is the major accrediting body for the University of New Hampshire, and the University is a member in good standing of that Association. Specialized programs of study are also accredited by various professional organizations.

Admissions Procedure

General Information

The admissions policy of the University is designed to provide for the admission of those students whose personal records, achievement, aptitude, and motivation demonstrate that they have the qualifications for carrying the desired program satisfactorily. Factors of sex, race, religion, color, handicap, and national origin do not enter into the admissions process.

Eligibility for Degree Candidacy

An applicant who meets the appropriate requirements for admission may become a candidate for any undergraduate degree offered by the University. However, applicants having received one degree from any institution will not be admitted into a program of study that awards the same degree (B.A. History, B.A. Zoology). Applicants may, however, be admitted into a program awarding a different degree (B.A. History, B.S. Biology; or B.A. History, A.A.S. Business Management).

Bachelor Degree Candidacy

The University accepts New Hampshire residents for bachelor degree programs on the basis of academic achievement, secondary school course selections, rank-in-class, school recommendations, and Scholastic Aptitude Test results. Consideration is also given to such related factors as personal character, leadership, initiative, special aptitudes and talents. All candidates must meet the minimum secondary school program requirements as outlined in the accompanying chart.

The number of out-of-state students admitted to bachelor degree programs each year is limited and selection is made primarily on the basis of superior academic achievement in secondary school. Such traits as good character, leadership, initiative, and creative ability are considered. Under the present Selective Admissions Program, out-of-state baccalaureate degree candidates must apply to one of the University's five schools and colleges and will be considered for admission in competition with other out-of-state candidates for the same division. Competition for admission to the different undergraduate areas may vary.

Students should realize that it may not be possible to transfer to another undergraduate school or college of the University after enrollment. The student who wishes to change to another undergraduate division after enrollment must secure permission from the dean of the college and the chairperson of the program s/he wishes to enter. Candidates should also realize that, although they may qualify for general admission, the University is not able to guarantee that space will be available in all program areas.
**Associate Degree Candidacy**

The University accepts candidates for Associate in Applied Science and Associate in Arts degree programs who have demonstrated ability and motivation for learning through secondary-school achievement, work experience, and/or military service.

Both New Hampshire residents and out-of-state students may be considered for admission to Associate in Applied Science degree programs offered by the University's Thompson School of Applied Science. Students approved for admission to the Thompson School will be eligible for University residence hall accommodations. Two of the programs offered by the Thompson School, the Forest Technology and the Civil Technology programs, require that candidates present a minimum of two years in college preparatory mathematics.

The University offers an Associate in Arts degree program through the Division of Continuing Education. This program is available only to commuting New Hampshire residents; however, this rule may be waived if the applicant is a full-time employee of a New Hampshire business. (See also Associate in Arts chapter.)

**Secondary School Course Requirements for Bachelor Degree Candidacy**

All students who present the secondary course requirements outlined in the "Minimum Secondary Program" are eligible to receive consideration for admission to the University's bachelor degree programs. The University encourages students to develop a balance between courses outlined in "Recommended Secondary Program" and their own interests, which may lead them to choose electives outside the traditional academic course areas.

General Information

Special Student Status

The University offers the Special Student classification for persons who wish to participate in University coursework without entering degree programs. Special (non-matriculated) students register for coursework through the University's Division of Continuing Education and are usually restricted to part-time study (maximum of 11 semester hours) unless permission is granted by the Admissions Office. Special students have full access to the academic counseling services of the Division and should realize that their continuing participation in University coursework is predicated upon satisfactory achievement.

Admission Requirements

All candidates for admission to bachelor degree programs are required to submit the results of a College Entrance Examination Board Scholastic Aptitude Test. While achievement tests are not required, successful scores on the Foreign Language Achievement Tests may enable an applicant to satisfy the foreign language requirement of the Bachelor of Arts degree programs. Other achievement tests are strongly recommended for candidates to the College of Engineering and Physical Sciences, the College of Life Sciences and Agriculture, and the School of Health Studies in the areas generally related to the student's prospective major. It is possible for students to submit the results of these examinations as late as May of their senior year.

Candidates applying for the Arts major, studio option, or the Bachelor of Fine Arts program are required to submit a portfolio. There is no portfolio requirement for those entering the Art History option of the Arts major. Candidates applying for programs in the Department of Music must make arrangements with the chairperson of the Music Department for an audition. Chairpersons of both the Art and Music Departments may be reached at the Paul Creative Arts Center.

Except for Early Decision candidates, applications should be submitted only after the first marking period grades are available; and for nonresident applicants, before February 15. New Hampshire applicants must submit their applications by March 1. Applications received from New Hampshire residents after March 1 may be considered only as vacancies occur. A non-refundable application fee, $10 for residents of New Hampshire and $20 for nonresidents, must accompany the application.

Interviews

Interviews are not required as part of the admission process. However, candidates are most welcome to contact the Admissions Office in order to arrange interviews with UNH student Admissions Representatives who will be pleased to help them become better acquainted with the University. Also group information sessions are frequently held on Saturday mornings. These group sessions are opportunities for an exchange of information and are followed by guided tours of the campus. Applicants may contact the Admissions Office for further information. Students are encouraged to visit the campus, and information about regularly scheduled tours is available from the Admissions Office.

Early Decision

The University is willing to give secondary school seniors who desire fall enrollment consideration for admission under an Early Decision program designed for well qualified students who have made the University their first-choice school. Applicants must submit a regular application, high school record, junior year Scholastic Aptitude Test, and a statement countersigned by the secondary school counselor which indicates that the University of New Hampshire is the first-choice college and that other applications will be withdrawn if the candidate is admitted under Early Decision. Candidates for admission under the Early Decision program must file their applications and all supporting credentials between September 15 and November 15 and will be notified of the decision within two weeks of the receipt of application materials. Prospective students should realize that enrollment pressures in some degree areas may preclude inclusion in the Early Decision program; historically the Early Decision plan has not been available for out-of-state Nursing, Medical Technology, Occupational Therapy, and Wildlife Management candidates.
Advanced Standing
The University will recognize unusual secondary school work by means of advanced placement and credit for those who have taken enriched or accelerated courses before entering college. Applicants qualify for such credit by satisfactory achievement on University-approved placement examinations including the College Board Advanced Placement Tests or through the College Level Examination Program (CLEP). Further information may be obtained from the Admissions Office.

Readmission
An undergraduate student who withdraws or is suspended or dismissed from the University thereby terminates degree candidacy and must apply for readmission prior to the deadlines established by the Admissions Office. Before seeking readmission, a suspended student must remain away from school for at least one semester. An application submitted by a suspended student is referred to the dean of the College to which the student is applying, and evidence must be presented that s/he can successfully resume college work. Only under extraordinary circumstances will a student be readmitted after having been dismissed for academic reasons. An application submitted by a dismissed student must be reviewed by the University’s Academic Standards and Advising Committee. Students applying for readmission should realize that it may not be possible to enroll in certain programs which have established enrollment limitations, and no assurance can be offered that University housing will be available.

Transfer Students
The University will consider qualified candidates from approved institutions. Transfer credit is awarded for courses which have been completed with a grade above the lowest passing grade, provided those courses are comparable to courses offered at the University of New Hampshire.

The University is pleased to encourage the competent transfer applicant who has valid and legitimate reasons for desiring transfer to the University of New Hampshire; however, it cannot encourage the applicant with a history of academic or personal difficulty. University admissions policy considers students for transfer with satisfactory academic and personal records. In the event of personal or academic difficulty, a student is usually better advised to return to the former college after an appropriate period and clear the record before attempting to transfer.

A student enrolled in one of the University’s associate degree programs who desires admission to a baccalaureate degree program at the University must apply as a transfer student through the Admissions Office. A recommendation from the student’s associate degree adviser is also required.

Students desiring to transfer for the fall semester must complete application procedures before March 1; for spring semester, by November 15.

New England Regional Student Program
The University participates in the New England Regional Student program of the New England Board of Higher Education in which each state university in New England offers a number of regional curricula at the undergraduate level to students from other New England states. Under this program a student receives preferential admission consideration and, if admitted, pays in-state tuition. The student must indicate on the application the intention to apply for this reduced tuition. Information about the curricula included in this program may be obtained from the New England Board of Higher Education, 40 Grove St., Wellesley, Mass. 02181.

Rules Governing Tuition Rates
Basic Rule: All students attending any division of the University of New Hampshire in any capacity shall be charged tuition at a rate to be determined by their domicile. Those domiciled within the state of New Hampshire shall pay the in-state rate. Those domiciled elsewhere shall pay the out-of-state rate.

A student is classified as a resident or nonresident for tuition purposes at the time of admission to the University. The decision, made by the director of admissions, is based upon information furnished by the student’s application and any other relevant information.

All applicants living in New Hampshire are required to submit a notarized statement to the effect that their parents have
been legally domiciled in New Hampshire continuously for a period of at least twelve months immediately prior to registering for the term for which the student is claiming in-state status. Students admitted from states other than New Hampshire or from foreign countries are considered nonresident throughout their entire attendance at the University unless they have acquired bona fide domicile in New Hampshire.

If the student maintains his/her residency apart from that of his/her parents, he/she must clearly establish that his/her residence in New Hampshire is for some purpose other than the temporary one of obtaining an education at the University. To qualify for in-state status the student must have been legally domiciled in New Hampshire continuously for a period of at least twelve months prior to registering for the term for which in-state status is claimed.

The burden of proof in all cases is upon the applicant. In all cases, the University reserves the right to make the final decision as to resident status for tuition purposes.

The University Rules Governing Tuition Rates are fully set forth on the application for admission, and all students are bound by them.

**Division of Student Affairs**

The Division of Student Affairs provides a wide range of student services and programs which supplement the academic programs of the University.

Division functional areas include: the Vice Provost for Student Affairs; the Dean of Students; Residential Life, which includes Dining Services and residence halls; Financial Aid; Student Activities/Memorial Union; Health Services; Counseling and Testing; and Career Planning and Placement.

The Division publishes annually a student guide which includes statements of privacy rights as required by the Family Rights and Privacy Act.

**Dean of Students Office**

The Dean of Students Office has major responsibility for the quality of student life on campus. The staff has a working knowledge of the entire University (policies, procedures, and people) and interacts regularly with students, staff, faculty, trustees, and other persons who are interested or involved with what is happening at the University.

Within the Dean of Students Office there are six specific areas of responsibility: judicial affairs, new student programs, community and student development, international student affairs, veterans affairs, and non-academic University policies and procedures. Students and others are encouraged to contact the Dean of Students Office whenever they have a question, concern, or problem involving University life.

**Residential Life and Dining Services**

The University has 29 undergraduate residence halls grouped in three geographic areas on campus with a dining hall located in each area.

Information about and applications for room and board are sent to eligible new students soon after notices of admission.

The University reserves the right to adjust room and board charges and policies when necessary; however, such adjustments will be announced as far in advance as possible. Additional information about residence halls and dining service is available through the Office of Residential Life.

**Residence Halls**

Students are not required to live on campus. Undergraduate University housing is limited to full-time degree candidates; Associate in Arts degree and Division of Continuing Education students are not eligible for on-campus housing.

Most rooms are designed for double occupancy, but there are some single and triple rooms available.

The first priority for residence hall housing is given to entering freshmen. Transfer and readmitted students are accommodated only to the extent space is available. To be considered for space in a residence hall, entering students must follow the established application procedures. Students assigned to on-campus housing sign a room contract for the entire year.

University housing is not guaranteed over the full four-year undergraduate period.
Dining

University policy requires that students living in residence halls board in University dining halls.

Any full-time student who does not live in a residence hall may purchase a meal ticket if dining hall capacities permit, or they may purchase meals at the Memorial Union cafeteria.

Students who have special diets generally find it possible to select these diets from the choices offered in the dining halls. However, students whose diets, because of religion or health, require an unusual menu should inquire with Dining Services as to its availability. Any request for exceptions to the board policy because of dietary restrictions must be made prior to the beginning of the semester.

Student Activities/Memorial Union

The Office of Student Activities in the Memorial Union serves as the center for cultural events, student organizations, and related activities. It provides a wide range of services and programs for the entire University community.

Student Activities

Serving as a programming resource for students, the office provides administrative coordination for campus-wide events and operates the Memorial Union as an integral part of student programs.

Students participate in approximately seventy recognized clubs, each with special interests ranging from politics to service and from career to leisure time activities. A Student Activities Tax, determined by student government, provides funds for: The New Hampshire, the student newspaper; WUNH-FM, the student radio station; the Student Video Tape Organization; Student Government; Student Press; and two programming organizations, the Memorial Union Student Organization (MUSO) and the Student Committee on Popular Entertainment (SCOPE). Additional funds are available on request to other organizations for special programs.

Programs range from lectures, concerts, films, and educational seminars to special events like Winter Carnival, the Memorial Union open house, and spring dances.

Memorial Union

As the University's community center, the Memorial Union serves as the focus for student programs and provides services for the entire University community. These services include the University Information Center and Ticket Office, the Union store, a crafts center, a scheduling office for room and facility reservations, and a food service operation consisting of a cafeteria, sweet shoppe, pub, and catering service. The games area on the lower level of the building has candlepin bowling lanes, pool and billiard tables, pin ball machines, and table tennis tables.

Cultural Programs

With two theaters and two art galleries in the Paul Creative Arts Center, the University is a major cultural resource for the entire state. The Sidore Lecture Series presents provocative, well-known speakers and experimental programs throughout the year. The University's Celebrity Series brings leading concert artists and a colorful array of professional talent to present a variety of programs centering on human communications whether in song, dance, speech, or mime.

University students perform frequently in concerts, recitals, and theatrical productions. Open to all undergraduates, these programs originate in the Music and the Theater and Communication departments. Sculpture, crafts, painting, and photography fill the University Art Galleries with exhibits of the work of local and international artists as well as students and faculty.

Health Services

The University Health Service in Hood House provides out- and in-patient health care, laboratory tests, x-rays, limited mental-health care, and routine medications. For serious medical problems, students are generally referred to specialists and/or a local hospital. An emergency ambulance service is available at all times.

During the regular academic year, Hood House is staffed by full-time physicians, nurses, and part-time consultants. Appointments with physicians may be made upon request. An appointment is not necessary for medical problems requiring
General Information

immediate attention and these patients will be treated through the out-patient clinic. Most Health Services are available to eligible students at no charge.

An optional group health insurance plan may be purchased through the University Business Office. All undergraduate students paying full fees are eligible to purchase this insurance and to use it at Hood House.

Health record Requirement

In order to provide effective health service to students, the University requires that students who have been formally accepted for bachelor or associate degree candidacy and register for nine or more semester credit hours must have complete medical records on file with the University Health Service. These records consist of a special health form furnished to students prior to registration. Students wishing exemption from this requirement on religious grounds must make a written request to the Medical Director of the University Health Service. It is the student's responsibility to complete the form prior to the beginning of classes. Any student failing to submit the completed form will not be allowed to register for classes in the subsequent semester.

Counseling and Testing Center

The Counseling and Testing Center offers students, without charge, professional counseling assistance in meeting a variety of personal, educational, and vocational problems. Services include individual and group counseling, vocational testing, and information on national testing programs such as the Graduate Record Examination. Individual clinical testing is available when indicated.

The staff is committed to the welfare and development of UNH students. The Center sponsors a variety of student oriented activities, e.g. personal skills groups on such topics as communication, values clarification, and life planning. The staff is available for consultation with faculty, administrative staff, and parents on matters relating to the welfare of students.

All information about students' visits to the Counseling and Testing Center is confidential and cannot be released to anyone without the permission of the student.

Career Planning and Placement Service

The Career Planning and Placement Service assists students in planning for professional careers following completion of their undergraduate work. The assistance available to students includes: an on-campus interview program, which brings recruiting personnel to the campus between November and April; a library of information on employers and career opportunities; vocational counseling; and aid in finding summer employment. The service is available to all undergraduate students and early use is encouraged.

College Council Placement Office

The Council Placement Office is a student service program funded by the New Hampshire College and University Council, of which the University is a member. Students are encouraged to take advantage of this supplementary resource. The CCPO may be contacted directly at its Manchester, New Hampshire, office or through the University's Placement Service.

Financial Aid

The University Financial Aid Office assists promising students who are unable to meet their educational expenses entirely from their own family resources. Aid is available in the form of grants and scholarships, loans, and part-time employment. A Financial Aid Bulletin gives specific information.

In many communities, scholarships and loans are available locally. School principals and guidance counselors have information about these sources of assistance which are available both to high school seniors and adult students.

Before an applicant may be considered for assistance through the University, two forms must be submitted: the UNH Application for Financial Aid and the Parents' Confidential Statement, or, in the case of the adult student, the Financial Aid Form. New Hampshire applicants may obtain these forms from their high school or from the UNH Financial Aid Office. Nonresidents and transfer students may obtain the UNH application form from the Financial Aid Office and the Parents' Confidential Statement/Financial Aid Form from the Financial Aid Office or local high school. Upperclass applicants may obtain both forms from the Financial Aid Office.
Students must meet the following deadlines and should not wait until being admitted to the University before applying for financial aid:
Incoming Freshmen—January 15
Transfer Students—May 1
Upperclass Students—February 15
Readmitted Students—May 1

Grants and Scholarships
Admitted degree candidates who will attend the University on a full- or part-time basis may be considered for an in-state tuition grant and University scholarships. Nonresidents are eligible for similar assistance. The basic consideration is financial need, although some scholarships are awarded on the basis of scholastic attainment, participation in extracurricular activities, or meeting specific requirements of a donor.
The University participates in the federally-sponsored Supplemental Educational Opportunity Grant Program designed to assist students of exceptional need, who are admitted degree candidates attending on at least half-time basis.

Basic Educational Opportunity Grant Program
Students are eligible to apply directly to the federal government for a Basic Educational Opportunity Grant. Applications for this program are available in the Financial Aid Office or from high school guidance counselors. Basic grant recipients must reapply each year for a grant.

Loan Programs
Three loan funds are administered by the University: UNH Loan Fund, National Direct, and Nursing Student Loans. Admitted degree candidates who will attend the University on a full- or part-time basis, may be considered for these loans. Nursing Loans are available only to full-time students under federal law. Financial need must be clearly demonstrated and loans may be used only for educational expenses.
Many states now have higher education loan plans established by the Higher Education Act of 1965. Contact your local bank or other lender for information on these loans.

Part-time Employment
The College Work-Study Program, both academic year and summer, assists students who are determined by the Financial Aid Office to be in need of financial assistance for their educational expenses. Admitted degree candidates attending on at least a half-time basis are eligible for consideration.
Students who do not qualify for the College Work-Study Program may find part-time employment on or near campus.

Non-degree Candidates (Special Students)
Students who have not been admitted to degree programs but who are taking courses on a part-time basis may apply to the Division of Continuing Education for course-charge grants and may also apply for higher education loans through banks or other lenders as above.

Fees and Expenses
The cost for the freshman year at the University averages about $3,100 for a resident of New Hampshire and about $5,100 for a nonresident.
All University tuition bills, including those for room and board in University buildings, are due and payable on or before registration day of each semester.
Tuition is $1,000 ($2,990 for nonresidents) per academic year. Any undergraduate student registering for twelve credits or more per semester pays the full tuition.
Any combination of courses taken at the University (Durham Campus), Merrimack Valley Branch, and Division of Continuing Education totaling twelve credits or more requires full tuition payment. Any student registering separately at the University (Durham Campus), Merrimack Valley Branch, and Division of Continuing Education and who pays the per-credit-hour charge at the University (Durham Campus) or Merrimack Valley Branch or the course charge at the Division of Continuing Education will be subsequently billed, if any combination totals twelve credits or more, an additional amount necessary to meet the full tuition charge.
Students are permitted to enroll for more than 20 credits only with the approval of their College dean. After 30 days of the semester have passed students carrying more than 20
General Information

credits will be billed a per-credit fee of $35 for each credit above 20 for a resident student and $90 for a nonresident student. (No refund will be made if the student subsequently drops a course bringing him to 20 or less credits.) A resident undergraduate student registering for fewer than twelve credits pays $35 per credit hour, plus a registration fee of $5 per semester. A nonresident undergraduate student registering for fewer than twelve credits pays $90 per credit hour, plus a registration fee of $10 per semester. The minimum charge for any recorded course is $35 for residents and $90 for nonresidents.

All students who are admitted to the University must make an advance deposit of $50 for residents and $100 for nonresidents. This deposit will be credited on the student’s tuition bill. In case a student decides not to attend the University after making this deposit, it will automatically be forfeited.

Three-fourths of tuition charges will be refunded to a student withdrawing within one week of registration; one-half after one week and within thirty days; and none thereafter. (See University Calendar, page 3.) A $10 fee must be paid by all students dropping courses after the first two weeks of classes. The $10 fee will not be charged to students changing to a reduced load or students withdrawing; and in both of these cases, the regular tuition rebate policy will apply. A $10 fee will also be assessed for courses added after the three-week add period. The occasional student who registers very late (after the add period) will be assessed the $10 fee for each course which comprises the late registration. A change of section (within the same course) is accomplished by a “drop” of one section and an “add” of another section. The fee will not be assessed for the add portion of a late section change. The $10 drop fee will still apply for the drop portion of a late section change.

There are no refunds of the fees which are charged. (This includes the Memorial Union fee, Student Services fee, Recreation fee and activity tax as well as any special fees.)

A student applying for a room assignment on-campus must include a $50 prepayment fee with the application. Written notification from the student of cancellation of room will, if received prior to July 1, result in a rebate of $50 prepayment fee minus a $10 cancellation charge. Written notification from the student of cancellation of room received after July 1 but prior to August 15 will result in no rebate of prepayment fee, though room rent—if already paid—will be fully refunded. Written notification from the student of cancellation of room received after August 15 and prior to closing Registration Day will result in the rebate of three-fourths of the full semester room rent. Written notification from an enrolled student of cancellation of room after Registration Day and within 30 days from Registration Day will result in the rebate of one-half of the full semester room rent and none thereafter.

Generally there will be no meal-ticket refund except for illness, but a student who withdraws is entitled to a prorated rebate based upon meals remaining from withdrawal date, less two weeks.

Refundable deposits may be required to cover locker keys or loss or breakage in certain departments. A charge will be made for individual lessons in music, as noted in the description of Applied Music courses. A charge will be made for riding lessons and SCUBA, as noted in the sections on Physical Education and Animal Science, and for field trips of the Thompson School, Forestry, and Home Economics.

Books and classroom supplies cost approximately $180. These may be purchased at the University Bookstore.

Fees (1976-77) are: Memorial Union fee, $35; recreation/physical education fee, $30; a student service fee, $10; and a student activity tax of $22.20 which includes a subscription to the undergraduate newspaper and yearbook and membership in Student Union, Student Government, and class activities. These fees cover the academic year. Degree candidates registered for less than twelve credits are charged the foregoing mandatory fees on a pro-rata basis.

An optional student season-athletic ticket may be purchased for $20. Optional student insurance for $36 is available to full-time degree candidates. Participants in intercollegiate athletics are required to take the student health insurance.

Housing charges average $695 per academic year.

Personal expenses average $350. These will vary with the needs of the individual student, and include clothing, laundry, recreation, incidentals, and travel.
## Reserve Officers Training Corps Program

The Army and Air Force offer programs for men and women leading to a commission as a second lieutenant in their respective services. Students enrolled in either ROTC program may pursue any University curriculum which leads to a baccalaureate or higher degree.

Two- and four-year programs are available. The four-year program is open to freshmen and to transfer students who began ROTC at another institution. In addition to on-campus ROTC course requirements, students must attend an officer preparatory training session for a part of one summer.

Two-year ROTC programs are open to students who have two academic years of study remaining at the University. Applicants for the two-year program must attend a six-week training session during the summer immediately preceding their entry into ROTC.

ROTC scholarships are offered on a competitive basis by both the Army and Air Force. Entering freshmen may compete for four-year scholarships during the last year of high school. Students who are enrolled in a four-year ROTC program and two-year program applicants compete for scholarships covering their remaining academic years. Scholarships pay full tuition, all mandatory University fees, and required textbooks for all courses. In addition, all scholarship recipients receive a tax-free $100 per month subsistence allowance. Non-scholarship students in the last two years of an ROTC program also receive the tax-free $100-per-month subsistence allowance.

Students in either Army or Air Force ROTC who are qualified for pilot training are provided civilian flight instruction.

More specific information about ROTC programs may be obtained by contacting the Professor of Military Science (Army ROTC) or of Aerospace Studies (Air Force ROTC).

### Miscellaneous Costs

- Personal expenses: $350.00 (Resident), $350.00 (Nonresident)
- Athletic admissions ticket (optional): $20.00 (Resident), $20.00 (Nonresident)
- Health insurance (optional): $36.00 (Resident), $36.00 (Nonresident)
University Academic Requirements

A student is held responsible for all work required for graduation and for the scheduling of all the necessary courses. All newly-matriculated students are expected to satisfy the general education requirements listed in the catalog in effect upon their early entry to the University.

General Education Requirements

In addition to the particular requirements for specific degrees, the University requires that every candidate for a bachelor's degree must successfully obtain a passing grade in a minimum of 128 credits, must maintain a cumulative grade-point average of at least 2.0 for all courses taken at the University in which a grade is given, and must successfully meet the following general education requirements:

Group I  Four courses, each of which must carry at least three credits, from the following areas (students are required to elect at least one course each in both A and B):

A. Biological Sciences
Animal Science 400, 401
Biochemistry 402, 501
Biology 402, 403, 404, 407, 420
Botany & Plant Pathology 411, 412, 503, 525, 566
Soil Science 501, 502
Hydrology 504
Entomology 400, 402
Forest Resources 634
Microbiology 501
Plant Science 421, 522
Zoology 412, 507-508, 542

B. Physical Sciences and Mathematics
Chemical Engineering 502
Chemistry 401-402, 403-404, 405, 406, 409-410
Earth Sciences 401, 402, 409, 501
Technology 405
Mathematics 410, 419, 420, 425-426, 429-430, 636
Electrical Engineering 431, 432
Mechanical Engineering 401, 561
Physics 401-402, 403-404, 405, 406, 407-408, 411, 510

Group II  Six courses, each of which must carry at least three credits, from the following areas (students are required to elect at least two courses each in both C and D):

C. Arts and Humanities
The Arts 431, 432, 475, 476, 532, 542, 551, 501, 513, 519, 525, 567, 575, 577, 578, 580, 522, 583, 585, 586, 588, 589, 591, 593, 594, 597
Theater and Communication 402, 404, 435, 436, 438, 457, 461, 467, 503, 555, 572, 638, 656
English 501, 512, 513, 514, 515, 516, 518, 519, 520, 521, 522, 523, 524, 525, 530, 531, 532, 533, 595
Philosophy 401, 412, 417, 421, 424, 430, 435, 475, 496, 520, 530, 550, 570, 571, 572, 573, 574, 600, 630, 635
Music 401, 402, 511, 513
Classics 512, 521, 522
Greek 503-504
Latin 503-504
Spanish 503-504, 507-508, 525, 621, 622
German 525, 526, 693, 694
Russian 621, 693, 694
French 503-504, 605-606, 620, 621, 622
Italian 503-504
Humanities 401, 501, 502, 503

D. Social Sciences
Anthropology 411, 412, 512, 614, 616, 618, 620
Economics 400, 401, 402
Geography 401, 402, 511, 531, 581, 582, 610, 612, 683
Home Economics 525
INER 635
Political Science 403, 500, 506, 520, 521, 522, 523, 553
Psychology 401, 511, 521, 531, 561, 581, 621, 651, either Psyc 652 or Soc 500
Resource Economics 411 (either REco 411 or Econ 401 or 402) 506, 507, 508, 606, 612
Recreation and Parks 400
Social Science 522
Sociology 400, 530, 540, 560, 600, 611, 612, 615, 629, either Soc 500 or Psyc 652

Group III  Six courses, one of which must be freshman English unless specifically exempted by the English Department and each of which must carry at least three credits, from all courses offered by the University including those in Groups I and II.

The University, College, or department may prescribe up to eight of the 16 courses used to satisfy the general education requirements. A minimum of eight courses is to be freely elected by the student. Courses taken to satisfy general education requirements may not be in the student's declared major. Thompson School courses taken by regularly matriculated students will not satisfy general education requirements except in specified cases in certain approved programs.
A University freshman English course in reading and composition is required of all undergraduates unless specifically exempted by the English Department on the basis of a combined score of 1200 or better on the CEEB SAT-Verbal and English Achievement exams. The freshman English course may not be used to satisfy the arts and humanities requirement in general education.

Grades and Honors

Grades An instructor may assign grades as listed below. The intermediate grades are designated by adding a plus or minus to the letter grade. Grade points assigned to plus grades are 0.33 higher than to the letter grade without the plus; grade points assigned to minus grades are 0.33 lower than those assigned to the letter grade without the minus.

A Exceptional: outstanding to extraordinary achievement
A- intermediate grade
B+ intermediate grade
B Superior
B- intermediate grade
C+ intermediate grade
C Satisfactory, competent
C- to D- marginal grades
F Failure: academic performance so deficient in quality as to be unacceptable for academic credit
Cr Credit: given in specific courses having no letter grades designated Cr/F
P Passing grade in a course taken under the pass/fail option
IC grade report notation for incomplete course
IA indicates "incomplete" in a continuing course or thesis; where appropriate, the grade earned will replace "IA" assigned in previous semesters
IX grade not reported

Grade points per semester hour shall be assigned as follows: A 4; A- 3.67; B+ 3.33; B 3; B- 2.67; C+ 2.33; C 2; C- 1.67; D+ 1.33; D 1; D- .67; F 0. Students earning a semester or cumulative grade point average below 2.0 are placed on "academic warning."

Honors Students completing a semester with at least 12 semester hours whose grade point averages are 3.0 or higher for the semester are designated as honor students for the following semester. These categories will be used: 3.0 to 3.4 Honors; 3.5 and 3.6 High Honors; 3.7 to 4.0 Highest Honors. Seniors who have earned honors for their entire college work will be graduated with the honors earned.

Pass-Fail While earning a bachelor's degree, the pass-fail option for grading may be carried in a maximum of four courses outside the courses required in the student's declared major and minor and English 401. The following guidelines explain how the pass-fail option may be used: a. one pass-fail may be used to satisfy a Group I requirement; b. one pass-fail may be used to satisfy a Group II requirement; c. four pass-fails may be used to satisfy general electives; d. a combination of options a, b, c up to a total of four courses.

For B.A., B.F.A. and B.M. candidates the pass-fail option is not permitted in courses which are used to meet the Group I requirement, the Group II requirement, the foreign language requirement, or English 401. The minimum passing grade for credit is a 2.0 (C); any grade below this minimum is a Fail. The faculty will not be aware of which students are taking courses pass-fail. All grades will be recorded on the grade roster as A, B, C, D, F, or intermediate grades. The pass-fail mark will be placed on the student's transcript and grade reports by the Registrar's Office. The course will not be included in the grade-point calculation, but the Pass or Fail will be recorded, and in the case of a Pass the course credits will be counted toward degree requirements. The pass-fail option may not be available for courses taken for a minor. Consult the appropriate College for information.

Students may not use the pass-fail option to repeat a course.

Degree Requirements

Bachelor of Arts

Satisfaction of these requirements may not ensure satisfaction of the University General education requirements (see
University Academic Requirements

page 16). B.A. requirements are currently under review.

1. 128 credits.

2. At least a 2.0 cumulative average in all courses completed at the University of New Hampshire.

3. Four courses, outside the student's declared major, from among the biological sciences, physical sciences, and mathematics. (Courses must be of at least three credits each.) Students are required to elect at least one course in the biological sciences and one course from the physical sciences and mathematics.

4. Two courses in humanities, selected from those offered in arts, English (beyond 401), foreign languages beyond the elementary year, humanities, music, philosophy, and theater and communication, outside the student's declared major. (Courses must be of at least three credits each.)

5. Two courses in social sciences, outside the student's declared major. (Courses must be of at least three credits each.)

6. Two additional humanities or social sciences courses, outside the student's declared major. (Courses must be of at least three credits each.)

7. Six additional courses, not in a student's declared major, selected from all courses offered by the University. English 401 must be taken in the freshman year as one of these courses, unless the student is exempt. Students exempted from English 401 must substitute a course not in the student's declared major, to make up a total of six courses in this category. (Courses must be of at least three credits each.)

8. Foreign Language Requirement: Proficiency in a foreign language at the level achieved by satisfactory work in a one-year, college-level course is required of all students. This requirement may be fulfilled by achieving a score of 500 or better on a College Board foreign language achievement test, or by completing a full-year elementary course in any foreign language, or by completing a semester of a course in foreign languages beyond the elementary year. This requirement must be satisfied by the end of the sophomore year.

9. Major Requirements: A student must complete at least 32 credits of major course work with grades of C- or better and an average of 2.0 or better. The student's declared major may require a senior paper or project and/or a comprehensive examination.

Bachelor of Science

See individual School or College for degree requirements.

Associate in Arts

1. 64 credit hours with a minimum grade-point of 2.0 based on a 4.0 scale.

2. General education requirements:
   a. English 401 or its equivalent
   b. A minimum of any three courses of at least three credits each in Group I—A or B (page 16), from the Sciences or Mathematics, chosen from applicable 400- or 500-level courses (or, by petition, chosen from 600- and 700-level courses).
   c. A minimum of two courses of at least three credits each in Group II—C (page 16), the Arts and Humanities, chosen from applicable 400- and 500-level courses (or, by petition, chosen from 600- and 700-level courses).
   d. A minimum of three courses of at least three credits each from Group II—D (page 16), Social Sciences, chosen from applicable 400- and 500-level courses (or, by petition, chosen from 600- and 700-level courses).

3. The remaining courses or credits may be earned in career option and/or elective general education courses.

4. The last 16 hours of credit must be completed through the Division of Continuing Education at UNH unless permission is granted to transfer a part of this work from another institution.

Dual Degree Option

General Policy: The option to pursue two degrees simultaneously enhances and broadens the education of certain students at the undergraduate level. The program is only for those students who can adequately handle the requirements for two different degrees and who can reasonably allocate the additional time and effort needed for the program.

Requirements

1. Students desiring a dual degree must petition the college dean or deans involved for permission to pursue a dual degree.

2. If the student is planning to take one degree in a highly prescribed curriculum, s/he should register as a freshman in the appropriate school or college for that curriculum.
3. It is expected that a candidate for two degrees will complete the equivalent of five years of academic work.

4. The two degrees, as awarded by the University of New Hampshire, must be different (i.e., B.A. and B.S., or B.S. and B.S. in Chemistry). Transfer students already holding a baccalaureate degree from another accredited institution may pursue an additional baccalaureate degree at the University of New Hampshire provided they fulfill the above requirements. The degree received at the first institution will be accepted by UNH as awarded by that institution.

**Supervision:** As soon as a student is accepted as a candidate for two degrees, the appropriate dean(s) will appoint supervisors for each of the proposed majors. The supervisors and the student will work out a basic course plan for the two degrees and inform the appropriate dual degree dean(s) of the plan. The supervisors will maintain joint control over the student's academic program. The college offices and the supervisors will receive copies of grade reports and other records for students pursuing two degrees.

**Student Designed Major**

See page 81 for requirements for student designed major.

**Second Major Option**

Students may choose to fulfill the requirements of two dissimilar major programs, provided they obtain the approval of their principal adviser and the dean(s) of the college(s) in which the programs are offered and comply as follows:

1. If the two majors are offered in different schools or colleges within the University, the admission requirements of each must be satisfied.

2. If the two majors have two distinct degrees, e.g., B.A., B.S., or some other designated degree, the student must choose which of the two is to be awarded and fulfill all requirements for that degree.

3. No more than eight credits used to satisfy requirements for one major may be used as major requirements for the other.

**Minor Option**

A student may earn a minor in any undergraduate discipline in the University in which permission to do so can be arranged by the student in consultation with the major adviser and the minor supervisor. A minor consists of 20 semester hours with C- or better and a 2.0 grade average in subjects that the minor department approves. Courses taken on the Pass-Fail basis may not be used for a minor. No more than 8 credits used by the student to satisfy major requirements may be used for the minor. A student should declare an intent to earn a minor as early as possible and no later than the end of the junior year. During the final term an application would be made to the dean to have the minor shown on the transcript.

**Minimum Graduation Average**

A cumulative grade point average of 2.0 is the minimum acceptable level for undergraduate work in the University, and for graduation from the University. The Academic Standards and Advising Committee examines the records of students periodically, and may place academically deficient or potentially deficient students on warning, or may exclude, suspend, or dismiss those who are academically deficient.

**Quota of Semester Credits**

Any student registering for more than 20 credits must receive the approval of the college dean.

An undergraduate is assigned class standing on the basis of semester credit hours of academic work completed with a passing grade, as follows: to be a sophomore—26 credit hours; to be a junior—58 credit hours; to be a senior—90 credit hours.

**Residence**

Students who are candidates for a bachelor's degree must attain the last one quarter of total credits for the degree in residence unless granted permission by the Academic Standards and Advising Committee to transfer part of this work from other accredited institutions.

**Withdrawal from the University:** Students who leave the University are expected to file formal withdrawal notification with the Registrar.

General Information

Purpose and Objectives
It is the purpose of the College of Liberal Arts, as a center of learning and scholarship, to help all of its members achieve an understanding of the heritage of civilization and to educate them in the tradition of the past and realities of the present so that they may recognize and act upon their obligations to the future.

The College endeavors to meet the educational needs of each student through the development of interests and skills which, combined with the student's potential, makes possible the living of a richer and more useful life.

Programs of Study
The College of Liberal Arts offers four degrees: Bachelor of Arts, Bachelor of Science, Bachelor of Fine Arts, and Bachelor of Music.

Bachelor of Arts programs are intended primarily to provide a broad liberal education along with a major in one of the fields listed above. Requirements for the Bachelor of Arts degree and information regarding these majors are presented in the section entitled Bachelor of Arts Program in the University Academic Requirements chapter.

The Bachelor of Science curriculum consists of an interdepartmental program in biology. It is arranged in such a manner as to permit students considerable specialization while providing them with a broad cultural education. Requirements for the Bachelor of Science degree and information regarding the biology curriculum are presented in the section entitled Bachelor of Science Curriculum in Biology.

Bachelor of Fine Arts curriculum is designed to provide training for the student who plans to enter professional graduate school. Requirements for the Bachelor of Fine Arts curriculum are outlined in the section entitled Bachelor of Fine Arts Curriculum.

The Bachelor of Music curriculum is designed to provide professional training in applied music, in musical theory, and in music education, and to allow students to develop their talent to the equivalent standard of that offered by conservatories of music. Requirements for the Bachelor of Music curriculum and information regarding this curriculum are presented in the section entitled Bachelor of Music Curriculum.

Note: Although the University will try to provide sufficient facilities so that a student may pursue any major or curriculum for which the student meets the requirements, such a privilege cannot be guaranteed. Rapidly increasing enrollment sometimes results in the crowding of required specialized courses beyond capacity. On occasion a student may remain in a crowded curriculum if willing to take certain courses during the summer session.

Combined Programs of Study
In addition to pursuing a single major, a student may combine programs of study as follows:

Minor Option: See page 19 for requirements.
Second Major Option: See page 19 for requirements.
Dual Degree Programs: See page 18 for requirements.
Student Designed Major: See page 81 for requirements.

Preparing for Teaching

Five-Year, Undergraduate-Graduate Program
The major avenue for becoming certified to teach at the elementary, middle, and high school levels is an integrated undergraduate-graduate program culminating in a fifth year, year-long internship. Before the internship the student will earn a bachelor's degree outside the field of Education. The internship offers 6-12 graduate credits and will normally be coupled with other graduate work leading to a master's degree. A number of existing UNH master's degree programs may be elected including two degree-programs specifically designed for preservice teachers and offered by the Department of Education. (See Graduate Catalog for description.)

Step 1. Register for Education 500 (preferably in sophomore year).

The initial undergraduate phase of the program, Education 500, Exploring Teaching, provides an early experience in the
schools as a teacher aide and teaching assistant. Students may select this four-credit course at any time; however, most students should choose it prior to completion of their sophomore year. In this initial phase students explore various kinds of teaching roles, working side by side with experienced teachers, so that they may make realistic decisions about teaching as a career.

**Step 2.** Apply to Department of Education for admission to the second phase of the teacher education program and apply for a co-adviser from that Department. Plan a program that includes a minimum of 4 credits in each of the following courses: Education 700; 701; 703; 705 (total 16 credits). Since there is no undergraduate major in Education, students must have selected and completed a major in another department for a baccalaureate degree.

Upon successful completion of the initial phase, the student will be eligible to begin the second phase of the teacher education program. This phase requires a minimum of four credits to be completed in each of four areas of study: Educ 700, Educational Structure and Change; Educ 701, Human Learning and Development; Educ 703, Alternative Teaching Models; and Educ 705, Alternative Perspectives on the Nature of Education. Upon decision to enter the second phase of the program, a co-adviser will be appointed in the Department of Education to assist the student in designing the most appropriate course of studies.

A number of variable credit modules will be available to the student in each of the required four course areas, including experiences and workshops in local schools. Certain courses in other departments may substitute for these requirements. Working closely with advisers, students may develop highly individualized programs, choosing from many alternatives. Since credits in these four areas of study may be taken at either the undergraduate or graduate level, students will have greater flexibility for fulfilling the requirements of their college and major departments.

Additional requirements for elementary school teaching include: one course in elementary school reading (Educ 706, Introduction to Reading in the Elementary Schools); and two courses in mathematics appropriate for elementary school teaching (recommended—Math 621, Number Systems for Elementary School Teachers; Math 622, Geometry for Elementary School Teachers; Math 623, Topics for Elementary School Teachers; 703, Mathematics-Education, K-6).

**Step 3.** Apply for admission to the fifth year internship and master's degree program.

The final phase of the teacher education program will consist of a year-long internship (Educ 800-801). **Students must apply for the fifth year internship and master's degree program by September 15 of their senior year** so that they will have enough time to explore a variety of career and/or graduate study options and finalize their program plans before second semester of the senior year. Opportunities exist for admitted graduate students to take courses toward their master's degree in the second semester of their senior year.

Prior to the intern year students will complete a B.A. or B.S. program with a major in a field outside of the field of education, and thus they will have opportunities for jobs outside the field of education, a broader general education, and greater depth in their area of specialization.

If accepted into the internship and master's degree program, students will have many options from which to choose, including selection of additional courses for further specialization, and selection of workshops and courses offered for credit in intern site schools. During the internship, the student will have an opportunity to work with resident supervisors and other interns in various team teaching arrangements.

**Financial Aid** A limited number of paid internships is available. Students will be hired by participating school districts. Other financial assistance is possible through the office of Financial Aid.

**Criteria for Admission to Fifth Year** Before being eligible for an internship, a student must satisfy the following criteria: 1) favorable rating from school personnel who have worked with the student in Exploring Teaching and in any other clinical experience; 2) favorable rating from UNH staff supervising Exploring Teaching and other clinical experience; 3) favorable recommendation from instructors of professional course work; 4) favorable recommendation from the student's major program, including approval of the major program as appropriate for secondary school teaching; 5) admission to the UNH Graduate School—which requires a minimum 2.5 cumulative
GPA, Graduate Record Examination scores, and appropriate letters of recommendation; 6) available space in the program.

Undergraduate Certification Option

Because of the professional orientation of majors in Occupational Education, Home Economics, Physical Education, and Music Education, an undergraduate option for teacher certification in these areas may be elected. This option will require the same professional education components as listed above with the election of one semester of student teaching instead of the year-long internship. Successful completion of Education 500 and positive recommendation from school site staff are required for further professional work. Final screening will take place prior to the student teaching semester. Application for acceptance into student teaching must be filed by February 15 of the junior year.

Academic Standards for Eligibility to Apply for the Teacher Education Programs

Integrated Undergraduate-Graduate Option with Year-long Internship and Master's Degree Academic record suitable for admission to graduate school.

Four-Year Undergraduate Option Minimum of 2.5 GPA in major; minimum 2.2 cumulative GPA at time of application for student teaching (February 15 of junior year).

These programs have limited capacity and admission to the University or satisfaction of minimum academic standards as stated above does not guarantee admission to the teacher education programs.

Accreditation and Certification of Teaching

The teacher education programs at the University are accredited by the New Hampshire State Department of Education and by the National Council for the Accreditation of Teacher Education. Completion of the approved teacher preparation program of the University qualifies a student for certification as a teacher in most states.

UNH Offers Approved Programs Only in the Following Areas Agriculture, Art, Biology, Chemistry, Early Childhood Education, Earth Science, Elementary Education, English, French, German, Latin, Physical Education, Physics, Home Economics, Mathematics, Music, Occupational Education, Social Science, Spanish, Speech Therapy, Theater and Communication. For secondary certification students must have completed an approved major program or its equivalent in the teaching field.

For further information contact the Coordinator of Teacher Education.

Bachelor of Arts Program

The Bachelor of Arts Program provides a broad liberal education with a concentration involving a minimum of 32 credits in a major field.

The requirements apply to all students who enter the College of Liberal Arts between July 1, 1977, and June 30, 1978, and are seeking a Bachelor of Arts degree. (Students who entered the College at an earlier time may apply for a change to the requirements of this catalog.)

Bachelor of Arts Degree Requirements

See page 18 for requirements.

Majors in the Bachelor of Arts Program in the College of Liberal Arts

The student's declared major may specify certain (but not more than 13) required courses which constitute the major. A major must be declared prior to the beginning of the junior year.

The objectives, opportunities, and department requirements of majors in the Bachelor of Arts program are described in the paragraphs which follow.

Anthropology

The Anthropology major is offered by the Anthropology section of the Department of Sociology and Anthropology. It provides an introduction to the various branches of anthropology and an appreciation of its place among the other academic disciplines. At the same time it is designed to encourage intensive study of particular topics within the field according to the interests and talents of the student. It is intended to pro-
provide both a broad basis for the education of the general student and to offer sufficient background for those who may wish to pursue a career in anthropology at the graduate level.

Students majoring in anthropology are required to take a minimum of 32 credits distributed as follows: Anth 411 and 412, one topical course, one ethnographic-area course, and any four other courses in anthropology or related disciplines approved by the supervisor.

**Departmental Honors** Honors in Anthropology will be awarded to those students who achieve at least a 3.67 average in courses counted toward the major and complete satisfactorily a four-credit senior thesis under the guidance of a faculty member in addition to the regular requirements of the major. A 3.5 overall average is also required. Students wishing to work for honors should inform the Undergraduate Committee of their intent during the second semester of their junior year, appending their academic record and a statement of the area in which they intend to write a thesis.

Students wishing to major in anthropology should consult with Professor Richard E. Downs.

**The Arts**

The courses offered by the Department of The Arts provide an opportunity, within the Liberal Arts framework, for serious art students to acquire a thorough knowledge of the basic means of visual expression, to acquaint themselves with the history of art, or to prepare themselves for a career in art teaching. In addition, these courses are designed to offer foundation experience for students interested in art, but who are majoring in other departments in the University. The Department of The Arts offers programs leading to a Bachelor of Fine Arts degree (described later in the chapter) and a Bachelor of Arts degree. Certification for art teaching in the public schools is also offered in cooperation with the Department of Education. (See Preparing for Teaching.)

Candidates applying for the Arts major, studio option, or the Bachelor of Fine Arts program are required to submit a portfolio. There is no portfolio requirement for those entering the art history option of the Arts major. The University reserves the right to retain a selection from a student's work for a period of not more than two years.

The Arts major leading to a Bachelor of Arts degree is offered with two options: studio and art history.

**Studio Option**

Students selecting the studio option must complete a minimum of 11 courses (44 credits), of which the following are required: Arts 432—Drawing I; one course from the following: Arts 501—Ceramics I, Arts 513—Jewelry and Metalsmithing I, Arts 525—Woodworking, or Arts 567—Sculpture I; Arts 475 and 476—History of Western Art I and II; three elected art history courses; three elected studio courses; and one 600-level studio course. The foundation courses (Arts 432, 475, and 476) must be completed during the first year.

While the above represents the minimum departmental requirements for the studio option, students may wish to plan a program involving greater depth in one or several of the studio areas in the department.

**Art History Option**

Students selecting the art history option must complete a minimum of 10 courses (40 credits) of which the following are required: Arts 475 and 476, History of Western Art I and II; Arts 431, Visual Studies; a seminar in Art History, Arts 675-678; five additional courses in art history; and one basic studio course, Arts 432, Drawing I. Completion of Arts 475 and 476 with a grade of C or better is a requirement for acceptance as an art history major. Art history majors will receive preferential placement only in the following studio course: Arts 432. Those students majoring in art history are strongly advised to take English 501, Introduction to Prose Writing, and two foreign languages, one of which should be German.

**Art Education Curriculum**

The program in art education is organized into a five-year, teacher-education sequence.

This curriculum is designed to prepare teachers and supervisors of art in the public schools. Completion of the B.A. or the B.F.A. degree prior to a fifth year internship is necessary
for teacher certification. Courses are prescribed to provide a sound background in studio and educational practices and to allow enough flexibility so that a student can develop a high degree of competency in a particular studio area. The satisfactory completion of the B.A. or B.F.A. curriculum and the fifth-year internship will satisfy the initial certification requirements for teachers of art in the public schools of New Hampshire and in most other states.

Classics

The Classics major is offered by the Classics Section of the Department of Ancient and Modern Languages and Literatures. The minimum requirements for a major in Classics are as follows: 40 credits offered by the Classics section, excluding Latin 401-402. Twenty-four of these must be in courses in Greek and Latin. The student will be encouraged to take courses in related fields such as ancient history, classical art, modern languages, and English.

The Classics Section also offers an honors program in Classics. Honors will be awarded to those students who achieve at least a 3.67 average in courses counted toward the major and complete a senior research project and paper. A 3.5 overall average is also required.

The supervisor for majors is Professor John C. Rouman.

Communications

Communications is one of the two majors offered in the Department of Theater and Communication. The major emphasizes a broad, integrative approach to theories and practices of verbal, non-verbal, mass communications, and other forms. Interdepartmental coursework, reasonable course substitution on an individual basis, proficiency exemption, and field or laboratory work are encouraged to meet individual communications needs or goals. Communications coursework can be readily related to social sciences, humanities, etc., and provides a pre-professional preparation for vocations such as law, public relations, personnel work, mass communications, cinema, etc.

Majors in communications shall elect ten courses (40 hours) distributed as follows: Theater and Communication 402 and 403 and eight courses in an area selected in consultation with an adviser. A student and adviser must agree upon the courses used to establish an area of emphasis before the student enrolls in such courses. All courses must be directly related to the building of competence in the area of emphasis. Courses not offered in the department but offered as regular courses in the University may be used to establish an area of emphasis in communications.

Students interested in majoring in Communications should consult with the chairperson of the Department of Theater and Communication. Students wishing to transfer to the University of New Hampshire in Communications must first have the approval of the department.

English

The Department of English offers two programs of study: the English major and the English-teaching major.

The English Major The English major has two chief objectives: to provide all students with a common core of literary experience and to provide each student with the opportunity of shaping a course of study to suit individual interests. The flexibility and freedom inherent in the second of these objectives places a responsibility upon the student to devise a program which has an intelligent rationale. For example, the student who intends to pursue graduate study in English literature should choose more than the minimum number of advanced literature courses and should seek a broad, historical background. Students with special interests in linguistics or writing may, on the other hand, wish to elect only the minimum number of advanced literature courses required for the major. All students should secure the assistance and approval of their advisers in formulating an early plan for the major program.

The English department offers a journalism program which, though not a major, prepares students to become professional journalists upon graduation. The program consists of five sequential writing courses which the student should begin no later than the second semester of the sophomore year. Internships at daily newspapers are available. Students interested in this program should inquire at the departmental office.
College of Liberal Arts

For the English major, students must complete a minimum of 32 credits of major coursework including: Engl 519, two additional 500-level courses, and seven courses numbered 600 and above. In selecting these courses, students must be sure to meet the following distribution requirements:

1. Two courses in literature prior to 1800: either two advanced courses (numbered 600 or above), or one advanced course and Engl 513.
2. Two courses in literature since 1800: either two advanced courses, or one advanced course and one course from the following list: Engl 514, Engl 515, Engl 516.

Students interested in majoring in English should consult the chairperson, Professor Donald Murray.

The English Teaching Major This major is designed for students wishing to teach English in middle or high schools. Completion of this undergraduate major does not in itself, however, meet state certification requirements. To meet these requirements students should enroll in the undergraduate major and, by September 15 of their senior year, apply for the fifth year teaching internship and master's degree program. (For a full description of requirements for the integrated undergraduate-graduate program for teachers, and its several options, see the section entitled “Preparing for Teaching,” page 21.) Undergraduate English Teaching majors must pass the following English courses with an average of 2.5 or better: Engl 512, 514, 619, 657, 712, 718 or 719, 791-792, and two additional literature courses numbered above 700. Engl 513 may be substituted for the second 700-level course.

Students who are interested in majoring in English Teaching should contact Professor Lewis Goffe.

French

The French major is offered through the French Section of the Department of Ancient and Modern Languages and Literatures. In addition to its intrinsic value in the context of the liberal arts, the major provides knowledge of the language, literature, and culture of France which is useful in a number of careers such as teaching, business, law, and social service. Prospective teachers should consult “Preparing for Teaching,” page 21. Students interested in nonteaching careers are urged to consult with the French Section and with other appropriate departments early in their academic careers. Special attention is called to the minor in Administration offered through the Whittemore School.

A major consists of a minimum of 36 credits. Fren 401-402, 501, 503-504, 514, 516, 621, and 622 do not count toward a major. French 605-606 and 790 are required of majors. Majors are encouraged to take courses in the literatures of other countries as well as in fields such as music, art, philosophy, history, political science, and sociology which provide insight into non-literary aspects of culture. A minor in French consists of 20 credits in French courses numbered 501 and above. The Coordinator for French supervises the work of both majors and minors.

The French Section also offers a junior year abroad at the University of Dijon. This program is open to all qualified students at the University of New Hampshire. See Description of Courses. Fren 685-686. Early consultation with the Section is urged.

Geography

Geography is best defined as the discipline that describes and analyzes the variable character, from place to place, of the earth as the home of man. As such, geography is an integrating discipline, studying many aspects of man's physical and cultural environment that are significant to understanding the character of areas or the spatial organization of the world.

Because its integrating character establishes common areas of interest with many other fields of knowledge, geography is an excellent core discipline for a liberal education. Thus, students who have a primary interest in the spatial organization or the regional character of the world and who also desire a liberal education can attain these goals by majoring in geography. Those wishing to prepare for careers as professional geographers are advised to concentrate their coursework in geography and closely related fields, and should plan to go on to graduate study after completing an undergraduate major in geography.

Students who major in geography are required to take Geog 401, 402, and seven additional courses in geography or related
fields approved by their supervisor to a total of 28 semester credits. The seven courses should include Geog 570, 572; 581, 582; 797; and two additional intermediate-level courses in geography.

A minor in Geography consists of five courses (20 credits) in Geography.

Students interested in majoring in Geography should consult with the supervisor, Professor William H. Wallace.

**German**

The German major is offered by the German Section of the Department of Ancient and Modern Languages and Literatures. This program is designed to be of interest to the following groups of students:

1. Those who have a special interest in the German language, literature, and culture.
2. Those who intend to enter professions in which a background in foreign languages and literatures is desirable. Examples of such professions are library science, international banking, trade, science, and government services.
3. Those who plan to teach the German language in secondary schools. Since most secondary schools require their teachers to teach more than one subject, students planning to enter teaching at this level must plan their programs carefully. They should combine a major in one of the languages and its literature with a minor or at least a meaningful sequence of courses in another subject.
4. Those who intend to go on to graduate study in the field of Germanic linguistics and literature. Such graduate study is requisite to teaching at the college level and to other specialized work in the field.

The German Section offers a junior year abroad at the University of Salzburg. This program is open to all qualified students at the University of New Hampshire. See description of courses, Germ 685–686.

A major must comprise a minimum of 36 credits in German language, literature, and culture beyond Germ 504. Germ 525, 526, 601, 602 (or their equivalents), 781, and eight other credits on the 600 or 700 level, excluding Germ 791, are required for all majors. Achievement examinations will be given at the end of the junior and senior years.

**Greek**

The Greek major is offered by the Classics Section of the Department of Ancient and Modern Languages and Literatures. The supervisor for majors is the Coordinator for Classics, Professor John C. Rouman.

The minimum requirements for a major in Greek are as follows: 32 credits in Greek, including Grek 401-402. The student will be encouraged to take courses in related fields such as Latin, Classics, and ancient history.

The Classics Section also offers an honors program in Greek. Honors will be awarded to those students who achieve at least a 3.67 average in courses counted toward the major and complete a senior research project and paper. A 3.5 overall average is also required.

**History**

Students majoring in history must complete 32 credits in history courses numbered 500 or above with a grade of C- or better and an overall average in these courses of 2.0 or better. These courses must include a minimum of one semester-course each from Groups I, II and III listed in the Description of Courses. At least four semester-courses of the total must be numbered 700 or above. This must include Hist 797, Colloquium in History, which every senior student majoring in history is required to complete. History majors must complete Hist 500, Introduction to Historical Thinking, in the semester following declaration of major. For transfer students, a minimum of four of the semester-courses used to fulfill the major requirements must be taken at the University of New Hampshire and at least two of these must be numbered 700 or above.

Students intending further work in history beyond the bachelor's degree are urged to take Hist 775, Historical Methods.

Students intending to major in History should consult with the chairperson of the department's undergraduate committee. Suggested programs for students with special interests or professional plans are available in the department office.
Humanities

The major in humanities allows a student to design and pursue under faculty guidance a coherent interdisciplinary program in the humanities (art, drama, language, literature, music, philosophy). The student defines the subject and selects a program of related courses. The subject may be a historical period or any other topic which can be explored through several disciplines in the humanities. The program must have clear educational and intellectual merit, and prepare the student to undertake a senior project of at least four credits on the subject (Huma 699). The program must be sponsored by a faculty member from the Humanities Division and approved by the Humanities Steering Committee.

Students who wish to become Humanities majors should submit a formal proposal to the Steering Committee by the end of the sophomore year. Normally, a student should have a grade-point average of at least 2.7. The student should select most of the courses for the program from those offered for major credit by departments within the Humanities Division, but the student is encouraged to include courses from outside the Division (especially from History) when they are appropriate to the major subject. The number of courses in the program may vary, but at least 32 credits of major coursework must be completed.

Before submitting formal proposals, interested students are urged to seek the advice of Steering Committee members and other faculty in the Humanities Division. Inquiries about the Humanities major should be directed to: Anthony Caldwell, coordinator of the Humanities major, Department of English.

Latin

The Latin major is offered by the Classics Section of the Department of Ancient and Modern Languages and Literatures. The supervisor for majors is the Coordinator for Classics, Professor John C. Rouman.

The minimum requirements for a major in Latin are as follows: 32 credits in Latin, excluding Lat 401-402. The student will be encouraged to take courses in related fields such as Greek, Classics, and ancient history.

The Classics Section also offers an honors program in Latin. Honors will be awarded to those students who achieve at least a 3.67 average in courses counted toward the major and complete a senior research project and paper. A 3.5 overall average is also required.

Linguistics

Linguistics is the study of one of the most important characteristics of human beings: language; it cuts across the boundaries between the sciences and the humanities. The program is an excellent liberal arts major or pre-professional major for law, medicine, clergy, and others. Dual majors with a foreign language, business administration, and the like are quite feasible.

The program is based on 32 credits of linguistics courses, four Core courses and four additional Area courses. The language requirement is: two years of college study (or equivalent) of one foreign language and one year of a second language from a different language family or subfamily.

A minor in Linguistics consists of four Core courses, and two additional courses from the Area courses.

Students interested in the major or the minor should consult with the program director, program secretary, or with any professor who teaches linguistics courses.

Core Courses

Students must take a total of four Core courses. (titles are given below under departments.)

Introductory courses: Engl 505 and Clas 506; both are required.

Syntax and Semantics: Theater and Communications 572; Psyc 712; Phil 745; Engl 794; one is required.

Phonetics and Phonology: Communication Disorders 524; Engl 793; one is required.

Area Courses

Anthropology: 795-796, Anthropological Linguistics

Classics: 506, Introduction to Historical and Comparative Linguistics; 595-596:08, Sanskrit; 795-796, Independent Study; Hittite (by arrangement).

English: 505, Introduction to Linguistics; 715, Applied Linguistics; 716, Problems in Applied Linguistics; 718, English Linguistics (taught at the Merrimack Valley Branch, same as 505); 719, English Grammar; 752, History of the English Language; 753, Old English; 754, Beowulf; 793, Phonetics and Phonology; 794, Syntax and Semantics.

Philosophy: 412, Introduction to Logic; 550, Symbolic Logic; 712, Advanced Logic; 745, The Philosophy of Language.

Theater and Communication: 572, Language and Behavior; 630, Psychology of Communication; 673, Experimental Studies in Oral Communication; 681, Theories of Language.

Other courses may be substituted with the permission of the student's adviser and the Linguistics Committee when they are pertinent to the needs of the student's program.

Microbiology

The Department of Microbiology is designed to explore the fundamental nature of living organisms which cannot be seen by the unaided eye. The primary emphasis is on bacteria and viruses. Such learning is especially valuable to students planning to enter city, state, or federal government service, or a position with universities, research institutes, or industrial organizations. Some students go on for graduate work. The principal areas of concentration in the department are: 1) general, 2) medical, 3) public health, 4) environmental, 5) marine microbiology, and 6) virology.

A minimum of 28 semester credits from department offerings must be completed in addition to a course in biochemistry (Bchm 601 or 656). Chem 403-404 should be taken in the freshman year. Organic Chemistry (Chem 545 or 547-548) is required for entry into the Microbiology and Biochemistry Departments. Within the Department of Microbiology the following core courses are required: General Microbiology (503), and Taxonomy and Ecology (701). For students desiring a strong background in medical microbiology, Pathogenic Microbiology (702), Immunology and Serology (705), and Virology (706) are recommended. For those students wishing to emphasize natural processes the following courses are recommended: Environmental Microbiology (600), Marine Microbiology (707), and Microbial Biogeochemistry (708). Microbial Genetics (704) is recommended as a course valuable to any student majoring in microbiology. The Problems in Microbiology course (795-796) is available for students by special permission. For those considering graduate school and for the microbiology registry exam, it is strongly recommended that students take courses in mathematics through calculus, physics, quantitative analysis, and introductory courses in botany and zoology. The courses for each major program are selected to meet the needs of the individual student as determined by the student and the adviser.

Students interested in majoring in microbiology are advised to consult Professor Galen E. Jones.

Music

The Department of Music offers two degree programs: the Bachelor of Arts and the Bachelor of Music. The Bachelor of Music degree is discussed in a separate section of this chapter.

The Bachelor of Arts program offers the student an opportunity to major in music within the liberal arts curriculum. This program is intended for those who wish to pursue the serious study of music and to acquire at the same time a broad general education; it is recommended for those considering graduate study leading to the M.A. or Ph.D. degrees, or the five-year undergraduate-graduate program in Teacher Education.

To be formally admitted to the B.A. program, a student must give evidence of satisfactory musical training by taking an admission audition. A student must declare music as a major prior to the beginning of the junior year, but it is highly recom-
The Department of Music is a member of the National Association of Schools of Music. Prospective B.A. majors in music are advised to consult with Professor Paul Verrette.

Philosophy

400-level courses are self-contained introductions to philosophy. They may be taken in any number and order. 500-level courses may also be taken without prerequisite; they provide a more systematic comprehension of philosophy and a foundation for advanced work. Most 600-700 courses require previous philosophy, although Philosophy through Literature and Philosophy of Natural Science are open to upper-class students generally.

The Philosophy Major  Philosophy has always been the heart of a liberal education. Philosophy is its own reward. It should deepen and enrich the lives of those who pursue it. It is also an excellent preparation for a variety of vocational and professional pursuits.

The following courses constitute a core required of all majors: 570, 572, 573, 574, and one from 610, 615, 620. Students conscious of a more-than-ordinary interest in philosophy should take these core courses as early as possible.

Beyond the core, a major must select, with the adviser's approval, three additional philosophy courses, at least two of them on the 600-700 level (exclusive of 695-696 and 795-796), for a minimum of eight courses.

Special Interest Program  A student may add to the above major a special interest program which might be of value in planning for postgraduate education or entry into such areas as law, medicine, business, education, theology, social work, etc. Special advisers are prepared to provide informed counsel to philosophy majors interested in these areas. This special interest can involve up to five courses beyond the basic required eight, either in the philosophy department or outside it, and will be noted in the department's file for such use as the student may find for it.

Graduate Preparatory Emphasis  This emphasis is strongly recommended for any student who plans to do graduate work.
in philosophy. Beyond the five core courses, such a student should select, with the adviser's approval, six additional philosophy courses above the 400 level, for a total of 11 courses. At least three of these six should be on the 600-700 level (exclusive of 695-696 and 795-796) and one of them should be 550.

**Departmental Honors** Students accepted as honors candidates will register for 695, 696 (usually during the second semester of the senior year) and will write, under the guidance of an adviser, an original paper in philosophy. If completed successfully, and contingent upon maintenance of the academic standards required for acceptance into the honors program, this will entitle the student to receive a Letter of Commendation, and the designation "Philosophy Honors Student" will be placed on the student's academic record.

**Philosophy Minor** Philosophy is interdisciplinary; thus it makes an excellent minor for any major field. Any five philosophy courses constitute a minor.

**Political Science**

The study of politics, to which the courses and seminars of the Political Science Department are devoted, includes the development of knowledge of political behavior by individuals and groups as well as knowledge about governments: their nature and functions, their problems and behavior, and their interactions—at the national and international levels and at the local, state, and regional levels.

Much of the learning offered by the Political Science Department can also be regarded as essential for good citizenship since political knowledge helps to explain both the formal institutions by which societies are governed and the issues which encourage people toward political interest and political action. In addition, such learning is especially valuable to students planning to enter local or national government or other public service, including the foreign service, and will be of great help to those who intend to study law and enter the legal profession. For teaching, particularly at the college level, and for many types of government service, graduate work may be indispensable; and an undergraduate major in Political Science will provide the most helpful foundation for later graduate study in the field. Such an emphasis will also be valuable for students seeking careers in journalism, international organizatons, and the public affairs and administrative aspects of labor, financial, and business organizations.

The major program in Political Science consists of at least nine courses (36 credits) and not more than 12 courses (48 credits). The courses will be distributed in the following way:

1. Two from the offerings at the 400 level. These courses are designed for the introductory level and should be completed by majors by the end of the sophomore year.
2. Six from the offerings at the 500 and 600 levels. Of these, at least one shall be chosen from each of the four fields in which the department's courses are organized: American Politics, Comparative Politics, International Politics, and Political Thought.
3. One from the offerings at the 700 level.

In addition to the courses regularly offered, the department will have available Selected Topics, Independent Study, and Internships. Interested students should check with the department office to learn of the offerings for a given semester.

**Psychology**

A general function of the Department of Psychology is to provide an academic major that will contribute to the broad education of the undergraduate student. Specifically, the student will be exposed to the scientific study of behavior and will achieve an increased understanding of the behavior of humans and animals.

Students majoring in psychology are required to complete 32 credits distributed as follows: 1) Psyc 401; 2) Psyc 601; 3) two courses, selected from among the following options: Psyc 602, 605, 621, 701 through 749; 4) two courses from among the following options: Psyc 651, 652, 750 through 789; 5) two additional courses from among the departmental offerings. Students must have completed Psyc 401 and 601 before being officially admitted as a major.

In the case of the student whose educational goals would best be served by variations in Requirements 3 and 4 above, such variations must be requested in a formal petition prepared by the student explaining the reasons for the request; the petition must be approved by the student's adviser and filed in the student's records.
Psychology majors planning to go on to graduate work should include Psyc 602 or 704 among their courses. Students declaring psychology as a major may state their preference for a specific adviser and such preferences will be met where possible. Students expressing no preference will be assigned an adviser. Majors may change advisers with the consent of the adviser to whom they are changing.

Social Service

The Social Service major prepares graduates for social work practice within the context of a liberal arts education. It also prepares students for admission to graduate schools of social work and other graduate professional programs in human service professions.

Social Service majors pursue a program which deals with the origin, development, and organization of health and welfare institutions; methods of social work practice; and the relationship of the social work professions to contemporary social issues and problems. Social Service majors gain direct experience and a better understanding of the field in required participation in a social welfare setting for a minimum of 300 hours. The details of the field experience will be arranged between the student and the designated faculty.

Social Service majors are required to take SS 522, 523, 622, 623, 631, and Soc 601, and one course from each of four designated areas, listing of which will be provided by the student's faculty adviser. Students wishing to major in Social Service should consult with the chairperson Professor Pauline Soukaris in Murkland Hall.

Sociology

The major in sociology is designed to provide a degree of concentration in the study of society consonant with a broad liberal education. However, those who wish to teach sociology in secondary schools are advised to consult with the chairperson of the Department of Education for additional courses in related subjects and teaching that may be required. Those who wish to pursue a career in Social Service should consult with the chairperson of that department as to additional courses or possibilities for graduate training. Those who wish to enter graduate programs in sociology should consult with their advisers about additional courses, particularly in the areas of theory, statistics, and methodology, that they should take.

Majors must complete a minimum of 36 semester credits with grades of C- or higher in sociology. Soc 400 (or 500 and 600), 601, 602, 611, 612 are required. At least two of the additional major courses must be at the 600 or 700 level (not including 795 or 796).

Departmental Honors Honors in Sociology will be awarded to those students who achieve at least a 3.67 average in courses counted toward the major and complete satisfactorily a four-credit senior thesis under the guidance of a faculty member in addition to the regular requirements of the major. A 3.5 overall average is also required. Students wishing to work for honors should inform the Undergraduate Committee of their intention to do so during the second semester of their junior year, appending their academic record and a statement of the area in which they intend to write their thesis.

All students interested in choosing sociology as a major should consult with the chairperson of the Departmental Committee for Undergraduate Studies. It is the responsibility of each student majoring in sociology to obtain the latest information from the department office.

Spanish

The major in Spanish, offered through the Spanish Section of the Department of Ancient and Modern Languages and Literatures, is for those students who wish to acquaint themselves more thoroughly with the language, culture, and literature of the Spanish-speaking peoples.

In addition, through the major, the student can prepare for practical goals: teaching Spanish in the grade or high schools, or teaching other subjects in bilingual programs. Following advanced degrees, teaching at the college level and engaging in scholarly research or entering such fields as linguistics or library sciences are career opportunities. Majors gifted in languages consider the fields of translation and interpretation. With coursework in business, sociology, psychology, speech,
etc., the Spanish major may prepare for work in Spanish-speaking areas of the world as well as bilingual regions of the United States and also with many governmental agencies.

The Spanish Section sponsors junior year in Spain and Mexico programs which offer students further opportunity to gain practical experience in the use of the Spanish language. The programs are open to nonmajors as well (see the course description for Span 685-686 for further information).

The minimum requirement for a major in Spanish is 32 credits in courses numbered 504 and higher. Specific course requirements are: 1) 504, 631, 632 (depending on initial placement); 2) 525, 601; 3) 651, 652, 665, 666 (any three); and 4) two 700-level literature courses.

Students intending to major in Spanish should consult with the Coordinator for Spanish or the undergraduate adviser.

Theater

Theater as a composite art, reflecting life, is closely related to painting, sculpture, music, dance, literature, and philosophy. Theater is one of the two majors offered in the Department of Theater and Communication. The major stresses a broad background in the arts within their social framework. The student interested in the creative aspects of speech communication will find an opportunity for personal and pre-professional growth in theater and its drama, with opportunity for independent study of basic theories and personal involvement in active laboratory situations.

The required curriculum for majors in theater consists of: Theater and Communication (ThCo) 402, 435, and a minimum of eight hours from each of the three areas (theory/history, design/technical, performance) plus one full course or its equivalent from Performance Project (654) and Scenic Arts Project (655). In addition, Senior Seminar I and II (697-698) is required, plus an additional eight hours (distributed or in one area) at the 600-700 level. The courses applicable to each category are available from the student's adviser.

In addition there are three other course sequences available within the theater major: 1) courses leading to a major that when combined with requirements from the Department of Education qualify the student for secondary school certifica-

tion; 2) courses leading to a major that when combined with requirements of the Department of Education prepare the student for Elementary certification with an undergraduate specialization in Youth Drama; 3) courses leading to a theater major with a concentration in dance. (In order to be eligible to take either of the first two sequences, a student must qualify for the five-year certification program in the Department of Education.)

All students interested in majoring in theater should consult with the chairperson of the Department of Theater and Communication. Students wishing to transfer to the University of New Hampshire in Theater must first have the approval of the Department.

Zoology

The zoology major is designed to prepare students for admission to graduate work, at least two years of which is considered minimal for undertaking professional work in pure or applied zoology. Other students may elect the major, but there will be no reduction in requirements.

The University's location on tidewater and near the open ocean provides an unusual opportunity for study of marine zoology and marine ecology.

Zoology majors must complete 32 credits of biology (botany, biology, zoology) courses. Minimum requirements for the zoology major are as follows: Chem 403-404; organic chemistry; calculus (Math 425) or statistics; college physics; Bot 411 or 412; Biol 541; Zool 412, 518, 527, 604, 729 or 728, plus an elective. A suggested sequence of courses follows:

Freshman: Zool 412, Bot 411 or 412, Chem 403-404, and Math 425 (or INER 528).

Sophomore: Zool 518 and 527, Biol 541, and Chem 545.

Junior: Zool 604, Phys 403 (and INER 701 if taken in addition or instead of Math 425.)

Senior: Zool 729 or 728, another biological science course in Zoology or other biological sciences department (may be taken earlier than the senior year.)

Students who are interested in a zoology major should consult the supervisor, Professor Emery F. Swan.
College of Liberal Arts

Bachelor of Science Curriculum in Biology

The Bachelor of Science curriculum in Biology is an interdisciplinary program which permits students considerable specialization while providing them a broad cultural education.

Degree Requirements These requirements apply to students who enter the curriculum between July 1, 1977, and June 30, 1978, and who are seeking a B.S. degree.
1. 128 semester-hour credits
2. At least a 2.0 grade-point average in all courses completed at the University of New Hampshire.
3. All the University General Education Requirements including Engl 401.

Major Requirements Specific curriculum requirements are presented in detail on page 82.

Bachelor of Fine Arts Curriculum

The Bachelor of Fine Arts curriculum provides training for the student who plans to enter professional graduate school or pursue a professional artist's career. The basic program of six courses is to be completed in the freshman and sophomore years, and consists of drawing (Arts 432, 532), beginning painting (Arts 542), sculpture (Arts 567), and art history (Arts 475 or 476 and 588). Students majoring in a three dimensional discipline should choose Arts 475 and students majoring in a two dimensional discipline should choose Arts 476. This basic unit of six courses is designed to provide a common body of concepts and techniques for all students enrolled in the program and is intended to raise the level of creative achievements in the advanced stages of the program.

During the junior and senior years the student will concentrate on six courses, two of which must be at the 600 level, in one of the major studio discipline areas of the department: 1) Ceramics, 2) Drawing/Graphics, 3) Painting, 4) Sculpture, 5) Wood/Furniture Design. The advanced student will also be required to take four studio electives, one elective in art history, plus Arts 589, 20th Century Art, and/or Arts 677, Seminar in Modern Art. Finally, the senior student will be required to take Arts 789, Seminar/Senior Thesis, which culminates in the mounting of an exhibition of the student's work.

The four courses in art history required in this program can be used to partially satisfy the University's Group III general education requirement.

Bachelor of Music Curriculum

The Bachelor of Music degree program is offered to students who wish to develop their talent in performance, composition, or music education to a high professional level. The program is recommended to those considering graduate study leading to the Master of Music or Doctor of Musical Arts degrees. Prospective majors are advised to consult with Professor Paul Verrette.

To be admitted to the B.M. program, a student must demonstrate a high degree of musical competence or significant creative ability during an audition or examination. Selectivity is exercised as appropriate to the professional requirements of each programmatic option. The student must formally declare the B.M. as a degree program prior to the beginning of the sophomore year. Continuation into the upper level of the program is subject to review by the Music Department faculty.

A public performance is required during the senior year. (For performance majors this must be a full recital; for theory majors, a lecture, lecture-recital, or a recital including at least one original composition; for music education majors, a half recital is a minimum.) A more detailed description is available from the Department of Music.

The Bachelor of Music curriculum offers concentration in the following areas: Option 1. Piano; Option 2. Organ; Option 3. Voice; Option 4. Strings, Woodwinds, Brass, or Percussion; Option 5. Theory (Composition); Option 6. Music Education.

Requirements for the degree include: 128 semester credits; a minimum 2.0 grade-point average in all courses completed at the University of New Hampshire; selected general education requirements as listed in the following options; and specific curriculum requirements as indicated. Courses are to be completed generally in their arranged sequence.

Students in music education must maintain a minimum 2.5 GPA in the major, and have a 2.2 cumulative GPA at the time of application for student teaching (February 15 of junior year).
Bachelor of Music

Freshman Year
All Options: Engl 401; Freshman English; General Education Requirements—selected science (2 courses), selected social science; Musi 471-472, 473-474.
Option 1. Musi 542 (8 credits).
Option 2. Musi 544 (8 credits).
Option 3. Musi 541 (8 credits); Musi 542 (2 credits); Music Laboratory—choral, (2 credits).
Option 4. Performance Study—major instrument, (8 credits); Musi 542 (2 credits); Music Laboratory—instrumental, (2 credits).
Option 5. Musi 542 (2 credits); Performance Study—brass, (1 credit); Performance Study—woodwind, (1 credit), or Techniques and Methods.
Option 6. Performance Study—major instrument (2 credits); Music Laboratory (2 credits); Techniques and Methods (4 credits); MuEd 500.

 Sophomore Year
All Options: General Education Requirements—selected social science (2 courses), selected humanities (non-music) (2 courses); Musi 571-572, 573-574.
Option 1. Musi 542 (8 credits).
Option 2. Musi 544 (8 credits).
Option 3. Musi 541 (8 credits); Musi 542 (2 credits); Music Laboratory—choral, (2 credits).
Option 4. Performance Study—major instrument, (8 credits); Musi 524 (2 credits); Music Laboratory—instrumental, (2 credits).
Option 5. Musi 542 (2 credits); Musi 501-502; Performance Study—strings, (1 credit), or Techniques and Methods.
Option 6. Performance Study—major instrument 2 credits; Music Laboratory (2 credits); Techniques and Methods (4 credits); Educ 500 in the place of one social science.

Junior Year
Options 1-5: General Education Requirements—Foreign language recommended (2 courses).
Option 1. Musi 542 (8 credits); Musi 501-502; Musi 771-772; Musi 455.
Option 2. Musi 544 (8 credits); Musi 501-502; Musi 771-772; MuEd 540 and 741.
Option 3. Musi 541 (8 credits); Musi 542 (2 credits); Musi 501-502; a second foreign language—German, French or Italian (8 credits); Music Laboratory—choral and/or opera workshop, (4 credits).

Option 4. Performance Study—major instrument, (8 credits); Musi 501-502; Musi 551-552; Ensemble, (2 credits); Music Laboratory—instrumental, (2 credits).
Option 5. Musi 771-772; Musi 775-776; Musi 779; Musi 781; Musi 542 (2 credits).
Option 6. Musi 501-502; Musi 551-552; Musi 779; Performance Study—major instrument (3 credits); Music Laboratory (3 credits); Educ 700; Educ 701; and one social science.

Senior Year
Option 1. Musi 542 (8 credits); Musi 455; Musi 735; two 4-credit courses elected in advanced theory and literature; two 4-credit courses elected outside the Department of Music.
Option 2. Musi 544 (8 credits); two 4-credit courses in liturgical music, organ literature, repertoire and hymnology; two 4-credit courses in music literature and/or advanced theory; two 4-credit courses elected outside the Department of Music.
Option 3. Musi 541 (8 credits); Musi 542 (2 credits); two 4-credit courses in music literature and/or advanced theory; Music Laboratory—choral, ensemble, and/or opera workshop, (4 credits).
Option 4. Performance Study—major instrument, (8 credits); two 4-credit courses in music literature and/or advanced theory; two 4-credit courses elected outside the Department of Music; Music Laboratory—instrumental, (2 credits); ensemble, (2 credits).
Option 5. Musi 773 (2 credits); Musi 777-778; Musi 542 (2 credits); two 4-credit courses in music literature; two 4-credit courses elected outside the Department of Music.
Option 6. MuEd 787-788; MuEd 791-792; Educ 705; Educ 694; Performance Study—major instrument (1 credit); Music Laboratory (1 credit); General Ed Requirement (2 courses, foreign language recommended).

All students are responsible for adding electives as needed to total a minimum of 128 credits for graduation.
College of Life Sciences and Agriculture

Bachelor of Science in Forestry

*First two years at the University of New Hampshire, second two at the University of Maine.
General Information

Purposes and Programs
The objectives of the College of Life Sciences and Agriculture are to give students a fundamental education in the biological, physical, and social sciences and to introduce them to the arts and humanities. In addition, specific technical courses are provided in the student’s interests and major.

The College offers three undergraduate degrees: the Bachelor of Arts, the Bachelor of Science, and the Bachelor of Science in Forestry.

Advisory System A member of the faculty closely related to the student’s area of interest is appointed as an adviser to assist the student in planning his or her academic program.

The student may select a major upon entering the College or may wait until registration for the sophomore year.

Undeclared Students who are uncertain about choosing a specific major may remain undeclared during their freshman year. In most cases they should take the following courses, after which they should be ready to declare a major:

<table>
<thead>
<tr>
<th>Fall</th>
<th>Spring</th>
</tr>
</thead>
<tbody>
<tr>
<td>Chem 403</td>
<td>Chem 404</td>
</tr>
<tr>
<td>Bot 411 or Zool 412</td>
<td>Bot 412 or Zool 412</td>
</tr>
<tr>
<td>Psyc 401*</td>
<td>Engl 401</td>
</tr>
<tr>
<td>AnSc 401, Pisc 421, or FoRs 425</td>
<td>ReCo 411*</td>
</tr>
</tbody>
</table>

*Or other elective course to meet a Group II requirement.

Undeclared freshmen should explore a possible major by taking courses in the areas or programs which interest them most. They should talk to faculty, students, and their adviser, Dean Rich, concerning requirements, job opportunities, etc., in the various programs and should be prepared to declare a major by April when they preregister for the fall semester of the sophomore year.

Honors Program The College of Life Sciences and Agriculture, through its various departments, offers the superior student the opportunity to participate in an honors program which is individually designed to provide added intellectual incentives and opportunities. Participation in the honors program is by invitation of a faculty member with the approval of the Department concerned and the Dean of the College. It is limited to those students entering the sophomore or junior year with at least a 3.0 grade average. The recommending faculty member, his or her department chairperson, and the dean will constitute the student’s academic advisory committee. This committee and the student will decide upon a suitable academic program. Departmental and College course requirements may be waived for students in the program. The student will complete the same number of credits to graduate as other students in the department.

Dual-Degree Program: See page 18 for requirements.
Student Designed Major: See page 81 for requirements.
Minor Option: See page 19 for requirements.

Bachelor of Arts

Students majoring in Botany and Plant Pathology or in Entomology may elect to earn either a Bachelor of Arts degree or a Bachelor of Science degree. The degree requirements for the Bachelor of Arts in Life Sciences and Agriculture are almost the same as for a Bachelor of Science plus the addition of a foreign language requirement (see page 18 for B.A. degree requirements).

Bachelor of Science

Many professional careers are open for graduates of the College. There are opportunities for people trained in resource development and conservation in addition to positions serving in agricultural industries. Emerging countries throughout the world are asking for assistance in all phases of agriculture, including home economics and forestry. In all departments students may prepare for further graduate work in their respective fields of interest.

Following are additional examples of employment agencies and industries and the careers which they offer.

The agricultural industries, food processors, and banks employ graduates as price analysts and managers.

State planning and recreation agencies, soil conservation services, the cooperative extension services, and private re-
search firms employ rural and urban planners, hydrologists, conservation experts, resource development economists, nursery planners, and landscape gardeners.

The Peace Corps and the Foreign Agriculture Service hire farm production experts, soil and water managers, market analysts, agricultural engineers, teachers, plant and animal breeders, and nutrition specialists.

The federal government and state agencies, universities, health services, and private foundations employ biochemists, geneticists, animal nutrition specialists, plant and animal pathologists and physiologists, veterinarians, foresters, home economists, and entomologists.

**Academic Requirements**
For the Bachelor of Science degree a total of 128 credits is required. In addition the student must complete the General Education requirements found on page 16, obtain a written recommendation for graduation from the adviser and department chairperson, and achieve a 2.0 cumulative average for all courses taken at the University of New Hampshire.

**Agricultural Engineering**
Under this accredited program, a student completes the first two years of coursework at the University of New Hampshire, then transfers to the University of Maine for the junior and senior requirements, receiving a Bachelor of Science degree. Inquiries about the program should be addressed to the associate dean of the College of Life Sciences and Agriculture.

**Animal Sciences**
The animal sciences courses are offered to provide students fundamental scientific training in such specialized areas as genetics, physiology, nutrition, animal hygiene, processing, pathology, and management. The student also has an opportunity to further concentrate studies in the fields of animal, dairy, or poultry science; light horses; preveterinary medicine; or animal biology. The two degree areas are: animal sciences and preveterinary medicine.

Outstanding graduates are qualified to pursue advanced study in preparation for college teaching, research, and responsible technical positions in industry and federal and state agencies. Students interested in production and processing may seek jobs training them as production managers, for positions in the feed or equipment industries, marketing organizations, animal breeding associations, sales and service work in allied industries, and other areas of the diversified animal industry.

The department maintains Morgan and Thoroughbred horses for all phases of class work including riding. Herds of Hereford and Angus cattle, Yorkshire swine, and a flock of Dorset sheep are maintained in a new livestock facility.

The nationally recognized dairy herd, consisting of registered Ayrshire, Guernsey, Holstein, and Jersey animals, is housed in a new dairy barn. The Ritzman Animal Nutrition Laboratory includes bomb calorimeters, metabolism stalls for digestion studies, respiration chambers for heat production measurements, and other facilities used in nutrition teaching and research with both farm and laboratory animals.

Completed new poultry farm facilities are for instruction and research and include laboratories for teaching and research in poultry genetics, nutrition, diseases, and management. Laboratory facilities, including such modern equipment as ultra centrifuge, amino acid analyzer, gas chromatograph, and electron microscope, are available in Kendall Hall to provide the latest scientific training in the field of animal hygiene. Kendall Hall is an entirely new facility with five floors devoted to offices, classrooms, and laboratories for the Animal Sciences Department.

The department works closely with the New Hampshire animal industry and frequent class trips are made to leading farms, industrial concerns, processing plants, etc., where opportunities are presented for viewing industry in action.

Students who contemplate veterinary medicine as a career should confer early with the adviser to preveterinary-medicine students. It should be noted that all veterinary colleges give first preference for admission to applicants from their respective states. Out-of-state students who are admitted must show above average scholastic ability. It is desirable that applicants to colleges of veterinary medicine have some farm experience; and, in fact, it is a prerequisite for admission to some.
The following courses are required of animal science majors: AnSc 401 and 506, Chem 401-402 or 403-404, Bchm 501, Bot 411 (or 412) or PISc 421, Zool 412, and Biol 404 or Zool 604. In addition, several additional animal science courses are to be selected, depending on the student's interest.

Preveterinary students take most of the above courses plus special courses which prepare them for veterinary school.

**Biochemistry**

Biochemistry is the study of the chemistry of living things and life-processes. The program in biochemistry provides a fundamental education in chemistry and the biological sciences and includes basic courses in physics and mathematics.

Curriculum options are offered to meet the educational requirements of students with differing professional goals.

**Biochemistry Curriculum A** provides intensive preparation in chemistry and biochemistry and basic courses in botany, zoology, microbiology, and genetics. This curriculum is recommended for students preparing for graduate study or for admission into professional schools of medicine, dentistry, or pharmacy. Students entering the curriculum should register for Chem 405-406, Math 425-426, Bot 411, and Zool 412 in the freshman year.

**Biochemistry Curriculum B** provides a fundamental education in chemistry and the biological sciences with enrichment in biochemical specialties including medical, analytical, marine, or nutritional biochemistry. It provides a strong educational background for technical employment in research and service programs of universities, medical schools, hospitals, research institutes, and industrial or government laboratories. Students entering this curriculum should register for Chem 403-404, Bchm 402, Bot 411, and Zool 412 in the freshman year.

Students interested in a biochemistry major are advised to consult with the department chairperson as early as possible to assure the most effective curricular planning.

**Biology**

The Interdepartmental Biology major is described in the Preprofessional, Interdisciplinary, and Experimental Programs Chapter, page 82.

**Botany and Plant Pathology**

The Botany and Plant Pathology program is designed to explore the fundamental nature of plants. Botany graduates with suitable undergraduate backgrounds may enter the field of secondary education or become research technicians. Those students who have an interest in university teaching and/or research, governmental research, and certain kinds of industrial positions should expect to complete graduate education in the field.

The principal areas of concentration in the Department are:

1) plant physiology, 2) cell biology, 3) ecology, 4) phycology, 5) biological oceanography, 6) plant pathology, 7) systematic botany, 8) plant anatomy and morphology, 9) mycology, 10) morphogenesis, and 11) bryology.

Two botany and plant pathology degrees are offered: Bachelor of Science and Bachelor of Arts. All undergraduate botany majors are required to take the following core of Botany courses: 411, General Botany, or 412, Introductory Botany (or equivalent); 503, The Plant World; 566, Systematic Botany; 606, Plant Physiology; and 758, Plant Anatomy, or 762, Morphology of the Vascular Plants. Also are required are two Botany electives, Zool 412, and one year of chemistry. Majors must maintain a grade of C- or better with an average of 2.0 in required courses. Beyond that, the program of each individual student is selected by the student and adviser to meet particular needs.

Students interested in becoming botany and plant pathology majors are invited to discuss the matter with Professor A. Linn Bogle.

