REPORT OF FOREST FIRE WARDEN

As the tempo of America's war effort mounts, demands upon its citizens for service become more numerous and exacting. To some comes the call to arms; others to public service and still others to defense industries and organizations. No one can possibly escape if he would. All must bear a proportionate share of the burden and the sacrifice. Strong first line fronts on land, sea and in the air are needed and can be developed and maintained only if there is unity of purpose and common determination behind the home front.

As men are drawn into service the burden of carrying on rests more heavily upon those who remain at home. Here, team work becomes increasingly important because of constantly diminishing manpower. A general breakdown in essential local activities and law observance can only be prevented by whole hearted cooperation between citizens and leaders.

There is no field of endeavor where cooperation and compliance with law and regulation are more needed than that of forest fire control. The most effective and economical effort in this field of activity is that of prevention. The old adage "an ounce of prevention" being "worth a pound of cure" was never more aptly applied than to forest fire control.

The forest fire warden is, by law, the designated local leader in forest fire matters. He exercises his prerogatives and discharges his duties as such under the direction of the District Chief and the State Forester. There was never a time when the warden needed each citizen's good will and cooperation more than he does now. With manpower waning, fire prevention, through efficient preparation, care with fire and compliance with all laws and regulations become a vital duty of citizenship.

For years efforts have been made to improve the usual bad Spring and Fall fire record. It was not until this year, however, that this problem was, to a great extent solved when permit burning was more rigidly restricted. Forest fire wardens were instructed not to issue permits except on rainy days and even then not to issue permits for burning in or near large slash or blown down areas. This plan worked out so well it has been decided to make it the established policy governing legal burning.

Everyone is well acquainted with the several civilian defense groups. Many of our fellow townsmen are serving in one or more

of them. It is only recently, however, that the Office of Civilian Defense, recognizing the threat forest fires are to our timber facilities and resources and the possible disruption of war activities in critical areas, established the "Forest Fire Fighting Service." Its purpose is to provide fire fighters, equipped and trained, to strengthen the hand of the local forest fire warden; to acquaint the people in the area with their responsibility in fire prevention and suppression and to provide an opportunity for people in and near forested areas to participate in the war effort.

The State Forester is the State Coordinator; the District Chiefs are District Coordinators and the Warden is the Local Coordinator. The Forest Fighters Service personnel will be registered under the direction of the Office of Civilian Defense; it will be trained by the warden and other assistants, aided by the District Chief. Individual citizens are urged to join this service group by applying to the forest fire warden or to the Civilian Defense Chairman. By becoming a part of this organization locally, individuals can contribute their share toward the protection of our forest resources which are so vital to the war job.

It is recommended that the small amount of \$25.00 be made available for the purchase and keeping in repair small forest fire hand tools. These small tools can be obtained through the State Department at one half the cost to the state.

During this critical period it is more than ever the part of good and prudent citizenship to remember

1. That permission to burn in or near woodland or where fire may be communicated to woodland must be secured from the forest fire warden when the ground is not covered with snow.
2. To be careful when smoking in or near the woods and not to throw or drop lighted cigars, cigarettes or matches.
3. To notify your local warden promptly of any fire you see.
4. That fire prevention is the best and cheapest fire insurance.
5. To be fire-minded; be careful; be cooperative and thus help your warden prevent forest fires. This is patriotism at work.

The 1942 fire record for our town follows:

Number of fires or investigations	3
Area burned	3.1 acres
Number of permits issued	15

LIBRARY REPORT

Annual Report of the Olive G. Pettis Free Library

Each succeeding year finds your library becoming a more comfortable homelike, and modern reading center. This is as it should be, and we hope more people will realize how much enjoyment can be derived from reading the interesting books and magazines provided by the library.

Last spring Mr. Bowlby made and donated three fine window boxes to the library. We hope to have them full of flowering plants this coming summer, so that they will add a bright note of color to our town.

The children's corner has been used a good deal, and we feel it was a worth while investment.

