OF THE

COUNTY COMMISSIONERS

OF

HILLSBOROUGH COUNTY, N. H.,

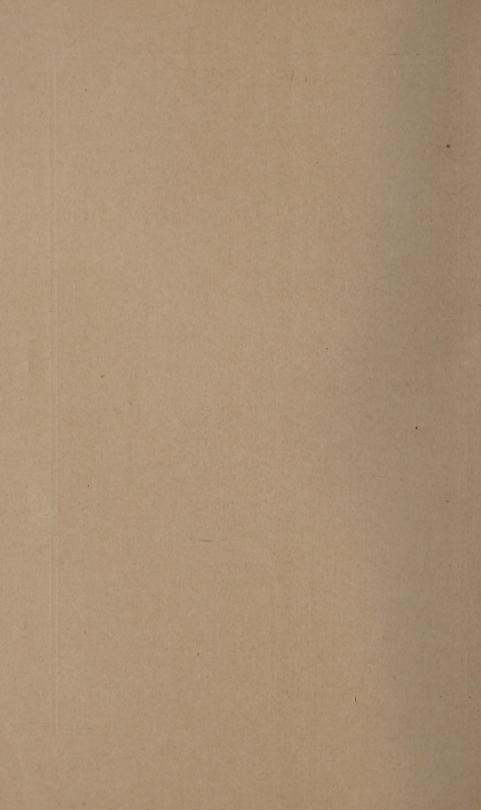

WITH THE REPORTS OF THE

COUNTY TREASURER, PHYSICIAN, CLERK OF COURT, ETC.

FOR THE

YEAR ENDING APRIL 30, 1882.

NASHUA, N. H.: "TELEGRAPH" STEAM POWER BOOK AND JOB PRINT. 1882.

ANNUAL REPORT

OF THE

COUNTY COMMISSIONERS.

To the People of Hillsborough County:

The Commissioners of this County take pleasure in complying with the law requiring them to make an annual statement of the affairs of the county coming under their supervision. The Treasurer's report shows a reduction of the county debt during the past year of \$11,488.55. There was appropriated for the past year the sum of \$76,000, a reduction of \$20,000 from what was appropriated the year previous. During the past three years the county's indebtedness has been reduced \$74,000. The total debt is now \$101,659, which for a county whose valuation is over \$40,000,000 is not very large.

The different departments over which we have a general supervision have been managed with that economy that the public require, and at the same time none of those departments have suffered by a parsimonious spirit on the part of the Commissioners.

The question of giving relief to those who have no town settlement is a very important one, and good judgment should be assured on the part of those who dispense it, to see that those do not receive who are not deserving, for there is always a class of people asking public charity, without ever making an effort to support themselves. Thousands of dollars could be given out to this class, and virtually thrown away, without an investigation was made. The deserving poor have never been turned away, but have ever been assisted according to their needs.

The affairs at the County farm have been managed exceedingly well during the past year. We can fully commend Mr. and Mrs. Stiles, the superintendent and matron, for the interest they have taken in their several departments. Mr. Stiles has shown good business talents in purchasing his supplies, and has practised economy in all things that have come under his supervision, and at the same time has provided well for those over whom he has the charge.

The farm has produced good crops and many permanent improvements have been made. Mrs. Stiles has given all her time to the arduous duties devolving on her, and the county is deriving the benefit of her experience in this, and other like institutions. Both are particularly adapted for the position, and the county is fortunate in having their services. In places like the almshouse, where all kinds of people are gathered, the young, the old, the sick and insane, it requires persons to govern them who have firmness tempered with mercy, and that are ever ready to admin ister to their wants.

The assistant matron, Miss Nettie M. Giddings, has very acceptably filled her position which is a responsible one, having charge of the insane wards. These unfortunate beings under her care have been kindly dealt with, and everything in her department has been kept with extreme neatness.

The school, under the care of Miss Josie I. Maeder, has shown a marked improvement during the past year. The largest number of scholars has been thirty-seven, the average attendance twenty-nine. All the primary and middle branches are taught, and the proficiency attained has been very good, comparing favorably with any school of the same grade in the county.

Mr. Carr, who has taken Mr. Hunkin's place as assistant superintendent, has filled the position with credit to himself, and has shown good judgment in performing his usual duties.

The sanitary condition of the almshouse has been good. In an institution like this, in which are gathered every period of life, from infancy to extreme old age, many of which were enfeebled by disease when sent there, the death rate has been very small. We think that Dr. Hatch, the attendant physician, has been unremitting in his care of those who have needed his services.

There has been a larger number of inmates at the farm during the past year than ever before, yet the cost per head has been less than in previous years.