**Entomology**

Entomology offers courses for students who wish to specialize in the study of insect life, insect control, and insects in
relation to man. There are opportunities for employment in a number of federal and state agencies, in public institutions, and with commercial and industrial firms. Many opportunities exist in the areas of crop protection, forestry, conservation, and in public health.

Students are given a fundamental training in entomology and related fields. Qualified students planning a professional career in entomology are encouraged to undertake graduate study. Those who wish to specialize in chemical control of insects will be expected to take courses in mathematics and chemistry.

Students who major in entomology are expected to complete successfully courses offered by the department, to a total of 32 semester credits. Courses in other departments may be counted with the consent of the major supervisor.

A student may earn either a Bachelor of Science or Bachelor of Arts degree in Entomology.

Those contemplating a career in entomology are advised to consult with the chairperson of the Entomology Department.

General Studies

General studies is a flexible, loosely structured curriculum for students with a broad, general interest in several areas of life sciences and agriculture. It cuts across departmental lines. In some respects it resembles a self-designed major. It is not intended to be a catch-all for students from other colleges but is intended to serve the needs of Life Sciences and Agriculture students. Students majoring in general studies should take Chem 403-404, Zool 412, and Bot 411, 412, or PIsC 421. Six additional courses in our college (or closely related courses approved by the adviser), two of which must be at the 600 level or above are required. These courses should be inter-related in such a way that they will help a student meet his/her goals for employment or further study.

Freshmen who are unsure of a major should not declare general studies as a major but should remain undeclared for a semester or two. See page 37.

Home Economics

The objectives of the program in home economics are to provide, through the facilities of the University, a broad general education in the social and natural sciences, the humanities, and the arts, and to provide specialized instruction based on these disciplines as preparation for professional careers in which the interests and well-being of the individual, the consumer, and the family are paramount.

The department provides professional preparation through five options open to men and women: 1) secondary school education, 2) pre-school education, 3) family services, 4) consumer studies, 5) human nutrition and dietetics.

The department has been approved by the New Hampshire State Board of Education for the preparation of nursery, kindergarten, and secondary school teachers in vocational home economics and family-life programs. Requirements for some professional programs make it advisable for the student to specify an option as soon as possible, by the sophomore year at the latest.

A candidate for the degree of Bachelor of Science completes 32 courses or a minimum of 128 credits with an average of C or better, distributed as follows: University General Education requirements, 16 courses or 64 credits; professional or specialized education requirements, 16 courses or 64 credits. The latter must include a minimum of nine courses or 36 credits in home economics. Each undergraduate is required to take a minimum of four credits from each of the three major subject matter areas, i.e. Food and Nutrition, Family-Child, and Consumer Studies, offered by the Home Economics department. Upon declaring his or her major interest, the student, in consultation with the adviser, will then select the remaining six courses (24 credits) from among those offered in the department which relate to his or her particular field of interest. Also included must be a minimum of three courses or 12 credits in one of the social sciences or natural sciences numbered 500-level or above, and four courses or 16 credits of professional preparation (to be decided upon by the student in consultation with the adviser). These final four courses may help the student meet certification standards for secondary school
teaching, pre-school teaching, ADA requirements for a dietetic internship, or other objectives.

Students wishing to major in the home economics department are advised to consult with the department chairperson as early as possible. Further information about specific programs may be obtained by contacting the Home Economics Department.

Institute of Natural and Environmental Resources

Community Development
The Community Development program deals with broad aspects of community problem resolution including economic, social, political, and technical matters. Communities are viewed as systems subject to meaningful analysis. Emphasis is placed on the community development process of helping the people in the community learn how to work together, organize their efforts, and analyze community problems in a democratic, decision-making framework. The curriculum takes an interdisciplinary approach, and includes field experience as a vital component, along with classroom and independent study.

The core courses in the curriculum provide the student with the basic community development tools. Flexibility is provided through electives that permit the student to specialize and develop a strong minor in areas such as conservation, planning, education, administration, pollution and waste disposal, natural resource management, or resource economics. Opportunity is provided for directed field experience.

While this program is suitable for preparing citizens for more effective leadership in their community, employment opportunities are available in the United States, Canada, and in emerging nations. Many federal and local agencies are now undertaking revenue sharing and community assistance programs and need personnel who are trained to apply the arts and sciences to the problems of communities. Similarly, many private and local groups are concerned with community planning and development.

Students interested in a community development major or minor may consult with the program coordinator, Dr. Edmund F. Jansen, Jr., James Hall, or with the director of the Institute.

Three Additional Courses Selected by Student

General Electives
At least 7 courses (28 semester hours) selected by student.
Environmental Conservation

This program is intended to give a broad background for understanding environmental and resource problems and their solutions. Man's economic activity within our biological ecosystems requires understanding of both subject-matter areas. Development of policies and planning is essential to resolving environmental problems.

Students must develop an option related to career goals. The option consists of eight courses selected with the assistance of the faculty adviser from the offerings of the University. Options center on a variety of conservation-related areas, such as land-use planning, ecological education, pollution control, writing on natural resources, etc. In addition, a student must complete the 11 courses listed below, which make up the core of the environmental conservation program.

A minor of five courses in environmental conservation is available for students majoring in other areas. Permission is required.

Students should plan to work for a master's degree if they wish to be professional conservationists. The undergraduate degree offers an education in environmental conservation with the opportunity for specialization or generalization in related fields.

All students must complete the University General Education requirements. Students are further urged to take courses that will develop their writing and speaking skills.

The following 11 courses are required of all majors:
1. INER 401, Natural and Human Resources of New England
2. Bot 411, General Botany
3. Zool 412, Principles of Zoology
4. and 5. Ecology electives: two of the following: Biol 541, General Ecology; Bot 741, Ecosystem Analysis; Bot 742, Physiological Ecology; FoRs 527, Silvics; FoRs 634, Wildlife Ecology; FoRs 672, Ecological Energetics
5. REco 411, Introduction to Resource Economics
6. An advanced course in the economics of resources
7. INER 635, Contemporary Conservation Issues
8. INER 702, Natural Resources Policy
9. SWS 504, Fresh Water Resources

10. INER 637, Senior practicum: 4 credits. This practicum will be an independent project involving field work on an actual conservation activity during the senior year. A written report will be required. The project may be developed with any faculty in the Institute of Natural and Environmental Resources.

Students interested in a major or minor may consult with the program coordinator, Dr. John Carroll, James Hall, or with the director of the Institute.

Forest Resources

The forest resources program is accredited by the Society of American Foresters and has the objective of combining a basic education with technical forestry education to meet the needs of the professional forester.

Professional foresters are employed in a variety of forestland management and wood utilization positions. Some graduates work with natural resource protection and the improvement of environmental quality. Others are employed in the production and utilization of raw materials; still others become involved with wildlife, watershed, and recreation management.

Managerial and administrative skills are required of most professional foresters. This program provides a foundation in biological knowledge and managerial skills, with elective freedom to cultivate special abilities and interests. The curriculum leads some students into graduate studies, for which they have been prepared in the undergraduate program.

Students majoring in forest resources complete 136 credit-hours for the degree of Bachelor of Science in Forestry. The University's General Education Requirements are met by taking the required courses listed below and by choosing electives from the following: four courses in arts, humanities, and social sciences; and four courses other than those listed under Forest Resources.

In addition to the normal University fees and tuition, Forest Resources students are required to pay a regular transportation fee and to pay cost of meals in connection with some planned field sessions.
All of the following freshman and sophomore forestry program courses, or their equivalencies, must be completed before entry into any of the junior and senior forestry programs: Dendrology, Freshman English, General Botany, Calculus I, Wood Technology, Principles of Economics, Writing (or Speaking), Silvics, Introductory Soils, Computer Methods, Applied Statistics, Forest Economics, Forestland Mapping. Junior and senior forestry program courses include: Silviculture, Forestry Fire Protection, Forest Mensuration, Forest Management, Forest Resource Management Seminar, Wood Products Manuf. and Mkt., Operations Control and Analysis.

Prior to the junior year, each student must choose a single area of concentration from the options listed below, and must elect 24 credits within that option.

**Forest Management Option:** One course at the 500 level or above in accounting, management, or administration in WSBE; FoRs 753, Operations Control and Analysis; and four additional courses (16 credits) in advanced forestry, wildlife, hydrology, soils, resource management, or administration.

**Forest Science Option:** Chem 404, General Chemistry; Bchm 501, Biological Chemistry, or Bchm 601, General Biochemistry; Zool/PISc 604, Genetics; and PISc 606, Plant Physiology; and two courses in advanced plant science, botany, or entomology.

**Wood Science Option:** Chem 404, General Chemistry; Math 426, Calculus II; two courses in FoRs 695 (Sec. 3), Investigations in Forest Utilization; and two courses in advanced mathematics, science, or engineering.

**Quantitative Science Option:** Math 426, Calculus II; Math 527, Differential Equations, or Math 528, Multidimensional Calculus; Math 640, Linear Algebra; a course in probability or statistics; and two courses in advanced mathematics, statistics, or computer science.

Students interested in the Forest Resources program may consult with the program coordinator, Professor Bennett Foster, James Hall, or with the Institute director.

*Not required for transfer students  **Bot 753 requires junior standing.
College of Life Sciences and Agriculture

Hydrology

Hydrology is the science underlying development and control of water resources on and beneath the earth’s surface. Because water is a basic requirement of life, it has social, economic, and political significance throughout the world. As the population of the world grows and as industrial, recreational, agricultural, and residential needs for water increase, greater emphasis will be placed on the study and understanding of problems associated with water resources.

Core courses expected of majors are listed below:

Chem 403, 404, General
Phys 407, 408, General
Bot 411 or 412 or PISC 421
Math 410, Computer
Math 425, 426, Calculus
ESci 401, Principles
S WS 501, Soils

ESci 561, Geomorphology
Math 527 or INER 528 or equivalent
CIE 642, Fluid Mechanics
INER 757, Remote Sensing
Hydr 603, Hydrology and Water Management
Hydr 705, Principles of Hydrology
Hydr 710, Ground Water Hydrology

Students interested in the hydrology program may consult with the program coordinator, Professor Gordon Byers, Pettee Hall, or with the Institute director.

Resource Economics

This program offers training in resource economics, including public resource policy, resource management, conservation economics, and regional economics. Training is also available in agricultural economics, including farm management, food marketing, agricultural policy, and world food supplies.

The student in resource economics is trained primarily in the science of economics and its use in problem-solving by individuals, households, business firms, communities, and administrators of governmental agencies. In addition, the student satisfies General Education Requirements leading to a broad university education. Those majors who are interested in the economic or business aspects of agriculture will be expected to take courses in the departments of Animal Sciences and Plant Science.

Students majoring in the social sciences and Life Sciences and Agriculture departments of the University may find it to their advantage to elect courses or a minor in resource economics. In this manner their basic training can be supplemented in a specific area of interest, such as: farm management and agricultural marketing for agricultural majors, or resource development and natural-resource policy for social science majors.

Students who major in resource economics are qualified for a wide variety of opportunities upon graduation. There is currently a strong demand by private business, public institutions, and government agencies for specialists trained in agricultural, fisheries, and forestry marketing; conservation resource development, community development, and land-use policy; extension work; resident teaching; and farm management. In many cases the students may wish to improve their qualifications by pursuing more specialized graduate studies in one or more of the above areas.

Required Courses
1. All of the following:
   Engl 401        Freshman English
   Soc 400 or      Introductory Sociology
   Polit 401       Introduction to Political Science
   ThCo 403        Public Speaking
   Admn 502        Financial Accounting
   Bot 411         General Botany*
   Zool 412        Principles of Zoology*
   Soil 501        Introductory Soils*
   Hydr 504        Freshwater Resources*
   INER 401        Natural and Human Resources in New England
   REco 411        Introduction to Resource Economics
   Math 420 or 425 Fundamental Mathematics or Calculus
   Econ 605        Intermediate Economic Analysis
   Econ 611        National Income Analysis
   INER 528 or     Applied Statistics I
   INER 701        Statistical Methods
2. At least six of the following:
   REco 501        Agricultural and Natural Resource Product Marketing
   REco 504        Management of Farm and Related Resource Based Business
   REco 506        Population, Food and Resource Use in Developing Countries

44
Institute of Natural and Environmental Resources

REco 507  Introduction to Community Problems
REco 606  Land Use Economics
REco 611  Marine Resource Economics
REco 676  Economics of Water Use
REco 706  Economics of Resource Development
REco 756  Regional Economic Analysis

*or equivalent to satisfy General Education Biological Science requirement.

Students interested in a major or minor in this program may consult with the program coordinator, Professor Richard Andrews, James Hall, or with the Institute director.

Soil Science
Soil Science is the study of the nature and properties of soils as well as their importance to modern society. It includes the study of the chemical and physical properties of soils, their formation, classification, conservation, and management. Soils are evaluated as a resource in urban and rural community planning.

Listed below are the core courses expected of majors. Electives permit freedom to tailor training to a student’s specific interests:

Chem 403, 404 General
Chem 517 Quantitative
Phys 407, 408 General
Math 410 Digital Computer
Math 425, 426 Calculus
ESci 401 Principles
ESci 762 Glacial
Bot 412 General
Bot 606 Plant Physiol.

INER 401 Nat. & Hum. Res. of N.E.
Soil 501 Soils and the Environment
Soil 502 Intro. Soil-Plant Rel.
Soil 602 Chemical Analysis of Soil
Soil 702 Chemistry of Soils
Soil 704 Soil Classification
Soil 795, 796 Independent Work
Micr 503 General Microbiology
Micr 708 Microbial Biogeochemistry

Students interested in the soil science major should consult with Professor Nobel Peterson or with the Institute director.

Wildlife Management
This curriculum is for students whose interest is in the understanding, production, management, and utilization of game and other forms of wildlife. It is designed to provide a knowl-

edge of wildlife species and of the total forest and field environment of which they are a part. It prepares the student for possible employment with public and private agencies in wildlife management and ecology, and is a base for graduate study, needed for research and teaching.

The degree earned is a Bachelor of Science with a major in wildlife management. The program is administered in the Institute of Natural and Environmental Resources and is a co-operative program with the departments of Animal Science and Zoology.

Field work is carried out during the academic year on wildlife areas near the campus. In June each year, a two-week session is held for all students who have completed the sophomore year. There is no additional summer camp. In addition to the normal University fees and tuition, students are required to meet transportation and meal charges in connection with regularly planned field sessions. Majors are encouraged to obtain summer employment related to their career objective.

Students majoring in wildlife management are required to complete 132 credits for the bachelor's degree. In completing the curriculum which follows, the student will meet the University General Education Requirements. These requirements should be met by choosing electives as follows: four courses in arts, humanities, or social sciences; and four courses from the other General Education Requirements. Two electives should be chosen from additional resource-oriented courses such as: FoRs: 544, Forest Economics; 629, Silviculture; 666, Forest Biometrics; 672, Ecological Energetics; 745, Forest Management; Soil: 501, Introductory Soils; 502, Soil-Plant Relationships; 504, Freshwater Resources; and INER: 702, Natural Resource Policy; 712, Sampling Techniques; 797, Forest Recreation Seminar.

Students interested in the Wildlife Management major may consult with the program coordinator, Professor William Mautz, Pettee Hall, or with the INER Director.

### Occupational Education

The Occupational Education curriculum provides professional preparation for teachers of Vocational-Technical Education and County Cooperative Extension personnel. Flexibility is maintained among individual programs with up to 30 credits being allowed for qualified students under the Occupational Competency Testing and Evaluation option.

Career options are varied with graduates teaching in nearly all areas of vocational-technical education and career education. Students also prepare for adult education positions through participation in field experiences in addition to coursework.

Students desiring to major or minor in this program should consult with the program chairperson Professor W.H. Annis.

### Plant Science

Students interested in plants and their use for food, feed, fiber, recreation, or ornamental purposes may take a major or minor in plant science. A core curriculum of physical and biological sciences is required. Selected courses then relate these sciences to the individual’s specific area of interest. Two curriculum options, the Science Option and the General Option, are offered to plant science majors. The following courses or their equivalents are required for these options:
<table>

</tbody>
</table>

Because of the diversity of employment possibilities, the General Option curriculum is flexible. Minor programs in administration, economics, English (journalism), parks and recreation, or occupational education are possible to accommodate specialized interests and complement fundamental requirements. Students will find opportunities in management of farms, greenhouses, golf courses, or nurseries; teaching; journalism; park or highway planning commissions; sales or brokerage aspects of wholesale and retail marketing; and food and feed processing firms. Students pursue the Science Option to prepare for graduate study and careers in research or teaching.

Students interested in a plant science major or minor may consult the department chairperson Professor L. C. Peirce.

General Information

The College of Engineering and Physical Sciences seeks to provide an optimal opportunity for students to achieve educational objectives appropriate to their interests in engineering, mathematics, and the physical sciences. The College offers a vigorous professional education in each of its eight primary disciplines leading to the Bachelor of Science, and a broad liberal education coupled with majors in mathematics and each of the three physical sciences leading to the Bachelor of Arts. All programs include an opportunity for study in the arts, humanities, and social sciences.

The key to an undergraduate program in the College is flexibility with a strong emphasis on personal and individualized education. In addition to specific programs a number of sub-options are available. Special programs can be developed to meet the specific interests of individual students.

Mathematics 425-426 or the equivalent in transfer credits or advanced placement approved by the Mathematics Department is required by all departments of the College for their majors.

The Bachelor of Science

The programs leading to the Bachelor of Science degree, offered in each of the departments of the College, emphasize the preparation of students for a professional career and continuing or graduate education.

The degree requirements for the Bachelor of Science include the University General Education Requirements page 16 and the specific departmental requirements for graduation. A minimum grade-point average of 2.0 must be achieved. Graduation credit requirements established by the departments range from 128-131. Since there is a core of courses which are similar in each curriculum, it is possible for a student to change the field of study during the sophomore year with little effect on the time required for graduation.

The Bachelor of Arts Program

Programs leading to a Bachelor of Arts degree are offered in the departments of chemistry, earth sciences, mathematics, and physics. These programs provide a broad liberal education along with a major in one of these physical sciences or mathematics. Students interested in science, but undecided about the field, may enter the College as a science major. The University degree requirements for the Bachelor of Arts degree are on page 18.

Bachelor of Engineering Technology

The Bachelor of Engineering Technology Program provides an opportunity for students with associate degrees in appropriate disciplines from accredited technical institutes to pursue a college degree in the area of engineering technology. Curricula in electrical and mechanical engineering technology are offered. The program has a two-plus-two type of structure whereby qualified students may completely transfer two years of credit as a result of their having an associate degree. Thus, if they are successful, they may complete the B.E.T. requirements in two years.

5 Year Program: B.S.-M.B.A.

The College of Engineering and Physical Sciences and the Whittemore School of Business and Economics offer a combined program leading to a Bachelor of Science in Chemical Engineering, Civil Engineering, Electrical Engineering, or Mechanical Engineering and a Master of Business Administration in five years rather than the normal six years. In order to accomplish this, students admitted to the program may have to take more than 16 credits per semester in several semesters (though no more than five courses or 20 credits). Provision has been made to count 12-24 credits towards both undergraduate and graduate degree requirements. All other University and departmental requirements for each degree must otherwise be met.

The program first "pre-admits" qualified students into two MBA courses at the end of the sophomore year. The pre-admission program is carried out jointly by representatives from the Whittemore School and the College of Engineering and Physical Sciences. Students should submit a formal application to the Graduate School (in the second semester of the junior year) for admission to the MBA program and will be judged by academic standards with special emphasis on maturity and experience.
Most of the fourth year is occupied by core MBA courses while the fifth year is used for MBA electives (some of which might be taken in the undergraduate major department) and for completing all requirements for the undergraduate degree. The MBA will be granted only if the bachelor's degree requirements are successfully completed.

The details of each student's curriculum are worked out jointly with his or her undergraduate adviser and with an adviser for the M.B.A. program.

**Interdisciplinary Minors**

Interdisciplinary minors have been developed in ocean engineering, oceanography, biomedical systems and instrumentation, and environmental engineering. These programs will enable students to obtain experience in the specialized area and to retain identification with their major professional area.

**Ocean Engineering** The ocean engineering minor provides for undergraduate students in Engineering to acquire a nucleus of knowledge about engineering pertaining to the ocean and the coastal zone.

A student must satisfactorily complete five courses from the following list: ESci 501, Introduction to Oceanography; ESci 752, Chemical Oceanography; ESci 758, Introduction to Physical Oceanography; ESci 759, Geological Oceanography; E 781, Ocean Instrumentation; E 785, Underwater Acoustics; M E 737, Ocean Mechanics I; M E 738, Ocean Mechanics II; M E 751, Naval Architecture in Ocean Engineering; M E 752, Submersible Vehicle Systems Design; M E 757, Coastal Engineering and Processes; Tech 610, Introduction to Ocean Engineering; Tech 697, Ocean Projects. Ordinarily a student must take ESci 501 and Tech 697 and three additional courses from the list, two of which must be engineering courses.

Students wishing to take the Ocean Engineering minor should indicate their interest to their department chairpersons no later than the beginning of the junior year. They will be assigned to their departmental ocean minor adviser who will assist in planning courses for the minor.

**Biomedical Systems and Instrumentation** The Biomedical Systems and Instrumentation minor encompasses the application of engineering science and technology to the fields of medicine and biology. Biomedical engineers participate in the development of medical instrumentation, physiological sensors, prosthetic devices, orthopedic and surgical devices, biomaterials, patient safety, and the applications of computers to medical problems. Biomedical engineers may continue their studies at the graduate level and find employment in biomedical research, as a practically-oriented clinical engineer in a hospital or other clinical setting or with the medical device and instrument industry.

A student electing this interdisciplinary minor must select E E 783, Biomedical Engineering;* E E 784, Biomedical Instrumentation; and at least two other courses from the list below, in consultation with the adviser. Since many of these courses have prerequisites, students should begin in the program during their sophomore year. During the final semester of study, application should be made to the dean to have the Biomedical Systems and Instrumentation minor shown on their transcript.

Engineering: E E 783, Biomedical Engineering;* E E 784, Biomedical Instrumentation;* E E 714, Minicomputer Applications Engineering; and with an appropriate choice of project and topic, E E 796, Special Topics in Electrical Engineering; 695 (E E, M E, CiE, ChE), Engineering Projects; E E 757, Fundamentals of Communications; E E 782, Control Systems.

Sciences: Zool 507-508, Human Anatomy and Physiology (or Zool 518, 527); Chem 651-652, Organic Chemistry (prerequisite: Chem 404 or 405); Bchm 656, Physiological Chemistry and Nutrition; PhEd 620, Physiology of Exercise; PhEd 652, Kinesiology.

It is suggested that Zool 507-508 (Human Anatomy and Physiology be selected during the sophomore year.

**Oceanography** The minor in Oceanography, available to all students in the University, consists of 20 semester hours with grades of C or better and no Pass/Fail courses. No more

*required courses
than eight major requirement credits may be used. A student may not elect minors in both ocean engineering and oceanography. All courses constituting the program shall be elected by the student in consultation with the oceanography minor adviser in the Earth Sciences department.

Required courses include: 1) ESci 501, Introduction to Oceanography, or ESci 503, Introduction to Marine Science. 2) Two of the following courses: ESci 752, Chemical Oceanography; ESci 758, Physical Oceanography; ESci 759, Geologic Oceanography. 3) Any two of the following courses or a suitable substitute approved by the minor adviser. (It is advisable that at least one of the courses be in the area of the biological sciences.) Bot 525, 722, 723, 727, 728; Engineering—Tech 610, ChE 695, CiE 695, E E 695, M E 695, 751, 757, 737; Micr 707, 708; Zool 618, 715, 724, 772, 774.

A student is encouraged to declare the intention to enter the program prior to the end of the junior year. During the final term, the student should apply to the dean to have the minor shown on the transcript.

Environmental Engineering Minor The environmental engineering minor provides a comprehensive introduction to major areas of interest in environmental protection, namely air pollution and water pollution, through the three required courses. Further breadth in environmental engineering or depth in specific areas can be attained through the proper choice of elective courses.

The requirements for the minor include a total of at least 20 credits from the following: 1) Three required courses: ChE 609, Fundamentals of Air Pollution and Its Control; CiE 643, Introduction to Environmental Pollution Control; ChE 772, Physiochemical Processes for Water and Air Quality Control, or CiE 644, Water and Wastewater Engineering. 2) a minimum of two elective courses from the following list: ChE 605, Mass Transfer and Stagewise Operations; ChE 772, Physiochemical Processes for Water and Air Quality Control; CiE 644, Waste and Wastewater Engineering; CiE 743, Environmental Sampling and Analysis; CiE 746, Wastewater Treatment Plant Design; CiE 749, Chemistry of Natural Waters; CiE 748, Solid Waste Disposal; E E 762, Illumination, E E 741, Fundamentals of Acoustics; M E 503, Thermodynamics; Micr 501, Public Health and Sanitation; 695, Engineering Projects (ChE, CiE, M E, E E).

Choice of elective courses should be made in consultation with the adviser. Students normally start this program in the junior year and should declare their intention to enter the program as early as possible during the sophomore year. During the final term, the student should apply to the dean to have the minor shown on the transcript.

Other Program Options
Second Major Options: See page 19 for requirements.
Dual Degree Programs: See page 18 for requirements.
Minor: See page 19 for requirements.
Student Designed Major: See page 81 for requirements.

Independent Study and Projects All departments within the College offer courses in independent study or in projects, the content varying with the current scientific and technological needs and with student and faculty interest.

Permission of the instructor and/or the department chairperson is required. (See the Course Descriptions for the independent study and project courses and for specific requirements.) The initiative for an independent study course in any area rests with the student.

Special Provisions "The requirement of a given course in any prescribed curriculum may be waived by the faculty of a student's college. The student's petition must be approved by major adviser and the dean of the College. This power will usually be delegated by the faculty to the dean or to a committee." (Senate Rule 04.31(s). Waiver of Requirements in a Prescribed Curriculum.)

The above rule offers students the opportunity to develop a somewhat individualized plan of study with intellectual incentives and opportunities in addition to those in a regular curriculum.

In addition, upon the recommendation of the department chairperson, superior students may be allowed to count credits from up to two 800-level courses toward both a bachelor's degree and a master's degree provided that the student has been admitted to the master's program.
Research Opportunity  The talents and expertise of the faculty in all departments are reflected in the number of ongoing research projects. Undergraduate students are included in many of these research projects. The intent is to discover and to foster the creative talents of students. In funded research projects, there may be an opportunity for students to be paid while learning.

Some flavor of the multiplicity of the research programs is reflected in special facilities, a few of which are: Analog Computer Facility, Antenna Systems Laboratory, Bioelectronics Laboratory, Center for Industrial and Institutional Development (CIID), Computation Science Center, Electronics Laboratory, Engineering Design and Analysis Laboratory, Fluid Mechanics Laboratory, Materials Laboratories, Mechanics Research Laboratory, Sanitary Engineering Laboratory, Solid State Laboratory, Space Science Center, Wind Tunnel and Water Tunnel Facility, and X-Ray Laboratory.

Students have the opportunity to acquire applied experience in business and industry through the Center for Industrial and Institutional Development. CIID undertakes clientsponsored professional projects in management and technical areas for business and industry, and for state and local governments.

Preparing for Teaching  Students interested in Mathematics Education (elementary or secondary), Chemistry and Physics Teaching, or Earth Science Teaching should refer to Preparing for Teaching that begins on page 21 and the appropriate department description of the requirements.

Chemical Engineering
Stephen S.T. Fan, Chairperson

Chemical engineering is concerned with the analysis and design of processes that deal with the transfer and transformation of energy and material.

The practice of chemical engineering includes the conception, development, design, and application of physicochemical processes and their products; the economic development, design, construction, operation, control, and management of plants for these processes; and activities relating to public service, education, and research.

Traditional employment areas in the chemical process industries include industrial chemicals, petroleum and petrochemicals, plastics, pharmaceuticals, metals, textiles, and food. Chemical engineers are also working in increasing numbers in the emerging areas of energy engineering, pollution abatement, biochemical and biomedical engineering, and ocean engineering. Chemical engineers are employed by many of the government laboratories and agencies and by private industries and institutions.

The curriculum is designed to provide adequate training for the student to enter the diverse areas of employment or graduate study. The considerable number of electives in the curriculum provides flexibility to individual students to design a program that fulfills individual needs and interests. This also provides opportunity for students to elect minor options in their programs such as the interdisciplinary minors in environmental engineering and ocean engineering.

A minimum of 131 credits is required for graduation with the degree of Bachelor of Science in Chemical Engineering. There are 11 electives in the chemical engineering curriculum in addition to the technical elective. Six of these are for the arts, humanities, and social science requirements, and one must be chosen from biological sciences. Among the remaining four electives, two should be chosen from chemical engineering courses.

### Chemistry

**C.L. Grant, Chairperson**

The student interested in chemistry may major in one of four programs offered in the department depending upon the student's plans for a career. Since the required chemistry courses in each degree program are the same in the first year, it is easy to change from one program to another, or even to another major.

In each of the programs the student should register for the following courses in the first year: Chem 405 (1st semester), Introductory Chemistry; Chem 406 (2nd semester), Quantitative Analysis; Math 425 (1st semester), Calculus I; Math 426 (2nd semester), Calculus II; and Phys 407 (2nd semester), General Physics I.

### Bachelor of Science in Chemistry

This curriculum is intended to prepare the student for the career of a professional chemist and to provide a strong foundation for graduate study in chemistry or in interdisciplinary areas of science calling for a strong background in chemistry. It requires a greater depth in chemistry and physics than do the other degree programs.

### Requirements

1. Satisfy General Education requirements.
2. Language requirement: Much of the chemical literature is in German or Russian, and has not been translated. The student must demonstrate a proficiency in one of these languages by completing a year's course in that language. The choice is up to the student.
3. Phys 407 in the second semester of the first year.
4. For specific course requirements, see accompanying chart.

### Bachelor of Arts, Chemistry Major

This curriculum offers the student interested in chemistry the opportunity to combine a chemistry major with other interests. There are fewer required courses in chemistry and physics, and the student has more opportunity to elect courses in other areas according to individual interests. The prehealing arts students interested in chemistry, those preparing for secondary school teaching, or those interested in business can combine these interests with chemistry in this curriculum.

### Requirements

1. Satisfy General Education requirements.
2. Satisfy the Bachelor of Arts degree (see page 18).
3. For specific course requirements, see accompanying chart.
Bachelor of Arts, Science Major, Chemistry Concentration

This curriculum is for the student interested in chemistry, but wishing a broader exposure to other disciplines than is obtained in a chemistry major. Students interested in interdisciplinary science or in chemistry as a cultural subject can satisfy their interests in this degree program. It is not intended to prepare professional chemists but rather as the basis for a broad liberal education.

Requirements
1. Satisfy General Education requirements.
2. Satisfy the Bachelor of Arts degree requirements (see page 18).
3. For specific course requirements, see accompanying chart.

Bachelor of Arts, Chemistry and Physics Teaching

This major is designed for students who wish to teach chemistry and physics in secondary schools. The number of positions available for teaching only chemistry or physics is limited, and there are many opportunities to teach both subjects on the secondary-school level. Chemistry and Physics Teaching majors will have good preparation for teaching these subjects and will have the necessary mathematics and education background.

Requirements
1. Satisfy General Education requirements.
2. Satisfy the Bachelor of Arts degree requirements (see page 18).
3. Chemistry requirements: 405, Introductory Chemistry

### Other Requirements

- Math 425-426, Calculus
- Phys 407-408
- General Physics I, II and IV
- Germ 401-402 or 403-404 or Russian 401-402
- Math 403 or 410
- Computer Programming
- 1 other chem. or chem.-related course

For B.A., Chem. Major:
- Math 425-426, Calculus
- Phys 407, General Phys I or Phys 401-402 Introductory Physics
- 2 other science or math courses to complete University science requirement.

For B.A., Science Major:
- Math 425-426, Calculus
- 3 approved courses in math or science to complete major requirement.

*Chem 403-404 may be substituted for Chem 405.
Civil Engineering

Paul L. Bishop, Chairperson

The civil engineer is concerned with planning, design, and construction of public and private facilities including those for: transportation; control, purification, and distribution of water; collection and treatment of waste products; and residential and industrial purposes. Facilities must not only provide safe, efficient service to the users but must, in addition, be compatible with the environment (both natural and human) in which they are placed. Since many of the clients are governmental agencies, the civil engineer must secure approval of the citizens involved or their elected representatives.

The program leads to a Bachelor of Science of Civil Engineering degree. The strong analytical basis of the program prepares a graduate for many career opportunities. A graduate may enter professional practice or pursue further study in graduate school. The student studies the basic sciences and mathematics as well as engineering science, analysis, and design.

The electives will be chosen to meet requirements of the University, the department, and any option selected. A minimum of 133 total credits is required for graduation.

Options A student may select an option in Environmental Engineering or Constructed Systems. The option is selected at the beginning of second semester junior year. The options must meet all graduation requirements above.

Environmental Engineering Option

Dennis J. O'Brien, Adviser

Environmental Engineering is the application of engineering principles and practices to one or more elements of the environment to protect or improve the quality of life. Environ
mental engineers use specialized engineering knowledge to systematically manage water, air, and land resources. This option provides fundamental environmental engineering concepts and methods of design and allows specialization in an area of the student's choice.

Four courses (12 credits) are required. At least 15 credits must be elected from the list below, of which a minimum of six must be in civil engineering. Courses not on the list may be elected upon approval of the student's adviser.

### Required Courses
- **Micr 503** General Microbiology 4
- **CIIE 743** Environmental Sampling and Analysis 2
- **CIIE 746** Wastewater Treatment Plant Design 3
- **CIIE 749** Chemistry of Natural Waters 3

### Elective Courses
- **CIIE 745** Hydrology and Hydraulics 3
- **CIIE 748** Solid Waste Disposal 3
- **CIIE 794** Advanced Structural Design II 4
- **Chem 545** Organic Chemistry (plus lab) 5
- **Chem 683** Physical Chemistry 3
- **ChE 501** Intro. to Chemical Eng. I 3
- **ChE 609** Fundamentals of Air Pollution and its Control 4
- **INER 709** Soils and Community Planning 2
- **REco 676** Economics of Water Use 4
- **Hydr 710** Groundwater Hydrology 4

### Constructed Systems Option

**L.H. Klotz, Adviser**

All structures, regardless of purpose, must be planned, designed, and built to resist the natural forces (gravity, wind, earthquake) and those imposed by man during construction and use of the structure.

Two courses (8 credits) are required. A minimum of 15 credits must be elected from the list below, of which 11 must be in civil engineering; courses not on the list may be elected upon approval of the student's adviser.

### Required Courses (2)
- **CIIE 685** Intermediate Analysis 4
- **CIIE 793 or 794** Advanced Structural Design I or II 4

### Electives (4)

Minimum of 11 credits from the following:
- **CIIE 763** Advanced Soil Mechanics 3
- **CIIE 765** Foundation Engineering 4
- **CIIE 782** Timber Design 2
- **CIIE 784** Structural Analysis by Matrix and Num. Method 4
- **CIIE 790** Inelastic Structural Design 4
- **CIIE 793 or 794** Advanced Structural Design I or II 4

Minimum of 4 credits from the following:
- **Art 455** Drafting and Architectural Design 4
- **ESci 401 or 402** Principles of Geology I or II 4
- **Math** (any 600 course or above) 4
- **M E 441** Engineering Graphics 4
- **M E 727** Advanced Mechanics of Solids 4
- **Hydr 603** Soil and Water Engineering 4

### Earth Sciences

**Herbert Tischler, Chairperson**

The courses offered in the Department of Earth Sciences cover the broad spectrum of geology and oceanography. They encompass a group of related studies concerned with an understanding of the size, shape, and constitution of the earth; the processes that are now, or have formerly been, at work upon its surface, in its oceans, and within its interior; its origin, and evolution of life upon it.

The need for people trained in the earth sciences has been emphasized by the search for new and additional energy sources, essential mineral resources, by man's increased concern with intelligent management of his environment, and by expansion of research in both oceanography and extra-terrestrial geology. In addition, the demand for well-trained secondary teachers of earth science has steadily increased over the past few years.
Four undergraduate degree programs are offered through the Department of Earth Sciences.

**Bachelor of Science in Geology**
This program represents the strongest concentration in the earth and cognate sciences and is especially well suited for students who plan to continue their studies in graduate school. Beyond a central core of courses there is sufficient flexibility in course selection so that a student may, in consultation with his/her academic adviser, orient the program toward a particular facet of the earth sciences (e.g. mineralogy-petrology, oceanography, geomorphology, paleontology-stratigraphy, etc.).

**Requirements**
1. Satisfy the General Education requirements.
3. Complete a minimum of 12 courses in Earth Science, which should include: ESci 401-402, Principles of Geology; ESci 501, Introduction to Oceanography; ESci 512, Descriptive and Determinative Mineralogy; ESci 614, Petrography; ESci 531, Structural Geology; ESci 561, Geomorphology; ESci 652, Invertebrate Paleontology; ESci 754, Sedimentation-Stratigraphy; and three approved Earth Sciences electives.
4. Complete Mathematics 527-528 or approved electives.
5. Complete two additional approved electives.

**Bachelor of Arts, Geology Major**
This program offers students an opportunity to obtain a broad liberal education in a general background in geology with a greater degree of freedom in choosing electives than in the Bachelor of Science program. By a careful choice of electives a student can prepare for graduate school, business, or industry.

**Requirements**
1. Satisfy the General Education requirements.
2. Satisfy the Bachelor of Arts degree requirements (page 18).
3. Complete a minimum of eight courses in the department (with a C- or better) which should include: ESci 401-402, Principles of Geology; ESci 512, Descriptive and Determinative Mineralogy; and five upper-level Earth Science courses, two of which must be chosen from courses numbered 700 or above.
4. Math requirements: 425, Calculus I, and 426, Calculus II.

It is strongly advised that students complete, as early as possible, a year each of college chemistry and physics.

It is also suggested that students include Hist 521-522, History of Science, in their program.

**Bachelor of Arts, Science Major, Earth Sciences Concentration**
This program is for the student who wants a liberal education with a scientific slant to it. It is not designed to produce professional scientists but rather combines the liberal arts with a reasonable exposure to science in general and to earth sciences in particular.

**Requirements**
1. Satisfy the General Education requirements.
2. Satisfy the Bachelor of Arts degree requirements (page 18).
4. Math requirements: 425, Calculus I, and 426, Calculus II.
5. Additional major requirements: three approved courses in science over and above those used to satisfy University General Education requirements.

**Bachelor of Arts, Earth Science—Teaching Major**
This program is specifically designed to prepare the student to teach earth science in secondary school. Upon graduation from this program students receive full teacher certification which is recognized in most states.

**Requirements**
1. Satisfy the General Education requirements.
College of Engineering and Physical Sciences

2. Satisfy the Bachelor of Arts degree requirements (page 18).

4. Math requirements: 425, Calculus I, and 426, Calculus II.

5. Satisfy the secondary-school Teacher-education Program. (See “Preparing for Teaching,” page 21.)

Electrical Engineering

Ronald R. Clark, Chairperson

During the 1970’s, electrical engineers are designing systems for investigating the ocean, for monitoring medical procedures, and for processing information from outer space. They develop electronic instrumentation for environmental protection, design mini- and micro-computers for industry, and use their knowledge to help solve major problems of society such as transportation, pollution, and health care delivery.

At UNH, the keynote of the electrical engineering program is the involvement of the student in the solution of real-world problems. During the freshman and sophomore years, the student takes basic courses in mathematics and physics, learns how to use the computer, and receives introductory experience in electric circuits, logic design, and electronics.

The electrical engineering curriculum prepares the student for graduate work in electrical engineering, productive employment as an electrical engineer, and for graduate work in related areas such as business administration. It is well-suited to the dual degree program described on page 18.

Electrical engineering students must obtain a 2.0 grade average in major E.E. courses as a requirement for graduation.

Basic Curriculum for Bachelor of Science in Electrical Engineering

The student, with the adviser’s assistance, should plan a program based on the following distribution of courses:

I. For students who will be seniors in the fall of 1977—129 credits required for graduation. Please see 1976-77 catalog for curriculum details.

II. For students who will be freshmen, sophomores, and juniors in the fall of 1977—134 credits for graduation.

|                  |                                                  | 4 |
| Total Subtotal    |                                                  | 8 |

Note: Students who have not had a year of high school chemistry with a grade of B or better are required to take Chemistry 403 sometime during their college program. For those students, 138 credits are required for graduation.

### Minors and Options

In the junior year the student completes the core courses and begins studying in the chosen option or minor. The student can choose from three options and various engineering minors (see page 50 for descriptions of minors). The options, which are described below, provide for professional electives so that individual student interests may be pursued. In addition, the senior year features many opportunities for individual or group projects.

### Computer Engineering Option

During the past several years, advances in the technology of electronic circuit manufacture have vastly reduced the costs of digital computers. This low cost, coupled with flexibility, has allowed them to be used in a broad variety of applications from data processing in a small retail store to controlling a machine tool in a manufacturing plant. Since computers are basically electronic devices, it is primarily the job of the electrical engineer to design or specify the purchase of the computer and integrate it into larger systems. This requires a knowledge of both hardware (circuits) and software (programming) concepts. In this option, the student will learn to design, build, and test systems involving digital computers.

**Required Courses**  
E E 712, E E 714, Math 611, Math 710 (4 total).

**Elective Courses**  
E E 757 or E E 782; E E 695 or E E 711 or Math 612 or Math 711 or Math 753; approved professional elective.
Electrical Engineering Systems Option

This specialization provides the student with the fundamentals of communication, control, and computer systems. An effort is made to balance both the theory and the applications so that the student will appreciate both system development and system implementation. In addition to the four required courses, there are three additional professional elective courses that allow the student to delve further into areas of interest.

Required Courses  E E 656, E E 714, E E 757, and E E 782.
Elective Courses Three courses chosen in consultation with the student's adviser to satisfy the student's and programmatic goals.

Electrical Engineering Science Option

This option is designed for those students who do not wish to limit themselves to one area of specialization. It permits the student to sample a variety of professional areas while also allowing a stronger base of classical electrical engineering skills. Several additional electrical science courses are required while additional elective courses may be selected from communications, controls, computer systems, biomedical and ocean instrumentation, mathematics, and other professional areas.

Required Courses  E E 604, E E 605.
Elective Courses E E 757 or E E 782; E E 762 or E E 745; one course in mathematics and two additional professional electives chosen in consultation with the student's adviser to meet the student's professional objectives.

Engineering Technology

Donald Melvin, Director

Engineering technology is the part of the engineering field which requires the application of engineering and scientific knowledge and methods combined with technical skills in support of engineering activities. Normally engineering technology is not concerned with the development of new principles and methods. The Engineering Technology Program offers only junior- and senior-level work. Students admitted to this program must have an appropriate associate degree from the New Hampshire Technical Institute, the Vermont Technical College, or an equivalent school.

Curricula in electrical engineering technology and mechanical engineering technology are offered. The student may continue study in his or her field of specialization, select electives which broaden his or her educational background, and participate in project courses where, as part of a technology team, their talents are applied in solving real problems.

Mathematics

M.E. Munroe, Chairperson

There are five undergraduate programs offered through the Department of Mathematics. Normally students will enter one of these specific programs. However, if the following mathematics courses are taken during the first two years, a student is fully prepared to satisfy the mathematics requirements in any one of these programs—and so may change degree programs at the end of the sophomore year: Math 425, Calculus I; Math 426, Calculus II; Math 427, Differential Equations with Linear Algebra; Math 428, Multidimensional Calculus; Math 510, Mathematical Computer Problems; Math 527, Differential Equations with Linear Algebra; Math 528, Multidimensional Calculus; and Math 531, Introduction to Abstract Mathematics.

In some programs there are courses outside mathematics that should be completed in the sophomore year. These are noted in the detailed lists of requirements that follow.

Bachelor of Science in Mathematics

This program represents the strongest concentration in mathematics of any of the programs offered by the department. Included among the required courses are those usually required for admission to graduate work in mathematics. Through a judicious choice of electives the student may construct a stronger pregraduate program or s/he may slant the program toward a career in business or industry.

Requirements

1. General Education requirements must be satisfied and Phys 407-408 must be included among the science courses.
2. Language requirement: The student must demonstrate proficiency in one of the three languages: French, German, or Russian. (See B.A. requirements page 18.)
3. Mathematics requirements: Math 425, Calculus I; Math 426, Calculus II; Math 510, Mathematical Computer Problems; Math 527, Differential Equations with Linear Algebra; Math 528, Multidimensional Calculus; Math 531, Introduction to Abstract Mathematics; Math 761, Abstract Algebra; Math 762, Linear Algebra; Math 767, One-dimensional Analysis; Math 784, Topology; Math 788, Complex Analysis; and three approved mathematics electives.

Bachelor of Arts, Mathematics Major

This program offers a broader liberal education than do any of the Bachelor of Science programs. However, by a careful choice of electives the student can shape this major into a preparation for graduate school, business, or industry.

Requirements

1. Satisfy General Education requirements.
2. Satisfy Bachelor of Arts degree requirements (page 18).
3. Mathematics requirements: Math 425, Calculus I; Math 426, Calculus II; Math 510, Mathematical Computer Problems; Math 527, Differential Equations with Linear Algebra; Math 528, Multidimensional Calculus; Math 531, Introduction to Abstract Mathematics; Math 761, Abstract Algebra; Math 762, Linear Algebra; Math 767, One-dimensional Analysis; and three approved mathematics electives.

Bachelor of Arts, Science Major,
Mathematics Concentration

This program is for the student who wants a liberal education with a scientific slant to it. It is not designed to produce professional scientists but rather combines the liberal arts with a reasonable exposure to science in general and mathematics in particular.

Requirements

1. Satisfy General Education requirements.
2. Satisfy Bachelor of Arts degree requirements (page 18).
3. Mathematics requirements: Math 425, Calculus I; Math 426, Calculus II; Math 510, Mathematical Computer Problems; Math 527, Differential Equations with Linear Algebra; Math 528, Multidimensional Calculus; Math 531, Introduction to Abstract Mathematics; Math 761, Abstract Algebra, or Math
767. One-dimensional Analysis; and one approved mathematics elective.
4. Additional major requirements: three approved courses in science over and above those used to satisfy General Education requirements.

**Bachelor of Science in Mathematics-Education**

This is a professional degree program to prepare the student for teaching mathematics at the elementary or secondary level. The program is coordinated with the education department's five-year, teacher-certification program. A student may complete the degree requirements in four years; however, to receive full teacher certification a year-long teaching internship in the fifth year is required. (The internship can be coupled with other graduate work leading to a master's degree.) See "Preparing for Teaching," page 21.

**Requirements**
1. Satisfy General Education requirements.
2. Education requirements: Educ 500, Exploring Teaching; Educ 700, Educational Structure and Change; Educ 701, Human Learning and Development; Educ 703, Alternative Teaching Models; Educ 705, Perspectives on the Nature of Education.

**Elementary Option**

**Secondary Option**
3. Mathematics requirements: Math 425, Calculus I; Math 426, Calculus II; Math 510, Mathematical Computer Problems; Math 527, Differential Equations with Linear Algebra; Math 528, Multidimensional Calculus; Math 531, Introduction to Abstract Mathematics; Math 636, Probability and Statistics; Math 657, Geometry I; Math 698, Senior Seminar; Math 761, Abstract Algebra; Math 791, Mathematics-Education; and two approved mathematics electives.

**Bachelor of Science (Interdisciplinary Programs in Mathematics and Its Applications)**

These programs are designed to prepare the student for employment in various areas of applied mathematics. Certain of them also lead to graduate work in appropriate fields (e.g. chemical physics, computer science, economics). In this program the major may consist of mathematics combined with any one of the following disciplines: chemistry, computer science, economics, electrical science, fluid dynamics, mechanics, thermodynamics, and physics.

**Requirements**
1. Satisfy General Education requirements.
2. Core mathematics requirements: Math 425, Calculus I; Math 426, Calculus II; Math 510, Mathematical Computer Problems, or Math 410, Digital Computer Systems; Math 527, Differential Equations with Linear Algebra; Math 528, Multidimensional Calculus; and Math 645, Applied Linear Algebra.
3. Additional mathematics requirements:
   In Mathematics-Computer Science: four approved mathematics electives. Proper choice of these depends mainly on the student's career objectives. These electives should be chosen only in consultation with a faculty adviser designated by the Math Department.
   In Mathematics-Economics: Math 735, Probability; Math 736, Statistics; and two approved Mathematics electives.
   In all other options: Math 646, Analysis for Applications II; Math 647, Complex Analysis for Applications; and two approved mathematics electives.
4. Requirements in other disciplines: Each interdisciplinary major consists of 10 mathematics courses (see above) plus five courses in the other discipline. Specific requirements follow. If more than five courses outside Mathematics are required or elected, the excess over five may be used to satisfy appropriate General Education requirements.
Mathematics—Chemistry Option
Chem 405, Introductory Chemistry; Chem, 683, Physical Chemistry I, and Chem 685, Physical Chemistry Laboratory (these two courses regarded as a single unit); Chem 684, Physical Chemistry II, and Chem 686, Physical Chemistry Laboratory (these two courses regarded as a single unit); Chem 776, Physical Chemistry; either Phys 701, Introduction to Quantum Mechanics, or Chem 775, Inorganic Chemistry.
Note: Chem 547-548, Organic Chemistry, suggested as elective for those planning to do graduate work in chemical physics. Chem 405 should be taken no later than the sophomore year.

Mathematics—Computer Science Option
A total of five of the following courses, including at least one from each of the following three groups: Group 1: Math 611, Assembler Language Programming; Math 612, Data Structures and Processes; Math 710, Advanced Programming Systems; Math 711, Programming Languages and Compiler Construction. Group 2: Math 753-754, Numerical Methods and Computers. Group 3: E E 531, Elements of Digital Systems; E E 711, Digital Systems; E E 712, Logical Design of Digital Computers; E E 714, Minicomputer Applications Engineering.

Mathematics—Economics Option
Econ 401-402, Principles of Economics (Macro, Micro); Econ 605, Intermediate Economic Analysis; Econ 611, National Income Analysis; and any two of the following three courses: Econ 727, Introduction to Econometrics; Econ 728, Statistical Decision-Making; Admn 705, Operations Research.
Note: Econ 401-402 should be taken no later than the sophomore year.

Mathematics—Electrical-Science Option
E E 541-542, Electrical Circuits I and II; E E 603-604, Electromagnetic Fields and Waves I and II; E E 757, Fundamentals of Communications; E E 782, Control Systems.

Mathematics—Fluid-Dynamics Option
M E 503, Thermodynamics I; M E 508, Fluid Dynamics; M E 525, Mechanics I; M E 707, Analytical Fluid Dynamics; M E 708, Gas Dynamics.

Mathematics—Mechanics Option
M E 503, Thermodynamics I; M E 525, 526, 527, Mechanics I, II, and III; any two of the following three courses: M E 723, Advanced Dynamics; M E 724, Vibration Theory and Applications; and M E 727, Advanced Mechanics of Solids.

Mathematics—Thermodynamics Option
M E 503, Thermodynamics I; M E 508, Fluid Dynamics; M E 525, Mechanics I; and any two of the following three courses: M E 701, Macroscopic Thermodynamics; M E 702, Statistical Thermodynamics; M E 703, Heat Transfer.

Mathematics—Physics Option
Phys 407-408, General Physics I and II; Phys 505-506, General Physics III and IV; and either Physics 701, Introduction to Quantum Mechanics, and Phys 702, Atomic and Nuclear Physics; or Phys 703-704, Electricity and Magnetism I and II.
Note: Phys 407-408 should be taken no later than the sophomore year.

Mechanical Engineering
William Mosberg, Chairperson

Mechanical engineering is a challenging profession encompassing research; design; development; and production of aerospace vehicles, underwater vessels, instrumentation and control systems, nuclear and conventional power plants, and consumer and industrial products in general. The profession also makes contributions through more fundamental studies of material behavior, the mechanics of solids and fluids, and energy transformation.

The curriculum in mechanical engineering is designed to prepare the prospective graduate either for more advanced studies or for beginning a professional engineering career. The program of study provides a foundation in the basic physical sciences, mechanics of solids and fluids, dynamic systems, thermal sciences, materials science, and design. Flexibility in the curriculum enables the student to gain competence in any of these specific areas, developing abilities in
College of Engineering and Physical Sciences

analysis, experimentation, and engineering design. The curricula include elective courses in the arts, the humanities, and the social sciences to provide a liberal education.

The program in mechanical engineering is further designed to develop the creative potential to meet increasingly complex needs of industry, government, and education, while appreciating the role of technology in a modern society.

The student, with the adviser's assistance, should plan a program based on the following distribution of courses which average 16 credit hours per semester totaling not less than 128 credits.

The outline which follows is to be considered as being typical only in terms of format. Within the constraints of satisfying all of the requirements and having all necessary prerequisites, a schedule may vary from the following. Such variation will in general be caused by scheduling needs or student preference.

All elective courses will be chosen, in consultation with a departmental adviser, from courses which will lead to a balanced program in the chosen area of interest. The free electives are entirely the student's own choice. Technical elective requirements are 12 credits.

Physics

Robert E. Houston, Jr., Chairperson

Physics is concerned with the properties of matter and the laws which describe its behavior. It is an exact science based on precise measurement, and its objective is the kind of understanding that leads to the formulation of mathematical relationships between measured quantities. As a fundamental science its discoveries and laws are basic to understanding in nearly all areas of science and technology. Advances in such diverse fields as diagnostic medical techniques, transistors, and air pollution have relied heavily on the application of basic physical laws and principles.
Students interested in the study of physics at the University of New Hampshire will find a strong interaction between research and academic programs. Undergraduates have participated in research studies ranging from atomic spectroscopy using laser sources to astrophysical studies of the solar system using space probes. These experiences have proven very beneficial to engineering as well as physics students alike. The student-faculty ratio in physics is quite low so that considerable faculty contact with students is encouraged. Strong efforts are being made to utilize the remote access computer terminals in undergraduate courses at all levels. The department has its own library which provides a comfortable, inviting atmosphere for study and relaxed reading.

The suggested programs below are indicative of the flexibility available to students whether they are preparing for graduate work in physics, industrial opportunities, governmental research, secondary-level teaching, or a general education which might utilize the fundamental knowledge of physics.

The following undergraduate degree programs are offered through the Department of Physics.

**Bachelor of Arts, Science Major, Physics Concentration**

This is the most flexible degree offered by the department. It is not designed to produce a professional physicist, but rather to provide an opportunity for interdisciplinary combinations with emphasis on physics.

**Requirements**
1. Satisfy General Education requirements.
2. Satisfy Bachelor of Arts degree requirements (page 18).
3. Physics requirements: 6 courses approved by department.
4. Math requirements: 425, Calculus I, and 426, Calculus II.
5. Any three approved courses in science not used to satisfy other University requirements.

**Bachelor of Arts, Physics Major**

This degree provides an opportunity for a broad and liberal education, which in some cases may be sufficient for graduate work. A judicious choice of electives may also prepare the student in a restricted area in physics in conjunction with other disciplines or other less technical applications in the field of physics.

**Requirements**
1. Satisfy General Education requirements.
2. Satisfy Bachelor of Arts degree requirements (page 18).
3. Phys 401-402 or 407-408; 505. Note that Math 425-426 are prerequisites for some of the courses.
4. Five additional courses in Physics approved by the department, three of which must be at the 500 level or above.
5. Math requirements: 425, Calculus I; and 426, Calculus II.

**Bachelor of Arts, Chemistry and Physics Teaching**

For information see page 84.

**Bachelor of Science in Physics**

This degree is the professional program offered by the department. The required courses are those necessary for admission to graduate work or a career in industry. Additional courses may be beneficial for graduate preparation or may be desirable for more depth in certain areas of physics. The student is strongly advised to demonstrate proficiency in French, German or Russian.

**Requirements**
1. Satisfy General Education requirements.
2. Satisfy Bachelor of Science degree requirements (page 49).
3. One course in English is required in addition to the University requirement.
4. Minimum Physics Requirements: 407, General Physics I; 408, General Physics II; 505, General Physics III; 516, Physical Mechanics; 602, Thermal Physics; 605, Experimental Physics I; 606, Experimental Physics II; 609, Experimental Physics III (normally taken senior year); 701-702, Quantum Mechanics I and II; and 703-704, Electricity and Magnetism I and II.
5. Additional Physics courses may be selected from the following: 510, Cosmology; 607,* Physical Optics; 610, Experimental Physics IV; 613, 614, Special Topics; 618,* Solid State; 695,696, Independent Study.
7. Math: 425-426; 527-528; plus two approved electives.

*May be substituted for Physics 602 upon approval of the Department
School of Health Studies

General Information

The School of Health Studies, established in 1968, is one of the newest academic components of the University. It was created in response to the growing need for programs of higher education that prepare young men and women for health and health-related careers. A major purpose of the School is development of the University's resources relating to the field of health. Currently the School offers undergraduate instruction leading to the Bachelor of Science degree in Communication Disorders, Health Studies, Medical Technology, Nursing, Occupational Therapy, Physical Education, and Recreation and Parks. Each program has been designed to enable students to obtain a broad cultural background in the humanities and social sciences as well as basic knowledge and skills needed to practice their chosen professions.

Degree Requirements

Each candidate for a degree must satisfy all General Education requirements for graduation as listed on page 16; earn at least 128 credits, including the courses required in one of the curricula described below; and achieve a minimum grade-point average in the curriculum as prescribed. Generally, courses are to be completed in the sequence in which they are arranged.

Minor Option: See page 19 for requirements.
Dual Degree Program: See page 18 for requirements.
Student Designed Major: See page 81 for requirements.
Second Major Option: See page 19 for requirements.

Student Liability Insurance

All students whose programs require participation in clinical learning experiences must purchase and maintain liability insurance during the entire clinical experience. Proof of such insurance coverage must be furnished to the department before the clinical experience is scheduled to begin. The University has arranged for appropriate insurance coverage at a modest cost to the student. Further information may be obtained at the student's major department office.

Communication Disorders

Communication Disorders is the profession devoted to helping people overcome disabilities of speech, language, or hearing. The undergraduate program in Communication Disorders is a preprofessional program. Specialization in Communication Disorders begins in the freshman year. Students learn about speech, language, and hearing disorders in the usual classroom setting and then become involved in clinical practice. This opportunity is provided in an on-campus clinic and in schools and community rehabilitation clinics off-campus.

A student's professional education should be continued at a college or university offering a graduate program leading to a master's degree and to subsequent certification by the American Speech and Hearing Association. Certified clinicians find employment opportunities in hospitals, schools, community speech and hearing clinics, or private practice.

Students in the Communication Disorders Program must: 1) complete a course in statistics, 2) obtain at least a 2.67 grade point average in their first three Communication Disorders courses, and 3) maintain a minimum 2.75 overall grade-point average. The required courses in Communication Disorders, which each student in the program must successfully complete, are: 520, Survey of Communication Disorders; 521, Anatomy and Physiology of the Speech and Hearing Mechanism; 524, Applied Phonetics of American English; 631, Speech Pathology I; 632, Speech Pathology II; 634, Clinical Practice in Speech Pathology; 638, The Acquisition of Language; 704, Basic Audiology.

Students interested in this program should consult with the chairperson, Professor F. Harry Tokay.

Health Studies

The new undergraduate major in health studies accepted its first students in 1975. Students will be prepared to embark upon administrative, planning, and related careers in various beginning and intermediate level positions in the health field. Graduates will work in a variety of settings, for example hospitals, long-term-care facilities, official health agencies, community mental health centers, family planning agencies, in-
School of Health Studies

Insurance School chairperson, of health knowledge many Medical ing Zool Chem Freshman Sophomore Math Engl Chem Chem Micr MedT Electives Electives Students Students Medical health be with students interested in this program should consult with the chairperson, Professor David E. Berry.

Medical Technology

Medical Technology is a challenging and rewarding profession for students interested in laboratory medicine. Working with pathologists and other physicians, the medical technologist is a vital member of the health team performing various medical laboratory procedures and providing the diagnostic assistance required in modern patient care. The medical technologist may also be employed in research or work in a variety of industrial settings.

Students spend the freshman, sophomore, and junior years at the University then apply for admission to the Mary Hitchcock Memorial Hospital for their senior year. After completing the required clinical courses, (MedT 761-766), the student is awarded 32 credits toward the Bachelor of Science degree. Student costs for the senior year include a University charge of $800 and a maintenance charge of $1000 (includes room and board at the Mary Hitchcock School of Medical Technology). Upon successful completion of the program the student is awarded the B.S. degree and is qualified to take the Registry Examination administered by the Registry of Medical Technologists of the American Society of Clinical Pathologists.

Academic requirements for the program are as follows: 1) Students must obtain a grade of C or better in Micr 503, 702, 705, Chem 517-518, 545-546, Bchm 656, and MedT 625, 720, 761-766. Also students must by the end of the spring semester, sophomore year, demonstrate an overall cumulative average

*Students must select courses to satisfy the University General Education requirements.
†Senior year begins about Aug. 25, at the Mary Hitchcock School of Medical Technology. Individual rotations will vary. All students complete sixteen credits each semester.
of 2.5 as well as a 2.5 average in the required chemistry and microbiology courses in order to be continued in the program. Evaluation of the student's academic performance and a personal interview conducted by UNH-Mary Hitchcock faculty are required before the end of the spring semester of the sophomore and junior years.

Students interested in this program should consult with the chairperson, Professor Karol LaCroix.

**Nursing**

Professional nursing is a service which requires commitment to and accountability in assisting individuals or groups to attain, maintain, and accept their optimal health states and is an essential component of the total health system. The practice of professional nursing is an intellectual and interpersonal process which includes nursing assessment, nursing diagnosis, nursing intervention, and evaluation.

The professional nurse functions as an advocate for the client and as a member of the health team. S/he shares and may coordinate and lead in planning for, implementing, and evaluating the health care of individuals and groups.

Students in the program will receive preparation in professional education with an emphasis on the humanities and social, physical, biological, and nursing sciences. The student, upon completion of requirements, will receive a Bachelor of Science degree and will be eligible to take state board examinations to become a registered nurse. The program is accredited by the National League for Nursing.

Program graduates will be prepared to assume beginning positions in professional nursing and to pursue graduate study in nursing. Baccalaureate education is the minimum preparation for the practice of professional nursing.

Hospitals and many community health-related agencies are used for learning experiences. Students are responsible for their own transportation to the clinical laboratories as well as for purchase of uniforms to be worn there. A physical examination and selected immunizations, at student expense, are required within six months prior to the first clinical nursing course.

**Licensed Registered Nurses** RN students who hold licensure to practice as a registered nurse and are legally domiciled in the state of New Hampshire and/or regularly employed in the state of New Hampshire are admitted to the baccalaureate program. The baccalaureate degree for RN's is designed as an outreach part-time program which permits an individualized learning pace and continuation of present work and/or family responsibilities. The program does not include blanket endorsement of all previous education; however, advanced standing and course credit in the B.S. program may be earned. Thus, the length of the program depends upon the individual's past educational experience, interest and ability to achieve, and advanced placement. The nursing courses are offered and sequenced to accommodate the individual learning pace.

All students will be required to achieve a minimum of C in each prerequisite course and to maintain a cumulative average of 2.5 by the end of sophomore year. Students must earn a grade of C or better in each nursing course with a cumulative average in nursing of 2.5 by the end of junior year and throughout the senior year.

Students interested in this program should consult with the chairperson, Professor Marguerite F. Fogg.

### Occupational Therapy

The occupational therapist is a professional member of the medical and community health-care team. Through a systematic application of a knowledge of human functioning and of functional activity, the occupational therapist assists in the prevention and correction of physical, social, and emotional disabilities.

The current curriculum was fully reaccredited in 1972 by the American Occupational Therapy Association and the Council on Medical Education, American Medical Association. Two years of preprofessional study and two years of professional study constitute the prescribed program leading to the Bachelor of Science degree. The program includes theoretical studies in biological and medical sciences, in psychosocial science, in the evaluation of patient and activity, and in the planning and administration of treatment, as well as the development of practical skills in a wide range of therapeutic media. Preclinical observation and guided practice of patient treatment in local clinical situations are incorporated in the course requirements. Following completion of the four-year academic program, the student spends a minimum of nine months in supervised clinical practice. A certificate of completion of professional study is then awarded, and the student is certified eligible to sit for national certification examination.

A student must have achieved a 2.2 overall cumulative grade-point average by the end of the second semester of the freshman year to remain in the program. By the end of the spring semester of the sophomore year the student must have completed one one-week preclinical experience and have obtained a grade of C or better in Psyc 401, 561, 581; Zool 507, 508; OT 510 and 512 in order to continue in the program.

Graduation requirements include successful completion of three one-week preclinical experiences, a 2.5 cumulative average in the courses prescribed in the major, and a grade of C or better in PhEd 606, 652; and OT 515, 581, 582, 583, 624, 633, and 634.

Upon satisfactory completion of the prerequisite courses the department will schedule a minimum of nine months of supervised clinical practice for each student. These field work experiences will be scheduled in centers which have established educational programs approved in this curriculum. The field work experiences are divided in three-month periods as follows: OT 711, General Medicine, Surgery, and Pediatrics; OT 712, Psychiatry; OT 713, Physical Disabilities and Rehabilitation. Students pay the field work experience fee (resident $95; nonresident $200) and register for these field work experiences prior to graduation. Owing to a scarcity of field work opportunities, the University will accept responsibility for scheduling field work experiences only once for each student. The centers may provide maintenance but this cannot be assured. A physical examination with a tuberculin test is required prior to field work experience. Personal liability insurance must be purchased for the period of the preclinical and field work experience.

Eligible graduates make application for the June or January national certification examination through the department. A $50 fee is charged by the American Occupational Therapy Association for this examination.

Curriculum revisions are being considered; information will be available during new-student summer orientation and during the first week of classes.

Students interested in this program should consult the chairperson, Professor Ann Ury.

### Physical Education

The Department of Physical Education offers five areas of study for major students: 1) teacher certification option, 2) athletic training option, 3) exercise specialist in health maintenance option, 4) pre-physical therapy option, and 5) sports communication option. Openings in options 3, 4, and 5 are limited, and option 4 is not open to entering freshmen.

The teacher certification option provides a specialized professional background and a broad general education. A student may pursue coursework to prepare as a generalist (all grade levels), or as either an elementary or secondary specialist in physical education. In addition to the above, students enrolled in the teacher certification option in physical education may elect to pursue an athletic training option. A cumulative grade-point average of 2.2 and a grade-point average of 2.5 in all physical education courses are required to be eligible for student teaching.

Students must complete the following coursework prior to student teaching: 1) all required major activity courses, 2) either PhEd 563 or PhEd 692, 3) three of the following: PhEd 620, 625, 668, 775.

Students must earn a grade of C or better in each of the required physical education courses if majoring in any one of the following options: 1) exercise specialist in health maintenance, 2) pre-physical therapy, 3) sports communication.
School of Health Studies

Students who wish to minor in physical education must complete 20 credits of coursework which have been approved by a department minor adviser.

Students interested in majoring or minoring in physical education should consult Chairperson, Professor Robert Kertzer.

Athletic Training Option

This option has limited enrollment capacity and is open only to students enrolled in the physical education teacher certification curriculum. Application for admission to the option is made through the department chairperson following completion of PhEd 502 but not later than the end of the sophomore year. In addition to the teacher certification curriculum requirements, students admitted to the athletic training option must complete HEc 573, Human Nutrition, and the following required courses:

<table>

Recreation and Parks

University Required Courses

- Psyc 401  Intro. to Psych.  4
- Psyc 561  Clin. Approaches to Hum. Behavior  4
- Zool 507-508  Human Anat. & Physiology  8

Pre-Physical Therapy Option

The pre-physical therapy curriculum provides the necessary courses for meeting admission requirements to a physical therapy certificate program. However, satisfactory completion of all UNH degree requirements does not guarantee admission to one of the several physical therapy schools. In addition to the required courses listed below, work experience in a rehabilitation setting is highly recommended.

Physical Education Courses

- PhEd major activities (must include 470, 472, and either 520 or 527)  6
- PhEd 502  Basic Athletic Training  3
- PhEd 606  Neurology  4
- PhEd 620  Physiology of Exercise  4
- PhEd 622  Therapeutic Exer. & Exer. Prescrip.  3
- PhEd 652  Kinesiology  4
- PhEd 775  Perceptual Motor Learning  4

One of the following:

- PhEd 540  Motor Efficiency & Impairment in Children & Adolescents  4
- PhEd 740  Perceptual Motor Dysfunction  4

Sports Communication Option

The sports communication option combines substantive knowledge in sport with skills in mass communication, including sportswriting and sportscasting. Required courses are as follows:

Physical Education Courses

- PhEd major activities  6
- PhEd coaching courses  6
- PhEd 633  Soc. Found. of Sport & Phys. Act.  4
- PhEd 635  Contemp. Lit. in Socio-Cult. Aspects of Sport & Play  4
- PhEd 668  Measure. Proced. in Phys. Ed.  4
- PhEd 780  Psychol. Factors in Sport  4
- PhEd 791  History of Phys. Ed.  4

University Required Courses

- Engl 501  Intro. to Prose Writing  4
- Engl 621-622  Newswriting  8
- Engl 703-704  Advanced Non-Fiction Writing  8
- Engl 795, 796  Independent Study  8
- Psyc 401  Intro. to Psychology  4
- Soc 400  Introductory Sociology  4
- ThCo 403  Public Speaking  4
- ThCo 555  Intro. to Mass Communications  4

Recreation and Parks

The undergraduate program in Recreation and Parks offers training for service in recreation administration and in park management. The courses of study in each area provide a base in the fundamentals of professional specialization and an exposure to the current leisure trends and needs of a rapidly changing economy and society.
Professional Curriculum Options
Professional options in Recreation Administration and in Park Management are offered which lead to a Bachelor of Science degree. Students must earn a grade of C or better in each of the required recreation and park courses.
Curriculum revisions are being considered in each of the professional options. Students will be informed of approved changes prior to enrollment in the program.
Students interested in this program should consult with the chairperson, Professor Gus C. Zaso.

Recreation Administration
This specialization is designed to identify and develop the abilities which will prepare the student for administrative and programming supervisory positions in the recreation fields. Students selecting this option are required to complete 128 credit hours for the degree.

General Information

Purpose and Programs

The Whittemore School of Business and Economics was established July 1, 1962, in consequence of the efforts of the late Laurence F. Whittemore, noted industrialist and long-time trustee and chairman (1955-60) of the UNH Board of Trustees. Since 1969 the School has been located in McConnell Hall, named for Dr. John W. McConnell, the fourteenth president of the University, 1963-1971.

The basic purpose of the undergraduate curricula in the Whittemore School is to combine the breadth of liberal education with the specifics of professional training in administration and economics. Undergraduate students enrolled in Whittemore School programs must take a substantial part of their coursework in other colleges in the University in order to fulfill the General Education requirements of the University. But beyond those, students are encouraged to elect additional courses in the arts, the behavioral and social sciences, the humanities, mathematics, and the natural sciences. Thus, students who complete the Whittemore School programs in administration, economics, and hotel administration are prepared for employment and graduate study in these and related fields.

Another purpose of the Whittemore School is to serve the needs of undergraduate students elsewhere in the University for whom selected courses in administration, economics, or hotel administration are relevant and desirable complements to their primary course of study. Most Whittemore School courses, therefore, are open to nonmajors who have the prerequisite preparation.

Degree Requirements

The Whittemore School offers a Bachelor of Arts degree program in economics and Bachelor of Science degree programs in administration and hotel administration. Each candidate for a degree must satisfy all of the University General Education requirements for graduation as well as the particular requirements of each individual major program. Economics majors must also satisfy specific requirements associated with the Bachelor of Arts degree. (See page 18.)

The curricula of the Whittemore School undergo timely revision and modification, and students are subject to and responsible for such changes as they are introduced. However, entering students may anticipate that a curriculum, as represented and as subsequently altered, can be completed in four academic years, assuming normal course loads are carried and normal progress is made. In sum, then, Whittemore School students generally follow the current catalog. New catalogs become effective on July 1 of each year.

For information concerning advanced degrees, see the Graduate School catalog.

Advising System

Undergraduate advising in the Whittemore School is carried out jointly by an undergraduate counselor and the faculty. The undergraduate counselor is located in the dean's office where student academic records are kept. The counselor assists students in program planning, preregistration, understanding and meeting academic requirements, and general academic and career decision making. The faculty draw on their experience, expertise, and interests to help students with course, program, and career selection.

Students are not officially assigned to faculty advisers, but are provided with a Whittemore School Faculty Profiles booklet, which contains considerable information about each faculty member's education and experience and current teaching and research interests. Students are encouraged to develop an advisory relationship with one or more faculty members on the basis of mutual interests. Students who prefer a more formally structured arrangement are urged to so inform the undergraduate counselor, and such an arrangement will be made with either the associate or the assistant dean. All students are urged to seek as much assistance as they need, from whatever source, but are reminded that theirs is the ultimate responsibility for knowing and meeting the various academic requirements for a degree.

Independent Study

A junior or senior student in the Whittemore School may engage in independent study for from two to 12 credits. In order to pursue independent study, a student must secure a
Whittemore School of Business and Economics

faculty sponsor in the area of interest, and submit to the executive committee of the Whittemore School prior to preregistration a plan of study which has the sponsor's approval. This submission is for information purposes and does not require the following of any prescribed format. Nevertheless, such a plan of study should include a description of the academic objectives, a statement of the means by which they will be achieved, and a bibliography of materials where appropriate. Both the faculty sponsor and the executive committee will expect a proposal to be carefully prepared.

While independent study will ordinarily result in a term paper, proposals suggesting other outcomes will also be considered. Moreover, independent study may be substituted, by petition, for required course credits in the economics curriculum, and for elective course credits in the hotel administration curriculum.

Other Special Programs

A limited number of administration internships may be arranged by seniors in their final semester. Interns may earn up to 12 credits for a substantial project, usually undertaken with the cooperation of an off-campus organization or firm and a faculty sponsor. The project must involve the nonroutine but practical application of skills and concepts acquired in the student's program. Such opportunities ordinarily must be found by students on their initiative. Internship-opportunity details may be obtained from the undergraduate counselor.

For the last three academic years the Whittemore School has participated in the Small Business Institute program of the Small Business Administration. This provides 10-20 “cases” a year for teams of two students, usually seniors, to act as consultants to small businesses having difficulties and in need of assistance which well-trained students can supply. Students involved have uniformly reported the worthwhileness of the experience. Those interested in participating in the future may also obtain information from the undergraduate counselor.

Minor Program

A minor is not required for majors in the economics, administration, and hotel administration curricula. A student in any one of these curricula may, however, apply for permission to pursue a minor program of study in any discipline in which sufficient courses are offered at the University. Permission to participate in a minor program may be granted only by the executive committee of the Whittemore School with the concurrence of the particular department involved. Consideration shall be given to the student's major area of concentration and proposed minor before granting such permission. Successful completion of such a program is recorded on a student's academic transcript. See page 19 for requirements.

Administration Program

The Administration Program provides training for young men and women interested in managerial or administrative careers in business or in public or private institutions.

Since most graduates of the program elect to embark upon business careers, the major thrust is in that direction. However, as demand has grown in recent years for people able to apply businesslike methods to the problems of nonprofit institutions, such as hospitals, school systems, government departments, and other socially-oriented organizations, the program's objectives have been broadened considerably to include all types of administration, rather than business only.

The curriculum offers professional education in the basic theories, principles, concepts, and analytical tools used by successful modern administrators, combining them with an introduction to some of the important functional areas of management. At the same time, the typical student achieves a well-rounded education by selecting courses in the liberal arts and the sciences from other colleges and schools in the University.

All students enrolled in the program must complete a five-course core of basic administrative tools and skills. Students are expected to maintain a satisfactory level of performance (a grade of C or better) in the Basic Core courses in order to be permitted to continue in the program. Most students will then go on to take three prescribed courses in functional areas and two elective courses from administration or economics. Some students, however, will be permitted to fulfill the requirements of the program by building onto the core a specially designed package of five courses which suit the individual's needs and
which may include only one or none of the functional area courses. Such a proposal needs the approval of the Administration Program Director. In either case, a student must achieve a grade-point average of at least 2.0 in the program in order to graduate. Transfer students must complete at least five courses toward the administration major while at UNH. In addition, credit toward the administration major is not normally given for upper-level courses in this program which are taken at the first- or second-year level elsewhere.

The internship opportunity is described above in "Other Special Programs."

Students not majoring or minoring in administration are encouraged to consider courses in accounting, organizational behavior, finance, marketing, production, etc. as relevant supplements to their own program of study. Advice concerning courses appropriate to various career goals may be obtained from members of the administration faculty.

A suggested plan of study is given below:

Freshman and Sophomore Years
Econ 402, Principles of Economics (Micro); Admn 411, Behavior in Organizations; Admn 424, Quantitative Analysis; Admn 502, Financial Accounting

Junior and Senior Years
Admn 650, Operations Management; Admn 651, Marketing; Admn 653, Financial Management; Admn and/or economics electives (2)

Semester II—Senior Year
Admn 700, Management Policy

A minor in administration is available to students in the arts and sciences and in technical or professional programs who may want to become managers or administrators in their own fields, or who want to generally enhance their employability. The minor in administration consists of: Econ 402, or in some cases, Econ 401, but not both; Admn 411 and 424; and Admn 502 or 517, but not both; and one elective.

Students who wish to minor must apply to the Whittemore School.

Economics

Economics is the study of the allocation of scarce resources among competing uses, either through use of conscious public policy ("planning") or through impersonal market forces, the maintenance of full resource use, and the distribution of output. The analytical skills of the economist are useful in evaluating alternative methods of achieving these goals and in the formulation of new approaches to problems in these areas.

The economics program is designed to introduce students to the tools of economic analysis and to an understanding of the areas they may be usefully applied to.

While undergraduate training in economics does not qualify students as professional economists (students intending such a career should plan on graduate study), it is regarded by employers as a highly desirable background for business or governmental employment. In recent years, economics graduates have competed on a favorable basis for business and government jobs with graduates in other areas, including administration. Undergraduate economics training is an excellent background for graduate work in law, business administration, and international relations, as well as economics.

Students planning to pursue graduate study in economics should consult with their advisers or faculty members early in the academic program to assist in their selection of an appropriate graduate school and to aid in gaining admission.

Courses in economics, including a minor program, are open to nonmajors. Students majoring in other programs may find certain economics courses useful supplements to their own majors and an aid in future employment. Political science majors may be interested in courses in economic development, comparative economic systems, public finance, and government regulation of business; engineering and science students, in statistical theory, introduction to econometrics, and intermediate microeconomic analysis. Noneconomics majors with questions about the nature of various courses should feel free to question the economics faculty.

Economics majors must complete eight full courses in economics with a grade of at least C- in each course and achieve at least a 2.0 grade average. These must include both inter-
mediate theory courses, Econ 605 and 611. Students must also pass Econ 525, Introduction to Economic Statistics, or equivalent as determined by the economics faculty. (Students may petition to substitute one 600- or higher-level administration or resource economics course for an economics elective.) Major credit toward Econ 605 and/or 611 will be awarded transfer students only if such courses have been taken at the junior level or above. Transfer students must take five of their eight economics courses at UNH. All economics majors must satisfy the Bachelor of Arts degree requirements (page 18).

A suggested plan for the economics major is given below:

**Freshman and Sophomore Years**
Econ 401, 402, Principles of Economics; Econ 525, Intro. to Economic Statistics.

**Junior Year**
Econ 605, Intermediate Microeconomic Analysis; Econ 611, Intermediate Macroeconomic Analysis

**Senior Year**
Economics electives (3)

A minor in Economics consists of Econ 401, 402; Econ 605 or 611 or 635; and two Economics electives.

**Hotel Administration**
The hotel administration program objective is to prepare students to perform managerial-level jobs in enterprises and institutions of the service sector, which have lodging and/or food service components. The services sector includes lodging, food service, tourism and recreation industries, and institutions such as hospitals and schools.

The program design recognizes that in order to have a well-rounded university education students need a course foundation in business administration and economics as well as the liberal arts. The hotel administration courses build upon such a foundation and provide experience and in-depth education specifically in the lodging and food service industries.

The program is also designed to include a mix of practical experience along with classroom activities. These practical experiences are provided in the operation of a campus food service facility, catering services, gourmet dinners and major consulting projects to industry (as part of classroom projects), lecture series, seminars and field trips, and a required summer of related work experience.

Students in the hotel administration program must obtain a grade point average of 2.0 or better in the required courses given in the Whittemore School. A graduate of this program, who is qualified for and interested in further allied studies, is well prepared for advanced degree programs in business or institutional administration.

A suggested plan of study is given below:

**Freshman Year**
Hotl 403, Elements of Institutional Administration; Admn 411, Behavior in Organizations; Econ 402, Principles of Economics (Micro)

**Sophomore Year**
Admn 424, Quantitative Analysis; Admn 517, Survey of Managerial Accounting; Hotl 518, Financial Analysis and Control; Hotl 556, Management of Physical Structures

**Junior Year**
Admn 651, Marketing; Hotl 655, Lodging, Food Service, & Institutional Management

**Senior Year**
Hotl 667, Functional Management; Hotl 666, Markets & Promotion of Public Service
Preprofessional, Interdisciplinary, & Experimental Programs

Teaching Learning Council

The Teaching Learning Council, an extraordinary committee established by the University Senate, is charged with encouragement of excellence and innovation in undergraduate teaching. To this end, the council is exploring many approaches—colloquia, video-tape equipment, a Teaching Resource Center, and so on—which may lead to improvement in teaching.

In cooperation with the Teaching/Learning Committee in each of the University's colleges, the council supports development of new approaches to teaching in existing or new courses, and promotes development of experimental and interdisciplinary courses and programs by faculty members and other qualified persons; such courses are publicized at preregistration time in the student newspaper. Courses under council sponsorship are normally offered for one semester, though some have been repeated.

The Independent Work Study courses and the modular, Introductory Statistics course are continuing offerings and are listed in the Course Descriptions, page 158.

The Student Designed Major

Under special circumstances students may design their own majors. This option is offered in response to the highly motivated and independently disciplined student who wishes a course of study which is not available through existing programs at the University. It allows the student, with the close supervision of a faculty member, to cross department and college lines, and to create educational experiences on and off campus as part of an individual program of study.

The program is administered by a committee of elected faculty which operates through the Office of the Vice Provost for Academic Affairs. Students who want to design their own majors are expected to give the committee evidence of careful thought and planning in a detailed proposal submitted before the middle of their junior year. Proposal guidelines are available in the Office of the Vice Provost for Academic Affairs.

Pre-Law

Students who intend to apply for admission to law school are not required to follow a specific undergraduate curricu-

ulum. There are goals which a student ought to pursue in planning the undergraduate program. Law schools expect students to follow a program of study which develops breadth of view, facility of expression, and analytical capacity. They urge students to acquire a background of information concerning the society in which one lives and the forces which have shaped modern institutions. The competent use and understanding of written and spoken English are essential for those planning to attend law school.

Students should choose courses of study which allow them to develop the specified capabilities. Specific course selection can be discussed by student and adviser, but some general guidelines may be offered. Helpful courses are those which deal with political, economic, and analytical thinking and provide an understanding of the human mind.

Students who hope to enter law school should contact a member of the University pre-law committee to discuss courses of study and other matters related to law school admission. Those who are considering taking the Law School Admission Test (LSAT) should schedule the examination in October or December of the senior year, and should discuss the examination with a member of the pre-law committee before taking it. Members of the pre-law committee are: John R. Kayser, chairperson, Political Science Department; Richard V. Desrosiers, Ancient and Modern Languages; Joseph Michael, WSBE; and John O. Voll, History.

Premedical-Predental Program

Students considering a career in medicine or dentistry should become familiar with the minimum course requirements as early as possible, so that specific courses needed for application to medical and dental schools can be incorporated into their programs. The premedical-predental option is not a major with a rigidly prescribed curriculum; rather, it is the acknowledgment of a student's professional intention. Although a majority of students in the past have elected zoology as a major, there is a trend, particularly in premedicine, away from exclusive concentration in a single area of science. In recent years students from UNH have chosen to major not only in sciences such as zoology, microbiology, biochemistry, and chemistry but also in such fields as history, English, psychology, and political science.
Pre-professional, Interdisciplinary, and Experimental Programs

Each student will choose a major subject based on his or her own interests and aptitude and will be assigned an appropriate faculty adviser from that department or school. The responsibility of the premedical-predental advisory committee is to offer information about medical and dental admission requirements and procedures and to provide recommendations at the time of application.

All medical and dental schools expect applicants to have demonstrated ability in basic natural and physical sciences. Although the specific requirements for admission vary considerably, the following courses constitute a minimum in order that a student may be considered for admission: biological sciences, physics, general chemistry, and organic chemistry, all two semesters each with laboratory; and mathematics through calculus. Proficiency in English and a foreign language is strongly recommended. An appropriate group of courses from among the offerings at the University of New Hampshire would be the following: Zool 412, 518; Phys 403-404 (or 407-408); Chem 403-404 and 651-652; and Math 425.

Courses which qualify an individual for consideration as a premedical or predental student should be completed by the time the application to a professional school is submitted, usually at the end of the junior year. Inasmuch as the performance in these courses is weighted heavily by the admissions committees, it is strongly recommended that students not register for them under the pass-fail option.

Interested students should enroll with Professor Paul R. Jones, Chemistry Department, chairperson of the premedical-predental advisory committee, as early as possible.

Interdepartmental Biology Major

The biology major is designed with a common core curriculum from which options are available as follows: 1) preparation for teaching biology in secondary schools and 2) preparation for professional careers in biology and for graduate study. Completion of the four-year undergraduate program plus a fifth-year internship will be necessary for biology teacher certification.

Students are advised to declare the biology major as incoming freshmen to assure adequate program planning. The major is offered in both the College of Liberal Arts and the College of Life Sciences and Agriculture under the supervision of the Inter-College Biological Sciences Organization. Students who wish a more specialized program or who do not plan to teach secondary school should consider a major in animal sciences, biochemistry, botany, entomology, microbiology, plant science, or zoology.

Major and supporting courses listed below should be taken in the sequence given. Students in the teaching option should enroll in Educ 500 during their sophomore year, and take two additional education or science courses. Those not in the teaching option will instead take three advanced biological science or supporting courses. Graduation requirements include a 2.0 cumulative average in the courses prescribed in the major. Students majoring in one of the biological science departments may not minor in biology.

Students interested in the biology major should contact either Professor F.K. Hoornbeek or (for the teaching option) Ms. Gail Lumsden, Zoology Department, Spaulding Life Science Building.

Major Course Sequence

Note: Except for science courses, University General Education requirements not included. (See General Education requirements page 16.)

Freshman Year
Sem. I Bot 411 or Zool 412, Chem 403, Math 425
Sem. II Zool 412 or Bot 412, Chem 404
### Sophomore Year

| Sem. II | PISc 604 or Ento 402, Bot 758 or Bot 762 |

*for teaching option.
†for non-teacher option: substitution of Chem 651-652 for Chem 545, and the second semester of calculus (Math 426) are suggested for graduate school preparation.

### International and Foreign Area Studies Minor

This minor is designed to meet the needs of students who wish to pursue their studies with an international or an area focus. It provides an interdisciplinary support for the student's major interest. Students interested in this minor should consult the minor requirements in their respective colleges. The program will be administered by an international studies minor supervisor.

A minor in international and foreign area studies consists of 20 credits (normally five courses) and knowledge of a foreign language. Courses which may be applied toward this minor are listed in the Bulletin for International and Foreign Area Studies Minors available from the international studies minor supervisor. For approval of the minor the student must meet the following requirements:

1. Complete a minimum of one and a maximum of two courses from a list of general international courses.
2. Select a foreign area from among the six offered (Asia, West Europe, Soviet and East Europe, Africa and the Middle East, Canada, Latin America) and complete a minimum of three and a maximum of four courses from among those listed for that area.
3. Demonstrate knowledge of a foreign language relevant to the selected geographic area. This requirement will ordinarily be met by either:
   a. Successful completion of the following courses in a language relevant to the area: Fren 504, 506, or 514; Germ 502 or 508; Ital 504; Portuguese (see c below); Russian 502; or Span 504.
   b. Successful completion of courses taught in the relevant language above the level of the courses listed in “a.”
   c. Certification by the language department concerned. Students who select an area in which no relevant language is currently being offered or students with a knowledge of a foreign language not offered in University language programs should contact the international studies minor supervisor.
4. No more than two courses from any one department may be applied toward the minor.
5. With the approval of the international studies minor supervisor, courses taken during the junior year abroad (Salzburg, Austria; Dijon, France; or Valencia, Spain) can be counted towards the minor.

For further information students may contact: Professor B. Thomas Trout, Department of Political Science, international studies minor supervisor.

### Computer Courses

The University has a DEC System/10 computer with a number of teletype terminals located around the campus. Many science and engineering courses involve assignments which the student is expected to work out on the computer.

The Electrical Engineering Department offers courses and an option in Computer Engineering (page 69) and the Mathematics Department offers courses in computer science and numerical analysis. There is an interdisciplinary major in Mathematics-Computer Science described on page 63.

### Marine Science and Ocean Engineering

The University is centrally located on the northern New England coast near a variety of estuarine, coastal, insular, and continental shelf marine environments. This ideal location has resulted in a long-standing history of educational and research activities which are currently being pursued within the
Pre-professional, Interdisciplinary, and Experimental Programs

areas of the marine life; physical and social sciences; ocean engineering; and chemical, geological, and physical oceanography considered in the context of the physical sciences. Supporting facilities include the Jackson Estuarine Laboratory, the Shoals Marine Laboratory, the Engineering Design and Analysis Laboratory with its Diamond Island Ocean Engineering Station, the Mechanics Research Laboratory, the R/V Jere Chase, and several smaller vessels.

Oceanography

Students who wish to prepare themselves for careers in oceanography should be well founded in the basic sciences. As a minimum, they should elect Chem 403-404, Math 425-426, and Phys 407-408, depending on area of specialization. Students should also enroll as a major in one of the established science disciplines closest to the principal area of interest. Those students interested in chemical, geological, or physical oceanography should consult with Dr. Herbert Tischler, Department of Earth Sciences. Students with interests in the area of biological oceanography should contact Dr. Philip J. Sawyer, Department of Zoology; Dr. Arthur C. Mathieson, Department of Botany; or Dr. Galen E. Jones, Department of Microbiology. Usually additional work at the graduate level is necessary in the field of oceanography.

