## REPORT OF BOARD OF HEALTH.

The only contagious disease that has called for action by the board of health during the year was a case of diphtheria early in January. The patient was Leon Lindsay, and a swarb from his throat sent to the State labratory was found upon examination, to contain diphtheria baccilla of a very positive nature. The house was immediately quarantined and the case placed in charge of Dr. Talbot, who immediately injected antitoxine with beneficial results. After about sixteen days the house was thoroughly disinfected by Chas. E. Palmer of Concord, and the quarantine removed. There was no further spread of the disease. The only expense was the physician's bill and cost of disinfecting.

The secretary of the board has been called upon to send several samples of water to the State labratory to be analyzed during the year.

Respectfully submitted,

ANDREW B. STONE,	} Board of Health.

## SCHOOL REPORT.

The time has arrived once more when it is the duty of the school board to submit its annual report.

The schools as a whole have been a success. The teachers we have had during the past year, with one or two exceptions, have been satisfactory both to scholars and parents. The school boards of towns like ours labor under a disadvantage, for when we get a first-class teacher, it is soon found out by other places that can pay higher wages, and such towns get them.

One thing we again wish to call your attention to is the attendance. You will see by the report that it is only .811, which is not as large as it should be. When one scholar is absent from his class it is not only an injury to that scholar, but to the whole class.

We have not made any changes in text books this year and the books are in fair shape, but if parents would see to it that the books were well treated when the scholars have them at home it would help keep them in repair and save expense in the purchase of new ones.

The town at its last annual meeting raised more money than it has for some years, so that we have been enabled to have longer terms than for several years. We would suggest to the citizens that they continue doing so, for when we consider that it is but a short time before the boys now in school will be the ones that will be doing the business of the town and that the most of them will never receive any school advantage only what they get in our district schools, we should give them all the advantage that we can.

The school houses are in good repair with the exception of one or two which will need to be shingled.

The board wish to thank scholars, teachers and parents for the courtesy shown.