During the past year there has been built at the County Farm a building two stories and a half high, with a basement under the same, four feet above ground. One half of the basement is used for washing purposes, in which tubs are set, through which steam pipes are run to heat the water. Adjoining this room is the drying room, over the boiler house, its easy access saving much time and labor. The other half of the basement is used for a sitting room, where in cold or stormy weather the men can sit, and if so disposed, can indulge in a quiet smoke of the pipe. (And here we would say, that no smoking is allowed in any other place on the premises.)

The first story is divided by a hall running through the centre on either side of which are rooms neatly finished by being painted and grained. These are all heated by steam, and are intended to be occupied by man and wife who have both met with the mishaps of life and are obliged to seek a resting place for their remaining days. One half of the second story is used for a school room, fitted with all the modern improvements, well lighted and properly ventilated.

The other half is the sitting and sleeping room for girls. The upper story is the dormitory for the boys, furnishing them with commodious quarters. The whole building is heated by steam, and built in a substantial manner, and is in every way a first class structure, and has been built at a small cost of \$2,806.62. The want of such a building as this has long been felt, and the citizens of the county, when they go to examine it, can but feel gratified that the want has been supplied.

There needs to be built an addition to the insane wards the coming year, as they are now quite full and the number is constantly increasing. The expense of boarding persons at the State Insane Asylum has been greatly reduced within the past six years. In 1876, the County paid for board at the Asylum the sum of \$2,572.93, and this year \$315.45. The Commissioners are satisfied that the class of insane that are kept at the farm are just as well cared for as they could be at any other place. As a general thing they are cases of chronic nature that never will be any better. Many of them are idiotic, without a possible hope of ever being again rational beings. There are now at the County Farm some fifty persons who are insane or partially so, which if kept at an insane asylum would cost an excess of \$7,-Soo more than it now does to support them at the farm.

The Jail expenses during the past year have been 66,609.32 against 66,444.17 last year. The business of bottoming chairs still continues, for which the jailor pays into the county the sum of 400.00 free of all expense. We are of the opinion that the affairs at the jail are managed in an excellent manner. Good discipline is maintained without severity and the prisoners are humanely treated, yet at the same time they are made to feel that the lot of those who transgress the laws is not a happy one.

In closing this report we would say a few words in regard to the unfavorable location of the County Farm. This subject has before been mentioned in former reports, and we are free to say that it costs the tax payers of the county more than one thousand dollars more per year to maintain it in its present location than it would if it were in a more central position. The expense of transporting supplies is large, also the cost of sending paupers, as a large proportion of them go from cities far removed, and in the winter months it is almost inhuman to carry them so long a distance in their often feeble state of health, and if not able to be sent, they have to be provided for in some other way at a much larger expense. Yet the establishment is there, and there seems to be no way left but to make it as comfortable as possible for those whose lot it is to be its inmates.

> GEORGE A. WASON, H. B. PUTNAM, JOEL C. ANNIS, County Commissioners.

The number of weeks board furnished to paupers, for the year ending April 30, 1882, was 12,324; dividing that number into \$20,374 65, the balance against the farm, will give \$165 and a fraction, the cost of board, and subtracting \$4,452 56, the amount paid for permanent improvements, will give the cost of board a fraction less than \$1.30 per week for each pauper.

			Amount paid for paupers at farm.		Total.

SUPERINTENDENT'S REPORT.

To the Board of Commissioners for the County of Hillsborough.

GENTLEMEN, — In commencing my report to you, it is but right that I should say that the year just closed has been one of unusual prosperity at the institution over which you have control. Although a larger number than has ever been accommodated in any one year before has claimed its benefits, still the cases of sickness and death are no greater than usual and no epidemic has appeared among the inmates.

I desire to extend to each and every one of the officers of the institution my thanks for the manner in which they all discharged their several duties. The labors of the superintendent and matron have been greatly lessened by the faithful manner in which their assistants have performed their duties.

During the past year a new building has been erected, which has long been needed. It provides for the accommodation of married people without separation, a provision which has never before existed here. -

A part of the second story serves as a schoolroom, while the remainder is used as sleeping apartments for girls. The attic furnishes accommodation for from 25 to 30 boys, thus removing the younger portion of the inmates of both sexes from contact with the older, thereby avoiding any pernicious influence, which might be exercised in some cases.

The basement is fitted up with all conveniences for washing τ hot and cold water being constantly supplied; also with all facilities for bathing. We are now at work upon a silo, and have nearly completed the stone work of a pit 15x30 feet and 20 feet deep, capable of storing 210 tons of ensilage. The work of digging the pit, laying the stone, &c., has all been done by inmates, except the labor of one man hired to superintend the stone work.

During the year an 18 inch sewer has been constructed to carry off the surface water that formerly accumulated around the buildings, and becoming stagnant gave off offensive odors. This has been pronounced one of the most important improvements of the year.