In addition to the courses necessary to attain a degree in a specific discipline, students should, in consultation with their advisers, consider some of the following courses which are available to undergraduates: 1) Botany: Marine Botany, Marine Phycology, Marine Algal Ecology, and Micro-algae; 2) Earth Sciences: Introduction to Oceanography, Geological Oceanography, Physical Oceanography, Mineralogy of Clays, Principles of Geochemistry, Chemical Oceanography, Sedimentation-Stratigraphy, Estuarine and Marine Sedimentation, Applied Geophysics; 3) Microbiology: Public Health and Sanitation, General Microbiology, Environmental Microbiology, Marine Microbiology, and Microbial Biogeochemistry; and 4) Zoology: Principles of Zoology, Ornithology, Principles in Genetics, Introductory Invertebrate Zoology, Comparative Endocrinology, Natural History of Marine Invertebrates (summer only), Marine Parasitology, Developmental Biology of the Invertebrates, Histology and Micro-

 technique, Fisheries Biology, Introduction to Marine Science (offered at the Isles of Shoals during summer only), and Principles of Ecology.

Cooperative Educational Programs in Marine Science

Two cooperative programs in marine science are offered titled "An Introduction to Marine Science."

One program is a cooperative summer offering with Cornell University and the State University of New York. It is a general introduction to marine science aimed primarily at undergraduates, and draws on the professional backgrounds of more than twenty-five faculty and nearly as many captains, fishermen, and others whose living is associated with the sea. Prerequisite: at least one full year of college biology. Daily lectures, laboratory, and field work are taught at the Shoals Marine Laboratory on Appledore Island at the Isles of Shoals. No formal examinations; grades are Cr or F (credit or fail).

Two sections of a four-week course in Introduction to Marine Science, Zool 774 (5 credits) are taught each summer. Between the sections of this course, advanced courses are offered in Invertebrate Embryology (3 weeks, 4 credits), Field Phycology (3 weeks, 4 credits), Anatomy of the Gull (1 week, 1 credit), Research in Biology (1 to 5 weeks, 1 to 4 credits) and Underwater Research (1 to 2 weeks, 1 to 2 credits). For further information, contact the Marine Program Office, Kingsbury Hall, University of New Hampshire, Durham, N.H. 03824.

The second program is a multidisciplinary, team-taught course under the auspices of the New Hampshire College and University Council. Topics and units include: physical, geological, and chemical oceanography; biological oceanography; marine phycology; marine invertebrates; and field trips.

Prerequisite: approval of the campus representative of the Marine Science Committee of the New Hampshire College and University Council. Fall and spring semester courses. The course meets on Saturdays only. Students interested in this program should enroll in ESci 503, Introduction to Marine Science (4 credits).

A series of field-oriented summer courses under ESci 603, Marine Science Summer Institute, will be offered by the New Hampshire College and University Council for the more advanced undergraduate student. The three-week courses will
probably include marine geology, marine botany, marine ecology, marine chemistry, etc. Three three-week sessions are offered. The University of New Hampshire representative is Dr. Theodore Loder of the Earth Science Department.

**Ocean Engineering**

Study and research in the application of engineering knowledge to the ocean and contiguous land environments are pursued by all four engineering departments of the College of Engineering and Physical Sciences. An undergraduate ocean engineering minor program, composed of both lecture and project-type courses, is designed to prepare undergraduate engineering students for ocean-related employment after graduation or for graduate degree programs in ocean engineering. Successful completion of the program is certified on the students' transcripts. The details of the ocean engineering minor program are given on page 50.

The application of theory to the solution of real problems in the marine environment is an essential part of the undergraduates' education. It is achieved through student participation in the ocean research and project activities led by faculty associated with the College's Engineering Design and Analysis Laboratory (EDAL) and, from time to time, by individual faculty from any one of the four engineering departments: civil, chemical, electrical, or mechanical engineering. EDAL is an interdisciplinary, ocean-oriented facility with its faculty representing the four engineering departments as well as related disciplines. Such an interdisciplinary orientation permits faculty and students to work on a broad range of socially pertinent and challenging ocean engineering projects. Ocean-associated activities of the Mechanical Engineering Department's Mechanics Research Laboratory focus on engineering mechanics applied to the solution of problems in the marine environment. Research funding is currently provided by the Office of Naval Research, the National Oceanic and Atmospheric Administration Sea Grant Program, the United States Coast Guard, and other government agencies as well as by the University of New Hampshire's Marine Program.

Persons interested in undergraduate ocean engineering activities are invited to contact any of the four engineering department chairpersons.

**Off-Campus Study**

**Consortium (NHCUC) Student Exchange Program**

Under the Student Exchange Program of the New Hampshire College and University Council (NHCUC), UNH students may enroll for: one or two courses, one semester of courses, or a full year of coursework at a member school, on a space available basis. Approval of UNH adviser and College dean is required. NHCUC schools include: Colby-Sawyer College, Franconia College, Franklin Pierce College, Mount St. Mary College, Nathaniel Hawthorne College, New England College and its Arundel Branch in England (limited enrollment), New Hampshire College, Notre Dame College, River College, St. Anselm's College, UNH, Keene State College, and Plymouth State College. Students will remain as degree candidates and continue to pay normal UNH tuition and fees but must make their own room and board arrangements if they plan to spend a full semester at another Consortium school. For more information and application forms, students should contact George Abraham, coordinator for the Exchange Program, Liberal Arts Advising Center (Murkland Hall). Associate Professor F. William Forbes (Department of Ancient and Modern Languages and Literatures) is University member of the Council's Cooperative Academic Programs Committee.

**California Student Exchange Program**

The University offers a one-semester or full-year exchange program with the University of California, Chico, and San Diego State University. Interested students should see Bob Gallo, Dean of Student's Office, Huddleston Hall.

**Foreign Study Programs**

The University's department of Ancient and Modern Languages and Literatures offers opportunities to study in France, Austria, Spain, or Mexico. For more information, contact the Department of Ancient and Modern Languages and Literatures, Murkland Hall.

It is also possible to obtain credit from other institutions for foreign study programs. Interested students should contact Robin Olmsted in the Advising Center, Murkland Hall.
Associate in Arts in General Studies Degree

The Associate in Arts in General Studies degree gives students an opportunity to obtain a general, two-year college education, elect career-training coursework in several fields, and earn college credits in supervised work experience with cooperating employers.

The Division of Continuing Education designed the program to be equally accessible to both full- and part-time students. In doing so, the Division assures a wide range of University credit courses available during the late afternoon and early evening hours and during the daytime.

For full-time A.A. students, cooperative field work can mean alternating semesters of full-time study and full-time employment (with pay) in one of several careers. For part-time students who already hold full-time positions, it can mean an opportunity for new on-the-job experiences for college credit. Each field experience is arranged by a Division career option coordinator on an individual basis, depending on student needs and the requirements of the employer.

The Associate in Arts degree can be complete in itself, or it can be a half-way mark toward a bachelor's degree. Credits earned as an A.A. degree candidate are transferable into related bachelor's degree programs at the University of New Hampshire and other colleges and universities.

Career Options

Within the Associate in Arts degree program, students may elect courses in one or more of the following concentrations:

**Accounting** Accounting is the second largest profession for men in the United States today, and in recent years many women have also taken advantage of the career opportunities in the field. Increasing government regulations—ranging from new tax laws to wage and price controls—require the expertise of a greater number of qualified accountants and auditors. This career option, offered in cooperation with New Hampshire College Portsmouth Center, provides students with the degree of specialization required to qualify for responsible jobs in accounting and will aid them in pursuing a more advanced degree at a later time in their careers. Required Accounting courses: Admn 502, Admn 503, and three accounting courses from New Hampshire College.

**Banking** The career coursework in the Banking option meets a need expressed by top-level banking management and associations for employees specifically trained in this field. Combined with the General Education requirements of the A.A. degree program, these core courses give the student the knowledge and skills which top management is continually seeking. Students can supplement money-and-banking courses with electives in management, business law, accounting, and economics to obtain a solid business background. Required Banking courses: DCE 440, 441, 540, and 533.

**Criminal Justice** A career in criminal justice is one of the most challenging occupations for men and women today. The orderly processes of the law make it possible for Americans to live in harmony and enjoy the personal freedom established under the Constitution. Careers in criminal justice extend beyond the "police beat." There are, for example, positions in various agencies of law enforcement at the municipal, county, state, and federal levels of government, and in private industry. This career option is offered in cooperation with the Department of Criminal Justice at St. Anselm's College. Required Criminal Justice courses: DCE 550, 551, 552, and either Polt 635, Soc 615, or two criminal justice courses from St. Anselm's College.

**Insurance** The core courses in the Insurance option can assist students who wish to qualify for an agent's and/or broker's license. A.A. graduates who complete the Insurance option may find a higher level of job entry and increased promotional opportunities with both large and small insurance firms. This career option may also be supplemented with electives in management to offer a solid educational background for individuals planning to start their own business. Required Insurance courses: DCE 420, 421, and 422, and complete at least one from DCE 531, 532, or 506.

**Management** Careers in management exist at many levels and this career option is designed to assist students to gain entry and promotional opportunities in the field. The career-training coursework emphasizes and develops the skills needed in management functions. Competent personnel at
the assistant managerial level will continue to be needed for business, sales, purchasing, personnel, accounting, and public relations, to name a few. Individuals now planning or running their own business will also find the practical emphasis of this career option very helpful. Required courses: DCE 430 or Admn 614; DCE 431 or Admn 411; complete two from DCE 411, 432, or 532 (Small Business Management emphasis); or complete two from DCE 432, 480, or 570 (Manufacturing Management emphasis); or complete two from DCE 432, 530, or 532 (General Management emphasis, recommended for students without business experience); or complete eight credits from DCE 432, Secr 401-402, or Secr 407-408 (Office Administration emphasis).

**Merchandising** Careers in merchandising represent a significant segment of New Hampshire's economy and many functions within the field require specific knowledge and skills. The career training coursework in Merchandising begins with the fundamentals and expands to specific techniques in promotion and advertising, retailing, and credit management. Employment opportunities exist not only in large industries but also in department stores, retail operations, discount stores, supermarkets, mail order operations, and smaller variety stores in the resort areas. Required Merchandising courses: DCE 410, 411, 510, and either 512 or 533.

**Quality Control** Personnel working with quality control function in an environment of increasing complexity. Innovations in technology and organization cause frequent changes in their job requirements. Such innovations, when properly understood and applied, make individuals more effective in their work and help them guard against technical obsolescence. The Quality Control degree option consists of coursework in quality control and management combined with a strong program in liberal arts. Required Quality Control courses: DCE 480, 580, 581, and 582.

**Real Estate** The career training coursework in the Real Estate option can help students who wish to qualify for a state license. A.A. graduates who concentrate on the Real Estate option may often find a higher level job entry and increased promotional opportunities with both large and small real estate firms. Supplemented with elective courses in management, this option can also offer a solid educational background for the individual planning to establish a business. Required Real Estate courses: DCE 425, 426, 427; and complete at least one from DCE 531, 532, or 506.

**Secretarial Studies** Secretarial skills will always be in demand for business, industry, government, and education. This career option trains the prospective secretary in the advanced skills necessary to compete successfully. In addition, the general education offered in the Associate in Arts degree program will help the secretary work more efficiently as an administrative assistant with competent understanding of current business, social, and cultural problems. A.A. graduates in this career option may enter the secretarial profession or pursue a higher degree at a four-year college of business. This option is offered in cooperation with McIntosh College in Dover. Required Secretarial Studies courses: Secr 401-402, 407-408, and three related courses from McIntosh College.

**Traffic and Distribution Management** Rapidly rising costs and materials shortages have made product distribution one of the most complicated jobs in the business world today. The problems of energy conservation, cost consciousness, and operational efficiency have created a demand for managers who thoroughly understand the dynamics of physical distribution. This career option was developed to train prospective traffic and distribution managers and to improve the skills of those already employed in the field. Required Traffic and Distribution Management courses: DCE 470, 570, 571, and 431.

**Admissions Requirements**
For the Associate in Arts degree program, candidates must have a high school diploma or an equivalency certificate and should have demonstrated ability and motivation through: secondary school achievement, work experience, and/or military service. Because of the present limited residence hall
Associate in Arts in General Studies

capacity of the University, this program is available only to commuting New Hampshire residents. The state-residency requirement may be waived if the applicant is a full-time employee of a New Hampshire business.

Associate in Arts degree graduates are awarded a minimum of 64 credit hours upon entry into a UNH bachelor's degree program. Degree candidates wishing to continue their studies should consult with their advisers to assure that their planned programs meet the specific requirements for the selected major at the institution awarding the bachelor's degree.

Applications for admission may be obtained from the Office of Admissions, Thompson Hall. After being admitted to the A.A. degree program, candidates will be referred to a permanent adviser in the Office of Academic Counseling, Division of Continuing Education.

Degree Requirements
For degree requirements, see page 18.

Academic Regulations
Associate in Arts degree candidates are subject to the academic requirements established by the University.

Pass-Fail While earning an Associate in Arts degree, the pass-fail option for grading may be carried in a maximum of two courses outside the courses required in the student's chosen career option. To use this option, an associate degree candidate must have completed a minimum of 16 credits at the University of New Hampshire on a regular graded basis of A to F. (See page 17.)

Financial Aid
Associate in Arts degree candidates are eligible for the full range of financial aid offered by the University. See Financial Aid, page 12.

Career Training Courses
The courses which constitute the core of the career options are drawn from: existing courses of the Schools and Colleges at the University, courses developed and sponsored by the Division of Continuing Education, and specialized courses offered by cooperating institutions of higher learning.

Because these career-training courses have different "homes," they are listed in different sections in the course descriptions. Courses designated by DCE are listed under Division of Continuing Education Courses; Admn courses are listed under Administration; and Secr courses under Secretarial Studies.

For information on courses offered by cooperating institutions, contact the Division of Continuing Education office.

Counseling and Tutoring
Program planning and other counseling services are provided by the professional staff of the Division. Academic counselors are available from 8 a.m. to 5 p.m. daily and during evening hours on an appointment basis.

Tutoring services are also available for Division of Continuing Education students, including veterans under the provisions of the GI Bill.

For More Information
For further information on the Division's programs or services, write or visit the Division of Continuing Education, 6 Garrison Ave., UNH, Durham, N.H. 03824, (603-862-2015).
Thompson School of Applied Science

Lewis Roberts, Director

The Thompson School of Applied Science offers two-year, technical-level programs leading to an Associate in Applied Science degree. Instruction, a "learning-by-doing" educational approach, trains graduates for employment as technicians, professional assistants, supervisors, and mid-management personnel in industry, organizations, and agencies.

Thompson School graduates acquire necessary skills and experience to seek satisfactory employment at the end of two years; they also have the option to continue their education at the baccalaureate level. Most colleges accept Thompson School graduates at the junior-year level. Others, including most UNH baccalaureate programs, accept Thompson School graduates as second-semester sophomores.

Thompson School students are eligible for on-campus housing.

Admission Requirements  Applicants to the Thompson School of Applied Science are considered on the basis of secondary school course selections, academic achievement, class rank, and school recommendations. The secondary school program need not be college preparatory. Rather, emphasis is placed on the applicant's motivation and demonstrated interest in his or her career field.

All candidates graduating from high school must submit the results of the College Entrance Examination Board Scholastic Aptitude Test. Applicants to the Forest and Civil Technology programs must also have two years of satisfactory work in college preparatory mathematics.

The mission of the Thompson School is to offer applied science degree programs in selected career fields. Students who seek to continue their education in the University's baccalaureate degree programs should realize that transfer consideration is based on the applicant's level of achievement and on the availability of spaces in the baccalaureate programs. The University awards approximately 60 percent block transfer credit for TSAS coursework and does not guarantee transfer admission.

For a Thompson School catalog and/or more specific information, write or call the director, Thompson School of Applied Science, Barton Hall, Durham, N.H. 03824 (603-862-1025).
Division of Continuing Education

Edward J. Durnall, Director
Paul A. Dubois, Assistant Director: Registration and Scheduling
Merna E. Johnson, Assistant Director: Academic Advisement

The Division of Continuing Education provides access to higher education for New Hampshire residents under conditions which permit individuals to participate in University programs appropriate to their changing educational needs. These needs may at times be best satisfied through participation in workshops, conferences, short courses, or certificate programs—at other times by enrollment in credit courses and degree programs.

The faculty of the Division of Continuing Education are drawn from the teaching staffs of the University, from the faculties of neighboring colleges and universities, and from business, professional, and community leaders who speak with authority in their respective fields of specialization.

In addition to the programs listed below, it is possible to complete many of the degree requirements in other areas of study offered by the University through enrollment in credit courses scheduled by the Division each semester.

Associate In Arts Degree
See Associate in Arts Degree Chapter.

Special Student Status
Special students—those who are not formally admitted into a degree program at the University of New Hampshire, Durham—may enroll in University credit courses each semester through the Division of Continuing Education.

All special undergraduate students are limited to 11 credits per term unless they obtain written permission of the director of Admissions, Thompson Hall. Special graduate students are also subject to enrollment limitations. Contact the Division for details.

Undergraduate courses Special students must meet one of the following requirements: have a high school diploma or its equivalent, or be at least 18 years of age.

Graduate courses Special students must hold a bachelor’s degree or equivalent from an approved college or university.

Prerequisites All students are responsible for satisfying course prerequisites, if any. Instructors may require a student to withdraw from a course if the student is not adequately prepared for the level of work.

Short Courses and Minicourses
Throughout the year, the Division offers noncredit courses to the community. These courses may provide opportunities for individual development; or they may provide continuing educational services to business, labor, government, or the professions.

Short courses run for about 10 weeks, depending on course objectives, and typically they offer individual or professional development.

Minicourses typically run for only five weeks and usually deal with recreational and other leisure-time interests.

Certificate Programs
Each certificate program consists of a specifically developed sequence of courses to provide a sound balance of theory, fundamentals, and specialized training. Certificates awarded by the Division have earned professional acceptance as evidence of increased knowledge in basic principles and techniques. Certificate programs offered include: Nursing Home Administrator Relicensure, Public Library Techniques (summers only), Banking, Insurance, Management, Merchandising, Quality Control, Real Estate, Traffic and Distribution Management, Apartment and Condominium Management, Data Processing, Interior Design, and Social Gerontology.

Conferences
The Division assists in planning and developing educational programs for groups and organizations. These programs range from one-day workshops and seminars to residential conferences and institutes lasting several days or weeks.

Throughout the academic year, the Division makes full use of the facilities of the University of New Hampshire and the New England Center for Continuing Education adjacent to the campus, in conjunction with off-campus lodging for residential programs. During the summer months, the University’s residence and dining halls are available to serve even the largest of groups. For more information please call 862-2018.
Summer Session
Please see following chapter.

Course Charges
Students who enroll in credit courses through the Division pay on a per-credit basis, depending on residency status and course level. These course charges are listed in the DCE credit course schedule published prior to each semester. The course charges for noncredit courses and for conferences, workshops, and institutes vary according to the scope of individual programs.

Financial Aid
Course Charge Grants Special Students (non-degree candidates) who enroll in the Division of Continuing Education may be considered for grants in varying amounts, awarded on the basis of financial need and only for course charges in credit courses offered through the Division. Preference will be given to New Hampshire residents. Application for course-charge assistance must be filed with the Division at least one month prior to the start of classes for each term for which assistance is requested. Application forms are available from the Division Office.

Other Financial Aid For information on other sources of financial assistance, including Senior Citizen Scholarships, contact the Division counselors.

Class Schedule
While students may enroll in morning and afternoon classes through the Division, many courses are offered each semester are scheduled in the late afternoon and early evenings to accommodate part-time students.

All courses offered by the University each semester are open to special students on a space-available basis. However, because UNH degree candidates have first priority in many classes, special students may not be assured space in certain classes until the first class meeting.

Division Publications
Specific information on course offerings, registration procedures, and academic requirements can be found in individual publications describing each program. For more information about the Division's programs, write: Division of Continuing Education, 6 Garrison Avenue, UNH, Durham, N.H. 03824 (603-862-2015).
Summer Session

Edward J. Durnall, Director

The University of New Hampshire offers students the opportunity to continue their studies on a year-round basis through four- and eight-week sessions during the summer months. The summer courses are the same high quality as those during the regular academic year and require the same level of academic performance.

Summer Session offerings include a full range of undergraduate and graduate credit courses in most of the major academic disciplines. Throughout the summer, classes are scheduled in the morning, afternoon, and evening.

Admission to Summer Session classes does not necessarily imply admission to degree candidacy.

Undergraduate courses are open to college undergraduate students, to interested members of the community who have a high school diploma or its equivalent or who are at least 18 years of age, and to high school students completing their junior or senior year (by permission of the director).

Graduate courses are open to graduate students and other individuals with a bachelor's degree or its equivalent from an approved college or university.

Other Summer Session offerings include noncredit courses and certificate programs; workshops and seminars for business, industry, and the professions; and residential conferences and academic programs.

For more information A separate Summer bulletin is published each year in March and is available from: Division of Continuing Education, 6 Garrison Avenue, University of New Hampshire, Durham, N.H. 03824 (603-862-2015).

Graduate School

The Graduate School offers a wide range of programs leading to the master's degree and a number of programs leading to the Ph.D. degree. Graduate programs have been developed gradually and systematically with the goal of achieving academic excellence by careful utilization of institutional resources and regional opportunities. A highly qualified graduate faculty supervises graduate programs and establishes the requirements for admission and degrees which are administered by the dean of the Graduate School.

Most graduate programs are relatively small and permit the student the opportunity to work closely with the faculty in the area of specialization. The aim of graduate programs is to offer high-level professional training in their respective disciplines and to provide opportunities for students to learn and practice sound research methods. Graduate students are expected to use fully the available opportunities and to demonstrate maturity and self discipline necessary for sound scholarship.

A number of programs and facilities such as the Genetics Program, Jackson Estuarine Laboratory, Ritzman Animal Nutrition Laboratory, Center for Industrial and Institutional Development, Space Science Center, Resource Development Center, Water Resources Research Center, Engineering Design and Analysis Laboratory, Bureau of Educational Research and Testing, and Public Administration Service, provide opportunities to engage in interdisciplinary research.

Admission to the Graduate School may be granted to graduates of colleges and universities of approved standing, provided that the applicant's undergraduate record is satisfactory. An applicant's race, religion, color, national origin, and sex are not considered in the admissions process. The official application for admission and the Graduate Catalog containing detailed descriptions of graduate programs may be obtained from the dean of the Graduate School, Social Science Center, UNH, Durham, New Hampshire 03824.

Financial Aid

Graduate Assistantships are available in most departments. These involve part-time work in connection with the University's instructional activities. University-sponsored awards, such as tuition scholarships, UNH Fellowships, Martin Luther King awards, and Dissertation Fellowships, are available to qualified students. A number of fellowship programs sponsored by such outside agencies as the National Science Foundation, Department of Health, Education and Welfare, U.S. Office of Education, and the U.S. Public Health Service may be available.
Roger Bernard, Dean

The Merrimack Valley Branch (MVB) of the University of New Hampshire offers credit and non-credit courses during the day and evening in Manchester, N.H. Classes are held at their new Hackett Hill Road campus and a high school in the city.

As an emerging campus of the University System of New Hampshire, the Merrimack Valley Branch strives to provide educational opportunities conducive to the fullest development of the individual learners; to allow each member of its community to create a definition of self which includes both the wisdom that comes with knowing and the wisdom derived from doing.

As the new campus develops, it will continue to be responsive to the local needs of the greater Manchester area with special emphasis on the needs of adult learners and Manchester area high school students who have not previously considered further education.

In order to achieve these goals, the Branch will assume the following major characteristics which will complement the existing University System's educational resources.

1. An open door admissions policy with the supporting staff necessary to assure motivated students the opportunity for success.

2. An innovative commuter college which will remove some of the financial barriers to educational opportunity for all.

3. A cooperative-education college whose paraprofessional educational programs will seek to instill a respect for both intellectual and physical work.

4. Two-year degree programs and continuing education programs geared to emerging career fields as well as complementing existing two- and four-year programs at other System campuses and local colleges, featuring interdisciplinary options and flexible curricula which encourage students to integrate careers and liberal education.

5. Educational and cultural programs responsive to the needs of Manchester while instilling consciousness of the important moral issues of the times affecting Manchester, New Hampshire, and the world.

Because of the diverse interests of its student body, the Merrimack Valley Branch has a special commitment to providing learning opportunities outside traditional degree programs. To meet this commitment, it is creating a comprehensive community services program which will include certificate courses, workshops, conferences, lectures, cultural events, and other learning experiences which use the rich resources of the Manchester metropolitan area and of its own specialized faculty. It will continue to complement these resources with those of the University of New Hampshire by bringing courses and expertise developed on that campus for the education and re-education of those specially interested in the broader base of learning associated with the University faculty. This combination of resources provides Manchester with non-degree learning opportunities which can satisfy the diverse demands of its citizens for learning.

Further information on courses and programs being offered at the Merrimack Valley Branch of UNH may be obtained by writing, visiting, or calling: the Merrimack Valley Branch, RFD 4, Hackett Hill Road, Manchester, N.H. 03102, (603-668-0700).
School of Continuing Studies

Maynard C. Heckel, Dean

The School of Continuing Studies (SOCS) was established as an alternative form of higher education for adult learners. As an academic unit of the University System of New Hampshire, SOCS is building flexible programs and making use of new and largely untapped resources for learning available in industry, agencies, and local communities. Specifically, SOCS is responsible for developing, expanding, and coordinating all off-campus educational programs of the System. SOCS draws upon: faculty resources of System institutions, qualified faculty members of other colleges and institutions in New Hampshire, and talented private citizens.

Bachelor of General Studies Degree The B.G.S. is deliberately designed to afford flexibility in several respects not provided for by traditional bachelor's programs. For example, some adults have assembled unique "packages" from a variety of disciplines, either to meet specific career requirements or to acquire a broad cultural perspective. In some cases, the B.G.S. has been used as a foundation for graduate study.

Courses are offered at the University, the Merrimack Valley Branch in Manchester, Plymouth State, Keene State, and statewide through SOCS. In addition, B.G.S. candidates are encouraged to take courses offered by New Hampshire's private colleges. The program has no specific time requirements. Once formally accepted, the candidate is considered a student in SOCS.

Career or concentrated-study areas can be designed collaboratively with various groups, organizations, agencies, and companies. Whenever possible, these career options can be offered on-site.

Maturity gained through work and life experiences enables adult learners to design, with professional assistance, programs specific to career or personal goals. Credits earned through technical, vocational, and/or professional training are recognized as the cornerstone upon which academic programs can be built. Admission requirements are listed in the School's bulletin.

The School also offers courses which may be applied to the Associate in Arts degree and has a cooperative associate-degree program with the Vocational-Technical College in Berlin, N.H.

The SOCS calendar is flexible and may vary from University System calendars.

For further information contact the School of Continuing Studies, University System Offices, Lee Center, Durham, N.H. 03824.

Description of Courses

Explanation of Arrangement

The title and Arabic number designate the particular course. When two course numbers precede a course title and are connected by a hyphen, the first semester of the course, or its equivalent, is a prerequisite to the second semester. If the course numbers are separated by a comma, qualified students may take the second semester without having had the first.

The notation “Lab” indicates that laboratory sessions are a part of the course.

Prerequisites Each prerequisite for a course is separated from the other prerequisites by a semicolon; e.g. Prereq: Educ 601; Psyc 635. If permission (of the instructor, department, or a committee) is a prerequisite for all students, it is listed among the prerequisites: e.g. Prereq: Educ 601; Psyc 635; permission. If, on the other hand, permission may be substituted for one or more of the listed prerequisites, it follows the other prerequisites and is separated from them by a slash mark: e.g. Prereq: Educ 601; Psyc 635; / or permission. If permission may be substituted for only one of the prerequisite courses, it is listed with the course for which it may be substituted: e.g. Prereq: Educ 601 or permission; Psyc 635.

Cr/F following the description indicates that no letter grade is given but that the course is graded Credit or Fail.

The number of credits listed is the number of semester credits each course number will count in the total required for graduation. Students must register for the number of credits shown or, if the course is variable credit, must register within the range of credits shown.

For up-to-date information about when a course is offered; who teaches the course; the number of recitations, lectures, labs, and such, students are referred to each semester's Time and Room Schedule, which carries a complete schedule of course offerings for the semester.

The system of numeric designation is as follows:

200-299 Courses in Thompson School of Applied Science.
300-399 Non-credit courses, e.g., Mathematics 301.
400-499 Introductory courses not carrying prerequisites and courses generally falling within University and College requirements.
500-599 Intermediate-level courses for undergraduate credit only.
600-699 Advanced-level undergraduate courses. Entrance to courses numbered 600 and above normally requires junior standing. (Under some conditions these courses may be taken for graduate credit by non-majors only.)
700-799 Advanced-level undergraduate courses. (These courses may be taken for graduate credit.)
800-899 Courses which carry graduate credit only. (Descriptions will be found in the Graduate School catalog.)
Administration (Admn)

Program Director: George Miaoulis

ASSISTANT PROFESSORS: George Miaoulis, Gordon Smith

INSTRUCTORS: Dean Plager, Lawrence Scheewe, Starr Schlobohm

LECTURERS: Clyde R. Coolidge, Lawrence Horwitz, Natasha Josephowitz, Tom McCarron, Joseph Michael, Mary Anne Sharer

411. BEHAVIOR IN ORGANIZATIONS
Application of behavioral science concepts at work. Individual behavior, interpersonal relations, small groups, relations between groups—all in the context of a larger organization. Class treated as a real organization; students study own roles, norms, rewards, and leadership and take responsibility for the effects of their behavior on learning. 4 cr.

424. QUANTITATIVE ANALYSIS
Elementary survey of quantitative methods for decision making; collection, summarization, presentation, and evaluation of data; probability and inference. Sufficient quantitative background provided for all other required undergraduate administration courses, but not for upper-division electives in quantitative methods in the Whittemore School. 4 cr.

502. FINANCIAL ACCOUNTING
Concepts, procedures, and tools of analysis in selection, quantification, and communication of economic events affecting financial condition and progress of organizations. (Not open to students who have had DCE 460.) 4 cr.

503. ACCOUNTING: PLANNING AND CONTROL
Analytical tools and concepts employed by managers for financial planning and control. Prereq: Admn 502. 4 cr.

517. SURVEY OF BASIC ACCOUNTING
Concepts, conventions, and processes in financial and cost accounting. Usefulness and limitations of accounting data in decision making and in analyses of past results. (For students minoring but not majoring in administration. Not open to students who have had DCE 460.) 4 cr.

530. PERSONAL FINANCE AND INVESTMENT
Principles and practices of personal finance and investment. Investments in real estate, stocks and bonds, money-market instruments, savings accounts, and insurance and retirement plans. Personal saving, mortgages, consumer credit, and other means of financing investments. No credit toward a major or minor in administration. 4 cr.

561. INTRODUCTION TO MANAGERIAL THINKING
Thinking-processes that underlie management and administration; survey of human thought, history of management thought, and prevailing contemporary models of the management process. Suitable background for all upper-division administration courses. 4 cr.

602. VALUES IN A MANAGERIAL SOCIETY
Processes by which managerial values are formed and modified. 18th century ideas such as pursuit of self-interest, desirability of material progress, and individualism are attitudes which have loomed large among our American values; how these ideas relate to our present managerial society; some emerging alternatives to these long-accepted values. Case discussions and readings, lectures. Prereq: Admn major/permission. 4 cr.

614. ORGANIZATIONAL THEORY
Characteristics of formal organizations. Theory and concepts useful for analysis and administration of various types: business, educational, medical, social. Case discussions, class exercises, fieldwork. Prereq: Admn 411/or permission. 4 cr.

642. MANAGEMENT INFORMATION SYSTEMS
Concepts, design, and implementation of management information systems. 4 cr.

647-648. BUSINESS LAW I, II
Law of contracts, agency, sales, negotiable instruments, real and personal property, partnership and corporations, with application of the Uniform Commercial Code. Prereq: at least junior status; permission 4 cr.

650. OPERATIONS MANAGEMENT
Analysis of operational problems in the product and service sectors; standards, capacity, inventory, scheduling, and control. Prereq: Admn 424 and 502/or permission. 4 cr.

651. MARKETING
Marketing behavior of the firm as it supplies goods and services to consumers and industrial users. Optimal blending of ingredients in the "marketing mix": product pricing, promotion, preliminary consumer behavior, marketing research, and selection of distribution channels. Prereq: Econ 402/or permission. 4 cr.
653. **FINANCIAL MANAGEMENT**
The firm's uses and sources of funds; working-capital management; capital budgeting; and administration of debt and equity. Prereq: Econ 402 and Admn 502/or permission. 4 cr.

695-696. **INDEPENDENT STUDY**
Individual projects of special interest and benefit. Prerequisite: permission of undergraduate counsellor and proposed project supervisor; granted only to students with unusual initiative. Variable 4-12 cr.

700. **BUSINESS POLICY**
Capstone course, interrelating and applying specialized courses; cases of companies, firms, supplemented by economic and other information from published industry, company, and other sources. Prereq: Admn major with senior standing. 4 cr.

705. **OPERATIONS RESEARCH**
Synthesis and analysis of mathematical decision models; mathematical programming, networks, inventory, queueing, scheduling, and Markovian models. Prereq: permission. 4 cr.

712. **ORGANIZATIONAL CHANGE**
Process of change in organizations. Change strategies; the change agent's role and relation to the client system. Bases of resistance to change and problems encountered by internal and external change agents. Theoretical reading material, cases, and exercises. Prereq: permission. 4 cr.

713. **INTERPERSONAL AND GROUP DYNAMICS**
Dynamics of small groups through the use of the class itself as an intensive laboratory study group. Students examine their own behavior and its effects on others through the use of the Laboratory Training Group (T-group), and develop conceptual ability and behavioral skills. Readings in group dynamics, interpersonal relations, and sensitivity training. Prereq: permission. Lab fee. 4 cr.

714. **CONFLICT MANAGEMENT**
Conflict among individuals, small groups, and organizations. Analysis of cases, readings, simulations, and roleplays (often using videotape) develops useful concepts and skills for dealing with conflict. Students examine their own behavior in copling with conflicts within the class. Field project required. Prereq: permission. 4 cr.

717. **ADVANCED FINANCIAL ACCOUNTING**
Theory and practice as they contribute to the significance and limitations of the financial statements. Prereq: permission. 4 cr.

718. **COST AND MANAGEMENT**
Effective use of cost accounting, cost analysis, and budgeting in planning and controlling operations. Analysis of cost behavior, direct and absorption costing, cost-price-volume relationship, distribution costs, transfer pricing, and capital expenditure analysis. Prereq: permission. 4 cr.

720. **AUDITING**
The attest function, and the responsibility and professional ethics of the independent auditor in our society. Audit concepts, procedures, objectives, and reports. Operational audits, social audits, and management services. Prereq: Admn 717/or permission. 4 cr.

722. **ACCOUNTING SEMINAR**
Special topics. Prereq: Admn 717 or 718, depending on topics; permission. 4 cr.

728. **STATISTICAL DECISION-MAKING**
Probability and statistics applied to decision problems. Bayesian approach to decisions under uncertainty, which explicitly injects prior judgements of decision-makers and the consequences of alternative actions. Prereq: Admn 424 or equivalent. 4 cr.

730. **INVESTMENTS ANALYSIS**

732. **EXPLORATION IN ENTREPRENEURIAL MANAGEMENT**
Past and probable future role of the entrepreneur in the economic and social development of the U.S. Differences between entrepreneurial and administrative management. Mythology of the "American Dream," entrepreneur as a change agent, entrepreneurial motivation and behavior patterns, venture-capital markets, and role of the entrepreneur in non-profit institutions. Prereq: permission. 4 cr.

741. **TRANSPORTATION**
Problems of American transportation system. Economic structure of transportation industries; competition among the several modes. Public policy questions: merger, cost-benefit analysis of facilities, for example. Freight transportation; problems of passenger transportation, especially in urban areas. Prereq: permission. 4 cr.

745. **INTERNATIONAL BUSINESS**
Issues and problems confronting managers in the international economy. Emphasis on problems of working across national borders rather than on those encountered within the framework of different national economies, cultures, and institutions. For managers working in a multinational enterprise. Prereq: permission. 4 cr.
747. FEDERAL TAXATION
Current federal-income, estate, and gift taxes and their impact on corporations, partnerships, and individuals. Tax analysis and decision-making. 4 cr.

750. MARKETING MANAGEMENT
Practical application of theories taught in Admn 651. Planning, organization, and control of marketing activities in large corporations and small businesses; new-product development; pricing policies; selection of channels of distribution; interrelationships between marketing, production, and finance. Sound policy formulation and decision making established through analysis of cases and computer simulation. Prereq: a basic marketing course. 4 cr.

751. ADVERTISING AND PROMOTION
Advertising, personal selling, and other promotional tools to help solve marketing problems; advertising as a medium of communications and as a social-cultural force in the Western world. Prereq: Admn 651;/or permission. 4 cr.

752. MARKETING RESEARCH
Identification, collection, and analysis of data for the marketing process. Strengths, limitations, environment, and evaluation of research in the marketing process. Prereq: Admn 424 and 651;/or their equivalent. 4 cr.

754. CONSUMER BEHAVIOR
Consumer-firm relationship; concepts from contemporary social science findings, particularly small group studies. Learning, memory, cognition, motivation, emotion, perception concepts and global models related to present and prospective marketing activities of a business organization. Prereq: Admn 651;/or permission. 4 cr.

755. ADVANCED BUSINESS FINANCE
Development of analytical tools and practical skills for recognizing and solving complex problems of business finance. Working-capital management, capital budgeting, cost of capital, capital structure, and dividend policy. Prereq: Admn 653 or 806. 4 cr.

756. MANAGEMENT OF FINANCIAL INSTITUTIONS
How financial institutions manage their sources and uses of funds; impact of external environmental factors upon the operation and performance of financial institutions. Optimal portfolio strategies for commercial banks, savings and loan associations, mutual savings banks, insurance companies, and pension funds. Implications of monetary theory for individual financial institution policies; credit analysis; competition among financial institutions; regulation of financial institutions. Prereq: Admn 653 or 806. 4 cr.

770. PERSONNEL ADMINISTRATION
Role of personnel administration and human resource management in achieving goals in "for-profit" and "not-for-profit" organizations. Functions of management; scope, technique, and current issues of personnel administration; organization of personnel activities and staff. How managers relate to personnel administration and interact with personnel administration staff and services. Prereq: permission. 4 cr.

798. SEMINAR IN ADMINISTRATION
Special topics; may be repeated. Prereq: consent of adviser and instructor. Variable 1-4 cr.

Aerospace Studies (Aero)

PROFESSOR OF AEROSPACE STUDIES: Colonel John J. Harrington, USAF
ASSISTANT PROFESSORS: Major Kenneth F. Calabria, USAF; Major Carl D. Clark, USAF

Leadership Laboratory is required each semester of all Air Force ROTC students seeking a commission as a second lieutenant in the U.S. Air Force upon graduation. Students taking Air Force ROTC courses for credit, but not seeking a commission, need not register for this lab.

301. LEADERSHIP LABORATORY
Taken by all AFROTC cadets throughout enrollment in AFROTC. Command and staff leadership experiences in Cadet Corps. Study of Air Force customs and courtesies; drill and ceremonies; Air Force career opportunities and life and work of Air Force junior officer. Leadership potential developed in a practical, supervised laboratory. Field trips to Air Force installations. 0 cr.

415. THE AIR FORCE TODAY I
Development, mission, and organization of the Air Force as an instrument of the U.S. national defense policy. (Leadership Laboratory included.) 1 cr.

416. ORGANIZATION FOR NATIONAL SECURITY II
Major Air Force commands: roles of separate operating agencies; organization, systems, and operations of strategic defense; general-purpose aerospace support forces. (Leadership Laboratory included.) 1 cr.
541. THE DEVELOPMENT OF AIR POWER I
Development of air power from balloons and dirigibles through World War II; man's earliest attempts at flight; the nature of warfare. (Leadership Laboratory included.) 1 cr.

542. THE DEVELOPMENT OF AIR POWER II
Development of air power from post-World War II through peaceful use of air power in relief missions and civic action programs in the late 1960's; air war in Southeast Asia. (Leadership Laboratory included.) 1 cr.

561-562. NATIONAL SECURITY FORCES IN CONTEMPORARY AMERICAN SOCIETY I AND II
Armed forces as part of American society. Civil-military relations in context of U.S. policy formulation and implementation. Attitudes toward the military; socialization processes; role of the professional military leader-manager; requirements for adequate national security forces; political, economic, and social constraints on the national defense structure; impact of technological and international developments on strategic preparedness. (Leadership Laboratory included.) 3 cr.

561. AIR FORCE MANAGEMENT AND LEADERSHIP I
The individual as a manager in Air Force. Motivation and behavior, leadership, communication, and group dynamics; decision-making; planning, organizing, and controlling in a changing environment. (Leadership Laboratory included.) 4 cr.

562. AIR FORCE MANAGEMENT AND LEADERSHIP II
Organizational and personal values; management of change; organizational power, politics, managerial strategy and tactics; military justice and administrative law. Air Force cases studied. (Leadership Laboratory included.) 4 cr.

Ancient and Modern Languages and Literatures
Chairperson: Grover E. Marshall

PROFESSORS: John S. Walsh, emeritus; R. Alberto Casás, Warren H. Held, Louis J. Hudon, Charles H. Leighton

LECTURERS: Karl Arndt, Anthony DiSanzo, Helen E. Evans, Louis J. Iandoli, Elizabeth J. Lantz, Fredric S. Levinson, Elisa F. Stoykovich, Barbara H. Wing

501. CLASSICAL MYTHOLOGY
Survey of the myths and sagas of ancient Greece and Rome. No classical preparation necessary. Background course for majors in English, Art, Music, History, Classics, etc. One weekly session devoted to related art and music. 4 cr.

512. GREEK AND LATIN LITERATURE IN TRANSLATION
The dimensions of the ancient Greco-Roman civilization from which so much of our contemporary culture derives. For the student unprepared to read Greek and Latin. Background course for majors in English, History, Latin, Greek and the modern languages and literatures. 4 cr.

521, 522. MASTERPIECES OF GRECO-ROMAN CULTURE IN TRANSLATION
More advanced study of the writings of classical civilizations. For students with some classical preparation. Background course for majors in English, History, Latin, Greek, or the modern languages and literatures. 4 cr.

595, 596. TOPICS IN CLASSICS
1) Byzantine Heritage; 2) Greek and Latin origins of medical terms; 3) Greek and Latin origins of legal terms; 4) Greek and Latin origins within the English language; 5) Hellenic institutions; 6) Roman institutions; 7) Classical backgrounds of modern literature; 8) Sanskrit; 9) Classical archaeology. Introduction and elementary study related to linguistic study of Latin and Greek or relevant to Greco-Roman culture and history. Primarily for students unprepared to read Latin and Greek. 2 or 4 cr.

605. INTRODUCTION TO COMPARATIVE AND HISTORICAL LINGUISTICS
Survey. Subjects include comparative linguistics, a short history of linguistics, phonetics, phonemics, language families, types of grammars, methods of writing, etc. Some language training is desirable. 4 cr.

695, 696. SPECIAL STUDIES IN CLASSICS
Advanced work in classics. Research paper. Not open to freshmen and sophomores. 2 or 4 cr.
French (Fren)

New students will be assigned to proper courses on the basis of their scores on the College Board Achievement test. All courses are conducted in French unless otherwise noted. Junior and senior non-majors may write papers and examinations in English in courses numbered 600 and above. Fren 605-606 is the first course counting toward a major. Students educated in French-speaking countries may not register for courses below the 700 level. Transfer credit will not be given for elementary-level college courses in foreign languages if the student had two or more years of the foreign language in secondary school.

401-402. ELEMENTARY FRENCH
For students without previous training in French. Aural comprehension, speaking, writing, reading. Labs. No credit for Fren 401 without Fren 402. (No credit for students who have had two or more years of French in secondary school; however, any such student, whose study of French has been interrupted for a significant period of time, should consult the section coordinator about possibly receiving credit.) 4 cr.

501. INTERMEDIATE FRENCH
Similar to Fren 503, below, but for students with less preparation. Labs. Prepares for Fren 504. 4 cr.

503-504. INTERMEDIATE FRENCH
Intensive reading of complete texts, formal review of grammar, training in oral and written expression of ideas. Labs. 4 cr.

514. FRENCH GRAMMAR AND SPEECH
Thorough review of grammar and practice in oral and written expression. Labs. Prereq: Fren 504. 4 cr.

516. FRENCH CONVERSATION
Readings from current French periodicals and from material illustrating various aspects of contemporary France. Emphasis on increasing oral skills through class discussions and reports. Labs. Prereq: Fren 514 or grade of B or better in Fren 504. Not for major credit. 4 cr.

605-606. READINGS IN FRENCH LITERATURE
Analysis of texts from the 17th century to the present. Prereq: grade of C or better in Fren 504. 4 cr.

620. THE NOVEL OF QUEBEC
Novel of Quebec as a reflection of a society, its attitudes and developments. Readings in French. Taught in French or English as circumstances dictate. Papers and examinations in English for non-majors. Prereq: Fren 504 or equivalent. 4 cr.

621. FRENCH PROSE IN TRANSLATION
Works affecting French thought from the Renaissance to the modern period. Readings, discussion, papers in English. Not for major credit. 4 cr.

622. FRENCH DRAMA IN TRANSLATION
Major works of comedy, tragedy, and drama. Moliere and Racine to the present day. Readings, discussions, papers in English. Not for major credit. 4 cr.

685-686. JUNIOR YEAR AT DIJON UNIVERSITY
Studies at the University of Dijon (France) for juniors who have completed their sophomore year at UNH and have passed with a grade of B or better Fren 605-606 and Fren 514. Students are expected to take French courses in their freshman and sophomore years. Attendance required at orientation sessions during the second semester of sophomore year. Interested students should consult the director of the program. Prereq (non-majors): permission. (Not offered for graduate credit.) 32 cr. Cr/F.

741. FRENCH LITERATURE OF THE MIDDLE AGES
Epic, lyric poetry, and romance. Prereq: Fren 606. (Not offered every year.) 4 cr.

742. FRENCH LITERATURE OF THE RENAISSANCE
Prereq: Fren 606. (Not offered every year.) 4 cr.

759-760. FRENCH LITERATURE OF THE 17th CENTURY
Prereq: Fren 606. (Not offered every year.) 4 cr.

761-762. 18th CENTURY FRENCH LITERATURE AND THOUGHT
Prereq: Fren 606. (Not offered every year.) 4 cr.

767-768. 19th CENTURY FRENCH LITERATURE
Romanticism and Realism. Prereq: Fren 606. (Not offered every year.) 4 cr.

770. INTRODUCTION TO MODERN FRENCH POETRY
Baudelaire to the present. Prereq: Fren 606. (Not offered every year.) 4 cr.

781-782. CONTEMPORARY FRENCH NOVEL AND THEATER
From 1890 to the present. Prereq: Fren 606. (Not offered every year.) 4 cr.

790. ADVANCED LANGUAGE AND STYLE
Translation of literary texts, intensive study of principal techniques of style, explication de textes. Prereq: at least two courses in French numbered 741 and above. 4 cr.
Ancient and Modern Languages and Literatures

791. METHODS OF FOREIGN LANGUAGE TEACHING—FRENCH
Interdepartmental course. Objectives, methods, and techniques in teaching Spanish, French, German, and Latin from elementary grades through college. Discussion, demonstration, preparation of instructional materials, microteaching of the language skills. Prereq: permission. Not for major credit. (Same as Germ 791, Latin 791, and Span 791.) 4 cr.

795, 796. SPECIAL STUDIES IN FRENCH LANGUAGE AND LITERATURE
Individual guided study of the work of a major author, a genre, or specific topics in literature. Training in bibliography and organization of material. Prereq: permission. Variable cr.

798. SEMINAR IN FRENCH LITERATURE
Topics chosen by the instructor. Prereq: Fren 606. (Not offered every year.) 4 cr.

German (Germ)

New students will be assigned to the proper course on the basis of their scores on the College Board Achievement test. Transfer credit will not be given for elementary-level college courses in foreign languages if the student has had two or more years of the foreign language in secondary school.

401-402. CONVERSATIONAL GERMAN
Aural and audio-visual methods. Labs. Previous knowledge of German not required. (No credit for students who have had two or more years of German in secondary school; however, any such student, whose study of this foreign language has been interrupted for a significant period of time, should consult the section coordinator about possibly receiving credit.) 4 cr.

403-404. SCIENTIFIC GERMAN
Reading in the natural and physical sciences. Emphasis on translation. Previous knowledge of German not required. (No credit for students who have had two or more years of German in secondary school; however, any such student, whose study of this foreign language has been interrupted for a significant period of time, should consult the section coordinator about possibly receiving credit.) 4 cr.

407. ACCELERATED GERMAN
401-402 in one semester. Active use of the German language employing audio-visual techniques. Labs. Previous knowledge of German not required. (No credit for students who have had two or more years of German in secondary school; however, any such student, whose study of this foreign language has been interrupted for a significant period of time, should consult the section coordinator about possibly receiving credit.) 8 cr.

501. INTERMEDIATE GERMAN
Continuation and review of grammar, reading comprehension, and oral-aural practice. Labs. For students with high school German who wish to fulfill the Liberal Arts foreign language requirement and for students with reading knowledge background who need a transition to the oral-track method employed in Germ 504. Instruction in German and English. 4 cr.

503-504. INTERMEDIATE GERMAN
A continuation of Germ 401-402. Instruction in German. Labs. 4 cr.

525. INTRODUCTION TO GERMAN CULTURE AND CIVILIZATION
Homogeneous and heterogeneous aspects in the political, social, and cultural life of East Germany, West Germany, Austria, and Switzerland. Conducted in English. This course or its equivalent required of all German majors and strongly recommended for participants in the Salzburg Program. 4 cr.

526. INTRODUCTION TO GERMAN LITERATURE
Reading and analysis of poems, dramas, and short prose from the works of Goethe, Heine, Mann, Rilke, Kafka, Brecht, Frisch, Durrenmatt, and others; introduction to theory of literary forms. Conducted in German. This course or its equivalent required of all German majors going on the Salzburg Program; prerequisite to upper-level literature courses. 4 cr.

530. GERMAN CONVERSATION
Dialogues in German concerning living and studying in Austria and Germany. Necessary for those participating in the Junior Year in Salzburg Program. Prereq: Germ 401-402 and 503; or equivalent. 2 cr.

601-602. ADVANCED LANGUAGE AND STYLE
Essential for all students intending to engage in study or research in a German-speaking country. Essays and oral reports. Required of all German majors; not open to students who will have taken the equivalent courses in Salzburg. 4 cr.

623. SURVEY OF PRECLASSICAL GERMAN LITERATURE
German literature from its beginning till the late 18th century. Prereq: Germ 526. 4 cr.

624. THE AGE OF GOETHE
Major literary movements between 1770 and 1832. Reading and analysis of selected works. Prereq: Germ 526. 4 cr.

625. GERMAN LITERATURE OF THE 19th CENTURY
Major literary movements from Goethe's death to the unification of Germany by Bismarck (1832-1872). Reading and analysis of selected works. Prereq: Germ 526. 4 cr.
626. MODERN GERMAN LITERATURE
Major literary movements from 1872 to the present. Reading and analysis of selected works. Prereq: Germ 526. 4 cr.

685-686. JUNIOR YEAR IN SALZBURG
A program of studies at the University of Salzburg (Austria) for students of colleges and universities in New England who have completed their sophomore year and have passed a minimum of four full courses in German with an average grade of B (3.0) or better and have an over-all grade average of C+. Students are to take German 530, German Conversation, (2 cr.) before going; and German majors are required to take German 526. Students participating are expected to attend a four-week, non credit orientation seminar in Salzburg prior to the beginning of the fall semester. Open to all students regardless of major. Interested students should consult the director, Studies Abroad Program. Variable to 32 cr.

691, 692. ADVANCED STUDIES IN GERMAN
A special series of 2-credit courses to develop a knowledge of German language, culture, literature, e.g., 1) The Faust Legend; 2) Cultural Comparison of the U.S. and Germany; 3) Readings in Current Periodicals; 4) North Germany: Land and People; 5) German Mythology; 6) Modern Short Story; 7) Germany Tour. 2 cr.

693, 694. MAJOR GERMAN AUTHORS IN ENGLISH
Critical reading of major works of one of the following authors. Conducted in English. (German majors read all works in original.) 1) Brecht; 2) Frisch and Durrenmatt; 3) Other. Barring duplication of material, course may be repeated for credit. 4 cr.

726. GERMAN CULTURE AND CIVILIZATION
Historical, social, artistic, and folkloristic developments in German-speaking countries from the beginnings to the present. 4 cr.

781. HISTORY AND DEVELOPMENT OF THE GERMAN LANGUAGE
The changes in sounds, structure, and vocabulary from the earliest record to the present. Required for German majors. 4 cr.

791. METHODS OF FOREIGN LANGUAGE TEACHING—GERMAN
Interdepartmental course. Objectives, methods, and techniques in teaching Spanish, French, Latin, and German from elementary grades through college. Discussion, demonstration, preparation of instructional materials, micro-teaching of the language skills. Prereq: permission of instructor. (Same as Fren 791, Latn 791, and Span 791.) 4 cr.

797, 798. SPECIAL STUDIES IN GERMAN CULTURE AND CIVILIZATION
Independent investigation; barring duplication of material, may be repeated for credit; presumes a sound background in Germanic studies. 1-4 cr.

Greek (Grek)
New students will be assigned to proper course on basis of scores on College Board Achievement test. Transfer credit will not be given for elementary level college courses in foreign languages if student has had two or more years of foreign language in secondary school.

401-402. ELEMENTARY GREEK
Grammar, simple composition, and translation. (No credit for students who have had two or more years of Greek in secondary school; however, any such student, whose study of this foreign language has been interrupted for a significant period of time, should consult the section coordinator about possibly receiving credit.) 4 cr.

503-504. INTERMEDIATE GREEK

601-602. GREEK PROSE COMPOSITION
Review of Attic Greek grammar; study of Greek prose style; English to Greek translation. Prereq: permission. 4 cr.

751, 752. HOMER AND THE ARCHAIC PERIOD
Readings from the “Iliad,” the “Odyssey,” the Homeric Hymns, Hesiod, Pindar, and the Lyric Poets. Prereq: permission. 4 cr.

753, 754. ADVANCED STUDIES IN ATHENIAN LITERATURE
1) Aeschylus; 2) Sophocles; 3) Euripides; 4) Aristophanes; 5) Herodotus; 6) Thucydides; 7) Xenophon; 8) Plato; 9) Aristotle; 10) Lysias; 11) Demosthenes; 12) Isocrates. Major Attic authors from the Battle of Marathon to the death of Alexander the Great. Prereq: permission. 4 cr.

795, 796. SPECIAL STUDIES IN GREEK
Italian (Ital)

New students will be assigned to the proper course upon consultation with the section coordinator. Students educated in Italian-speaking countries may not register for courses below the 700 level. Transfer credit will not be given for elementary-level college courses in foreign languages if the student had two or more years of the foreign language in secondary school.

401-402. ELEMENTARY ITALIAN
For students without previous training in Italian. Aural comprehension, speaking, writing, reading. Labs. No credit for Ital 401 without Ital 402. (No credit for students who have had two or more years of Italian in secondary school; however, any such student, whose study of Italian has been interrupted for a significant period of time, should consult the section coordinator about possibly receiving credit.) 4 cr.

503-504. INTERMEDIATE ITALIAN
A complete review of the fundamentals of grammar and syntax. Selected readings as a general introduction to Italian civilization and culture. Labs. 4 cr.

505. READINGS IN MODERN ITALIAN LITERATURE
Carta di 19th and 20th century texts. Discussion and papers in Italian. Prereq: grade of C or better in Ital 504. 4 cr.

506. READINGS IN ITALIAN LITERATURE TO THE 18th CENTURY
Analysis of the 13th to the 18th century. Discussion and papers in Italian. Prereq: grade of C or better in Ital 504. 4 cr.

795, 796. INDEPENDENT STUDY IN ITALIAN LANGUAGE AND LITERATURE
Individual guided study. Prereq: permission. Variable cr.

Latin (Latn)

New students will be assigned to proper course on basis of scores on College Board Achievement test. Transfer credit will not be given for elementary level courses in foreign languages if student has had two or more years of the foreign language in secondary school.

401-402. ELEMENTARY LATIN
Elements of grammar, reading of simple prose. Course cannot be counted for major credits. (No credit for students who have had two or more years of Latin in secondary school; however, any such student, whose study of this foreign language has been interrupted for a significant period of time, should consult the section coordinator about possibly receiving credit.) 4 cr.

501. INTERMEDIATE LATIN
Similar to Latn 503 (below), but for students continuing from Latn 402 whose preparation does not qualify them for Latn 503. Intensive review of Latin grammar and vocabulary; readings in prose and poetry. Prepares for Latn 504. Completion of 501 fulfills foreign language requirement for B.A. degree. 4 cr.

503-504. INTERMEDIATE LATIN
Review. Readings from Cicero, Caesar, Sallust, Livy, Catullus, Horace, Ovid, Plautus, Terence, and Seneca. Prereq: Latn 402 or equivalent. 4 cr.

601-602. LATIN PROSE COMPOSITION
Grammar review; study of Latin prose style; English to Latin translation. Prereq: permission. 4 cr.

751, 752. CICERO AND THE ROMAN REPUBLIC
Prereq: permission. 4 cr.

753, 754. ADVANCED STUDIES IN THE LITERATURE OF THE GOLDEN AGE
1) Lucretius; 2) Cicero; 3) Caesar; 4) Sallust; 5) Vergil; 6) Horace; 7) Tibullus; 8) Propertius; 9) Ovid; 10) Livy. Major Roman authors from the dictatorship of Sulla to the death of Augustus. Prereq: permission. 4 cr.

755, 756. ADVANCED STUDIES IN THE LITERATURE OF THE SILVER AGE
1) Seneca the Younger; 2) Persius; 3) Petronius; 4) Lucan; 5) Statius; 6) Quintilian; 7) Martial; 8) Juvenal; 9) Tacitus; 10) Pliny the Younger. Major Roman authors from the reign of Nero to the death of Trajan. Prereq: permission. 4 cr.

759. METHODS OF FOREIGN LANGUAGE TEACHING—LATIN
Interdepartmental course. Objectives, methods, and techniques in teaching Spanish, French, German, and Latin from elementary grades through college. Discussion, demonstration, preparation of instructional materials, micro-teaching of the language skills. Prereq: permission. (Same as Fren 791, Germ 791, and Span 791.) 4 cr.

795, 796. SPECIAL STUDIES IN LATIN
Japanese (Russ)

415-416. ELEMENTARY JAPANESE
Elements of Japanese grammar. Oral practice and written drills designed to achieve a mastery of basic grammatical patterns. Reading of graded exercises introducing the student to written Japanese (Hiragana and Katakana) and Chinese characters used in contemporary Japan. Labs. (No credit for students who have had two or more years of Japanese in secondary school; however, any such student, whose study of this foreign language has been interrupted for a significant period of time, should consult the department chairperson about possibly receiving credit.) 4 cr.

515-516. INTERMEDIATE JAPANESE
Review of Japanese grammar. Reading of prose and practice in oral and written expression. Emphasis upon contemporary Japanese. Labs. Prereq: permission/or Jap 416 with a grade of C or better. 4 cr.

Russian (Russ)

New students will be assigned to the proper course on the basis of their scores on the College Board Achievement test. Transfer credit will not be given for elementary level college courses in foreign languages if the student has had two or more years of the foreign language in secondary school.

401-402. ELEMENTARY RUSSIAN
Oral-aural practice and written drills designed to achieve a mastery of basic grammatical patterns. Labs. Previous knowledge of Russian not required. (No credit for students who have had two or more years of Russian in secondary school; however, any such student, whose study of this foreign language has been interrupted for a significant period of time, should consult the section coordinator about possibly receiving credit.) 4 cr.

503-504. INTERMEDIATE RUSSIAN
Continuation of Russ 401-402. Review of Russian grammar, reading of prose, and practice in oral and written expression. Labs. Prereq: Russ 402 or equivalent high school/college course with a grade of C or better. 4 cr.

505-506. RUSSIAN CONVERSATION AND PHONETICS
Designed to increase fluency in Russian conversation and improve phonetic articulation. Reflects contemporary Soviet speech and expressions. Prereq: Russ 401-402/or permission. 2 cr.

595, 596. RUSSIAN TOPICS IN ENGLISH
A series to develop insight and knowledge of Russian culture e.g., 1) Russian Culture and Civilization; 2) Russian Arts: Music, Architecture, Painting, Folklore, Dress, Customs; 3) USSR Culture Tour; 4) Introduction to the Soviet Union: Peoples, Religions, Economy, Geography, Literature, Social- Political Systems; 5) Social Trends in 19th Century Russian Literature; 6) Satire, Parody, Comedy in Russian Literature; 7) Russian Drama; 8) Soviet Literature; 9) Russian Short Story. 2 or 4 cr.

621. RUSSIAN MASTERPIECES IN ENGLISH
Russian literature of the last 150 years as represented by Pushkin, Gogol, Tolstoy, Dostoevsky, Solzhenitsyn. Readings, discussions, papers in English. 4 cr.

631-632. ADVANCED RUSSIAN CONVERSATION AND COMPOSITION
Advanced spoken and written Russian to maintain aural-oral fluency; advanced grammar. Individual conferences. Prereq: Russ 503-504 or equivalent. 4 cr.

633. READINGS IN CURRENT SOVIET PERIODICALS
Advanced language practice in reading, speaking, and writing based on current events in Soviet newspaper and magazine articles. May be taken concurrently with 631-632 and repeated for credit. Prereq: Russ 504 or equivalent. 4 cr.

691, 692. ADVANCED STUDIES IN RUSSIAN
A special series of 2-credit courses on topics which develop a knowledge of Russian language, culture, and literature, e.g., 1) History of the Russian Language; 2) Structure of the Russian Language; 3) Readings in Russian Civilization; 4) Russian Poetry; 5) Russian Short Story; 6) Pushkin and Lermontov; 7) Gogol; 8) Turgenev; 9) Soviet Satire. 2 cr.

693, 694. MAJOR RUSSIAN AUTHORS IN ENGLISH
Evolution of one of the authors listed below as artist, thinker, and social critic. Discussion and analysis of major fictional and doctrinal works. Readings, papers, and discussions in English. 1) Solzhenitsyn; 2) Dostoevsky; 3) Chekhov; 4) Tolstoy. Barring repetition of material, may be repeated for credit. 4 cr.

734. READINGS IN RUSSIAN LITERATURE
Reading and translation of selected works from Russian literature of the 19th and 20th centuries; samples of prose and poetry; problems of vocabulary building. Prereq: grade of C or better in Russ 504/or permission. 4 cr.

795, 796. SPECIAL STUDIES IN RUSSIAN LANGUAGE AND LITERATURE
Selected topics in language, culture, and literature. Variable 1-4 cr.

Ancient and Modern Languages and Literatures
## Spanish (Span)

New students will be assigned to proper course on basis of scores on College Board Achievement test. Transfer credit will not be given for elementary-level college courses in foreign languages if student had two or more years of foreign language in secondary school. No student educated in a foreign country will be permitted to register for any Spanish course numbered 650 or below if Spanish is the student's native language. All courses conducted in Spanish (or Portuguese) except where noted.

### 401-404. ELEMENTARY SPANISH

For students without previous knowledge of Spanish. Aural-oral practice; fundamental speech patterns; reading and writing to achieve a firm basis for an active command of the language. Labs. No credit toward a major. (No credit for students who have had two or more years of Spanish in secondary school; however, any such student, whose study of this foreign language has been interrupted for a significant period of time, should consult the section coordinator about possibly receiving credit.) 4 cr.

### 403-404. ELEMENTARY PORTUGUESE

For students without previous knowledge of Portuguese. Aural-oral practice; fundamental speech patterns; reading, and writing to achieve a firm basis for an active command of the language. Labs. No credit toward a major. (No credit for students who have had two or more years of Portuguese in secondary school; however, any such student, whose study of this foreign language has been interrupted for a significant period of time, should consult the section coordinator about possibly receiving credit.) 4 cr.

### 407. ACCELERATED SPANISH

Span 401-402 in one semester. Study of fundamental speech patterns, reading and writing to achieve a firm basis for active command of Spanish. Labs. Previous knowledge of Spanish is not required. (No credit for students who have had two or more years of Spanish in secondary school; however, any such student, whose study of this foreign language has been interrupted for a significant period of time, should consult the section coordinator about possibly receiving credit.) 8 cr.

### 501. INTERMEDIATE SPANISH

Similar to Span 503, but for students continuing from Span 402 and whose preparation does not qualify for Span 503. Aural-oral practice; review of basic structure; reading and writing to develop active command of the language. Labs. No credit toward a major. Students with a final grade of B or better may register for Span 504, with permission of instructor. Students receiving credit for Span 501 may not receive credit for Span 503. Completion of 501 fulfills foreign language requirement for the B.A. degree. 4 cr.

### 503-504. INTERMEDIATE SPANISH

Complete literary texts of intellectual worth; review of language structure; oral and written expression of ideas. Discussion and papers in Spanish. Labs. Open by placement examination, and to students who have passed Span 402 with a C. Students making A in Span 504 may take courses numbered 750 and above with the permission of the department. No credit toward the major for 503. Students receiving credit for Span 503 may not receive credit for Span 501. 4 cr.

### 507-508. INTERMEDIATE PORTUGUESE

Conversation/composition based on readings in contemporary Portuguese and Brazilian literature, especially theater which is closest to conventional language. A traditional grammar text supplements reading. Labs. 4 cr.

### 525. SPANISH CIVILIZATION AND CULTURE

Historical, geographical, and artistic expressions of Spanish civilization which have formed the character of contemporary Spanish culture. Readings; slides, films, tapes, and records. Conducted in English. Required of majors. 4 cr.

### 601. SPANISH PHONETICS

Practical application of fundamental phonetic theory to spoken Spanish. Required of Spanish majors. 2 cr.

### 621. SPANISH AND PORTUGUESE LITERATURE IN TRANSLATION

Major works by principal authors; Camões, Cervantes, Lope de Vega, Calderón, Eça de Queiroz, Unamuno, Ortega y Gasset, García Lorca, Casona, etc. Readings, discussions, papers in English. Does not count for Spanish major. 4 cr.

### 622. SPANISH AMERICAN AND BRAZILIAN LITERATURE IN TRANSLATION

Major works by principal authors; Inca Garcilaso, Díaz del Castillo, Machado de Assis, Borges, Asturias, Neruda, E. Veríssimo, Fuentes, Leñero, Guimarães Rosa, and Jorge Amado. Readings, discussion, papers in English. Does not count toward Spanish major. 4 cr.

### 631, 632. ADVANCED SPANISH CONVERSATION AND COMPOSITION

To maintain and perfect written and spoken Spanish through intensive classroom work, individual conferences, and laboratory sessions. Prereq: Span 503 or 504 or equivalent. 4 cr.

### 651, 652. INTRODUCTION TO SPANISH LITERATURE AND THOUGHT

Reading and analysis of significant works; historical and cultural background reading. Papers and discussion in Spanish. Concurrent enrollment in 631, 632 recommended. This course or its equivalent is prerequisite to all higher courses in Spanish. Open to students with a grade of C or better in Span 504, and by placement examination. 4 cr.
ANCIENT AND MODERN LANGUAGES AND LITERATURES

665, 666. SPANISH AMERICAN LITERATURE
Main literary themes of representative authors against the historical social, and geographical background of the New World. Prereq: Span 504 or equivalent. Concurrent enrollment in Span 631, 632 recommended. 4 cr.

685, 686. JUNIOR YEAR ABROAD
Program of studies at a Spanish or Spanish-American university for juniors, who have completed sophomore year at UNH and passed Span 503-504 or equivalent with grade of B or better. Students required to take non-credit orientation meetings during the semester prior to departure. Interested students should consult with the program directors. Variable to 16 cr. per semester.

691, 692. READINGS IN CURRENT PERIODICALS
Advanced practice in reading, speaking, and writing, based on current events in contemporary periodicals of the Spanish-speaking world. Co- or prereq: Span 632 or equivalent. May be repeated. 2 cr.

752. DRAMA AND POETRY OF THE SIGLO DE ORO
Social and historical background of Baroque period. Representative plays of Lope de Vega, Tirso de Molina, Calderón; lyric poetry of Lope, Góngora, and Quevedo; prose developments. (Not offered every year.) 4 cr.

754. CERVANTES
Cervantes' literary art. Selections from the major works. The Quijote, its origination and significance, its antecedents; its religious, philosophical, and sociological aspects; and its artistic structure. Prereq: Span 652 or 666 or equivalent. (Not offered every year.) 4 cr.

755. LITERATURE OF THE 19TH CENTURY
Larra, Espronceda, Bécquer, Pérez Galdós, and Blasco Ibáñez. Romanticism, realism, and naturalism. (Not offered every year.) 4 cr.

757. THEATER AND POETRY OF THE 20TH CENTURY
The Generation of 1898 and Modernismo: Lorca, Casona, Buero Vallejo, Sastre, Salinas, Guillén, and Miguel Hernández. 4 cr.

758. SPANISH PROSE OF THE 20TH CENTURY
Novels, short stories, and essays. Unamuno, Baroja, Menéndez Pidal, Ortega y Gasset, Julián Marias, Aranguren, Pérez de Ayala, Gironella, and Cela; survey of contemporary prose. Prereq: Span 652, 666, or equivalent. (Not offered every year.) 4 cr.

760. UNAMUNO AND ORTEGA Y GASSET
Philosophical ideology and literary content of major contributions of Miguel de Unamuno and José Ortega y Gasset. Prereq: Span 652, 666, or equivalent/or permission. (Not offered every year.) 4 cr.

771. SPANISH-AMERICAN DRAMA
From pre-Hispanic origins to the present, modern playwrights of Mexico and Puerto Rico. Prereq: Span 652, 666, or equivalent. (Not offered every year.) 4 cr.

772. SPANISH-AMERICAN NOVEL
Development from Romanticism to the present; contemporary trends and techniques. Prereq: Span 652, 666, or equivalent. (Not offered every year.) 4 cr.

773. SPANISH-AMERICAN SHORT STORY
Representative authors; stress on 20th century. Principles of interpretation. Prereq: Span 652, 666, or equivalent. (Not offered every year.) 4 cr.

774. MAJOR SPANISH-AMERICAN AUTHORS
Works and life of some six writers; pertinent historical circumstances. Prereq: Span 652, 666, or equivalent. (Not offered every year.) 4 cr.

791. METHODS OF FOREIGN LANGUAGE TEACHING—SPANISH
Interdepartmental course. Objectives, methods, and techniques in teaching Spanish, French, German, and Latin from elementary grades through college. Discussion, demonstration, preparation of instructional materials, micro-teaching of the language skills. Prereq: permission. (Same at Fren 791, Germ 791, and Latn 791.) 4 cr.

795, 796. SPECIAL STUDIES IN SPANISH LANGUAGE AND LITERATURE
Animal Sciences

Animal Sciences (AnSc)

Chairperson: Winthrop C. Skoglund

ASSOCIATE PROFESSORS: Alan C. Corbett, Thomas P. Fairchild, James B. Holter, Gerald L. Smith, Larry Stackhouse

LECTURERS: Dwight Barney, Linda Bland, Janet C. Briggs, Bernard Gaiser, Elizabeth C. Smith

400. ANIMALS, FOODS, AND MAN
Survey of nutrition and food science; biological, social, political, economic, and historical significance of food. Animal food products. S. Smith. 4 cr.

401. INTRODUCTION TO THE ANIMAL SCIENCES
To acquaint the beginning student with the development, economic importance, and problems of the livestock industry; the commercially important classes of farm animals; and the place of the biological sciences of animal agriculture. Mr. Skoglund, staff. Lab. 4 cr.

402. HORSEMANSHIP
For beginning, intermediate, and advanced riders, riding instruction on University-owned horses. Limited number of students may stable their horses at the University. $80 fee. Ms. Briggs. 2 cr.

404. INTRODUCTION TO LIGHT HORSE SCIENCE
A survey course covering the entire field of light horse science including breeds, feeding, genetics, stable management, diseases, and other aspects. Mr. Gaiser, staff. Lab. 4 cr.

501. ANIMAL ANATOMY AND PHYSIOLOGY
The general anatomy and physiology of domestic animals and birds. Mr. Hylton. 4 cr.

502. FUNDAMENTALS OF ANIMAL HEALTH
The prevention, control, and treatment of bacterial and parasitic diseases in domestic animals. Prereq: AnSc 501; or permission. Staff. 2 cr.

503. ABATTOIR MANAGEMENT
Licensing requirements, sanitation, inspection facilities, and use of the slaughterhouse; field trips. Prereq: permission. Mr. G.L. Smith, Mr. Barney. Lab. 2 cr.

504. MEAT AND ITS PRODUCTS
Slaughtering, cutting, and identification of beef, lamb, pork, and poultry; field trips. Mr. G.L. Smith. Lab. 4 cr.

506. PRINCIPLES OF NUTRITION
Fundamental principles underlying the nutrition of man and animals; the functions of the various nutrients in the maintenance, growth, and production of the animal body and the metabolic disorders resulting from their deficiency; the digestion, absorption, intermediary metabolism, and excretion of individual nutrients will be discussed within this framework. Mr. Repka and Mr. Schwab. (Also offered as HEc 506.) Lab. 4 cr.

507. THE SCIENTIFIC APPROACH TO EQUINE DISCIPLINE
Physiological development, control, and education; bitting, longeing, and collection. Prereq: AnSc 402 or equivalent; permission. Ms. Briggs. Lab. 2 cr.

601-602. ANIMAL SELECTION

603. APPLIED ANIMAL NUTRITION
Application of scientific principles of nutrition to feed formulation and feeding systems for poultry and livestock. Mr. G.L. Smith, staff. Lab. 4 cr.

606. EQUINE DISEASES AND PARASITES
Hygienic practices that help control many common bacterial, viral, and parasitic diseases in horses. Mr. Hylton. 2 cr.

607. SMALL ANIMAL DISEASES
Common diseases in pets including dogs, cats, monkeys, rodents, birds, and aquarium fish. Mr. Stackhouse. Lab. 2 cr.

614. DISEASES AND PARASITES OF WILDLIFE
A survey of the diseases and parasites of fishes, birds, and game and fur-bearing animals. Control of diseases by management practices; effect of pesticides on wildlife; the relationship of wildlife diseases to human health; autopsy techniques, handling of specimens, and use of state lab facilities. Prereq: permission. Mr. Strout, staff. Lab. 4 cr.

616. EQUINE PODOLOGY
The structure and function of the appendicular skeleton, emphasis placed on the conformation of each segment of normal and abnormal limbs. Staff. Lab. 4 cr.
617-618. LIGHT HORSE CLINIC
Bandaging and restraint on actual clinical problems from the University herd. May be elected for two semesters. Mr. Hylton. 2 cr.

651-652. MANAGEMENT OF DOMESTIC ANIMALS
The economic and management factors of the production of various species. Student may select any or all of specialized areas following: 651-1. Light Horses; 651-2. Dairy, Mr. Holter; 652-3. Livestock, Mr. G.L. Smith; 652-4. Poultry, Mr. Skoglund. Prereq: permission. Lab. 4 cr.

653-654. PRINCIPLES OF TEACHING EQUITATION
Teaching-techniques and procedures with emphasis on dressage; opportunity to teach riding theory and techniques to other students under supervision of instructor. Must be taken for two semesters. Prereq: AnSc 402, 507, and 651-1; permission. $80 fee. Ms. Briggs. Lab. 4 cr.

697. ANIMAL SCIENCE SEMINAR
Survey: recent literature and research. Staff. 2 cr.

701. PHYSIOLOGY OF REPRODUCTION
Physiology, embryology, endocrinology, reproduction, and lactation in domestic animals. Mr. Condon. Lab. 4 cr.

702. EXPERIMENTAL ENDOCRINOLOGY OF REPRODUCTION
AND LACTATION
The hormonal control of the estrous cycle; pregnancy and mammary gland growth and lactation; current experimental data. Prereq: AnSc 701. Mr. Condon. Lab. 4 cr.

709. BIOCHEMISTRY OF NUTRITION
Intermediary metabolism of nutrients and energy; metabolism transport mechanisms; biological oxidations; interrelationships of carbohydrate, fat, and protein metabolism; obesity; control of hunger and appetite. Prereq: college course in biochemistry. (Also offered as HEC 709.) Mr. Repka. Lab. 4 cr.

710. RUMINANT NUTRITION
Feeding and management of dairy animals; calf feeding, raising young stock, feeding for economical milk production. Mr. Holter. Lab. 4 cr.

711. COMPARATIVE ANIMAL GENETICS
How heredity affects domestic animals, poultry, other mammals, and fish; emphasis on the organism and population. Quantitative inheritance; principles of selection; disease resistance; statistical and experimental techniques. Prereq: 4 cr. of genetics/or permission. Mr. Collins. Lab. 4 cr.

712. ANIMAL BREEDING AND IMPROVEMENT
Population genetics and selection with emphasis on the application of these principles to effect genetic improvement in dairy cattle, livestock, and horses. Prereq: AnSc 711. Mr. Fairchild. (Not offered every year.) Lab. 4 cr.

714. INTRODUCTION TO ELECTRON MICROSCOPY
Principles and methods used in preparing and examining vertebrate, invertebrate, microbial, viral, plant, and physical specimens in the electron microscope. Theory and application of fixation and embedding procedures, ultramicrotomy, operation of the electron microscope, and special techniques such as autoradiography and ultrastructural histochemistry. Prereq: permission; general chemistry. Mr. Wight. Lab. 4 cr.

795-796. INVESTIGATIONS IN DAIRY, LIVESTOCK, POULTRY

Anthropology (Anth)
(See Sociology and Anthropology)

The Arts (Arts)
Chairperson: Arthur Balderacchi

PROFESSORS: George R. Thomas, emeritus; John W. Hatch, John Laurent, Melvin J. Zabarsky
ASSOCIATE PROFESSORS: Sigmund Abeles, Arthur Balderacchi, Conley Harris, Richard D. Merritt, Winifred Shaw, Daniel L. Valenza
ASSISTANT PROFESSORS: Morton C. Abromson, Bruno Civitico, Margot Clark, Michael McConnell, Shirley Zavin
VISITING ASSISTANT PROFESSOR: Lincoln Perry
ADJUNCT ASSISTANT PROFESSOR: Susan Faxon
INSTRUCTORS: David S. Andrew, Maryse Searls

Courses in the Department of The Arts are designed to support degree programs: B.A. and B.F.A.
Two-Dimensional Courses  
(All courses elective by permission of the Department of The Arts.)

432. DRAWING I  
Lab. 4 cr.

532. DRAWING II  
Prereq: Arts 432. Lab. 4 cr.

533. DRAWING III  
Prereq: Arts 532. Lab. 4 cr.

534. DRAWING IV  
Prereq: Arts 533. Lab. 4 cr.

The above courses are sequential drawing experiences, from the basic elements of line, form, space, etc. in various drawing media, concentrating on still-life and figure and leading to conceptual exercises with emphasis on the individual's drawing development.

455. ARCHITECTURAL DRAFTING AND DESIGN  
Study of architectural symbols and interpretation of architectural plans. Problems in architectural design. Lab. 4 cr.

536. INTRODUCTORY PRINTMAKING  
Graphic arts in a range of media. Prereq: Arts 532. Lab. 4 cr.

542. OIL PAINTING I  
Prereq: Arts 432. Lab. 4 cr.

547, 548. OIL PAINTING II  
Prereq: Arts 542. Lab. 4 cr.

643, 644. OIL PAINTING III  
Prereq: Arts 547, 548. Lab. 4 cr.

The above courses are sequential painting experiences. Aspects of composition, color, and conceptualization.

544. WATER MEDIA I  
Transparent and opaque water color. Prereq: Arts 542. Lab. 4 cr.

551. PHOTOGRAPHY I  
Theory and practice of black and white creative photography. Prereq: Arts 432. Lab. 4 cr.

636, 637. PRINTMAKING WORKSHOP  
Prereq: Arts 536. Lab. 4 cr.

645. WATER MEDIA II  
Continuation of Water Media I and introduction to other water based media. Prereq: Arts 544. Lab. 4 cr.

651. PHOTOGRAPHY II  
Theory and practice of creative color photography. Camera and laboratory manipulative methods in black and white and/or color. Prereq: Arts 551. Lab. 4 cr.

751. PHOTOGRAPHY III  
Application of new materials and methods. Prereq: Arts 651. Lab. 4 cr.

796. INDEPENDENT STUDY IN THE VISUAL ARTS  
1) Photography; 2) Sculpture; 3) Drawing; 4) Painting; 5) Graphics; 6) Water Media; 7) Drafting and Architectural Design; 8) Art Education; 9) Curatorial Assistant; 10) Art History; 11) Ceramics; 12) Jewelry and Metalsmithing; 13) Weaving; 14) Wood Design. Prereq: permission. Hours to be arranged. Credits to be arranged. May be repeated to a total of 8 credits. Variable cr.

798. SEMINAR/SENIOR THESIS  
Readings and discussions oriented toward the intellectual premises of art. Culminates in mounting an exhibition of the student's work. Required of all students in the BFA program. Other advanced students may elect with instructor's permission. Lab. 8 cr.

Three-Dimensional Courses  
(All courses elective by permission of the Department of The Arts)

501. CERAMICS I  
Principles and materials of ceramics. Prereq: Arts 432. Lab. 4 cr.

513. JEWELRY AND METALSMITHING I  
Principles and materials of jewelry and metalsmithing. Lab. 4 cr.

519. WEAVING I  
Principles and materials of weaving. Lab. 4 cr. (A section of this course is offered for 2 credits for Occupational Therapy majors only. No prerequisite.)

525. WOODWORKING  
Principles and materials of woodworking. Prereq: Arts 432. Lab. 4 cr. (A section of this course is offered for Occupational Therapy majors only. No prerequisite.)

567. SCULPTURE I  
Principles and materials of sculpture. Prereq: Arts 432. Lab. 4 cr.

598. SPECIAL PROBLEMS IN THE VISUAL ARTS  
Special problems in the visual arts. Topics and prerequisites to be announced prior to preregistration. Prereq: permission. Lab. 4 cr.
601, 602. CERAMICS II AND III
Studio research into technical and aesthetic solutions of contemporary problems. Prereq: Arts 501. Lab. 4 cr.

613, 614. JEWELRY AND METALSMITHING II AND III
Design and construction of small-scale objects. Prereq: Arts 513. Lab. 4 cr.

619. WEAVING II
Four and eight harness weaves; double weave and 3-D fiber constructions. Prereq: Arts 519. Lab. 4 cr.

625, 626. WOOD/FURNITURE DESIGN
Studio design and construction of major furniture forms. Prereq: Arts 525. Lab. 4 cr.

668, 669. SCULPTURE II AND III
Studio research into technical and aesthetic solutions of contemporary problems. Prereq: Arts 567. Lab. 4 cr.

701. CLAY AND GLAZE FORMULATION
Prereq: Arts 601 and 602. Lab. 4 cr.

725. WOOD/ENVIRONMENTAL DESIGN
Design and construction of human surroundings. Portfolio required. Topic announced prior to preregistration. Prereq: two 600-level studio courses in the 3-D discipline. Lab. 4 cr.

767. CASTING
Study with cast bronze and aluminum sculpture. Prereq: two 600-level studio courses in the 3-D discipline. Lab. 4 cr.

768. SCULPTURE IV

See also Arts 796 and 798.

History of Art Courses

(Exemption from prerequisites by permission of instructor.)

431. VISUAL STUDIES
Appreciation and understanding of the visual arts. Works from variety of periods; emphasis on style, formal analysis, methods and materials of production. Related studio experience. 4 cr.

475. HISTORY OF WESTERN ART I
Major monuments from the Prehistoric through the Gothic period. 4 cr.

476. HISTORY OF WESTERN ART II
Painting, sculpture, and architecture from the Renaissance to the present. Arts 475 is not a prerequisite. 4 cr.

575. GREEK AND ROMAN ART
Painting, sculpture, and architecture of ancient Greece and Rome from approximately 1500 B.C. to 315 A.D. Prereq: Arts 475. 4 cr.

577. EARLY MEDIEVAL ART

578. ROMANESQUE AND GOTHIC ART
Art in western Europe from the 11th to the 15th century. Painting and the minor arts; major emphasis on architecture and sculpture. Prereq: Arts 475, 4 cr.

580. NORTHERN RENAISSANCE ART
Painting, sculpture, and graphic arts in France, Germany, Austria, and the Lowlands from the 14th through the 16th century. Prereq: Arts 476. 4 cr.

582. ITALIAN RENAISSANCE ART I
Painting, sculpture, and architecture of the Trecento and Quattrocento; Giotto, Masaccio, Piero della Francesca, Alberti, Brunelleschi, Ghiberti, Donatello, Mantegna, and Bellini. Prereq: Arts 476. 4 cr.

583. ITALIAN RENAISSANCE ART II

585. BAROQUE ART IN SOUTHERN EUROPE
Painting, sculpture, and architecture in Italy in the 17th and 18th centuries; 17th century painting in Spain. Prereq: Arts 476. 4 cr.

586. BAROQUE ART IN NORTHERN EUROPE
Painting, sculpture, and architecture in France in the 17th and 18th century; 17th century painting in the Lowlands; English and Bavarian architecture. Prereq: Arts 476. 4 cr.

588. 19th CENTURY ART
Principal developments in painting, sculpture, and architecture from David through Cezanne. Prereq: Arts 476. 4 cr.

589. 20th CENTURY ART
Principal developments in painting, sculpture, and architecture from the 1890's through the 1960's. Prereq: Arts 476. 4 cr.
Biochemistry

591. MODERN ARCHITECTURE
Major trends in European and American architecture and city planning since the mid-19th century; directions in contemporary architecture. Visits to contemporary buildings and with architects in the area. Prereq: Arts 475 or 476. 4 cr.

593. AMERICAN ART
A chronological survey of painting and sculpture in the United States from the Colonial period to the present. Prereq: Arts 476. 4 cr.

594. AMERICAN ARCHITECTURE
From earliest Colonial times to the present; field trips in New Hampshire, Massachusetts, and Maine. Prereq: Arts 475 or 476. 4 cr.

597. INTRODUCTION TO NON-WESTERN ART
Origins of art in pre-history. Evolution of pictorial and sculptural images in primitive cultures and the Orient; concentration on the development of pictorial art in China and Japan. (Not offered every year.) 4 cr.

675. SEMINAR IN MEDIEVAL ART
Topics will vary; announced prior to registration. Prereq: permission. 4 cr.

676. SEMINAR IN RENAISSANCE AND BAROQUE ART
Topics will vary; announced prior to registration. Prereq: permission. 4 cr.

677. SEMINAR IN MODERN ART
Topics will vary; announced prior to registration. Prereq: permission. 4 cr.

678. SEMINAR IN AMERICAN ARCHITECTURE
Topics in the history and practice of architecture in America from early Colonial times to present; announced prior to registration. Prereq: permission. 4 cr.

699. MUSEUM STUDIES
Introduction to museum practices. History of museums: their purposes, organization, interpretation, policies, and procedures. Use of University Art Galleries, visits to other museums, lecturers. Prereq: two courses in Art History and permission. 4 cr.

See Arts 796.

Art Education Courses
(All courses elective by permission of the Department of The Arts)

493. INTRODUCTION TO ART EDUCATION
Contemporary programs in art, school practices, materials, and methods of teaching. 4 cr.

791-792. VISUAL EDUCATION
Philosophy, purpose, and objectives of art teaching in schools, grades K-12. Curriculum development, in-school experiences. Lab. 4 cr.

See also Arts 796.

Biochemistry (Bchm)
Chairperson: Gerald L. Klippenstein

PROFESSORS: Stanley R. Shimer, emeritus; Donald M. Green, Edward J. Herbst, Miyoshi Ikawa, Samuel C. Smith, Arthur E. Teeri

ASSOCIATE PROFESSORS: Gerald L. Klippenstein, James A. Stewart

402. BIOCHEMISTRY AND MAN
Of interest to all students; examines the biochemical principles man uses to modify his environment and existence, and the biochemical basis of disease treatment and prevention, nutrition, industrial processing, food manufacturing, and pollution and its control. Mr. Green. Prereq: secondary school level general chemistry. 4 cr.

501. BIOLOGICAL CHEMISTRY
Includes an introduction to organic chemistry. Prereq: one semester of chemistry or equivalent. Students receiving credit for Bchm 501 may not receive credit for Bchm 601. Mr. Teeri. Lab. 4 cr.

601. GENERAL BIOCHEMISTRY
The general principles. Prereq: organic chemistry. Students receiving credit for Bchm 601 may not receive credit for Bchm 501. Mr. Ikawa. Lab. 4 cr.

656. PHYSIOLOGICAL CHEMISTRY AND NUTRITION
Mammalian biochemistry with emphasis on the human. Lab study includes procedures basic to chemical methods of medical diagnosis. Prereq: organic chemistry. Mr. Mr. Teeri. Lab. 4 cr.

699. SENIOR THESIS
Research in biochemistry for senior majors who have completed a course in biochemistry. 2 cr.
702. COMPARATIVE MARINE BIOCHEMISTRY
Nutrition, metabolism, and composition of marine organisms and relation to phylogeny; marine natural products. Mr. Iwao. Prereq: Bchm 601 or equivalent. (Not offered every year.) 3 cr.

721. NEUROCHEMISTRY
The biochemistry of the nervous system; metabolism and alterations of normal brain chemistry by drugs, chemicals, nutrition, memory, and learning; pathological changes. Mr. Stewart. Prereq: a biochemistry course. (Not offered every year.) 3 cr.