In November, during National Book Week, the school children under the direction of Mrs. Scranton and Miss O'Donnell presented a very interesting program to the large number of parents and friends who gathered in the library. School work was on exhibition. Following the program the children were allowed to take out books.

Mrs. Walter Nelson resigned as librarian and Mrs. Brigham was appointed in her place. We have been fortunate in our librarians. They are all so cooperative, and give unstintingly of their time.

When Mrs. Charles Cook moved to Massachusetts, Mrs. Doris Newman, was chosen to fill the vacancy.

This year in addition to "Child Life," "National Geographic" and "Good Housekeeping," you will find a copy of the "Readers' Digest" waiting for you each month. These magazines may be taken out the same as you take out a book, and we hope they will get plenty of use.

The Bookmobile still makes regular appearances in spite of the rationing of gas and tires. We all hope it will be able to continue its services, especially because the school children enjoy it so much.

Remember that if you have a particular book you would like to read, it is quite possible for us to obtain it from the State Library.

The usual number of books, both adult and juvenile, have been added. You will find mysteries, westerns, biographies, his-

torical novels, light novels, and non-fiction on the list. Why not drop in on Saturdays and take advantage of this free service?

This year, the same as last, the drive for "Victory Books" for men and women in the service of their country is on. Books make good buddies for our boys. Do send fairly new, up-to-date books. Perhaps the book you send will get into the hands of your own boy! Give us books now!

SUPERINTENDENT'S REPORT

To the Goshen School Board:

Mrs. Grace Scranton is continuing her excellent work, of developing the children of Goshen in the four lower grades at Mill Village. We have been unfortunate in losing the services of Mrs. Helen Tenney. The four upper grades at Goshen Corner are taught by Miss Esther O'Donnell, a young, enthusiastic teacher.

The school at Goshen Corner is small this year and the work has been hampered by many absences.

Teaching is hard work and it is especially hard in school with all eight grades to keep the pupils' work progressing to modern requirements, prepare each day's work and correct papers.

The shortage of teachers is alarming. Patriotism and higher salaries have called many from the teaching profession to other fields. It is expected that many will stop teaching as soon as their contracts run out in the spring. I recommend if possible we hold the same faculty for next year.

Financially, teachers have been hard hit. Teachers' wages always have been low, in the comparison to years of study and expenses required to prepare for their work. According to a study made by the N. E. A. the cost of living already has risen 19% since the war began, but food 35%, and clothing 25%. The wages of factory workers have gone up 59% and teachers salaries only 7%. Another inducement that kept teachers in their position before 1939 was that they had no income tax to pay.

Transportation is another serious problem. The cost is higher and it will soon be hard to find good drivers. Without transportation, however, we would be forced to open up a large number of small schools with the difficulty of finding teachers.

Books are in good condition and teachers can get along with less supplies than would be desirable. Unless new homes are built we will not need new furniture.

I appreciate the help and sympathy that I received from the School Board, the teachers, and pupils during my sickness. I am

sorry for the inconvenience brought to them and wish to thank them for the extra work they so willingly have done.

Respectfully submitted,

WALTER L. MASON,
Superintendent of Schools.

REPORT OF SCHOOL NURSE

January, 1942 to January, 1943

School health activities tend more and more to spread into the homes and community. It is now taken for granted that the various infectious diseases or defects of eyes, ears, teeth, nose, throat, general nutrition, posture, speech, etc., form the chief object sought in routine health inspection. Experience teaches that many of these irregularities are traceable to circumstances and conditions which parents do not recognize as unhealthful. Also the measures necessary for the correction of these and other unfortunate sources of health disturbance often lie chiefly in the hands of the parents.

The nurse and teachers by training and experience become able to recognize these causes and often to suggest corrective measures necessary. Both nurse and teacher welcome those opportunities for service.

During the year I made 10 visits to the schools and on 9 occasions have visited the homes of pupils.

I have taken one pupil to the eye clinic in Hanover and another to the optometrist.

Many of the nurse's activities, especially those done in the home, cannot easily be enumerated.
