Fifteen magazines are purchased and a number given.

Three thousand six hundred seventy-two books and one thousand nine hundred magazines have been loaned.

The Bookmobile still continues to give joy to the town, having been here seven times. The last time November 28th, it left one hundred nine books at the two schools at South Acworth, forty at Acworth and twenty-seven at the library. It also stops at various homes.

Respectfully submitted,

JENNIE E. SMITH, Librarian.

SUPERINTENDENT'S REPORT

To the Acworth School Board:

I herewith submit my tenth annual report as your superintendent of schools.

This year the sixth grade has been collected in one class at South Acworth. This arrangement has left only the five lower grades at Acworth Center with Miss Hazel Lewis as teacher. There are two schools at South Acworth with Miss Phyllis Adams as principal and teacher

of grades 1, 2 and 3 and Miss Eleanor Rock teaching grades 4, 5 and 6.

Miss Lewis and Miss Adams are successful teachers who remained from last year's force. Miss Rock is an experienced teacher who has proved herself as very able in organizing a school room into a quiet work-room and in making a class room interesting and pretty with the children's own work.

In spite of irregularities due to sickness this year I feel sure a good year's work will be accomplished in each of the schools. I wish every parent would visit the three schools and see for themselves the excellent work being done by your teachers and pupils.

At a special school meeting last summer it was voted that the South School Building should be repaired, the grounds leveled and a good fence built around the grounds. The building was found to be in even worse condition than was expected. It has been made safe as possible and in a condition that it can be kept fairly warm.

The school board by law is not allowed to spend more than 5% of the school money for repairs with a special appropriation for that purpose. Different interpretations could be made of this law allowing from \$443.29 to \$514.55. After the building was repaired to a reasonable amount there was not enough left to do anything about the grounds or fence.

Personally it seems to me that it will be less expensive to buy a new lot and build a modern building than to spend a rather large sum on the present plant. I fear that in a few years with the changes that are being made, new regulating will force the evacuation of the lot and building for school work. I am sure that it would be better for the children to have running water, modern rest rooms, a furnace in a basement, and correct light, in a building with two class rooms on the ground floor.

I wish to thank the citizens, school officials and teachers for their help and kindness.

Respectfully submitted,

WALTER L. MASON