751-752. PRINCIPLES OF BIOCHEMISTRY
Fundamental biochemistry; chemistry, metabolism, and biological function of nucleic acids, proteins, carbohydrates, and lipids. Prereq: organic chemistry/or permission. Mr. Klippenstein and Mr. Stewart. Lab. 4 cr.

760. ENZYME CHEMISTRY
Structure, properties, and function of enzymes; kinetics and mechanisms of enzyme-catalyzed reactions; purification, characterization, and assay of enzymes. Mr. Klippenstein. Prereq: Bchm 601 or 751. (Not offered every year.) Lab. 4 cr.

770. BIOCHEMICAL GENETICS
The mechanisms of storage, replication, transmission, transcription, recombination, mutation, and expression of genetic information by cells and viruses. Mr. Green. Prereq: Bchm 751/or permission. (Not offered every year.) Lab. 4 cr.

781. THE NUCLEIC ACIDS
Chemistry and metabolism of nucleic acids; molecular structures, purification and separation, biosynthesis, and biological functions. Mr. Herbst. Prereq: organic chemistry; biochemistry. 3 cr.

795, 796. INVESTIGATIONS IN BIOCHEMISTRY
Prereq: permission. Subject matter and hours to be arranged. 2 cr.

Biology (Biol)
See additional course descriptions under Animal Sciences, Biochemistry, Botany, Entomology, Forest Resources, Microbiology, Plant Sciences, and Zoology.

401. HUMAN BIOLOGY
Elementary study of structure, function and development of all systems of the body. No credit toward major or minor. Cannot be taken for credit after Zool 507-508. 4 cr.

402. MAN AND HIS ENVIRONMENT
Basic interrelationships between organisms and populations and their environments; ecosystems; man's modification of his environment and its consequences. No credit toward a major or minor. Students with credit for Biol 541 or 641 cannot receive credit for Biol 402. 4 cr.

403. THE LIVING WORLD
General survey of plant and animal kingdoms; elementary principles of heredity, evolution, and ecology. No credit toward a major or minor. 4 cr.

404. HEREDITY AND MAN
Genetic basis for variation in human inheritance; normal and abnormal chromosome complements, genetic diseases, and genetic material in evolution. No credit toward a major or minor. Students with credit for Zool 604 cannot receive credit for Biol 404. 4 cr.

407. CONCEPTS IN CELL BIOLOGY
An experimental and historical approach; emphasis on cell structures which play an important role in the development of the adult organism from the egg. The philosophy and practical limitations of research in biology will be considered. No credit toward a major or minor. (Not offered every year.) 4 cr.

409. HUMAN REPRODUCTIVE BIOLOGY
Aspects of human sexuality from anatomical, physiological, and other viewpoints. No credit toward a major or minor. 4 cr.

420. MAN, NATURE, AND DISEASE
Ecology of human disease; role of disease in history; biological, social, and economic problems involved in eradication and control. Particular attention to diseases that still account for serious sickness and mortality in overpopulated, underdeveloped countries. No credit toward a major or minor. 4 cr.

541. GENERAL ECOLOGY
Interrelationships between organisms and their physical environment; populations, communities, the ecosystem, energy flow. Prereq: introductory chemistry; Bot 411; Zool 412/or equivalent. 4 cr.

543. FIELD ECOLOGY
Consideration of ecological principles by inquiry in natural habitats and in the laboratory. Prereq: Math 425, statistics, or equivalent; present or prior enrollment in Biol 541; permission. Lab. 2 cr.

791. PROBLEMS IN THE TEACHING OF HIGH SCHOOL BIOLOGY
Objectives and methods; selection and organization of materials, preparation of visual aids and other projects; use of field trips. Prereq: two years of biological science; permission. 4 cr.
Botany and Plant Pathology

Botany and Plant Pathology (Bot)
Chairperson: A. Linn Bogle

PROFESSORS: Stuart Dunn, emeritus; Charlotte G. Nast, emeritus; Arthur Mathieson, Avery Rich, Richard Schreiber

ADJUNCT PROFESSORS: Alex L. Shigo, John M. Kingsbury

ASSOCIATE PROFESSOR: A. Linn Bogle

ASSISTANT PROFESSORS: Alan L. Baker, Garrett Crow, Robert Blanchard, Russell Kinerson, William MacHardy, Subhash Minocha

ADJUNCT ASSISTANT PROFESSOR: Walter C. Shortle

411. GENERAL BOTANY
Introduction to plant biology. Evolution of structure and function in the plant kingdom. Equivalent to Bot 412. Cannot be taken for credit if credit received for Bot 412. Mr. Schreiber. Lab. 4 cr.

412. INTRODUCTORY BOTANY
All groups of plants; growth, development, and environmental responses. Equivalent to Bot 411. Cannot be taken for credit if credit received for Bot 411. Staff. Lab. 4 cr.

503. THE PLANT WORLD
Survey of the plant kingdom from an evolutionary point of view; from
the bacteria to the flowering plants, tracing the evolution of form,
structure, and function in, and the interrelationship of, the major plant
groups. Prereq: Bot 411 or 412, or equivalent with permission. Mr.
Bogle. Lab. 4 cr.

525. INTRODUCTION TO MARINE BOTANY
Life history, classification, and ecology of micro- and macroscopic
marine plants, including phytoplankton, seaweed, and salt marsh
plants, and the interactions between man and marine plant
communities. Occasional Saturday morning field trips. Prereq: Bot 411 or
412; a semester of biology/or permission. Staff. Lab. 4 cr. (Summer
session only.)

566. SYSTEMATIC BOTANY
Scientific basis of plant taxonomy and identification and classification
of native trees, shrubs, and wild flowers. Prereq: one semester of
biological science. Mr. Crow. Lab. 4 cr.

606. PLANT PHYSIOLOGY
Function of higher plants: water relations, metabolism, growth, and
development. Prereq: Bot 411, 412, 503, or PISC 421; and one year of
chemistry/or permission. Mr. Minocha, Mr. Pollard. Lab. 4 cr.

666. SUMMER FLORA OF NEW HAMPSHIRE
Study of the flora of New Hampshire with an indepth look at the major
vegetation types. Field work will include trips to study flora of forests,
dunes, salt marshes, swamps, bogs, lakes, ponds, streams and alpine.
Prereq: basic botany or permission. Staff. 4 cr. (Summer session
only.)

717. GENERAL LIMNOLOGY
Special relationships of freshwater organisms to the chemical, physi-
cal, and biological aspects of their environment; factors regulating
their distribution; and the primary and secondary productivity of
lakes. Prereq: Biol 541 or equivalent. Mr. Baker, Mr. Haney. 4 cr.

719. FIELD LIMNOLOGY
Principles of freshwater ecology, from a variety of habitats; the
methods used to study lakes and interpretations of data. Occasional
Saturday field trips. Prereq: prior or simultaneous enrollment in Bot
717; permission. Mr. Baker and Mr. Haney. Lab. 3 cr.

721. THE MICROSCOPIC ALGAE
Survey of phytoplankton and periphyton in local marine and fresh-
water habitats. Identification, systematic, and evolution. Class and
individual collection trips. Prereq: Bot 411, 412, or 503. Mr. Baker.
Lab. 4 cr.

722. MARINE PHYCOLOGY
The identification, classification, ecology, and life histories of the
major groups of marine algae, particularly the benthonic marine
algae of New England. Periodic field trips. Prereq: Bot 411, 412, or
503. Mr. Mathieson. (Not offered every year.) Lab. 4 cr.

723. MARINE ALGAL ECOLOGY
Distribution, abundance, and growth of marine plants in relation to
their environment. Scheduled field trips and an independent re-
search project are required. Prereq: Bot 722, Zool 715, or permission.
Mr. Mathieson. (Not offered every year.) Lab. 4 cr.

724. FRESHWATER ALGAL ECOLOGY
Survey of freshwater algal habitats; physiological explanation of ad-
vanced population models. Individual experimental projects. Prereq:
Bot 717 or 721/or permission. Mr. Baker. 4 cr.

730. MORPHOGENESIS
Principles of differentiation; internal and external factors in cellular
and organismic development. Prereq: Bot 606 or permission. Mr.
Minocha. Lab. 4 cr.

732. CELL BIOLOGY
Structure, behavior, and development of cells; the cellular basis of
heredity. Prereq: one year of biological science and chemistry. Mr.
Schreiber. 4 cr.
741. ECOSYSTEM ANALYSIS
Ecosystem structure and function; energy flow and biochemical cycles. Computer simulations of natural ecosystems. Prereq: Biol 541 or permission. Mr. Kinerson. Lab. 4 cr.

742. PHYSIOLOGICAL ECOLOGY
Physiological responses of plants to the physical environment; photosynthesis, water relations, mass and energy flow. Prereq: Bot 606 or permission. Mr. Kinerson. Lab. 4 cr.

747. AQUATIC HIGHER PLANTS
Flowering plants, fern relatives, and Bryophytes found in and about bodies of water in the northeastern United States; extensive field and herbarium work, preparation techniques, and collections. Prereq: Bot 566. Mr. Crow. (Not offered every year.) Lab. 4 cr.

751. PLANT PATHOLOGY
Nature, symptomatology, etiology, classification, and control of important plant diseases. Prereq: Bot 411 or 412, or equivalent. Mr. Rich. Lab. 4 cr.

752. MYCOLOGY
Parasitic and saprophytic fungi; growth, reproduction, and identification; preparation of pure cultures. Prereq: Bot 411 or 412, or equivalent. Mr. Blanchard. (Not offered every year.) Lab. 4 cr.

753. FOREST PATHOLOGY
Principles, etiology, epidemiology, and control of forest and shade tree diseases. Prereq: Bot 411 or 412, or equivalent. Mr. Blanchard. Lab. 4 cr.

754. PRINCIPLES OF PLANT DISEASE CONTROL
Exclusion, eradication, protection, immunization, and the specific practical methods used to control plant diseases. Prereq: Bot 751 or 753. Mr. MacHardy. (Not offered every year.) Lab. 4 cr.

758. PLANT ANATOMY
Anatomy of vascular plants, emphasizing structure and development of basic cell and tissue types, and of the major plant organs. Prereq: Bot 411 or 412; or 503. Mr. Bogle. (Not offered every year.) Lab. 4 cr.

761. PLANT GEOGRAPHY
The distribution of plants, a consideration of vegetation types and floras, and problems of endemism with emphasis on North America; the major influential factors such as geologic, climatic, edaphic, and biotic. The major contributions from Humboldt to the present time. Prereq: Bot 566 or permission. Mr. Crow. (Not offered every year.) 4 cr.

762. MORPHOLOGY OF THE VASCULAR PLANTS
Comparative form and structure of the major living and extinct groups; evolutionary modifications of the vegetative and reproductive organs, and the basic life history pattern. Prereq: Bot 411, 412, or 503. Mr. Bogle. (Not offered every year.) Lab. 4 cr.

764. MICROTECHNIQUE
Methods of preserving cell and tissue structure, embedding, sectioning, and staining plant tissues, and an introduction to microscopy. Prereq: permission. Mr. Bogle. Lab. (Not offered every year.) 4 cr.

795-796. INVESTIGATIONS IN:

Chemical Engineering (ChE)

Chairperson: Stephen S.T. Fan

PROFESSORS: Irvin Lavine, emeritus; Oswald T. Zimmerman, emeritus; Stephen S.T. Fan

ASSOCIATE PROFESSOR: Gail D. Ulrich

ASSISTANT PROFESSORS: Ihab H. Farag, Virendra K. Mathur, Charles E. Wyman

410. SURVEY OF CURRENT ENERGY AND POLLUTION ISSUES
Energy supply in this country and the world; conventional fuel reserves: coal, oil, natural gas; alternative sources: nuclear, solar, geothermal etc. Forecasts and strategies to meet needs. Environmental pollution, sources, and economic and environmental impacts. Methods for pollution control. Regulatory standards for environmental protection. Prereq: good background in high school chemistry. 4 cr.

501. INTRODUCTION TO CHEMICAL ENGINEERING I
Overview of the profession. Systems of units; material balances and chemical reactions; gas laws; phase phenomena. 3 cr.

502. INTRODUCTION TO CHEMICAL ENGINEERING II
Energy and material balances for simple and complex systems with and without chemical reactions. 3 cr.

601. FLUID MECHANICS AND UNIT OPERATIONS
Continuity, momentum, and energy equations; laminar and turbulent flow in pipes; rheology. Applications to flow in porous media, filtration, and fluidization. Lab. 4 cr.
602. HEAT TRANSFER AND UNIT OPERATIONS
Thermal properties of materials, steady-state and transient conduction and convection; radiation; applications to heat exchangers and process equipment. Lab. 4 cr.

603. APPLIED MATHEMATICS FOR CHEMICAL ENGINEERS
Mathematical modeling and analysis of chemical engineering problems. Analytical methods for first- and second-order differential equations; numerical solutions; Series solutions; Bessel function; Laplace transforms; matrix algebra. Interpretation and solution of partial differential equation. Lab. 4 cr.

604. CHEMICAL ENGINEERING THERMODYNAMICS
Volumetric and phase behavior of ideal and real gases and liquids; cycles; steady-flow processes; chemical equilibrium. Lab. 4 cr.

605. MASS TRANSFER AND STAGEWISE OPERATIONS
Diffusion in gases, liquids, and solids; design and analysis of distillation, absorption, adsorption, extraction and other stagewise equipment and operations. Lab. 4 cr.

606. CHEMICAL ENGINEERING KINETICS
Use of laboratory data to design commercial reactors. Continuous, batch, plug-flow, and stirred-tank reactors for homogeneous and catalytic multiphase reactions. Lab. 4 cr.

608. CHEMICAL ENGINEERING DESIGN
Introduction to cost engineering. Application of acquired skills to design of chemical processes. Individual, major design project required. Lab. 4 cr.

609. FUNDAMENTALS OF AIR POLLUTION AND ITS CONTROL
Sources, pollutant transfer, and effects. Regulatory, administrative, legal, and social aspects; engineering control. 4 cr.

605. NATURAL AND SYNTHETIC FOSSIL FUELS

612. INTRODUCTION TO NUCLEAR ENGINEERING
Development of nuclear reactors; basic binding-energy physics; radioactivity; elements of nuclear reactor theory; engineering problems of heat transfer, fluid flow, materials selection, and shielding; environmental impacts. 4 cr.

705. INTRODUCTION TO PROCESS SIMULATION AND OPTIMIZATION

772. PHYSICOCHEMICAL PROCESSES FOR WATER AND AIR QUALITY CONTROL
Origin and characterization of pollutants. Controls, including filtration, sedimentation, coagulation and flocculation, absorption, and adsorption. Applied fluid mechanics, mass transfer, and kinetics. Thermal pollution, chemical treatment, oil spills on water, and aeration. Lab. 4 cr.

Chemistry (Chem)
Chairperson: C.L. Grant

ASSOCIATE PROFESSORS: N. Dennis Chasteen, David W. Ellis, Colin D. Hubbard, Charles W. Owens, James H. Weber
ASSISTANT PROFESSOR: W. Rudolf Seitz

*401-402. GENERAL CHEMISTRY
Elementary, nonmathematical, broad view of chemistry including laboratory work. For students who intend to take no additional chemistry course, students whose major department requires this course, and those interested in satisfying a science requirement. Cannot be used as a prerequisite for other chemistry courses without the permission of the chemistry department. Lab. 4 cr.

*Students may receive credit for only one course from 401, 403, 405, and 409 and for only one course from 402, 404, 410.
403-404. GENERAL CHEMISTRY
Fundamental laws and concepts; non-metals and metals and their compounds. Theoretical principles are illustrated by lecture demonstrations; the applications of chemistry in the professions are explained. For students who plan to take further chemistry courses. Lab. 4 cr.

405. INTRODUCTORY CHEMISTRY
Discussion of the basic principles; atomic structure, bonding, equilibria, and thermodynamics. First course for chemistry majors. Prereq: one year of high school chemistry. Cannot be taken for credit if credit received for Chem 403-404. Lab. 4 cr.

406. QUANTITATIVE ANALYSIS
Studies of pollution, environmental problems, and the more traditional professional work in chemistry rely heavily on a sound knowledge of analytical chemistry. Principles and techniques of chemical analysis, normally followed by a more advanced course in instrumental methods of chemical analysis. (Students must register for 407 concurrently.) Prereq: Chem 404 or 405. 3 cr.

407. QUANTITATIVE ANALYSIS LABORATORY
Techniques of weighing and titration and of gravimetric and volumetric analysis; instrumental methods of analysis. Treatment of data, error analysis, and calculations of results. (Must be taken concurrently with 406.) Lab. 2 cr.

409-410. BACKGROUND OF CHEMICAL IDEAS
Present-day chemical theories in their historical and philosophical context; their relationships to other fields of human thought. Class discussion and concentrated study of topics of interest to students. Cannot be used as prerequisite for other chemistry courses. 4 cr.

517. QUANTITATIVE ANALYSIS
For students planning careers in medicine, dentistry, plant and animal science, nursing, oceanography, and environmental science. Gravimetric, volumetric, and instrumental methods. Prereq: Chem 404 or 405. (Students must take 518 concurrently.) 3 cr.

518. QUANTITATIVE ANALYSIS LABORATORY
Gravimetric and volumetric determination; separations; and selected instrumental methods such as pH and potentiometry, spectrophotometry, atomic absorption, and gas chromatography. (Students must register for 517 concurrently.) Lab. 2 cr.

545. ORGANIC CHEMISTRY
Introductory study of carbon compounds for those who desire a brief terminal course. Prereq: Chem 404 or 405. Elective for medical technology, nursing, and majors in botany. (546 must be taken concurrently.) Students receiving credit for Chem 545 may not receive credit for Chem 402, 547-548, or 651-652. 3 cr.

546. ORGANIC CHEMISTRY LABORATORY
(Must be taken concurrently with 545.) Lab. 2 cr.

547-548. ORGANIC CHEMISTRY
Principal classes of organic compounds, aliphatic and aromatic, class reactions and structural theory. Intended primarily for chemistry and biochemistry majors. Prereq: Chem 404 or 405 or permission of instructor. (549-550 must be taken concurrently.) Students receiving credit for Chem 547-548 may not receive credit for either Chem 545 or 651-652. 3 cr.

549-550. ORGANIC CHEMISTRY LABORATORY
(Must be taken concurrently with 547-548.) Lab. 2 cr.

651-652. ORGANIC CHEMISTRY
Principal classes of organic compounds, aliphatic and aromatic, class reactions and structural theory. Laboratory: preparation and purification of selected organic compounds. Intended primarily for prehealing-arts, biological science, and health science students. Prereq: Chem 404 or 405 or permission. (653-654 must be taken concurrently.) Students receiving credit for Chem 651-652 may not receive credit for either Chem 545 or 547-548. 3 cr.

653-654. ORGANIC CHEMISTRY LABORATORY
(Must be taken concurrently with 651-652.) Lab. 2 cr.

663. INTRODUCTORY RADIOCHEMICAL TECHNIQUES
Techniques and laboratory practice in the use of apparatus in many fields of science using radiochemical operations. Prereq: general inorganic chemistry and general physics. (Not offered every year.) Lab. 4 cr.

683-684. PHYSICAL CHEMISTRY I, II
The properties of gases, liquids, and solids; thermochemistry and thermodynamics; solutions, chemical equilibria, reaction rates, conductance, and electromotive force. Prereq: Math 426; Phys 407 or 402. Undergraduates must register for 685-686 concurrently. 3 cr.

685-686. PHYSICAL CHEMISTRY LABORATORY
Measurement of thermodynamic properties, chemical kinetics, and methods of determining the structure of matter. Prereq: Math 426; Phys 683-684 must be taken concurrently. Lab. 2 cr.

696. INDEPENDENT STUDY
For exceptional students. Individual reading, writing, or laboratory work carried out under the tutelage of a faculty member. The course may be used to replace specific required courses in chemistry. Prereq: approval of the adviser and department chairperson. Credits to be arranged.

ADVANCED ORGANIC CHEMISTRY
Methods of synthesis and determination of structure, including stereochemistry, of complex organic compounds. Laboratory: synthesis and structural determination of complex organic compounds, techniques for the separation, determination of purity, and identification of compounds by spectroscopic and chemical means. Prereq: Chem 548 or 652 or equivalent. (Students must register for 756 concurrently.) 3 cr.

ADVANCED ORGANIC CHEMISTRY LABORATORY
(Must be taken concurrently with 755 by Chem majors.) Lab. 2 cr.

INSTRUMENTAL METHODS OF CHEMICAL ANALYSIS
Theory, instrumentation, and application of methods such as atomic absorption, conductimetry, coulometry, emission spectrophotography, gas chromatography, polarography, potentiometry, and spectrophotometry to chemical analysis. Prereq: Chem 406; Chem 684 as a pre- or corequisite or permission. (Students must register for 763 concurrently.) 3 cr.

INSTRUMENTAL METHODS OF CHEMICAL ANALYSIS LABORATORY
Experimental parameters, error analysis, and applications of the methods covered in Chem 762. (Must be taken concurrently with 762.) Lab. 2 cr.

INORGANIC CHEMISTRY
Basic theoretical concepts and their applications to inorganic reactions and compounds. Prereq: Chem 683; Chem 684 pre- or corequisite/or permission. (Undergraduates must take 775 concurrently.) 3 cr.

INORGANIC CHEMISTRY LABORATORY
Synthesis and characterization of inorganic compounds with an emphasis on techniques not taught in other laboratory courses. (Undergraduates must take 774 concurrently.) Lab. 2 cr.

PHYSICAL CHEMISTRY III
Quantum theory; spectroscopy; chemical bonding; statistical thermodynamics. Prereq: Chem 683. Lab. 4 cr.

CHEMISTRY OF LARGE MOLECULES
Basic chemistry of high-molecular-weight compounds, including synthetic polymers and substances occurring in living systems. Elementary aspects of the structures, syntheses, and properties of large molecules, and their roles in modern science, technology, and living systems. Prereq: one semester of organic chemistry. 4 cr.

Civil Engineering (CiE)
Chairperson: Paul L. Bishop

PROFESSORS: Charles O. Dawson, emeritus; Russell R. Skelton, emeritus; Tung-Ming Wang
ASSOCIATE PROFESSORS: Robert P. Vreeland, emeritus; Paul L. Bishop, Louis H. Klotz, Paul J. Ossenbruggen
ADJUNCT ASSOCIATE PROFESSOR: Gerald M. Batchelder
ASSISTANT PROFESSORS: David L. Gress, Dennis J. O'Brien
LECTURER: Edward J. Schmidt

CIVIL ENGINEERING LECTURES
An introduction to the profession; the civil engineer as a planner, builder, and problem solver; and the goals of the civil engineer curriculum. Lectures by faculty and visitors. Required of CiE freshmen; open to others by permission. 0 cr. Cr/F.

SURVEYING
For non-civil engineering students. Theory and use of tape, level, transit, and aerial photographs in making plane and topographic surveys; use of surveys as a basis for deeds, maps, construction, design, environmental studies; reports involving the use of land or other natural resources. Lab. 4 cr.

SURVEYING

ENGINEERING GRAPHICS
Orthographic projection and fundamentals of descriptive geometry. Lab. 2 cr.
525-526-527. MECHANICS I, II AND III
Static and dynamic behavior of rigid and deformable bodies. Equilibrium, compatibility, and force-deformation relations; stress, strain, and constitutive relations; elastic stability; energy methods, stress and deformation in materials and simple structural elements. Review of particle dynamics; kinematics and kinetics of rigid bodies in two and three dimensions. Prereq: Math 425; Phys 407. 3 cr.

621. TRANSPORTATION PLANNING AND DESIGN
Determining public transportation needs. Planning; the comparison and evaluation of alternative system modifications. Analysis of impacts of transportation facilities. Geometric design and traffic capacity of highways. Prereq: CiE major or permission. 3 cr.

622. ENGINEERING MATERIALS
The structural properties and applications of the various materials used in civil engineering work, including steel, cement, mineral aggregates, concrete, timber, and bituminous materials. Micro-structure and properties of common metals, plastics, and ceramics. Prereq: CiE 526. Lab. 4 cr.

623. SYSTEMS ANALYSIS
Quantitative and economic techniques for optimum allocation of resources in planning and design of physical systems. Calculus methods for constrained and unconstrained optimization problems, linear programming, dynamic programming, and benefit/cost economics. Case studies illustrate techniques in analyzing construction, structural, environmental, and transportation engineering problems. Prereq: Math 527 or equivalent. 3 cr.

642. FLUID MECHANICS
Properties of fluids, fluid statics, flow of incompressible and compressible ideal fluids, flow of real fluids, measurement of fluid properties, and the characteristics of flow through various measuring devices. Lab. 4 cr.

643. INTRODUCTION TO ENVIRONMENTAL POLLUTION CONTROL
Environmental engineering; causes and consequences of environmental pollution. Water pollution, air pollution, solid waste management, thermal pollution, radiological health, and occupational health. Prereq: Chem 403. 3 cr.

644. WATER AND WASTEWATER ENGINEERING
Fundamental design concepts for operations and processes used in water treatment and water pollution control. Prereq: CiE 643. 3 cr.

665. SOIL MECHANICS
Soil classification and physical properties. Permeability, compressibility, bearing capacity, settlement, and shear resistance are related to the behavior of soils subjected to various loading conditions. Prereq: CiE 622, 642. Lab. 4 cr.

681. STRUCTURAL ANALYSIS
The analytical stress and deflection analysis of determinate structures under static and moving load. Computer solution of beams and trusses by classical and matrix methods. Prereq: CiE 525-526. 4 cr.

682. STRUCTURAL DESIGN CONCEPTS
Structural synthesis and design; modeling concepts for analysis-design cycles by manual and computer approaches; development of design criteria; and general structural system behavior. Prereq: CiE 681. 4 cr.

685. INDETERMINATE STRUCTURES
Analysis of indeterminate structures; non-prismatic members subject to static and moving loads. Solution by classical, numerical, and computer applied methods. Prereq: CiE 681. 4 cr.

695. CIVIL ENGINEERING PROJECTS
Independent research, under faculty guidance, of a subject of particular interest to an individual or a small group. Prereg: approval of faculty member involved. 2-4 cr.

711. COMMUNITY PLANNING
Student project course focusing on real community problems. Issues investigated such as, population growth, community needs, economic and legal problems. Land use models, survey techniques, and economic evaluation methods. Prereq: senior standing; permission. A year long course; 2 credits each semester. "IA" grade (continuous course) will be given at the end of the first semester. 4 cr.

714. CONTRACTS, SPECIFICATIONS, AND PROFESSIONAL RELATIONS
Essential elements and legal requirements of engineering contracts; purposes and content of specifications; professional conduct, relations, registration, and ethics. Construction planning and management; cost analysis based on quantity surveys and unit-cost methods. Prereq: permission. 3 cr.
Civil Engineering

721. PAVEMENT DESIGN
Flexible and rigid pavements and bases for highways, airports, and city streets; pavement selection, construction methods, materials, specifications, and engineering cost estimates. Prereq: CiE 665. 3 cr.

731. NETWORK PLANNING AND SCHEDULING
Application of critical path methods (CPM) and project evaluation review technique (PERT) to the design and control of engineering projects. Lab. 2 cr.

743. ENVIRONMENTAL SAMPLING AND ANALYSIS
Laboratory exercises in the techniques of water, wastewater, and solid-waste sampling and analysis. Interpretation of results from pollution surveys and operation of pollution control facilities; statistics of sampling and statistical evaluation of analytical data. Prereq: CiE 643;/or permission. Lab. 2 cr.

745. HYDROLOGY AND HYDRAULICS
Occurrence and physical effects of water on the earth; meterology, ground-water runoff and stream-flow routing, open-channel flow, reservoirs, control works, hydroelectric power, irrigation, drainage, and multipurpose projects. Prereq: CiE 642. 3 cr.

746. WASTEWATER TREATMENT PLANT DESIGN
Choice of treatment units. Design of the components; preparation of a plan for a particular city that includes a suitable combination of the units previously designed. Prereq: CiE 644. 3 cr.

748. SOLID WASTE DISPOSAL
Basic concepts and theory of collection and disposal systems. Design methods involved in disposal systems. Prereq: CiE 643;/or permission. 3 cr.

749. CHEMISTRY OF NATURAL WATERS

751. TRANSPORTATION PLANNING
Transportation demand forecasting techniques applied to regional and urban situations. Calibration and use of mathematical models for forecasting land use, trip generation, trip distribution, modal choice, and trip assignment. Prereq: permission. 3 cr.

752. TRAFFIC ENGINEERING
Statistical and probabilistic methods to analyze and design roadway facilities. Level of service and capacity analysis of roadways under uninterrupted and interrupted flow conditions. Queuing theory and simulation models design of traffic facilities. Prereq: permission. 3 cr.

763. ADVANCED SOIL MECHANICS !
The physical and mechanical properties of soil in relation to engineering structures. The theory of consolidation, shearing resistance, bearing capacity, settlement, slope stability, earth pressure, and seepage studies. Prereq: permission. 4 cr.

765. FOUNDATION ENGINEERING
Application of the principles of soil mechanics to selection of the type of substructure; determination of allowable soil-bearing capacities based on rupture and settlement theories; determination of active and passive earth pressures; and foundation construction methods. Prereq: CiE 665, 682, and senior standing. 4 cr.

768. SEEPA GE THROUGH EARTH STRUCTURES
Groundwater flow, Darcy's Law, flow nets, Depuit's theory and application, conformal mapping techniques, confined flow, flow through earth and rock structures, seepage towards wells. Prereq: CiE 642 and 665. 2 cr.

762. TIMBER DESIGN
Properties and characteristics of structural woods, mechanics of wood, connection methods, design of timber members, and connections in beams, columns, and trusses, and glued laminates of wood. Prereq: CiE 682; permission. 2 cr.

784. STRUCTURAL ANALYSIS BY MATRIX AND NUMERICAL METHODS
Unifying concept of basic structural analysis theories; matrix and numerical methods of analysis, and their application by linear graph concepts using computers. Prereq: CiE 685. 4 cr.

790. INELASTIC STRUCTURAL DESIGN
A continuation of modern design theory; ultimate design of reinforced concrete; plastic analysis of steel structures. 4 cr.

793, 794. ADVANCED STRUCTURAL DESIGN I AND II
Design in steel by elastic and plastic theories and in reinforced concrete by the working stress and ultimate strength methods for structural elements and connections using the appropriate controlling specifications. Prereq: CiE 682;/or permission. 4 cr.

795-796. INDEPENDENT STUDY
A limited number of qualified senior and graduate students will be permitted to pursue independent studies under faculty guidance. Seniors may write terminal theses reporting the results of their investigations. 2-4 cr.
660. SPECIAL PROBLEMS IN COMMUNICATION DISORDERS
Individual or group projects to enrich or expand theoretical knowledge and to afford an opportunity of applied experience. Permission and arrangement with faculty. May be repeated to a maximum of 8 credits. Variable 2, 4, 6, or 8 cr.

704. BASIC AUDIOLOGY
The normal hearing process and pathologies of the auditory system. Hearing screening, pure-tone testing, and speech audiometry. Prereq: Comm 521 or permission. 4 cr.

705. INTRODUCTION TO AUDITORY PERCEPTION AND AURAL REHABILITATION
Research, testing, and clinical procedures of auditory perception, applied to the communicatively impaired. Prereq: Comm 704; permission. 4 cr.

780. SEMINAR IN DIAGNOSIS OF SPEECH AND LANGUAGE DISORDERS
Principles and practice for diagnosis of speech and language disorders; examination procedures and measurement techniques. Prereq: Comm 632. 4 cr.

782. SEMINAR IN BEHAVIOR MODIFICATION OF SPEECH AND LANGUAGE DISORDERS
Application of operant-conditioning and desensitization procedures with communicative disorders. Analysis of therapy from a behavioral approach. Prereq: permission. 4 cr.

795. INDEPENDENT STUDY
Application of the theory to specific communication disorder areas for individual or group projects. Prereq: permission. May be repeated to a maximum of 8 credits. Variable 2, 4, 6, or 8 cr.
Continuing Education Career Option Courses

Continuing Education Career Option Courses (DCE)

Director of Division of Continuing Education: Edward J. Durnall

Additional career option courses appear under Administration, Secretarial Studies, and Merrimack Valley Branch Library Science. Consult the Associate in Arts Degree chapter, Degree Options section, for course numbers.

599. SPECIAL TOPICS
Occasional course offerings of specialized material in: A.A. career options; general studies topics for nontraditional learners; travel/study programs. Prereq: permission. 1-4 cr.

Banking

440. MONEY AND BANKING
American financial system. How money is created and affects economy. Monetary policy. Pre- or coreq: DCE 530 or Econ 401. (Not offered every year.) Not open to students who have had Econ 635. 4 cr.

441. BANK OPERATIONS
Cash management and control, clearing and collections operations, loan and deposit administration, internal audit, and ancillary services. Pre- or coreq: DCE 432 or Admin 502. (Not offered every year.) 4 cr.

540. BANK INVESTMENTS
Investment and portfolio analysis in relation to bank operations; constraints affecting liquidity, safety, and profitability; types of securities; optional timing of investment transactions. Prereq: DCE 440. (Not offered every year.) 4 cr.

Criminal Justice

550. CRIMINAL JUSTICE ADMINISTRATION AND ORGANIZATION
Contemporary methods of administrative practice for efficient use of personnel, facilities, and equipment; planning and research; budgeting and control; decision-making; communications. (Not offered every year.) 4 cr.

551. CRIME PREVENTION AND CONTROL
Coordinating the efforts of the community and criminal justice agencies. Problem-solving in specific crime analysis—the offense, the offender, and community environment. (Not offered every year.) 4 cr.

552. CORRECTIONS TREATMENT AND CUSTODY
Scientific diagnosis and treatment of offenders. Institutional administration methods—climate, personnel, structure, and procedure. (Not offered every year.) 4 cr.

Health Care Administration

500. INTRODUCTION TO HEALTH CARE SYSTEMS
Historical development and current structures; current legislation; private, voluntary, and governmental organizations; professional associations; standards, accreditation, certification, and licensure. (Not offered every year.) 4 cr.

501. THE HEALTH CARE SYSTEM IN THE COMMUNITY
Medical, personal, therapeutic, and supportive care; psychology of patients; interaction of the health care team; long-term and hospital-based care. (Not offered every year.) 4 cr.

502. MANAGEMENT OF HEALTH CARE FACILITIES
Environmental health, safety, and sanitation; local, state, and federal regulations; staff relationships and departmental organization. (Not offered every year.) 4 cr.

503. LEGAL AND FISCAL RESPONSIBILITIES FOR HEALTH CARE FACILITIES ADMINISTRATORS
State and federal rules, regulations, and standards affecting accountability. (Not offered every year.) 4 cr.

Insurance

420. PRINCIPLES OF INSURANCE
History, ethics, and the theory of risk. The major types of insurance. Operation and administration of an agency. 4 cr.

421. LIFE AND HEALTH INSURANCE
Insurance programs for the individual. History; types of contracts; legal concepts; and government, group, and individual programs. 4 cr.

422. PROPERTY, LIABILITY, AND MARINE INSURANCE
Fire, casualty, transportation, marine, and aircraft insurance; fidelity and surety bonds; workmen's compensation; underwriting, loss adjustment, and prevention; government regulations, rate making, and reinsurance. 4 cr.

Library Science

See Merrimack Valley Branch Courses, page 167.
Continuing Education Career Option Courses

Management

430. MANAGEMENT PRINCIPLES AND ORGANIZATION
Management philosophy and practices; organization, structure, communication, planning, controlling, and decision-making. Not open to Admin or Hotl majors. 4 cr.

431. HUMAN BEHAVIOR AND SUPERVISION
Set of one-credit modules dealing with the nature of people at work. Modules include: Human Relations and Motivation; Effective Supervision; Employee Training and Development; and Employee Relations. Career Option students required to complete 431 must take 4 credits. Not open to Admin or Hotl majors. 1-4 cr.

431A. HUMAN BEHAVIOR AND SUPERVISION: HUMAN RELATIONS AND MOTIVATION
Social and physical forces affecting human behavior and motivation of people at work. The work environment; motivation; morale; employee participation; formal and informal organizations; and leadership patterns. Not open to Admin or Hotl majors. 1 cr.

431B. HUMAN BEHAVIOR AND SUPERVISION: EFFECTIVE SUPERVISION
Orientation to management responsibilities. Learning how an effective supervisor operates; delegating and supervising; becoming goal oriented; making effective decisions; and planning for self-development. Not open to Admin or Hotl majors. 1 cr.

431C. HUMAN BEHAVIOR AND SUPERVISION: EMPLOYEE TRAINING AND DEVELOPMENT
How to understand and practice effective employee counseling techniques involving: interviewing, work assignments, performance appraisals, meeting training needs, and helping employees define and resolve individual problems. Not open to Admin or Hotl majors. 1 cr.

431D. HUMAN BEHAVIOR AND SUPERVISION: EMPLOYEE RELATIONS
Federal and state laws affecting labor-management relations in union and nonunion operations; labor contracts; the bargaining process; and grievance procedures. 1 cr.

432. PRINCIPLES OF ACCOUNTING
Sole proprietorship, partnership, and the corporation; recording, summarizing, and reporting data; systems to account for and control purchases, sales, cash, receivables, and inventory; valuation of assets and measurements of income. Not open to students who have had Admn 502, to admitted bachelor's degree candidates, or to A.A. degree candidates in Accounting career option. 4 cr.

530. ECONOMICS
U.S. economy and its component units. Macro- and micro-economic perspectives. Not open to students who have had Econ 401 or 402, or REco 411. 4 cr.

531. SALESMAINSHP
Principles and techniques of personal selling; customer needs and satisfaction. 4 cr.

532. BUSINESS LAW
Legal theory, practice, and precedents in everyday business situations. Not open to students who have had Admn 647. 4 cr.

533. CREDIT MANAGEMENT
Credit—its effect on the money supply and its role in the economy; commercial and consumer borrowing; credit policy, analysis, and regulations; secured and unsecured credit; collections; receivables; management of credit; and decision making. 4 cr.

Merchandising

410. FUNDAMENTALS OF MERCHANDISING
Practices and procedures in marketing goods and services; retailing and wholesaling; channels of trade; functions of middlemen. (Not offered every year.) Not open to Admin or Hotl majors. 4 cr.

411. PROMOTION AND ADVERTISING
Mass communications in marketing; use of advertising media; integration of promotional plans and sales techniques; evaluation of promotional efforts. (Not offered every year.) Not open to Admin or Hotl majors. 4 cr.

510. RETAILING
Managing a goods or services retail enterprise; store location and organization, layout, buying and pricing, advertising and sales promotion, inventory control, and personnel policies. (Not offered every year.) 4 cr.

512. FASHION MERCHANDISING AND DISPLAY
Principles and procedures used in selection, promotion, and selling of fashion apparel and accessories. Analysis of principles of display. Prereq: DCE 410/or permission. 4 cr.

Quality Control

480. FUNDAMENTALS OF QUALITY CONTROL
Planning, organizing, and administering Quality Control operations in relation to company policy and objectives. (Not offered every year.) 4 cr.
Earth Sciences

580. QUALITY CONTROL ENGINEERING
Pre-process, in-process, and post-process control techniques. Data accumulation, classification, evaluation, measurement, reporting, and costs. Prereq: DCE 480/ or permission. (Not offered every year.) 4 cr.

581. STATISTICAL APPLICATIONS TO QUALITY CONTROL
Tendency and variation, normal curve applications, histogram analysis, control charts, sampling plans, and Dodge-Romig and Military Standard Tables. Prereq: DCE 480/ or permission. (Not offered every year.) 4 cr.

582. PROCUREMENT OF QUALITY CONTROL
Optimizing the quality of incoming materials and supplies. Quality specifications, receipt, source inspection, and vendor surveys and ratings. Prereq: DCE 480/ or permission. (Not offered every year.) 4 cr.

Real Estate

425. FUNDAMENTALS OF REAL ESTATE
History and development of property ownership; title and legal processes; limitations and restrictions of rights, contracts, and agreements; deeds and transfer of property. 4 cr.

426. REAL ESTATE APPRAISAL
Principles of land and building analysis, cost estimation, depreciation, and influences affecting value of residential and commercial property. Prereq: DCE 425. 4 cr.

427. REAL ESTATE LAW AND FINANCE
Law: nature and classes of property; ownership; purchase and sales; and the rights, duties, and responsibilities of the broker. Finance: mortgages; loans; and financing residential and commercial property. Prereq: DCE 425. 4 cr.

Traffic and Distribution Management

470. INTRODUCTION TO TRANSPORTATION AND TRAFFIC MANAGEMENT
The characteristics and operations of the various modes and classes -common, contract, exempt, and private. The relationship between distribution management and other operational activities. 4 cr.

471. CARRIER OPERATIONS
Principles of freight traffic; shipper-carrier relations. Terminal operations, freight handling, dispatching, inventory controls, employee relations, and other areas related to the operations portions of the transportation industry. (Not offered every year.) 4 cr.

570. PRINCIPLES OF PHYSICAL DISTRIBUTION
Elements involved in physical distribution and their interrelationships: inventory management, warehousing, industrial packaging, materials handling, physical flow, labor relations, cost control, forecasting. (Not offered every year.) 4 cr.

571. TRANSPORTATION REGULATIONS
Relationships among federal, state, and international regulatory agencies and the modes and classes of transportation. Interstate Commerce Act application and interpretation; handling and filing of claims; documentation, export-import regulations; safety requirements; and labor contracts. Prereq: DCE 470/ or permission. (Not offered every year.) 4 cr.

Cooperative Work Experience

506. FIELD EXPERIENCE
Supervised career-related work experience with pre-planned learning objectives, coordinated by the Division of Continuing Education and the cooperating employer. Prereq: admission to the A.A. with a declared career option; permission of the DCE director. May be repeated to a maximum of 8 credits. 2 or 4 cr.

Earth Sciences (ESci)
Chairperson: Herbert Tischler

PROFESSORS: Donald H. Chapman, emeritus; T. Ralph Meyers, emeritus; Cecil J. Schneer, Herbert Tischler
ADJUNCT PROFESSOR: Robert I. Davis
ASSISTANT PROFESSORS: Wendell S. Brown, Theodore C. Loder, Paul A. Mayewski

401. PRINCIPLES OF GEOLOGY I
The earth: a survey course covering earth materials (rocks and minerals), land forms, and the processes that form them (volcanism, earthquakes, glaciation, etc.). Field trips. Lab. 4 cr.

402. PRINCIPLES OF GEOLOGY II
The geological history of the earth: an interpretation of past geologic events emphasizing the geological development of North America and the evolution of life. Prereq: ESci 401. Lab. 4 cr.
409. ENVIRONMENTAL GEOLOGY
Environmental impact of geologic processes; natural hazards—landslides, earthquakes, volcanoes, flooding, erosion, and sedimentation; land exploitation and site investigations; environmental considerations of water supply problems; the recovery of energy and mineral resources. Prereq: ESci 401 or permission. 4 cr.

501. INTRODUCTION TO OCEANOGRAPHY
Physical, chemical, geological, and biological processes in the sea. 4 cr.

503. INTRODUCTION TO MARINE SCIENCE
Team taught course under New Hampshire College and University Council (NHCUC). Physical, geological, chemical, and biological aspects of the oceans. Field trips. Prereq: approval of ESci department. Saturday only. (No credit if completed ESci 501.) 4 cr.

512. DESCRIPTIVE AND DETERMINATIVE MINERALOGY
Physical and chemical properties of minerals; their associations; modes of occurrence, and uses; identification. Prereq: ESci 401; Chem 401 or 403 pre- or corequisite. Lab. 4 cr.

531. STRUCTURAL GEOLOGY
Structural units of the earth's crust and mechanics of their formation. Prereq: ESci 402. Lab and field work. 4 cr.

561. GEOMORPHOLOGY
Factors producing the present aspect of the land surface, particularly in New England. The work of running water, glaciers, and marine agents. Field trips during the fall season. Prereq: ESci 401. Lab. 4 cr.

595. SPECIAL PROJECT IN THE EARTH SCIENCES
Section 1. Oceanography laboratory. Variable 1-4 cr.

603. MARINE SCIENCE SUMMER INSTITUTE
Six-week institute of three course offerings in marine-oriented disciplines. Lectures, labs, field trips, plus two weeks of intensive field work at the Cobscook Bay Marine Science Station. Student takes two out of the three courses. Prereq: Approval of campus representative of the Marine Sciences Committee of the New Hampshire College and University Council, Dr. Theodore C. Loder. Not for major credit in Earth Sciences. (May be repeated.) 8 cr.

613. PRINCIPLES OF MINERALOGY
Introduction to crystallography; principles of the physics and chemistry of natural solids; atomic structures of minerals and their investigation by X-ray diffraction. Prereq: one year of college chemistry/or permission. 4 cr.

614. PETROGRAPHY
Description and classification of igneous, sedimentary, and metamorphic rocks in hand specimen and thin section; introduction to optical mineralogy. Prereq: ESci 512. Lab. 4 cr.

652. INVERTEBRATE PALEONTOLOGY
The classification and evolution and the environmental and stratigraphic significance of invertebrate animals as recorded by fossils. Field trip to collect fossils and examine ancient environments. Prereq: ESci 402 or Zool 412/or permission. Lab. 4 cr.

725. IGNEOUS AND METAMORPHIC PETROLOGY
Textural, mineralogical, and chemical analysis, and phase rule and phase diagram interpretation applied to petrogenesis. Prereq: ESci 613, 614/or permission. Lab. 4 cr.

732. GEOLOGIC MAPPING AND INTERPRETATION
Standard methods of geologic field mapping; interpretation of geologic maps and aerial photographs of selected areas. Course includes field mapping excursions to local areas and an 8-10 day exercise in a selected area of the Appalachian Mountains. $75 lab fee includes transportation and housing in the field. Prereq: permission. Lab. 4 cr.

734. APPLIED GEOPHYSICS
Gravity, magnetic, seismic, electrical, and thermal methods of investigating subsurface geology. Practical fieldwork and use of computers in data analysis. Prereq: Math 426 passed or taken concurrently; ESci 401; one year of college physics/or permission. Lab. 4 cr.

741. GEOCHEMISTRY
Thermodynamics applied to geological processes; geochemical differentiation of the earth; the principles and processes which control the distribution and migration of elements in geological environments. Lab. 4 cr.

752. CHEMICAL OCEANOGRAPHY
Water structure, chemical composition and equilibrium models, gas exchange, biological effects on chemistry, trace metals, and analytical methods. Laboratory includes short cruise aboard R/V Jere A. Chase. Prereq: permission. Lab (optional). 3 or 4 cr.

754. SEDIMENTATION-STRATIGRAPHY
Sedimentation: weathering, transportation, and deposition of modern sediments. Stratigraphy: classification of sedimentary rocks and principles of stratigraphic correlation. Lab. 4 cr.
758. INTRODUCTION TO PHYSICAL OCEANOGRAPHY
Ocean basins; physical properties of seawater; atmosphere-ocean interaction; general ocean circulation; waves, tides, tsunamis, and gulf stream; continental shelf and near shore processes; instrumentation and methods used in ocean research. Simplified physical and mathematical models demonstrate the important concepts. Prereq: Phys 408; ESci 501; or permission. Lab and field project. 4 cr.

759. GEOLOGICAL OCEANOGRAPHY
Major geological features and processes of the ocean floor; geological and geophysical methods; plate tectonics. Prereq: ESci 401, 501; or permission. 4 cr.

762. GLACIAL GEOLOGY
Glacial environment: glaciers as agents of deposition; interpretation of glacial deposits. Review of world glacial stratigraphy in light of causes of glaciation and climatic change. Prereq: ESci 401, 561; or permission. Lab. 4 cr.

781. PHYSICAL GEOLOGY
Materials and structures of the earth and erosive agents that modify them. Laboratory and field trips. For certified elementary or high school science teachers who need an introduction to the earth sciences. (Not available for credit after completing ESci 401 or equivalent.) 4 cr.

782. HISTORICAL GEOLOGY
Evolution of physical features and life on the earth. Fossil organisms; methods of historical geology; laboratory and field trips. Prereq: ESci 781 or equivalent. For certified elementary or high school science teachers who need an introduction to the earth sciences. (Not available for credit after completing ESci 402 or equivalent.) 4 cr.

795. TOPICS IN EARTH SCIENCES

796. HONORS PROJECT
Independent research projects similar to ESci 795 for students with 3.0, or better, average in Earth Sciences. 2 or 4 cr.

797. GEOLOGY COLLOQUIUM
Study of selected topics in both classical and modern geological thought. For majors. 0 cr. Cr/F.

Economics (Econ)
Program Director: William R. Hosek

PROFESSORS: Carroll M. Degler, emeritus; John A. Hogan, emeritus; Ruth J. Woodruff, emerita; Robert F. Barlow, William R. Hosek, Manley R. Irwin, John J. Korbel, Sam Rosen, Kenneth J. Rothwell, Dwayne Wrightsman
ASSOCIATE PROFESSORS: Allan J. Bruff, Dale Broderick, John M. Burt, Jr., Fred Kaen, Richard L. Mills, Robert C. Puth

400. ECONOMIC ISSUES
Economic analysis applied to varying current issues such as environmental pollution, federal deficit spending, monopoly and waste, poverty, racism, the energy shortage, the urban crisis, war and the economy, etc., discussed in a nontechnical, conceptual framework. Reports and discussion on outside readings. No credit towards a major or minor in economics. 4 cr.

401. PRINCIPLES OF ECONOMICS (MACRO)
Basic functions of the United States economy viewed as a whole; policies designed to affect its performance. Economic scarcity, supply and demand, the causes of unemployment and inflation, the nature of money and monetary policy, the impact of government taxation and spending, the federal debt, and issues concerning economic growth. 4 cr.

402. PRINCIPLES OF ECONOMICS (MICRO)
Functions of the component units of the economy and their interrelations. Units of analysis are the individual consumer, the firm, and the industry. Theory of consumer demand and elasticity, supply and costs of production, theory of the firm under conditions of perfect and imperfect competition, demand for and allocation of economic resources, general equilibrium, and basic principles and institutions of international trade. (Not open to students who have had REco 411.) 4 cr.
403, 404. HONORS ECONOMICS (MACRO, MICRO)
Special seminars for students who are capable of and interested in rapidly acquiring the tools of economic analysis to examine pressing contemporary problems and issues in depth. Student participation and interchange with other students and the instructor. Readings from popular and technical literature. Prereq: permission. 4 cr.

515. ECONOMIC HISTORY OF THE UNITED STATES
United States economy from Colonial times to the present. Models of economic development applied to the United States. How social, political, technological and cultural factors shape economy: development and influence of economic institutions. 4 cr.

518. EUROPEAN ECONOMIC HISTORY
Western European economies from medieval times to the present. Explanations for differential growth rates and patterns; contrasts between political, social, and economic events. Prereq: Econ 401 (or) 402/or permission. 4 cr.

525. INTRODUCTION TO ECONOMIC STATISTICS
Principal statistical concepts and techniques used in empirical economics: descriptive statistics, probability theory, random variables and their distributions, expected values, sampling, inferential statistics, correlation and regression analysis, analysis of variance, time series analysis, index numbers. Also, principal sources of economic data. 4 cr.

601. INCOME DISTRIBUTION: WEALTH AND POVERTY
Examination of the distribution problem; historical development of distribution theories; comparative review of distribution systems, past and present. Students help select topics, e.g., distributive effects of the tax system and welfare policies to redistribute income. 4 cr.

605. INTERMEDIATE MICROECONOMIC ANALYSIS
Analysis of supply and demand. Determination of prices, production, and the distribution of income in noncompetitive situations and in the purely competitive model. General equilibrium. Prereq: Econ 402. 4 cr.

611. INTERMEDIATE MACROECONOMIC ANALYSIS
Macroeconomic measurement, theory, and public-policy determination. Prereq: Econ 401, 402. 4 cr.

615. HISTORY OF ECONOMIC THOUGHT
Examination and critical appraisal of the work of major economists, including the work of contemporary economists, and major schools of economists, particularly with reference to the applicability of their theories to current economic problems. Prereq: Econ 401, 402. 4 cr.

626. INTRODUCTION TO QUANTITATIVE ECONOMICS
Development of the concept of a simple testable economic model of explanatory or forecasting type. Alignment of the model with reality by means of computer-performed statistical estimation. Types of error, consequences, and possible methods of dealing with errors. Prereq: Econ 525. 4 cr.

630. COMPARATIVE STUDY OF ECONOMIC SYSTEMS
Theoretical models of capitalism and socialism. Their historical implementation as exemplified by the United States, France, Yugoslavia, U.S.S.R., China, and Cuba. Prereq: Econ 401, 402. 4 cr.

635. MONEY AND BANKING
Financial markets, financial institutions, monetary theory, monetary policy, causes and cures of inflation and related problems. Prereq: Econ 401, 402. 4 cr.

641. PUBLIC FINANCE

645. INTERNATIONAL ECONOMICS
Trade theory and commercial policy. Free trade, protection, common markets. Economic aspects of international relations with particular reference to recent policy issues. Prereq: Econ 401, 402. 4 cr.

651. GOVERNMENT REGULATIONS OF BUSINESS
Mergers, competition, monopoly, and the regulated industries. 4 cr.

655. LABOR UNIONS AND THE WORKING CLASS
Workers' role in the economy and unions as they form to protect their interests. History of the American labor movement; evaluation of the success of unions in fulfilling workers' needs. Management's relationship with workers in the context of a power struggle between unions and managers. Government role in collective bargaining as intermediary and as employer. 4 cr.

656. LABOR ECONOMICS
Functioning of labor markets from theoretical and policy perspectives. Labor supply, wage determination, internal labor markets, and barriers to upward labor market mobility. Poverty, unemployment, inflation, and wage-price controls. Prereq: Econ 401, 402/or permission. 4 cr.

668. ECONOMIC DEVELOPMENT
Analysis of problems and available solutions confronting the underdeveloped areas of the world. Prereq: Econ 401, 402. 4 cr.
<table>

<th>Course Title</th>
<th>Prerequisites</th>
</tr>
</thead>
<tbody>
<tr>
<td>695-696</td>
<td>INDEPENDENT STUDY</td>
<td>Individual projects of special interest and benefit. Prereq: permission of undergraduate counselor and proposed project supervisor. Granted to students with unusual initiative. Variable (in multiples of 2) 2-12 cr.</td>
</tr>
<tr>
<td>698</td>
<td>TOPICS IN ECONOMICS</td>
<td>Special topics. May be repeated. Prereq: permission. 4 cr.</td>
</tr>
<tr>
<td>711</td>
<td>ECONOMIC FLUCTUATIONS</td>
<td>Recurrent movements of prosperity and depression; emphasis on causes and public-policy implications. Prereq: Econ 611 or permission. 4 cr.</td>
</tr>
<tr>
<td>715</td>
<td>MARXIAN ECONOMIC ANALYSIS</td>
<td>Marx's analysis of capitalism within the classical and radical tradition; methodology; organization of capital; labor theory of value; accumulation of capital; growth and distribution; economic crises. Critical evaluation of Marx's analysis. Prereq: Econ 605 and 611; or permission. 4 cr.</td>
</tr>
<tr>
<td>720</td>
<td>U.S. ECONOMIC HISTORY</td>
<td>From Colonial times to the present. Applied economic theory; economic models and interpretation of data. Influence of technology, industrialization, foreign trade, monetary factors, and government; noneconomic factors. Prereq: Econ 605, 611; or permission. 4 cr.</td>
</tr>
<tr>
<td>721</td>
<td>EUROPEAN ECONOMIC HISTORY</td>
<td>Western European and Mediterranean economies from medieval times to the Common Market. Economic models and interpretation of data. Capital accumulation, technology, trade, industrialization, monetary factors, and the role of government; relevant noneconomic factors. Prereq: Econ 605, 611; or permission. 4 cr.</td>
</tr>
<tr>
<td>725</td>
<td>STATISTICAL THEORY</td>
<td>Univariate and bivariate mathematical statistics; i.e., probability theory, discrete and continuous random variables and their distributions, moments and moment-generating functions, parameter estimation, hypothesis testing, correlation and regression analysis, analysis of variance. Prereq: Math 425-426 or equivalent. 4 cr.</td>
</tr>
<tr>
<td>727</td>
<td>ECONOMETRIC THEORY</td>
<td>Representation of economic phenomena in mathematical terms; formulation of models of economic activity and the derivation therefrom of propositions which are subject to statistical test, primarily by means of multivariate regression analysis. Prereq: Econ 725 or permission. 4 cr.</td>
</tr>
<tr>
<td>735</td>
<td>ECONOMICS OF FINANCIAL MARKETS</td>
<td>Economic analysis of financial market systems. Topics include financial market functions, theories of saving and investment, financial intermediation, flow-of-funds analysis, loanable funds theory, interest rate forecasting, portfolio theory, capital asset pricing models, structure of interest rates (including term structure theory), and macroeconomic models of the financial sector. Prereq: Econ 635. 4 cr.</td>
</tr>
<tr>
<td>736</td>
<td>SEMINAR IN MONETARY THEORY AND POLICY</td>
<td>Contemporary developments in monetary theory and the evaluation of policy measures. Prereq: Econ 635. 4 cr.</td>
</tr>
<tr>
<td>741</td>
<td>SEMINAR IN PUBLIC FINANCE—THEORY AND POLICY</td>
<td>Selected topics in contemporary theoretical and policy problems of public finance. Prereq: Econ 641. 4 cr.</td>
</tr>
<tr>
<td>742</td>
<td>SURVEY OF URBAN ECONOMICS</td>
<td>Theoretical and empirical bases; policy alternatives for the problems of poverty, housing, urban renewal, transportation, local fiscal affairs, and pollution. Prereq: Econ 605; or permission. 4 cr.</td>
</tr>
<tr>
<td>745</td>
<td>INTERNATIONAL TRADE</td>
<td>Contemporary issues in international economic theory and policy. Analysis of trade theory, dynamics of world trade and exchange, and international commercial policy. Prereq: Econ 645. 4 cr.</td>
</tr>
<tr>
<td>746</td>
<td>INTERNATIONAL FINANCE</td>
<td>International monetary mechanism; balance of payments; international investment; exchange rates, adjustment systems, international liquidity, foreign aid, multinational corporations. Prereq: Econ 401, 402. 4 cr.</td>
</tr>
<tr>
<td>751</td>
<td>GOVERNMENT REGULATION OF BUSINESS</td>
<td>Analysis of government policy with reference to such problems as conspiracy, monopoly, mergers, unfair practices, and discrimination. This analysis includes a legal and economic appraisal of government policy alternatives. Prereq: Econ 651.</td>
</tr>
<tr>
<td>752</td>
<td>SEMINAR IN INDUSTRIAL ORGANIZATION AND PUBLIC POLICY</td>
<td>An examination of historical and contemporary developments in the theoretical and applied areas of industrial and commercial market structures, behavior and performance. Prereq: Econ 651; permission 4 cr.</td>
</tr>
<tr>
<td>755</td>
<td>COLLECTIVE BARGAINING</td>
<td>Explores the historical development of the U.S. labor movement and the industrial relations system. Contemporary collective bargaining issues; the role of public policy in industrial relations. Prereq: Econ 655. 4 cr.</td>
</tr>
</tbody>
</table>
756. LABOR ECONOMICS
Recent developments in labor market analysis and public policies related to contemporary labor issues. Topics include labor supply, the structure and stratification of labor markets, economic discrimination, unemployment and poverty, inflation, and wage-price controls. Prereq: Econ 656. 4 cr.

758. MANPOWER AND EDUCATION PLANNING
Flows of human beings within and between the educational and manpower sectors of the economy, also related to flows of goods and services in the industrial sector. Interrelationships of these flows: construction of a computer simulation model tracing the impact throughout the economy of manpower and educational planning decisions. Prereq: Econ 401, 402/ or permission. 4 cr.

761. NATIONAL ECONOMIC PLANNING
Planning in a market economy; the new industrial state. Planning as a substitute for markets; the developing countries. Planning as a way of transforming society; socialist economies; techniques of planning social and political issues related to various planning methods. Prereq: Econ 605, 611/ or permission. 4 cr.

768. SEMINAR IN ECONOMIC DEVELOPMENT
A survey of the theories of the development process and an examination of the role of various forces of economic change in developing countries. Prereq: Econ 668. 4 cr.

769. CASE STUDIES IN ECONOMIC DEVELOPMENT
Problems and policies in selected countries; evaluations of national plans, programs, and projects; comparative analysis. Sections: 1) Southeast Asia; 2) Cost-Benefit and Project Analysis; 3) Africa; 4) South America. Prereq: Econ 401, 402/ or permission. 4 cr.

798. SEMINAR IN ECONOMIC PROBLEMS
Special topics; may be repeated. Prereq: permission of adviser and instructor. 2 or 4 cr.

Education (Educ)
Chairperson: Gerald J. Pine

PROFESSORS: Everett B. Sackett, dean emeritus; Thomas O. Marshall, emeritus; Angelo V. Boy, Roland B. Kimball, Carleton P. Menge, Gerald J. Pine

ADJUNCT PROFESSOR: Donald D. Durrell

ADJUNCT ASSOCIATE PROFESSOR: Richard M. Goodman

ASSISTANT PROFESSORS: Margaret D. Ackerman, Richard Antonak, Virginia F. Bereit, John J. Carney, Ellen Corcoran, Michael C. Diamond, Ann L. Diller, Sidney Eder, Leo Geoffrion, Donald Graves

LECTURER IN EDUCATION AND FIELD SITE COORDINATOR:
John E. Williamson

ADJUNCT ASSISTANT PROFESSOR: John R. Cavanaugh

500. EXPLORING TEACHING
For students considering a teaching career. In-school experiences to develop introductory skills in observation and teaching. On-site seminars for analysis and evaluation. Assessment and advisement related to teaching as a career provided. Prerequisite for further work toward teacher certification. A minimum of seven hours a week, plus travel time, required. Prereq: permission. 4 cr. Cr/F.

611. TEACHING ELEMENTARY SCHOOL SOCIAL STUDIES
Objectives, content, methods, and materials. (Offered in Division of Continuing Education only.) 4 cr.

612. TEACHING ELEMENTARY SCHOOL MATHEMATICS
Objectives, content, methods, and materials. (Offered in Division of Continuing Education only.) 4 cr.

613. TEACHING ELEMENTARY SCHOOL SCIENCE
Involvement strategies; inquiry and discovery approaches compared with more conventional methods; selection and justification of goals. Survey of resources available for science teachers; analysis of current curriculum projects. (Offered in Division of Continuing Education only.) 4 cr.

691. SCIENCE CURRICULUM AND INSTRUCTION
For inservice and preservice secondary teachers of physics, chemistry, earth science, or general science. Modern curricula and methods; contemporary programs of national interest. Science teaching goals and methods. 4 cr.

694. COURSES IN SUPERVISED TEACHING
Supervised Teaching of Physical Education. 8 cr. Cr/F.
Supervised Teaching of Occupational Education. 8 cr. Cr/F.
Supervised Teaching of Home Economics. 8 cr. Cr/F.
Supervised Teaching of Music. 8 cr. Cr/F.
Education

700. EDUCATIONAL STRUCTURE AND CHANGE
Organization, structure, and function of American schools; processes of change in education; how successful innovation is accomplished. Field experience options. Variable-credit modules. Sections listed in department prior to preregistration. Prereq: Educ 500; permission. Minimum of 4 cr. required for teacher certification. 1-4 cr.

701. HUMAN LEARNING AND DEVELOPMENT
Individual development: learning process analysis. Variable-credit modules on the theories, research, and implications of a specific topic offered each semester and summer. Sections listed in department prior to preregistration. Prereq: Educ 500; permission. Minimum of 4 cr. required for teacher certification. 1-4 cr.

703. ALTERNATIVE TEACHING MODELS
Analysis and application of basic teaching models and techniques (from very teacher-directed to very student-centered). Observation of master classroom teachers and exemplary videotapes; service as aides to master-teachers; seminars. Techniques and analysis systems through observation of video-tapes, micro-teaching, completion of appropriate self-instruction units, and seminars. Variable credit modules; sections listed in department prior to preregistration. Prereq: Educ 500; permission. Minimum of 4 cr. required for teacher certification. 1-4 cr.

705. ALTERNATIVE PERSPECTIVES ON THE NATURE OF EDUCATION
Students formulate, develop, and evaluate their own educational principles, standards and priorities. Alternative philosophies of education; contemporary educational issues. Variable credit modules; sections listed in department prior to preregistration. Prereq: Educ 500; permission. Minimum of 4 cr. required for teacher certification. 1-4 cr.

706. INTRODUCTION TO READING INSTRUCTION IN THE ELEMENTARY SCHOOLS
The reading process; current procedures and materials; diagnostic techniques; practicum experience. Course satisfies reading requirement for prospective elementary teachers in the five-year teacher-education program and may be included in the 12 required graduate credits in Education at the graduate level. Course may also be taken for undergraduate credit prior to entrance into fifth year; in this case the course satisfies reading requirement but is not applicable toward the 12 required graduate credits. Prereq: Educ 500. 4 cr.

707. APPROACHES TO TEACHING READING AT THE SECONDARY LEVEL
The Reading Curriculum in the Secondary School. Analysis of the structural components (developmental, corrective, remedial); materials and methods of instruction and appraisal; instruments of measurement and evaluation in the comprehensive secondary reading program. 2 cr. Teaching Reading through the Content Areas: Alternatives and Application. Students learn new approaches, concepts, and methodologies of teaching reading; workshop to develop and produce instructional strategies and materials for an integrated reading-content program. 2 cr. (Two credits of 707 may be used to satisfy 2 credits of Educ 700.)

734. CHILDREN'S LITERATURE
Interpretive and critical study of literature for children in the elementary, middle, and junior high schools. Methods of using literature with children. 4 cr.

742. SUPERVISED TEACHING IN THE ELEMENTARY SCHOOL
For majors only. 16 cr.

752. DIAGNOSIS AND REMEDIATION OF LEARNING DISABILITIES
Terminology, etiology, common characteristics, symptoms. Theory and practice in gross-motor, visual, and auditory-testing procedures used in diagnosis. Test findings for use in remediation programs. 4 cr.

753. TEACHING THE CHILD WITH EMOTIONAL AND SOCIAL DIFFICULTIES
Nature and scope of emotional disturbances and social maladjustment in children including causes, characteristics, and treatment programs. 2 cr.

763. INTRODUCTION TO EDUCATIONAL MEDIA
Educational media in the learning process; curricular integration of materials and equipment in the school library media center; design and implementation of learning systems that provide a framework for the development of individual skills. 4 cr.

775. DIAGNOSTIC TEACHING OF READING
Overview of classroom implementation of diagnosis and remediation of reading disabilities; for teachers, counselors, administrators, and other school personnel. 4 cr.

785. EDUCATIONAL TESTS AND MEASUREMENTS
The theory and practice of educational evaluation; uses of test results in classroom teaching and student counseling; introductory statistical techniques. 4 cr.
795, 796. **INDEPENDENT STUDY**
Juniors and seniors only with approval by appropriate faculty member. 2 or 4 cr.

797. **SEMINAR IN CONTEMPORARY EDUCATIONAL PROBLEMS**
Issues and problems of special contemporary significance, usually on a subject of recent special study by the staff member(s). Prereq: permission. May be repeated for different topics. 1-4 cr.

---

**Electrical Engineering (E E)**

Chairperson: Ronald R. Clark

PROFESSORS: Leon W. Hitchcock, emeritus; Fletcher A. Blanchard, Ronald R. Clark, Albert D. Frost, John B. Hrabat, Joseph B. Murdoch, Alden L. Winn

ADJUNCT PROFESSOR: Sidney W. Darlington

ASSOCIATE PROFESSORS: Glen C. Gerhard, Filson H. Glanz, Donald W. Melvin, John L. Pokoski, Kondagunta Sivaprasad, Kerwin C. Stotz

ASSISTANT PROFESSORS: John D. Aspnes, Michael R. Cannon, Paul J. Nahin

INSTRUCTOR: Charles F. Walker

---

401. **INTRODUCTION TO ELECTRICAL ENGINEERING I**
Overview of electrical engineering profession; lectures by faculty and guests and field trips. Role of the electrical engineer as a professional; ethics of the engineering profession. 1 cr. Cr/F.

402. **INTRODUCTION TO ELECTRICAL ENGINEERING II**
Introduction to electrical network theory with attention given to computerized network analysis. Prereq: Math 425. 1 cr.

431. **SPEECH, MUSIC, AND NOISE: THE SCIENCE OF SOUNDS**
Physical nature of sound waves. Production of sounds: by mechanical vibration in string instruments, drums, loudspeakers, or by air column resonances in horns and organ pipes. Characteristics of hearing and the human perception of sound, loudness, pitch, and intensity. Speech communication and the acoustics of the classroom, theater, or concert hall. Noise, its control and reduction; criteria for the judgement of annoyance. Application of acoustics and noise control for environmental protection and in industry, transportation, biology, and medicine. Amplification, storage, and reproduction of sound. Open for credit to nonengineering and nonphysics students only. Prereq: high school mathematics. Lab. 4 cr.

432. **LIGHT: SOURCES AND USES**
Edison's lamp to the laser; production of light; color, the spectrum, and the human eye; sources of light; lenses and reflectors; the four factors of seeing; designing lighting installations. Applications in schools, offices, factories, stores, the home; for sports and recreation, agriculture, and medicine; the ocean; and public buildings. Open for credit to nonengineering and nonphysics students only. Prereq: high school algebra and trig. Lab. 4 cr.

517. **JUNIOR LABORATORY I**
Application of techniques in electrical engineering. Prereq: E E 551 taken concurrently. Lab. 1 cr.

518. **JUNIOR LABORATORY II**
Laboratory investigations synthesizing classroom knowledge in circuits, electronics, electromagnetics, and signal processing. Prereq: E E 552 and 654 should be taken concurrently with 518, otherwise they must be completed prior to 518. Lab. 3 cr.

531. **ELEMENTS OF DIGITAL SYSTEMS**
Fundamental design and analysis principles. Number systems, switching algebra, logic circuits, codes, and an introduction to digital computers. Laboratory: student-built systems using modern integrated circuit technology; "hands-on" experience with a minicomputer. For non-E E majors. Lab. 4 cr.

541-542. **ELECTRICAL CIRCUITS I & II**
Electrical circuits including DC, AC, and transient circuits. Linear circuit theory, power considerations, resonance conditions, Fourier series, Laplace transforms, and complex frequency analysis. Prereq: Math 426; E E 402 or equivalent experience. Lab. 4 cr.

543. **INTRODUCTION TO DIGITAL SYSTEMS**
Fundamental design and analysis principles. Number systems, switching algebra, logic circuits, codes, and an introduction to digital computers. Laboratory: student-built systems using modern integrated circuit technology; "hands-on" experience with a minicomputer. For E E majors. Lab. 3 cr.

544. **SIGNAL PROCESSING FUNDAMENTALS**
Methods of analysis for distributed systems, continuous and discrete signals and introductory probability and statistics for engineers. Prereq: Math 527. 3 cr.

548. **ELECTRONICS I**
Semiconductor and vacuum device characteristics; mathematical and equivalent circuit models. Amplifier performance specifications; circuit analysis and design techniques for linear small-signal and power amplifiers at audio, radio, and video frequencies. Prereq: Math 527; E E 542 (latter may be taken concurrently). 3 cr.
551. ELECTRONICS II
Feedback theory, analysis and design with operational amplifiers, sinusoidal oscillators, modulators, detectors, and analog circuits. Prereq: E E 548; 607 (may be taken concurrently). 3 cr.

552. ELECTRONICS III
Analysis and design of digital and switching circuits using both discrete and integrated components. Prereq: E E 543; 551. 3 cr.

603. ELECTROMAGNETIC FIELDS AND WAVES I
Electrostatic field in free space, conductors, and dielectrics; capacitors; Laplace and Poisson's equations; magnetostatic fields in free space and ferromagnetic materials; magnetic circuits; inductors; Faraday's law. Prereq: Math 527; E E 544 or equivalent. 3 cr.

604. ELECTROMAGNETIC FIELDS AND WAVES II
Maxwell's equations for time-varying fields; relation between field and circuit theory; plane waves in dielectric and conducting media; reflection and refraction of waves in isotropic media; transmission lines, wave guides, and resonators; antennas and radiation. Prereq: E E 603. 3 cr.

605. ELECTRONIC PROPERTIES OF MATERIALS AND DEVICES
Nature of the electron, energy levels and bonds, and semiconductor materials. Electronic transport properties of conductors and semiconductors, PN junction theory, physics and characteristics of transistors, thermonic emission and the vacuum tube. Prereq: Phys 408; completion of chemistry requirements; E E 548; Math 527. 4 cr.

609. ELECTRONIC MATERIALS AND DEVICES
The structure of materials, energy levels, energy bands, semiconductor statistics. Electronic transport phenomena, PN junction theory, physics of transistors. Thermonic emission, photo-conductivity, and dielectric and magnetic properties of solids. Prereq: E E 552; 604; Phys 408; completion of chemistry requirement. 3 cr.

620. ELECTRONICS AND INSTRUMENTATION
For nonengineering and nonphysics students; no mathematical or engineering detail. Techniques for using electronic instruments and equipment. DC and AC circuits, electronic amplifiers, grounding and shielding problems, transducers, electronic instruments, schematic reading, transients, noise problems, and digital techniques. Prereq: junior standing. 4 cr.

654. ELECTROMECHANICAL ENERGY CONVERSION
Theory and analysis of transformers and electromechanical energy converters. Prereq: E E 603; 542. 3 cr.

656. ELECTROMECHANICAL DEVICES
Theory and analysis of transformers, rotating machines, transducers and control system components, and other energy conversion methods. Prereq: E E 603; 542. Lab. 4 cr.

695. ELECTRICAL ENGINEERING PROJECTS
Laboratory or advanced study course. Student either joins a department research project or engages in a project in an area of staff interest. Prereq: acceptance by staff member. 1-4 cr.

700-level courses are offered subject to adequate student demand.

711. DIGITAL SYSTEMS
Extension of E E 543 to advanced switching theory techniques (design of unclocked sequential circuits, minimization of multiple output circuits, etc.) and digital design tools (L.S.I., multiplexing, etc.) Applications featured. Prereq: E E 543 or permission. Lab. 4 cr.

712. LOGICAL DESIGN OF DIGITAL COMPUTERS
Computer architectures, including arithmetic, memory, control, and input-output units; the trade-offs between hardware, software, and cost. “Hands-on” laboratory experience with machine language programming, interfacing of peripherals, etc., on minicomputers and microcomputers. Prereq: E E 543 or permission. Lab. 4 cr.

714. MINICOMPUTER APPLICATIONS ENGINEERING
Organization and operation of minicomputer-based systems. Interfacing of special purpose peripherals, data structures, control structures, program and data organization, microprogramming, real-time monitor systems. Applications to communication, automated-measurement, and process control systems. Prereq: E E 543 and programming experience, or permission. Lab. 4 cr.

727. POWER SYSTEMS
Modeling and planning of electric power transmission systems. Prereq: E E 654. 4 cr.

741. FLUID CONTROL SYSTEMS
The mathematical modeling of hydraulic-, pneumatic-, and fluidiccontrol elements and control systems. Methods are developed for the analysis of systems of using gases or liquids as the working fluid. Methods for the synthesis of the parameters of the control elements, used in automatic control systems, are developed and methods of design of these systems are discussed. (Also offered as M E 741.) 4 cr.

745. FUNDAMENTALS OF ACOUSTICS
Acoustic wave equation for air; laws of reflection, refraction, and absorption; characteristics and measurement of acoustical sources; microphones; sound level; acoustical materials; ultrasonics; architectural acoustics. Prereq: Phys 408; Math 527. Lab. 4 cr.
757. FUNDAMENTALS OF COMMUNICATIONS
Communication systems, Fourier analysis of signals, AM and FM detection, digital and sampled-data signals, noise in electrical circuits. Prereq: permission. Lab. 4 cr.

758. COMMUNICATION SYSTEMS
Design of high frequency communication systems. RF amplification, modulators for AM and FM systems, receiving techniques, antennas, free space propagation, propagation characteristics of the ionosphere. Prereq: E E 603; 757 or equivalent. Lab. 4 cr.

762. ILLUMINATION
Radiation; color and spectra; physics of light production; sources of ultra-violet, visible, and infrared energy; lamp circuitry; control of light; lighting design, applications of light in business, industry, school, home and outdoors. Open to juniors and seniors in engineering and physics. Lab. 4 cr.

775. APPLICATIONS OF INTEGRATED CIRCUITS
The design and construction of linear and nonlinear electronic circuits using existing integrated circuits. Use of operational amplifiers. Laboratory course in practical applications of non-digital integrated circuit devices. 4 cr.

781. OCEAN INSTRUMENTATION PROJECT
Interdisciplinary solution of a real-world problem; measurements of physical, chemical, or biological parameters in an ocean or freshwater environment. Student team formulates system specification, assembles components, and designs a test procedure for demonstrating the feasibility of the prototype system. Written final report and oral demonstration before a panel of invited experts. Prereq: senior standing in Engineering. 4 cr.

782. CONTROL SYSTEMS
Fundamental principles involved in the design and analysis of feedback control systems. Topics include stability criterion, time-domain analysis, frequency-domain analysis, and introduction to nonlinear systems. Prereq: permission. Lab. (Also offered as M E 782.) 4 cr.

783. BIOMEDICAL ENGINEERING
Engineering applied to cardiovascular, renal, gastrointestinal, sensory, reproductive, and other organ systems. Topics will include design and utilization of diagnostic, monitoring, and prosthetic techniques and devices. A design-oriented project will be required. Coreq Prereq: a human physiology course (may be taken concurrently). Lab. 4 cr.

784. BIOELECTRONICS
Principles of physiological and biological instrumentation design including transducers, signal conditioning, recording equipment, and patient safety. Laboratory includes the design and use of the electrocardiogram, electromyogram, electroencephalogram, pulse monitors, and electronic thermometers. Current research topics, such as biotelemetry, ultrasonic diagnosis, and computer applications, are also included. Prereq: permission. Lab. 4 cr.

785. UNDERWATER ACOUSTICS
Vibrations, propagation, reflection, scattering, reverberation, attenuation, sonar equations, ray and mode theory, radiation of sound, transducers, and small and large signal considerations. Prereq: permission. 4 cr.

786. INTRODUCTION TO RADIO ASTRONOMY
Electromagnetic radiation, propagation. Positional astronomy and the radio sky, discrete radio sources, source structure distribution, the sun as a radio source, flare and burst activity, planetary emissions, quasars, pulsars, techniques of observation and data reduction, radiometry, polarimeters, correlation interferometers, aperture synthesis. Prereq: senior or graduate status in Engineering and Physical Sciences. 4 cr.

796. SPECIAL TOPICS IN ELECTRICAL ENGINEERING
New or specialized courses and/or independent study. Prereq: permission. 2 or 4 cr.

Engineering Technology (E T)
Program Director: Donald Melvin

Permission of instructor is a prerequisite to all Engineering Technology courses.

633. INDUSTRIAL ORGANIZATION AND LAW
Corporations; partnerships; product liability; contracts; O.S.H.A. and safety codes; collective bargaining; types of compensation; agencies; small claims. 4 cr.

634. ECONOMICS OF BUSINESS ACTIVITIES
Elementary financial accounting; compound interest and time value of money; sources of capital; budgeting of resources; depreciation; risk and insurance; marketing and sales. 4 cr.

637. HEAT AND FLUID POWER I
Introduction to power systems; nature of fluids-phases, state points, properties; continuity relationships; work and heat; First Law of thermodynamics; cycles: Carnot, Rankine, gas, refrigerator; Second Law and reversibility. Lab. 4 cr.
English

638. HEAT AND FLUID POWER II
Fluid statics; Euler, Bernoulli, and energy equations; nozzle flow; rotating systems—turbines and pumps; viscosity and shear stresses; pressure drop in pipes; heat transfer; heat exchangers. Prereq: E T 637. Lab. 4 cr.

641. PRODUCTION SYSTEMS
Production standards—sources, uses; manufacturing capacity—design, analysis; manufacturing inventories and their control; production scheduling; production control. 4 cr.

644. DYNAMICS OF MACHINERY
Static forces in linkages and mechanisms; kinematics of plane motions; dynamic forces in linkages and mechanisms; force and stress measurements; vibrations; balancing of machines; reciprocating engines. 4 cr.

651. MECHANICAL ENGINEERING TECHNOLOGY PROJECT I
Group project in which the students are required to find solutions to actual technological problems. In general this process will involve design, fabrication, and testing. 4 cr.

653. MECHANICAL ENGINEERING TECHNOLOGY PROJECT II
Similar to E T 651. Student projects to widen experience. 4 cr.

654. MECHANICAL ENGINEERING TECHNOLOGY PROJECT III
Group project activity as a continuation of E T 651 effort which may or may not be an extension of the work done in E T 651. 4 cr.

671. INDUSTRIAL ELECTRONICS
Review of transient analysis; introduction to Laplace transforms; timing circuits; transducers; silicon controlled rectifier circuits; motor controls. Lab. 4 cr.

674. CONTROL SYSTEMS AND COMPONENTS
Feedback principles; stability, Nyquist criteria; performance charts; introduction to equalizer design; control system components. Lab. 4 cr.

675. ELECTRICAL TECHNOLOGY I
Electrical circuits—DC and AC; polyphase circuits; transformers; DC and AC machinery and their control; physical principles of electronic devices. Lab. 4 cr.

676. ELECTRICAL TECHNOLOGY II
Equivalent circuits of electronic devices; power supplies; transistor amplifiers—frequency response; introduction to digital electronics; transducers and instrumentation systems. Lab. 4 cr.

677. INTEGRATED ELECTRONICS
Regulators—power supplies; operational amplifier characteristics—errors, frequency response, compensation; operational amplifier applications—amplifiers, waveshaping, filters, oscillators; other types of integrated circuits. Lab. 4 cr.

680. COMMUNICATIONS AND FIELDS
Modulation and demodulation; noise, introduction to filter design; introduction to electric and magnetic fields; transmission lines; waveguide principles and components; antennas and radiation. Lab. 4 cr.

691. ELECTRICAL ENGINEERING TECHNOLOGY PROJECT I
Group project in which the students are required to find solutions to actual technological problems in design, fabrication, and testing. 4 cr.

693. ELECTRICAL ENGINEERING TECHNOLOGY PROJECT II
Similar to E T 691. Student projects to widen experience. 4 cr.

694. ELECTRICAL ENGINEERING TECHNOLOGY PROJECT III
Group project activity as a continuation of E T 691 effort which may or may not be an extension of the work done in E T 691. 4 cr.

695. INDEPENDENT STUDY
Individual projects of special interest and benefit. Prereq: permission. 1-4 cr.

English
Chairperson: Donald Murray

PROFESSORS: Sylvester H. Bingham, emeritus; Robert G. Webster, emeritus; Max S. Maynard, emeritus; Thomas A. Carnicelli, Carl Dawson, Robert Hapgood, Edmund G. Miller, Donald M. Murray, Philip L. Nicoloff, John C. Richardson, Mark Smith, Thomas Williams, John A. Yount

VISITING ASSOCIATE PROFESSOR: Jean Kennard

ASSISTANT PROFESSORS: Lester A. Fisher, Elizabeth H. Hageman, Annette Kolodny, Andrew H. Merton, Hugh M. Potter, David V. Siddall

See English Department brochure for detailed descriptions of current course offerings.

301. IMPROVEMENT IN WRITING
Required of all students whose attainments in the fundamentals of English are found to be unsatisfactory. (Not offered every year.) 0 cr. Cr/F.
302. IMPROVEMENT IN READING
Intensive drill in reading skills for six weeks. (Not offered every year.) 0 cr. Cr/F.

303. ENGLISH AS A SECOND LANGUAGE
Speaking, reading, and writing for students to whom English is a foreign language. (Not offered every year.) 0 cr. Cr/F.

401. FRESHMAN ENGLISH
Training to write more skillfully, and to read with more appreciation and discernment. Frequent individual conferences for every student. 4 cr.

English 401, or exemption from it, is a prerequisite for all other English courses.

402. FRESHMAN SEMINARS—APPROACHES TO LITERATURE
Intensive study of a specific topic, theme, genre, major figure, or period of English or American literature. No credit toward the English major. For details, see the course descriptions available in department office and from freshman advisers. (Not offered every year.) 4 cr.

501. INTRODUCTION TO PROSE WRITING
Non-fiction writing; weekly papers and frequent conferences. May be repeated for credit with the approval of department chairperson. 4 cr.

505. INTRODUCTION TO LINGUISTICS
Language as one of the most important human phenomena. Use and misuse of language for social communication and for the verbal arts. Dialects, slang, language change, language acquisition, language and thought. Introduction to scientific methodology of linguistics and modern grammar (phonology, syntax, semantics). Relationships of language to the humanities, psychology, and sociology. 4 cr.

512. INTRODUCTION TO AMERICAN LITERATURE
Works of major American writers from Irving to Faulkner, with emphasis on how to adapt and present the material to high school English classes. Open only to English-Teaching majors. (Not offered every year.) 4 cr.

513, 514. INTRODUCTION TO ENGLISH LITERATURE
Selected classic works in poetry and prose considered in chronological order and historical context. Attention to the works and to the ideas and tastes of their periods. 513: Beowulf through 18th century. 514: 1800 to the present. 4 cr.

515, 516. A SURVEY OF AMERICAN LITERATURE
515: From the beginning of American literature to the Civil War. 516: From the Civil War to the present. 4 cr.

518. THE BIBLE AS LITERATURE
Literature of the Old and New Testaments and the Apocrypha, primarily in the King James version. 4 cr.

519. INTRODUCTION TO CRITICAL ANALYSIS
Critical analysis of fiction, poetry, and drama. Frequent short papers. Required of all English majors; should be taken early in their programs. 4 cr.

520. LITERATURE AND THE HISTORY OF IDEAS
An interdisciplinary study of literary works as influenced and illuminated by the concepts of philosophers, historians, and scientists. Barring duplication of subject, may be repeated for credit. 4 cr.

521. THE NATURE WRITERS
Fiction, poetry, and non-fiction books on the natural environment. Such books as Thoreau's Walden or Maine Woods, Leopold's Sand County Almanac, Beston's Outermost House, Dillard's Pilgrim at Tinker Creek, books by naturalists who observe nature vividly and knowingly and who write out of their concern for the environment. 4 cr.

522. AMERICAN LITERARY FOLKLORE
Folktales, songs, proverbs, beliefs, superstitions, and their use by such American authors as Irving, Hawthorne, Longfellow, Melville, Thoreau, Twain, Frost, and Faulkner; some emphasis on oral folk culture of New Hampshire. 4 cr.

523. MADNESS IN LITERATURE
How various writers depict insanity, and how they approach the problem of determining what attitudes and what behavior are truly sane. Emphasis on 19th and 20th century works, but works from earlier periods also considered. Euripides, The Bacchae, Shakespeare, King Lear, Cervantes, Don Quixote, Hoffmann, The Golden Pot, Dostoyevsky, Notes from the Underground, Robbe-Grillet, The Voyeur, and Nabokov, Pale Fire. 4 cr.

525. POPULAR CULTURE IN AMERICA
Cultural expression in popular media. Verbal arts (best sellers, magazines, newspapers, speeches); some attention to television, film, comics, popular music. The multidisciplinary approach deals with historical context, cultural institutions, and distinctions between "popular arts" and "great literature." Recurrent images, situations, and themes will be investigated to see what values are celebrated and fears revealed. 4 cr.

530. INTRODUCTION TO POETRY
20th century American and British poetry. Various poetic techniques and their demonstration. Student gains a fuller understanding of the genre. 4 cr.
531. INTRODUCTION TO DRAMA
Nature and types of drama illustrated by major English, American, and (translated) European plays. How to read a play. Live and filmed performances studied as available. 4 cr.

532. INTRODUCTION TO FICTION
Modern novels and/or short stories. The ways in which fiction communicates its meanings; the tools and methods at the fiction writer's disposal, primarily as they function in individual works. 4 cr.

533. INTRODUCTION TO FILM
Film: history, technique, and social relevance. as an art form. Comparison of film to drama and the novel. Showing and examination of works by such film makers as Bergman, Fellini, Truffaut, Kurosawa, Hitchcock, and Welles. 4 cr.

585. INTRODUCTION TO WOMEN IN LITERATURE
Survey of images of women in literature from classical times to the present. Content and approach vary depending on instructor. 4 cr.

586. INTRODUCTION TO WOMEN WRITERS
Survey of women writers from classical times to the present. Content and approach vary depending on instructor. 4 cr.

595. LITERARY TOPICS
Various faculty members investigate topics of special interest at a level appropriate for non-majors. See department for details of current offerings. 4 cr.

619. CRITICAL APPROACHES TO LITERATURE
Selected methods of literary criticism applied to fiction, poetry, and/or drama with critical approaches varying from year to year. A follow-up of 519, course provides a second semester of training in critical reading and writing, examining such major modern strategies as formalist, biographical, archetypal, psychological, sociological, historical, feminist and structuralist criticism. Prereq: Engl 519 or equivalent. 4 cr.

621, 622. NEWSWRITING
Workshops to develop reporting and writing skills. Prereq: Engl 501 or equivalent; written permission. May be repeated for credit with the approval of the department chairperson. 4 cr.

625, 626. WRITING FICTION
A workshop in the fundamental techniques of fiction writing. Student work is criticized by fellow students; individual conferences with instructor. Prereq: Engl 501 or equivalent. Written permission of instructor required for registration. May be repeated for credit with the approval of the department chairperson. 4 cr.

627, 628. WRITING POETRY
A workshop in the fundamental techniques of poetry writing. Class discussion and criticism of poems written by students. Individual conferences with instructor. Prereq: Engl 501 or equivalent. Written permission of instructor required for registration. May be repeated for credit with the approval of the department chairperson. 4 cr.

651, 652. COMPARATIVE LITERATURE
Comparative studies of major authors representative of important periods of world literary achievement. 651: Homer to Dante; common themes and the development of the epic tradition in early Western literature. 652: Renaissance to Modern. Topics and approaches vary from semester to semester. 4 cr.

