Superintendent's Report

To the School Board and Citizens of Sandown:

I am privileged to submit for your consideration this annual report, the seventh in this series.

THE SCHOOL AND DEMOCRACY

“The free common school is America’s greatest gift to Humanity. It belongs to the heritage of intelligent and responsible citizenship established by our pioneering forefathers. It is necessary to the success of our Republic. The School is the surest guarantee of our personal rights. It is the safeguard of our political liberties. It is the bulwark of our representative institutions. The school seeks to enrich and ennoble home life. It develops the skills needed in agriculture and industry. It helps to awaken ambition and to establish character. It emphasizes responsibility to the common good and the general welfare. Because we believe in ourselves, in democracy, and in the future, we seek through the schools to improve the quality of our lives.”

TEACHERS

I am ever mindful of the excellent work which a faithful, trained group of teachers is able to accomplish. They have shown evidence of energy and efficiency in school procedures which is of great importance to the affairs of this world, namely in the education of the great masses. We understand the great trials and tribulations with which they are confronted. No one appreciates more than I the service they are able to render in the solution of the problems so many differing personalities offer to them.

You will note that a change in the teaching corps took place for the opening of the present year. Miss Ball left to take another position, with Miss Gustafson replacing her at the Clark School. Miss Gustafson comes to you after a number of years of experience in other towns and carries the work forward very successfully. You are indeed fortunate to secure an experienced teacher. Under conditions which prevailed a few years back, such a thing would seldom be possible because experienced teachers sought only single grades or a few grades, not a position in which all the grades were located.

EDUCATIONAL PROGRESS

The progress of your pupils may be illustrated by these results taken from the May 1935 tests.

	Reached or bettered the grade	Below Grade
Grade I	4	0
Grade II	6	0
Grade III	7	0
Grade IV	4	1
Grade V	4	0
Grade VI	4	1
Grade VII	6	0
Grade VIII	2	0

This table illustrates a most satisfactory condition, namely the small percentage of pupils below grade. It is a happy factor and one, I assure you, which I wish prevailed on all the other towns of this Union. But alas that is not to be. However this does not detract one iota from the satisfaction you must feel that your pupils succeed so well under such able instruction.

Distribution of the 1934 - 1935 School Dollar

The following table shows just what proportion of each dollar available for school purposes was used for the separate items:

Administration

Include Supt. Excess, Officers' Salaries and Expenses	.052
---	------

Instruction

Include Teachers' Salaries, Textbooks, and Supplies	.448
---	------

Operation and Maintenance

Include Fuel, Janitors, Lights, Repairs	.053
---	------

Auxiliary Agencies

Include Nurse, Transportation, Tuitions	.420
---	------

Fixed Charges

Include Per Capita Tax, Insurance	.026
-----------------------------------	------

Outlay for Plant or Equipment

Include Major Repairs, New Equipment	.000
--------------------------------------	------

As the major share of the amount listed opposite Auxiliary Agencies is for the payment of High School tuition-based upon the instructional expense of the High School — it is readily seen that Instruction takes up nearly 70% of the total expenditures.

The School Plant

The only recommendation I wish to make is for more sanitary toilets. I believe you should enlarge the

shed at the Clark School to provide more space for fuel and build vaults with tight covers and ventilators. The same might well apply to the Pine Grove School also.

Schools of Today

Whatever may be wrong with this country the public schools cannot be charged with the whole responsibility for it. Yet we are well aware of the many criticisms that are directed at them. We are quite sure that errors are evident yet we strive to reduce these to the lowest minimum. We believe that education of today is a sane procedure to help the individual realize on his possibilities. We aim to develop character, to impress neighborliness and duty, to improve social responsibility, and to prepare youth for the life they must live whether they desire to or not. We must not allow our schools to become outmoded. We must be progressive to meet the changing conditions the same as industry has to or is forced by circumstances beyond its control. The schools must go on.

I would not be unmindful of the generous support given me by the corps of teachers, the helpful advice of a faithful Board, and the loyalty of an active citizenry. To all I express my gratitude.

Very Respectfully,

HAROLD C. BOWLEY,

Superintendent of Schools
