## Superintendent's Report

---

*To the School Board and Citizens of Bartlett:*

The total number of pupils in school at this date is 158 as compared with 186 at this time last year, and a total registration of 226 during the year of 1941-42. This indicates a considerable shift of population due probably to war conditions and not necessarily permanent.

In spite of the shortage of teachers we have been fortunate this year in securing a complete staff of competent and experienced teachers, and the quality of the instruction has been unusually high. We can make no prediction for the future, but shall hope that our luck will continue.

The high school has suffered from war conditions which have affected all high schools, large and small, throughout the country. Many boys and girls of high school age have left school to take jobs, while practically all men teachers of draft age are in the armed forces. Three years ago we inaugurated a plan in our high school of offering courses in alternate years, combining for instruction grades 9 and 10, and grades 11 and 12. This has been approved by the state board of education and has been commended by practical school experts who are acquainted with the problems of small high schools. It has worked very successfully with us and we are able, with only two teachers to offer the complete high school course in English, mathematics, science, history and sociology, and three years in a foreign language, thus meeting the requirements for admission to college. There is no question of the desirability of the addition of courses in mechanic and domestic arts, but under present economic conditions the cost for Bartlett is absolutely prohibitive. When one realizes that these courses cannot be given without a great deal of expensive equipment and only by specially trained teachers, it is evident that at this time the matter has only

academic interest. The minimum initial cost would be not less than \$2000 and the operating expense of the high school would be increased from 50 to 100 per cent. The town of Bartlett can take pride that during the depression and the present crisis it has maintained a standard high school approved by the state board of education and giving high school opportunity to scores of young people who otherwise could never have attended high school.

The teachers at the Bartlett graded school deserve commendation for planning hot lunches for the winter months.

The graded schools at Intervale and at Bartlett should be painted as a matter of economy. Aside from the minor repairs and expenses which are routine, I know of nothing else that cannot wait till a more favorable time.

Respectfully submitted

JOHN H. FULLER