657. SHAKESPEARE
Ten major plays representative of the main periods of Shakespeare's career and the main types of drama which he wrote (tragedy, comedy, history). Live and filmed performances included as available. Restricted to undergraduates and designed for both English majors and students majoring in other fields. 4 cr.

685. WOMEN'S LITERARY TRADITIONS
Topics vary from year to year. Examples: Myths of the southern lady and the New England school marm; Black women writers; pioneer women and Indian captivity narratives; whores and madonnas; crazy ladies; new forms in autobiography; taboos in women's literature; mythical women. 4 cr.

690. INTRODUCTION TO BLACK LITERATURE IN AMERICA
Selected prose, fiction, drama, and poetry. Individual works and historical-cultural background. Course will vary from year to year. 4 cr.

695, 696. SENIOR HONORS
Open to senior English majors who, in the opinion of the department, have demonstrated the capacity to do superior work in English. Open to seniors by departmental invitation only. May be counted as two courses toward the ten which constitute a major in English. (Not offered every year.) 4 cr.

697, 698. SENIOR SEMINARS
Intensive study of specialized topics which vary from year to year. Enrollment in each seminar is limited to 15 so that all students can take an active part in discussion and work closely with the instructor on their papers. Exceptional sophomores and juniors may be admitted with permission of the instructor. For details, see the course description available in the department office. (Not offered every year.) 4 cr.
### 701, 702. ADVANCED WRITING OF FICTION
Workshop discussion of advanced writing problems and readings of students' fiction. Individual conferences with instructor. Prereq: 625, 626 or equivalent. Written permission of instructor required for registration. May be repeated for credit with the approval of the department chairperson. 4 cr.

### 703, 704. ADVANCED NON-FICTION WRITING
A workshop course for students intending to write publishable magazine articles or non-fiction books. Equal stress on research and writing techniques. Prereq: Engl 621; 622 recommended. Written permission of instructor required. May be repeated for credit with the approval of the department chairperson. 4 cr.

### 705, 706. ADVANCED WRITING OF POETRY
Workshop discussion of advanced writing problems and submitted poems. Individual conferences with instructor. Prereq: Engl 627, 628 or equivalent. Written permission of instructor required for registration. May be repeated for credit with the approval of the department chairperson. 4 cr.

### 707. FORM AND THEORY OF FICTION
A writer's view of the forms, techniques, and theories of fiction. The novels, short stories, and works of criticism studied will vary, depending on the instructor. 4 cr.

### 708. FORM AND THEORY OF NON-FICTION
A writer's view of contemporary non-fiction, emphasizing the choices the writer faces in the process of research and writing. (Not offered every year.) 4 cr.

### 709. FORM AND THEORY OF POETRY
A writer's view of the problems, traditions, and structures of poetry. 4 cr.

### 712. CRITICAL ANALYSIS OF EXPOSITION
For the English-Teaching major; students analyze essays and write non-fiction prose. Variety of critical approaches; several methods of teaching composition. (Not offered every year.) 4 cr.

### 713, 714. LITERARY CRITICISM
Major critics from Plato to the present and the chief critical approaches to literature. (Not offered every year.) 4 cr.

### 715. APPLIED LINGUISTICS
Methods of teaching and learning foreign languages; background work on theories of language acquisition; the methodology of teaching English as a second language. Students interested in teaching other languages may do their projects on those languages. 4 cr.

### 716. PROBLEMS IN APPLIED LINGUISTICS
Variable topics course; problems such as language acquisition in children and adults, bilingualism, and linguistic field methods. (Not offered every year.) 4 cr.

### 718. ENGLISH LINGUISTICS
Introduction to the study of language; dialects and social and psychological problems of language; intensive work on the techniques of modern grammar (syntax, phonology, semantics). (Not offered every year.) 4 cr.

### 719. ENGLISH GRAMMAR
Traditional and contemporary approaches to the study of the structure of the English language: its history, phonology, morphology, syntax, including consideration of parts of speech, phrases, clauses, sentences, etymology, punctuation. Some emphasis on the teaching of English grammar. 4 cr.

### 720. NEWSPAPER INTERNSHIP
Students intending to pursue careers in journalism spend a semester working full- or part-time for a daily newspaper under close supervision of editors. Reporting is stressed, but the student may do some editing as well. The number of internships is very limited. Prereq: Engl 621 or its equivalent and permission. Variable, max. 16 cr.

### 741. LITERATURE OF EARLY AMERICA
Prose and poetry of the periods of exploration, colonization, early nationalism, Puritanism, Enlightenment. Individual works and historical-cultural background. (Not offered every year.) 4 cr.

### 742. AMERICAN LITERATURE, 1815-1865
Fiction, non-fiction, and poetry in the period of romanticism, transcendentalism, nationalism. Individual works and cultural background. (Not offered every year.) 4 cr.

### 743. AMERICAN LITERATURE, 1865-1915
Fiction, non-fiction, and poetry in the period of realism, naturalism, industrialism, big money. Individual works and cultural background. 4 cr.

### 744. AMERICAN LITERATURE, 1915-1945
Fiction, poetry, and drama in the period of avant-garde and leftism, jazz age and depression. Individual works and cultural background. 4 cr.

### 745. CONTEMPORARY AMERICAN LITERATURE
A gathering of forms, figures, and movements since 1945. Individual works and cultural background. 4 cr.
English

746. STUDIES IN AMERICAN DRAMA
Topics vary from year to year. Examples: 20th-century American drama; contemporary playwrights; theatricality in American life. (Not offered every year.) 4 cr.

747. STUDIES IN AMERICAN POETRY
Topics vary from year to year. Examples: poets of the open road; Pound and his followers; major American poets; contemporary American poetry. (Not offered every year.) 4 cr.

748. STUDIES IN AMERICAN FICTION
Topics vary from year to year. Examples: the romance in America; the short story; realism and naturalism; the city novel; fiction of the Thirties. 4 cr.

749. MAJOR AMERICAN AUTHORS
Intensive study of two or three writers. Examples: Melville and Faulkner; Fuller, Emerson, and Thoreau; James and Wharton; Dickinson and Frost. 4 cr.

750. SPECIAL STUDIES IN AMERICAN LITERATURE
Topics vary from year to year. Examples: the Puritan heritage; ethnic literatures in America; landscape in American literature; five American lives; pragmatism; American humor; transcendentalism; women regionalists. 4 cr.

751. MEDIEVAL EPIC AND ROMANCE
The two major types of medieval narrative; comparative study of works from England, France, Germany, and Iceland, including Beowulf, Song of Roland, Niebelungenlied, Gottfried's Tristan, Njal's Saga, and Malory's Morte d'Arthur. All works read in modern English translations. (Not offered every year.) 4 cr.

752. HISTORY OF THE ENGLISH LANGUAGE
Evolution of English from the Anglo-Saxon period to the present day. Relations between linguistic change and literary style. (Not offered every year.) 4 cr.

753. OLD ENGLISH
Introduction to Old English language and literature through readings of selected poetry and prose. 4 cr.

754. BEOWULF
A reading of the poem and an introduction to the scholarship. Prereq: Engl 753. 4 cr.

755, 756. CHAUCER
755: Troilus and Criseyde, in the context of medieval continental literature by Boccaccio and other influences. 756: The Canterbury Tales. 4 cr.

758. SHAKESPEARE
A few plays studied intensively. Live and filmed performances included as available. 4 cr.

759. MILTON
Milton and his age. Generous selection of Milton's prose and poetry, with secondary readings of his sources and contemporaries. (Not offered every year.) 4 cr.

763. CONTINENTAL BACKGROUNDS OF THE ENGLISH RENAISSANCE
Major philosophers, artists, and writers of the continental Renaissance (in translation); Petrarch, Ficino, Pico, Vives, Valla, Castiglione, Machiavelli, Luther, Calvin, Rabelais, Montaigne, Cervantes, Erasmus, and Thomas More, as representative of the early English Renaissance. (Not offered every year.) 4 cr.

764. PROSE AND POETRY OF THE ELIZABETHANS
Shakespeare and his contemporaries. Major works, including Spenser's Fairie Queene, Sidney's Astrophil and Stella, Shakespeare's Sonnets, Marlowe's Dr. Faustus; their literary and intellectual backgrounds. (Not offered every year.) 4 cr.

765. ENGLISH LITERATURE IN THE 17TH CENTURY
Major writers of the 17th century, including Donne, Jonson, Herbert, Bacon, and Hobbes. (Not offered every year.) 4 cr.

767, 768. LITERATURE OF THE RESTORATION AND 18TH CENTURY
Representative works; texts studied closely; the ways they reflect the central intellectual problems of their age. 767: Dryden, Rochester, Restoration plays, Bunyan, Defoe, Montesquieu, and Swift. 768: Pope, Fielding, Johnson, Boswell, Voltaire, Sterne, Rousseau, Beckford, Diderot, and Blake. 4 cr.

769, 770. THE ENGLISH ROMANTIC PERIOD
Major literary trends and authors, 1798 to 1832. Focus on poetry but attention also to prose works and critical theories. 769: Wordsworth, Coleridge, Lamb, Hazlitt, DeQuincey; 770: Byron, Shelley, Keats. (Not offered every year.) 4 cr.

771, 772. VICTORIAN PROSE AND POETRY
Major writers; social and cultural history. Typically included in 771, Carlyle, Ruskin, Newman, Tennyson, Browning, and others; in 772, Arnold, the Pre-Raphaelites, Swinburne, Hopkins, and others. (Not offered every year.) 4 cr.
Entomology

773, 774. BRITISH LITERATURE OF THE 20TH CENTURY
Poets and novelists; the concept of modernity in literature. Offerings vary by year and by instructor, but normally include such figures as Joyce, Lawrence, Yeats, Woolf, Forster, and more contemporary writers such as Burgess, Fowles, Murdoch, and Golding. 4 cr.

775. IRISH LITERATURE
Survey from the beginnings to the present; works in Irish (read in translation) such as The Cattle Paid of Cooley, medieval lyrics, and Mad Sweeney; and works in English from Swift to the present. 20th century authors: Joyce, Yeats, Synge, O'Casey, Beckett, and Flann O'Brien. (Not offered every year.) 4 cr.

781. ENGLISH DRAMA TO 1800
Development from the Middle Ages through the 18th century, emphasizing the Elizabethan-Jacobean contemporaries of Shakespeare (Marlowe, Jonson, Webster). Selected plays from the middle ages, the Restoration period, and the 18th century. (Not offered every year.) 4 cr.

782. MODERN DRAMA
Major English, American, and (translated) European plays of the modern period by such playwrights as Shaw, Ibsen, Chekhov, Strindberg, Pirandello, O'Neill, Brecht, Beckett, Williams, Miller, Pinter. Live and filmed performances studied as available. (Not offered every year.) 4 cr.

783. THE ENGLISH NOVEL OF THE 18TH CENTURY
The rise and development of the novel through study of selected major works by Defoe, Richardson, Fielding, Smollett, Sterne, and Austen. 4 cr.

784. THE ENGLISH NOVEL OF THE 19TH CENTURY
Representative novels from among Austen, Scott, Dickens, Thackery, Emily Bronte, Charlotte Bronte, Trollope, George Eliot, Hardy, and Conrad. 4 cr.

785. MAJOR WOMEN WRITERS
Intensive study of several writers. Selections vary from year to year. Examples: Woolfe and Lessing; Dickinson and Lowell; Charlotte and Emily Bronte; Atwood, Laurence, and Oates. 4 cr.

791-792. ENGLISH EDUCATION—PROBLEMS IN THE TEACHING OF HIGH SCHOOL ENGLISH
Methods and techniques in teaching language, composition, and literature in grades 7-12. Required of all students in the English-Teaching major. Open to others with permission. No credit toward the English major. 2 cr.

793. PHONETICS AND PHONOLOGY
The sounds and sound systems of English in the context of linguistic theory; comparisons of English to other languages. Prereq: a basic linguistic course or permission. (Not offered every year.) 4 cr.

794. SYNTAX AND SEMANTIC THEORY
The relation of grammar and meaning with special reference to poetic language. (Not offered every year.) 4 cr.

795, 796. INDEPENDENT STUDY
Open to highly qualified juniors and seniors. To be elected only with permission of the department chairperson and of the supervising faculty member or members. Barring duplication of subject, may be repeated for credit up to a maximum of 16 credits. 1-16 cr.

797, 798. SPECIAL STUDIES IN LITERATURE
1) Old English Literature; 2) Medieval Literature; 3) The Renaissance; 4) 17th Century; 5) 18th Century; 6) English Romantic Period; 7) Victorian Period; 8) 20th Century; 9) Drama; 10) Novel; 11) Poetry; 12) Non-Fiction; 13) American Literature; 14) A Literary Problem. The precise topics and methods of each section will vary. Barring duplication of subject, may be repeated for credit. For details, see the course descriptions available in the English department. 4 cr.

Entomology (Ento)

Chairperson: G. Thomas Fisher

PROFESSORS: James G. Conklin, emeritus; Robert L. Bickle
R. Marcel Reeves
ADJUNCT ASSISTANT PROFESSOR: Arthur H. Mason
RESEARCH ENTOMOLOGIST: John F. Burger

400. INSECTS: THEIR ROLE AS MAN'S GREATEST COMPETITOR
Insects and their relations to man, his environment, and his activities. Not for major credit. Mr. Fisher. 3 cr.

402. INTRODUCTORY ENTOMOLOGY
The structure, biology, and classification of insects. For students contemplating majors in entomology, wildlife management, biology, or biology-education. Each student has to make an insect collection. Mr. Fisher. Lab. 4 cr.

503. PRINCIPLES OF ECONOMIC ENTOMOLOGY
The nature of insect damage and the methods of insect control. Mr. Bowman. 4 cr.
507. FOREST ENTOMOLOGY
Especially for forestry majors. The structure, development, classification, and control of representative forest insects. Each student has to make an insect collection. Mr. Reeves. Lab. 4 cr.

704. MEDICAL ENTOMOLOGY
Especially for students interested in public health or medicine. Insects and arachnids in relation to public health; the biology and control of important disease carriers. Elective for juniors and seniors. Mr. Blickle. Lab. 4 cr.

706. SOIL ARTHROPODS
Biology and systematics of terrestrial arthropods with emphasis on the springtails, sowbugs, myriapods, mites, spiders, and other arachnids. Prereq: permission. Mr. Reeves. Lab. 4 cr.

707. TAXONOMY OF INSECTS
A study of the principles of systematics; and/or a study of immature insects. Prereq: permission. Mr. Blickle. 4 cr.

708. INSECT MORPHOLOGY
The study of the external and internal anatomy of insects. Prereq: permission. Mr. Blickle. 4 cr.

709. AQUATIC INSECTS
Identification and biology of aquatic forms of insects. Prereq: permission. Mr. Blickle. 4 cr.

710. INSECT PHYSIOLOGY
Advanced study of the insect organs and their functions. Prereq: permission. Staff. 4 cr.

720. AGRICULTURAL ENTOMOLOGY
For advanced students interested in agribusiness. A survey of economic insect pests on forage, fruit, and vegetable crops. Life cycles: damage and current methods of control. Prereq: permission. Mr. Fisher. Lab. 4 cr.

721. PRINCIPLES OF BIOLOGICAL CONTROL
The natural and applied aspects of biological control of insect and plant pests. Prereq: permission. Mr. Reeves. (Not offered every year.) 4 cr.

722. CHEMICAL CONTROL OF INSECTS
For advanced students in applied entomology. A systematic review of the chemical compounds for insect control. Modes of pesticide entry; toxicology. Basic understanding of chemistry is desired. Prereq: permission. Mr. Fisher. Lab. 4 cr.

723. REGULATORY PEST CONTROL
For students preparing for careers dealing directly with or associated with the movement of agricultural commodities in internal and foreign trade. Legal documents; federal and state statutes. Prereq: basic entomology and plant pathology courses; permission. Mr. Mason (Not offered every year.) 2 or 4 cr.

724. STRUCTURAL PEST CONTROL
For students wishing to study household and industrial entomology. Prereq: permission. Mr. Fisher. Lab. 4 cr.

Environmental Conservation

Geography (Geog)
Chairperson: William H. Wallace

PROFESSOR: William H. Wallace
ASSOCIATE PROFESSOR: Robert G. LeBlanc
ASSISTANT PROFESSOR: Robert L.A. Adams
ADJUNCT ASSISTANT PROFESSOR: James W. Cerny
LECTURER: Alasdair D. Drysdale

401, 402. REGIONAL GEOGRAPHY OF THE WORLD
The major culture areas of the world and the unique integration of human and physical phenomena that produce the distinctive character of these areas. 401: Western culture areas—Europe, the Americas, Australia, and New Zealand. 402: Non-Western culture areas—Black Africa, the Dry World, Oriental Asia, and the Pacific. 4 cr.

473. THE WEATHER
Analysis of the elements and controls of weather; emphasis on interpreting the nature and variability of New England weather. 4 cr.

511. GEOGRAPHY OF ANGLO-AMERICA
Regional and topical analysis of the United States and Canada. Relation of physical features and human phenomena to the character of the area. (Not offered every year.) 4 cr.
531. GEOGRAPHY OF WESTERN EUROPE AND THE MEDITERRANEAN
Regional and topical analysis. Patterns of natural phenomena, cultural features, and economic systems. (Not offered every year.) 4 cr.

540. GEOGRAPHY OF THE MIDDLE EAST
Environmental, cultural, political-geographic, and ecological foundations of the Middle East. Selected regional problems and issues: e.g. geographical dimensions of the Arab-Israeli conflict, oil, regional integration, economic development, urbanization, population growth and nomadism. 4 cr.

570. INTRODUCTORY CLIMATOLOGY
Analysis of the characteristics and world distribution of present climates. Climates of the past and theories of climatic change. Man’s adjustment to and modification of climate. 4 cr.

582. ECONOMIC GEOGRAPHY
The areal variation of the earth in terms of man’s production, exchange, and consumption of economic goods. Development and application of various theories of location. (Not offered every year.) 4 cr.

583. URBAN GEOGRAPHY
The city: spatial structure and geographical characteristics. Examples from every culture region; emphasis on the North American city and its problems: land use patterns, zoning, political fragmentation, urban physical environment, residential and occupational patterns, the ghetto, crime and justice, and health care delivery. 4 cr.

590. INTRODUCTORY CARTOGRAPHY
Map usage, design, and execution. Emphasis on special purpose thematic maps used in scholarly papers, theses, journals, and books. 4 cr.

612. GEOGRAPHY OF FRENCH CANADA
French Canadian culture: its distinctiveness, the reasons for its persistence, and the probability of its continued viability. Natural environment, exploration and settlement, economic change, population change, migration, development of a bicultural society, and the social, economic, and political aspects of the Quiet Revolution. Required 5- or 6-day field trip to Quebec. Prereq: permission. (Not offered every year.) 4 cr.

683. HISTORICAL GEOGRAPHY OF THE UNITED STATES
The spatial analysis of Indian economic life in 1492 and of European exploration, colonization, population change, economy, urbanization, and ethnicity to 1900. Geographic illusions and their significance. (Not offered every year.) 4 cr.

690. ADVANCED CARTOGRAPHY
An opportunity to pursue individual interests while sharing in the work of the instructor and other students. Map symbolization, map perception, computer mapping, map projection, surface analysis. Prereq: Geog 590 or permission. (Not offered every year.) 4 cr.

795. SPECIAL PROJECT IN GEOGRAPHY
Readings, library, archival, and field work. Primarily for geography seniors. Prereq: permission. 2 or 4 cr.

797. SEMINAR IN GEOGRAPHY
Methodology and philosophy of geography. History of geographic thought, organizing concepts, and geographic analysis. Definition and investigation of research problems. Primarily for geography seniors. 4 cr. Cr/F.

(See Ancient and Modern Languages and Literatures)

Health Studies (HS)
Chairperson: David E. Berry

PROFESSOR: Basil J.F. Mott
ASSOCIATE PROFESSORS: David E. Berry, Edward R. Pierce
ADJUNCT ASSOCIATE PROFESSOR: Gerald Taube
ASSISTANT PROFESSOR: Donald M. Michaels
History

400. HEALTH-HUMAN VALUES
Physiological, emotional, social, and environmental factors affecting health. Basic health information to broaden understanding of health-related issues. Students examine their patterns of decision-making in issues directly affecting their lives. 4 cr.

401. INTRODUCTION TO HEALTH CARE SYSTEMS
Nature and functions of health care services and health professionals; impact of social, political, economic, legal, and technological forces. Current health problems. 4 cr.

402. PUBLIC HEALTH AND HUMAN ECOLOGY
Exploration of the health dimension of man's interaction with his physical and social environments and analysis of the problematic relationships; investigation of public health services at various levels of government. 4 cr.

502. HEALTH AND MEDICAL CONCEPTS
Language and methodologies used by health clinicians in the prevention and treatment of disease. Efficacy of alternative interventions. Prereq: SHS major; Biol 401; or permission. 4 cr.

601. ADMINISTRATIVE PROBLEMS IN HEALTH ORGANIZATIONS
Means for improving administrative capacity of health organizations; application and analysis of various administrative processes and techniques in a health context. Prereq: junior standing in major; permission. 4 cr.

602. HEALTH ADMINISTRATION AND PLANNING: FIELD PRACTICUM
Work experience in a hospital, nursing home, neighborhood health center, health planning agency, or other health organization. Application of theories to practice. Supervision by agency personnel. Prereq: junior standing in major; permission. 10 cr.

603. HEALTH ADMINISTRATION AND PLANNING:
POST-PRACTICUM SEMINAR
Analysis of a student's field experience and critique by classmates. Prereq: junior standing in major; permission. 2 cr.

611. HEALTH AND SOCIAL PLANNING
Issues and theoretical foundations common to health- and human-services planning; evolution of health planning, current organizational patterns, planning strategies, and plan development. Prereq: junior standing in major; permission. 4 cr.

695. INDEPENDENT STUDY
In-depth study with faculty supervision. Prereq: permission of major adviser and faculty of the area concerned. Variable 2-4 cr.

798. a-k SPECIAL TOPICS IN HEALTH STUDIES
Students may explore areas related to specific professional health interests. May repeat but not duplicate subject areas. a) Communication Disorders; b) Health Studies; c) Medical Technology; d) Nursing; e) Occupational Therapy; f) Physical Education; g) Recreation and Parks; h-k) Interdisciplinary. Prereq: permission. Variable 1-4 cr.

History (Hist)

Chairperson: Charles E. Clark

ASSOCIATE PROFESSORS: Gibson R. Johnson, emeritus; Allan B. Partridge, emeritus; Robert C. Gilmore, Marion E. James, Allen B. Linden, Frank D. McCann, Robert M. Mennel, Marc L. Schwarz, John O. Voll

ASSISTANT PROFESSORS: Jeffry Diefendorf, Judith Silver, Harvard Sitkoff

401. PRESENT IN PERSPECTIVE
Selected issues in contemporary life. Modern religious, cultural, and political topics from the viewpoint of the historian in an effort to see the present in a broader perspective. Western and non-Western experiences. 4 cr.

500. INTRODUCTION TO HISTORICAL THINKING
Development of basic skills essential to the study of history: critical reading of historical literature, improvement of written and oral analysis of historical material, and use of library resources. Intensive study of books and documents from varying historical fields and periods. Required of history majors, but open to other interested students. 4 cr.

Group I. American History

503, 504. HISTORY OF THE UNITED STATES
American history from settlement to the present. Political, social, economic, and diplomatic aspects. 4 cr.

505, 506. AFRO-AMERICAN HISTORY
Experiences, aspirations, and contributions of black Americans from their ethnic origins in Africa to the present American crisis in race relations. Includes comparative study of cultures and institutions. 4 cr.
510. U.S. HISTORY: INTRODUCTION
A topical survey, within broad chronological divisions, of the development of American civilization since 1600. Not open to students who elect Hist 503 or 504. 4 cr.

703. THE COLONIAL PERIOD OF AMERICAN HISTORY
Interpretative and methodological approach to the development of an Anglo-American culture along the eastern seaboard of North America 1600-1750. 4 cr.

705, 706. AMERICA IN THE 18th CENTURY AND THE REVOLUTION
American Colonial and revolutionary history from 1740 through the adoption of the Constitution and the establishment of Washington's first administration. 4 cr.

711, 712. 19th CENTURY AMERICA
Domestic and international factors in the development of the American Republic, its institutions and people, from the inception of the new nation in 1789 to the emergence of the United States as a world power in 1900. 4 cr.

715, 716. 20th CENTURY AMERICA
U.S. after 1900; cultural, political, and social factors causing major changes in American life. First semester: progressivism through the New Deal. Second Semester: World War II to the present. 4 cr.

719, 720. THE FOREIGN RELATIONS OF THE UNITED STATES
Primarily the history of American diplomacy, with attention given to the non-diplomatic aspects. First semester: American Revolution to 1890; second: 1890 to date. 4 cr.

721, 722. HISTORY OF AMERICAN THOUGHT
Significant American thinkers considered in their social context. First semester: 1600 to 1860. Second semester: 1860 to the present. (Not offered every year.) 4 cr.

724. AMERICAN URBAN HISTORY
The urbanization process from the Colonial period to the present. 4 cr.

535. MODERN EUROPEAN HISTORY
The rise of Europe to global supremacy from the 14th to the 19th century and its transformation in the 20th. 4 cr.

559, 560. HISTORY OF GREAT BRITAIN
History of Great Britain from the earliest times to the present; from social, constitutional, economic, political, and intellectual perspectives. Designed for the history student as well as students interested in literature, western political and social systems, American studies, education, and pre-law. 4 cr.

739, 740. THREE MEDIEVAL CIVILIZATIONS
The demise of classical antiquity in the lands bordering the Mediterranean and the genesis and fruition of three new cultural traditions: Latin Christian, Islamic, and Byzantine. Religious, literatry, and scholarly survivals and innovations from 400 A.D. to 1400 A.D. 4 cr.

741. THE AGE OF THE RENAISSANCE
The Renaissance from 1300 to 1600 stressing intellectual and cultural history and concentrating on events in Italy; aspects of northern Europe will also be covered. 4 cr.

742. THE AGE OF REFORMATION
Northern Europe from 1300 to 1600, stressing the intellectual and cultural aspects of the European Reformation. Concentrates on the 16th century but important trends in the 14th and 15th centuries will be given considerable attention. 4 cr.

747. FRANCE FROM LOUIS XIV TO THE FRENCH REVOLUTION
The pressures and influences which led to the French Revolution. 4 cr.

748. 19th CENTURY EUROPE
The impact of the Industrial Revolution and the French Revolution on the workers, peasants, middle class, and women of England, France, and Germany. 4 cr.

751, 752. EUROPEAN INTELLECTUAL HISTORY
The European intellectual tradition from the Greek philosophers to the end of World War II. How basic ideas have developed out of previous modes of thought in response to new challenges. 4 cr.

756. 20th CENTURY EUROPE
World War I, European totalitarianisms. World War II, the loss of European primacy, and the search for a new Europe. 4 cr.

759. HISTORY OF MODERN SPAIN AND PORTUGAL
The Iberian states and their peoples from the coming of liberalism to the present. Failure of Iberian liberalism and liberal government. Political and social change, imperial and intellectual movements, influences of Western European thought and activity. 4 cr.
761, 762. ENGLAND IN THE TUDOR AND STUART PERIODS
The political, religious, socio-economic, and intellectual forces for
can at work in England from the accession of Henry VII to the
Revolution of 1688-89. 4 cr.

763. RUSSIA: ORIGINS TO MODERNIZATION
Russia from its foundation to Emancipation and Reform. Political
developments, foreign relations, intellectual and ideological currents.
4 cr.

764. RUSSIA: FROM TSARIST TO SOVIET EMPIRE
The cost of Modernization; Leninist and Stalinist revolutions; Soviet
consolidation. 4 cr.

767. EARLY MODERN GERMANY: REFORMATION TO THE
REVOLUTION OF 1848
Conflict between Holy Roman Empire and petty states; rise of Prus-
sia; religious conflict and Enlightenment. 4 cr.

768. MODERN GERMANY SINCE 1848
Bismarck and Imperial Germany; Weimar and the rise of Hitler; post
World War II divided Germany. 4 cr.

774. HISTORIOGRAPHY
Analysis of ancient and modern historians. Required of all entering
Ph.D. candidates, open to undergraduates with permission. (Not
offered every year.) 4 cr.

Group III. Non-Western History

501. WORLD HISTORY
Analysis of the major world civilizations, noting interrelationships in
time and space among the different human societies. Social, cultural,
and political factors of the human experience are examined. 4 cr.

531, 532. LATIN-AMERICAN HISTORY
First semester: Amerindian America and the European conquest and
domination down to the last half of the 18th century. Second semes-
ter: problems of identity, integration, and nationalism, with analysis
directed at selected national areas (e.g., Brazil, Mexico, Argentina,
and Cuba) plus attempts at generalization. 4 cr.

575. THE ANCIENT NEAR EAST
From the neolithic revolution to the time of Alexander the Great. The
rise of civilization; the nature of man’s artistic and intellectual develop-
ment in the earliest civilizations of Mesopotamia and Egypt; Ju-
daism in its historical setting. 4 cr.

576. THE AEGEAN WORLD
A history of Greece and the Aegean area from Crete to the time of
Alexander the Great in 323 B.C. 4 cr.

579, 580. THE HISTORY OF CHINA AND JAPAN
Civilizations of China and Japan from their origins to the present. First
semester: traditional civilizations of China and Japan to 1800. Second
semester: the modernization of China and Japan after 1800. 4 cr.

585, 586. THE HISTORY OF THE MIDDLE EAST
From the time of Muhammad to the present. First semester: origins
and expansion of Islam and the nature of medieval Islamic civiliza-
tion. Second semester: Ottoman history, relations with European
powers, and the emergence of modern nations in the Middle East.
4 cr.

587, 588. HISTORY OF AFRICA SOUTH OF THE SAHARA
From ancient times to the present. First semester: from prehistoric
times to 1870. Second semester: from 1870 to the present. African
migrations, kingdoms and societies; African responses to the slave
trade; Islam; European imperialism, colonialism, and industrializa-
tion; African nationalism, independence, and post-independence
problems. 4 cr.

731. LATIN AMERICAN HISTORY: REGIONAL OR COUNTRY
STUDIES
Seminar; readings and discussions of literature relative to region or
country being studied. See department listing for the current semes-
ter’s topic. Students will be guided through preparation of a research
proposal. Hist 531, 532 is recommended. 4 cr.

732. LATIN AMERICAN HISTORY: TOPICAL STUDIES
Thematic seminar; readings and discussions of literature relative to
selected topics. See the department listing for the current semester.
Students will be guided through preparation of a research proposal.
Hist 531, 532 recommended. 4 cr.

777, 778. THE Hellenistic-Roman World
The Mediterranean and the Near East from the death of Alexander
the Great to the collapse of the Roman and Persian empires (5th to
7th centuries A.D.). Covers the main political and social develop-
ments of the area, but stresses artistic, scientific, philosophical, and
religious trends, with particular emphasis on the rise of Christianity,
Zoroastrianism, and the general religious climate that prepared the
way for Islam. 4 cr.

781. HISTORY OF MODERN CHINA, 1839—PRESENT
The modernization of China. The political, social, and cultural
changes which have occurred in China from its early contacts with
the West. 4 cr.
784. HISTORY OF SOUTHERN AFRICA SINCE 1820
The struggle for political and economic control in the only region of Africa where European groups remain in power. The impact of European imperialism, European settler nationalism, racial conflict, economic competition and industrialization, Apartheid, and Assimilation with special attention to the development of European hegemony. Official American policy. 4 cr.

785. THE MODERN MIDDLE EAST
From the 18th century to the present time. The problems created by modernization and reform of the traditional society, the conservative reaction to reform, the impact of nationalism, and the appearance of new ideologies. 4 cr.

787. BLACK CONSCIOUSNESS AND PROTEST
Origins and causes of the rising consciousness and consequent activism of the peoples of Negro descent in the New World and in Africa from the early 19th century to the present. Protest literature, black nationalism, Pan-Negroism, Pan-Africanism, negritude, the Nation of Islam, and separatist religious sects in the Americas and Africa. Cross-cultural and multi-disciplinary. 4 cr.

790. QUANTIFICATION AND COMPUTERS FOR THE HISTORIAN
The historian's use of computers and statistics, practical applications of both interactive terminal operations and batch processing. Data generation and processing, computer languages (BASIC, FORTRAN), programming and library programs, elementary statistics; students will undertake operations of their own on material supplied and will consider particular quantitative studies in history in terms of techniques used. No previous knowledge of computers or college mathematics required. Prereq: admission as an undergraduate major or graduate student in history/ or permission. 4 cr.

795. INDEPENDENT STUDY
1) Early American History, 2) American National History, 3) Canada, 4) Latin America, 5) Medieval History, 6) Early Modern Europe, 7) Modern European History, 8) Ancient, 9) Far East and India, 10) Near East and Africa, 11) European Historiography, 12) American Historiography, 13) Russia, 14) World History, 15) British History. For students showing a special aptitude in history who desire to study an area or subject for which no appropriate course is offered. Prereq: permission. 4 or 8 cr.

797. COLLOQUIUM IN HISTORY
Selected topics in American, European, and non-Western history. Required of History majors. 4 cr.

Home Economics (HEc)
Chairperson: Elizabeth A. Snell

ASSOCIATE PROFESSORS: M. Elizabeth Rand, emerita; Mary E. Holder, Victor R. Messier, Elizabeth A. Snell
ASSISTANT PROFESSORS: Larry J. Hansen, Sharon F. Young
INSTRUCTORS: Gereda D. Burger, Florence P. Hansen, Mary T. Larson, Judith A. Trujillo
LECTURER: Virginia E. Jordan

407. PROFESSIONAL SEMINAR
Definition and clarification of professional and educational objectives in Home Economics. 2 cr. Cr/F.

415. BASIC CLOTHING CONSTRUCTION
Self-paced programmed instruction laboratory. Experimental approaches to clothing construction. 2 cr. Cr/F.

418. FOOD PREPARATION
Principles of food preparation and service; meal planning. Application of principles through laboratory. Prereq: HEc major. Laboratory fee $10. 2 cr.
419. MEAL MANAGEMENT
Planning, selection, and serving; management of time, money, and energy. Prereq: HEc major. Lab fee $5. 2 cr.

506. PRINCIPLES OF NUTRITION
Fundamental principles underlying the nutrition of man and animals; functions of the various nutrients in the maintenance, growth, and production of the animal body and metabolic disorders resulting from their deficiency; the digestion, absorption, intermediary metabolism, and excretion of individual nutrients will be discussed within this framework. Prereq: Human Physiology and some knowledge of organic chemistry. (Also offered as AnSc 506.) Lab. 4 cr.

507. INTRODUCTORY FIELD EXPERIENCE
Supervised community experience; opportunity to explore career opportunities in nursery schools, day care centers, cooperative extension, programs for the handicapped, youth groups, schools, community and family welfare agencies, hospitals, and others. Prereq: HEc major and permission. May be repeated up to 4 credits. 2 cr.

514. TEXTILES
Textile fiber and fabric properties, producer-retailer-consumer interrelationships, the textile industry. Laboratory work with textile fibers and fabrics. 4 cr.

525. HUMAN DEVELOPMENT
Development and guidance from conception through aging. Specific observation project required. 4 cr.

527. GUIDING CHILDREN
Current theoretical approaches to communicating with children and influencing their behavior. Weekly 2-hour working session with preschool children in a laboratory setting; weekly 2-hour seminar. Prereq: HEc 525. 2 cr.

531. HOUSING AND DESIGN
Housing examined in terms of design, physical, socio-psychological, and community needs. 4 cr.

557. CONSUMER EDUCATION
Role and responsibility of the consumer in the marketplace including consumer decision-making. Protective role of government as it relates to the consumer. 4 cr.

573. HUMAN NUTRITION
Principles of nutrition and application to life. 4 cr.

575. NORMAL AND THERAPEUTIC NUTRITION
Principles of nutrition and application to health during the life cycle; dietary treatment of some diseases. 4 cr.

583. THE YOUNG ADULT
Effects of experience on identity formation in normal development of adolescent to adulthood. 4 cr.

607. PROFESSIONAL SEMINAR
Philosophy, focus, and issues in home economics. Professional opportunities; role of home economist as an educator. 2 cr. Cr/F

615. SPECIALIZED CLOTHING CONSTRUCTION
Methods, processes, and techniques in pattern designing; advanced clothing construction. Laboratory: application and experimentation. Prereq: HEc 415; or permission. 4 cr.

626. THE YOUNG CHILD
Research concerning normal development during infancy and early childhood. Student will design and conduct an individual study with young children. Prereq: HEc 525; Psyc 581; or equivalent. 4 cr.

627. PRESCHOOL METHODS AND MATERIALS
Learnings appropriate for young children; methods and materials for encouraging these learnings in a developmentally sound manner. Prereq: HEc 525; 527; permission. 4 cr.

657. MANAGEMENT AND DECISION MAKING IN THE FAMILY
Management concepts including decision making applied to families. 4 cr.

671. INTRODUCTION TO FOOD SCIENCE
Experimental study of food; application of principles underlying food preparation; experimentation in comparative food preparation. Prereq: HEc 418 or equivalent; organic chemistry. Lab fee $8. 4 cr.

674. QUANTITY FOOD PURCHASING AND PRODUCTION
Principles and methods; lab experiences in University dining halls. Prereq: basic food preparation; permission. 4 cr.

683. FAMILY RELATIONS
Theories and supporting research; dynamics and patterns of interaction, role behavior, and development in families. Prereq: course in behavioral sciences. 4 cr.

685. ONE SEMESTER AT THE MERRILL-PALMER INSTITUTE
Junior or senior majors in HEc may attend the Merrill-Palmer Institute in Detroit, Michigan, for one year or one semester. Cr/F.

695. INDEPENDENT STUDY
Students with special ability in a selected area of home economics may work on a problem of special concern. Regular conferences with an adviser are required. Prereq: department permission. May be repeated. 2 or 4 cr.
696. FIELD EXPERIENCE
Work with an agency, institution, or organization concerned with the welfare of families and individuals. Students will plan with department adviser and apply for approval. Student will live in or near the community in which s/he is working and will pay regular University tuition. Prereq: approval of faculty members and limited to HEc juniors and seniors. Variable to 16 cr.

707. PRACTICUM IN HOME ECONOMICS
Supervised in-depth experience with observation and participation to increase the student's understanding in a specific area of home economics. Choice of practicum from 1.) Child; 2.) Family; 3.) Consumer; 4.) Food and Nutrition. Prereq: HEc major; permission. 4 cr.

709. BIOCHEMISTRY OF NUTRITION
Intermediary metabolism of nutrients and energy; metabolism transport mechanisms; biological oxidations; interrelationships of carbohydrate, fat, and protein metabolism; obesity; control of hunger and appetite. Prereq: college course in biochemistry. (Also offered as AnSc 709.) 4 cr.

715. CLOTHING IN RELATION TO HUMAN BEHAVIOR
Research and theory in the social psychological aspects of clothing; clothing behavior of individuals and groups; stages of the life cycle, development of the self, and the phenomenon of fashion. 4 cr.

725. PRESCHOOL PROGRAMS
Organization of time, space, materials, and people for the purpose of attaining goals in preschool education. Historical and current programs. Prereq: HEc 627/ or permission. 4 cr.

727. STUDENT TEACHING IN PRESCHOOL
Supervised teaching experience. Students spend five half-days a week in a selected preschool working with a cooperating teacher. Weekly seminar on campus. Prereq: HEc major; HEc 525, 527, 626, 627; permission. 6 cr.

754. PERSONAL AND FAMILY FINANCE
Financial alternatives available to individuals and families during stages of the family life cycle. 4 cr.

757. CONSUMER PROBLEMS
Consumer problems analyzed from the perspective of family, business, and government interests. Prereq: 8 credits in consumer studies; permission. 4 cr.

774. CLINICAL DIETETICS
Principles of normal nutrition applied to clinical problems; altered nutrient requirements in human disease. Diet therapy as applied to clinical nutrition. Prereq: HEc 573; 506; a college course in biochemistry; permission. 4 cr.

776. CONTEMPORARY ISSUES IN NUTRITION
Focus on national and world-wide nutrition concerns. Approaches and materials used in nutrition education. Prereq: HEc 573 or 575; permission. 4 cr.

786. DYNAMICS OF FAMILY CHANGE
Theories and research for the assessment of family interaction patterns; planned intervention techniques. Students examine their interaction processes and their possible effect on intervention efforts. Prereq: HEc 683; Psyc 561. 4 cr.

791. METHODS OF TEACHING HOME ECONOMICS
Home Economics in the school program; curriculum materials methods, and resources in teaching. 4 cr.

793. FAMILY LIFE EDUCATION
A critical review of current issues and literature; materials and methods lor programs such as sex education and parent education. Prereq: Biol 409; HEc 683; permission. 4 cr.

Hotel Administration (Hotl)
Program Director: Mel Sandler
ASSOCIATE PROFESSOR: Mel Sandler
ASSISTANT PROFESSOR: Eric B. Orkin
INSTRUCTOR: Neil R. Porta
ADJUNCT LECTURERS: James McFate, Leonard Rochette

403. ELEMENTS OF INSTITUTIONAL ADMINISTRATION
Introduction to food service and lodging industry. Application of classroom principles through lectures, field trips, food labs, catering for on-campus functions, and participation in gourmet dinner productions. 4 cr.

518. FINANCIAL ANALYSIS AND CONTROLS
Effective use of managerial accounting concepts and techniques, applicable to hospitality and service industries. Prereq: Adm 517. 4 cr.

556. MANAGEMENT OF PHYSICAL STRUCTURES
Components of physical structures as functional units. Lectures, guest speakers, and specialists related to design and construction. Students develop simulated hotel/motel construction projects. 4 cr.

655. MANAGEMENT FOR TRANSIENT, LEISURE, AND INSTITUTIONAL SERVICES
"Front-of-the-house" operations course. Through classroom and field work, students develop and publish an operations manual for a selected lodging facility. Prereq: Hotl 518. 4 cr.
666. MARKETS AND PROMOTION OF PUBLIC SERVICES
Principles learned in basic marketing course applied to the lodging and food service industries. Two major consulting projects for industry clients including a formal report and presentation to the clients. Prereq: Adm 651. 4 cr.

667. FUNCTIONAL MANAGEMENT
Integration of the management principles and techniques. Presentation of large scale gourmet dinners; service as consultants to on-campus food service facilities; individual research projects. 4 cr.

695. INDEPENDENT ANALYSIS
Study and research project for honor students to advance knowledge in lodging and food services fields. Prereq: senior standing and permission. 4 cr.

698. SEMINAR
Special topics and developments in lodging and food services industries. Prereq: senior standing and permission. 4 cr.

Humanities (Huma)

401. INTRODUCTION TO THE HUMANITIES
Interdisciplinary study of creative arts and living ideas. For freshmen with little or no previous exposure to humanities. Multisection course on different topics. Three sections must be passed to receive credit. Sections divided into three categories: 1) practical aspects of the creative process, 2) ideas which have influenced man from ancient to modern times 3) area studies. Cultural events included when appropriate. May be repeated for credit if different sections are taken. 4 cr.

501. HUMANITIES OF THE ANCIENT WORLD
Appreciation of literature, the arts, and philosophy. Roots of Western civilization: Homer, Greek tragedy, Plato, Aristotle, the Bible, Virgil. Weekly lecture series, slides, films, visit to Boston museums. 4 cr.

502. HUMANITIES OF THE MODERN WORLD
Literature, philosophy, and art from Dante through the French and Russian realists. Dante, Castiglione, Machiavelli, Montaigne, Racine, Molliere, Pope, Goethe, Wordsworth, Zola, Tolstoy. Weekly lecture series, slides, films, visit to Boston museums. 4 cr.

503. HUMANITIES OF THE 20th CENTURY
Literature, philosophies, and art of Western civilization in the last hundred years. Prereq: Huma 502; or course in history of literature, philosophy, or the arts. 4 cr.

595. SPECIAL STUDIES IN THE HUMANITIES
Selected topics not covered by existing courses, with subjects to vary. May be repeated for credit. 2 or 4 cr.

699. SENIOR PROJECT IN HUMANITIES
Independent study open only to senior Humanities majors, with individual project approved and supervised by faculty. Variable 2-6 cr.

Hydrology
(See Institute of Natural and Environmental Resources)

Institute of Natural and Environmental Resources

Director: David P. Olson

ASSISTANT PROFESSORS: W. Thomas Adams, John E. Carroll, S. Lawrence Dingman, Bruce Lindsay, Frederick Lindzey, Roger P. Sloan
ADJUNCT PROFESSORS: George E. Frick, Nelson L. LeRay
ADJUNCT ASSOCIATE PROFESSORS: C. Anthony Federer, William B. Leak, Robert S. Pierce
ADJUNCT ASSISTANT PROFESSORS: Peter W. Garrett, Douglas E. Morris

Institute of Natural and Environmental Resources (INER)

401. NATURAL AND HUMAN RESOURCES OF NEW ENGLAND
Historical and present population and settlement patterns, potential demographic patterns; changing socio-economic, political, and cultural patterns; transportation characteristics; changing resource foundation: soils, minerals, water, air, forests, wildlife, fisheries, parks, critical natural environments, and aesthetic amenities. Outside speakers. Mr. Carroll. 2 cr.

511. COMPUTATION METHODS IN NATURAL RESOURCES
Computer programming using BASlC on remote terminals to solve forestry and other natural resource problems. No credit if Math 403 is taken. Lab. Mrs. Carroll. 2 cr.
528. APPLIED STATISTICS I
Development of elementary statistical techniques through the analysis of prepared data. Continuous and discrete probability distributions; distributions of sample statistics; small-sample theory; regression; correlation; non-parametrics. No credit for upper division undergraduates or graduate students. (See INER 701.) Mr. Durgin. 4 cr.

581. METHODS IN LAND SURVEYING
Principles and field methods of land surveying for the natural resource manager; measurement of distance, direction, and elevation; instrumentation and computation; legal aspects of land description and boundary. Prereq: FoRs 542/or permission. Mr. Jenkins. Lab. 4 cr.

603, 605. ENVIRONMENTS OF NEW HAMPSHIRE
Societal and ecological modifications of N.H. environments from seacoast to alpine tundra, including the physical, biological, economic, and societal modifications of each system. Prereq: basic course in biology and economics/or permission. Summers only. 3 cr.

604, 606. ENVIRONMENTS OF NEW HAMPSHIRE LAB
Techniques in collection and maintaining plant, animal, and geologic specimens; demonstrations on the ecologic and environmental systems; use of audio-visual aids to learn the systems; and field observation and collection. Transportation fee. 2 cr.

609, 610. SEMINAR
Seminars arranged according to student needs: 1) Community Development; 2) Forestry; 3) Hydrology; 4) Resource Economics; 5) Soils; 6) Wildlife; 7) Fire Ecology; 8) Environmental Conservation; 9) Coastal Zone Management. Staff. Variable 1-2 cr.

611. COASTAL RESOURCE MANAGEMENT
Systematic and regional analysis of the environmental problems caused by man's use and misuse of the coastal zone (estuaries, wetlands, saltmarsh, beaches); alteration, destruction, and pollution of these environments. Some emphasis on coast and shoreline of the Northeast with fieldwork. Transportation fee. Mr. Carroll. 4 cr.

615. LINEAR PROGRAMMING METHODS
Setting up and solving problems by the simplex and distribution methods; variation in linear programming methods with applications; non-linear programming, discrete programming; and solving input-output and game-theory problems. Applications to firm and aggregate economic analysis. Prereq: Elementary Matrix Algebra/or permission. 3 cr.

635. CONTEMPORARY CONSERVATION ISSUES
How man's technology causes biological and social conflicts when applied to wild-land resources; multiple demands of game, timber, water, minerals, and soil ecosystems vs. economic growth. Elective for all students except freshmen. Mr. Wallace, Mr. Carroll. 4 cr.

637. PRACTICUM IN ENVIRONMENTAL CONSERVATION
Independent participation in an environmental conservation activity to help people understand and improve environmental quality. Students plan, present, and discuss their activities. Individual or group projects may be developed with any faculty member within or outside INER. Research projects are not acceptable. Prereq: senior standing. Staff. Lab. 4 cr. Cr/F

701. STATISTICAL METHODS I
Analysis of variance and general linear models; measured numbers, the nature of statistical evidence, sampling distributions, and principles of statistical inference; application of specific linear models to given sets of data. Prereq: upper-division undergraduate or graduate standing. Mr. Durgin. 4 cr.

702. NATURAL RESOURCES POLICY
Contemporary issues in the management and allocation of natural resources; impact of man on agricultural and forest lands, water, wildlife, fisheries, and minerals; historical perspective of current resource policies. Prereq: permission. Mr. Bruns. 4 cr.

709. SOILS AND COMMUNITY PLANNING
Using a town plan and soils map, students develop reports for multiple urban and rural land-use—housing, sewage, recreation, transportation, runoff, etc. USDA soil classification system; Soil Conservation Service rating criteria; N.H. soils. Guest lecturers. Prereq: permission. Mr. Peterson. 2 cr.

711. STATISTICAL METHODS II
Intermediate course in statistics; basic concepts of sampling, linear models and analyses for one-way and multiway classification, factorial arrangement of treatments, multiple regression, and covariance. Computer programs used in analyzing data. Examples taken from environmental sciences. Prereq: INER 528/or equivalent. Mr. Barrett. 4 cr.

712. SAMPLING TECHNIQUES
The techniques of sampling finite populations in environmental sciences; choice of sampling unit and frame; estimation of sample size, confidence limits, and comparisons of sample designs. Prereq: INER 528/or equivalent. Mr. Barrett. 2-4 cr.
## QUANTITATIVE ECOLOGY
Applied quantitative techniques: basic concepts in probability and statistics applied to ecological systems, population dynamics, spatial patterns, species and abundance and diversity, classification and ordination, production, and energy and nutrient flow. Additonal credit for in-depth mathematical analysis of a particular topic. Prereq: introductory courses in calculus, statistics, and ecology. Mr. Barrett. 3 or 4 cr.

## LAW OF NATURAL RESOURCES AND ENVIRONMENT
For resource managers: the legal system pertaining to resource management, protection of the environment, and possibilities for future action. Prereq: INER 635/or REco 606/or permission. Mr. Tucker. 3 cr.

## POLLUTION OF WATER: CAUSES AND CONTROL
Problems in environmental pollution; scientific and technological aspects of pollution and pollution control; sources, effects, and control of water pollution, and its social, economic, and legal implications. Prereq: senior or graduate standing. Mr. Harter. 4 cr.

## BASICS OF REMOTE SENSING
Fundamentals for application of photographic and non-photographic sensors to information gathering in natural resource fields; emphasis is on the interpretation of aerial photographs. Applications to forestry, wildlife, land-use planning, earth sciences, soils, hydrology, and engineering. Transportation fee. Mr. Bruns. Lab. 2 cr.

## APPLICATIONS OF REMOTE SENSING
Applications of remote sensing to the student's disciplinary interest. Student project is developed using available conventional aerial photography or other imagery. Transportation fee. Prereq: INER 757;/or equivalent. Transportation fee. Mr. Bruns. Lab. 2 cr.

## FOREST RECREATION SEMINAR
Recreational use of non-urban lands; economics of public and private developments; planning for state and private recreational use, social aspects. Class project. Prereq: junior standing;/or permission. Mr. Wallace. 4 cr.

## WOOD SCIENCE AND TECHNOLOGY
Microstructure; physical, chemical, and mechanical properties; seasoning and preservation of wood; identification of commercially important timbers; log and lumber grading; sawmill volume and grade yield study. Transportation fee. Mr. Hill. Lab. 4 cr.

## SILVICULTICS
The ecological base of silviculture, classification of forest communities, environmental factors and their influence on forest vegetation; influence of vegetation on environment. Transportation fee. Prereq: Bot 411; FoRs 425 or Bot 566; Soil 501 taken concurrently. Mr. Hocker. Lab. 4 cr.

## FORESTLAND MEASUREMENT AND MAPPING
Elementary measuring equipment and techniques; preparation of maps; public land survey; courthouse deed search. Two-week field session following the close of spring semester. Transportation fee. (Forestry and wildlife majors only.) Mr. Foster, Mr. Weyrick. 2 cr.

## FOREST ECONOMICS
Supply and demand for forest products and services; forestry and the general economy; economics of the firm; forest evaluation; taxation. Prereq: a course in principles of economics. Mr. Weyrick. Lab. 4 cr.

## SILVICULTURE
Application of ecological knowledge to the control, establishment, composition, and growth of forest stands for economic purposes. Transportation fee. Prereq: FoRs 425 and 527. Mr. Hocker. Lab. 4 cr.

## FOREST HARVESTING, SILVICULTURE, AND MANAGEMENT
Sec. 1: harvesting and silviculture activities. Prereq: FoRs 629;/or permission. Sec. 2: extended field trip to another forest region. Prereq: senior standing; FoRs 745;/or permission. Staff. Limited enrollment. 1-2 cr. Cr/F.

## WILDLIFE ECOLOGY
Principles and factors affecting wildlife populations, including wildlife and fish management, population dynamics, identification, census methods, habitat requirements. A research project is required. Prereq: basic course in biology, botany, or zoology;/or permission. Transportation fee. Mr. Lindzey. Lab. 4 cr.

## FOREST MENSURATION
Mathematical, statistical, and computer techniques in forest resource measurements and inventory; area sampling, point sampling, and photogrammetric techniques. Transportation fee. Prereq: calculus; computer techniques; FoRs 542. Mr. Barrett. Lab. 4 cr.
### 660. FOREST FIRE PROTECTION
Forest fire prevention, behavior, and effective control; weather phenomena; other aspects of forest damage; fire effects and use. Transportation fee. Prereq: FoRs 527 or 629; Soil 501. Transportation fee. Mr. Weyrick. Lab. (10 weeks of semester). 2 cr.

### 672. ECOLOGICAL ENERGETICS
Flow of energy through ecological systems; thermodynamics in biological systems; photosynthesis; respiration, trophic structure; productivity; ecological efficiency; man's use of energy, present and future, and his effects on energy flow in the ecosystem. Prereq: an ecology course/or permission. Mr. Mautz. 4 cr.

### 695, 696. INVESTIGATIONS IN FORESTRY

### 720. FOREST GENETICS
The genetics of forest tree improvement; variation in natural populations, evolutionary principles, and breeding methods. Prereq: PlSc 604 (Zool 604); FoRs 629/or permission. Mr. Adams. Lab. (Not offered every year.) 3 cr.

### 722. ADVANCED SILVICULTURE
Intensive silviculture of forest stands. Artificial regeneration (e.g., alternative regeneration methods and site preparation); plantation management (e.g., thinning schedules and fertilization). Prereq: FoRs 629 or equivalent; permission. Mr. Adams and Mr. Hocker. 4 cr.

### 734. FOREST PROTECTION SEMINAR
Discussion and special problems based on principles and techniques of forest protection. Prereq: FoRs 660/or courses in entomology or plant pathology. Mr. Weyrick. 3 cr.

### 737. GAME MANAGEMENT I
Biological characteristics, habitat requirements, research and management practices of upland game birds and big game animals. Several all-day field trips required (possibly on weekends) to New England wildlife areas. Transportation fee. Prereq: wildlife management major/or permission. Mr. Mautz. Lab. 4 cr.

### 738. GAME MANAGEMENT II
Biological characteristics, habitat requirements, research and management practices of small game animals, fur-bearing, predators, and waterfowl. Several all-day field trips required (possibly on weekends) to New England wildlife areas. Transportation fee. Prereq: wildlife management major/or permission. Mr. Mautz. Lab. 4 cr.

### 745. FOREST MANAGEMENT
Production control; management objectives; forest production regulation and economic analysis; forest administration; professional responsibilities and opportunities. Prereq: completion of junior year in forestry curriculum. Transportation fee. Mr. Weyrick. Lab. 4 cr.

### 753. OPERATIONS CONTROL AND ANALYSIS
Quantitative tools for decision-making in forest resource management activities; development and analysis of cost functions, timber and stumpage valuation, forecasting, linear programming. Monte Carlo simulation, PERT. Prereq: calculus; forest economics; statistics; mensuration. Mr. Foster. Lab. 4 cr.

### 754. WOOD PRODUCTS MANUFACTURE AND MARKETING
Wood products from harvesting and procurement of raw material to finished product processes; management decisions, marketing, and promotion problems. Visits to harvesting operations and manufacturing plants in New England. Transportation fee. Prereq: FoRs 426/or permission. Mr. Hill. Lab. 4 cr.

### 764. FOREST INDUSTRY ECONOMICS
Business methods and economics in the forest industry; planning for minimum cost operations and profitable use of capital in a forest enterprise. Individual projects. Prereq: senior standing/or permission. Mr. Wallace. 4 cr.

### 798. FOREST RESOURCES MANAGEMENT SEMINAR
Population trends and human needs in relation to forest land productivity for timber, wildlife, water, recreation, and grazing. Class organized for group planning to maximize forest productivity for the state of New Hampshire. Prereq: FoRs 745. Mr. Wallace. Lab. 4 cr.

### Hydrology (Hydr)

### 504. FRESHWATER RESOURCES
Major determinants of freshwater resources including: hydrologic cycle and water balance; precipitation, stream-flow measurement; pollution; water supply and sewage treatment; water resource development. Mr. Byers. Lab. 4 cr.

### 603. HYDROLOGY AND WATER MANAGEMENT
Engineering principles and the control of water; precipitation and stream-flow measurement, hydrograph development, estimating run-off from a watershed, and the design of structures to control this run-off. Instrumentation and problem analysis. Transportation fee. Mr. Byers. Lab. 4 cr.
705. PRINCIPLES OF HYDROLOGY
Physical principles important in the hydrologic cycle, including: basic equations, properties of water, movement of water in natural environments, formation of precipitation, relations between precipitation and streamflow, snow-melt, evapotranspiration, interception, infiltration, relations between groundwater and streamflow, and hydrologic aspects of water quality. Problems of measurement and aspects of statistical treatment of hydrologic data. Transportation fee. Prereq: calculus. Mr. Dingman. Lab. 4 cr.

710. GROUNDWATER HYDROLOGY
Principles governing occurrence, location, and development of groundwater, well hydraulics, geophysical exploration, and chemical quality of water; use of fluid and electrical models; and selected problems. Basic course for hydrology majors and other qualified students. Prereq: one year of calculus. Mr. Hall. Lab. 4 cr.

795, 796. INDEPENDENT WORK IN HYDROLOGY

Resource Economics (REco)

411. INTRODUCTION TO RESOURCE ECONOMICS
Organization and operation of the American economic system; role that resource-use plays within that system. Essential elements of macroeconomic principles; institutions and programs affecting resource use and the impact on environmental quality. Principles dealing with the economic operation of individual consumption or production units within the framework of supply, demand, price, and the economic principles of marginality. Major subject-matter fields of resource economics are reviewed. Mr. Lindsay. Cannot be taken for credit after Econ 402 or equivalent. 4 cr.

501. AGRICULTURAL AND NATURAL RESOURCE PRODUCT MARKETING
Structure, organization, and performance of the business section in agriculture, forestry, and other local natural resource-based industries, commodity marketing systems; demand estimation, pricing policies, consumer characteristics, and related topics. Prereq: REco 411 or equivalent;/or permission. Mr. Andrews. 4 cr.

504. MANAGEMENT OF FARM AND RELATED RESOURCE-BASED BUSINESS
Planning, operation, and control of the farm with emphasis on application for the commercial farmer. Prereq: REco 411 or equivalent;/or permission. Mr. Weldon. Lab. 4 cr.

506. POPULATION, FOOD, AND RESOURCE USE IN DEVELOPING COUNTRIES
The economic, technical, cultural, social, and political factors that influence food supplies, nutrition resource use, employment, and income distribution in the developing countries; the population explosion; strategies for expanding food supplies; social and institutional constraints. strategies and policies for economic development. Prereq: REco 411;/or equivalent. Mr. Jansen. 4 cr.

606. LAND ECONOMICS AND USE
Economic and institutional factors affecting man's use of land resources; historical discussion of land ownership patterns; supply and demand; production relationships; location and resource use; benefit-cost analysis; institutional restraints and planning for more efficient use of land; the real estate market and taxation. Mr. Henry. 4 cr.

612. MARINE RESOURCE ECONOMICS
Economic overview of the marine environment; interactions/conflicts surrounding this multiple-use resource. Economics of fisheries; marine recreation; offshore facilities; aquaculture; waste disposal. Prereq: REco 411 or Econ 402;/or permission. Staff. 4 cr

676. ECONOMICS OF WATER USE AND QUALITY MANAGEMENT
Economics of water use; role of government and policy agencies, water supply and demand, economic impact of water and water quality standards, alternatives in quality management, externalities, and methods of evaluation. Prereq: elementary biological or physical science (or Hydr 504); elementary economics. Mr. Andrews. 4 cr.

706. ECONOMICS OF RESOURCE DEVELOPMENT
Resource scarcity and theories of economic development; the major resource development problems of land and natural resources, urban-rural conflicting demands, and conservation and water supply; capital needs, externalities, and market failure. Prereq: intermediate economic theory. Mr. Jansen. (Not offered every year.) 4 cr.

710. RESOURCE ECONOMICS SEMINAR
Seminars arranged to students' needs and offered as demand warrants: 1) Agricultural Economics and Food Policy; 2) Rural Development; 3) Marine Economics; 4) Location of Economic Activity; 5) Land and Water Economics; 6) Quantitative Methods; 7) Environmental Economics. Provides in-depth treatment of area including classic works. May be repeated. Staff. 2-4 cr.

756. REGIONAL ECONOMIC ANALYSIS
Concepts and methods of delimiting regional economies, theories of growth, methods of measuring activity, regional development, and public policies. Emphasis on empirical research studies. Prereq: intermediate economic theory; elementary statistics; calculus; linear programming;/or permission. Staff. 4 cr.
795-796. INVESTIGATIONS IN RESOURCE ECONOMICS

Community Development

507. INTRODUCTION TO COMMUNITY DEVELOPMENT
Principles and methods of community development; skills required to help people enhance the social and economic well-being of their communities. Institutional structures; change processes; citizen participation in decision-making; and problem analysis in contemporary, non-metropolitan communities in New England. Mr. Jansen. Lab. 4 cr.

508. APPLIED COMMUNITY DEVELOPMENT
Students work in an actual community, assisting individuals and groups to identify needs and problems, establish attainable and objective goals, assess requirements and resources, and formulate programs for development; methods of collection, analysis and integration of pertinent primary and secondary economic, social, political, and physical data for community development. Prereq: REco 507; or permission. Lab. 4 cr.

614. COMMUNITY PLANNING
Community planning process in non-metropolitan communities; practical application of planning techniques. Community components: housing, jobs, schools, recreation, transportation; community appearance and the administrative structure for planning. Use of planning tools: data gathering and analysis, the master plan, zoning and subdivision regulations, community development programs. Prereq: REco 411; REco 507; or permission. Staff. 4 cr.

705. PLANNED CHANGE IN NON-URBAN COMMUNITIES—APPLICATION
Application of community development theory and principles using appropriate research methodologies. Students participate in community-development activities, and discuss problems and report on experience and progress in weekly seminars. May include placement in field agency. Prereq: REco 508; or permission. Mr. LeRay. 4 cr.

717. LAW OF COMMUNITY PLANNING
Common law and the Constitution with respect to property law including eminent domain, land-use planning, urban renewal, and zoning. Makes the non-lawyer aware of the influence and operation of the legal system in community development. Mr. Tucker. 4 cr.

Soil Science (Soil)

501. SOILS AND THE ENVIRONMENT
Physical, chemical, and biological aspects of soils in the environment. Labs coordinate with lectures. Transportation fee. Mr. Peterson. Lab. 4 cr.

502. SOIL-PLANT RELATIONSHIPS
Soils and the requirements for optimum growth of plants with emphasis on nutrient availability; soil needs for meeting world food problems are reviewed. Transportation fee. Mr. Peterson. Lab. 4 cr.

602. CHEMICAL ANALYSIS OF SOIL
Methods of soil chemical analysis. Prereq: quantitative analysis; permission. Mr. Harter. Lab. 2 cr.

605. MINERAL CYCLING IN TERRESTRIAL ECOSYSTEMS
How minerals, primarily plant nutrients, are cycled in soils and plants; chemical, microbiological, and physical interactions in the soil; nutrient uptake; how these nutrients are replaced in undisturbed ecosystems; how the cycles are disrupted by man's activities; New Hampshire's dominant soil-plant communities; greenhouse experience and field trips. Prereq: Soil 501; Bot 411 or PISc 421; or permission. Mr. Harter. Transportation fee. Lab. 4 cr.

614. SOIL MANAGEMENT
Study and application of the principles of soil tillage, soil moisture control, soil fertility maintenance, and soil conservation practices to the successful management of the soil for crop production. Mr. Breeding. Lab. 3 cr.

701. PHYSICS OF SOILS
Soil as a physical system; textural and structural analysis of soils; water flow and retention, and heat and gas transfer; the physical properties of soil and plant growth; methods of soil physical analysis. Prereq: Soil 501; or permission. Lab. 4 cr.

702. CHEMISTRY OF SOILS
Chemical composition of soil; colloidal phenomena and the exchange and fixation of elements; cation exchange capacity and source of negative charge; inorganic reactions in soil and their effect on soil properties. Prereq: one year of college chemistry; or permission. Mr. Harter. 3 cr.

704. SOIL CLASSIFICATION AND MAPPING
Soil genesis, morphology, classification, and mapping; major classification systems used in the U.S. and throughout the world as they relate to man's uses of the soil. Transportation fee. Prereq: Soil 501; an introductory geology course; or permission. Transportation fee. Mr. Peterson. 4 cr.
Inter-College Courses

795, 796. INDEPENDENT WORK IN SOIL SCIENCE
1) Soil-Plant Relationships; 2) Physics of Soils; 3) Chemistry of Soils; 4) Soil Classification. Majors must take 795 and 796 for two credits per semester in their senior year. Student may choose faculty consultant and topics. Interested students from other departments may enroll for two credits per course.

Inter-College Courses (Inco)

598, 599. INDEPENDENT WORK-STUDY
598 (off-campus), 599 (on-campus). These courses are for students who wish to pursue a semester of independent study in disciplines not within the purview of a particular department. Students select the problem area in which they wish to work, create their own bibliography for reflection, and find their own channels to actively pursue the problem. Students must write a proposal identifying the manner in which they intend to pursue the study and obtain the sponsorship of a faculty member. The proposal should be submitted to the Teaching Learning Council of the appropriate college, via the college office. Students proposing to take these courses must have the signature of the Teaching Learning Council chairperson before registering for the courses. For information, please consult Dr. Phyllis Forbes, assistant to the president, Thompson Hall, or Dr. John G. Chaltas, Room 307A Dimond Library, chairperson of the Teaching Learning Council. 4-16 cr.

650. INTRODUCTORY STATISTICS
A selectable set of 1-credit modules. Permission required to register for only 1 credit or more than 5 credits per term. The total number of available modules will vary from term to term and eventually will be around 10. Offerings for a particular term will be available from the Office of Academic Computing. Module topics include: 1) Introductory Statistics (a prerequisite for most modules); 2) Probability; 3) Correlation and Regression I and II; 4) Planning an Investigation I and II; 5) Sampling I and II; 6) Chi Square. Students should consult with faculty in their major department in order to choose those modules which are pertinent to their field of study. (May be repeated for credit.) 1-12 cr.

Latin
(See Ancient and Modern Languages and Literatures)

Linguistics

795, 796. INDEPENDENT STUDY
1) Synchronic Linguistics; 2) Diachronic Linguistics; 3) Linguistic Theory. For students showing a special aptitude for linguistics who desire to pursue a line of inquiry for which no appropriate course is offered. All requests must be forwarded by the faculty sponsor to the director of the Interdepartmental Linguistics Committee. Variable credit.

Mathematics (Math)

Chairperson: M. Evans Munroe

ASSISTANT PROFESSORS: R. Daniel Bergeron, William E. Geeslin, Donald Hadwin, Robert Russell

401. ELEMENTARY MATH I
Fractions, exponents, and radicals, factoring linear equations, areas and volume of geometric figures. Not for credit by students with one or more years of college preparatory mathematics. 4 cr.

402. ELEMENTARY MATH II
Basic algebra covering absolute value, inequalities, quadratic equation, two-dimensional coordinate system, distance, slope, curve sketching, systems of equations, polynomials of higher order. Prereq: Math 401 or equivalent. (Not for credit by students with two or more years of college preparatory mathematics.) 4 cr.

403. INTRODUCTION TO DIGITAL COMPUTER PROGRAMMING
Development of algorithms and programs. Basic programming and programming structure utilizing FORTRAN IV language; use of an operating system, computer solution of numerical and non-numerical problems. For students planning no further studies in computer science. No credit toward a Math major. 2 cr.

Italian
(See Ancient and Modern Languages and Literatures)

Japanese
(See Ancient and Modern Languages and Literatures)
405. ELEMENTARY FUNCTIONS
Understanding of mathematical concepts as a preparation for calculus. Exponential, logarithmic, and trigonometric functions; trigonometric identities and equations; inverse functions; rational functions; graphs. Prereq: Math 402 or two years of high school mathematics. (Not for credit by students with 3 or more years of college preparatory mathematics.) 4 cr.

410. DIGITAL COMPUTER SYSTEMS
Algorithms and programs; FORTRAN IV language. Data representation, use of number systems, basic computer organization. Survey of computers, languages, and applications. Numerical and non-numerical problems. 4 cr.

419. EVOLUTION OF MATHEMATICS
Mathematics from antiquity to the present day; origins of the various methods and branches. How and why mathematical concepts, such as number and geometry, evolved. Prereq: 3 college preparatory mathematics units. Credit toward a Math major only in Mathematics-Education. 4 cr.

420. FUNDAMENTAL MATHEMATICS
Topics selected from: Logic set theory, probability, statistics, linear algebra, linear programming, game theory, and graph theory. Not a preparation for calculus. Prereq: 3 college preparatory math units. No credit toward a Math major. 4 cr.

425. CALCULUS I
Analytic geometry and calculus. Instruction at various paces and a special testing program for student to proceed at own pace. Prereq: at least 3 college preparatory math units including trigonometry. 4 cr.

426. CALCULUS II
Calculus of functions of one argument. Instruction at various paces and a special testing program for student to proceed at own pace. Prereq: Math 425. 4 cr.

429-430. HONORS CALCULUS
Functions of one argument; underlying theory and practice with techniques and applications. Prereq: permission. 4 cr.

510. MATHEMATICAL COMPUTER PROBLEMS
Programming, including FORTRAN IV; computer applications in mathematics. No credit if credit received for Math 410. Co- or prereq: Math 527. 4 cr.

527. DIFFERENTIAL EQUATIONS WITH LINEAR ALGEBRA
Linear differential equations, matrix algebra, linear transformations and change of basis, eigenvalues, linear systems, series solution of differential equations. Prereq: Math 426. 4 cr.

528. MULTIDIMENSIONAL CALCULUS
Partial differentiation; composite functions and chain rules; maxima and minima; transformations; vector algebra; vector functions; gradient, divergence, and curl; curves and surfaces; multiple, line, and surface integrals; integral theorems. Prereq: Math 527. 4 cr.

531. INTRODUCTION TO ABSTRACT MATHEMATICS
Logic and set theory with applications to the development of the real number system. Prereq: Math 426. 4 cr.

611. ASSEMBLER-LANGUAGE PROGRAMMING
Assembler-language coding and programming techniques. Data representation, systems organization, program segmentation, linkage of control section, manipulation of bits or bytes, micro- and macro-programming. Input/output using System macros. Interrupts. Prereq: Math 410 or 510. 4 cr.

612. DATA STRUCTURES AND PROCESSES
Data structure programming techniques and program structure using a higher-level language. Linear lists, strings, arrays, trees, and graphs. Symbol tables, sorting and searching techniques. Data organization, record-oriented and stream-oriented data transmission, conversion techniques, and storage allocation. Prereq: Math 611. 4 cr.

621. NUMBER SYSTEMS FOR ELEMENTARY SCHOOL TEACHERS
Counting and set concepts, whole numbers, fractions, negative numbers, real numbers, notation systems, inductive and deductive reasoning. A mathematical laboratory approach is used. Prereq: permission. Major credit only for elementary mathematics-education majors. 4 cr.

622. GEOMETRY FOR ELEMENTARY SCHOOL TEACHERS
Deductive systems, metric geometry, congruence, symmetry, parallelism, similarity, transformations, measurement, polygons and circles, polyhedrons. A mathematical laboratory approach is used. Prereq: Math 621. Major credit only for elementary mathematics-education majors. 4 cr.

623. TOPICS FOR ELEMENTARY SCHOOL TEACHERS
Modulo arithmetic, logic and flow charting, coordinate systems, graphing, linear equations and applications, quadratic equations and applications, combinations, permutations, probability, statistics. A mathematical laboratory approach is used. Prereq: Math 621. Major credit only for elementary mathematics-education majors. 4 cr.
636. PROBABILITY AND STATISTICS
Sample spaces (discrete only), events, combinations, conditional probability, independence, distributions, expectation, statistical description, random variables, sampling, estimation, tests, and applications. Credit towards a mathematics major only in mathematics-education and option programs. 4 cr.

645. APPLIED LINEAR ALGEBRA
Applied matrix theory; eigenvalue problems and their applications in mathematics, physics, and engineering; systems of linear, ordinary, differential equations. Prereq: Math 410 or equivalent; Math 527-528. 4 cr.

646. ANALYSIS FOR APPLICATIONS
Initial-boundary-value problems of mathematical physics; Sturm-Liouville problems; series expansions by orthogonal functions; Green's functions; numerical methods. Computer methods will be used. Prereq: Math 410 or equivalent; Math 527-528. 4 cr.

647. COMPLEX ANALYSIS FOR APPLICATIONS
Complex numbers; complex integration; infinite series; contour integration; conformal mapping; Fourier and Laplace transforms; Wiener-Hopf techniques. Prereq: Math 528. 4 cr.

656. INTRODUCTION TO NUMBER THEORY
Unique factorization, linear and quadratic congruences, quadratic reciprocity law, arithmetic functions, quadratic forms, an introduction to algebraic numbers. Prereq: Math 531. (Not offered every year.) 4 cr.

657. GEOMETRY I
Advanced approach to fundamental properties of Euclidean geometry. Prereq: Math 531. 4 cr.

658. GEOMETRY II
Systems of postulates of various geometries, geometric invariants, synthetic and analytic projective geometry, introduction to non-Euclidean geometry. Prereq: Math 531. (Not offered every year.) 4 cr.

652. NONLINEAR DIFFERENTIAL EQUATIONS
Phase plane analysis of autonomous systems; critical points; limit cycles; periodic solutions; approximate methods for second-order non-linear equations; stability and asymptotic behavior of solutions. Prereq: Math 527. (Not offered every year.) 4 cr.

656. INDEPENDENT STUDY
Projects of interest and value to student and department. Prereq: permission of faculty supervisor and department chairperson. 1-6 cr.

698. SENIOR SEMINAR
Study and reports on special topics. Prereq: senior standing in mathematics-education. 4 cr.

703. MATHEMATICS-EDUCATION, K-6
Psychological theories of teaching; elementary curriculum projects; laboratory approach in teaching; survey including history, present theories, education objectives, and research. Prereq: Math 621 or equivalent. 2-4 cr.

710. ADVANCED PROGRAMMING SYSTEMS
Review of batch-process systems programs. Software organization; multiprogramming systems; techniques for parallel processing; multiaccessing and multiprocessing. Core management, file system design and management, and system accounting. Design of system modules and interfaces. Prereq: Math 611. 4 cr.

711. PROGRAMMING LANGUAGE AND COMPILER CONSTRUCTION
Formal definition of programming languages; specification of syntax and semantics. Global properties of algorithmic languages such as PL/I and ALGOL. Review of special purpose languages for list processing, symbol manipulation, data description and simulation; run-time representation of program and data structures; how these properties affect compilation. Prereq: Math 710. 4 cr.

713. COMPUTER GRAPHICS
Input-output and representation of pictures from hardware and software points of view; interactive techniques and their applications; development of an interactive graphics system. Prereq: permission. 4 cr.

735. PROBABILITY
Sample spaces (discrete and continuous); random variables; conditional probability; moments; binomial, Poisson, and normal distributions; limit theorems for sums of random variables. Prereq: Math 528. 4 cr.

736. STATISTICS
Sampling theory, estimation of parameters, testing of hypotheses, non-parametric methods. Prereq: Math 735. 4 cr.

753. NUMERICAL METHODS AND COMPUTERS I
Use of numerical analysis on computers; high-level languages, compilers; linear and non-linear equations; integration, quadrature, curve fitting, system simulations, optimization techniques, finite elements, computer graphics. Selected algorithms will be programmed for computer solution. Prereq: Math 410 or 510; 426. 4 cr.
761. ABSTRACT ALGEBRA
Basic properties of groups, rings, fields and their homomorphisms. Prereq: Math 531. 4 cr.

762. LINEAR ALGEBRA
Vector spaces, linear transformations, matrices, determinants, dual spaces, eigenvalues, spectral and canonical decomposition theorems. Not for credit if credit received for Math 645. Prereq: Math 761. 4 cr.

764. ADVANCED ALGEBRA
Vector spaces, modules over principal ideal domains, structure of finitely-generated modules, finite abelian groups, elementary theory of fields. Prereq: Math 761. (Not offered every year.) 4 cr.

767. ONE-DIMENSIONAL REAL ANALYSIS
Theory of limits, continuity, differentiability, integrability, series, uniform convergence. Prereq: Math 528; 531. 4 cr.

768. ABSTRACT ANALYSIS
Metric spaces, function spaces, theory of uniform limits. Prereq: Math 767. (Not offered every year.) 4 cr.

769. MULTIDIMENSIONAL REAL ANALYSIS
Partial derivatives, multiple integrals, line and surface integrals, Fourier series. Prereq: Math 767. (Not offered every year.) 4 cr.

776. LOGIC
Formal mathematics and formal systems. Consistency, completeness, decidability. Prereq: Math 531. (Not offered every year.) 4 cr.

780. THEORY OF ORDINARY DIFFERENTIAL EQUATIONS
Fundamental existence and uniqueness theorems; linear systems and higher order linear equations; Wronskian theory; classical Sturm Theorem and generalizations; boundary value problems for second order linear equation. Prereq: Math 767. (Not offered every year.) 4 cr.

781. PARTIAL DIFFERENTIAL EQUATIONS
First order equations; linear second order equations; Cauchy problem; Dirichlet problem; application to physics. Prereq: Math 767. (Not offered every year.) 4 cr.

784. TOPOLOGY
Connectedness, compactness, metrizability; with special emphasis on real line and plane. Prereq: Math 531. (Not offered every year.) 4 cr.

785. ALGEBRAIC METHODS IN TOPOLOGY
Topology of manifolds, topological groups, homology, knot theory. Prereq: Math 784. (Not offered every year.) 4 cr.

786. CALCULUS ON MANIFOLDS
Differentiable manifolds; differential forms; exterior and Grassman algebras; integration of differential forms; Stokes theorem; closed and exact differential forms. Not for credit if credit received for Math 769. Prereq: Math 762; 767. (Not offered every year.) 4 cr.

787. DIFFERENTIAL GEOMETRY
Introduction to Lie groups and frame bundles; differential invariants of surfaces and curves; local theory of surfaces. Prereq: Math 786. (Not offered every year.) 4 cr.

788. COMPLEX ANALYSIS
Complex functions, sequences, limits, differentiability and Cauchy-Riemann equations, elementary functions, Cauchy's theorem and formula, Taylor's and Laurent's series, residues, conformal mapping. Not for credit if credit received for Math 647. Prereq: Math 767. 4 cr.

791. MATHEMATICS-EDUCATION
Methods of teaching mathematics in the secondary school. Prereq: Educ 500. 4 cr.

Mechanical Engineering (M E)
Chairperson: William Mosberg

PROFESSORS: E. Howard Stolworthy, emeritus; Robert W. Corell, Godfrey H. Savage, Charles K. Taft, Asim Yildiz
ASSISTANT PROFESSORS: William E. Clark, emeritus; Harvard B. Emery; M. Robinson Swift
SENIOR RESEARCH FELLOW: Musa Yildiz

341. INTRODUCTION TO MANUFACTURING
Safe operation of basic machine tools in design projects or home workshop. Two 2½-hour weekly sessions for 6 weeks (offered twice each semester). 0 cr.
401. INTRODUCTION TO MECHANICAL ENGINEERING
Goals and interactions of mechanical engineering in contemporary society. Basic concepts presented and developed as background for future course work. Lectures, case studies, and laboratories. Required of freshmen; open to others by permission. 4 cr.

413. ENGINEERING GRAPHICS
Analysis of engineering problems using fundamentals of descriptive geometry. This course is identical with the first half of M E 441 and ends at midsemester. Lab. 2 cr.

414. ENGINEERING GRAPHICS
Analysis of engineering problems using fundamentals of descriptive geometry. This course is identical with the second half of M E 441 and starts at midsemester. Prereq: M E 413 or equivalent. Lab. 2 cr.

441. ENGINEERING GRAPHICS
Communication of engineering information and three-dimensional concepts by multiview drawings, pictorial views, sketches, and graphs; including the fundamentals of descriptive geometry. Lab. 4 cr.

503. THERMODYNAMICS I
Laws of thermodynamics and their relation to working substances. Prereq: Math 426. 4 cr.

504. THERMODYNAMICS II
Laws of thermodynamics and their application to real systems. Behavior of ideal and real media; thermodynamics of non-reactive and reactive mixtures; power and refrigeration cycles. Prereq: M E 503. 4 cr.

505. INTRODUCTION TO THERMODYNAMICS AND HEAT TRANSFER
First and second laws of thermodynamics; selected applications. Elementary topics in conductive radiative and convective heat transfer. Not for M E majors. Prereq: Math 425; Phys 407. 3 cr.

506. INTRODUCTION TO FLUID DYNAMICS AND CONVECTIVE HEAT TRANSFER
Dynamics and thermodynamics of compressible and incompressible fluid flow. Elementary topics in boundary layer theory and convective heat transfer. Not for M E majors. Prereq: M E 505. 3 cr.

508. FLUID DYNAMICS
Dynamics and thermodynamics of compressible and incompressible fluid flow; behavior of fluids as expressed by hydrostatic, continuity, momentum, and energy equations. Prereq: M E 503; 527. 4 cr.

525-526-527. MECHANICS I, II, AND III
Static and dynamic behavior of rigid and deformable bodies. Equilibrium, compatibility, and force-deformation relations; stress, strain, and constitutive relations; elastic stability; energy methods, stress and deformation in materials and simple structural elements. Review of particle dynamics; kinematics and kinetics of rigid bodies in two and three dimensions. Prereq: Math 425; Phys 407. 3 cr.

541. MANUFACTURING PROCESSES AND DESIGN
Manufacturing drawings, sketching basic mechanisms found in machine shops, operation of basic machine tools. Lab. 4 cr.

542. METHODS IN MANUFACTURING
Project course for more experience on machine tools. Prereq: M E 541. Lab. 2 cr.

561. INTRODUCTION TO MATERIALS SCIENCE
Theoretical and experimental studies of the structure and thermodynamics of solids. M E 561L required concurrently or subsequently. 3 cr.

561L. INTRODUCTION TO MATERIALS SCIENCE (LABORATORY)
Companion laboratory to M E 561. Co- or prereq: M E 561 or equivalent. 1 cr.

562. INTRODUCTION TO MATERIALS ENGINEERING
Physics and chemistry of selected processes in materials technology. Phase transformations in ceramics and ferrous alloys, sintering, solidification, semiconductor device fabrication. Extended lab hours for plant visits. Lab. 4 cr.

628. INTRODUCTION TO VIBRATIONS
Theory and application of mechanical and system vibrations. Single and multiple degrees of freedom; free and forced systems; development of closed form or approximate solutions using mathematical techniques and the computer. Introduction to continuous systems. Prereq: M E 527 or equivalent. 3 cr.

643-644. ELEMENTS OF DESIGN I AND II
Synthesis, analysis, and design of machine components. Development of engineering judgement; selection of materials; kinematic arrangements; design factors; failure criteria; fluctuating loads; design for finite and infinite life; stress concentration; finite element method; statistical methods. Prereq: M E 525; 526; 527. 4 cr.

646. DETERMINISTIC AND STOCHASTIC MEASUREMENT
The dynamic analysis of instrumentation systems; measurement errors, measurement system synthesis for specified dynamic accuracy and methods of correcting data with dynamic errors. Stochastic processes. Fourier transforms, power spectral density and autocorrelation functions and their application to measurements on systems with random excitation. 4 cr.
648. INTRODUCTION TO MEASUREMENT AND EXPERIMENTAL METHODS
Required for junior M E students. Experimental methods, transducers, signal processing instrumentation, and experimental errors. Experiments involving the static and dynamic measurements and display of mechanical variables using typical mechanical and electrical transduction and signal handling methods. Prereq: junior standing. 3 cr.

691. ECONOMIC DECISION MAKING IN ENGINEERING
Economic optimization of engineering problems. Prereq: senior standing. 3 cr.

695 a-d - 696 a-d. MECHANICAL ENGINEERING UNDERGRADUATE PROJECTS AND INDEPENDENT STUDY
Course numbers refer to topics in a) thermal science, b) solid mechanics, c) engineering design, and d) materials, respectively. 2-4 cr.

697, 698. MECHANICAL ENGINEERING SEMINAR
Study and discussion of engineering topics; student-faculty participation. 1 cr.

699. UNDERGRADUATE THESIS
2-4 cr.

701. MACROSCOPIC THERMODYNAMICS
Thermodynamic principles using an analytic, postulational approach and Legendre transformations to obtain thermodynamic potentials. 4 cr.

702. STATISTICAL THERMODYNAMICS
Macroscopic thermodynamic principles developed by means of microscopic analysis. Prereq: M E 503. 4 cr.

703. HEAT TRANSFER
Analysis of phenomena, steady-state and transient conduction, radiation, and convection; engineering applications. Co- or prereq: M E 508. 3 cr.

704. EXPERIMENTAL HEAT TRANSFER
Methods in the study and solution of problems, including a critical comparison with analytical and other methods. Prereq: M E 703. 4 cr.

707. ANALYTICAL FLUID DYNAMICS
Development of the Navier-Stokes equations; vorticity theorems; turbulence and boundary-layer theory. Prereq: M E 508. 4 cr.

708. GAS DYNAMICS

715. INTERNAL COMBUSTION ENGINES
Basic and engineering science applied to spark and compression-ignition engines; design, management and reporting of experimental studies. Prereq: M E 503. 4 cr.

716. PROPULSION SYSTEMS
Basic engineering science applied to the engineering problems of propulsion systems. Prereq: M E 508. 4 cr.

717. CRYOGENICS
Phenomena and processes at very low temperatures. Basic engineering sciences applied to problems of low temperature refrigeration, liquefaction, separation, and storage; transport of cryogenic fluids; measurement systems; vacuum technology. Prereq: M E 503. 4 cr.

723. ADVANCED DYNAMICS
Classical dynamics oriented to contemporary engineering applications. Review of particle dynamics. Hamilton's principle and the Lagrange equations. Kinematics and dynamics of rigid bodies, macroscopic effects in machinery and space structures. 4 cr.

724. VIBRATION THEORY AND APPLICATIONS
Discrete vibrating systems. Linear system concepts; single-degree-of-freedom system with general excitation. Matrix theory and eigenvalue problems. Many degrees of freedom, normal mode theory for free and forced vibration. Numerical methods; introduction to continuous systems; applications to structural and mechanical systems. Prereq: M E 628. 4 cr.

726. EXPERIMENTAL MECHANICS
Experimental methods and theoretical bases applied to measurement of stress, strain, and motion. Transmitted and scattered-light photoelasticity; strain gage applications; brittle coating and grid techniques; dynamic measurements, and associated instrumentation. 4 cr.

727. ADVANCED MECHANICS OF SOLIDS
Beams on elastic foundation, curved bars, inelastic behavior, instability, introduction to thin plates and shells, introduction to elasticity, energy methods, and numerical methods. 4 cr.
730. MECHANICAL BEHAVIOR OF MATERIALS
Elastic and inelastic behavior of materials in terms of micro- and macromechanics. Stress, strain, and constitutive relations related to recent developments in dislocation theory and other phenomena on the atomic scale and to continuum mechanics on the macroscopic scale. Elasticity, plasticity, viscoelasticity, creep, fracture, and damping. Anisotropic and heterogeneous materials. 4 cr.

737. OCEAN MECHANICS I
Ocean as a continuous medium, its mechanical and thermodynamic properties. Shallow and deep ocean modeling for the investigation of gravity and sound waves. Ocean subbottom and its soil mechanical and sound propagation properties. Instrumentation, rudimentary data collecting and processing procedures, and computer usage. Prereq: M E 508; 525; 526; 527; Math 527; 528. 4 cr.

738. OCEAN MECHANICS II
Ocean dynamical laws are generalized to include temperature and salinity variations in the water column. Conservation laws with generalized equation of state. Air-sea interaction, energy transport phenomena, reflection from different coastal geometry, harbor resonances, internal currents. Sound reflection from subbottom, sound probing techniques to determine subbottom properties by ray theory and generalization of subbottom soil from an elastic to a viscoelastic medium. Prereq: M E 737; M E 781, desirable but not required. 4 cr.

741. CONTROL OF PHYSICAL SYSTEMS
Mathematical modeling of hydraulic, pneumatic, and fluidic control elements and control systems. Analysis of systems using gases or liquids as the working fluid. Methods for the synthesis of the parameters of the control elements used in automatic control systems and design of these systems. 4 cr.

751. NAVAL ARCHITECTURE IN OCEAN ENGINEERING
Fundamentals of naval architecture in ocean environments applied to conventional and advanced surface, semi-submersible, and submersible vehicles. Geometric considerations, hydrostatic characteristics, and basics of powering and principle rules are covered. Prereq: M E 508; M E 525/or permission. 4 cr.

