Report of Superintendent

To the School Board and Citizens of Bartlett:

At the close of last year we had two vacancies to fill in the teaching staff. Mrs. Wanda Pennett, who had been with us seven years, resigned as did Miss Pauline Webb who had been teaching the intermediate grades for one year.

Mrs. Pennett deserves a word of appreciation at this time for her long and faithful service as an outstanding teacher and builder of school morale.

It was only late in the summer that we found replacements. Miss Laura Rosebrooks takes Mrs. Pennett's position and Mrs. Pauline Morton takes over the intermediate room in the grammar school. We were very fortunate in both instances.

The situation in regard to teachers is very critical. There are about two professional teachers for every three positions, and we are dependent on former teachers who have returned to work, wives of servicemen, and some emergency teachers often with little training and aptitude. Many of these will return to their homes at the end of the war, and as the number of teachers in training is far below normal, the peak of the scarcity will not be reached for several years. Further, in 1948 there will be about half a million more elementary pupils in our schools than now on account of the increasing birth rate. The only safe long term policy, if we wish to keep schools open, is to encourage with better salaries superior men and women to make the requisite preparation for teaching as a profession and not as a make-shift.

For several years we have employed three instead of four teachers in the Bartlett graded school. This was done in the first instance as an emergency measure when Mr. Brennick was called into the armed forces very suddenly and no replacement was in sight. There were only 90 pupils in the school that year, but there has been a considerable increase since

then in the lower grades. The enrollment will undoubtedly increase and I recommend that sufficient money be raised so that the school board can engage another teacher for next year.

While it was touch and go last summer as to whether we could complete our staff for the current year, I think a great deal of the credit should go to the goddess of Luck. May we still have her favor.

Respectfully submitted,

JOHN H. FULLER

REPORT OF SCHOOL NURSE

The following is a summary of the health work done in the schools from September 11, 1944 to February 1, 1945.

Physical examinations were done by Julia T. Cox, R.N. The following data explain the number of pupils having defects and their corrections:

<i>Type of Defect</i>	<i>Number of Pupils</i>	<i>Under Treatment</i>	<i>Corrected</i>
Vision	22	6	7
°Teeth	52	3	13
Tonsils	30	0	0
Hearing	1	0	

°Approximately 30% of the teeth defects have received attention since school opened in September. Parents should watch the six year molars (the sixth tooth from center to back), as they are the first permanent teeth; coming in at about six years of age. Far too often these teeth are mistaken for baby teeth and are so badly decayed that they must be pulled. This is a great tragedy as they are the four corner posts of the mouth.

Number of pupils examined	172
Number of school visits	41
Number of home visits	24
Number of pupils transported home	1
Number of pupils transported to oculist (Wolfeboro)	1
Number of pupils transported to optometrist (North Conway)	5

Number of pupils vaccinated	170
Number of pupils vaccinated (did not take)	2
Number of pupils excluded for communicable and skin diseases:	
Chicken pox	7
Mumps	3
Skin diseases	2

Valuable assistance has been rendered by the Red Cross, by the Sight Conservation Program, and by the Public Welfare department, in the correction of defects. The interest taken by these organizations is more than appreciated, and is certainly a wise and worthwhile investment for our community.

Respectfully submitted,

JULIA T. COX, R.N.