An ash pit 16 feet square has been built, it is intended to compost therein the ashes from the boiler and other fires, together with the bones and refuse of all kinds, making them into a fertilizer of value.

During the year there was made at the blacksmith shop on the farm 51 new iron bedsteads, equal if not better than those for which the county paid \$8.50 apiece, the material for which cost \$2.30 each. The labor upon these bedsteads was done by in-mates.

I desire to call your attention to the fact that the female insane ward is not large enough to accommodate all whose condition requires them to be placed therein. I would suggest that it be enlarged at an early day.

The sanitary condition of the institution during the year has been excellent, and Dr. Hatch, the physician, has been faithful and attentive in the discharge of his duties.

To the ladies and gentlemen who contributed so liberally of money and presents to be distributed from the Christmas tree to the children who are inmates of the institution, the matron extends her hearty thanks, and would say that if they could have seen the joy that beamed on every face as the gifts were distributed to them, they would have been amply repaid.

In closing I desire to express my thanks to the Board of Commissioners for their kind consideration and unvarying support at all times. Respectfully submitted,

> C. A. STILES, Supt. of County Farm and House of Correction.

PHYSICIAN'S REPORT.

To the Honorable Commissioners of Hillsborough County.

GENTLEMEN,—Allow me to render my report of the sanitary condition of the Hillsborough County Almshouse for the year ending April 30, 1882.

The health of the inmates during the year has been good, considering the number cared for and their condition in life.

We had seven cases of scarlatina, but by isolating them, which we were able to do by placing them in the new building, we prevented a spread of that dread disease.

Most of the deaths were among the aged, but one child died during the year.

My thanks are due to the Commissioners, the Superintendent and Matron, for the courtesy shown me during the year.

CHAPLAIN'S REPORT.

To the Honorable Commissioners of Hillsborough County.

GENTLEMEN,—I have the honor to report that my official duties have been performed at the County Home the past year, I am inclined to believe with some good results. Though my pecuniary compensation for the same is small, one half of which being usually required to pay travelling expenses, still the religious services required of me as a preacher of the Gospel are such a great source of happiness to me, that no amount of pecuniary consideration can equal the moral good those services afford me, and may also afford others, who are in consequence of the same made to feel, in their inmost experience, Gospel truth to be "the power of God to their salvation" from sin to holiness.

For the moral wealth of the Gospel to the, practical believer, augments immeasurably the value of every other form of good, which it touches and controls. This kind of wealth bears the Divine stamp of the highest imperishable values. There is not a treasure in God's universe, that can minister to the happiness of man, that it will not purchase the enjoyment of it. This will ever be so while it remains true, "that all things work together for good to them that love God," and prove their love to Him in keeping His commandments.

Abundant evidence has been furnished, the past year, by the officials of the institution, that all the interests of the same have been well cared for, making it to its inmates a place worthy the name of a Home. A much needed new building has been erected the last year, furnishing increased accommodations for the in-

à

anates, especially for the aged, the sick and children. One large, pleasant room in this new building, is fitted up with improved enodern furniture for a schoolroom, into which are gathered daily between thirty and forty children for mental instruction, and on Sundays for religious iustruction. This school is under the management and instruction of Miss Josie Maeder, a young lady who has lived almost her whole life in the family of the Superintendent, showing most deservedly the affection the same as a daughter. She has furnished full evidence of her qualifications for her position, in the success with which her efforts have been crowned.

The hearts of her children, and not a few others, were made glad by the manner in which Christmas was observed at the Home, under the guidance of the Divine Spirit of Christ.

Various and numerous presents were distributed among them, pleasant songs were sung by the children and remarks were made by the visitors. Everything was nicely arranged, and the occasion was a highly enjoyable one and reflected great praise on all those who contributed in various ways to make it a success. None of the epense was incurred by xthe county. Twenty-five dollars for the purpose was realized as the proceeds of an entertainment given by the children and some other officials at the Home, in Depot Hall, under the direction of the Matron, Mrs. Stiles. The exercises consisted of singing, declamations and readings. The readings were a gratuity, very finely rendered by an accomplished young lady, Miss Ida Dawes, of Malden, Mass., a member of the Lecturing "Boston Bureau." Several others also contributed money or presents.

> Respectfully submitted, I. SUMNER LINCOLN, Chaplain.

AUDITORS' REPORT.

The auditors of Hillsborough County appointed to examine and audit the accounts of the County Commissioners and the County Treasurer, have attended to their duty and respectfully present their report.

They find vouchers for all orders of the commissioners given upon the treasurer, and in their judgment the funds of the county have been judiciously and economically expended as shown by their report.

The accounts of the treasurer are also correctly cast and properly vouched.

> H. K. SLAYTON, W. W. BAILEY, Auditors.

MANCHESTER, N. H., MAY 23, 1882.