752. SUBMERSIBLE VEHICLE SYSTEMS DESIGN
Conceptual and preliminary design of submersible vehicle systems; submersibles, environmental factors, hydromechanical and structural principles, materials, intra/extra-vehicle systems, operating considerations, pre-design and design procedures. Design projects are selected and completed by student teams. Prereq: permission. 4 cr.

757. COASTAL ENGINEERING AND PROCESSES
Water waves and their effects. Equations for surface waves and laboratory tank demonstration of wave trains, beat waves, and wave spectra. Estuarial and coastal processes including wave refraction and long shore transport of sediments simulated by computer models. Effects on structures of waves and functional design of structures including towers, breakwaters. 4 cr.

760. PHYSICAL METALLURGY
Introduction to the electron theory of materials; entropy and free-energy concepts of the solid state; diffusion in metals; nature and kinetics of selected solid state reactions. 4 cr.

761. X-RAY DIFFRACTION
The physics of x-ray diffraction, the reciprocal lattice, lattice parameter determinations, space group identification, phase identification, characterization of preferred orientation. Lab. 4 cr.

763. MICROSTRUCTURE OF SOLIDS
Basic concepts and measurements: statistically exact expressions for points, lines, surfaces, and volumes; random, partially-oriented and oriented structures; particle and grain characteristics and distributions; projected images and shape specification. 4 cr.

766. PHYSICAL CERAMICS
Characteristics of crystalline and non-crystalline ceramic solids; defect structures; diffusion in ceramic materials; nucleation, crystal growth, and solid-state reactions; kinetics of grain growth, sintering, and vitrification. 4 cr.

781. MATHEMATICAL METHODS IN ENGINEERING SCIENCE—I
Solution of discrete and continuous systems. Review of calculus, linear algebra, complex numbers, Fourier series, differential and partial differential equations with examples from acoustics, vibration theory, hydrodynamics, elasticity, solid mechanics, transport theory, and particle mechanics. 4 cr.

793 a-d - 794 a-d. SPECIAL TOPICS IN ENGINEERING
Course numbers refer to topics in a) thermodynamics, b) mechanics, c) engineering design, and d) materials, respectively. Content of these courses may vary from year to year. 2-4 cr.

795 a-d - 796 a-d. INDEPENDENT STUDY
Course numbers refer to topics in a) thermal science, b) solid mechanics, c) engineering design, and d) materials, respectively. 2-4 cr.
Medical Technology (MedT)

Chairperson: Karol A. LaCroix

ADJUNCT ASSOCIATE PROFESSOR: John C. Neff
ASSISTANT PROFESSOR: Karol A. LaCroix
ADJUNCT LECTURER: Denis J. Carlson

School of Medical Technology, Hanover, New Hampshire

ADJUNCT ASSISTANT PROFESSOR: E. Elizabeth French, M.D.
CLINICAL INSTRUCTOR: Elizabeth A. Ward
LECTURERS: Carla Coates, Miriam K. Fogg, Gertrude M. Marquay,
Robert Patton, Robert Strohsahl

401. INTRODUCTION TO MEDICAL TECHNOLOGY
Functions and responsibilities of medical technology as a unit of the
health team. Lectures, films, demonstrations, and field trips. Prereq:
second-semester freshman or sophomore major standing. 0 cr.

625. CLINICAL MICROSCOPY
Identification and analysis of cellular elements of peripheral blood,
bone marrow, and urine and their relationship to the body in health
and disease. Prereq: Zoöl 507-508. Lab. 4 cr.

696. INDEPENDENT STUDY
In-depth studies under faculty supervision. Staff. Prereq: junior
standing, approval of the major adviser and the faculty of the area
concerned. 2-4 cr.

720. CLINICAL MYCOLOGY-PARASITOLOGY
Lab identification and pathology of human mycology and parasitology
infections. Classification and diagnosis of clinically significant
viruses. Prereq: Micr 702. Lab. 4 cr.

761. DIAGNOSTIC MICROBIOLOGY METHODS
Processing, evaluating, and identifying clinical bacteriology, mycology,
and parasitic specimens. Routine methodologies and special
procedures such as fluorescent techniques, antibiotic sensitivity
testing, and nosocomial infections. Senior MedT majors only. 8 cr.

762. CLINICAL HEMATOLOGY
Review of routine and special hematology procedures, manual and
automated methods. Lab results analyzed and interpreted in relation
to diseases of the white cells, red cells, and platelets. Senior MedT
majors only. 6 cr.

763. CLINICAL IMMUNOLOGY
Clinical serological techniques involving agglutination, precipitin,
and hemolysin reactions. Principles and procedures of serological
tests for syphilis, mononucleosis, rheumatoid factor, ASO hepatitis,
rubella, etc. Senior MedT majors only. 4 cr.

764. CLINICAL CHEMISTRY
Practice in the operation, evaluation, and maintenance of automated
and manual chemistry systems. Laboratory analyses of steroids,
carbohydrates, proteins, lipids, biliary systems, enzymes, blood
gases, isotopes, hormones, toxicology. Data analysis and quality
control. Senior MedT majors only. 8 cr.

765. CLINICAL IMMUNOHEMATOLOGY
Routine and special blood bank principles and procedures. Profi-
cency in blood typing, antibody screening and identification, cross
matching, record keeping, and component therapy. Senior MedT
majors only. 4 cr.

766. CLINICAL URINALYSIS
Laboratory examination of urines and other body fluids using rou-
tine and special determinations. Senior MedT majors only. 2 cr.

Merrimack Valley Branch
Dean: Roger Bernard

Business Science (MVBS)

471. MANAGEMENT IN ORGANIZATIONS
Management functions (planning, organizing, directing, and con-
trolling) used to coordinate technical, financial, promotional, and
human resources to achieve objectives in business, human service,
health care, and public organizations. Guest speakers, case studies,
films, and field trips. Career options in management. 4 cr.

Career Studies (MVCS)

501, 502. COOPERATIVE EDUCATION: CONTRACT
EXPERIENTIAL LEARNING
Experiential learning integrating academic programs with well-
founded work experiences in business and industry, government,
and human service organizations. Learning systematically from a
present job, career options are explored; needed skills and compo-
tencies are developed to succeed in education and work. Individu-
ally designed contract learning experience; monthly group seminars
and periodic team sessions of student, faculty adviser, and Coop Ed
coordinator. At completion, student demonstrates achievement of
contract learning objectives. Not recommended for first semester
students. Prereq: associate degree candidacy; permission. 2-8 cr.
Cr/F.
General Education (MVGE)

411. EXPLORING HUMAN BEHAVIOR I
Team-taught interdisciplinary course. Causes and expressions of individual behavior examined through films, panel discussions, lectures, and small group discussions. How human behavior differs and resembles behavior of animals; how persons strive for and express personal identity and integrity; how humans learn and how society affects identity and behavior. Three five-week units: 1) process of acquiring a personal identity; 2) how society helps to shape who we are and, consequently, what we do; 3) three in-depth modules concerning human behavior in organizational settings; deviant behavior; and behavioral control. Recommended for entering college students, persons in human service or considering business careers, and students taking courses in the social sciences. 4 cr.

412. EXPLORING HUMAN BEHAVIOR II
Team-taught interdisciplinary course. Human and animal social behaviors examined through films, lectures, and modules. Similarities and differences between the social behavior of man and animals; man as a political animal—motives, behaviors, and effects of political activity; “total institution” settings and their effects on those confined within; variety of behaviors appropriate to helping relationships involving professional helpers and clients. Open to all students but recommended to social science majors, students in the human service area, and students enrolled in Exploring Human Behavior I. 4 cr.

461. LITERARY VIEW OF MAN THROUGH MYTH AND LEGEND I
Mythologies of early cultures: Hebrew, Babylonian, Egyptian, and Greek; classical Greek epic and tragedy; early Christian writing, a Gospel, and Pauline epistles; medieval romance of chivalry. 4 cr.

462. LITERARY VIEW OF MAN AND SOCIETY: RENAISSANCE TO THE PRESENT II
The hero from the revolutionary Luther to the fantasy James Bond. How do writers view ideal man in the Renaissance, in rigid 18th century England, in free 19th century America, and in the anxious 20th century? 4 cr.

512. THE NATURE OF MAN AND WESTERN SOCIETY II
Interdisciplinary study of themes and issues: growth and impact of science on western culture; rise of secularism in capitalism, religion, and rationalism; the emergence of mass society and the end of economic man; the meaning of totalitarianism for man and western society; and what we face in the future. 4 cr.

General Studies (MVGS)

599. SPECIAL TOPICS
Flexible course structure permits independent research, study, or group discussion of advanced material not covered in regular course offerings in an Option. Offering of this course will depend on availability of staff. May not be taken more than twice if credits count toward the associate degree. Variable 1-4 cr.

Humanities (MVH)

464. ART AS RITUAL AND MAGIC
Understanding how humans have expressed their response to forces they could not fully comprehend. A comparative study relates primitive Egyptian, American Indian, Oceanic, African art, etc., with contemporary man’s response to similar or, in some cases, the same forces. Shamanism, myths, rituals, symbols, talismans, gods, religious and psychological beliefs. 4 cr.

Human Services (MVHS)

431. SOCIAL ASPECTS OF HEALTH AND ILLNESS: SOCIOLOGY OF MEDICINE
Meaning of health and illness as social categories. Topics include: role of the sick; social factors in health and illness; careers in the health professions; the hospital as an organization; delivery systems of health care in New Hampshire and specifically in the greater Manchester area. 4 cr.

530. SOCIOLOGY OF MENTAL HEALTH AND ILLNESS
Meaning of mental health and illness; major theoretical models. Social and psychosocial factors in the incidence and distribution, diagnosis, and treatment of mental illness; community psychiatry; cross-cultural perspectives on research findings. For students interested in or employed by community, state, or federal social service agencies. 4 cr.
Merrimack Valley Branch Library Science Courses (MVLS)

The following Merrimack Valley Branch courses are offered on the Durham campus of the University of New Hampshire as core courses in the Library Science career option in the Associate in Arts degree program.

401. INTRODUCTION TO LIBRARIES
History and role of libraries; role as a social institution; philosophy of library service; the tools, techniques, and routines of library work. (Not offered every year.) 4 cr.

402. LIBRARY TECHNICAL SERVICES I
Dewey Decimal and Library of Congress classification systems; typing and filing cards; subject-heading theory and use; maintenance of shelf list and other files. (Not offered every year.) 4 cr.

403. SUPPORT FOR PUBLIC SERVICES
Reference and bibliographic tools; philosophy of reference services; reference works in all types of libraries. (Not offered every year.) 4 cr.

501. NON-BOOK MATERIALS AND SERVICES
Technical organization and operation of audio-visual materials, services, and equipment. (Not offered every year.) 4 cr.

502. LIBRARY TECHNICAL SERVICES II
Acquisition and processing of materials; the technical aspects of circulation systems. (Not offered every year.) 4 cr.

503. CHILDREN'S LIBRARY SERVICE
Materials for children; procedures and techniques for working with children; implementation of special programs; selection of materials; reference methods. (Not offered every year.) 4 cr.

Merrimack Valley Branch Library Science Courses (MVNS)

441. THE NATURAL HISTORY OF NORTH AMERICA I
Major freshwater and marine communities of North America. Lakes, streams, and estuaries and the geological factors which create them; plants and animals common to each; the ways organisms respond to these environments. Course is divided into two, one-credit and one, two-credit modules. Students may register for any combination. Slides, films, and other audio-visual techniques; field trip required for each module. Recommended for students in career options, the B.G.S. program, and anyone interested in outdoor recreation or the natural world. Students considering a major in the life sciences at UNH should take Bot 411 or Zool 412 instead. Variable 1-4 cr.

442. NATURAL HISTORY OF NORTH AMERICA II
Major land communities of North America. Forests, deserts, and grasslands and the geological factors which create them; plants and animals common to each; ways organisms respond to these environments. Course is divided into two, one-credit and one, two-credit modules. Students may register for any combination. Slides, films, etc. Field trip required for each module. Recommended for students in career options, the B.G.S. program, and anyone interested in outdoor recreation or the natural world. Students considering a major in the life sciences at UNH should take Bot 411 or Zool 412 instead. Variable 1-4 cr.

Social Sciences (MVSS)

415. COMMUNES AND UTOPIAN SOCIETIES: MAKING THE FUTURE NOW
Current alternatives to American society in the form of utopian and communal experiments. Visit to an ongoing commune, field trips to a Shaker community and Plymouth Plantation; case studies of past utopian and communal efforts. Non-American alternate societies: the Israeli kibbutz and recently developing communes in the People's Republic of China. 4 cr.

422. THE NATURE OF MAN AND SOCIETY: FREEDOM AND LIBERTY
Continuity and change in concepts of man, theories of government and social structure, and principles of freedom and liberty, which helped to form Western culture from the Renaissance to the present. Readings will include works of Machiavelli, Locke, Paine, Marx, Engels, Freud, Sartre, and Marcuse. 4 cr.

525. PERSPECTIVES IN SOCIAL WELFARE I
Current American practices in human services and career exploration. Poverty, care for handicapped, child care, family services, aging, delinquency, crime and prison reform, patterns of professional and institutional growth in human services from Colonial period to 20th century. Opportunity to select placement in human service agencies and/or visit agencies for observation. Recommended for those interested in history and those working in or considering a career in human services. 4 cr.

526. PERSPECTIVES IN SOCIAL WELFARE II
Social welfare in America, current practices in human services and career exploration. Poverty, care for the handicapped, child care, family services, aging, delinquency, crime and prison reform, patterns of professional and institutional growth from mid-19th century to the present. 2-4 cr.
Microbiology

Microbiology (Micr)
Chairperson: Galen E. Jones

ASSOCIATE PROFESSOR: Robert M. Zsigay.
ASSISTANT PROFESSOR: Thomas G. Pistole.

501. PUBLIC HEALTH MICROBIOLOGY
Cause, nature, incidence, and control of communicable diseases of man. Microbiology and public health aspects of water, wastewater disposal, foods, and air. Public Health administration. Lab optional. 3 cr.

502. PUBLIC HEALTH MICROBIOLOGY LABORATORY
Laboratory techniques for identification of important pathogenic microorganisms, disease diagnosis, and bacteriological examination of water, wastewater, food, and air. (Students must register for Micr 501 concurrently.) Lab. 1 cr.

503. GENERAL MICROBIOLOGY
Principles of microbiology; morphology, physiology, genetics, and classification of bacteria and other microorganisms, and their relationships to agriculture, industry, sanitation, and infectious diseases. Prereq: Chem 401-402 or equivalent. Lab. 4 cr.

600. ENVIRONMENTAL MICROBIOLOGY
Detection, identification, and regulation of microorganisms which enhance or deteriorate the immediate human environment. Prereq: Micr 503. Lab. 4 cr.

701. TAXONOMY AND ECOLOGY
Isolation, identification, and classification of procaryotic microorganisms by classical and newer techniques; analysis of the interplay between organism and environment based on energy metabolism and use of this to deduce a natural classification; uses of taxonomic and ecological information. Prereq: Micr 503; Bchm 601 or 656. Lab. 4 cr.

702. PATHOGENIC MICROBIOLOGY
The morphological, cultural, biochemical, serological, and pathogenic characteristics of microorganisms causing human and animal diseases. Prereq: Micr 503. Lab. 4 cr.

704. MICROBIAL GENETICS
Expression and transfer of genetic elements (chromosomal and non-chromosomal) in procaryotic and eucaryotic microorganisms; consideration of factors influencing public health, industry, the environment and society. Prereq: Micr 503; Bchm 601 or 656. Lab. 4 cr.

705. IMMUNOLOGY AND SEROLOGY
Defensive elements possessed by man and animals protected against infectious microorganisms. Principles of serological techniques for recognition and identification of biological materials including microorganisms. Preparation of vaccines and production of antisera in animals. Prereq: Micr 702. Lab. 4 cr.

706. VIROLOGY
Viruses, including animal and bacterial, and rickettsiae; interaction of viruses and host cells; techniques for propagation and recognition including immunologic methods; applications to infectious disease, the environment, and cancer. Prereq: Micr 702. Lab. 4 cr.

707. MARINE MICROBIOLOGY
Characterization of microorganisms in the sea including taxonomy, physiology, and ecology; sampling, enumeration, distribution; and effects of marine environment upon microbial populations. Prereq: Micr 503 and organic chem. Lab. 4 cr.

708. MICROBIAL BIOGEOCHEMISTRY

795. 796. PROBLEMS IN MICROBIOLOGY
Prereq: permission. 4 cr.

Military Science (Milt), Reserve Officers Training Corps

PROFESSOR OF MILITARY SCIENCE: Lieutenant Colonel William C. Hazen
LECTURERS: Major David B. Bradley, Captain William E. Whitaker, Captain Raymond W. O'Keefe
ADMINISTRATIVE: Captain Lester R. Bowen, Jr., administrative officer; Sergeant Major George B. Fasulo, chief enlisted instructor; Master Sergeant Bobby R. Bannister, senior enlisted instructor; Staff Sergeant Joseph C. Berger, chief administrative assistant; N.E. Bernier, military property officer

331-332. PROFESSIONAL DEVELOPMENT AND ENRICHMENT SUBJECT
The duties and responsibilities of junior Army leaders and orientation on the branches of the Army. 0 cr.
341-342. PROFESSIONAL DEVELOPMENT AND ENRICHMENT
SUBJECT
Leadership development through practical exercises and actual leadership problems. Prereq: permission.

413. THE DEFENSE ESTABLISHMENT AND NATIONAL SECURITY I
United States defense establishment and its role in national security. The U.S. Army and its role in relation to the other armed services and to civilian control of the military. Lab (required only of cadets). 1 cr.

414. THE DEFENSE ESTABLISHMENT AND NATIONAL SECURITY II
Major Army commands and the roles of separate operating agencies; the organization and composition of combat units. 1 cr.

525. AMERICAN MILITARY HISTORY I
Study of the development of American military institutions, strategy, traditions and civil-military relations in war and peace from the Colonization period to 1898. 2 cr.

526. AMERICAN MILITARY HISTORY II
The institutions and policies of the military during the 20th century as its role shifts from defense to prevention of war. 2 cr.

632. MILITARY LEADERSHIP AND MANAGEMENT
Human relations, interpersonal communications, and group interaction. Authoritarian vs. participative leadership, self-actualization and fulfillment. Theory of teaching methods; examination of leadership models. Lab (required only of cadets). 4 cr.

641. SEMINAR ON LEADERSHIP AND MANAGEMENT
Military team concept and the coordination and planning necessary between elements of the team; analysis of contemporary problems; discussion of military justice system. Lab (required only of cadets). 4 cr.

Music
Chairperson: Paul F. Verrette

PROFESSORS: Karl Bratton, emeritus; Donald E. Steele, John D. Wicks
ASSOCIATE PROFESSORS: Irving D. Bartley, emeritus; Mark DeVoto, Alan Grishman, Cleveland Howard, Keith Polk, Mary Rasmussen, John Rogers, David Seiler, Niel Sir, Paul Verrette, John Whitlock, Henry Wing

ASSISTANT PROFESSORS: Ruth Edwards, Stanley Hetlinger, Ada-Louise Rogers, James R. West
LECTURERS: Donald Bravo, Nathaniel Gurin, Ben Clinesmith, Ronald Lantz, John Skelton

History, Literature, and Appreciation (Musi)

401. INTRODUCTION TO MUSIC
A fundamental approach to perceptive listening, based on a detailed study of several masterpieces representing different periods and forms. Historical perspective, but the main emphasis is on confronting significant works of musical art on their own terms. Some participation in the musical life of the University required. Not open to music majors. 4 cr.

402. SURVEY OF MUSIC HISTORY
The historical development of musical style in relation to the whole fabric of Western civilization. Prereq: Musi 401. Not open to music majors. 4 cr.

501, 502. HISTORY AND LITERATURE OF MUSIC
The styles, forms, and techniques of composition in Western music. Required of all music majors. 4 cr.

511. SURVEY OF MUSIC IN AMERICA
From Colonial times to the present, including the various European influences, the quest for an American style, and the emergence of such indigenous phenomena as jazz. 4 cr.

513. INTRODUCTION TO THE MUSIC OF AFRICA AND ASIA
Folk and classical music of various ethnic cultures, particularly those of Japan, India, and sub-Saharan Africa. 4 cr.

595. SPECIAL TOPICS IN MUSIC LITERATURE
Open to music majors and non-majors; topics in areas not easily covered in historical courses. May be repeated for credit. Prereq: permission. 1-4 cr.

701. MUSIC OF THE MEDIEVAL PERIOD
The nature of the beginnings of polyphony. The pre-eminent influence of the church in the 13th century and the rising secular movement in the 14th. Music as a dominant force in the political and social life of the Middle Ages. 4 cr.

703. MUSIC OF THE RENAISSANCE
Works of the 15th and 16th century composers from Dunstable to Palestrina. 4 cr.

705. MUSIC OF THE BAROQUE
Music of Europe from de Rore to Bach. 4 cr.

707. MUSIC OF THE CLASSICAL PERIOD
The growth of musical styles and forms from early classical, baroque-influenced composers through the high classicism of Haydn and Mozart, to the budding romanticism of the young Beethoven. Representative symphonies, concerti, and operas will be heard. 4 cr.
Music

709. MUSIC OF THE ROMANTIC PERIOD
The symphonies, concerti, chamber music, and keyboard works of Beethoven, Berlioz, Schubert, Mendelssohn, Schumann, Brahms, Franck, Chopin, and Liszt. Romantic elements contained in the development of harmony, orchestration, sonority, expressive content. The rise of the short piano piece, the German art song, the symphonic poem, nationalism in music. 4 cr.

711. MUSIC OF THE 20TH CENTURY
Contemporary music including its literature, its trends, and an analysis of techniques, styles, forms, and expression. 4 cr.

721. THE LIFE AND WORKS OF BEETHOVEN
The piano sonatas, concerti, symphonies, and string quartets. 4 cr.

732. THE ART SONG
The history and literature of the solo song with piano accompaniment. Survey of national styles of the 19th and 20th centuries and deeper study of the central core of the art song—the German Lied. 4 cr.

733. SURVEY OF OPERA
Representative masterpieces of this art form through listening, reading, and discussion. 4 cr.

735. SURVEY OF PIANOFORTE LITERATURE
Keyboard literature from Bach to the present. Discussion and performance of the works of Bach; the sonatas and concerti of Haydn, Mozart, Beethoven, Schubert, the romantic composers, and of contemporary writers. 4 cr.

795. SPECIAL STUDIES IN MUSIC LITERATURE
Presumes a sound musical background. Barring duplication of material, this course may be repeated for credit. Prereq: permission. 1-4 cr.

Performance (Mus)!

Registration for musical organization courses should be completed during the registration period. All music laboratory courses may be repeated. A maximum of 8 credits earned in music laboratory may be used toward graduation.

Private lessons are based on half-hour individual instruction per week. One semester hour credit may be earned with one lesson per week; two or four semester hours of credit may be earned with two lessons per week (only students in the Bachelor of Music curriculum are allowed to register for four credits). Five one-hour practice periods are expected for each credit of private study. The special semester fee for lessons is $35 per half-hour lesson (this fee applies for courses numbered 541 through 550). The fee includes the use of a practice room for the required preparation.

Registration in courses of private instruction is open to all students in the University, subject to approval by the Music Department and instructor. Enrollment is limited in these courses. A student may register for credit in successive semesters.

441. CONCERT CHOIR—TECHNIQUES AND LITERATURE
Study and performance of the best classical and modern choral literature. Recommended for voice majors. Open to all interested students. Prereq: permission. 1 cr.

442. CHAMBER CHORUS
A mixed chorus which studies and performs sacred and secular works from the Renaissance to the present, participates with the opera workshop and with the orchestra, and serves as a nucleus for larger choral-instrumental work. Prereq: permission. 1 cr.

444. THE NEWHAMPshiremen
The male chorus of the University. Recommended for all men voice majors. Prereq: permission, and audition. 1 cr. Cr/F.

445. SUMMER SESSION CHORUS AND BASIC CONDUCTING
Study and performance of the best classical and modern choral literature. The basic elements of choral conducting for elementary and secondary teachers, church choir directors, and those interested in singing. May be repeated. 1 cr.

448. OPERA WORKSHOP
Operatic singing, acting, and production techniques; performance of both complete operas and operatic excerpts. Prereq: permission. 1 cr.

450. SYMPHONY—TECHNIQUES AND LITERATURE
Presents several concerts, during the year, of repertoire ranging from the great standard symphonic literature to experimental multi-media composition. Prereq: permission of conductor and audition. 1 cr.

451. UNH TRAINING ORCHESTRA
Designed for music education majors but open to all who wish to develop proficiency on major or secondary instruments. Ensemble experience in the basic repertoire often met in school situations for students who do not yet meet the standards required for the UNH Symphony. 1 cr.

452. UNH SYMPHONIC WIND ENSEMBLE
Open to all students. Campus concerts and New England tour. Prereq: permission and audition. 1 cr.
453. UNIVERSITY BAND
Original band music, transcriptions, marches, etc. For students whose program does not permit music as a major interest, but are interested in maintaining their playing proficiency and continuing their study of music. Prereq: permission. 1 cr.

454. UNH MARCHING BAND
Open to all students; performs during home and away football games. Rehearsals conclude at the end of the football season. Prereq: permission. Students planning to remain in the band program after football season should register for Musi 452 or 453. 0 cr.

455. PIANO ENSEMBLE—TECHNIQUES AND LITERATURE
Drawing from available student instrumentalists and singers, the pianist learns the art of performing in trios, duo sonatas, two-piano works, and gains experience in Lieder accompaniment. 1 cr.

456. STRING ENSEMBLE—TECHNIQUES AND LITERATURE
457. WOODWIND ENSEMBLE—TECHNIQUES AND LITERATURE
458. BRASS ENSEMBLE—TECHNIQUES AND LITERATURE
459. PERCUSSION ENSEMBLE—TECHNIQUES AND LITERATURE
460. JAZZ ENSEMBLE—TECHNIQUES AND LITERATURE
In these five courses, groups of instrumentalists gain experience in the performance of literature for the smaller ensemble. Prereq: permission. 1 cr.

467. FUNCTIONAL PIANO
Basic instruction for music majors with no previous keyboard training. Pianoforte technique, keyboard harmony geared to the practical harmonization of simple melodies, sightreading, transposition and modulation. May involve both class instruction and periodic short individual lessons. Prereq: permission. 1 cr.

541. VOICE
542. PIANO
543. HARPSICHORD
544. ORGAN
545. VIOLIN, VIOLA
546. VIOLONCELLO, STRING BASS
547. WOODWIND
548. BRASS
549. PERCUSSION
550. HARP (Offered by special arrangement with the department.)
In courses 541 through 550 (private instruction in performance) presentation and material used vary with pupil. Emphasis on musical values and sound technique. As the student advances, repertory is broadened to include works of all periods. One solo performance each semester may be required. Prereq: permission. 1 or 2 lessons; 1, 2 or 4 cr.

551-552. CONDUCTING METHODS
Physical aspects, equipment of conductor, fundamental gestures and beats, baton techniques. The reading and analysis of full and condensed scores, study of transposition, psychology of rehearsal. Prereq: Musi 571-572 and junior standing. 2 cr.

754. COLLEGIUM MUSICUM
Instrumentalists and singers perform small ensemble music from all periods, with emphasis on Renaissance and baroque music. Prereq: permission. 1 cr.

755. PERFORMANCE STUDIES IN MEDIEVAL MUSIC
Performance of vocal, vocal-instrumental, and instrumental ensemble, circa 1100 to 1450: rhythm, musica ficta, notation, melodic ornamentation, improvised polyphony, and the clear projection of a polyphonic texture. Evaluation of the writings of selected medieval theorists and modern scholars; practical exercises in transcription; and performance on reconstructions of medieval instruments, especially the organ, harpsichord, lute, viols, recorders, cornets, and trombones. 2 or 4 cr.

756. PERFORMANCE STUDIES IN RENAISSANCE MUSIC
Problems of musical performance, circa 1450 to 1600, via the small vocal, vocal-instrumental, and instrumental ensemble; rhythm and tempo, musica ficta, text underlay, articulation, diminution, tablature notation, and effective distribution of voices and instruments. Survey of performance manuals, iconographical sources, and current research; development of editing technique through the preparation of transcriptions; and an opportunity to perform on the organ, harpsichord, lute, viols, recorders, cornets, and trombones. 2 or 4 cr.

757. PERFORMANCE STUDIES IN BAROQUE MUSIC
Performance practices in solo keyboard works, sonatas, a 2 and a 3 and solo cantatas, circa 1640 to 1750, concentrating on ornamentation, realization of figured basses, improvisation, articulation, rhythm, keyboard registration, and the influence of the construction of baroque musical instruments (including the organ) on sonority and technique. Course work includes an examination of manuscripts (on microfilm), prints, treatises, and iconographical sources and the editing and realization of selected works for recital performance. 2 or 4 cr.

758. PERFORMANCE STUDIES IN CLASSICAL MUSIC
Performance of keyboard music and instrumental chamber music, circa 1760 to 1815, emphasizing the relationship between structure and interpretation, late 18th century conventions of ornamentation and articulation, a survey of tutors and relevant theoretical writing, and a critique of currently published editions and editing techniques. 2 or 4 cr.
759. PERFORMANCE STUDIES IN 19TH CENTURY MUSIC
Performing and coaching Lieder, piano music, and instrumental chamber music from Schubert through Debussy; effective ensemble, traditions of interpretation, and the influence of structure on performance. 2 or 4 cr.

760. PERFORMANCE STUDIES IN 20TH CENTURY MUSIC
Small instrumental or vocal-instrumental ensembles, with intensive work in structural analysis, rhythmic ensemble coordination, dynamic and articulation control, new instrumental techniques, notation, improvisation, and the interaction between jazz and European styles. 2 or 4 cr.

Theory and Composition (Musí)

471-472. THEORY I
Introduction to the tonal system: principles of voice-leading and harmonic progression through the analysis, realization, and composition of one-, two-, and four-voiced textures. The concept of triad inversion and consonant diatonic harmonies of the major and minor modes. Students should register for 473-474 concurrently. Prereq: permission. 3 cr.

473-474. EAR TRAINING I
Laboratory exercises to develop aural skills; sight-singing and dictation. Students should register for Musí 471-472 concurrently. Prereq: permission. 1 cr.

571-572. THEORY II
A continuation of Musí 471-472. Compositional and analytic work stresses the treatment of dissonance within the tonal system; accessory tones, seventh chords, tonicization, modulation, the basic principles of chromatic harmony, and the harmonization of chorale melodies are covered. Students should register for 573-574 concurrently. Prereq: Musí 472, 474, and permission. 3 cr.

573-574. EAR TRAINING II
Laboratory exercises to further develop aural skills. Students should register for Musí 571-572 concurrently. Prereq: Musí 472, 474; permission. 1 cr.

771-772. COUNTERPOINT
Contrapuntal techniques of tonal music. Melodic construction and dissonance treatment through work in species counterpoint and studies in harmonic elaboration and prolongation. Analysis of selected compositions emphasizes the connection between fundamental contrapuntal techniques and the voice-leading of composition. Prereq: Musí 572 or permission. 2 cr.

773. CANON AND FUGUE
A continuation of Musí 772. The procedures of polyphonic tonal textures through the analysis and composition of canons and fugues. Prereq: Musí 772 or permission. 2 cr.

775-776. COMPOSITION
Construction of phrases, periods, and short compositions following classical models. Problems of text-setting. Prereq: Musí 572 or permission. 3 cr.

777-778. ADVANCED COMPOSITION
A continuation of Musí 776. Individual compositional projects. Prereq: Musí 776 and permission. 3 cr.

779. ORCHESTRATION
The characteristics of band and orchestral instruments both individually and in small (homogeneous) and large (mixed) groupings. Students study scores, write arrangements, and have arrangements performed if at all possible. Some aspects of vocal writing. Prereq: Musí 572 or permission. 4 cr.

781. FORM AND ANALYSIS
Formal and textural elements; concepts and examples. Thorough analysis of smaller and larger masterworks from the standpoint of harmony, counterpoint, structural line, and formal articulation. Prereq: Musí 572 or permission. 4 cr.

785. ELECTRONIC SOUND SYNTHESIS
Part I: “traditional” or “analog” electronic sound synthesis; work with the Buchia Synthesizer in the electronic music studio. Part II: 1) elementary programming in FORTRAN, 2) the logic of computer sound synthesis, and 3) programming in MUSIC 4BF. Students will have the opportunity to run programs on a DEC KL10 computer equipped with 4-channel digital-to-analog and analog-to-digital converters. Part III: completion of a major independent study project in electronic music. Prereq: permission. 4 cr.

Music Education (MuEd)

500. EXPLORING MUSIC TEACHING
Introductory field-work course for students to explore music teaching as a career. Observation, teaching, research, examination of multi-mechanical aids for music curriculum development. 2 cr.

540. BEGINNING TECHNIQUES IN VOICE
Basic techniques of voice production. Individual work is emphasized. A working knowledge of an instrument is required. This course is desirable for but not restricted to MuEd majors. Prereq: permission. 2 cr.
545,546. BEGINNING TECHNIQUES IN STRING INSTRUMENTS
Class and individual instruction. Four hours practice per week.
Training on the violin, viola, and cello. Classroom procedures, establishment of string programs, and evaluation of available methods materials. 2 cr.

595. SPECIAL PROJECTS IN MUSIC EDUCATION
Individual investigation, research, or study. Creative projects may be included. Prereq: permission. 1-4 cr.

741-742. TECHNIQUES AND METHODS IN CHORAL MUSIC
Problems in the organization and performance of high school, college, and community choruses. Techniques of choral conducting and rehearsal, repertory, and materials. 2 cr.

743. MATERIALS AND METHODS IN PIANO MUSIC
Gives potential piano teachers a coherent but flexible approach to the instruction of students of different ages and levels of talent through evaluation of methods and materials and discussion of the role of the private teacher. 2 cr.

745-746. TECHNIQUES AND METHODS IN STRING INSTRUMENTS
Class and individual instruction. Four hours practice per week required. Intensive training on the violin, viola, cello, and double bass, enables participants to perform in string ensembles. Classroom procedures, establishment of string programs, and evaluation of available methods materials. 2 cr.

747-748. TECHNIQUES AND METHODS IN WOODWIND INSTRUMENTS
Basic fundamentals of performance, class instruction, associated acoustical problems and study of woodwind literature. First semester: clarinet, flute, and saxophone. Second semester: double-reed instruments. 2 cr.

749. TECHNIQUES AND METHODS IN BRASS INSTRUMENTS
A basic course in embouchure formation, tone, tonguing, fingering, flexibility, accuracy, and range development as applied to the trumpet or baritone horn, French horn, and trombone; methods, studies, solos, and ensembles most likely to be useful with grade school, junior high school, and high school players of brass instruments. Qualified advanced students may elect honors work in composition, arranging, and ensemble coaching. 2 cr.

751. TECHNIQUES AND METHODS IN PERCUSSION INSTRUMENTS
Basic performance skills on snare drum, timpani, mallet instruments, and other percussion instruments used in bands and orchestras. Materials and methods of instruction. 2 cr.

785. MUSIC FOR THE ELEMENTARY CLASSROOM TEACHER
Designed for the non-specialist. The correlation and integration of music in the school curriculum, and the basic skills and techniques necessary. 4 cr.

787-788. THE TEACHING OF ELEMENTARY AND MIDDLE SCHOOL MUSIC
Aims, scope, and organization of materials and activities in the elementary and middle schools. Modern trends in educational philosophy; development of the child's voice; demonstration of materials and methods for the various grades. Observation and teaching in schools. 2 cr.

791-792. THE TEACHING OF SECONDARY SCHOOL MUSIC
Educational principles applied to music teaching and learning; curriculum organization for junior and senior high school. Adolescent voice, voice classification, selection of vocal and instrumental materials, and building unified concert programs. Problems of administration; management; relationship of the teacher to school and community. Observation of secondary school music programs. 2 cr.

795. SPECIAL STUDIES IN MUSIC EDUCATION
Allows upper-level students to explore individually or in groups areas related to their specific professional interests. Prereq: permission. 1-4 cr.

796. ORGANIZATION AND ADMINISTRATION OF SCHOOL MUSIC GROUPS
Problems of organizing and administering school orchestras, bands, glee clubs, choruses, and small ensembles; objectives, motivation, schedule, discipline, equipment, programs, finances, rehearsal techniques, contests and festivals, materials, personnel selection, and grades. 4 cr.

Nursing (Nurs)
Chairperson: Marguerite F. Fogg

ASSOCIATE PROFESSORS: Mary L. Fernald, emerita; Marguerite F. Fogg, Ann Kelley, Rosemary Wang

ASSISTANT PROFESSORS: Joyce Barker, Dolores Bowers, Ann Carnaby, Patricia Dean, Meigs Dickman, Sarah Hubbard, Juliette Petillo, Martha Rowe

INSTRUCTORS: Jan Bennett, Susan Collins, Evelyn Fitzpatrick, Debra Livingston, Janet Michael, Anne-Marie Renaud, Margaret Rice, Judith Rick
402. **NURSING**
Current trends and issues in nursing. Personal beliefs and understandings related to practice and nursing. Significance of interpersonal and technical skills in nursing practice. Nurs majors only. 2 cr.

601. **NURSING PROCESS**
Concepts and theories related to nursing process applied to man—a bio-psycho-social being. Laboratory experiences: application of process to well individuals throughout the life cycle; focus on maintaining health in the community setting. Prereq: junior standing; Nurs majors. 6 cr.

603. **NURSING PROCESS APPLIED TO WELL FAMILY**
Nursing process applied to well families; maintaining family health under normal stresses and adaptation to change. Laboratory experience: health maintenance of an assigned well family and an expanding family. Prereq: junior standing; Nurs major. 6 cr.

610. **NURSING PROCESS DEALING WITH ENVIRONMENTAL INFLUENCES ON MAN AND NURSING**
Health care delivery system as it relates to: limited illness, leadership, change, and research. Nursing interventions with clients experiencing injuries from mechanical, thermal, chemical, and occupational stress. Laboratory experiences in hospitals and communities. Prereq: Nurs 601; 603; Nurs majors. 6 cr.

612. **NURSING PROCESS IN LIMITED DISRUPTIONS OF MAN'S WELLNESS**
Nursing process applied to individuals and families coping with surgical, inflammatory, and childbearing stresses; maintenance of the transport system, internal chemical environment, and comfort. Laboratory experiences in hospitals and the community to increase understanding and proficiency. Prereq: Nurs 601; 603; Nurs majors. 6 cr.

621. **NURSING PROCESS IN COMPLEX DISRUPTIONS OF MAN'S WELLNESS**
Nursing process applied to complex bio-psycho-social disruptions and/or life threatening situations in man's wellness at all developmental levels. Prereq: Nurs 610; 612; Nurs major. 6 cr.

625. **NURSING PROCESS DEALING WITH COMPLEX ENVIRONMENTAL INFLUENCES ON MAN AND NURSING**
Nursing process applied to complex external stimuli affecting man and nursing; multiple environmental and societal factors contributing to disruptions in man's wellness. Prereq: Nurs 610; 612; Nurs major. 6 cr.

628. **NURSING PROCESS IN MAINTAINING MAN'S OPTIMUM FUNCTION IN SOCIETY**
Nursing process; collaboration and coordination within the health team to assess and promote functional health potential of individuals at all developmental stages. Prereq: Nurs 621; 625; Nurs major. 8 cr.

630. **THE DYNAMICS OF ADDICTION**
Dynamics of addiction from the viewpoint of a disease process. Reasons for and treatments and implications of addiction to drugs, alcohol, and other bodily stimuli. Cause and effect relationship involved in addiction examined from the perspectives of the individual and society. Role implications for health care providers in relation to prevention and treatment. Prereq: senior standing major/or permission. 4 cr.

640. **QUALITY ASSURANCE IN NURSING**
Current trends toward quality assurance in fields of health and nursing; approaches to assessment and implementation of quality assurance programs in various practice settings. Prereq: senior standing major/or permission. 4 cr.

695. **INDEPENDENT STUDY**
In-depth study with faculty supervision. Prereq: junior standing and approval of adviser and faculty of the area concerned. 2-4 cr.

---

**Occupational Education (OcEd)**

**Chairperson:** William H. Annis

**PROFESSORS:** Samuel Hoitt, emeritus; William H. Annis, Maynard Heckel

**ASSOCIATE PROFESSOR:** Jesse James, emeritus; Richard L. Barker

**ASSISTANT PROFESSOR:** Nicholas L. Paul

**THOMPSON SCHOOL PROFESSOR:** Paul A. Gilman

**THOMPSON SCHOOL ASSOCIATE PROFESSOR:** Lewis Roberts, Jr.

402. **FABRICATION TECHNOLOGY**
Welding, cold-metal working, sheet-metal working, wood working, and plastics in relation to building or repair of structures and machines. Prereq: permission. 4 cr.

500. **OCUPATIONAL COMPETENCY EXAMINATION AND EVALUATION**
Examination and/or evaluation to determine the level of competency within occupational clusters. Restricted to OcEd majors. Prereq: permission. 0-30 cr. Cr/F

550. **PRINCIPLES OF OCCUPATIONAL EDUCATION**
Technical and professional qualification of OcEd teachers and the Cooperative Extension Service. Federal and state legislation affecting these programs at the local level. 4 cr.
650. MICRO-TEACHING

695. INVESTIGATIONS IN OCCUPATIONAL EDUCATION

696. FIELD EXPERIENCE
Work with an agency, institution, or organization to gain technical and/or professional competence not otherwise available. Student gains experience with departmental adviser. Credit approval subject to recommendation of faculty members, and performance of student. Limited to OcEd majors and minors. Prereq: permission. May be repeated up to 16 credits. 2-16 cr.

700. WORKSHOPS IN OCCUPATIONAL EDUCATION
Modularized instruction for inservice education of teachers of vocational education and others in occupational education. May be repeated up to 8 credits. 1-2 cr.

750. SHOP ORGANIZATION AND CONTROL METHODS
Efficiency in the control of instruction, equipment, and materials. 4 cr.

783. PREPARATION FOR CONDUCTING AND SUPERVISING ADULT-EDUCATION PROGRAMS
Techniques of needs identification, program planning, teaching methods, supervision, and evaluation. Prereq: OcEd 550/or permission. 4 cr.

784. THE COMMUNITY-JUNIOR AND VOCATIONAL-TECHNICAL COLLEGES
Rise and development of community-junior colleges and two-year vocational-technical colleges in American education; their history, potential, philosophy, and functions. 4 cr.

785. ADVANCED METHODS AND MATERIALS OF INSTRUCTION
Organization of instruction to meet student needs; development and use of resource files and instructional materials; evaluation. Open to teachers of vocational-technical education and others by permission. 4 cr.

786. CONCEPTS OF OCCUPATIONAL EDUCATION
Development of vocational-technical education in the U.S.; socioeconomic influences responsible for its establishment. Federal and state requirements for secondary and post-secondary schools. Coordination of programs with general education and other vocational fields. 4 cr.

787. ADMINISTRATION AND SUPERVISION OF VOCATIONAL EDUCATION
Special competencies required and operating philosophies examined for supervision and administration in the several areas of vocational education. 4 cr.

791. PLANNING FOR TEACHING
Organization of materials of instruction to meet group and individual needs. Techniques of instruction, planning for teaching, the function of consulting committees, working with youth groups, program evaluation. Course is scheduled concurrently with Educ 694. Prereq: OcEd 650. 4 cr.

796. INVESTIGATIONS IN OCCUPATIONAL EDUCATION
1) Career Education, 2) Secondary Education, 3) Post Secondary Education, 4) Adult Education, 5) Extension Education, 6) Exemplary Programs, 7) Cooperative Education Programs, 8) Disadvantaged and Handicapped Education Programs. Student-selected problems in one of the areas listed. Elective after consultation with the instructor. Hours to be arranged. May be repeated. 2-4 cr.

798. OCCUPATIONAL EDUCATION SEMINAR
Discussion of current issues, problems, and research and development in OcEd. Students, faculty, and other personnel serve as discussion leaders. Required of OcEd majors and minors. 0 cr.

Occupational Therapy (OT)
Chairperson: Ann D. Ury

ASSOCIATE PROFESSORS: R. Virginia Bell, Ann D. Ury
ASSISTANT PROFESSORS: Alice E. Crow, Marjorie B. Dussault, Carol J. Gryde, Judith D. Ward
PRE-CLINICAL INSTRUCTOR: Elizabeth L. Crepeau
SUPERVISOR OF FIELD WORK EXPERIENCE: Carol J. Gryde
MEDICAL LECTURERS: Luigi N. Dolcino, Richard Hockman, Charles H. Howarth, John C. Neff, Gerald Shattuck, Paul C. Young

The following courses are for occupational therapy students; elective for others by permission of the department chairperson.
Occupational Therapy

400. PRE-CLINICAL IN NORMAL CHILD DEVELOPMENT
Assignment to local facilities for observation and work with normal children. Scheduled discussions of experiences and appropriate written reports. Prereq: permission. 1 cr. Cr/F.

510. OCCUPATIONAL THERAPY—THEORY I
Development concepts and historical perspectives of the basic theories and techniques. Fundamentals of evaluation, testing, and problem solving; planning and administering treatment. Clinical observation and supervised clinical participation. Prereq: OT 400. Lab. 4 cr.

512. TREATMENT MEDIA ANALYSIS I
Activity and its relationship to normal human development; teaching and supervising activities programs. Development of skills in treatment media and administration of activity programs. Minimum lab fee: $5. Prereq: OT major/or permission. 2 cr.

515. TREATMENT MEDIA ANALYSIS II

531. GROUP PROCESS
Dynamics and development of group relationships with emphasis on self-awareness and sensitivity to others. Comparison of normal and therapeutic groups. Group processes in practice; role development and leadership concepts. 2 cr.

581. INTRODUCTION TO MEDICAL CONCEPTS
Basic concepts of disease and disease process; emphasis on identification of factors relevant to OT problem-solving. Medical lectures as appropriate. Prereq: OT 510, 512; Zool 507-508; junior standing in major. 4 cr.

582. OCCUPATIONAL THERAPY—THEORY II—DEVELOPMENTAL CONCEPTS AND REHABILITATION
Functional disabilities in a medical-model framework in relation to the developmental tasks from pediatric through geriatric age groups. Specific OT treatment goals discussed and practiced in the laboratory. Medical lectures as appropriate. Prereq: PhEd 652; OT 581; junior standing in major. 4 cr.

583. OCCUPATIONAL THERAPY—PSYCHIATRIC FOUNDATIONS
Clinical psychiatric conditions presented by a psychiatrist through patient interviews. Recognition of pathological psychiatric symptoms, their cause, and general treatment are emphasized in follow-up recitation sections. Prereq: junior standing in OT major/or permission. 4 cr.

588. PRE-CLINICAL II—THREE ONE-WEEK PRE-CLINICALS
During sophomore, junior, and senior years the student is required to spend three weeks in a clinical setting in school breaks or summers. Written evaluation is required for each. Prereq: admission to OT program; permission. 1 cr. Cr/F.

624. OCCUPATIONAL THERAPY—THEORY III—PSYCHOSOCIAL TREATMENT
Psychiatry applied to psycho-socially disabled patients. Learning theory, group dynamics, treatment, evaluation, and rehabilitation techniques. Application of theory in a clinic setting. Prereq: OT 583. 4 cr.

633. OCCUPATIONAL THERAPY—THEORY IV—PHYSICAL DYSFUNCTION
Selected orthopedic and rehabilitation medicine problems with concurrent study of applicable O.T. Rx techniques; fractures, amputations, arthritis, burns, and other orthopedic conditions. Medical lectures as appropriate. Prereq: senior standing in major. 4 cr.

634. OCCUPATIONAL THERAPY—THEORY V—ADVANCED PHYSICAL DYSFUNCTION
OT treatment-planning with neurological and sensory motor disabilities (e.g., spinal cord injuries, cerebral palsy, learning disabilities). Concepts of community practice. Appropriate medical lectures. Minimum lab fee: $10. Prereq: PhEd 606; OT 633. 4 cr.

644. INTRODUCTION TO EVALUATION AND OCCUPATIONAL THERAPY TREATMENT PLANNING FOR LEARNING DISABILITIES
Defining learning disability problems. Diagnostic tools for determining impairments in visual perception, perceptual-motor areas, and the auditory language area. Remediation programs. Prereq: senior standing in major/or permission. 4 cr.

695. INDEPENDENT STUDY
In-depth study with faculty supervision. Prereq: junior standing in OT major; approval of major adviser and faculty of area concerned. 2-4 cr.

697. ORGANIZATION AND ADMINISTRATION
Organization and administration of OT services. Practical problem-solving experiences. Development of fundamental research skills. Prereq: senior standing in major. 2 cr.

698. SENIOR SEMINAR
Current professional issues. Independent work under a faculty adviser culminating in a senior project. Prereq: senior standing in major. 2 cr.
781. MEDICAL ASPECTS OF REHABILITATION
Physicians present basic, practical medical knowledge and the effects of physical and mental illness on interpersonal relationships and work capacity. Major diseases and impairments which result in functional and vocational disability; medical terminology associated with them. Prereq: Educ 818 or equivalent; permission. 4 cr.

Ocean Engineering
See Interdisciplinary and Experimental Programs, page 85.

Oceanography
See Interdisciplinary and Experimental Programs, page 84.

Philosophy (Phil)
Chairperson: Asher Moore

PROFESSORS: Donald C. Babcock, emeritus; Asher Moore
ASSOCIATE PROFESSORS: Paul Brockelman, Robert C. Scharff, Duane Whittier
ASSISTANT PROFESSORS: R.V. Dusek, Neil Lubow, Yutaka Yamamoto
INSTRUCTOR: James Stephens
LECTURER: Judith St. Lawrence

Introduction to Philosophy: The 400-level courses listed below are all introductions to philosophy; students should select from among them according to interest. May be taken in any number and order; except for 495 and 496 there are no prerequisites.

401. PHILOSOPHICAL DIMENSIONS
An examination of representative philosophies and some of the persistent problems of philosophy. An introductory course designed to acquaint students with the nature of philosophy and to help them think about experience philosophically. 4 cr.

412. BEGINNING LOGIC
Principles of good reasoning: the development of symbolic techniques for evaluating arguments. 4 cr.

417. PHILOSOPHICAL REFLECTIONS ON RELIGION
Introductory philosophy of religion. To help students become critically aware of the philosophical issues involved in various forms of religious belief and some of the persisting philosophical understandings of those issues. 4 cr.

421. PHILOSOPHY AND THE ARTS
Contemporary philosophic concerns and perspectives as reflected in one or more of the arts (literature, theater, film, music, plastic art). 4 cr.

424. SCIENCE, TECHNOLOGY, AND SOCIETY
Consideration of the scientific endeavor and its social import from a philosophical perspective. 4 cr.

430. SOCIETY AND MORALS
A critical study of principles and arguments advanced in discussion of current moral and social issues. Possible topics: violence, rules of warfare, sexual morality, human rights, punishment, abortion. 4 cr.

435. MAN AND WORLD
An introductory investigation of man and his world from a variety of philosophical perspectives. 4 cr.

475. PHILOSOPHICAL REFLECTIONS ON EDUCATION
Philosophical study of the nature, significance, and place of education within the human condition. Students begin to work out and articulate their own attitudes toward the basic issues which lie at the heart of education at all levels. 4 cr.

495. TUTORIAL READING
Basic introductory reading under faculty direction on topics of philosophical importance. The books offered for tutorial reading may be in any area the instructor chooses or on an independent study basis. Prereq: permission. Variable to 4 cr.

496. PHILOSOPHIC TOPICS
Introductory-level seminar in specific topics or problems (e.g., death, love, friendship) considered from a philosophic point of view. Prereq: permission. 4 cr.

520. INTRODUCTION TO EASTERN PHILOSOPHY
Major Eastern traditions of philosophy. Concentration on Indian, Chinese, and Japanese systems may vary from semester to semester. Not open to freshmen. 4 cr.

530. ETHICAL THEORIES
A critical review of developments in ethical and value theory with emphasis on normative ethical theories. 4 cr.

550. SYMBOLIC LOGIC
The principles and techniques of modern logic, with special attention to their philosophical significance. Sentential calculus, class calculus, truth tables, and lower functional calculus; the nature of deductive systems, and the problems of formal consistency. Prereq: Phil 412. 4 cr.
570. ANCIENT PHILOSOPHY
Development of Western philosophy from its beginnings in Greece to the Roman period, with particular emphasis on the thought of Plato and Aristotle. 4 cr.

571. MEDIEVAL PHILOSOPHY
Philosophical thought of the Middle Ages from inception in the late Roman period with thinkers such as Plotinus and Augustine through the late Medieval speculative mysticism of such figures as Meister Eckhart. Writings of Augustine and Thomas Aquinas. 4 cr.

572. MODERN PHILOSOPHY: RATIONALISM
Continental European philosophers of the 17th and 18th centuries including Descartes, Leibnitz, Spinoza, and Kant. 4 cr.

573. MODERN PHILOSOPHY: EMPIRICISM
British empiricists of the 17th and 18th centuries; e.g., Locke, Berkeley, and Hume; perhaps concluding with Kant's reaction to empiricism. 4 cr.

574. 19th CENTURY PHILOSOPHY
Important 19th century philosophical movements such as German Idealism, French Positivism, Utilitarianism, Pragmatism, Marxism, Existentialism, and Vitalism. Prereq: Phil 572 and/or 573. 4 cr.

600. PHILOSOPHY THROUGH LITERATURE
The philosophical implications of representative literary works; emphasis on recent and contemporary literature. Prereq: junior or senior standing. 4 cr.

610. SURVEY OF RECENT AMERICAN PHILOSOPHY
Philosophical movements such as Pragmatism and Process Philosophy. Readings from figures such as Peirce, James, Dewey, Santayana, Whitehead, and C.I. Lewis. Prereq: two courses in the history of philosophy (one of which may be concurrent) or permission. 4 cr.

615. SURVEY OF RECENT ANALYTIC PHILOSOPHY
Development of Analytic Philosophy from 1900 to the present day. The Analytic method applied to the solution of philosophic problems. Typical readings: Russell, Moore, Wittgenstein, Ayer, Ryle, and Austin. Prereq: two courses in the history of philosophy (one of which may be concurrent) or permission. 4 cr.

620. SURVEY OF RECENT EUROPEAN PHILOSOPHY
Major developments and themes. Representative figures: Jaspers, Husserl, Heidegger, Bloch, Lukacs, Habermas, Bergson, Marcel, Sartre, Merleau-Ponty, Ricoeur, Kolakowski, etc. Prereq: two courses in the history of philosophy (one of which may be concurrent) or permission. 4 cr.

630. PHILOSOPHY OF THE NATURAL SCIENCES
Philosophical problems raised by the physical and biological sciences; role of mathematics in science, nature of scientific concepts of space and time, relations of science to common sense, relation of theory to observation, logic of scientific discovery, nature of historical changes in scientific world-view, relation of the logic of science to the psychology and history of science. 4 cr.

635. PHILOSOPHY OF LAW
Systematic study of the salient features of legal systems. Possible topics: nature of law; concept of legal validity; law and morality; individual liberty and the law; legal punishment; legal responsibility and related concepts (for example, legal cause, harm, mens rea, negligence, strict liability, legal insanity). 4 cr.

695, 696. SENIOR HONORS
Tutorial work for philosophy department "honors candidates." Prereq: two courses in the history of philosophy, senior standing, an overall grade point of 3.5 or better, a major grade point average of 3.67 or better, and acceptance to honors candidacy. 4 cr. Cr/F.

710. PHILOSOPHY OF RELIGION
The philosophic nature and significance of religious experience; historical and systematic analysis of such traditional issues as the nature of faith, the relation of faith to reason, arguments concerning the existence and nature of God, the problem of evil, the relationship of religion and morality, and the relationship of religion and science. Prereq: two courses in the history of philosophy; or permission. 4 cr.

712. ADVANCED LOGIC
A selection from: consistency and completeness of the predicate calculus; second-order logic; modal logic; axiomatic set theory; formalized arithmetic; recursive functions and Gödel's proof; Turing machines; formal semantics. Prereq: Phil 550; Math 531; or permission. 4 cr.

715. ETHICS
Problems in ethical theory. Topics may include the utilitarian-deontologist dispute, the analysis of moral language, the problem of justification, and the various conceptions of morality. Prereq: Phil 530; or permission. 4 cr.

720. PHILOSOPHICAL PSYCHOLOGY
Philosophical perspectives and problems concerning human nature or the human condition; e.g., the nature of "self," human action, the body-mind problem, freedom of the will, the meaning of "person," the nature of behavior, etc. Prereq: two courses in the history of philosophy; or permission. 4 cr.
725. PHILOSOPHY OF THE SOCIAL SCIENCES
The nature of explanation and understanding in the social sciences. Similarities and differences between the social and physical sciences; the claims of objectivity and of subjectivity in the social sciences; the role of values in the social sciences. Prereq: two courses in the history of philosophy/or permission. 4 cr.

735. SOCIAL AND POLITICAL PHILOSOPHY
Important concepts in social and political philosophy such as natural rights, revolution, law, freedom, justice. Variable content. Prereq: two courses in the history of philosophy/or permission. 4 cr.

740. AESTHETICS
Philosophic inquiry into art and beauty. Prereq: two courses in the history of philosophy/or permission. 4 cr.

745. PHILOSOPHY OF LANGUAGE
Contemporary philosophical studies of the nature of meaning and the structure of language. Prereq: two courses in the history of philosophy/or permission. 4 cr.

750. PHILOSOPHY OF HISTORY
The nature of historical knowledge, efforts to discover patterns of meaning in the past. Prereq: two courses in the history of philosophy/or permission. 4 cr.

755. METAPHYSICS
Advanced and detailed study of one or more important questions or schools of metaphysics, e.g., the nature of being, the nature of reality, the relationship of thought and reality. Prereq: two courses in the history of philosophy/or permission. 4 cr.

760. EPISTEMOLOGY
The theory of knowledge: nature of knowledge and belief; nature of perception; theories of truth. Prereq: two courses in the history of philosophy/or permission. 4 cr.

780. SPECIAL TOPICS IN PHILOSOPHY
Advanced study of special topics: e.g., a problem, figure, or movement in the history of philosophy; or selected issues, thinkers or developments in contemporary philosophy. Prereq: two courses in the history of philosophy/or permission. 4 cr.

795, 796. INDEPENDENT STUDY
For students who are adequately prepared to do independent, advanced philosophical work; extensive reading and writing. Before registering, student must formulate a project and secure the consent of a department member who will supervise the work. Conferences and/or written work as required by the supervisor. Variable to 4 cr.

Physical Education (PhEd)
Chairperson: Robert Kertzer

PROFESSORS: Marion C. Beckwith, Evelyn Browne
ASSOCIATE PROFESSORS: Caroline Wooster, emerita; Katherine Amsden, Gavin H. Carter, Phyllis A. Hoff, Robert Kertzer, D. Allan Waterfield, Robert E. Wear, Walter E. Weiland
ASSISTANT PROFESSORS: Thomas R. Barstow, Daniel W. Jones, Jr., Joyce Mills, Nancy C. Rupp
LECTURERS: Louis A. Datilio, Jean M. Rilling

Faculty from the Departments of Intercollegiate Athletics
PROFESSOR: Paul C. Sweet, emeritus
ASSISTANT PROFESSORS: Dwight E. Aultman, Lionel J. Carbonneau, Theodore W. Conner, Irvin T. Hess

The Major Program
Prospective physical education majors should refer to pages 71-73 for information regarding the major programs.

The Elective Program
The Department of Physical Education provides an opportunity for students to participate in an elective activity program in a wide variety of sports, aquatics, conditioning, and gymnastics courses. A student may elect up to two credits of activity coursework per semester. Courses offered in the fall, winter I, winter II, and spring seasons include: aquatics (basic instruction, advanced lifesaving, water safety instructor, synchronized swimming, and SCUBA), archery, badminton, bowling, figure control, figure skating, fitness laboratory, foil fencing, basic skating, golf, gymnastics, handball, hiking/orienteering, ice hockey, outdoor education, paddleball, rifflery, skiing, ski conditioning, ski touring, squash, tennis, trampoline, volleyball, weight training, yoga.

The Department supplies special uniforms. Students are required to furnish such items as sneakers and bathing caps. A $35 fee is charged for SCUBA; fees are also charged for off-campus activities such as skiing. Students with physical limitations are encouraged to participate in the program on a modified basis. Students may repeat the same level activity for credit with the instructor's approval.

Elective Physical Education
410-455. ELECTIVE PHYSICAL EDUCATION
Activity coursework open to all undergraduate students. Cr/F.
Physical Education

Half-Semester Courses (.5 credits each)

410. ARCHERY
411. FIGURE SKATING—BEGINNING
412. FIGURE SKATING—ELEMENTARY/INTERMEDIATE
413. FITNESS LAB—BICYCLING
414. BASIC SKATING
415. GOLF—BEGINNING
416. GOLF—INTERMEDIATE
417. ICE HOCKEY
418. SKI CONDITIONING
419. SKIING—BEGINNING*
420. SKIING—BEGINNING†
421. SKIING—INTERMEDIATE†
422. SKIING—ADVANCED†
423. SKIING—RACING†
424. SKI TOURING—BEGINNING
425. TENNIS—BEGINNING
426. TENNIS—ELEMENTARY
427. TENNIS—INTERMEDIATE
428. TENNIS—ADVANCED
429. SPECIAL TOPIC
430. SPECIAL TOPIC
431. SKI TOURING—INTERMEDIATE
432. BOWLING
433. OUTDOOR EDUCATION
434. RIFLERY

Full-Semester Courses (1 credit each)

435. BADMINTON
436. COURT GAMES (HANDBALL, PADDLEBALL, SQUASH)
437. FENCING—BEGINNING
438. FENCING—ELEMENTARY
439. FIGURE CONTROL
440. GYMNASTICS
441. HIKING/ORIENTEERING
442. ADVANCED LIFESAVING
443. SWIMMING—BASIC
444. SYNCHRONIZED SWIMMING
445. TRAMPOLINE
446. VOLLEYBALL
447. WEIGHT TRAINING AND CONDITIONING
448. YOGA
449. SPECIAL TOPIC
450. SPECIAL TOPIC

Specialized Physical Education Coursework for Majors

470-491. MAJOR ACTIVITY COURSEWORK
Performance skills and beginning teaching methods.

470. GYMNASTICS 1 cr.
471. OUTDOOR EDUCATION 1 cr.
472. EDUCATIONAL GYMNASTICS 1 cr.

Gymnastics in Movement Education emphasizing the problemsolving method of teaching.

473. TRACK & FIELD 1 cr.
474. FOLK, SQUARE, & SOCIAL DANCE .5 cr.
475. CONDITIONING .5 cr.
476. VOLLEYBALL .5 cr.
477. TENNIS .5 cr.
478. LEAD-UP GAMES .5 cr.
479. ACTIVITIES FOR ELEMENTARY SCHOOL .5 cr.
480. WRESTLING .5 cr.
481. MEN'S SOCCER .5 cr.
482. MEN'S LACROSSE .5 cr.
483. BASEBALL .5 cr.
484. SOFTBALL .5 cr.
485. MEN'S BASKETBALL .5 cr.
486. WOMEN'S LACROSSE .5 cr.
487. FIELD HOCKEY .5 cr.
489. WOMEN'S SOCCER .5 cr.
491. WOMEN'S BASKETBALL .5 cr.

Theory Courses—Physical Education

500. PERSPECTIVES IN PHYSICAL EDUCATION
An introduction to the profession of physical education, including concentrations on the historical, sociological, and adapted perspectives. 4 cr.

501. ADVANCED FIRST AID AND EMERGENCY CARE
American National Red Cross program in advanced first aid and emergency care. 2 cr.

502. BASIC ATHLETIC TRAINING
Etiology, pathology, acute care, and prognosis of sports injuries. 3 cr.

520. WATER SAFETY INSTRUCTORS' COURSE
Analysis of aquatic techniques; methods of teaching swimming, diving, and lifesaving. A.R.C. instructor authorization awarded to candidates with high caliber of personal skill, knowledge, and teaching ability. Prereq: current advanced lifesaving certification. 2 cr.

*On Campus
†Gunstock
521. THEORY OF COACHING BASKETBALL
Individual and team offense and defense; rules of the game. Problems in team handling and conditioning. Prereq: PhEd 485 or 491. 2 cr.

522. THEORY OF COACHING FOOTBALL
Systems of play; team and individual offensive and defensive fundamentals; theory and strategy of team play; coaching methods, physical conditioning; rules. 2 cr.

523. THEORY OF COACHING HOCKEY
Basic hockey skills. Fundamentals of individual and team offense and defense; coaching methods; rules. 2 cr.

524. THEORY OF COACHING BASEBALL
Batting and fielding; fundamentals of each position; problems of team play; coaching methods; physical conditioning; rules. Prereq: PhEd 483 or 484. 2 cr.

525. THEORY OF COACHING SOCCER
Fundamental and advanced skills and techniques; offensive and defensive principles of team play; tactical formations and strategy; methods of training and practicing; rules. Prereq: permission. 2 cr.

526. THEORY OF COACHING WRESTLING
Theory, practical teaching methods, and the development of advanced skills and techniques from basic maneuvers to the more advanced to develop ability to teach and coach wrestling. Prereq: PhEd 480. 2 cr.

527. AQUATIC LEADERSHIP TRAINING
Methods, organization, and administration of ARC and YMCA aquatic programs. Methods of teaching swimming, diving, and lifesaving; program planning; officiating; operation and maintenance of swimming pools; camp waterfront; health and safety aspects of aquatic programs; legal problems; skin and SCUBA diving; drowproofing. Prereq: current advanced lifesaving certificate. 2 cr.

528. THEORY OF COACHING TRACK AND FIELD
Starting, sprinting, middle-distance and distance running, relay, hurdles, high and broad jumping, pole vault, shot putting, discus, hammer, and javelin. Methods of training and practicing. Prereq: PhEd 473. 2 cr.

529. THEORY OF COACHING GYMNASTICS
Theory, practical teaching methods, and officiating. Construction of gymnastic routines, from elementary to international level. Prereq: PhEd 470. 2 cr.

530. THEORY OF COACHING SWIMMING AND DIVING
Philosophy, historical development, and psychological theories of coaching. Mechanical and kinesiological aspects of the competitive strokes and required and optional dives, low and high board. Prereq: PhEd 447. 2 cr.

531. THEORY OF COACHING FIELD HOCKEY
Analysis of field hockey coaching techniques. New systems of play; use of interval training for pre-season conditioning and in-season practices. Prereq: PhEd 487 or permission. 2 cr.

532. THEORY OF COACHING TENNIS
Tennis fundamentals, technical play, and application of offensive and defensive strategies in the singles and doubles game. Coaching tactics and principles for special competitive situations. Prereq: PhEd 477 or permission. 2 cr.

533. BASIC SCUBA
Pool and classroom instruction in SCUBA fundamentals, N.A.U.I. certification for successful completion of course and 3 open water dives. Strong swimming ability required. $35 fee. 2 cr.

534. ADVANCED SCUBA
Pool, classroom, and open ocean experience in diving techniques and equipment used by underwater researchers. Prereq: basic certification and permission. $35 fee. 2 cr.

540. MOTOR EFFICIENCY AND IMPAIRMENT IN CHILDREN AND ADOLESCENTS
Motor development and motor behavior in normal populations of children at all age levels; perceptual-motor dysfunction, analysis of perceptual-motor training programs, and determination of the role of movement in cognitive development. 4 cr.

563. THE THEORY OF TEACHING PHYSICAL EDUCATION IN THE SECONDARY SCHOOL
Teaching methods. Lab. Prereq: minimum of 6 credits from coursework numbered PhEd 470-491; Educ 500. 4 cr.

606. NEUROLOGY
Morphology, physiology, and histology of the human nervous system. Designed primarily for students in occupational therapy. Lab. Prereq: Zool 507-508. 4 cr.

610. ADAPTED PHYSICAL EDUCATION
Common disorders of handicapped children; practical experience in the remediation of those disorders through the use of adapted physical education activities. Lab. Prereq: Zool 507-508. 4 cr.
620. PHYSIOLOGY OF EXERCISE
Acute and chronic effects of exercise. Respiration, circulation, and energy metabolism. Laboratory sessions demonstrate physiological adaptation to muscular activity. Prereq: Zool 507-508. 4 cr.

621. EXERCISE LABORATORY TECHNIQUES
Administration of graded exercise tests on treadmill, bicycle ergometer and stepping bench. Monitoring physiological variables during the graded exercise test. Calculation of metabolic data resulting from the exercise test. Prereq: PhEd 620. 2 cr.

622. THERAPEUTIC EXERCISE AND EXERCISE PRESCRIPTION
Use of exercise test results to design, prescribe, and conduct exercise programs, primarily for adults. Lab. Prereq: PhEd 620. 3 cr.

625. DYNAMICS OF HUMAN MOVEMENT
Kinesiological consideration of factors which affect efficiency. Cinematographic and non-cinematographic forms of analysis of selected movement events and sequences. Prereq: Zool 507. (Not open to students who have taken PhEd 652.) Lab. 4 cr.

630. EVOLUTION OF SPORT
Sports as an institution in selected geographical areas of the world. Relationship to war, art, and religion; ritualistic role; historic use by nations. Primarily for nonmajor students. Prereq: permission. 4 cr.

633. SOCIAL FOUNDATIONS OF SPORT AND PHYSICAL ACTIVITY
Interdependence of human movement experiences, as exemplified in sport, play, and games, and various cultural, subcultural, and social factors. Prereq: Soc 400. 4 cr.

635. CONTEMPORARY LITERATURE IN THE SOCIO-CULTURAL ASPECTS OF SPORT AND PLAY
Current theory in sport, play, and related areas. Opportunity to pursue in-depth study. 4 cr.

637. SPORT—AN ETHOLOGICAL APPROACH
Survey of ethology (animal behavior). Ethological principles applied to the development and conduct of sports and to other disciplines such as psychology, sociology. Prereq: Soc 411;/or permission. 4 cr.

650. EXERCISE SPECIALIST INTERNSHIP
A six-month internship in an agency which offers physical activity programs of intervention and rehabilitation. Exercises include progressive exercise testing, exercise prescription, and exercise session leadership. Prereq: PhEd 622. 8 cr.

652. KINESIOLOGY
The science of human motion. Human muscular anatomy; actions of skeletal muscles using electromyographic evidence. Concepts of muscle physiology and biomechanics to physical education activities. Lab. Prereq: Zool 507. (Not open to students who have taken PhEd 625.) 4 cr.

668. MEASUREMENT PROCEDURES IN PHYSICAL EDUCATION
Essential elementary statistical methods; measurement data scientifically evaluated for application to the program. Lab. 4 cr.

692. THEORIES OF TEACHING PHYSICAL EDUCATION IN THE ELEMENTARY SCHOOL
Current theories and methods; consideration given to growth and developmental needs in curriculum planning. Lab. Prereq: 6 credits from PhEd 470-491 including 472. Lab. 4 cr.

696. INDEPENDENT STUDY
In-depth study. Prereq: PhEd majors with junior standing and approval of academic adviser and department chairperson. 2-4 cr.

702. ADVANCED ATHLETIC TRAINING
Assessment, rehabilitative treatment, preventive strapping and protective equipment used in athletic training. Administration of a training room facility. Lab. Prereq: PhEd 502. 4 cr.

703. LABORATORY PRACTICE IN ATHLETIC TRAINING
150 hours of experience in UNH athletic training room under N.A.T.A. certified trainer. Prereq: PhEd 502. May be repeated up to 8 cr. 2 cr.

720. INTERPRETATION AND ASSESSMENT OF PHYSICAL FITNESS
Planning and implementation of programs of conditioning and fitness in the general program of education in the school. Personal fitness; components of physical fitness and conditioning; current tests; rehabilitation of individuals of all ages, particularly in college and adult programs. Prereq: PhEd 620 or equivalent. 4 cr.

730. CURRICULUM PLANNING IN PHYSICAL EDUCATION
Criteria and factors involved in planning and construction of school programs. 4 cr.

740. PERCEPTUAL MOTOR DYSFUNCTION
Theoretical rationale and clinical perceptual-motor training programs of Ayres, Kephart, Cratty, Barsch, and Getman, as they relate to sensory-motor integration and the remediation of learning disabilities. Prereq: PhEd 775, 540, or permission. 4 cr.
760. EVOLUTION AND CULTURAL FOUNDATIONS OF PHYSICAL EDUCATION
Forces shaping the conduct and content of programs in selected societies today. Exploration of sport, dance, and physical education in the light of new knowledge in ethology and behavioral sciences. 4 cr.

775. PERCEPTUAL MOTOR LEARNING
Variables affecting the learning and performance of skilled activity; ability and motivational characteristics of the learner; processes for skill acquisition. Prereq: Psyc 401. Lab. 4 cr.

780. PSYCHOLOGICAL FACTORS IN SPORT
Factors of outstanding athletic achievement; psychological variables in competition; the actions and interactions of sport, spectator, and athlete. Prereq: Psyc 401/or PhEd 775. 4 cr.

791. HISTORY OF PHYSICAL EDUCATION
From ancient Egypt to modern times. Influences of Greece, Rome, the Renaissance and Reformation periods, and modern European Nationalism. Analysis of events and the beliefs of leaders in the development of systems of physical education. 4 cr.

Physics (Phys)
Chairperson: Robert E. Houston, Jr.

ASSOCIATE PROFESSORS: John F. Dawson, Harvey K. Shepard, Robert E. Simpson, John J. Wright
ASSISTANT PROFESSOR: Barry J. Harrington

401-402. INTRODUCTION TO PHYSICS I AND II
Broad survey of classical and modern physics with emphasis on the latter. Designed to enable the student to appreciate the role of physics in the society and technology of today. While emphasis is placed upon the fundamental laws of nature on which all science is based, the interrelationship with other disciplines will be stressed. 4 cr.

403-404. INTRODUCTORY PHYSICS FOR BIOLOGISTS
Physical principles of mechanics, thermodynamics, acoustics, optics, electricity, and modern physics, illustrated where possible using examples of interest to biologists. A knowledge of high school algebra and trigonometric functions is essential. 4 cr.

405. CONCEPTS OF PHYSICS
Descriptive course investigating a limited number of important physical systems. Emphasis on how the system is to be investigated and the patterns in which the results fall. Intuitive concepts used in investigations will be traced into their application in modern physics. Patterns of thought in physics will be related to patterns of thought in liberal arts. Recommended for liberal arts juniors and seniors. 4 cr.

406. INTRODUCTION TO MODERN ASTRONOMY
Descriptive coverage of contemporary astronomical and astrophysical techniques with a review of current knowledge and theories concerning the solar system, galaxies, and the universe. Recommended for liberal arts and beginning science students. 4 cr.

407-408. GENERAL PHYSICS I AND II
Elementary course emphasizing mechanics as the foundation underlying all physics; selected topics from electrostatics and electromagnetism. Prereq: knowledge of algebra and trigonometry; Math 425-426 or taken concurrently. Lab. 4 cr.

411. HOUSEHOLD PHYSICS
Practical non-mathematical introduction to the physical principles necessary to understand how and why common devices work. Emphasis on household appliances and automobile. Classroom demonstrations and laboratories to illustrate theories and practical applications. Prereq: permission. Students may receive credit for either 411 or 412, but not both. 4 cr.

412. TECHNICAL PHYSICS
Applied course similar to Phys 411 but with more emphasis on industrial machinery and instruments. Recommended for Thompson School students. Prereq: algebra, trigonometry; permission. Students may receive credit for either 411 or 412, but not both. 4 cr.

505. GENERAL PHYSICS III
Wave motion, kinetic theory, heat, optics, introduction to relativity and quantum physics. Prereq: Phys 408; Math 425, 426. 4 cr.

510. INTRODUCTION TO MODERN COSMOLOGY
Review of the Sun, stars, Milky Way, external galaxies and expansion of the universe. Recent discoveries of radio galaxies, quasi-stellar objects, cosmic black-body radiation, x-rays, and gamma rays precede a discussion of Newtonian and general relativistic cosmological models, steady-state/big-bang theories, and matter-antimatter models. Prereq: elementary astronomy; basic physics/or permission. Not for students without some mathematical background. 4 cr.
Plant Science

516. PHYSICAL MECHANICS I
Analytical treatment of classical mechanics covering dynamics of particles and rigid bodies. Newton's laws, conservation theorems, oscillations, central force problem, generalized coordinates, and Lagrange's equations. Prereq: Phys 505 or equivalent; Math 528 passed or taken concurrently. 4 cr.

602. THERMAL PHYSICS
Classical and statistical approach to thermodynamics. Kinetic theory. Prereq: Phys 505; Phys 516 or equivalent; Math 528. 4 cr.

605-606. EXPERIMENTAL PHYSICS I AND II
Electrical measurements and circuits, passive and active circuit elements, microwaves. Prereq: Phys 505; Math 527 passed or taken concurrently. 4 cr.

607. PHYSICAL OPTICS
Electromagnetic theory of light, interference, diffraction, polarization, related phenomena and non-linear optics. Prereq: Math 528. (Offered if sufficient demand.) 4 cr.

609-610. EXPERIMENTAL PHYSICS III AND IV
Modern physics experiments and special project problems are assigned to individual students. Prereq: senior standing in physics. 4 cr.

613, 614. SPECIAL TOPICS I AND II
Any selected topics not covered sufficiently in a general course may be studied. Prereq: senior standing in physics. (Offered if sufficient demand.) 4 cr.

618. INTRODUCTION TO SOLID STATE PHYSICS
Theory underlying the behavior of solids. Transport theory and the interaction of radiation and matter. Operation of semiconducting and superconducting devices and lasers. Prereq: Math 427 or equivalent. (Offered if sufficient demand.) 4 cr.

695, 696. DIRECTED STUDY
Individual projects under direction of a faculty adviser. Prereq: departmental permission. 1-8 cr.

701-702. INTRODUCTION TO QUANTUM MECHANICS I AND II
Non-relativistic Schroedinger equation, the Hydrogen atom, applications to atomic and molecular structure; nuclear reactions and scattering; models of the nucleus; cosmic rays. Prereq: Math 527; 528 or permission. 4 cr.

703-704. ELECTRICITY AND MAGNETISM I AND II
Foundation of electromagnetic theory; electrostatics, dielectric theory, electromagnetism, magnetic properties of matter, alternating currents. Maxwell's field theory, and an introduction of electrodynamics. Prereq: Math 527; 528 or permission. 4 cr.

Plant Science (PISc)
Chairperson: Lincoln C. Peirce

PROFESSORS: Ford S. Prince, emeritus; R. Eggert, emeritus; Clarence A. Langer, emeritus; Gerald M. Dunn, Lincoln C. Peirce, Owen M. Rogers, Douglas G. Routley
ASSOCIATE PROFESSORS: George O. Estes, Yun Tzu Kiang, J. Brent Loy, James R. Mitchell, James E. Pollard, Jerry A. Warren, Otho S. Wells
ASSISTANT PROFESSORS: David Koch, Clifford Warren
ADJUNCT ASSISTANT PROFESSOR: Merrill C. Hoyle

421. CONCEPTS OF PLANT GROWTH
Fundamentals underlying plant growth and response in natural and modified environments. Lab. 4 cr.

427. LANDSCAPING THE HOME GROUNDS
Design and maintenance of small properties; arrangement, plant use for the beautification of home surroundings. Lab. 4 cr.

522. ENVIRONMENT AND PLANT RESPONSE
How plants respond to light, temperature, water, and atmospheric factors; plants in the conservation and efficient use of environmental resources; effects of pollution; measurement of plant response in natural and controlled environments. Prereq: PISc 421. Lab. 4 cr.

525-526. PLANT CULTURE IN CONTROLLED ENVIRONMENTS
Practicum; using greenhouses and growth chambers. Field trips, discussions, work experience with flowers, vegetables, and conservatories. PISc majors only. Prereq: PISc 421 or equivalent; permission. Lab. 2 cr.

535. HISTORY AND USE OF CULTIVATED PLANTS
Importance of cultivated plants in various civilizations. Use of plant or plant-derived products in early and contemporary societies. Lab. 4 cr.

566. TURF MANAGEMENT
Adaptation and management of fine turf grasses for recreational aesthetic, and functional use. 3 cr.

604. PRINCIPLES OF GENETICS
Chemical and physical bases of inheritance; genes and chromosomes as units of mutation; genes in populations. Students desiring formal laboratory experience should register in Genetics 706. Prereq: Basic laboratory course in biological sciences. Organic chemistry; college math or statistics suggested. Mr. Kiang. (Equivalent to Zool 604.) 4 cr.
606. PLANT PHYSIOLOGY
Function of higher plants; water relations, metabolism, and growth and development. Prereq: Bot 411, 503, or PISC 421; one year of chemistry; or permission. (Equivalent to Bot 606.) Lab. 4 cr.

607. WEED SCIENCE
Biology and identification of common weeds; weeds in relation to man; harmful effects of weeds; cultural, biological and chemical control of weeds; properties and functions of herbicides; herbicides and the environment. Prereq: PISC 421. Lab. (Not offered every year.) 4 cr.

672. PLANT PROPAGATION AND MAINTENANCE
Sexual and asexual propagation of horticultural plants. PISC majors only. Lab. (Not offered every year.) 4 cr.

678. ORNAMENTAL PLANTS
Their identification, culture, and use. Prereq: Bot 566 or equivalent. Lab. 4 cr.

695. TOPICS IN CROP PRODUCTION

705. POPULATION GENETICS
Population growth and regulation; distribution of genes; factors affecting gene frequency; genetic load; cost of natural selection; ecological genetics. Prereq: Zool or PISC 604; FoRs 528; or permission. (Not offered every year.) 4 cr.

708. PLANT NUTRITION
Nutritional aspects of higher plants; uptake, translocation, and metabolic role. Prereq: plant physiology; soils. Lab. (Not offered every year.) 4 cr.

732. PLANT DEVELOPMENTAL GENETICS
Gene action in relation to development in plants; isozymes and differentiation, chromosomal proteins and gene regulation, temporal specificity of gene action, nuclear-cytoplasmic interactions, chemical gradients and gene activation. Prereq: PISC or Zool 604; PISC 606; permission. Lab. (Not offered every year.) 4 cr.

740. EVOLUTIONARY BIOLOGY
The synthetic theory of evolution in the origin of life, species, and higher groups; sources of genetic variability; population structure; causes of evolution; evolution of communities; molecular evolution and rates of evolution. Prereq: Zool or PISC 604; or permission. (Not offered every year.) 4 cr.

762. PLANT METABOLISM
Function, occurrence, synthesis, and degradation of plant constituents; respiration and photosynthesis; metabolism of nitrogenous and aromatic compounds; biochemical mechanisms in seed dormancy, fruit ripening, and disease resistance. Prereq: Bchm 601 or 751. (Not offered every year.) 2 or 4 cr.

773. METHODS AND THEORY OF PLANT BREEDING
Plant breeding systems for qualitative and quantitative plant improvement. Prereq: PISC or Zool 604; FoRs 528; or permission. (Not offered every year.) 3 cr.

776. RADIOISOTOPE TECHNIQUES FOR LIFE SCIENCES
Application of radioisotopes to biological systems; detection and measurement, liquid scintillation spectrometry and autoradiography, gamma-ray spectrometry, radiochromatogram scanning, and tissue distribution of radioisotopes. Prereq: inorganic chemistry; physics. Lab. 4 cr.

795, 796. ADVANCED TOPICS IN PLANT SCIENCE
Independent research, study, or group discussion. A) Physiology: B) Genetics; C) Plant Utilization. Staff. Prereq: permission. 2 or 4 cr.

Political Science (Polt)
Chairperson: Lawrence W. O'Connell

PROFESSORS: John T. Holden, emeritus; Robert B. Dishman, Bernard K. Gordon, George K. Romoser, Allan Spitz
ASSOCIATE PROFESSORS: John R. Kayser, David L. Larson, David W. Moore, Lawrence W. O'Connell, B. Thomas Troul, Susan O. White, Frederic W. Wurzburg
ASSISTANT PROFESSORS: Warren R. Brown, Robert E. Craig, Joseph P. Ford, George K. Lagassa

Introductory Courses and Independent Study

400. CONTEMPORARY POLITICS
Examination of varying political issues such as press censorship, electoral reform, international terrorism and security, governmental corruption, environmental pollution, and others. See department listings for semester offerings. 4 cr.

401. POLITICS AND SOCIETY
Nature of politics and political institutions as they apply to man and his behavior. Perennial issues of politics, such as ethics, power and authority, legitimacy, and freedom and order. 4 cr.
402. AMERICAN POLITICS AND CULTURE
Institutions and processes of national government in the United States, and political culture of the American people. Structure of national government; role of general public in government; literary, cultural, and ethical influences on American politics. 4 cr.

403. THE UNITED STATES IN WORLD AFFAIRS
Major issues in world affairs as they relate to United States foreign policy. U.S.-Soviet relations, third world politics, regional and alliance politics, weapons technology and resource depletion, problems of economic development and population control. 4 cr.

795, 796. INDEPENDENT STUDY
For juniors and seniors with at least 3.0 cumulative GPA. Specialized programs of study. Application guidelines in department office. Prereq: permission. 4 cr.

American Politics

500. AMERICAN PUBLIC POLICY
Political and economic factors which mold the processes by which American policymakers deal with such domestic issues as crime and violence, poverty and inequality, inflation and unemployment, urban blight and renewal, and energy and the environment. 4 cr.

502. STATE GOVERNMENT AND FEDERALISM
Powers, politics, and constitutional setting of American state governments. State legislatures, governorships, party systems, and interest groups. Problems of taxation, welfare, environment, and education. 4 cr.

503. LOCAL GOVERNMENT AND POLITICS
Structure, politics, and legal setting of American local government, including towns, cities, counties, and special districts. Community power and decision-making, town meetings, and such issues as home rule, zoning, and the property tax. 4 cr.

504. AMERICAN PRESIDENCY
Role and powers of the presidency in domestic and foreign affairs. The president as administrator, policymaker, and political leader. Executive-congressional relations. 4 cr.

505. AMERICAN CONGRESS
Role and powers of Congress as national lawmaker and check on the executive branch. Committee structure, concepts of representation, legislative oversight, and party cleavage. Problems of federal budget control and foreign policy involvement. 4 cr.

506. POLITICAL PARTIES AND VOTING BEHAVIOR
Functions, organization, operation, and bases of electoral support of American political parties. 4 cr.

507. THE POLITICS OF CRIME AND JUSTICE
Criminal justice in theory and practice; contemporary role of police, prosecutors, judges, juries, counsel, and interest groups in the administration of criminal justice. 4 cr.

508. SUPREME COURT AND THE JUDICIAL PROCESS
Supreme Court as a court of law and a political institution. The Court’s role in interpreting both the powers of the government, in every branch and at every level, and the rights of the people under the Constitution. 4 cr.

509. BUREAUCRACY IN AMERICA
Growth and development of the bureaucratic state. Roles and powers of administrative officials, decision-making in bureaucratic settings, citizen participation, and the influence of interest groups on bureaucratic policy-making. 4 cr.

600. SELECTED TOPICS IN AMERICAN POLITICS
Special topics such as politics and public affairs in New Hampshire, the press and the media in America, women in politics, and civil liberties. See department listings for semester offerings. 4 cr.

601. ELECTION PRACTICUM
Field work in political campaigns combined with analysis of the electoral process. Prereq: permission. (Not offered every year.) 4 cr.

602. INTERNSHIP IN AMERICAN GOVERNMENT
Practical work experience in a federal, state, local, or regional government office will be integrated with assigned readings and a student research project. Prereq: permission. 4 cr.

702. PUBLIC PLANNING AND BUDGETING
Analysis, goal setting, and strategic planning in a governmental setting, with particular emphasis on budgetary processes as a means for controlling policy effectiveness. 4 cr.

703. URBAN AND METROPOLITAN POLITICS
Planning and management of the urban community, intergovernment relations, administrative functions, and general urban problems. 4 cr.

797, 798. SECTION 2: SEMINAR IN AMERICAN POLITICS
Advanced analysis and individual research. Prereq: senior or graduate standing. 4 cr.

797, 798. SECTION 6: SEMINAR IN PUBLIC ADMINISTRATION
Advanced analysis and individual research, including opportunities for direct observation of governmental administration. Prereq: senior or graduate standing. 4 cr.
Comparative Politics

552. CONTEMPORARY EUROPEAN POLITICS
Politics and governments in Western Europe, with attention both to basic characteristics of political life in different countries and current issues of politics. 4 cr.

553. DEVELOPING NATIONS
Politics in selected developing states in Africa, Latin America, Asia, and the Middle East. Issues and concepts of political change. 4 cr.

544. DICTATORSHIP AND TOTALITARIANISM
Political systems of Nazi Germany, Fascist Italy, Stalinist Russia, and Maoist China; the movements which gave rise to them and their significance for understanding political behavior. 4 cr.

555. POLITICS IN THE USSR
Background, structure, leadership, and underlying issues of the Soviet political system. Ideological bases, political history, and contemporary trends. 4 cr.

556. POLITICS IN CHINA
The historical development, structure, ideological bases, and underlying contemporary issues of the Chinese political system; influence of ideology and the role of Maoism. 4 cr.

557. POLITICS IN JAPAN AND SOUTHEAST ASIA
Major noncommunist governments in East Asia; parties and policy-making in Japan and other states such as Malaysia, Thailand, Indonesia, and the Philippines. 4 cr.

551. SELECTED TOPICS IN COMPARATIVE POLITICS
Specialized areas or issues such as territory in politics, politics of Germany, judicial systems, administrative law, etc. See department listings for semester offerings. 4 cr.

741. POLITICS OF INDUSTRIALIZED STATES
Impact of modern industrialism and its organization upon political life and the conduct of government. 4 cr.

742. COMMUNIST SYSTEMS
Interests, demands, and decision-making in communist governments. Ideological issues, political behavior within communist international organizations, intraparty relations, distinctions between ruling and non-ruling communist parties. 4 cr.

797, 798. SECTION 3: SEMINAR IN COMPARATIVE POLITICS OF NATIONS
Includes advanced analysis and individual research on national or regional politics. Prereq: senior or graduate standing. 4 cr.

International Politics

560. WORLD POLITICS
Issues and structures which shape contemporary international politics including the rise of the nation-state system, conflict and its resolution, and problems of national interest and choice between nations. 4 cr.

561. AMERICAN FOREIGN POLICY
Processes, institutions, and economic factors which influence American policies toward foreign nations. 4 cr.

562. STRATEGY AND NATIONAL SECURITY POLICY
Defense and deterrence among the major powers, including the impact of modern weapons on war and arms limitations, the military as a profession and the role of the armed forces in shaping defense policy. 4 cr.

563. FOREIGN POLICIES OF EUROPE
East-West relations, security alliances, economics and political cooperation, and impact of domestic changes and superpower relationships upon the international politics of Europe. 4 cr.

564. SOVIET FOREIGN POLICY
Background and contemporary perspectives of the Soviet role in international politics. Particular emphasis on issues in international communism, Soviet-American relations, Soviet arms development and Sino-Soviet relations. 4 cr.

565. FOREIGN POLICIES OF ASIA AND THE PACIFIC
Current foreign and defense policies as they affect the Pacific region International politics of China, Japan, and selected Southeast Asian nations, including their efforts at cooperation. 4 cr.

660. SELECTED TOPICS IN INTERNATIONAL POLITICS
Specialized areas or issues in international relations such as conflict resolution and disarmament, European perspectives on American politics, contemporary diplomatic practices, seapower and defense, etc. See department listings for semester offerings. 4 cr.

760. THEORIES OF INTERNATIONAL POLITICS AND INTEGRATION
General explanations of the behavior of nations; the theory and practice of super-national integration; theories of peace and security and community building at the international level; concepts and experience in arms limitations and conflict resolution. 4 cr.
Psychology

761. INTERNATIONAL LAW
Formalized processes for regularizing state behavior; development of norms based on custom, precedent, and formal institutions, as in treaties and cases. Arms reduction and limitation arrangements; inspection; and other formal procedures designed to preserve peace. 4 cr.

778. INTERNATIONAL ORGANIZATION
Collective security and other forms of cooperation among nations through international organizations such as the United Nations and its predecessors, and through regional bodies. 4 cr.

797, 798. SECTION 5: SEMINAR IN INTERNATIONAL POLITICS
Advanced analysis and individual research; emphasis on developments in theory. Prereq: senior or graduate standing. 4 cr.

Political Thought

520. JUSTICE AND THE POLITICAL COMMUNITY
Origin of the idea of justice; relationship between politics, justice and morality; selections from Plato, Aristotle, and Roman, Islamic, and Christian political philosophers. 4 cr.

521. RIGHTS AND THE POLITICAL COMMUNITY
Human rights and the quality of communities as expressed in Hobbes, Locke, Mandeville, Rousseau, and others. 4 cr.

522. DISSENT AND THE POLITICAL COMMUNITY
Current political ideologies and controversies in America and abroad; liberal democracy and its critics since the 19th century. 4 cr.

523. AMERICAN POLITICAL THOUGHT
American political thinkers and observers of American politics; the founding of the Republic; problems and tensions reflected in the writings of Calhoun, Thoreau, Lincoln, de Tocqueville, and others; relations between liberty and authority, democracy and stability, capitalism and alienation. 4 cr.

524. POLITICS AND LITERATURE
Classical and contemporary works of literature to illustrate perennial issues in political philosophy; among authors studied are Aristophanes, Sophocles, Shakespeare, Melville, Tolstoy, and Sartre. 4 cr.

620. SELECTED TOPICS IN POLITICAL THOUGHT
Selected issues in political theory such as liberalism and conservatism, radical political thought, the American political character, and others. See department listings for semester offerings. 4 cr.

720. PERSPECTIVES ON POLITICAL SCIENCE
Different views on the study and meaning of politics. The perspectives of political scientists, political philosophers, and political activists. 4 cr.

721. ECONOMIC THOUGHT AND POLITICS
Economic theories from the perspective of political thought. Economic activity and resource distribution in relation to historical and contemporary issues such as freedom, equality, authority, community, democracy, and quality of life. 4 cr.

797, 798. SECTION I: SEMINAR IN POLITICAL THOUGHT
Advanced treatment and individual research. Prereq: senior or graduate standing. 4 cr.

Portuguese

(See Ancient and Modern Languages and Literatures)

Psychology (Psyc)

Chairperson: Ronald E. Shor

PROFESSORS: Herbert A. Carroll, emeritus; George M. Haslerud, emeritus; Robert I. Watson, emeritus; Raymond L. Erickson, Eugene S. Mills, John A. Nevin, Ronald E. Shor

ASSOCIATE PROFESSORS: Lance K. Canon, James R. Davis, Peter S. Fernald, G. Alfred Forsyth, Earl C. Hagstrom, Daniel C. Williams

ADJUNCT ASSOCIATE PROFESSOR: Robert G. Congdon

The listings below are general descriptions of the courses. The student is referred to the Instructors’ Course Descriptions published by the department each semester for specific details about each section. Listings will be made available in departmental offices prior to and during the pre-registration period. All courses offered each year unless otherwise noted. All general courses and basic major courses offered every semester.

General Courses

401. INTRODUCTION TO PSYCHOLOGY
Psychology as a behavioral science, its theoretical and applied aspects. Prerequisite for all other courses in the department. To actively experience the nature of the psychological research, the student is expected to meet a laboratory experience requirement. 4 cr.
511. INTRODUCTION TO PERCEPTION, LANGUAGE, AND THOUGHT
Human mental processes. Visual and auditory perception; language and communication; thinking; problem solving; and creativity. Interrelationships among these areas of human psychology. Prereq: Psyc 401. 4 cr.

521. PRINCIPLES OF LEARNING AND THEIR APPLICATION
Principles developed from experimental study of human and animal learning; their theoretical integration; their application to the understanding of human behavior. Procedures for changing behavior in practical situations, related to theories of learning. Prereq: Psyc 401. 4 cr.

531. PSYCHOBIOLOGY
Man as a biological machine; advantages and limits of such an approach for studying behavior. Perception, language, and thought; learning and memory; emotions from the point of view of physiology. These behaviors in terms of what occurs in the organism. Prereq: Psyc 401. 4 cr.

561. CLINICAL APPROACHES TO HUMAN BEHAVIOR
Normal and abnormal behavior from the viewpoints of Freud, Rogers, learning theorists, existentialists, and others. Human behavior; clinical procedures of evaluating and modifying behavior. Nature of the clinical approach; no clinical training. Prereq: Psyc 401. 4 cr.

581. THE STUDY OF CHILD BEHAVIOR
The developing child in context of his/her society. Current problems in and influences on development of the child. Personality and cognitive development; and exceptional children. Prereq: Psyc 401. 4 cr.

Major Courses

601. STATISTICS AND METHODOLOGY IN PSYCHOLOGY
Design, procedure, statistical analysis, and decision making in psychological research. Substantive problems as illustrations of typical applications and underlying logic. Prereq: Psyc 401. Required of all undergraduate majors. 4 cr.

602. EXPERIMENTAL PSYCHOLOGY
Experimental methods applied to psychological phenomena; principles of experimental design; methods of data analysis. Each student responsible for an original experiment. Prereq: Psyc 601. 5 cr.

621. LEARNING AND MOTIVATION
Learning and motivation related to contemporary theories of behavior integrated with other areas of psychology. Theory, research methods, and applications. Major concepts and recent research. Prereq: Psyc 401. 4 cr.

651. PSYCHOLOGY OF PERSONALITY
Major theories; acquisition, maintenance, and modification of individual behavior. Research and the nature of theorizing. Prereq: Psyc 401. 4 cr.

652. SOCIAL PSYCHOLOGY
Behavior of individuals affected by the behavior of other individuals, groups, and society. Attitude change and social influence, conformity, social interaction, research. Prereq: Psyc 401. 4 cr.

702. ADVANCED STATISTICS AND RESEARCH METHODOLOGY
Experimental design, analysis, and interpretation. Repeated measures, designs, trend analyses, nonparametric analyses, confounding, and interpretation of interactions, and computer processing of data. Intended primarily for majors planning to attend graduate school. Prereq: Psyc 601 and one 700-level Psyc course. 4 cr.

704. RESEARCH METHODS IN SOCIAL PSYCHOLOGY
Features, assets, liabilities, and appropriate applications of research techniques, such as systematic observation, attitude measurement, survey methods, field and laboratory experiments, and nonreactive methods. Philosophy of science, ethical responsibility, and artifact in research. Each student responsible for an original research project. Prereq: Psyc 601; 652. 4 cr.

705. TESTS AND MEASUREMENT
Testing intelligence, creativity, achievement, interests, and personality. Test construction; evaluation; relation to psychological theory, research, and practice. Prereq: Psyc 601. 4 cr.

711. SENSATION AND PERCEPTION
Sensory systems in processing information and experiencing objects and events. Global theories of perception and specific perceptual processes. Stimulus definition, scaling, perceptual development, social perception, selective attention, pattern vision, color vision, auditory localization, signal detection, and sensory deprivation. Prereq: Psyc 601. 4 cr.

712. PSYCHOLOGY OF LANGUAGE
Theories of language structure; functions of human language; meaning; relationship of language to other mental processes; language acquisition; indices of language development; speech perception; reading. Prereq: Psyc 601; or permission. 4 cr.

713. COGNITION
Complex mental activities; consciousness and attention; concept formation; reasoning; problem solving; creative thinking; relationship between cognition and affective behavior. Prereq: Psyc 601. 4 cr.
Psychology

722. HUMAN LEARNING
Experimental study of human learning and retention. Memory, transfer, verbal learning, perceptual learning, concept learning, and observational learning. Methodologies typical of research in these areas. Prereq: Psyc 601; 602 or 621. 4 cr.

723. APPLIED BEHAVIORAL ANALYSIS
Applications of learning theory to the solution of socially relevant problems. Appreciation of current research and theory in the field of applied behavior analysis. Prereq: Psyc 602 or 621. 4 cr.

731. BRAIN AND BEHAVIOR
Relationships between the nervous system and behavior. Physiological, neural, and biochemical mechanisms underlying instinct, memory, learning, emotion, and consciousness in man; evolution of these functions in lower animals. Prereq: Psyc 601. 4 cr.

732. COMPARATIVE PSYCHOLOGY
Methodologies; comparisons of the basic processes of sensation, motivations, learning, and social behavior in different species. Contemporary theories of behavior formulated by ethologists contrasted and compared with current theories in psychology. Prereq: Psyc 601. 4 cr.

754. ATTITUDES AND SOCIAL INFLUENCE
Theories, nature, and measurement of attitude; research and theory on conformity and leadership examined as problems in interpersonal influence. Recent psychological literature. Prereq: Psyc 601; 652 4 cr.

755. SOCIAL PSYCHOLOGY OF SOCIAL ISSUES
Prejudice, group conflict, overpopulation, war, and ecological problems. Specific social psychological processes applied to the nature and solution of each problem. Prereq: Psyc 601; 652. 4 cr.

756. ENVIRONMENTAL PSYCHOLOGY
Human behavior influenced by the physical environment. Environmental factors: The "build" environment; the natural environment; and the social environment. Research and theory in privacy, territoriality, crowding, urban stress, paralinguistics, person perception, and cultural differences. Prereq: Psyc 601; 652. 4 cr.

757. POLITICAL PSYCHOLOGY—VOTING BEHAVIOR
Emphasis on the New Hampshire preferential primary. Contrasting analyses of voter decision-making; relationship between public opinion and choice behavior; students collect and analyze data from the primary; development and practice of appropriate research skills. Prereq: Psyc 601; 652. (Not offered every year.) 4 cr.

761. ABNORMAL PSYCHOLOGY
Disturbing behaviors; historical developments; viewpoints of etiology; identifying and understanding disruptive behavior; diagnostic implications for treatment as a function of varying theoretical viewpoints. Prereq: Psyc 601. 4 cr.

762. COUNSELING
Parameters of problems in daily living; analysis of individual, group, and institutional therapeutic interventions. Therapeutic process and outcome; ethical considerations; professional and paraprofessional activities in a variety of work settings. Prereq: Psyc 601. 4 cr.

771. HISTORY OF PSYCHOLOGY
Reassesses, extends, and integrates knowledge of psychology within historical perspective. Antecedents in philosophy and the physical sciences and their relationship to the subsequent development of schools and systems of psychology. Contemporary thought and research. Prereq: Psyc 601. 4 cr.

781. DEVELOPMENTAL PSYCHOLOGY
Current research and major theories; cognitive, personality, learning, and emotional development. Prereq: Psyc 601; 581 or HEc 525. 4 cr.

Special Courses

591. SPECIAL TOPICS
New or specialized courses are presented under this listing. Staff present material not normally covered in regular course offerings. Description(s) of courses on file in the psychology offices during registration. Prereq: Psyc 401. 4 cr.

701. CONTEMPORARY TOPICS IN PSYCHOLOGY
Non-credit seminar; topics of particular interest to students. Jointly organized by students and faculty. Prereq: Psyc 401. 0 cr.

791. ADVANCED TOPICS
Advanced material in which instructor has specialized knowledge through research and study. May repeat, but not duplicate areas. Course descriptions on file in the psychology offices during registration. Prereq: Psyc 601; 16 credits of psychology.;/or permission. 4 cr.

793. EXTERNSHIP
Supervised practicum in one of several cooperating N.H. mental health/rehabilitation facilities. Coursework knowledge applied to meaningful work and team experience. Commitment includes a negotiated number of weekly work hours and weekly seminars. Supervision by institutional personnel and the instructor. Student continuation in the course throughout the semester dependent upon favorable periodic performance assessment. Course applications
accepted in March for fall term and October for spring term. Prereq: permission; Psyc major; Psyc 601; additional psychology courses desirable. A maximum of 4 credits count toward major. Variable 4-8 cr.

794. ADVANCED EXTERNSHIP
Supervised advanced practicum experience in cooperating N.H. mental health/rehabilitation facilities. Expand and build upon experiences and skills acquired in Psyc 793 in a way not possible in the classroom. Commitment includes a negotiated number of hours of work per week and participation in weekly seminars. Supervision done by institution personnel and instructor. Course applications accepted beginning April for fall term and November for spring term. Prereq: Psyc 793; permission. Maximum of four credits can count toward the minimum of 32 credits for Psyc major. Variable 4-8 cr.

795. INDEPENDENT STUDY
1) Physiological; 2) Perception; 3) History and Theory; 4) Learning; 5) Social; 6) Cognition; 7) Statistics and Methods; 8) Experimental; 9) Personality; 10) Developmental; 11) Counseling; 12) Psychotherapy; 13) Research Apprenticeship; 14) Teaching of Psychology (content area to be determined). Arrangements to be made with a specific faculty member; enrollment by permission only. 1-4 cr.

Recreation and Parks (RecP)
Chairperson: Gus C. Zaso
ASSOCIATE PROFESSOR: Gus C. Zaso
ASSISTANT PROFESSORS: Robert Greenleaf, Lawrence A. Rondeau
ADJUNCT ASSISTANT PROFESSOR: Wilbur F. LaPage

400. IMPACT OF LEISURE
Issues which contribute to the emergence of a leisure-oriented society and significant problems which accompany the expansion of leisure opportunities. 4 cr.

454. SPECIAL FACILITY OPERATIONS
Management of public, private, and commercial campgrounds. 4 cr.

455. INTRODUCTION TO RECREATION AND PARK SERVICES
Role of recreation and parks in contemporary society. 4 cr.

457. DYNAMICS OF LEADERSHIP AND PROGRAMMING
Leadership processes and their relationship to principles of program planning and evaluation. 4 cr.

543. COMPARATIVE ENVIRONMENTAL EDUCATION
Interdependent environmental analyses with application to recreation and education situations. 4 cr.

544. OUTDOORS EDUCATION
Elements of programming as they relate to the school curriculum and school camping. 4 cr.

560. CAMPUS RECREATION SERVICES
Management of college unions and campus recreation resources in higher education. 4 cr.

564. FIELD WORK
Supervised experience in approved recreation and park agencies. Prereq: RecP major. 4-8 cr. Cr/F.

661. RECREATION RESOURCES MANAGEMENT
Park practices as they relate to location, management, and maintenance. 4 cr.

663. RECREATION AND PARK ADMINISTRATION
Theoretical and practical methods used in attaining organizational goals. 4 cr.

664. SAFETY AND SECURITY OPERATIONS
Accident prevention and security procedures as applicable to recreation and park systems. 4 cr.

667. RECREATION AND RESOURCE PLANNING
Master planning concepts which relate to public systems. 4 cr.

668. DESIGNING AND ENGINEERING
Practices involved in constructing indoor and outdoor recreation facilities. 4 cr.

771. LEGAL ASPECTS
Basic legal aspects of leisure-oriented services. 4 cr.

772. FINANCIAL ADMINISTRATION
Business procedures which relate to municipal finance and budgeting techniques. 4 cr.

796. INDEPENDENT STUDY
Individual study and/or research relating to leisure-oriented topics. 1-4 cr.

798. SEMINAR IN LEISURE
Reviews of problems, trends, and current practices. 4 cr.

Reserve Officers Training Corps
(See Aerospace Studies and Military Science)
Resource Economics
(See Institute of Natural and Environmental Resources)

Russian
(See Ancient and Modern Languages and Literatures)

Secretarial Studies (Secr)
ASSOCIATE PROFESSORS: Doris E. Tyrrell, emerita; Myra L. Davis

401-402. SHORTHAND
Principles of Gregg shorthand followed by dictation and transcription. Prereq: proficiency in typing or Secr 405 or 407 taken concurrently. 4 cr.

405. PERSONAL USE TYPEWRITING
Practice in acquiring correct typewriting techniques, and in arranging letters and manuscripts. Open to students who do not know how to type. 2 cr. Cr/F.

407-408. TYPEWRITING
Beginning course, primarily for students interested in two semesters. 2 cr.

427. TYPEWRITING
To be taken instead of Secr 407 by students who have had a personal-use typewriting course. Class begins at mid-semester. 1 cr.

Social Service (S S)
Chairperson: Pauline Soukaris

ASSOCIATE PROFESSOR: Pauline Soukaris
ASSISTANT PROFESSORS: Betty Holroyd Roberts, Thomas J. Viccaro
LECTURER: Wilma Valenzuela

522. INTRODUCTION TO SOCIAL WELFARE POLICY: PROVISIONS
U.S. social welfare provisions: income, housing, employment, and health care. Programs and policies in historical perspective: their auspices, goals, and operations for consumers from various social, racial, and ethnic groups. 4 cr.

523. INTRODUCTION TO SOCIAL WELFARE POLICY: SERVICES
Child and family, elderly, school, correctional, medical, and mental health. Programs, policies, and services in historical perspective; their auspices, goals, and operations for consumers for various racial, ethnic, and social groups. Weekly observational/participatory assignments at community agencies. Prereq: S S 522; or permission. 4 cr.

622. SOCIAL WORK PRACTICE I
Introduction to methods and practice. Basic principles, values, and ethics. Interviewing skills, problem assessment, social contracting. Skills training in lab sessions. Required for majors, should be taken in junior year. Prereq: S S 523 or permission. 4 cr.

623. SOCIAL WORK PRACTICE II
Continuation of S S 622. Delineation and study of intervention and change strategies differentiated with individuals, groups, and communities. Required for majors. Prereq: S S 622. 4 cr.

624. POVERTY AND SOCIAL WORK
Causes and consequences of urban and rural poverty; social welfare patterns, attitudes, and norms. Sociological and psychological theories of poverty; policies and decisions which inhibit the effectiveness of social work. Prereq: junior or senior standing. 4 cr.

631. SOCIAL WELFARE FIELD EXPERIENCE
Majors will be placed in a social welfare setting for a minimum of 300 hours, concurrent with a weekly seminar on campus; individual arrangements with faculty coordinator. Required for majors. Prereq: S S 623 and permission. (No credit toward a minor.) 12 cr. Cr/F.

632. SPECIAL TOPICS IN SOCIAL WELFARE
Seminar for advanced majors. Topics may include income maintenance, alcoholism, health care, aging, child welfare, and mental health; to increase understanding of factors that influence program development and service delivery. Prereq: S S 631 or permission. 4 cr.
633. SEMINAR IN SOCIAL WORK METHODS
Analysis and comparison of change theories, intervention strategies, therapeutic techniques. Seminar format. Possible topics: techniques of group work, case work or community practice, behavior modification, crisis intervention, and staff development and supervision. Prereq: senior major standing 4 cr.

700. SOCIAL GERONTOLOGY
Theories, social problems, programmatic responses, and recent research on aging; emphasis on the psycho-social forces. Prereq: senior or graduate status;/or permission. 4 cr.

795,796. READINGS AND RESEARCH IN SOCIAL SERVICE
Independent work under social service faculty guidance. Prereq: 12 hours of social service; permission. Variable 2, 4, or 6 cr.

Sociology and Anthropology
Chairperson: Richard E. Downs

ASSOCIATE PROFESSORS: Thomas Burns, Peter Dodge, Richard E. Downs, Arnold S. Linsky, Melville Nielson, Frederick Samuels, Howard Shapiro
ASSISTANT PROFESSORS: Charles E. Bolian, Loren Cobb, Barbara K. Larson, Stephen P. Reyna
ADJUNCT ASSISTANT PROFESSOR: Gary W. Hume

Anthropology (Anth)

411. CULTURAL AND SOCIAL ANTHROPOLOGY
Cultural and social aspects of human behavior, particularly in relation to non-industrial societies. Analysis of selected societies, institutions, and forms of social structure. 4 cr.

412. PHYSICAL ANTHROPOLOGY AND PREHISTORIC ARCHAEOLOGY
Man's physical evolution and his cultural prehistory; evolutionary theory and archaeological techniques. 4 cr.

512. INTRODUCTION TO WORLD ETHNOGRAPHY
Primarily for majors and minors but open to all students. Historical and geographic factors, types of social and economic organization, and problems involved in the comparative study of human societies and institutions. Analysis of selected peoples in the major ethnographic areas. Prereq: Anth 411 or equivalent;/or permission. 4 cr.

514. METHOD AND THEORY IN ARCHAEOLOGY
Basic method and theory; techniques in recovering and interpreting data; laboratory exercises in ceramic and lithic analysis. Critical evaluation of archaeological literature. Prereq: Anth 412;/or permission. 4 cr.

614. ECONOMIC ANTHROPOLOGY
Economics of non-industrial societies; definition of economics; production, distribution, and consumption in selected societies; development. Prereq: Anth 411;/or permission. 4 cr.

616. ANTHROPOLOGY OF RELIGION
Major anthropological theories of religion; analysis of religious beliefs as symbolic systems and their interrelations with ritual and other social institutions. Detailed study of specific religions. Prereq: Anth 411;/or permission. 4 cr.

618. POLITICAL ANTHROPOLOGY
Political processes and structures in non-industrial societies. Major topics: centralization of power and authority, legal systems, and warfare. Prereq: Anth 411;/or permission. 4 cr.

620. ANTHROPOLOGICAL LINGUISTICS
Thought systems as organized and communicated through language in its social context. Ethnographic semantics, symbolism, sociolinguistics. Prereq: Anth 411;/or permission. 4 cr.

699. SENIOR THESIS
Independent work in the library or field; recommended for, but not confined to, majors intending to pursue graduate studies; required for honors candidates. Contact staff to obtain approval and arrange supervision. Should be taken next-to-last semester before graduation. 4 cr.

731,732. AREA STUDIES IN ARCHAEOLOGY
Offered as staff is available and student needs dictate. 1) South America: from earliest cultural remains to European contact, changing relationship of culture and environment emphasized. 2) Mesoamerica: earliest cultural remains through Olmec, Maya, Toltec, and Aztec; changing relationship of culture and environment. Prereq: Anth 412; 514, or permission. 4 cr.

747. AREA STUDIES IN SOCIAL AND CULTURAL ANTHROPOLOGY
1) South America, 2) Mesoamerica; 3) North America; 4) Oceania; 5) Southeast Asia; 6) Africa; 7) Other. Offered as staff is available and student needs dictate. Characteristic ecological, historical, and socio-cultural factors. Analysis of selected societies and institutions. Prereq: Anth 411;/or permission. 4 cr.
Sociology and Anthropology

752. SOCIAL PROBLEMS IN MODERN AFRICA
Problems of change and development in Africa considered from the anthropological perspective. Prereq: Anth 411;/or permission. 4 cr.

775. ANTHROPOLOGICAL THEORY
Major theoretical approaches in historical perspective. Prereq: Anth 411;/or permission. 4 cr.

795,796. READING AND RESEARCH IN ANTHROPOLOGY

Sociology (Soc)

400. INTRODUCTORY SOCIOLOGY
Man's social and cultural relationships as revealed in his customs and institutions. Social theory, methods and techniques of research, and current research findings. Laboratory-problem method of instruction is offered occasionally; students interested should register for the section identified as “Laboratory” in the Time-Room schedule. 4 cr.

500. SOCIAL PSYCHOLOGY
Individual actions, attitudes, ideas, and perceptions as influenced by socio-cultural environments. Individual-cultural relations in education, religion, economics, aesthetics, ethics, and deviant behavior. 4 cr.

520. THE FAMILY
An anthropological and institutional approach comparing societal customs and organizations. A laboratory-problem method of instruction is offered occasionally; students interested should register for the section identified as “Laboratory” in the Time-Room schedule. 4 cr.

530. RACE AND ETHNIC RELATIONS
Majority-minority group relations; special attention to nature and results of Black-White and ethnic group relations in the United States. 4 cr.

540. SOCIAL PROBLEMS
Relation of customs and institutions to crime, delinquency, alcoholism, physical and mental disease, sexual aberrations, poverty, old age, broken families, and racial and religious prejudices. Especially for non-majors. 4 cr.

560. RURAL-URBAN SOCIOLOGY
Application of sociological and social psychological principles to the study of populations at various points on the rural-urban continuum. 4 cr.

600. SOCIAL INSTITUTIONS
Relationships among education, religion, economy, government, pedotrophic and inter-sex practices, art, and recreation. Cross-cultural approach. 4 cr.

601. METHODS OF SOCIAL RESEARCH
Cross-sectional and longitudinal survey design; direct and indirect measurement techniques; design of field and laboratory experiments; special topics. Prereq: major in sociology or social service/or permission. 4 cr.

602. STATISTICS
Elementary applied statistical techniques; descriptive statistics, cross-tabulation, correlation, probability, hypothesis testing, analysis of variance. 4 cr.

611. HISTORY OF SOCIAL THEORY
Background and early formulation. Writings of classical social thinkers from Plato to Max Weber. 4 cr.

612. CONTEMPORARY SOCIOLOGICAL THEORY
Major schools of contemporary sociological theory; functionalism, “verstehen” sociology, symbolic interactionism, reform sociology, neo-positivism, and formal theory construction. 4 cr.

615. INTRODUCTORY CRIMINOLOGY
The scientific study and control of crime. Indexes, rates, theories of crime and delinquency, police, courts, probation, prison, and parole. 4 cr.

629. SMALL GROUPS
Interaction among individuals in small groups and between small groups; perception, attitude, and behavior. Analytical techniques are applied. A prior course in social psychology is recommended. 4 cr.

699. SENIOR THESIS
Independent work in the library or field; recommended for, but not confined to, majors intending to pursue graduate studies; required for Honors candidates. Contact staff to obtain approval and arrange supervision. Should be taken next-to-last semester before graduation. 4 cr.
720. CURRENT DEVELOPMENTS IN SOCIOLOGY OF THE FAMILY
A current topic will be selected each semester, such as stratification and the family, intra-family communication, power structure of the family, kinship in modern societies. Critical review of the literature; class or individual research project will usually be carried out. Prereq: 8 credits of Soc; Soc 520 recommended. 4 cr.

721. FAMILY INTERACTION
Influence of family interaction on human behavior. Self, interactionist, and role approach. Analysis of research. Prereq: 8 credits of Soc and/or Psyc; Soc 500 recommended. 4 cr.

735. COMPLEX ORGANIZATIONS
Comparative study of the structure and dynamics of complex, formal organizations (business, military, political and governmental, educational, medical). Power and social control in formal systems; organizational processes, performances, and effectiveness; impact of complex, formal organizations on persons and societies. Prereq: permission. 4 cr.

740. CULTURE CHANGE
Various types of society; development of theory. Descriptive studies of institutional as well as theoretical materials selected from the writings of Comte, Marx, Spencer, Durkheim, Spengler, Sorokin, Redfield, and others. 4 cr.

741. SOCIAL CHANGE AND SOCIETAL DEVELOPMENT
Comparative, interdisciplinary approach. Interrelationships among economic, political, and social factors in determining the structure, dynamics, character, and level of development of societies. Prereq: permission. Soc 740 recommended. 4 cr.

745. SOCIAL STRATIFICATION
The pattern of distribution of economic, honorific, and political variables within the populations of complex societies; the allocation of personnel to the roles in question, notably through occupational mobility; and the impact of such processes upon behavior, both individual and social. Prereq: Soc 400; or 600. 4 cr.

757. SOCIAL INSTITUTIONS OF LATIN AMERICA AND THE CARIBBEAN
Selective analysis of distinctive institutions and social systems, with particular attention to social aspects of the process of modernization. Prereq: permission. 4 cr.

761. POPULATION DYNAMICS
Major population trends including changes in birth and death rates, population characteristics, mobility, migration, world population growth, population problems, and policies of countries at different stages of economic development. Interrelationship of population and society. 4 cr.

770. CULTURE, PERSONALITY, AND SOCIETY
A cross-cultural view of the development of personality as emergent from genetic, situational, and socio-cultural determinants; analysis of the dynamic interplay of socio-cultural and psychological behavior systems. Prereq: prior courses in sociology, anthropology, or psychology. 4 cr.

780. SOCIAL CONFLICT
The nature of social conflict, especially war. The setting and initiation of conflict, its dynamics, and the factors affecting its course and outcome. Prereq: permission. 4 cr.

785. THE STUDY OF WORK
Understanding society through the structure of work. Case studies, in an ethnographic manner, of high-status and low-status occupations to provide understanding of social processes and interrelationships in the social structure. Prereq for graduate students: permission. 4 cr.

790. APPLIED SOCIOLOGY
1) Current level of use of sociological knowledge; 2) the advocate, consultant, and researcher roles in applied settings; 3) techniques of applied research; 4) implications of applied sociology, including ethical problems. Each student will focus on a social problem and write a paper covering the above issues. Applied projects where possible. Prereq: Soc 601. 4 cr.

795,796. READING AND RESEARCH IN SOCIOLOGY

Soil Science
(See Institute of Natural and Environmental Resources)

Theater and Communication (ThCo)
Chairperson: David J. Magidson

PROFESSOR: Joseph D. Batcheller
ASSOCIATE PROFESSORS: Carol Lucha Burns, Gilbert D. Davenport, John C. Edwards, David J. Magidson, Wilburn Sims
ASSISTANT PROFESSORS: Raymond J. Bernier, Jean M. Brown, Richard D. Halley
INSTRUCTOR: Tracey Bernstein Weiss
LECTURERS: Patricia Fleming, Susan Goldin, Jean Mattox, Linda Luca, Judith Hartwell, Allegra May, Maurice Quinn, Thomas Scharff
Communications

402. COMMUNICATIONS I
Interpersonal and intrapersonal. Student's awareness of his/her role in communication. Open to freshmen and sophomores. Lab. 4 cr.

403. PUBLIC SPEAKING
Sensitizes speakers and listeners; understanding and adapting to receivers, idea selection and development, message organization, and delivery. Nonverbal communication. 4 cr.

404. INTRODUCTION TO ARGUMENTATION
Principles of inquiry and advocacy. Philosophical and logical frameworks of argument; analysis, discovery and testing of data; forms of argument; testing of argument; patterns of proof and evidence. Argumentation as advocacy. 4 cr.

405. ARGUMENTATION WORKSHOP
Basic principles of rational decision-making through argumentation. Application in debate formats. May be repeated. Prereq: ThCo 404. 2 cr.

421. PROBLEMS IN HUMAN LISTENING BEHAVIOR
Listening processes, evaluation of accuracy, improvement programs, and pitfalls. Practice in experimental techniques. (Not offered every year.) 4 cr.

501. ARGUMENTATION II
Argument and advocacy as action on minds by means of discourse. Presumptions, hierarchies, loci, presentation of data and the form of the discourse, ethical and logical duties of the advocate. Examinations of arguments by politicians, lawyers, or others who advance propositions of fact, value, or policy. Prereq: ThCo 404; 405;/or permission. 4 cr.

503. INTRODUCTION TO GROUP PROCESSES
Communications behavior in small groups. Problem-solving procedures, leadership, behavioral patterns, communications interaction patterns. Prereq: ThCo 402 or 403;/or permission. 4 cr.

506. PERSUASION
Advanced public speaking course on problems of influencing human behavior. Practical applications. Prereq: ThCo 403;/or permission. 4 cr.

555. INTRODUCTION TO MASS COMMUNICATIONS
Nature, development, and effects on our society. Television effects and production techniques. Limited studio work. Prereq: permission. 4 cr.

556. INTRODUCTION TO TELEVISION PRODUCTION
Theory and actual studio experience, practice, and procedures. All aspects of television work and formats. Students operate every piece of studio equipment and write, produce, and direct several shows. Prereq: ThCo 555;/or permission. 4 cr.

572. LANGUAGE AND BEHAVIOR
The human symbol-using capacity and the effects of language on behavior. Ways in which symbols help create individual realities, reflect levels of personal judgement and adjustment, facilitate or hinder interpersonal communication. Application to verbal and non-verbal communication, and contemporary and social issues. 4 cr.

608. ADVANCED SPEECH COMPOSITION
Development and application of rhetorical strategies in preparation and presentation of oral messages. Writing and speaking workshop. Recommended: ThCo 403. (Not offered every year.) 4 cr.

630. PSYCHOLOGY OF COMMUNICATION
Concept-reference; vocal, visual, and verbal cues and attention. (Not offered every year.) 4 cr.

656. PRINCIPLES OF RHETORICAL CRITICISM
Roles and methods of rhetorical critics. Historical background to rhetorical-critical structures and processes including neo-Aristotelian criticism and Burkean criticism. Critical principles and practices. Seminar. Prereq: ThCo 403;/or permission. 4 cr.

671. CRITICISM OF CONTEMPORARY RHETORIC
Applies rhetorical-critical systems and principles. Campaign rhetoric, agitative rhetoric, the rhetoric of religion, the rhetoric of militarism, the rhetoric of diplomacy, and the rhetoric of social movements. Course content variable. Prereq: ThCo 656;/or permission. 4 cr.

673. EXPERIMENTAL AND DESCRIPTIVE STUDIES IN ORAL COMMUNICATION
Prereq: permission. (May be repeated.) 4 cr.

681. THEORIES OF LANGUAGE
Nature, uses, and roles of language. Representative theorists include Carroll, Piaget, Sapir, Whorf, Vetter, Vygotsky, Weiner, Chomsky, Labov, Steward, Ogden and Richards, Ruesch, and Sullivan. Prereq: permission; or ThCr 572 and 673. (Not offered every year.) 4 cr.

695. SPECIAL TOPICS IN COMMUNICATIONS
Individual or group projects primarily in the Communication option. By permission and arrangement with appropriate faculty. (May be repeated.) Variable 2, 4, 6, or 8 cr.

750. WRITING FOR PERFORMANCE
See Theater offerings. 4 cr.
Dance

460. MODERN DANCE
   Technique and improvisation. Open only to Physical Education majors. 1 cr.

461. MODERN DANCE I
   An introductory course which includes techniques and improvisation as well as lectures in history and theory. 4 cr.

462. MODERN DANCE II
   Intermediate level course which includes techniques and improvisation. (May be repeated for credit.) Prereq: ThCo 461/or permission. 2 cr.

463. MODERN DANCE III
   Advanced level course in technique and composition. (May be repeated for credit.) Prereq: ThCo 462/or permission. 2 cr.

464. BALLET I
   Introductory course; technique; historical development of ballet. 4 cr.

467. THEATER DANCE I
   Introductory course; technique; improvisation; lectures on jazz, ethnic, and other theatrical dance forms. 4 cr.

470. THEATER MOVEMENT
   Stage movement for actors. Open to theater majors only. 2 cr.

532. LABANOTATION
   Study and practice of recording human movement by the method of Labanotation. Prereq: permission. Variable 2-4 cr.

533. DANCE COMPOSITION I
   Practical, developmental approach to process of creating dances. Prereq: ThCo 462/or permission. 2 cr.

534. DANCE COMPOSITION II
   Use of music; group choreography. Prereq: ThCo 533. 2 cr.

584. SPECIAL TOPICS IN DANCE
   Exploration of topics agreed upon by students and instructor. (May be repeated.) Topics vary. 2-4 cr.

632. CHOREOGRAPHY
   A theoretical and practical consideration of the creative and aesthetic aspects of various forms of the dance. Prereq: ThCo 462 or 465/or permission. 4 cr.

638. THE DANCE
   Historical and philosophical consideration of dance trends. 4 cr.

Theater

435. THEATER AND ITS DRAMA I (INTRODUCTION TO THEATER)
   Emphasis upon modern theater. Survey of theater areas, personnel, and methods. Attendance at University Theater and Allied Arts productions. Minimal participation in laboratory and major productions. 4 cr.

436. THEATER AND ITS DRAMA II (HISTORY OF THEATER)
   History and theory in its social framework from the beginnings to 1800. (Not offered every year.) 4 cr.

438. THEATER AND ITS DRAMA III (HISTORY OF THEATER)
   1800 to present. (Not offered every year.) 4 cr.

441. VOICE AND DICTION I
   Based on individual needs; particular reference to theater, television, radio. Individual and group practice sessions. Prereq: permission. 2 cr.

442. VOICE AND DICTION II
   Basic skills for oral interpretation, theater, etc., including analysis and development of dialects. Prereq: ThCo 441. 2 cr.

457. ORAL INTERPRETATION
   Analysis of literature for performance; demonstration and experimentation with performance methods; development of a critical standard for evaluation of performance and literature. 4 cr.

459. SCENIC ARTS I (STAGECRAFT)
   Stage scenery construction and painting. Properties, sound, and backstage organization. Survey of costumes and lighting. Practical application in University Theater productions. 4 cr.

475. STAGE MAKE-UP
   Fundamentals of juvenile, old age, character, and special stage make-up techniques. Prereq: permission. Lab fee: $10. 2 cr.

481. SUMMER REPERTORY THEATER WORKSHOP
   1) Classes in voice, movement, make-up, and improvisation taught by the directors and professional actors of the resident company.
   2) Technical aspects of scenery, costumes, lighting, publicity. 3) Performance in Summer Theater production with experienced resident actors. Admission to workshop by audition only. Offered in the eight-week summer session. 8 cr.

541. THEATER PUBLICITY
   Practical application to University Theater and other assigned productions. Suggested background: ThCo 435. Prereq: permission. 2 cr.
542. BOX OFFICE AND HOUSE MANAGEMENT
Box office procedure and house management. Practical application to University Theater and other assigned productions. Suggested background: ThCo 435. Prereq: permission. 2 cr.

547. SCENIC ARTS II (STAGE COSTUME DESIGN AND EXECUTION)
Costume history, styles, design theory, pattern-making, and construction. Prereq: permission. 4 cr.

549. SCENIC ARTS III (STAGE LIGHTING DESIGN AND PRACTICE)
Elementary electricity, design theory, instrumentation, control, and practice. 4 cr.

551. REHEARSAL AND PERFORMANCE I (IMPROVISATION)
Development of fundamental vocal and physical stage techniques for actors and directors through exercises, improvisation, and theater games. Should be taken concurrently with ThCo 441. 2 cr.

552. REHEARSAL AND PERFORMANCE II (CHARACTERIZATION)
Application of prior training in ThCo 551 (prerequisite) to building characterizations in scenes and short plays. Should be taken concurrently with ThCo 442. 2 cr.

565. MUSICAL COMEDY WORKSHOP
Emphasis on improving audition and performance techniques. By audition only. 4 cr.

575. SCENIC ARTS IV (FUNDAMENTALS OF SCENE DESIGN)
Stage drafting, modules, materials, design theory, and styles. Individualized exercises, final project. Prereq: ThCo 459. Recommended: ThCo 449. 4 cr.

600. EDUCATION THROUGH DRAMATIZATION
Puppetry, story-telling, involvement theater, and story theater for children; application to the classroom, playground, recreation center, library, hospital ward. Prereq: permission. 4 cr.

621. CREATIVE DRAMATICS
Pantomime, improvisation, and story telling. Students are expected to work with the Durham Drama for Youth program. Prereq: ThCo 620. 4 cr.

622. THEATER FOR CHILDREN
The art of children's theater production for both school and recreation programs. Students will observe and take part in the production of a play for children. 4 cr.

623. THEATER FOR CHILDREN—PUPPETRY
All materials and techniques necessary for a successful children's production. Prereq: permission. 4 cr.

624. THEATER AND MUSICAL PRODUCTION FOR CHILDREN
Musical production and writing techniques. 4 cr.

627. METHODS OF EDUCATION THROUGH DRAMATIZATION
Materials and technique practicum for teaching material in ThCo 620. (Div. of Cont. Ed. only.) Prereq: permission. 4 cr.

629. COMMUNITY ORIENTED CHILDREN'S DRAMA PROGRAMS
Students work in a community. 4 cr.

641. PLAY ANALYSIS FOR PRODUCTION
Analysis and discussion to develop production concepts for actors, technicians, directors, designers, teachers. Prereq: ThCo 435, 436, or 438; either 459, or 551 and 552. (Not offered every year.) 4 cr.

652. SCENIC ARTS V (PRODUCTION DESIGN)
Full production plans, detail drawings, schedules for a hypothetical theater of the student's own design. Prereq: ThCo 459; 547; 549. 4 cr.

654. PERFORMANCE PROJECT
Application of acting and directing theory to assigned responsibilities in a University Theater production or to an individual performance project. Prereq: ThCo 551; 552. To be taken in conjunction with ThCo 655, but not concurrently. May be repeated to 4 cr. 2 cr.

655. SCENIC ART PROJECT
Application of experience in design and technical aspects to assigned responsibilities in a University Theater production or to an individual project or presentation. Prereq: ThCo 459; 652. To be taken in conjunction with ThCo 654, but not concurrently. (May be repeated to 4 cr.) 2 cr.

657. REHEARSAL AND PERFORMANCE III (DIRECTING)
Continuation of ThCo 552 (prerequisite). The director and performer develop interaction of character. Ensemble playing. Full directing responsibility for a one-act play. 4 cr.

658. REHEARSAL AND PERFORMANCE IV (STYLES)
Continuation of ThCo 657 and of the sequence begun in ThCo 551 and 552. Styles of drama for the actor and director. Greek, Shakespearean, 18th century comedy, and 19th century realism. Prereq: ThCo 551; 552; 657;/or equivalent. 4 cr.

668. GROUP INTERPRETATION
Choric speaking, reader's theater, chamber theater, and other forms of group interpretation in theory and practice. Prereq: ThCo 457. 4 cr.

693. THEATER MANAGEMENT
Organization, public relations, business, and box-office management of University Theater projects. Special topics may be explored. Prereq: four courses in theater. (Not offered every year.) 4 cr.
750. WRITING FOR PERFORMANCE
Playwriting; radio, television, and film. Emphasis will vary. Focus on original work with possible performances in other classes. May be, taken three times for credit. Prereq: permission. 4 cr.

781. THEATER WORKSHOP FOR TEACHERS
Intensive seminar-workshop. Rehearsal techniques, theater production, and stage direction; work in lab and in summer repertory theater production as applicable to secondary-school theater. Offered in the summer session. 4 cr.

782. THEATER WORKSHOP FOR TEACHERS
Continuation of ThCo 781 (not a prerequisite). Offered in the summer session. 4 cr.

General

691. LABORATORY OR FIELD EXPERIENCE
Taken in the senior year. 4 cr.

697. SENIOR SEMINAR I
Divisional and departmental meetings as preparation for senior project, overview of recent developments and trends in the oral-communication arts and sciences. Prereq: senior standing. 2 cr.

698. SENIOR SEMINAR II
Further development and completion of senior project. Prereq: senior standing. 2 cr.

795, 796. INDEPENDENT STUDY
Application of speech communication theory in individual or group projects. Could be combined with the senior project (for majors) for a total of 12 credits in the same semester if the student wishes to study off-campus. Project is to be developed with supervising instructor. May be repeated. Variable credits of 2, 4, 6, or 8.

Technology (Tech)

Dean: Richard S. Davis

The following courses are not necessarily offered every year.

405. INTRODUCTION TO COMPUTER TECHNOLOGY AND APPLICATIONS
Computer hard- and software; demonstrations, some “hands-on” experience with hardware, and some experience with hardware, and some programming. Advantages and limitations of computers with respect to various applications (e.g., data processing, automation, education); impact on society (e.g., employment, privacy, war). No credit subsequent to Math 410, 510, E E 712, 714. 4 cr.

455. HOW ELECTRICAL THINGS WORK
Survey course for the completely uninitiated student. Qualitative understanding of the electrical and magnetic principles of commonly encountered technology in the household and automobile. Diagnosis and repair of simple household electrical problems in wiring and small appliances; automotive electrical problems in ignition system, generation system, and starting system. Laboratory: typical equipment measured while in operation and disassembled, to show the principles of design, diagnosis, and repair. Open for credit to non-College of Engineering and Physical Sciences students only. 4 cr.

601. STATISTICAL METHODS IN ENGINEERING AND PHYSICAL SCIENCE
Organizing data and statistical techniques for data analysis. Elementary probability theory, probability distributions, tests of significance, correlation, and regression analysis. Design of experiments; completely randomized blocks; factorials, fractional factorials; process optimization. Introduction to quality control. 4 cr.

610. INTRODUCTION TO OCEAN ENGINEERING
Seminar dealing with engineering problems in fields of current oceanographic interest. Marine biology, saturation diving systems, and physical oceanography. Engineering faculty and other experts in ocean science and engineering. Prereq: permission. 4 cr.

683. TECHNOLOGY: ITS ROLE AND FUNCTION IN SOCIETY
Impact of technology on social systems with current and historical examples. Interrelations between social customs, psychological responses, physical needs, and technological developments. Decision-making process in technological change; interrelationship between technology and public policy. Prereq: junior and senior standing; permission. 4 cr.

697. OCEAN PROJECTS
Students work as members of interdisciplinary project teams on contemporary ocean-related problems under the guidance of a faculty adviser. Student team defines problem, prepares a budget, conducts literature surveys, engages in dialogue with experts in the ocean community, deals with vendors, designs and builds a working engineering model or conducts a comprehensive study, makes interim reports, and defends its results before a jury of experts. Prereq: normally senior standing and permission of the course director. A year-long course: 2 credits each semester, 4 credits total, an “IA” grade (continuous course) given at the end of the first semester. 4 cr.
Thompson School of Applied Science (TSAS)

Director: Lewis Roberts, Jr.

452. PLANT PROPAGATION AND DEVELOPMENT
Principles and practices; lab work includes types of plant propagation and handling of young plants. Prereq: permission. 4 cr.

453. NURSERY CULTURE AND OPERATIONS
The nursery business from seedlings to the handling of the finished product; pest control, nursery inspection, and plant quarantines. Prereq: permission. 3 cr.

457. GREENHOUSE MANAGEMENT
Growing plants under plastic and glass; soils, soil mixes, water, heat, and light; behavior of plants in artificial environments; pest control. Prereq: permission. 4 cr.

458. COMMERCIAL FLORICULTURE
Continuation of 457. The leading cut flowers, potted plants, bulbous crops, certain vegetables, and some minor crops and annuals as box plants. Prereq: permission 4 cr.

Wildlife Management
(See Institute of Natural and Environmental Resources)

Zoology (Zool)
Chairperson: Philip J. Sawyer

PROFESSORS: Lorus J. Milne, emeritus; Edythe T. Richardson, emerita; Arthur C. Borror, Wilbur L. Bullock, Philip J. Sawyer, Emery F. Swan, Paul A. Wright
ASSOCIATE PROFESSORS: Paul E. Schaefer, emeritus; Robert A. Croker, John E. Foret, James F. Haney, Larry G. Harris, Frank K. Hoornbeek, Marcel E. Lavoie, John J. Sasner, Edward K. Tillinghast
LECTURER: Abigail R. Lumsden

412. PRINCIPLES OF ZOOLOGY
Concepts of animal biology, introduction to ecological relationships, anatomy, physiology, embryology, taxonomy, and evolution. Intended principally for majors in the biological sciences. Lab. 4 cr.

507-508. HUMAN ANATOMY AND PHYSIOLOGY
All systems in human body. Laboratories: a dissection of preserved cats and experiments with living tissues. 4 cr.

518. VERTEBRATE MORPHOLOGY
Basic morphological features of vertebrates. Structure of the major systems at macroscopic and microscopic levels. Prereq: Zool 412. Lab. 4 cr.

527. VERTEBRATE PHYSIOLOGY
Principles and comparative function of vertebrate systems; cell, organ, and system levels. Prereq: Zool 412; 518; Chem 403-404. Lab. 4 cr.

542. ORNITHOLOGY
Identification and biology of birds, especially those of northeastern United States. Field trips, laboratory, and lectures. Prereq: one semester of biology. 4 cr.

604. PRINCIPLES OF GENETICS
Chemical and physical basis of inheritance; genes and chromosomes as units of mutation; genes in populations. Students desiring formal laboratory experience should register in Zool 706. Prereq: basic laboratory course in biological sciences. Organic chemistry and college math or statistics suggested. (Offered as PISC 604 alternate semester.) 4 cr.

618. INTRODUCTORY INVERTEBRATE ZOOLOGY
Lecture and laboratory survey of invertebrate phyla; systematics, morphology, phylogeny, and natural history. Prereq: Zool 412/or equivalent. Lab. 4 cr.

704. COMPARATIVE ENDOCRINOLOGY
Endocrine organs; relationship to control of the internal environment, growth, development, and adaptation to external environment. Prereq: vertebrate anatomy; physiology; organic chemistry. 4 cr.

706. GENETICS LABORATORY
Experiments and demonstrations in classical, developmental, and population genetics and cytogenetics, using a wide range of organisms and techniques. Pre- or corequisite: Zool 604 or equivalent; permission. 2 cr.

707. HUMAN GENETICS
Inheritance patterns; gene and chromosome mutation rates and effects; linkage and gene frequency. Prereq: Zool 604 or equivalent/or permission. (Not offered every year.) 4 cr.

711. NATURAL HISTORY OF COLD-BLOODED VERTEBRATES
Classes of poikilothermic vertebrates; their habits, habitats, and life histories in eastern North America. Prereq: general zoology; Zool 518. Lab. 4 cr.
712. MAMMALOGY

713. ANIMAL BEHAVIOR
Individual and social behavior. The role of anatomy, physiology, ecology, and prior experience. Techniques and practical application. Prereq: one year of zoology. Lab. 4 cr.

715. NATURAL HISTORY OF MARINE INVERTEBRATES
Field and laboratory course; inshore marine invertebrate metazoan animals of northern New England. Identification, classification, habitat preferences, and behavior. Work (collection and observation) constitutes a major part of the course. Some travel expense. Prereq: general zoology. Summer only. 4 cr.

717. GENERAL LIMNOLOGY
Special relationships of freshwater organisms to the chemical, physical, and biological aspects of the aquatic environment. Factors regulating the distribution of organisms and primary and secondary productivity of lake habitats. Prereq: Biol 541;/or equivalent. 4 cr.

719. FIELD LIMNOLOGY
Freshwater ecology examined through laboratory exercises with freshwater habitats. Methods to study freshwater lakes; interpretation of data. Seminars and occasional Saturday field trips. Prereq: present or prior enrollment in Bot 717, Zool 717, or equivalent; permission. 4 cr.

721. PARASITOLOGY
Introduction to the more important parasites causing disease in man and animals. Living materials will be used as far as possible. Prereq: one year of zoology. (Not offered every year.) 4 cr.

723. CELL PHYSIOLOGY
Principles of chemistry and physics applied to understanding cell structure and function. Metabolic reactions and their control in relation to cell organization; genesis and function of specialized cells. Prereq: organic chemistry. Lab. 4 cr.

724. MARINE PARASITOLOGY
Diseases and parasites of marine fishes and shellfish; emphasis on the local estuarine environment. Prereq: one year of zoology. (Not offered every year.) 4 cr.

728. DEVELOPMENTAL BIOLOGY OF THE INVERTEBRATES
Principles of animal reproduction and development as seen in selected invertebrate phyla. Modern and classical studies of gametogenesis, fertilization, cleavage, gastrulation, and larval development. Prereq: Intro Invertebrate Zool;/or permission. 4 cr.

729. DEVELOPMENTAL BIOLOGY OF THE VERTEBRATES
Principles of animal reproduction and development with emphasis on selected vertebrate types. Embryogenesis, metamorphosis, onco-genesis, and regeneration. Prereq: Vertebrate Morphology; Vertebrate Physiology; Principles of Genetics. 4 cr.

730. VERTEBRATE HISTOLOGY
Microscopic anatomy of vertebrate tissues and organs at the light microscope level; emphasis—mammalian histology; some comparative study of lower vertebrates. Prereq: Zool 508, 518, or equivalent. Lab. 4 cr.

772. FISHERIES BIOLOGY
Information and techniques used by fisheries biologists. Emphasis on fish life history, ecology, and economics as related to management techniques. Prereq: Zool 711 or equivalent; permission. Lab. 4 cr.

775. INVERTEBRATE EMBRYOLOGY
Comparative study of reproduction and early development in selected invertebrates, providing a classical approach to morphology of gonads, fertilization, cleavage, gastrulation, and formation of larvae. Prereq: Zool 774 (UNH), Bio. Sci 364 (Cornell), or invertebrate zoology. Summer only. 4 cr. Cr/F.
Faculty Emeriti

Abbott, Helen D.

Adams, Arthur S.
Former President and Consultant; Dipl., U.S. Naval Academy, 1918; M.A., University of California, 1926; Sc.D., Colorado School of Mines, 1927; (1948 to 1951, 1975 to 1976).

Allen, Fred E.
Professor Emeritus of Animal Sciences; B.S., University of New Hampshire, 1932; D.V.M., Ohio State University, 1936; (1940 to 1976).

Babcock, Donald C.
Professor Emeritus of Philosophy; B.A., University of Minnesota, 1907; M.A., ibid., 1908; S.T.B., Boston University, 1912; D.H.L. (Hon.), University of New Hampshire, 1960; (1918 to 1956).

Barraclough, Kenneth E.
Professor Emeritus of Forestry, Extension Forester Emeritus; B.A., New York State College of Forestry, Syracuse University, 1921; M.F., Harvard University, 1940; (1926 to 1963).

Bartley, Irving D.
Associate Professor Emeritus of Music and University Carillonneur; B.M., Syracuse University, 1935; M.M., ibid., 1938; (1945 to 1968).

Barton, Philip S.

Bingham, Sylvester H.
Professor Emeritus of English; A.B. Dartmouth College, 1922; A.M., Harvard University, 1929; Ph.D., Yale University, 1937; (1935 to 1970).

Bowring, James R.
Professor Emeritus of Resource Economics; B.S.A., University of Manitoba, 1936; M.A., University of Alberta, 1940; Ph.D., Iowa State University, 1944; (1948 to 1976).

Boynton, C. Hilton
Professor Emeritus of Dairy Science and Extension Dairyman Emeritus; B.S., Iowa State College, 1934; M.S., ibid., 1940; Ph.D., Rutgers University, 1962; (1945 to 1972).

Brackett, Thelma
University Librarian Emeritus; A.B., University of California, 1919; Certificate, California State Library School, 1920; D.H.L. (Hon.), University of New Hampshire, 1962; (1942 to 1961).

Bratton, Karl H.
Professor Emeritus of Music; B.M., University of Kansas, 1931; M.A., Teachers College, Columbia University, 1945; (1945 to 1971).

Campbell, Willis C.
Research Associate Emeritus, Engineering Experiment Station; B.S., New Hampshire College, 1906; (1938 to 1954).

Carroll, Herbert A.
Professor Emeritus of Psychology; A.B., Bates College, 1923; A.M., Brown University, 1928; Ph.D., Columbia University, 1930; (1941 to 1962).

Chapman, Donald H.
Professor Emeritus of Geology; B.A., University of Michigan, 1927; M.A., ibid., 1928; Ph.D., ibid., 1931; (1931 to 1974).

Clark, William E.
Assistant Professor Emeritus of Mechanical Engineering; B.S., University of New Hampshire, 1931; (1946 to 1974).

Colby, Halstead N.
Associate Professor Emeritus of Soil and Water Science, Extension Agricultural Engineer Emeritus; B.S., University of New Hampshire, 1930; (1932 to 1936, 1946 to 1968).

Conklin, James G.
Professor Emeritus of Entomology; B.S., Connecticut Agricultural College, 1926; M.S., University of New Hampshire, 1929; Ph.D., Ohio State University, 1941; (1931 to 1971).

Daggett, Albert F.
Professor Emeritus of Chemistry; B.S., University of New Hampshire, 1928; M.S., ibid., 1930; Ph.D., Columbia University, 1934; (1928 to 1931, 1935 to 1976).

Danoff, Alexander P.
Assistant Professor Emeritus of German; A.B., New York University, 1926; A.M., ibid., 1929; (1948 to 1969).

Dawson, Charles O.
Professor Emeritus of Civil Engineering; B.C.E., Ohio State University, 1930; M.S.C.E., ibid., 1940; (1930 to 1976).

Degler, Carroll M.
Professor Emeritus of Business Administration and Economics; A.B., University of Kansas, 1925; M.B.A., New York University, 1927; S.S., Columbia University, 1933; (1928 to 1973).

Diechert, Lillian C.
Associate Professor Emeritus Loan Librarian; A.B., Hunter College, 1933; M.L.S., Pratt Institute, 1960; (1964 to 1975).

DeQuoy, Ruth W.
Associate State 4-H Leader Emeritus; B.A., New Hampshire College, 1921; M.Ed., University of Maryland, 1953; (1929 to 1965).

Duncan, Lillian R.
Associate Professor Emeritus Public Service Librarian; B.A., University of Oklahoma, 1933; (1934 to 1973).

Dunn, Stuart
Professor Emeritus of Botany; B.S., University of Minnesota, 1923; M.S., Iowa State College, 1925; Ph.D., University of Minnesota, 1931; (1926 to 1970).

Eggerl, Russell
Professor Emeritus of Horticulture; B.S., Michigan State College, 1929; M.S., ibid., 1939; (1942 to 1946, 1948 to 1970).

Ellis, Elizabeth E.
Extension Associate Professor Emeritus of Home Economics; B.S. Teachers College, Columbia University, 1927; M.A., ibid., 1929; (1929 to 1960).
Fernald, Mary Louise
Associate Professor Emeritus of Nursing; B.S., University of New Hampshire, 1931; Dipl., Children's Hospital School of Nursing, 1935; M.A., Teachers College, Columbia University, 1947; (1964 to 1974).

Granger, Ralph H.
Thompson School Associate Professor Emeritus of Applied Business Management; B.S., University of Massachusetts, 1935; M.S., ibid., 1939; (1946 to 1976).

Hall, Harry H.
Professor Emeritus of Physics; B.S., Union College, 1926; Ph.D., Harvard University, 1934; (1940 to 1969).

Haslerud, George M.
Professor Emeritus of Psychology; B.A., University of Minnesota, 1930; Ph.D., ibid., 1934; (1945 to 1972).

Hitchcock, Leon W.
Professor Emeritus of Electrical Engineering; B.S., Worcester Polytechnic Institute, 1908; (1910 to 1956).

Hogan, John A.

Hoitt, Samuel W.
Director Emeritus of the Cooperative Extension Service, and Professor Emeritus of Agricultural Education; B.S., University of New Hampshire, 1928; M.S., ibid., 1931; Ph.D. (Hon.), ibid., 1973; (1931 to 1970).

Holden, John T.
Professor Emeritus of Political Science; A.B., Wesleyan University, 1936; M.P.A., Harvard University, 1941; M.A., ibid., 1942; Ph.D., ibid., 1943; LL.D. (Hon.), Nason College, 1958; (1947 to 1972).

Huddleston, Eric T.
Professor Emeritus of Architecture, B.Arch., Cornell University, 1910; (1919 to 1957).

Iddles, Harold A.
Professor Emeritus of Chemistry; B.S., Michigan State University, 1918; M.S., University of Iowa, 1921; Ph.D., Columbia University, 1925; D.Sc. (Hon.), University of New Hampshire, 1966; (1929 to 1965).

James, Jesse
State Leader Emeritus, Extension 4-H Youth Development and Associate Professor Emeritus of Occupational Education; B.S., University of Georgia, 1937; M.S., ibid., 1951; (1957 to 1974).

Johnson, G. Reid
Associate Professor Emeritus of History; A.B., Muskingum College, 1916; M.A., Princeton University, 1920; Ph.D., University of Edinburgh, 1922 (1932 to 1963).

Kichline, William
Professor Emeritus of Mathematics; B.A., Lehigh University, 1924; M.S., ibid., 1928; (1931 to 1974).

Langer, Clarence A.
Professor Emeritus of Plant Science and Extension Horticulturist Emeritus, Fruits; B.S., Michigan State University, 1933; M.S., ibid., 1948; Ph.D., ibid., 1952; (1962 to 1974).

Lavine, Irvin
Professor Emeritus of Chemical Engineering; B.S., University of Minnesota, 1924; Ph.D., ibid., 1930; (1948 to 1949, 1951 to 1965).

Marschner, Donald C.
Professor Emeritus of Business Administration; B.A., Brown University, 1929; Ph.D., Columbia University, 1934; (1964 to 1975).

Marshall, Thomas O.
Professor Emeritus of Education; A.B., Colgate University, 1929; Ed.M., S.U.N.Y. at Buffalo, 1933; Ed.D., Harvard University, 1941; (1947 to 1973).

Maynard, Max S.
Professor Emeritus of English; B.A., University of British Columbia, 1937; (1946 to 1972).

Meyers, T. Ralph
Professor Emeritus of Geology; B.A., Ohio State University, 1926; M.A., ibid., 1929; (1927 to 1972).

Milne, Lorus J.
Professor Emeritus of Zoology; B.A., University of Toronto, 1933; M.A., Harvard University, 1934; Ph.D., ibid., 1936; (1948 to 1976).

Morrow, Kenneth S.
Professor Emeritus of Dairy Science; B.S., University of Minnesota, 1918; M.S., ibid., 1925; (1934 to 1966).

Nast, Charlotte G.
Professor Emeritus of Botany; B.A., University of Wisconsin, 1927; M.A., ibid., 1929; Ph.D., University of California, 1938; (1948 to 1970).

Partridge, Allan B.
Associate Professor Emeritus of History; A.B., Clark University, 1922; A.M. ibid., 1923; (1925 to 1971).

Perry, Errol C.
Thompson School Assistant Professor Emeritus of Farm Management; B.S., University of Massachusetts, 1920; (1929 to 1942, 1946 to 1962).

Pew, Richard
Associate Professor Emeritus of Hotel Administration; B.S., Cornell University, 1933; (1963 to 1974).

Phillips, Thomas G.
Professor Emeritus of Agricultural and Biological Chemistry; B.S., Ohio State University, 1912; M.S., ibid., 1913; Ph.D., University of Chicago, 1918; (1925 to 1957).

Prince, Ford S.
Professor Emeritus of Agronomy; B.S., University of Illinois, 1913; (1925 to 1957).

Rand, M. Elizabeth
Associate Professor Emeritus of Home Economics; A.B., Wheaton College, 1930; M.Ed., Boston University, 1946; (1948 to 1973).

Richardson, Edythe T.
Professor Emeritus of Zoology; B.S., New Hampshire College, 1922; M.S., University of New Hampshire, 1924; (1922 to 1966).

Ringrose, Richard C.
Professor Emeritus of Animal Science; B.S., Cornell University, 1932; Ph.D., ibid., 1936; (1942 to 1975).
Sackett, Everett B.
Dean Emeritus of the College of Liberal Arts and Professor Emeritus of Education; B.A., Hamline University, 1923; M.A., University of Minnesota, 1926; Ph.D., Columbia University, 1931; (1938 to 1967).

Schafer, Paul E.
Associate Professor Emeritus of Zoology; A.B., Bethany College, 1926; M.S., Ohio State University, 1931; Ph.D., ibid., 1936; (1941 to 1971).

Seiberlich, Joseph E.
Research Professor Emeritus, Engineering Experiment Station; Diploma Ingenieur, Technical University, Karlsruhe, Germany, 1924; Doctor Ingenieur, ibid., 1928; (1941 to 1962).

Shimer, Stanley R.
Professor Emeritus of Biochemistry; B.S., Muhlenberg College, 1918; M.S., Pennsylvania State College, 1923; (1924 to 1966).

Skelton, Russell R.
Professor Emeritus of Civil Engineering; B.S., Purdue University, 1924; C.E., ibid., 1934; S.M., Harvard University, 1933; (1928 to 1966).

Stolworthy, Edward
Professor Emeritus of Mechanical Engineering; B.S. Tufts College, 1922; D.Eng. (Hon.), University of New Hampshire, 1974; (1922 to 1968).

Swasey, Henry C.
Associate Professor Emeritus of Intercollegiate Athletics; B.S., Amherst College, 1915; M.S., Indiana University, 1941; (1921 to 1962).

Sweet, Paul C.
Coach of Track and Cross Country and Professor Emeritus of Physical Education; B.S., University of Illinois, 1923; M.S., University of Southern California, 1941; (1924 to 1970).

Thames, Sarah C.
Associate Professor Emeritus of Home Economics; B.S., Simmons College, 1930; M.S., Teachers College, Columbia University, 1942; (1945 to 1961).

Thomas, George R.
Professor Emeritus of The Arts; B.Arch., Carnegie Institute of Technology, 1930; (1930 to 1976).

Tyrrell, Doris E.
Associate Professor Emeritus of Secretarial Studies; B.S., University of Minnesota, 1926; M.A., ibid., 1932; (1938 to 1966).

Walsh, John S.
Professor Emeritus of Languages; A.B., Harvard University, 1915; A.M., Boston University, 1928; D.H.L. (Hon.), University of New Hampshire, 1965; (1922 to 1962).

Warren, Richard G.
Professor Emeritus of Poultry Science, Extension Poultryman Emeritus; B.S., Cornell University, 1934; M.S., ibid., 1935; (1937 to 1970).

Watson, Robert I.
Professor Emeritus of Psychology; A.B., Dana College, 1933; A.M., Columbia University, 1935; Ph.D., ibid., 1938; (1967 to 1975).

Webster, Robert G.
Professor Emeritus of English; B.A., University of New Hampshire, 1926; M.A., ibid., 1930; (1927 to 1970).

Woodruff, Ruth J.
Professor Emeritus of Economics; B.A., Byrn Mawr College, 1919; A.M., ibid., 1920; Ph.D., Radcliffe College, 1931; (1931 to 1967).

Wooster, Caroline S.
Associate Professor Emeritus of Physical Education; Cert., Sargent School for Physical Education, 1926; B.S., University of New Hampshire, 1934; (1944 to 1970).

Zimmerman, Oswald T.
Professor Emeritus of Chemical Engineering; B.S.E., University of Michigan, 1929; M.S.E., ibid., 1931; Ph.D., ibid., 1934; (1938 to 1970).

Faculty

Abeles, Sigmund M.
Associate Professor of The Arts; A.B., University of South Carolina, 1955; M.F.A., Columbia University, 1957; appointed 1970.

Abromson, Morton C.
Assistant Professor of The Arts; A.B., Boston University, 1963; M.A., ibid., 1964; appointed 1972.

Ackerman, Margaret D.
Assistant Professor of Education; B.S., University of Arizona, 1961; M.A., ibid., 1967; Ph.D., University of Pennsylvania, 1971; appointed 1971.

Acquario, Thomas J.
Assistant Professor of French; B.A., Siena College, 1967; M.A., Ohio State University, 1968; Ph.D., ibid., 1973; appointed 1976.

Adamovich, Frank W.
Assistant Professor, Documents Librarian; B.S., Fitchburg State Teachers College, 1960; M.S., Simmons College, 1968; appointed 1968.

Adams, Robert L.A.
Assistant Professor of Geography; B.A., Williams College, 1961; M.A., Clark University, 1966; Ph.D., ibid., 1971; appointed 1967.

†Adams, W. Thomas
Assistant Professor of Forest Genetics; B.S., Humboldt State College, 1968; M.S., North Carolina State University, 1970; Ph.D., University of California, 1974; appointed 1974.

Allmendinger, Eugene
Associate Professor of Naval Architecture and Associate Director of Marine Program; B.S., University of Michigan, 1941; M.S., University of New Hampshire, 1950; appointed 1958.

Alonzo, Roy S.
Thompson School Associate Professor of Food Services Management; A.S., Becker Junior College, 1951; B.S., Boston University, 1953; M.B.A., Western New England College, 1961; appointed 1969.

Amell, Alexander R.
Professor of Chemistry; B.S., University of Massachusetts, 1947; Ph.D., University of Wisconsin, 1950; appointed 1955.

Amsden, Katherine
Associate Professor of Physical Education; A.B., Sweet Briar College, 1953; M.S., Smith College, 1956; Ph.D., University of Southern California, 1967; appointed 1967.

*Indicates time devoted to Cooperative Extension Service
†Indicates time devoted to Agricultural Experiment Station
Andersen, Kenneth K.
Professor of Chemistry; B.S., Rutgers University, 1955; Ph.D., University of Minnesota, 1959; appointed 1960.

Anderson, Charlotte K.
Professor, Assistant Librarian; B.A., University of Michigan, 1935; A.B.L.S., ibid., 1936; A.M.L.S., ibid., 1951; appointed 1943.

Anderson, Franz E.
Associate Professor of Geology; B.A., Ohio Wesleyan University, 1960; M.A., Northwestern University, 1962; Ph.D., University of Washington, 1967; appointed 1967.

Andrew, David

Andrew, Michael D.
Associate Professor of Education; B.S., Cornell University, 1960; A.M.T., Harvard University, 1961; Ed.D., ibid., 1969; appointed 1966.

Andrews, Richard A.
Professor of Resource Economics; B.S., University of Maine, 1949; M.S., Pennsylvania State University, 1951; Ph.D., University of Minnesota, 1959; appointed 1959.

Annis, William H.

Antonak, Richard F.
Assistant Professor of Education; B.A., Rutgers University, 1969; M.Ed., Temple University, 1970; Ed.D., ibid., 1975; appointed 1974.

Antosiewicz, Rose T.
Associate Professor of Italian; A.B., Brown University, 1954; Ph.D., University of California at Los Angeles, 1971; appointed 1970.

Arnold, Roger L.
Professor of Physics and Director of Space Science Center; B.S., St. Mary's College, 1956; M.S., University of Minnesota, 1959; Ph.D., ibid., 1962; appointed 1967.

Ashley, Charles H.

Aspnes, John
Assistant Professor of Electrical Engineering; B.S., University of Wisconsin, 1963; M.S., ibid., 1965; Ph.D., Montana State University, 1976; appointed 1976.

Aultman, Dwight E., III
Trainer, Physical Therapist; Assistant Professor of Physical Education; B.S., Medical College of Virginia, 1956; appointed 1966.

Baker, Alan L.
Assistant Professor of Botany; B.A., Harpur College, S.U.N.Y., 1965; Ph.D., University of Minnesota, 1973; appointed 1972.

Balderacchi, Arthur E.
Associate Professor of The Arts; A.B., Duke University, 1960; M.F.A., University of Georgia, 1965; appointed 1965.

Balling, L.C.
Professor of Physics; B.A., Oberlin College, 1960; M.A., Harvard University, 1961; Ph.D., ibid., 1965; appointed 1967.

Balomenos, Richard H.
Professor of Mathematics Education; B.S., United States Merchant Marine Academy, 1952; M.A., New York University, 1956; M.S., University of Notre Dame, 1961; Ed.D., Harvard University, 1961; appointed 1961.

Barker, Richard L.
Program Leader 4-H Youth Development, and Associate Professor of Occupational Education; B.S., University of Maine, 1959; M.Ag.Ed., University of New Hampshire, 1965; Ph.D., Ohio State University, 1967; appointed 1975.

Barlow, Robert F.
Professor of Economics and Administration; B.A., Colby College, 1950; M.A., Fletcher School of Law and Diplomacy, Tufts University, 1951; Ph.D., ibid., 1960; appointed 1962.

Barney, Dwight E.
Assistant Extension Livestock Specialist, Lecturer in Animal Science, and Farm Coordinator; B.S., University of New Hampshire, 1967; M.S., ibid., 1972; appointed 1971.

Barrett, James P.
Professor of Forest Biometrics; B.S., North Carolina State University, 1954; M.F., Duke University, 1958; Ph.D., ibid., 1962; appointed 1962.

Barstow, Thomas R.
Assistant Professor of Physical Education; B.S., St. Lawrence University, 1961; M.Ed., ibid., 1965; appointed 1965.

Batchelder, Gerald M.
Thompson School Associate Professor of Civil Technology and Adjunct Associate Professor of Civil Engineering; B.S.C.E., University of New Hampshire, 1950; M.S.C.E., Purdue University, 1952; appointed 1953.

Batcheller, Joseph D.
Professor of Speech and Drama; A.B., Carnegie Institute of Technology, 1936; A.M., University of Minnesota, 1938; Ph.D., ibid., 1942; appointed 1944.

Batho, Edward H.
Professor of Mathematics; B.S., Fordham University, 1950; M.S., University of Wisconsin, 1952; Ph.D., ibid., 1955; appointed 1960.

Beasley, Wayne M.
Associate Professor of Materials Science; S.B., Harvard College, 1946; S.M., Massachusetts Institute of Technology, 1957.

Bechtell, Homer F., Jr.
Professor of Mathematics; B.S., Grove City College, 1951; M.A., University of Wisconsin, 1956; Ph.D., ibid., 1963; appointed 1966.

Beckett, John A.
Forbes Professor of Management; B.S., University of Oregon, 1939; M.B.A., Harvard University, 1946; C.P.A.; appointed 1962.

Beckwith, Marion C.
Professor of Physical Education; A.B., Oberlin College, 1935; M.Ed., University of New Hampshire, 1937; appointed 1935.

Bell, R. Virginia
Associate Professor of Occupational Therapy; B.S., University of Michigan, 1953; Certificate O.T.R., Boston School of Occupational Therapy, 1955; appointed 1958.

Bennett, Albert B.
Associate Professor of Mathematics; B.S., Maine Maritime Academy, 1954; B.S., University of Maine, 1958; M.A., ibid., 1959; Ed.D., University of Michigan, 1966; appointed 1967.
Bereit, Virginia F.
Assistant Professor of Education; B.S., Baldwin Wallace College, 1953; M.E., Kent State University, 1958; Ed.D., Columbia University, 1971; appointed 1973.

Bergeron, R. Daniel
Assistant Professor of Computer Science; Sc.B., Brown University, 1966; Ph.D., 1973; appointed 1974.

Bernard, Roger P.
Dean of Academic Affairs, Merrimack Valley Branch; B.S., Fordham College, 1960; M.A., Fordham University, 1963; appointed 1973.

Berner, Raymond J.
Assistant Professor and Technical Director of Speech and Drama; B.S., Bradford Durfee College, 1958; M.Ed., Bridgewater State College, 1960; M.A., Smith College, 1967; appointed 1967.

Berry, David E.
Associate Professor of Health Studies; B.S., University of Kentucky, 1962; M.S., University of North Carolina, 1963; Dr.P.H., ibid., 1971; appointed 1975.

Bigglestone, Gail A.
Director of Department of Women's Intercollegiate Athletics and Assistant Professor of Physical Education; B.S., University of New Hampshire, 1960; M.S., University of Massachusetts, 1965; appointed 1970.

Birch, Francis S.
Associate Professor of Earth Sciences; A.B., Harvard University, 1958; M.S., University of Wisconsin, 1964; Ph.D., Princeton University, 1969; appointed 1972.

Bishop, Paul L.
Associate Professor of Civil Engineering; B.S.C.E., Northeastern University, 1958; M.S.C.E., Purdue University, 1970; Ph.D., ibid., 1972; appointed 1972.

Blanchard, Fletcher A., Jr.
Professor of Electrical Engineering and Associate Director EDAL; B.S., Union College, 1948; M.S., Lehigh University, 1950; appointed 1950.

Blanchard, Robert O.
Assistant Professor of Plant Pathology; B.S., University of Maine (Gorham), 1964; M.Ed., University of Georgia, 1969; Ph.D., ibid., 1971; appointed 1972.

Bland, Linda C.
Lecturer in Animal Sciences; B.A., University of New Hampshire, 1974; appointed 1974.

Blickle, Robert L.
Professor of Entomology; B.S., Ohio State University, 1957; M.S., University of New Hampshire, 1939; Ph.D., Ohio State University, 1942; appointed 1938-1941, 1946.

Bobick, Melvin T.
Professor of Sociology; A.B., University of Illinois, 1949; A.M., ibid., 1952; Ph.D., ibid., 1958; appointed 1958.

Bogle, Alfred Linn
Associate Professor of Botany; B.S., University of Washington, 1958; M.S., ibid., 1961; Ph.D., University of Minnesota, 1968; appointed 1970.

Bolian, Charles
Assistant Professor of Anthropology; B.A., Mississippi State University, 1965; Ph.D., University of Illinois, 1975; appointed 1971.

Bonnice, William E.
Associate Professor of Mathematics; B.A.E., Syracuse University, 1951; M.S., University of Washington, 1960; Ph.D., ibid., 1962; appointed 1962.

Borror, Arthur C.
Professor of Zoology; B.S., Ohio State University, 1956; M.S., ibid., 1958; Ph.D., Florida State University, 1961; appointed 1961.

Bothner, Wallace A.
Associate Professor of Geology; B.A., S.U.N.Y. at Binghamton, 1963; Ph.D., University of Wyoming, 1967; appointed 1967.

Bowen, Lester R., Jr. (Captain, U.S. Army)
Lecturer in Military Science; B.A., Lakeland College, 1968; appointed 1976.

Bowers, Dolores J.
Assistant Professor of Nursing; Diploma, Reading Hospital School of Nursing, 1954; B.S., Teachers College, Columbia University, 1964; Ed.M., ibid., 1970; appointed 1972.

Bowes, William M.

Bowman, James S.
Associate Professor of Entomology and Extension Entomologist; B.Sc., Ohio State University, 1951; M.Sc., ibid., 1954; Ph.D., University of Wisconsin, 1958; appointed 1971.

Boy, Angelo V.
Professor of Education; A.B., University of Notre Dame, 1953; Ed.M., Boston University, 1955; Ed.D., ibid., 1960; appointed 1965.

Boynton, Jason E.

Bozak, John C., Jr.
Thompson School Associate Professor of Forest Technology; B.S., University of Connecticut, 1962; M.F., Yale School of Forestry, 1963; appointed 1967.

Bradley, David B. (Major, U.S. Army)
Lecturer in Military Science; B.A., University of New Hampshire, 1962; M.S., ibid., 1975; appointed 1975.

Brall, Allan J.
Associate Professor of Economics and Business Administration; A.B., University of Rochester, 1951; M.B.A., Columbia University, 1953; Ph.D., University of Wisconsin, 1959; appointed 1965.

Breeding, Charles H.J.
Thompson School Professor of Applied Soil Sciences; B.S., University of New Hampshire, 1949; M.S., ibid., 1966; appointed 1963.

Briden, Earl F.
Assistant Professor of English; Ed.B., Rhode Island College, 1963; M.A., Brown University, 1966; Ph.D., ibid., 1970; appointed 1970.

Briggs, Janet C.
Lecturer in Animal Science; B.S., University of Massachusetts, 1962; appointed 1963.

Broockelman, Paul T.
Associate Professor of Philosophy; A.B., Dartmouth College, 1957; M.A., Northwestern University, 1963; Ph.D., ibid., 1968; appointed 1963.

Broderick, Dale G.
Associate Professor of Business Administration; B.S., University of Michigan, 1957; M.B.A., University of Chicago, 1961; Ph.D., Columbia University, 1973; appointed 1974.

</table>
Chupp, Edward L.
Professor of Physics; A.B., University of California, 1950; Ph.D., ibid., 1954; appointed 1962.

Civicco, Bruno
Assistant Professor of The Arts; B.F.A., Pratt Institute, 1966; M.F.A., Indiana University, 1968; appointed 1973.

Clark, Carl D. (Major, U.S. Air Force)
Assistant Professor of Aerospace Studies; B.A., North Texas State University, 1965; M.A., University of Arkansas, 1975; appointed 1976.

Clark, Charles E.
Professor of History; A.B., Bates College, 1951; M.S., Columbia University, 1952; Ph.D., Brown University, 1966; appointed 1967.

Clark, Margot
Assistant Professor of The Arts; B.S., Washington University, 1961; A.M., ibid., 1973; Ph.D., ibid., 1974; appointed 1974.

Clark, Ronald R.
Professor of Electrical Engineering; B.S., University of New Hampshire, 1956; M.E., Yale University, 1957; Ph.D., Syracuse University, 1963; appointed 1957.

Clee, Jan E.
Dean of the Whittemore School of Business and Economics and Professor of Organizational Development; B.A., Social Academy, 1953; M.S., Case Western Reserve University, 1963; Ph.D., ibid., 1967; appointed 1967.

Coates, Carla
Adjunct Lecturer in Medical Technology, Mary Hitchcock Hospital; B.S., University of New Hampshire, 1969; appointed 1974.

Cobb, Loren
Assistant Professor of Sociology; B.A., Cornell University, 1970; M.A., ibid., 1971; Ph.D., ibid., 1973; appointed 1972.

Cohen, Allan R.

Cole, Lawrence P.
Assistant Professor of Economics; B.Ed., Keene Teachers College, 1959; M.S., Purdue University, 1964; Ph.D., ibid., 1969; appointed 1966.

Collins, Susan R.
Instructor in Nursing; B.S., University of New Hampshire, 1971; M.S., University of Colorado, 1975; appointed 1975.

Collins, Walter M.
Professor of Animal Science; B.S., University of Connecticut, 1940; M.S., ibid., 1949; Ph.D., Iowa State University, 1960; appointed 1951.

Condon, William C.
Assistant Professor of Animal Science and Reproductive Physiologist; B.A., Merrimack College, 1965; M.S., University of Massachusetts, 1968; Ph.D., ibid., 1975; appointed 1976.

Congdon, Robert G.
Associate Director of Counseling and Adjunct Associate Professor of Psychology; A.B., University of California, 1947; Ed.D., Harvard University, 1961; appointed 1952.

Conner, Theodore W.
Coach of Baseball and Assistant Professor of Physical Education; B.S., Springfield College, 1955; M.S., University of Illinois, 1958; appointed 1962.

Copeland, Arthur H., Jr.
Professor of Mathematics; B.S., University of Michigan, 1949; M.A., ibid., 1950; Ph.D., Massachusetts Institute of Technology, 1954; appointed 1968.

Copeland, John A.

Corbett, Alan C.
Professor of Animal Science and Veterinarian; B.S., University of Maine, 1936; M.S., ibid., 1937; D.V.M., Michigan State College, 1940; appointed 1941.

Corcoran, Ellen P.
Assistant Professor of Education; B.A., Bryn Mawr College, 1962; M.A.T., New York University, 1968; Ph.D., ibid., 1972; appointed 1972.

Corell, Robert W.
Professor of Mechanical Engineering and Director of Marine Program; B.S.M.E., Case Institute of Technology, 1956; M.S.M.E., Massachusetts Institute of Technology, 1959; Ph.D., Case Institute of Technology, 1964; appointed 1957-60, 1964.

Craig, Robert E.
Assistant Professor of Political Science; B.A., Adelphi University, 1960; Ph.D., University of North Carolina, 1971; appointed 1966.

Crepeau, Elizabeth L.
Instructor in Occupational Therapy; B.S., University of New Hampshire, 1966; appointed 1974.

Croker, Robert A.
Assistant Professor of Zoology; A.B., Adelphi College, 1958; M.S., University of Miami, 1960; Ph.D., Emory University, 1966; appointed 1966.

Crow, Alice
Assistant Professor of Occupational Therapy; B.S., University of Wisconsin, 1963; M.P.H., University of Michigan, 1971; appointed 1976.

Crow, Garrett
Assistant Professor of Botany; A.B., Taylor University, 1965; M.S., Michigan State University, 1968; Ph.D., ibid., 1974; appointed 1975.

Crowson, Lydia L.
Assistant Professor of French; B.A., Birmingham Southern College, 1968; M.A., University of Wisconsin, 1969; Ph.D., ibid., 1972; appointed 1972.

Curtis, Ann P.
Assistant Professor of Communication Disorders; A.A., Centenary College for Women, 1968; B.A., University of Maine, 1971; M.A., Ohio University, 1972; Ph.D., ibid., 1976; appointed 1976.

Darlington, Sidney
Adjunct Professor of Electrical Engineering; B.S., Harvard University, 1928; B.S., Massachusetts Institute of Technology, 1929; Ph.D., Columbia, 1940; appointed 1971.

Datillo, Louis A., II

Dauphinais, Edward J.
Associate Professor, Technology Branch Librarian; B.A., University of Hartford, 1956; M.S.L.S., Simmons College, 1960; appointed 1968.

Davenport, Gilbert B.
Associate Professor of Speech and Drama; B.A., Case Western Reserve University, 1956; Certification, Naval Intelligence School, 1958; M.A., University of Denver, 1961; appointed 1962.
†Davis, Henry A.
Associate Professor of Analytical Services; B.S., University of New Hampshire, 1932; M.S., ibid., 1934; appointed 1932.

Davis, James R.
Associate Professor of Psychology; B.A., Northern Illinois University, 1965; M.A., ibid., 1966; Ph.D., University of Wisconsin, 1969; appointed 1970.

Davis, Myra L.
Associate Professor of Secretarial Studies; B.S., Central Missouri State Teachers College, 1939; M.A., State University of Iowa, 1945; appointed 1945.

Davis, Richard S.
Dean of the College of Engineering and Physical Sciences and Professor of Materials Science; B.A., University of Toronto, 1951; M.A.Sc., ibid., 1952; Ph.D., ibid., 1954; appointed 1968.

Davis, Robert I.
Adjunct Professor of Geology; B.S., University of New Hampshire, 1947; M.S., University of Michigan, 1949; Ph.D., ibid., 1954; appointed 1975.

Dawson, Carl
Professor of English; A.B., Occidental College, 1959; M.A., Columbia University, 1960; Ph.D., ibid., 1966; appointed 1968.

Dawson, John F.
Associate Professor of Physics; B.S., Antioch College, 1958; Ph.D., Stanford University, 1962; appointed 1968.

Dean, Patricia
Assistant Professor of Nursing; A.A.S., S.U.N.Y., Upstate Medical Center, 1965; B.S., Boston University, 1967; M.S., ibid., 1970; C.A.G.S., Northeastern University, 1974; appointed 1974.

DePorte, Michael V.
Associate Professor of English; B.A., University of Minnesota, 1960; M.A., Stanford University, 1964, Ph.D., ibid., 1966; appointed 1972.

Desrosiers, Patricia
Lecturer in Speech and Drama; B.S., Southern Illinois University, 1971; M.S., ibid., 1972; appointed 1973.

Desrosiers, Richard V.
Assistant Professor of Classics; A.B., Boston College, 1960; A.M., University of Wisconsin, 1961; Ph.D., University of North Carolina, 1969; appointed 1965.

DeVoto, Mark B.

Dewey, Richard S.
Professor of Sociology; A.A., Pasadena Junior College, 1934; A.B., College of Wooster, 1936; M.A., Oberlin College, 1939; Ph.D., University of Wisconsin, 1946; appointed 1958.

Diamonti, Michael C.
Assistant Professor of Education; B.A., Seton Hall University, 1967; M.Ed., Rutgers University, 1970; Ph.D., University of Wisconsin, 1974; appointed 1973.

Dickman, C. Meigs
Assistant Professor of Nursing. Diploma, Greenwich Hospital School of Nursing, 1965; B.S.N., University of Cincinnati, 1967, M.S.N., Boston University, 1972; appointed 1972.

Diefendorf, Jeffrey M.
Assistant Professor of History; A.B., Stanford University, 1967; M.A., University of California at Berkeley, 1968; Ph.D., ibid., 1975; appointed 1976.

Diller, Ann L.

Diller, Karl C.

D'Sanzeno, Anthony
Lecturer in Italian; B.A., University of Massachusetts, 1970; M.A., Harvard University, 1972; appointed 1974.

Dishman, Robert B.
Professor of Political Science; A.B., University of Missouri, 1939; A.M., ibid., 1940; Ph.D., Princeton University, 1948; appointed 1951.

Dodd, John A.
Thompson School Associate Professor of Applied Animal Science; B.S., University of Vermont, 1936; M.Agr.Ed., University of New Hampshire, 1960; appointed 1953.

Dodge, Peter
Associate Professor of Sociology; B.A., Swarthmore College, 1948; A.M., Harvard University, 1950; Ph.D., ibid., 1961, appointed 1964.

Downs, Richard E.
Associate Professor of Anthropology; S.B., Harvard University, 1942; Cert. of Ethn., University of Paris, 1949; Ph.D., University of Leiden, 1956; appointed 1962.

Draves, David D.
Associate Professor of Education; B.A., University of Wisconsin, 1948; M.A., ibid., 1949; Ph.D., ibid., 1957; appointed 1964.

Drew, William H.
Associate Dean of the Graduate School and Professor of Resource Economics; B.S., Pennsylvania State College, 1947; M.S., Rutgers University, 1949; Ph.D., Vanderbilt University, 1961; appointed 1956.

Drysdale, Alasdair D.

†Dunlop, William R.
Professor of Animal Science; D.V.M., V.S., Ontario Veterinary College, 1938; appointed 1950.

†Dunn, Gerald M.
Professor of Plant Science; B.S., West Virginia University, 1948; M.S., Purdue University, 1950; Ph.D., ibid., 1951, appointed 1951.

Durgin, Owen B.
Professor of Resource Economics; B.S.Ed., Gorham State Teachers College, 1946, M.A., University of New Hampshire, 1951; appointed 1951.
Durnall, Edward J.
Director of the Division of Continuing Education and Associate Professor of Education; B.S., Hofstra University, 1947; M.A., Colorado College, 1948; Ed.M., Harvard University, 1952; Ed.D., Oregon State University, 1953; appointed 1966.

Durrell, Donald D.
Adjunct Professor of Education; A.B., University of Iowa, 1926; Ed.M., Harvard University, 1929; Ed.D., ibid., 1930; L.H.D. (Hon.), Boston University, 1969; appointed 1973.

Dusek, R. Valentine
Assistant Professor of Philosophy; B.A., Yale University, 1963; Ph.D., University of Texas, 1972; appointed 1966.

Dussault, Marjorie B.
Assistant Professor of Occupational Therapy; B.Ed., University of Toledo, 1961; B.S., Ohio State University, 1965; M.Ed., Ohio University, 1970, appointed 1971.

Eder, Sidney C.
Assistant Professor of Education; B.A., University of California at Los Angeles, 1957; M.Ed., University of Arizona, 1961; Ph.D., Arizona State University, 1971; appointed 1971.

Edwards, John C.
Director of Theater and Associate Professor of Speech and Drama; B.S., Northwestern University, 1950; M.A., ibid., 1952; Ph.D., ibid., 1963; appointed 1961.

Edwards, Ruth S.
Assistant Professor of Music; B.M., Northwestern University, 1949; M.M., ibid., 1950; appointed 1966.

Ellis, David W.
Vice Provost for Academic Affairs and Associate Professor of Chemistry; A.B., Haverford College, 1958; Ph.D., Massachusetts Institute of Technology, 1962, appointed 1962.

Elmer, Joseph O.

Emery, Harvard B.
Assistant Professor of Graphics; Cert in M.E., Lowell Institute, 1938, appointed 1954.

Engaliech, Nicolas
Professor of Resource Economics and Extension Economist, Marketing (Forest Products); B.S., S.U.N.Y., College of Forestry, Syracuse University, 1957; M.S., ibid., 1960; appointed 1963.

England, Richard W.
Assistant Professor of Economics; B.A., Oakland University, 1965; Ph.D., University of Michigan, 1974, appointed 1976.

Erickson, Raymond L.
Dean of the Graduate School, Director of Research, and Professor of Psychology; B.A., S.U.N.Y. at Buffalo, 1951; M.A., University of California at Los Angeles, 1954, Ph.D., ibid., 1962; appointed 1963.

†Estes, George O.
Associate Professor of Plant Science; B.S., University of Maine, 1958; M.S., ibid., 1960; Ph.D., Oregon State University, 1969; appointed 1969.

Evans, Helen E.
Lecturer in Spanish; B.A., Ohio Wesleyan University, 1974; M.A., Middlebury College, 1975, appointed 1976.

Fairchild, Thomas P.
Associate Professor of Animal Science and Extension Dairymen; B.S., University of New Hampshire, 1959; M.S., University of Wisconsin, 1961; Ph.D., ibid., 1964, appointed 1969.

Fan, Stephen S.T.
Professor of Chemical Engineering; B.S., Stanford University, 1957; M.S., ibid., 1960; Ph.D., ibid., 1962, appointed 1962.

Farag, Ibah H.
Assistant Professor of Chemical Engineering; B.S., Cairo University, Egypt, 1967; M.S., Massachusetts Institute of Technology, 1970; Sc.D., ibid., 1976; appointed 1976.

Faxon, Susan C.
Adjunct Assistant Professor of The Arts; B.A., Smith College, 1967; M.S., Columbia University, 1975; appointed 1975.

Federer, C. Anthony
Adjunct Associate Professor of Micrometeorology; B.S., University of Massachusetts, 1959; M.S., University of Wisconsin, 1962; Ph.D., ibid., 1964; appointed 1970.

Fernald, Peter S.
Associate Professor of Psychology; A.B., Amherst College, 1958; M.S., Springfield College, 1959; Ph.D., Purdue University, 1963, appointed 1966.

Fink, Stephen L.
Professor of Organizational Behavior, Associate Dean of the Whittmore School of Business and Economics; B.S., Union College, 1954; Ph.D., Case Western Reserve University, 1959, appointed 1969.

Fisher, Lester A.
Assistant Professor of English; B.A., University of Maine, 1966; M.A., University of New Hampshire, 1970; Ph.D., Brown University, 1976, appointed 1968.

†Fisher, G. Thomas
Associate Professor of Entomology and Extension Entomologist; B.S., Iowa State University, 1950; M.S., Rutgers University, 1952; Ph.D., ibid., 1954, appointed 1969.

Fitzpatrick, Evelyn P.

Fogg, Margarette F.
Associate Professor of Nursing; Diploma, Margaret Pillsbury Hospital School, 1940; B.S., Boston College, 1957; M.S., ibid., 1960; appointed 1967.

Fogg, Miriam Kay
Adjunct Lecturer in Medical Technology; B.S., University of Vermont, 1967; M.T., (ASCP), 1967, appointed 1972.

Folino, Anthony C.
Assistant Football Coach and Lecturer in Physical Education; B.S., Villanova University, 1971; M.A., Ohio State University, 1975; appointed 1976.

Forbes, F. William
Associate Professor of Spanish; A.B., Stanford University, 1965; M.A., University of Arizona, 1967; Ph.D., ibid., 1971, appointed 1970.

Ford, Joseph P.
Foret, John E.

Forsyth, G. Alfred
Associate Professor of Psychology; B.A., Dickinson College, 1961; M.S., North Carolina State University, 1963; Ph.D., Purdue University, 1967; appointed 1967.

Fort, Marron C.
Associate Professor of German; A.B., Princeton University, 1961; Ph.D., University of Pennsylvania, 1965; appointed 1969.

†Foster, Bennett B.
Professor of Forest Resources; B.S.F., Colorado State University, 1952; M.F., Oregon State University, 1957; Ph.D., Duke University, 1966; appointed 1969.

Francq, Edward N.
Assistant Professor of Zoology; B.S., University of Maryland, 1956; M.S., University of Idaho, 1962; Ph.D., Pennsylvania State University, 1967; appointed 1965.

French, E. Elizabeth
Adjunct Assistant Professor of Medical Technology; A.B., Skidmore College, 1943; M.T. (ASCP), Mary Hitchcock Memorial Hospital School of Med. Tech., 1944; M.D.C.M., McGill University Faculty of Medicine, 1950; appointed 1972.

Frick, George E.
Adjunct Professor of Resource Economics; B.S., University of Connecticut, 1943; M.S., ibid., 1947; appointed 1957.

Friel, Gerald J.
Head Basketball Coach and Lecturer in Physical Education; B.S., State University College, New York, 1966; appointed 1969.

Frost, Albert D.
Professor of Electrical Engineering; B.S., Tufts College, 1945; A.M. Harvard University, 1947; Sc.D., Massachusetts Institute of Technology, 1952; appointed 1957.

Gadon, Herman
Professor of Administration; A.B., Dartmouth College, 1947; Ph.D., Massachusetts Institute of Technology, 1957; appointed 1964.

Gaiser, Bernard W., Jr.
Extension Horse Specialist and Lecturer in Animal Sciences; B.S., University of Connecticut, 1970; M.S., ibid., 1973; appointed 1976.

Garrett, Peter W.
Adjunct Assistant Professor of Forest Genetics; B.S., Michigan State University, 1958; M.S., University of Michigan, 1962; Ph.D., ibid., 1969; appointed 1970.

Gaudelette, Henri E.
Associate Professor of Geology; B.A., University of New Hampshire, 1959; M.S., University of Illinois, 1962; Ph.D., ibid., 1963; appointed 1965.

Geeslin, William E.
Assistant Professor of Mathematics; B.A., University of Texas at Austin, 1967; M.S., Stanford University, 1970; Ph.D., ibid., 1973; appointed 1972.

Geoffrin, Leo D.
Assistant Professor of Education; B.S., Massachusetts Institute of Technology, 1969; M.S., ibid., 1971; Ph.D., Johns Hopkins University, 1975; appointed 1975.

Gerhard, Glen C.
Associate Professor of Electrical Engineering: B.E.E., Syracuse University, 1956; M.Sc., Ohio State University, 1958; Ph.D., ibid., 1963; appointed 1967.

Gilman, Paul A.
Thompson School Professor of Civil Technology; B.S., University of Vermont, 1938; M.S., Pennsylvania State University, 1951; appointed 1945.

Gilmore, Robert C.
Associate Professor of History; A.B., University of Vermont, 1944; M.A., McGill University, 1947; M.A., Yale University, 1951; Ph.D., ibid., 1954; appointed 1952.

Glanz, Filson H.
Associate Professor of Electrical Engineering; B.S., Stanford University, 1956; M.S., ibid., 1957; Ph.D., ibid., 1965; appointed 1965.

Goffe, Lewis C.
Associate Professor of English; B.S., University of New Hampshire, 1935; M.A., ibid., 1946; Ph.D., Boston University, 1961; appointed 1946.

Goldin, Susan E.
Lecturer and Coordinator of Theater Resources for Youth, Theater and Communication Department; B.A., Syracuse University, 1966; M.S. State University of N.Y. at Albany, 1968; appointed 1970.

Gordon, Bernard K.
Professor of Political Science; B.A., New York University, 1953; A.M., ibid., 1955; Ph.D., University of Chicago, 1959; appointed 1971.

Grant, Clarence L.
Professor of Chemistry; Associate Director, Center for Industrial and Institutional Development; B.S., University of New Hampshire, 1951; M.S., ibid., 1956; Ph.D., Rutgers University, 1960; appointed 1952-58, 1961.

Graves, Donald H.

†Green, D. MacDonald
Professor of Biochemistry; A.B., Oberlin College, 1954; Ph.D., University of Rochester, 1958; appointed 1967.

Greenleaf, Robert D.
Assistant Professor of Recreation and Parks; B.S., University of Maine, 1951; M.S., ibid., 1963; appointed 1975.

Gress, David L.
Assistant Professor of Civil Engineering; B.S., Purdue University, 1966; M.S., ibid., 1968; Ph.D., ibid., 1976; appointed 1974.

Griswold, Alan
Associate Professor of Music; B.S., Mannes College of Music, 1965; M.A., New York University, 1967; appointed 1967.

Grossman, Lois S.
Assistant Professor of Spanish; A.B., Temple University, 1965; M.A., ibid., 1967; Ph.D., Rutgers University, 1972; appointed 1972.

Gryde, Carol J.
Assistant Professor of Occupational Therapy; B.S., San Jose State University, 1963; M.A., Columbia University, 1975; appointed 1976.
Haenler, Helmut M.
Professor of Chemistry; B.S., Northeastern University, 1935; Ph.D., University of Washington, 1940; appointed 1945.

Hageman, Elizabeth
Assistant Professor of English; B.S., Simmons College, 1963; M.A., Columbia University, 1964; Ph.D., University of North Carolina, 1971; appointed 1971.

Hagstrom, Earl C.
Associate Professor of Psychology; B.S., Tufts University, 1952; Sc.M., Brown University, 1954; Ph.D., Stanford University, 1961; appointed 1964.

Haley, Russell
Associate Professor of Administration; A.B., College of Wooster, 1946; M.B.A., Columbia College, 1948; Ph.D., Union Graduate School, 1974; appointed 1975.

Hammers, Francis R.
Professor of Hydrology; B.S., Stanford University, 1949; M.A., University of California at Los Angeles, 1953; Ph.D., Stanford University, 1961; appointed 1964.

Haney, James F.
Associate Professor of Zoology; A.B., Miami University, 1961; M.A., ibid., 1963; Ph.D., University of Toronto, 1970; appointed 1972.

Hansen, Florence
Instructor in Home Economics; B.S., Nason College, 1950; M.S., Columbia University, 1954; appointed 1976.

Hansen, Larry J.
Assistant Professor of Home Economics; B.S., Brigham Young University, 1968; M.S., ibid., 1971; Ph.D., Florida State University, 1973; appointed 1973.

Hapgood, Robert
Professor of English; B.A., University of California, 1950; M.A., ibid., 1951; Ph.D., ibid., 1955; appointed 1965.

Harrington, Barry J.
Assistant Professor of Physics; B.S., Providence College, 1970; M.S., ibid., 1970; A.M, Harvard University, 1975; Ph.D., ibid., 1975; appointed 1975.

Harrington, John J. (Colonel, U.S. Air Force)
Professor of Aerospace Studies; B.S., Boston College, 1953; M.S., Southern Illinois University, 1963; Ed.D., George Washington University, 1971; appointed 1975.

Harris, F. Conley
Associate Professor of The Arts; B.F.A., University of Kansas, 1965; M.F.A., University of Wisconsin, 1968; appointed 1970.

Harris, Larry G.
Associate Professor of Zoology; A.B., University of California, 1965; Ph.D., ibid., 1970; appointed 1969.

Hart, Reina P.

Harner, Robert D.
Associate Professor of Soil Chemistry; B.S., Ohio State University, 1961; M.S., ibid., 1962; Ph.D., Purdue University, 1966; appointed 1969.

Hatch, John W.
Professor of The Arts; Diploma, Massachusetts School of Art, 1941; B.F.A., Yale University School of the Fine Arts, 1948; M.F.A., ibid., 1949; appointed 1949.

Hazen, William C. (Lt. Colonel, U.S. Army)
Professor of Military Science; B.S., University of New Hampshire, 1958; M.S., Shippensburg State College, 1974; appointed 1976.

Hebert, David J.
 Associate Professor of Education; B.S., University of Maine, 1962; M.Ed., Duquesne University, 1964; Ph.D., Kent State University, 1967; appointed 1967.

Heckel, Maynard C.
Associate Dean of the College of Life Sciences and Agriculture; Director, Cooperative Extension Service; Dean, School of Continuing Studies; and Professor of Adult Education; B.S., Rutgers University, 1949; M.S., Cornell University, 1956; Ed.D., ibid., 1961; appointed 1971.

†Heidgerd, Lloyd H.
Associate Professor, Biology Branch Librarian; A.B., Oberlin College, 1941; M.A., Teachers College, Columbia University, 1948; Ed.D., University of Illinois, 1958; A.M.I.S., University of Michigan, 1943; appointed 1954.

Heilbronner, Hans
Professor of History; A.B., University of Michigan, 1949; A.M., ibid., 1950; Ph.D., ibid., 1954; appointed 1954.

Held, Warren H., Jr.
Professor of Classics; B.A., Princeton University, 1950; M.A., Yale University, 1952; Ph.D., ibid., 1955; appointed 1967.

Helies, Frank C., Jr.

†Henry, William C.
Professor of Resource Economics; B.S., Louisiana State University, 1940; M.S., University of Connecticut, 1942; appointed 1952.

Hepler, Elizabeth M.
Assistant Professor, Loan Librarian; A.B., University of Michigan, 1944; M.S., Southern Connecticut State College, 1968; appointed 1966.

†Herbst, Edward J.
Professor of Biochemistry; B.S., University of Wisconsin, 1942; M.S., ibid., 1944; Ph.D., ibid., 1949; appointed 1962.

Herold, Marc W.
Instructor in Economics; B.S., Swiss Federal Polytechnic University, 1967; M.B.A., University of California, 1970; appointed 1975.

Hess, Irvin T.
Coach of Wrestling and Assistant Professor of Physical Education; B.S., Slippery Rock State College, Pennsylvania, 1950; M.S., University of Massachusetts, 1966; appointed 1966.

Hettiger, Stanley D.
Assistant Professor of Music and Band Director; B.M., Ohio State University, 1955; M.M.E., VanderCook College, 1966; appointed 1965.

†Hill, John L.
Professor of Wood Science and Technology; B.S.F., Colorado State University, 1942; M.S.F., Yale University, 1947; D.F., ibid., 1954; appointed 1964.

Hochgraf, Frederick G.
Associate Professor of Materials Science; B.Met.E., Rensselaer Polytechnic Institute, 1954; M.S., Cornell University, 1958; appointed 1958.
†Hocker, Harold W., Jr.
Professor of Forest Resources; B.S.F., Pennsylvania State College, 1949; M.F., North Carolina State College, 1952; D.F., Duke University, 1955; appointed 1955.

Hoff, Phyllis
Associate Professor of Physical Education; B.S., University of Texas, 1957; M.S., Smith College, 1960; Ph.D., University of Southern California, 1967; appointed 1967.

Holder, Mary E.
Associate Professor of Home Economics; Teaching Diploma, Nova Scotia Provincial Normal College, 1935; B.S., Mount Allison University, 1939; M.S., Michigan State University, 1949; appointed 1967.

Holt, Charles E., Jr.
Coach of Hockey and Golf, and Lecturer in Physical Education; B.A., Dartmouth College, 1946; appointed 1968.

†Holter, James B.
Associate Professor of Animal Science; B.S., Pennsylvania State University, 1956; M.S., University of Maryland, 1958; Ph.D., Pennsylvania State University, 1962; appointed 1963.

Hoornbeek, Frank K.
Associate Professor of Zoology; B.S., Oregon State College, 1952; M.S., Oregon State University, 1962; Ph.D., ibid., 1964; appointed 1964.

Horrigan, James O.
Professor of Business Administration; B.S.C., University of Notre Dame, 1952; M.B.A., University of Chicago, 1956; Ph.D., ibid., 1967; appointed 1966.

Hosek, William R.
Professor of Economics; B.A., University of California at Santa Barbara, 1964; Ph.D., ibid., 1967; appointed 1967

Houston, Robert E., Jr.
Professor of Physics; B.S., Michigan State University, 1949; M.S., ibid., 1951; Ph.D., Pennsylvania State University, 1957; appointed 1957.

Howard, Cleveland L.
Associate Professor of Music; B.Mus., Boston University, 1953; M.M., ibid., 1954; D.M.A., ibid., 1969; appointed 1969.

Howarth, Charles H.
Medical Director of the University Health Service; B.S., Bates College, 1943; M.D., Tufts Medical School, 1946; appointed 1955.

Howes, Paul B.

Hoyle, Merrill C.
Adjunct Assistant Professor of Plant Science; B.S., University of Massachusetts, 1957; M.S., ibid., 1961; Ph.D., University of New Hampshire, 1971; appointed 1972.

Hraba, John B.
Director, System Planning and Analysis and Professor of Electrical Engineering; B.S., University of New Hampshire, 1948; M.Eng., Yale University, 1949; Ph.D., University of Illinois, 1955; appointed 1949.

Hubbard, Colin D.
Associate Professor of Chemistry; B.S., University of Sheffield, 1961; Ph.D., ibid., 1964, appointed 1966.

Hubbard, Sarah
Assistant Professor of Nursing and Project Director EBORON; Diploma, Rochester General Hospital School of Nursing, 1958; B.S., Syracuse University, 1964; M.S., S.U.N.Y. at Buffalo, 1972; appointed 1974.

Hudson, Louis J.
Professor of French; A.B., Bowdoin College, 1938; M.A., Yale University, 1942; Ph.D., ibid., 1943; appointed 1961.

Hull, John J.
Assistant Professor, Assistant Acquisitions Librarian; B.A., University of New Hampshire, 1947; M.Ed., ibid., 1967; M.S. Simmons College, 1975; appointed 1967.

Hume, Gary
Assistant Professor of Anthropology; B.A., University of Minnesota, 1962; Ph.D., ibid., 1972; appointed 1976.

Hurd, Richard W.
Assistant Professor of Economics; B.A., Florida State University, 1968; Ph.D., Vanderbilt University, 1972; appointed 1973.

†Hylton, Walter E.
Assistant Professor of Animal Science; B.S., Virginia Polytechnic Institute, 1966; V.M.D., University of Pennsylvania, 1970; appointed 1976.

Iandoli, Louis
Lecturer in French; B.S., Georgetown University, 1970; M.Ph., Yale University, 1973; appointed 1975.

†Ikawa, Miyoshi
Professor of Biochemistry; B.S., California Institute of Technology, 1941; M.S., University of Wisconsin, 1944; Ph.D., ibid., 1948; appointed 1963.

Irwin, Manley R.

Jacoby, Robb
Professor of Mathematics; S.B., University of Chicago, 1941; S.M., ibid., 1942; Ph.D., ibid., 1946; appointed 1961.

James, Marion E.
Associate Professor of History; A.B., University of New Hampshire, 1940; A.M. Harvard University, 1949; Ph.D., ibid., 1955; appointed 1955.

†Jansen, Edmund F., Jr.
Associate Professor of Resource Economics; B.S., University of Illinois, 1960; M.S., North Carolina State University, 1964; Ph.D., ibid., 1966; appointed 1969.

Jellison, Charles A., Jr.
Professor of History; A.B., Stanford University, 1947; M.A., ibid., 1948; Ph.D., University of Virginia, 1956; appointed 1956.

Jenkins, Melvin E., Jr.
Thompson School Associate Professor of Forest Technology; B.S.F., University of Massachusetts, 1959; M.S.F., University of New Hampshire, 1961; appointed 1961.

Jenkins, Patricia S.
Jenks, R. Stephen
Associate Professor of Organizational Behavior; B.A., College of Wooster, 1961; M.S., Case Western Reserve University, 1963; Ph.D., ibid., 1966; appointed 1967.

Jensen, Kenneth G.
Assistant Professor of Botany; B.A., University of Northern Iowa, 1958; M.S., University of Iowa, 1970; Ph.D., ibid., 1974; appointed 1976.

Johnson, Richard E.
Professor of Mathematics; B.A., Intermountain Union College, 1934; M.A., University of Washington, 1938; Ph.D., University of Wisconsin, 1941; appointed 1966.

Jones, Daniel W., Jr.
Assistant Professor of Physical Education; B.A., Fairmont State College, 1967; M.A., Case Western Reserve University, 1970; appointed 1973.

Jones, Galen E.
Professor of Microbiology; B.A., Dartmouth College, 1950; M.A., Williams College, 1952; Ph.D., Rutgers University, 1956; appointed 1966.

Jones, Paul R.
Professor of Chemistry; B.A., Albion College, 1952; Ph.D., University of Illinois, 1956; appointed 1956.

Jones, William R.
Professor of History; A.B., Harvard University, 1951; M.A., ibid., 1952; Ph.D., ibid., 1958; appointed 1962.

Jordan, Virginia
Lecturer in Home Economics; B.S., University of Arizona, 1946; M.S., University of Pennsylvania, 1949; Ph.D., University of Maine, 1973; appointed 1976.

Josefowitz, Natasha
Lecturer in Organizational Behavior; B.A., Scripps College, 1948; M.S.W., Columbia University, 1965; Doct., Lousanne University, 1974; appointed 1974.

Kaen, Fred R.
Associate Professor of Finance; B.S., Lehigh University, 1963; M.B.A., University of Michigan, 1968; Ph.D., ibid., 1972; appointed 1973.

Kapoor, Jagdish C.
Assistant Professor; Monographs Order Librarian; B.A., Punjab University, 1946; M.A., ibid., 1954; M.A., University of New Hampshire, 1969; M.S., Simmons College, 1974; appointed 1975.

Kaufmann, Richard L.
Professor of Physics; B.S., California Institute of Technology, 1957; M.S., Yale University, 1958; Ph.D., ibid., 1960; appointed 1963.

Kayser, John R.
Associate Professor of Political Science; B.A., University of New Hampshire, 1962; M.A., Ohio State University, 1964; Ph.D., Claremont Graduate School and University Center, 1969; appointed 1969.

Keener, Harry A.
Dean of the College of Life Sciences and Agriculture, Director of the Agricultural Experiment Station, and Professor of Animal Science; B.S., Pennsylvania State University, 1936; M.S., West Virginia University, 1938; Ph.D., Pennsylvania State University, 1941; appointed 1941.

Keesey, C. Robert
Executive Assistant to the President; B.A., Oberlin College, 1948; appointed 1960.

Kelley, B. Ann
Associate Professor of Nursing; Diploma, Peter Bent Brigham Hospital, 1955; B.S., Boston University, 1959; M.S., ibid., 1966; appointed 1965.

Kennedy, Robert C.
Thompson School Professor of Applied Plant Science; B.V.A., University of Massachusetts, 1940; M.S., University of New Hampshire, 1961; appointed 1941.

Kertzer, Robert
Associate Professor of Physical Education; B.S., Brooklyn College, 1960; M.S., University of Illinois, 1961; Ph.D., Michigan State University, 1965; appointed 1965.

Khleif, Bud B.
Associate Professor of Sociology and Education; Intermediate Certificate, British Government Arab College, Jerusalem, 1948; B.A., Hebrew University, 1952; M.A., University of Michigan, 1954; Ph.D., Johns Hopkins University, 1957; appointed 1967.

†Kiang, Yun Tzu
Associate Professor of Plant Science and Genetics; B.S., Taiwan Normal University, 1957; M.A., Ohio State University, 1962; Ph.D., University of California, 1970; appointed 1970.

Kidder, William

Kimball, Robert O.
Associate Professor of Mathematics; B.S., University of New Hampshire, 1941; M.A., ibid., 1945; appointed 1946.

Kimball, Roland B.

†Kinerson, Russell S.
Assistant Professor of Botany; B.S., University of Maine, 1965; M.S., University of Vermont, 1967; Ph.D., University of Washington, 1971; appointed 1973.

Kingsbury, John M.
Adjunct Professor of Botany; B.S., University of Massachusetts, 1950; A.M., ibid., 1952; Ph.D., Harvard University, 1954; appointed 1976.

†Klippenstein, Gerald L.
Associate Professor of Biochemistry; B.S., Wheaton College, 1962; Ph.D., Northwestern University, 1967; appointed 1967.

Klotz, Louis H.
Associate Professor of Civil Engineering; B.S.C.E., Pennsylvania State University, 1951; M.S.C.E., New York University, 1956; Ph.D., Rutgers University, 1967; appointed 1965.

†Koch, David W.
Assistant Professor of Plant Science; B.S., Kansas State University, 1964; M.S., ibid., 1966; Ph.D., Colorado State University, 1971; appointed 1971.

Kolodny, Annette
Assistant Professor of English; B.A., Brooklyn College, 1962; M.A., University of California, Berkeley, 1965; Ph.D., ibid., 1969; appointed 1974.
Komonchak, Bemadette
Assistant Professor of Spanish; B.S., S.U.N.Y., at Plattsburgh, 1954; M.A., University of Arizona, 1967; Ph.D., ibid., 1974; appointed 1976.

Korbel, John

Kuo, Shan S.
Professor of Computer Science; B.S., National Chung Chen University, 1944; M.S., Ohio State University, 1948; M.E., Harvard University, 1954; D. Eng., Yale University, 1958; appointed 1964.

LaCroix, Karol
Assistant Professor of Medical Technology; Dipl., Mary Hitchcock Memorial Hospital, 1967; B.S., University of New Hampshire, 1967; M.Ed., ibid., 1975; appointed 1972.

Ladd, Dwight R.
Professor of Business Administration; A.B., Brown University, 1943; M.B.A., Harvard University, 1949; D.B.A., ibid., 1956; appointed 1964.

LaGassa, George

Lambert, Deborah

Lambert, Robert H.
Professor of Physics; B.S., St. Lawrence University, 1952; M.A., Harvard University, 1954; Ph.D., ibid., 1963; appointed 1955-56, 1961.

Landry, John Edward
Assistant Professor of Biology, Merrimack Valley Branch; B.S., University of Connecticut, 1961; Ph.D., ibid., 1970; appointed 1972.

Lantz, Elizabeth J.

LaPage, Wilbur F.
Adjunct Assistant Professor of Recreation and Parks; B.S., University of New Hampshire, 1960; M.S., ibid., 1962; appointed 1973.

Larson, Barbara K.
Assistant Professor of Anthropology; B.A., Stanford University, 1962; M.A., Harvard University, 1964; Ph.D., Columbia University, 1975; appointed 1976.

Larson, David L.
Associate Professor of Political Science; A.B., Dartmouth College, 1952; A.M., Fletcher School, Tufts University, 1957; M.A.L.D., ibid., 1958; Ph.D. ibid., 1963; appointed 1965.

Larson, Mary T.

Laurent, John L.
Professor of The Arts; B.F.A., Syracuse University, 1948; M.A.T., Indiana University, 1954; appointed 1954.

Lavie, Marcel E.
Associate Professor of Zoology; B.A., St. Anselm's College, 1940; M.S., University of New Hampshire, 1952; Ph.D., Syracuse University, 1956; appointed 1950-52, 1955.

Leahy, John A., Jr.
Thompson School Assistant Professor of Applied Plant Science; B.S., University of New Hampshire, 1947; M.S., ibid., 1971; appointed 1966.

Leak, William B.
Adjunct Associate Professor of Forest Resources; B.S., S.U.N.Y., College of Forestry, Syracuse University, 1953; M.F., ibid., 1956; appointed 1967.

Leary, David E.
Assistant Professor of Psychology; B.A., San Luis Rey College, 1968; M.A., San Jose State College, 1971; appointed 1976.

LeBlanc, Robert G.
Associate Professor of Geography; B.A., University of New Hampshire, 1959; M.A., University of Minnesota, 1962; Ph.D. ibid., 1968; appointed 1963.

Leighton, Charles H.
Professor of Spanish; A.B., Harvard College, 1951; A.M., Harvard University, 1953; Ph.D., ibid., 1961; appointed 1956.

Adjunct Professor of Resource Economics; B.S., Louisiana State University, 1952; M.A., ibid., 1953; Ed.D., Cornell University, 1965; appointed 1966.

Leslie, Joseph C.

Levinson, Frederic S.
Lecturer in Russian; B.A., Boston University, 1969; M.A., Harvard University, 1971; appointed 1976.

Lewis, Frederick C.
Assistant Professor of Communication Disorders; B.S., Southern Connecticut State College, 1963; M.S., ibid., 1967; Ph.D., Ohio University, 1970; appointed 1976.

Limber, John E.
Assistant Professor of Psychology; B.S., University of Illinois, Urbana, 1962; Ph.D., ibid., 1969; appointed 1971.

Limbert, David E.
Associate Professor of Mechanical Engineering; B.S., Iowa State University, 1964; M.S., Case Western Reserve University, 1965; Ph.D., ibid., 1969; appointed 1969.

Lind, E. Allan
Assistant Professor of Psychology; B.A., University of Florida, 1970; M.A., University of North Carolina, 1973; Ph.D., ibid., 1974; appointed 1975.

Lindberg, Gary H.
Associate Professor of English; B.A., Harvard University, 1963; M.A., Stanford University, 1966; Ph.D., ibid., 1967; appointed 1974.

Linden, Allen B.
Associate Professor of History; B.A., Wayne State University, 1957; M.A., Columbia University, 1960; Ph.D., ibid., 1969; appointed 1963.
†Lindsey, Bruce E.
Assistant Professor of Resource Economics; B.A., King's College, 1971; M.S., University of Massachusetts, 1973; Ph.D., ibid., 1976; appointed 1976.

†Lindsey, Frederick G.
Assistant Professor of Wildlife Ecology; B.S., Texas A&M University, 1968; M.S., Utah State University, 1971; Ph.D., Oregon State University, 1976; appointed 1976.

Linsky, Arnold S.
Associate Professor of Sociology; A.B., Dartmouth College, 1954; M.A., University of Washington, 1963; Ph.D., ibid., 1966; appointed 1966.

Littlefield, Karen A.
Assistant Professor, Catalog Librarian; B.A., University of New Hampshire, 1963; M.S., Simmons College, 1965; M.A., University of New Hampshire, 1971; appointed 1964.

Livingston, Debra J.
Instructor in Nursing and Project Coordinator, EBORN, B.S., S.U.N.Y. at Plattsburgh, 1964; M.S., University of Colorado, 1975; appointed 1975.

Lockwood, John A.
Professor of Physics and Associate Director of Research; A.B., Dartmouth College, Thayer School of Engineering, 1941; M.S., Lafayette College, 1943; Ph.D., Yale University, 1948; appointed 1948.

Loder, Theodore C., III
Assistant Professor of Earth Sciences; B.A., University of Rochester, 1962; M.S., Lehigh University, 1965; Ph.D., University of Alaska, 1971; appointed 1972.

Logan, Terence P.
Associate Professor of English; A.B., Boston College, 1959; M.A., University of Wisconsin, 1961; Ph.D., Harvard University, 1966; appointed 1968.

Long, David F.
Professor of History; A.B., Dartmouth College, 1939; A.M., Columbia University, 1948; Ph.D., ibid., 1950; appointed 1948.

†Loy, James B.
Associate Professor of Plant Science; B.S., Oklahoma State University, 1963; M.S., Colorado State University, 1965; Ph.D., ibid., 1967; appointed 1967.

Lubow, Neil B.
Assistant Professor of Philosophy; A.B., Cornell University, 1966; C.Phil., University of California, Los Angeles, 1973; Ph.D., ibid., 1974; appointed 1974.

Lumsden, Abigail R.
Lecturer in Zoology; B.S., University of Maine, 1968; M.S., ibid., 1974; appointed 1974.

Lutcavage, Charles P.
Assistant Professor of German; B.A., LaSalle College, 1970; M.A., Harvard University, 1974; Ph.D., ibid., 1976; appointed 1976.

†MacHardy, William E.
Assistant Professor of Plant Pathology and Extension Plant Pathologist; B.S., University of Maine, 1958; M.Ed., ibid., 1965; M.S., University of Nebraska, Omaha, 1966; Ph.D., University of Rhode Island, 1970; appointed 1972.

Magidson, David J.
Associate Professor of Speech and Drama; B.S., University of Wisconsin, 1963; M.S., ibid., 1965; Ph.D., University of Utah, 1969; appointed 1972.

Marquay, Gertrude Martha
Adjunct Lecturer in Medical Technology; B.A., University of New Hampshire, 1953; M.T. (ASCP), 1953; appointed 1972.

marshall, Grover E.
Assistant Professor of French and Italian; A.B., Bowdoin College, 1951; M.A., Princeton University, 1954; Ph.D., ibid., 1971; appointed 1965.

Mason, Arthur H.
Adjunct Assistant Professor of Entomology and State Entomologist; A.B., University of Maine, 1957; M.S., University of Delaware, 1962; appointed 1974.

Mathieson, Arthur C.
Professor of Botany and Director of the Jackson Estuarine Laboratory; B.A., University of California, 1960; M.A., ibid., 1961; Ph.D., University of British Columbia, 1965; appointed 1965.

Mathur, Virendra K.
Assistant Professor of Chemical Engineering; B.S., Agra University, India, 1949; B.S., Banaras Hindu University, 1953; M.S., University of Missouri, 1961; Ph.D., ibid., 1970; appointed 1974.

†Mautz, William W.
Associate Professor of Wildlife Ecology; B.S., Wisconsin State University, 1965; M.S., Michigan State University, 1967; Ph.D., ibid., 1969; appointed 1969.

Mayewski, Paul A.
Assistant Professor of Earth Science; B.A., S.U.N.Y. at Buffalo, 1968; Ph.D., Ohio State University, 1973; appointed 1974.

McCan, Francis D., Jr.
Associate Professor of History; A.B., Niagara University, 1960; M.A., Kent State University, 1962; Ph.D., Indiana University, 1967; appointed 1971.

McConnell, Michael
Assistant Professor of The Arts; B.F.A., Ohio University, 1970; M.F.A., ibid., 1974; appointed 1976.

McDonald, Lawrence
Instructor in English, Merrimack Valley Branch; B.A., Franconia College, 1973; appointed 1976.

Meeker, Loren David
Associate Professor of Mathematics; B.A., Oregon State University, 1959; B.S., ibid., 1959; M.S., Stanford University, 1962; Ph.D., ibid., 1965; M.Sc., University of Aston, England, 1969; appointed 1970.

Melvin, Donald W.
Associate Professor of Electrical Engineering; B.S., University of New Hampshire, 1955; M.E., Yale University, 1957; Ph.D., Syracuse University, 1971; appointed 1957.

Menge, Carleton P.
Professor of Education; B.S., Springfield College, 1939; A.M., University of Chicago, 1940; Ph.D., ibid., 1948; appointed 1948.

Mennel, Robert M.
Associate Professor of History; B.A., Denison University, 1960; M.A., Ohio State University, 1965; Ph.D., ibid., 1969; appointed 1969.

Merritt, Richard D.
Associate Professor of The Arts; Certificate, Rochester Institute of Technology, 1948; appointed 1948.
Merton, Andrew H.
Assistant Professor of English; B.A., University of New Hampshire, 1967; appointed 1972.

Messier, Victor R.
Associate Professor of Home Economics; B.P.E., University of Alberta, 1962; M.S., ibid., 1965; Ph.D., Pennsylvania State University, 1973; appointed 1970.

Metcalf, Theodore G.
Professor of Microbiology; B.S., Massachusetts College of Pharmacy, 1940; Ph.D., University of Kansas, 1950; appointed 1956.

Miaoulis, George
Assistant Professor of Marketing; B.S., New York University, 1965; M.B.A., ibid., 1969; Ph.D., ibid., 1973; appointed 1973.

Michael, Janet E.
Instructor in Nursing; B.S., University of Maine, 1973; M.S., Boston University, 1976; appointed 1976.

Michaels, Donald M.
Assistant Professor of Health Studies; B.A., Rockford College, 1970; M.S.W., Florida State University, 1974; Ph.D., University of Iowa, 1976; appointed 1976.

Miller, Edmund G.
Professor of English; A.B., Dartmouth College, 1943; M.A., Columbia University, 1947; Ph.D., ibid., 1955; appointed 1951.

Mills, B. Joyce
Assistant Professor of Physical Education; B.S., Georgia State College for Women, 1949; M.S., University of Tennessee, 1958; appointed 1967.

Mills, Eugene S.
President and Professor of Psychology; A.B., Earlham College, 1948; M.A., Claremont Graduate School, 1949; Ph.D., ibid., 1952; appointed 1962.

Mills, Richard L.
Associate Professor of Economics and Business Administration; B.S., Rose Polytechnic Institute, 1962; M.A., Indiana University, 1964; Ph.D., ibid., 1967; appointed 1967.

†Minocha, Subhash C.
Assistant Professor of Botany; B.S.C., Panjab University, 1968; M.S.C., ibid., 1969; Ph.D., University of Washington, 1974; appointed 1974.

Mitchell, James R.
Associate Professor of Plant Science and Extension Agronomist, Forage Crops; B.S., University of New Hampshire, 1957; M.S., Pennsylvania State University, 1960; Ph.D., ibid., 1969; appointed 1963.

Mooradian, Andrew T.
Director, Department of Men's Intercollegiate Athletics, and Associate Professor of Physical Education; B.S., University of New Hampshire, 1948; M.S., Boston University, 1958; appointed 1950.

Moore, Asher
Donald C. Babcock Professor of Philosophy; A.B., Wesleyan University, 1940; M.A., Harvard University, 1942; Ph.D., ibid., 1948; appointed 1961.

Moore, Berrien, III
Associate Professor of Mathematics; B.S., University of North Carolina, 1963; Ph.D., University of Virginia, 1969; appointed 1969.

Moore, David W.
Associate Professor of Political Science; B.S., U.S. Military Academy, 1962; M.A., Ohio State University, 1969; Ph.D., ibid., 1970; appointed 1972.

Moore, Donald A.
Adjunct Professor, Whittemore School, Director, Center for Industrial and Institutional Development; B.S., Wayne State University, 1952; appointed 1969.

†Moore, Joseph J.

Morin, Robert R.
Assistant Professor, Catalog Librarian; B.A., University of New Hampshire, 1963; M.S., Simmons College, 1965; appointed 1965.

Morrisey, Douglas E.
Adjunct Professor of Resource Economics; B.S., Oklahoma State University, 1968; M.S., ibid., 1969; Ph.D., ibid., 1973; appointed 1972.

Morrison, James D.
Professor of Chemistry; B.S., Franklin and Marshall College, 1958; Ph.D., Northwestern University, 1963; appointed 1965.

Morse, Carl E. (Captain, U.S. Army)
Lecturer in Military Science; B.A., University of California at Berkeley, 1967; M.S., Texas Tech University, 1974; appointed 1974.

Mosberg, William
Associate Professor of Mechanical Engineering; B.S.M.E., Columbia University, 1956; M.Eng., Yale University, 1958; appointed 1958.

Mott, Basil J.F.
Dean, School of Health Studies, and Professor of Health Services Administration and Planning; A.B., Amherst College, 1949; M.P.A., John F. Kennedy School of Government, Harvard University, 1953; Ph.D., Harvard University, 1967; appointed 1973.

Mower, Lyman
Professor of Physics; B.S., University of California, 1949; Ph.D., Massachusetts Institute of Technology, 1953; appointed 1957.

Mulhern, John E., Jr.
Professor of Physics; B.S., Oklahoma Agricultural and Mechanical College, 1948; M.A., Boston University, 1949; Ph.D., ibid., 1954, appointed 1954.

Munroe, M. Evans
Professor of Mathematics; B.A., University of Texas, 1940; Sc.M., Brown University, 1941; Ph.D., ibid., 1945; appointed 1959.

Murdock, Joseph B.
Professor of Electrical Engineering; B.S., Case Institute of Technology, 1950; M.S., University of New Hampshire, 1955; Ph.D., Case Institute of Technology, 1962; appointed 1952.

Murray, Donald M.
Professor of English; B.A., University of New Hampshire, 1948; appointed 1963.

Murray, Frederick P.
Associate Professor of Communication Disorders; B.A., Stanford University, 1948; M.A., University of Southern California, 1950; Ph.D., Denver University, 1966; appointed 1966.
Nahin, Paul J.
Assistant Professor of Electrical Engineering;
B.S.E.E., Stanford University, 1962; M.S.E.E.,
California Institute of Technology, 1963; Ph.D.,
University of California, 1972; appointed 1975.

Neff, Thomas J.
Thompson School Instructor in Forest Technology; A.S., Paul Smith's College, 1967; B.S.,
University of New Hampshire, 1969; M.S., ibid.,
appointed 1976.

Nevin, John A.
Professor of Psychology; B.E., Yale University, 1954; M.A. Columbia University, 1961;
Ph.D., ibid., 1963; appointed 1972.

Newman, Jane E.
Dean of Students; B.A., Saint Joseph's College, 1967; M.Ed., Pennsylvania State University,
1969; appointed 1969.

Nicoloff, Philip L.
Professor of English; B.A., University of California at Los Angeles, 1949; M.A., Columbia University, 1952; Ph.D., ibid., 1959; appointed 1954.

Nielsen, Melville
Associate Dean of the College of Liberal Arts and Associate Professor of Sociology; B.S.,
Bowling Green State University, 1942; M.A.,
Ohio State University, 1947; Ph.D., ibid., 1955; appointed 1950.

Nordgren, Eric A.
Professor of Mathematics; B.Ch.E., Polytechnic Institute of Brooklyn, 1956; Ph.D., University of Michigan, 1964; appointed 1964.

O'Brien, Dennis J.
Assistant Professor of Civil Engineering; B.S.,
Rensselaer Polytechnic Institute, 1968; M.S.,
University of Maryland, 1970; Ph.D., ibid., 1974; appointed 1974.

O'Connell, Lawrence W.
Associate Professor of Political Science; B.A.,
University of New Hampshire, 1956; Ph.D.,
Syracuse University, 1968; appointed 1966.

O'Connor, J. David

Odell, Ralph Jr.

O'Donnell, Dorothy C.
Associate Professor of Home Economics and Extension Interior Design Specialist; B.S., Cor nell University, 1946; M.S., University of Wisconsin, 1952; M.S., ibid., 1955; appointed 1961.

Olsen, James H.
Associate Professor, Assistant to the Librarian; B.A., George Washington University, 1962;
M.L.S., University of Maryland, 1966; appointed 1970.

†Olson, David P.
Assistant Professor of Wildlife Ecology; and Director, Institute of Natural and Environmental Resources; B.S., University of Minnesota, 1954; M.S., University of Maine, 1958; Ph.D., University of Minnesota, 1964; appointed 1968.

Orkin, Eric B.
Assistant Professor of Hotel Administration; B.S., Cornell University, 1968; M.B.A., University of Pennsylvania, 1970; appointed 1972.

Ossenbruggen, Paul J.
Associate Professor of Civil Engineering; B.C.E., Syracuse University, 1963; M.S., University of Connecticut, 1967; Ph.D., Carnegie-Mellon University, 1970; appointed 1975.

Oudens, Norma

Owens, Charles W.
Associate Professor of Chemistry; B.S., Colorado College, 1957; Ph.D., University of Kansas, 1963; appointed 1963.

Palmer, Bruce
Instructor in Management, Merrimack Valley Branch; B.S., University of North Carolina, 1966; M.B.A., San Jose State University, 1968; appointed 1976.

Palmer, Stuart H.
Professor of Sociology; B.A., Yale College, 1949; M.A., Yale University, 1951; Ph.D., ibid., 1955; appointed 1955.

Patton, Robert
Adjunct Lecturer in Medical Technology, Mary Hitchcock Hospital; B.S., Temple University, 1972; appointed 1974.

Paul, Nicholas L.
Assistant Professor of Occupational Education; B.S., North Carolina State University, 1961; M.Ed., ibid., 1968; Ed.D., ibid., appointed 1973.
†Peirce, Lincoln C.
Professor of Plant Science; B.S., Cornell University, 1952; Ph.D., University of Minnesota, 1958; appointed 1964.

Peters, Dwight R.
Assistant Coach in Intercollegiate Athletics and Lecturer in Physical Education; B.S., University of New Hampshire, 1972; appointed 1972.

Peters, Joan A.
Associate Professor of Home Economics, and Extension Consumer Information Coordinator; B.Sc., Acadia University, 1953; M.S., Pennsylvania State University, 1955; appointed 1960.

†Peterson, Nobel K.
Associate Professor of Soil and Water Science; B.S., Kansas State College, 1948; M.S., Purdue University, 1950; Ph.D., Rutgers University, 1957; appointed 1957.

Petillo, Juliette D.
Assistant Professor of Nursing; B.S.N., St. Anselm's College School of Nursing, 1961; M.S.,

Petroski, Joseph J.
Associate Professor of Education; B.A., University of New Hampshire, 1947; M.Ed., ibid., 1952; Ed.D., Harvard University, 1960; appointed 1966.

Planner, Helmut F.
Associate Professor of German; Teaching Credential, Teachers Training College, Austria, 1952; M.A., Stanford University, 1961; Ph.D., ibid., 1965; appointed 1969.

Pierce, Edward R.
Assistant Dean, School of Health Studies, and Associate Professor of Health Studies; B.A., University of Louisville, 1962; Ph.D., ibid., 1968; M.P.H., Johns Hopkins University, 1970; appointed 1974.
Pierce, Robert S.
Adjunct Associate Professor of Forest Resources and Soil and Water Science; B.S., University of Michigan, 1949; M.S., University of Wisconsin, 1952; Ph.D., ibid., 1957; appointed 1967.

Pilar, Frank L.
Professor of Chemistry; B.S., University of Nebraska, 1951; M.S., ibid., 1953; Ph.D., University of Cincinnati, 1957; appointed 1957.

Pine, Gerald J.

Piotrowski, Thaddeus M.
Assistant Professor of Sociology, Merrimack Valley Branch; B.A., St. Francis College, 1963; M.A., University of Pennsylvania, 1972; Ph.D., ibid., 1973; appointed 1973.

Pistole, Thomas G.
Assistant Professor of Microbiology; Ph.B., Wayne State University, 1964; M.S., ibid., 1966; Ph.D., University of Utah, 1969; appointed 1971.

Plager, Dean
Instructor in Administration; B.S., Iowa State College, 1965; M.B.A., University of Denver, 1970; appointed 1975.

Pokoski, John L.
Associate Professor of Electrical Engineering; B.S., St. Louis University, 1959; M.S., Arizona State University, 1965; Ph.D., Montana State University, 1967; appointed 1967.

Polk, Keith
Associate Professor of Music; B.A., San Diego State College, 1956; M.M., University of Wisconsin, 1958; Ph.D., University of California at Berkeley, 1968; appointed 1964.

Poll, Solomon
Professor of Sociology; B.S., Temple University, 1955; M.A., University of Pennsylvania, 1957; Ph.D., ibid., 1960; appointed 1964.
	†Pollard, James E.
Associate Professor of Plant Science; A.B., Duke University, 1965; Ph.D., University of Florida, 1969; appointed 1970.

Porta, Neil

Potter, Hugh M., III
Assistant Professor of English; A.B., Union College, 1954; M.A., University of North Carolina, 1957; Ph.D., University of Minnesota, 1965; appointed 1962.

Prince, Allan B.
Vice Provost for Budget and Administration and Professor of Soil and Water Science; B.S., Rutgers University, 1947; Ph.D., ibid., 1950; appointed 1954.

Pritchard, Hugh C.
Professor, Reference Librarian; B.A., University of Washington, 1939; M.A., University of North Carolina, 1942; M.S., Columbia University, 1950; appointed 1954.

Puth, Robert C.
Associate Professor of Economics; B.A., Carleton College, 1958; M.A., Northwestern University, 1965; Ph.D., ibid., 1967; appointed 1967.

Radlow, James
Professor of Applied Mathematics; B.A., City College, New York, 1943; Sc.M., Brown University, 1946; Ph.D., New York University, 1957; appointed 1965.

Ragonese, Carmen D.

Rasmussen, Mary H.
Associate Professor of Music; B.A., University of New Hampshire, 1952; M.M., University of Illinois, 1953; M.L.S., ibid., 1956; appointed 1968.

Reed, Robert C.
Associate Professor, Acquisitions Librarian; B.A., Hartwick College, 1953; M.A.L.S., University of Michigan, 1960; appointed 1960.

†Reeves, Roger Marcel
Associate Professor of Entomology and Forest Resources; B.S., S.U.N.Y. College of Forestry, Syracuse University, 1957; M.S., Cornell University, 1961; Ph.D., S.U.N.Y. College of Forestry, Syracuse University, 1964; appointed 1964.

RENAUD, Anne-Marie
Instructor in Nursing; B.S., University of New Hampshire, 1975; appointed 1976.

†Repka, Frank J.
Assistant Professor of Animal Science; B.S., University of Toledo, 1967; Ph.D., Cornell University, 1972; appointed 1972.

Resch, John P.
Assistant Professor of History, Merrimack Valley Branch; B.A., Denison University, 1962; M.A., Ohio State University, 1965; Ph.D., ibid., 1969; appointed 1972.

Reyna, Stephen P.
Assistant Professor of Anthropology; A.B., Columbia College, 1965; Ph.D., Columbia University, 1972; appointed 1973.

Rice, Margaret A.
Instructor in Nursing; B.S.N., St. Anselm's College, 1967; M.S., Boston University, 1973; appointed 1974.

Rich, Avery E.
Professor of Plant Pathology and Associate Dean, College of Life Sciences and Agriculture; B.S., University of Maine, 1937; M.S., ibid., 1939; Ph.D., State University of Washington, 1950; appointed 1941-43, 1951.

Richardson, John C.
Professor of English; A.B., Dartmouth College, 1941; M.A., Columbia University, 1942; Ph.D., Boston University, 1959; appointed 1946.

Rick, Judith
Instructor in Nursing; B.S., Illinois Wesleyan University, 1970; M.S., Boston University, 1972; appointed 1974.

Rilling, Jean M.
Lecturer and Coach in Physical Education; Degree, I.M. Marsh College of Physical Education, University of Liverpool, 1955; appointed 1967.

Roberts, Elizabeth
Assistant Professor of Social Services, B.A., West Virginia University, 1953; M.S.W., ibid., 1970; Ph.D., Brandeis University, 1975; appointed 1974.

Roberts, Lewis, Jr.
Thompson School Associate Professor of Applied Science and Director of Thompson School of Applied Science; B.A., Brown University, 1959; M.Ed., Auburn University, 1970; Ed.D., ibid., 1972; appointed 1972.
Robinson, Frederick J.
Associate Professor of Mathematics; Merri-
mack Valley Branch; B.S., University of New
Hampshire, 1949; M.A., ibid., 1955; appointed
1949.

Roe, Gene V.
Thompson School Instructor in Civil Tech-
ology; B.S., Worcester Polytechnic Institute,
1972; M.S., University of Connecticut, 1974;
appointed 1975.

Rogers, Ada-Louise H.
Assistant Professor of Music; B.A., B.M., Brenau
College, 1944; M.S., Julliard School of Music,
1949; appointed 1967.

Rogers, John E.
Associate Professor of Music; B.A., B.M., Un-
iversity of Georgia, 1960; M.M., Yale University,
1962; M.F.A., Princeton University, 1966; ap-
pointed 1967.

†Rogers, Owen M.
Professor of Plant Science; B.V.A., University of
Massachusetts, 1952; M.S., Cornell Univer-
sity, 1954; Ph.D., Pennsylvania State University,
1959; appointed 1959.

Rohrabacher, Evelyn H.
Thompson School Assistant Professor of Com-
munications; B.A., St. Joseph's College, 1941;
M.A., University of South Florida, 1968; ap-
pointed 1971.

Romoser, George K.
Professor of Political Science; A.B., Rutgers
University, 1951; A.M., University of Chicago,
1954; Ph.D., ibid., 1958; appointed 1961-62,
1967.

Rondeau, Lawrence A.
Assistant Professor of Recreation and Parks;
B.S., Springfield College, 1964; M.S., Indiana
University, 1965; appointed 1975.

Rosen, Sam
Nashua Corporation Professor of Economics;
B.A., University of Wisconsin, 1942; M.A., Har-
vard University, 1948; Ph.D., ibid., 1952; ap-
pointed 1957.

Rosenbush, Michael J.
Associate Professor of Russian; B.A., McGill
University, 1957; M.A., Universite de Montreal,

Ross, Shepley L.
Professor of Mathematics; A.B., Boston Uni-
versity, 1949; A.M., ibid., 1950; Ph.D., ibid.,
1953; appointed 1955.

Rothwell, Kenneth J.
Professor of Economics; B.A., University of
Western Australia, 1949; M.A., ibid., 1954; Ph.D.,
Harvard University, 1960; appointed 1963.

Rouman, John C.
Associate Professor of Classics; B.A., Carle-
ton College, 1950; M.A., Columbia University,
1951; Ph.D., University of Wisconsin, 1965; ap-
pointed 1965.

†Routley, Douglas G.
Professor of Plant Science; B.S.A., University of
British Columbia, 1952; M.S., Pennsylvania
State University, 1953; Ph.D., ibid., 1957; ap-
pointed 1957.

Rupp, Nancy C.
Assistant Professor of Physical Education; B.S.,
Sargent College, Boston University, 1950; M.A.,
State University of Iowa, 1955; appointed 1970.

Russell, Robert D.
Assistant Professor of Computer Science; B.A.,
Yale University, 1965; M.S., Stanford University,
1967; Ph.D., ibid., 1972; appointed 1975.

Rutman, Darrett B.
Professor of History; A.B., University of Illinois,
1950; Ph.D., University of Virginia, 1959; ap-
pointed 1968.

St. Lawrence, Judith M.
Lecturer in Philosophy; A.B., Boston University,

Samuels, Fred
Associate Professor of Sociology; B.S., City
College of New York, 1950; M.A., University of
Hawaii, 1963; Ph.D., University of Massachu-
setts, 1966; appointed 1966.

Sandler, Melvin
Associate Professor of Hotel Administration;
B.S., Georgetown University, 1941; M.A., North-
western University, 1947; C.P.A.; appointed
1970.

Sasner, John J., Jr.
Associate Professor of Zoology; B.A., Univer-
sity of New Hampshire, 1957; M.S., ibid., 1959;
Ph.D., University of California, 1965; appointed
1965.

Savage, Eugene Arnold
Director of Admissions; B.Ed., Plymouth State
College, 1958; M.Ed., Boston University, 1963;
appointed 1967.

Savage, Godfrey H.
Professor of Mechanical Engineering and Di-
rector of E.D.A.L.; B.S.E., Princeton University,
1950; M.S., Stanford University, 1951; M.B.A.,
Harvard University, 1954; Engr., Stanford Uni-

Savage, Terrance
Instructor in Humanities, Merrimack Valley
Branch; B.A., University of New Hampshire,
1969; M.A., Boston University, 1975; appointed
1976.

Sawyer, Albert K.
Professor of Chemistry; A.B., Colby College,
1940; M.S., University of Maine, 1947; appointed
1949.

Sawyer, Philip J.
Professor of Zoology; B.S., University of New
Hampshire, 1940; M.S., ibid., 1948; Ph.D., Uni-
versity of Michigan, 1956; appointed 1952.

Scharff, Robert C.
Associate Professor of Philosophy; A.B., Uni-
versity of Illinois, 1961; M.A., Northwestern
University, 1965; Ph.D., ibid., 1970; appointed
1970.

Scheewe, Lawrence R.
Instructor in Marketing; B.S., United States
Military Academy, 1962; M.B.A., University of

Schibanoff, Susan
Associate Professor of English; B.A., Cornell
University, 1966; M.A., University of California
at Los Angeles, 1967; Ph.D., ibid., 1971; ap-
pointed 1971.

Schickedanz, David I.
Assistant Professor of Psychology; B.S., Uni-
versity of Illinois, 1967; M.A., ibid., 1970; Ph.D.,
University of Illinois at Champaign-Urbana,

Schlobohm, Starr F.
Instructor in Economics; B.A., Ohio Wesleyan
University, 1950; M.B.A., Harvard Graduate
School of Business Administration, 1952; ap-
pointed 1975.
Schmidt, Marty J.
Assistant Professor of Psychology; B.S., Purdue University, 1968; M.S., ibid., 1970; Ph.D., ibid., 1972; appointed 1972.

Schneer, Cecil J.
Professor of Geology and the History of Science; A.B., Harvard University, 1943; A.M., ibid., 1949; Ph.D., Cornell University, 1954; appointed 1950, 1954.

Schreiber, Richard W.
Professor of Botany; B.S., University of New Hampshire, 1951; M.S., ibid., 1952; Ph.D., University of Wisconsin, 1955; appointed 1957.

†Schwarz, Charles
Assistant Professor of Animal Sciences; B.S., University of Wisconsin, 1969; M.S., ibid., 1970; Ph.D., ibid., 1974; appointed 1975.

Schwarz, Marc L.
Associate Professor of History; A.B., Bates College, 1959; A.M.T., Harvard University, 1960; Ph.D., University of California at Los Angeles, 1965; appointed 1967.

Scott, William H.

Sears, Maryse P.

Seiler, David E.
Associate Professor of Music; B.M., University of Wisconsin, 1961; M.M., ibid., 1965; appointed 1972.

Seitz, W. Rudolf
Assistant Professor of Chemistry; A.B., Princeton University, 1965; Ph.D., Massachusetts Institute of Technology, 1975; appointed 1976.

Shapiro, Howard M.
Associate Professor of Sociology; B.A., Brandeis University, 1964; M.A., Boston University, 1966; Ph.D., University of Minnesota, 1969; appointed 1969.

Shar, Albert O.
Associate Professor of Mathematics; B.A., Brandeis University, 1965; M.A., Fordham University, 1966; Ph.D., University of Pennsylvania, 1970; appointed 1971.

Sharer, Mary Anne
Lecturer in Business Administration; B.A., Trinity College, 1968; M.B.A., Oxford University, 1975; appointed 1975.

Shaw, Winifred C.
Associate Professor of The Arts; B.S., Iowa State College, 1945; M.F.A., Cranbrook Academy of Art, 1953; appointed 1954.

Shepard, Harvey K.
Associate Professor of Physics; B.S., University of Illinois, 1960; M.S., California Institute of Technology, 1962; Ph.D., ibid., 1966; appointed 1969.

Sherman, Heidemarie C.
Ombudsman and Assistant Professor of Economics; B.A., Wayne State University, 1962; M.A., ibid., 1965; Ph.D., ibid., 1970; appointed 1967.

Sherman, James L.
Assistant Professor of German; B.A., Wayne State University, 1959; M.A., Middlebury College, 1961; M.A., University of Michigan, 1955; Ph.D., ibid., 1969; appointed 1967.

Shigo, Alex L.
Adjunct Professor of Plant Pathology; B.S., Waynesburg College, 1956; M.S., West Virginia University, 1958; Ph.D., ibid., 1959; appointed 1966.

Shor, Ronald E.
Professor of Psychology; B.A., Brandeis University, 1953; M.A., Kansas University, 1955; Ph.D., Brandeis University, 1960; appointed 1967.

Shore, Barry
Associate Professor of Administration; B.S.E.E., Tufts University, 1960; M.B.A., University of Massachusetts, 1963; Ph.D., University of Wisconsin, 1968; appointed 1974.

Shore, Samuel D.
Associate Professor of Mathematics; B.S., Juniata College, 1959; M.A., Pennsylvania State University, 1961; Ph.D., ibid., 1964; appointed 1965.

Shortle, Walter C.
Adjunct Assistant Professor of Botany; B.S., University of New Hampshire, 1968; M.S., ibid., 1970; Ph.D., North Carolina State University, 1974, appointed 1976.

Siddall, David V.
Assistant Professor of English; A.B., Dartmouth College, 1953; M.A., Columbia University, 1960; Ph.D., Indiana University, 1970; appointed 1965.

Silva, J. Donald
Thompson School Associate Professor of Communications; B.A., University of New Hampshire, 1957; M.A., ibid., 1965; appointed 1963.

Silver, Judith A.
Assistant Professor of History; B.A., University of Michigan, 1965; M.A., ibid., 1969; Ph.D., ibid., 1973; appointed 1973.

Silverman, Robert J.
Professor of Mathematics; B.S., University of Chicago, 1947; M.S., ibid., 1948; Ph.D., University of Illinois, 1952; appointed 1962.

Simic, Charles
Associate Professor of English; B.A., New York University, 1967; appointed 1973.

Simpson, Robert E.
Associate Professor of Physics; B.S., University of Rochester, 1955; A.M., Harvard University, 1960; Ph.D., ibid., 1963; appointed 1973.

Sims, Wilburn L.
Associate Professor of Speech and Drama; A.B., Dartmouth College, 1964, M.S.T., University of New Hampshire, 1969; appointed 1967.

Sir, W. Neil
Associate Professor of Music; B.A., University of Chicago, 1952; B.A., University of California, 1954; M.A., ibid., 1962; appointed 1970.

Sitkoff, Harvard
Assistant Professor of History; A.B., Queens College, 1961; M.A., Columbia University, 1962; Ph.D., ibid., 1975; appointed 1976.

Sivaprasad, Kondagunta
Associate Professor of Electrical Engineering; B.E., University of Madras, 1956; M.S., Harvard University, 1958; Ph.D., ibid., 1963; appointed 1969.

†Skoglund, Winthrop C.
Professor of Animal Science; B.S., University of New Hampshire, 1938; M.S., Pennsylvania State College, 1940; Ph.D., Pennsylvania State University, 1958; appointed 1950.
Slanetz, Lawrence W.
Professor of Microbiology; B.S., Connecticut State College, 1932; Ph.D., Yale University, 1932; appointed 1932.

Sloan, Roger P.
Assistant Professor of Forest Resources and Extension Forester; B.S., University of New Hampshire, 1942; M.P.A., Harvard University, 1960; appointed 1963.

Smith, Elizabeth C.
Lecturer in Animal Science; B.S., St. Lawrence University, 1951; M.S., Pennsylvania State University, 1954; Ph.D., ibid., 1958; appointed 1968.

Smith, Gerald L.
Associate Professor of Animal Science and Extension Animal Scientist; B.S., University of New Hampshire, 1946; M.S., Pennsylvania State College, 1951; appointed 1948.

Smith, Gordon D.
Assistant Professor of Quantitative Methods and Operations Management; B.A., University of Connecticut, 1971; M.S.I.E., Pennsylvania State University, 1973; Ph.D., ibid., 1976; appointed 1976.

Smith, James A.
Associate Dean of the College of Liberal Arts, Director of Institutional Research, and Adjunct Associate Professor of Economics; B.A., Washington State University, 1957; Ph.D., ibid., 1967; appointed 1972.

Smith, James W.
Assistant Extension Dairy Specialist and Assistant Professor of Animal Science; B.S., Pennsylvania State University, 1965; M.S., ibid., 1967; Ph.D., University of Maryland, 1971; appointed 1976.

Smith, M. Daniel
Associate Professor of Education; A.B., Dartmouth College, 1948; M.M., University of Michigan, 1950; M.Ed., Harvard University, 1958; Ed.D., ibid., 1961; appointed 1967.

Smith, Mark R.
Professor of English; B.A., Northwestern University, 1960; appointed 1966.

Smith, Roderick M.
Assistant Professor of Zoology; B.A., Earlham College, 1965; M.S., University of Massachusetts, 1969; Ph.D., ibid., 1971; appointed 1974.

Smith, Samuel C.
Professor of Animal Science and Biochemistry; B.S., Pennsylvania State University, 1955; M.S., ibid., 1958; Ph.D., ibid., 1962; appointed 1961.

Snell, Elizabeth
Associate Professor of Home Economics; B.S., University of Vermont, 1949; M.S., Cornell University, 1960; Ph.D., ibid., 1971; appointed 1971.

Soukakis, Pauline
Associate Professor of Social Service; B.S., University of New Hampshire, 1950; M.S., Boston University School of Social Work, 1959; appointed 1959.

Spitz, Allan
Dean, College of Liberal Arts, and Professor of Political Science; B.A., University of New Mexico, 1952; M.A., Michigan State University, 1954; Ph.D., ibid., 1964; appointed 1971.

Sprague, Linda G.
Associate Professor of Business Administration; S.B., Massachusetts Institute of Technology, 1961; M.B.A., Boston University, 1967; D.B.A., Harvard University, 1973; appointed 1969.

Stackhouse, Larry L.
Associate Professor of Animal Science; D.V.M., Ohio State University, 1963; Ph.D., Colorado State University, 1970; appointed 1970.

Steele, Donald E.

Stephens, James
Instructor in Philosophy; B.A., Yale University, 1971; appointed 1975.

Stetson, Stephen P.
Assistant Football Coach and Lecturer; B.A., Dartmouth College, 1974; appointed 1974.

Stevens, Richard F.

Stewart, Glenn W.
Associate Professor of Geology and State Geologist; B.S., University of New Hampshire, 1935; M.S., Syracuse University, 1937; M.A., Harvard University, 1950; appointed 1938-39, 1941.

Stewart, James A.
Associate Professor of Biochemistry; B.A., St. Anselm's College, 1963; Ph.D., University of Connecticut, 1967; appointed 1968.

Stone, Deborah E.
Associate Professor of Education; B.Ed., Plymouth Teachers College, 1940; M.Ed., Boston University, 1951; Ed.D., ibid., 1971; appointed 1962.

Stotz, Kerwin C.
Associate Professor of Electrical Engineering; B.E.E., Rensselaer Polytechnic Institute, 1953; M.E.E., ibid., 1958; Ph.D., ibid., 1963; appointed 1964.

Stoykovich, Elisa F.

Straus, Murray A.
Professor of Sociology; B.A., University of Wisconsin, 1948; M.S., ibid., 1949; Ph.D., ibid., 1956; appointed 1968.

Strohsahl, Robert
Adjunct Lecturer in Medical Technology, Mary Hitchcock Hospital; B.S., Xavier University, 1964; appointed 1972.

†Strout, Richard G.
Professor of Animal Science; B.S., University of Maine, 1950; M.S., University of New Hampshire, 1954; Ph.D., ibid., 1961; appointed 1954.

Swan, Emery F.
Professor of Zoology; S.B., Bates College, 1938; Ph.D., University of California, 1942; appointed 1952.

Swift, M. Robinson
Assistant Professor of Mechanical Engineering; B.S., University of New Hampshire, 1971; Ph.D., ibid., 1974; appointed 1975.

Taft, Charles K.
Professor of Mechanical Engineering; B.A., Amherst College, 1951; B.S., Massachusetts Institute of Technology, 1953; M.S., Case Institute of Technology, 1956; Ph.D., ibid., 1960; appointed 1967.
Taube, Gerald
Adjunct Associate Professor of Health Studies and Coordinator of Health Promotions; B.A., University of Pennsylvania, 1961; J.D., Boston University Law School, 1964; M.S.W., Brandeis University, 1972; Ph.D., ibid., 1972; appointed 1975.

Tebbetts, Diane R.
Assistant Professor, Assistant Reference Librarian; B.A., University of New Hampshire, 1965; M.S., Simmons College, 1972; appointed 1971.

Teeri, Arthur E.
Professor of Biochemistry; B.S., University of New Hampshire, 1937; M.S., ibid., 1940; Ph.D., Rutgers University, 1943; appointed 1938-40, 1943.

Thompson, Allen R.
Assistant Professor of Economics; B.A., Austin College, 1966; Ph.D., University of Texas, Austin, 1973; appointed 1974.

Tillinghast, Edward K.
Associate Professor of Zoology; B.S., University of Rhode Island, 1955; M.S., ibid., 1959; Ph.D., Duke University, 1966; appointed 1967.

Tischler, Herbert
Professor of Geology; B.S., Wayne State University, 1950; M.A., University of California, 1955; Ph.D., University of Michigan, 1961; appointed 1965.

Tokay, F. Harry
Associate Professor of Communication Disorders; B.S., St. Cloud State College, 1960; M.A., Michigan State University, 1962; Ph.D., ibid., 1967; appointed 1973.

Trout, Ben T.
Associate Professor of Political Science; B.A., University of California, 1961; M.A., Indiana University, 1968; Ph.D., Indiana University, 1972; appointed 1969.

Trujillo, Judith
Instructor in Home Economics; A.A., Los Angeles Valley College, 1971; B.S., California State University—Northridge, 1974; M.S., Purdue University, 1976; appointed 1976.

Ubel, J. John
Professor of Chemistry; B.A., Carthage College, 1959; Ph.D., University of Illinois, 1964; appointed 1964.

Ulrich, Gail D.
Associate Professor of Chemical Engineering; B.S., University of Utah, 1959; M.S., ibid., 1962; Sc.D., Massachusetts Institute of Technology, 1964; appointed 1970.

†Urban, Willard E., Jr.
Associate Professor of Biometrics and Assistant Director, Agricultural Experiment Station; B.S., Virginia Polytechnic Institute, 1958; M.S., Iowa State University, 1960; Ph.D., ibid., 1963; appointed 1963.

Ury, Ann D.

Valentine, Russell L.
Associate Professor of Mechanical Engineering; Certificate in Machine Design, Wentworth Institute, 1942; B.S., Michigan State University, 1951; M.S.M.E., Purdue University, 1953; appointed 1953.

Valenza, Daniel L.

Valenzuela, Wilma
Lecturer in Social Service; B.A., Bennington College, 1959, M.S.W., University of California at Berkeley, 1966; appointed 1976.

Van Osdol, Donavan Harold

Verrette, Paul F.
Associate Professor of Music; B.A., University of New Hampshire, 1952; M.A., Boston University, 1971; appointed 1962.

Viccaro, Thomas J.
Assistant Professor of Social Service; B.A., Queens College, 1965; M.A., ibid., 1967; M.S.W., University of Michigan, 1970; appointed 1972.

Vincent, Donald E.

Voll, John O.
Associate Professor of History; B.A., Dartmouth College, 1958; M.A., Harvard University, 1960; Ph.D., ibid., 1969; appointed 1965.

Vreeland, Robert P.
Associate Professor of Civil Engineering, B.S., Yale University, 1932; M.S., Columbia University, 1933; M.E., Yale University, 1941; appointed 1966.

Vrooman, Jack R.
Associate Professor of French; A.B., Princeton University, 1951; M.A., Columbia University, 1952; Ph.D., Princeton University, 1965; appointed 1971.

Walker, Charles W.
Assistant Professor of Zoology; B.A., Miami University, 1969; M.S., Cornell University, 1973; Ph.D., ibid., 1976; appointed 1976.

†Wallace, Oliver P., Sr.
Associate Professor of Forest Resources; B.S., University of New Hampshire, 1937; B.S.F., University of Michigan, 1938; M.F., ibid., 1947; Ph.D., ibid., 1954; appointed 1958.

Wallace, William H.
Professor of Geography; B.S., Beloit College, 1948; M.S., University of Wisconsin, 1950; Ph.D., ibid., 1956; appointed 1957.

Wang, Rosemary Y.
Professor of Nursing; Diploma in Nursing, Good Samaritan School of Nursing, Cincinnati, 1957; B.S., College of Mt. St. Joseph, 1959; M.S., Boston College, 1962; appointed 1971.

Wang, Tung-Ming
Professor of Civil Engineering; B.S., National Chiao-Tung University, 1945; M.S., University of Missouri, 1954; Ph.D., Northwestern University, 1960; appointed 1961.

Ward, Elizabeth A.
Adjunct Clinical Instructor in Medical Technology; B.S., University of New Hampshire, 1947; M.T. (ASCP), 1947; appointed 1972.

Ward, Judith D.
Assistant Professor of Occupational Therapy; B.S., University of New Hampshire, 1964; M.O.E., ibid., 1976; appointed 1972.
Warren, Clifford G.
Assistant Professor of Plant Science, and Extension Turfgrass Specialist; A.S., S.U.N.Y. at Farmingdale, 1966; B.S.A., University of Georgia, 1968; M.S., Pennsylvania State University, 1969; Ph.D., ibid., 1976; appointed 1976.

Warren, Jerry A.
Director of Academic Computing Activities and Associate Professor of Plant Science; B.S., University of Wisconsin, 1953; M.S., Cornell University, 1958; Ph.D., ibid., 1960; appointed 1971.

Wafefield, D. Allan
Associate Professor of Physical Education; B.A., Ohio Wesleyan University, 1962; M.S., Springfield College, 1965; Ph.D., Ohio State University, 1976; appointed 1970.

Watson, Deborah
Assistant Professor and Catalog Librarian; B.A., University of New Hampshire, 1963; M.A., ibid., 1967; M.S., Simmons College, 1972; Ph.D., Ohio State University, 1976; appointed 1967.

Wear, Robert E.
Associate Professor of Physical Education; B.A., Oberlin College, 1941; M.A., University of Michigan, 1946; Ph.D., ibid., 1955; appointed 1964.

Webb, Dwight
Associate Professor of Education; B.A., University of Redlands, 1955; M.A., ibid., 1956; Ph.D., Stanford University, 1967; appointed 1967.

Webber, Laurance E.
Research Professor, Center for Industrial and Institutional Development; B.S., University of New Hampshire, 1934; M.E., ibid., 1940; M.S., ibid., 1946; appointed 1937.

Webber, William R.
Professor of Physics; B.S., Coe College, 1951; M.S., University of Iowa, 1955; Ph.D., ibid., 1957; appointed 1969.

Weber, James H.
Associate Professor of Chemistry; B.S., Marquette University, 1959; Ph.D., Ohio State University, 1963; appointed 1963.

Weber, Stephen J.
Assistant Professor of Psychology; H.A.B., Xavier University, 1967; M.A., Northwestern University, 1969; Ph.D., ibid., 1971; appointed 1971.

Weeks, Silas B.
Associate Professor of Resource Economics and Extension Community Resource Development Specialist; B.S., Cornell University, 1937; appointed 1955.

Weesner, Theodore W.
Associate Professor of English; B.A., Michigan State University, 1959; M.F.A., University of Iowa, 1965; appointed 1966.

Weiland, Walter E.
Associate Professor of Physical Education; B.S., S.U.N.Y. at Cortland, 1957; M.S., Pennsylvania State University, 1958; Ph.D., ibid., 1964; appointed 1964.

Weiss, Tracey

†Wells, Otho S.
Associate Professor of Plant Science and Extension Horticulturist, Vegetables; B.S., North Carolina State University, 1961; M.S., Michigan State University, 1963; Ph.D., Rutgers University, 1966; appointed 1966.

West, James R.
Assistant Professor of Music; B.M., American University, 1969; B.M.Ed., ibid., 1969; M.M., Northeastern University, 1972; appointed 1973.

Wetzel, William E.
Associate Professor of Business Administration; B.A., Wesleyan University, 1950; M.B.A., Temple University, 1965; M.B.A., University of Chicago, 1967; appointed 1967.

†Weyrick, Richard R.
Associate Professor of Forest Resources; B.S., University of Minnesota, 1953; M.F., ibid., 1961; Ph.D., ibid., 1968; appointed 1970.

Wheeler, Charles M., Jr.
Professor of History; B.S., West Virginia University, 1947; M.S., ibid., 1949; Ph.D., ibid., 1951; appointed 1950.

Wheeler, Douglas L.
Professor of History; A.B., Dartmouth College, 1959; A.M., Boston University, 1960; Ph.D., ibid., 1963; appointed 1965.

Whitaker, William E. (Captain, U.S. Army)

White, Susan O.
Associate Professor of Political Science; A.B., Bryn Mawr College, 1958; M.A., University of Minnesota, 1966; Ph.D., ibid., 1970; appointed 1969.

Whitlock, John B.
Associate Professor of Music; B.Ed., Southern Illinois Normal University, 1937; M.A., State University of Iowa, 1941; Ph.D., ibid., 1958; appointed 1958.

Whittier, Duane H.
Associate Professor of Philosophy; B.A., University of New Hampshire, 1950; M.A., University of Illinois, 1952; Ph.D., ibid., 1961, appointed 1967.

Wicks, John D.
Professor of Music; A.B., Harvard University, 1944; A.M., ibid., 1947; Ph.D., ibid., 1959; appointed 1956.

†Wight, Thomas
Assistant Professor of Animal Science; B.A., University of Maine, 1966; M.S., University of New Hampshire, 1968; Ph.D., ibid., 1972; appointed 1972.

Wilcox, Donald J.

Williams, Daniel C.
Associate Professor of Psychology; B.A., Northwestern University, 1966; Ph.D., University of California at Santa Barbara, 1970; appointed 1970.

Williams, Thomas A., Jr.
Professor of English; B.A., University of New Hampshire, 1950; M.A., ibid., 1958; appointed 1958.

Williamson, John E.
Lecturer in Education, and Field Site Coordinator; B.A., University of New Hampshire, 1951; M.Ed., ibid., 1969; appointed 1976.

Willits, Robin D.
Professor of Business Administration and Organization; A.B., Middlebury College, 1947; B.S., Massachusetts Institute of Technology, 1948; Ph.D., ibid., 1965; appointed 1965.
Wilson, John A.
Associate Professor of Mechanical Engineering; B.S., Tufts University, 1958; M.S., northeastern University, 1960; Ph.D., ibid., 1970; appointed 1960.

Wing, Barbara H.

Wing, Henry J., Jr.
Associate Professor of Music; B.M., Oberlin Conservatory, 1952; M.M., ibid., 1953; Ph.D., Boston University, 1966; appointed 1970.

Winn, Alden L.
Professor of Electrical Engineering; B.S., University of New Hampshire, 1937; S.M., Massachusetts Institute of Technology, 1948; appointed 1948.

Woodward, William R.
Assistant Professor of Psychology; B.A., Harvard University, 1967; M.A., Princeton University, 1969; Ph.M., Yale University, 1973; Ph.D., ibid., 1975; appointed 1975.

Wright, John J.
Associate Professor of Physics; B.S., Worcester Polytechnic Institute, 1965; Ph.D., University of New Hampshire, 1969, appointed 1970.

Wright, Paul A.
Professor of Zoology; S.B., Bates College, 1941; A.M., Harvard University, 1942; Ph.D. ibid., 1944; appointed 1958.

Wrightsman, Dwayne E.
Professor of Finance; B.S., Manchester College, 1958; M.B.A., Indiana University, 1959; Ph.D., Michigan State University, 1964; appointed 1964.

Wurzburg, Frederic W.
Associate Professor of Political Science; B.S., Columbia University, 1956; Ph.D., ibid., 1961; appointed 1963.

Wyman, Charles E.
Assistant Professor of Chemical Engineering, B.S., University of Massachusetts; 1967; M.A., Princeton University, 1969; Ph.D., ibid., 1971; appointed 1974.

Yamamoto, Yutaka
Assistant Professor of Philosophy; B.S., University of California at Berkeley, 1957; M.A., University of Michigan, 1967; Ph.D., ibid., 1973; appointed 1973.

Yang, Jane C.
Assistant Professor, Catalog Librarian; B.A., Taiwan Normal University, 1961; M.S., Southern Illinois University, 1961; M.S.L.S., Pratt Institute, 1963; appointed 1966.

Yildiz, Asim
Professor of Mechanics; Dipl., Technical University of Istanbul, 1953; D. Eng., Yale University, 1959; appointed 1967.

Yildiz, Musa
Senior Research Fellow; B.S., St. Louis University, 1951; M.S., ibid., 1952; Ph.D., Stevens Institute of Technology, 1967; appointed 1972.

Young, Arthur P.
Head Coach Swimming and Lacrosse, and Lecturer; B.A., Ohio Wesleyan University, 1972; M.Ed., Springfield College, 1974; appointed 1974.

Young, Sharon
Assistant Professor of Home Economics; B.A., Shepherd College, 1969; M.S., University of Illinois, 1970; Ph.D., Ohio State University, 1975; appointed 1976.

Yount, John A.

Zabarsky, Melvin J.
Professor of The Arts; B.F.A., Boston University, 1958; M.F.A., University of Cincinnati, 1960; appointed 1969.

Zaso, Gus C.
Associate Professor of Recreation and Parks; A.B., Syracuse University, 1957; M.A., Central Michigan University, 1962; Re.D., Indiana University, 1965; appointed 1970.

Zavin, Shirley A.
Assistant Professor of The Arts; B.A., University of Michigan, 1954; M.A., ibid., 1965; Ph.D., Columbia University, 1972; appointed 1973.

Zsigray, Robert M.
Associate Professor of Microbiology; A.B., Miami University, 1961; M.S., Georgetown University, 1967; Ph.D., ibid., 1969; appointed 1970.

Cooperative Extension Staff

Barker, Floyd V., B.S.
Extension Environment Specialist; appointed 1967.

Black, Donald C., B.S.
Forester, Strafford County; appointed 1971.

Breck, Robert W., B.S., M.F.
Forester, Hillsborough County; appointed 1947.

Bressett, Lauren L., B.S.
4-H Program Assistant, Cheshire County; appointed 1976.

Brown, Nancy C., B.S.
Extension Agent, Nutrition Education; appointed 1972.

Brushett, Lynda A., B.A., M.A.
Community Development Agent, Strafford County; appointed 1975.

Buck, Charles W., B.S., M.S.
4-H Youth Development Agent, Hillsborough County; appointed 1955.

Butterfield, Marcus R., B.S., M.S.
Program Specialist, 4-H and NHEMIS Coordinator; appointed 1962.

Buxton, David L., A.A.S., B.S.
Assistant Forester, Hillsborough County; appointed 1975.

Clark, Virginia E., B.E.
Extension Home Economist, Merrimack County; appointed 1963.

Clement, Bruce A., B.S.
Agricultural Agent, Cheshire County; appointed 1971.

Colby, Perley D., B.S.
Agricultural Agent, Hillsborough County; appointed 1953.

Conde, John A., A.A.S., B.S.
Forester, Merrimack County; appointed 1970.

Cook, Harold W., B.S.
Assistant Specialist, Forest Marketing and Utilization (Sawmill); appointed 1975.

Cook, Kathleen D., B.S.
4-H Youth Development Agent, Merrimack County; appointed 1973.

Corrow, Henry W., Jr., B.S.
Extension Editor; appointed 1953.
Crawford, Candace T., B.S.
Extension Home Economist, Sullivan County; appointed 1975.
Currier, Muriel B., B.S.
Extension Home Economist, Grafton County; appointed 1951-52, 1953.
Damon, John F., B.S., M.S.
Program Leader, Agriculture and Resource Development; appointed 1961.
Danko, Thomas, B.S., M.S.
Extension Area Agent, Poultry Management; appointed 1957.
Dodge, Arthur G., Jr., A.A, B.S., M.S.F.
Extension RC & D Area Forester; appointed 1960.
Fabrizio, Richard F., B.V.A.
4-H Youth Development Agent, Grafton County; appointed 1965.
Farrey, Judith E., B.S.
4-H Youth Development Agent; appointed 1973.
Ferguson, John R., Jr., B.S.
Forester, Cheshire County; appointed 1965.
Fortin, Sarah L., B.A.
4-H Youth Development Agent, Hillsborough County; appointed 1972.
Foster, Lenette N., B.S.
Coordinator, expanded Nutrition Program; appointed 1972.
Garland, Lynn B., B.S.

Grass, Carolyn K., B.A.
Extension Agent, Nutrition Education; appointed 1972.
Halford, Nicholas S., B.S., M.S.
Urban 4-H Youth Development Agent, Manchester; appointed 1973.
Head, Ivan E., B.S., M.Ag.Ed.
4-H Youth Development Agent, Sullivan County; appointed 1963.
Herde, Mary Jo, B.S., M.S.
Extension Human Development Specialist; appointed 1976.
Howe, Gerald W., B.S., M.S.
Agricultural Agent, Strafford County; appointed 1972.
Josselyn, Margaret B., B.S., M.A.
Clothing and Textiles Specialist; appointed 1975.
Kendall, Shirley M., B.S.
Extension Home Economist, Cheshire County; appointed 1968.
Kennedy, Kevin B., B.S.A.
Extension Dairy Area Agent; Grafton and Coos counties; appointed 1955.
Kincade, Merle F., B.E.
Extension Home Economist, Belknap County; appointed 1971.
Kinder, Richard G., B.S.
Assistant Specialist, Forest Marketing and Utilization (Harvesting); appointed 1966-68, 1971.
Knowles, Stanley W., B.S., M.S.
Forester, Rockingham County; appointed 1961.
Knox, Harry B., B.S.
4-H Youth Development Agent, Rockingham County; appointed 1954.
Leighton, Roger S., B.S.
Program Leader Forestry and CFM Supervisor; appointed 1952.
Lord, Carleton R., B.S., M.S.
4-H Youth Development Agent, Carroll County; appointed 1970.
Lord, William G., B.S., M.S.
Extension Fruit Specialist; appointed 1973.
Lovering, Edith L., B.E.
Extension Home Economist, Rockingham County; appointed 1971.
Marple, Sylvia H., B.S., M.S.
Extension Nutrition Specialist; appointed 1964.
Marriott, Bruce A., B.S., M.S.
Agricultural Agent, Belknap County; appointed 1973.
Marty, Mamie, B.S., M.S.
Extension Home Economist, Strafford County; appointed 1965.
McGee, Bonnie D., B.S., M.S., M.E.
Program Leader Home Economics; appointed 1972.
McGuire, Lena F., B.E.
Extension Home Economist, Belknap County; appointed 1971.
McLaughlin, Winnifred D., B.S.
Extension Agent, Nutrition Education; appointed 1972.
Nickerson, D. Anne, Cert. B.Arch.
Extension Housing Specialist; appointed 1963.
Nissen, Harriet J., B.S., M.Ed.
Extension Home Economist, Hillsborough County; appointed 1956.
Patmos, Ray M., Jr., B.S.
County Forester, Coos County; appointed 1972.
Pohl, Peter W., B.S.
Forester, Carroll County; appointed 1969.
Porter, John C., B.S., M.S.
Extension Dairy Area Agent; Belknap, Carroll, Merrimack, and Sullivan counties; appointed 1974.
Pratt, Leighton C., B.S., M.S.
Agricultural Agent, Coos County; appointed 1969.
Reardon, Patricia A., B.S.
4-H Youth Development Agent, Belknap County; appointed 1976.
Roberts, Jeannette M., B.S., M.Ed.
Program Specialist, 4-H; appointed 1974.
Robie, Dwight A., B.S.
4-H Youth Development Agent, Merrimack County; appointed 1971.
Rogers, Glenn F., B.S., M.S.
Agricultural Agent, Grafton County; appointed 1975.
Sargent, Dennis S., B.S.
Safety Program Assistant, 4-H Youth Development; appointed 1975.
Sargent, Leslie B., Jr., B.S.
Forester, Grafton County; appointed 1954.
Schroeder, Calvin E., B.S.
4-H Youth Development Agent, Strafford County; appointed 1969.
Scott, Donald H., B.S., M.S.
Forester, Belknap County; appointed 1969.

Seavey, David C., A.A.S., B.S., M.S.
Agricultural Agent, Merrimack County; appointed 1970.

Sorensen, David C., B.S., M.S.
Agricultural Agent, Carroll County; appointed 1969.

Springer, Donn E., B.A.
Community Development Area Agent, Belknap, Carroll, Coos, and Grafton Counties; appointed 1975.

Stewart, Edwina P., B.S.
Extension Home Economist, Grafton County; appointed 1965.

Stimson, Ruth G., B.S., M.Ed.
Extension Home Economist, Rockingham County; appointed 1942.

Stocking, Marion I., B.S., M.A.
Extension Home Economist, Carroll County; appointed 1958.

Szymukho, Joseph A., B.S.
Forester, Sullivan County; appointed 1957.

Tenney, Judy L., A.S., B.S.
4-H Youth Development Agent, Grafton County; appointed 1974.

Tumel, Jon P., B.S., M.S.
Assistant Extension Entomologist and Pesticide Applicator Trainer; appointed 1975.

Upham, Edward F., B.S., M.S.
Agricultural Agent, Rockingham County; appointed 1960.

Vashaw, Lois J., B.E., M.R.E.
Extension Home Economist, Coos County; appointed 1972.

Walker, Melissa, B.S.
Program Specialist, 4-H, appointed 1973.

Watts, Brenda J., B.S., M.S.
Extension Home Economist, Nutrition; appointed 1976.

Weldon, Richard N., B.S., M.S.
Specialist, Agricultural Management; appointed 1975.

Williams, Charles H., B.S., M.S.
Extension Specialist, Ornamentals; appointed 1969.

Wilson, Joseph R., B.A., M.Ed.
4-H Youth Development Agent, Coos County; appointed 1975.

Wood, Dorothy A., B.S.
Extension Home Economist, Hillsborough County; appointed 1971.

Wood, Stephen A., B.S.
Assistant Forester, Sullivan County; appointed 1974.

Wyman, Christine C., B.S.
4-H Youth Development Agent, Strafford County; appointed 1963.

WHNH-TV (see 52)
Whittemore School of Business and Economics (see 49)
94 Williamson Hall G8
95 Wolff House I3
96 Women's Center F6
The University does not guarantee employment to its graduates, but their chances for employment are enhanced if they have begun career planning early in their undergraduate days. The University provides a career planning and placement service that is available to all students.

The University is in compliance with federal guaranteed student loan regulations and does supply information about the employment of its graduates who have majored in specialized degree programs, which normally lead to specific employment fields. This information is available upon request from the University's Career Planning and Placement Service.
