	1913-1914
	1914-1915
Hon. George F. Rich	1915-1916

.

## Inaugural Address.

## Delivered by the Mayor, Hon. George F. Rich, March 29, 1915.

#### To the Honorable City Council:--

In accordance with a long established custom it is my duty at this time to briefly review the work of the City Government for the past few years and make such suggestions, or recommendations for our future conduct as may at this time occur to me.

As has been well said by another, "We live in the present, but for the future, and in order to understand and prepare ourselves for the future we must study the past."

We have been chosen by the legal voters of the City and its different wards to transact the public business and we should keep in mind at all times that it is our duty to so administer the affairs of our city as to bring about the greatest good for the greatest number.

To those of you with whom I have been associated during the past year as a member of the City Council, I wish to say that I hope and trust that our relations during the coming year may be as congenial and pleasant as they have been during the past year, and to those of you who have today been sworn in as new members of this body, I extend my heartiest welcome and ask for your co-operation in our ndeavors to serve the people of the city well and faithfully.

### Finance.

From the report of our Auditor it appears that on January 31, 1915, our gross city debt was \$390,979.11, and our net city debt was \$279,792.67.

In computing our net debt the sum of \$54,356.04 representing taxes due the City for the years 1907-1914, inclusive, is included among the resources.

By referring to the Tax Collector's account you will observe that between the years 1907-1913, inclusive, there are outstanding nearly \$28,000 of taxes, which show on the books as an asset. In my opinion this asset is not worth \$5,000 as it is practically all uncollectable, or of very doubtful value, a large proportion of which is for poll taxes.

This matter has been brought to the attention of the Assessors in years past and about two or three years ago they apparently came to this conclusion and began to put on a large over-lay, something like \$4,000 or \$5,000 per year. This was done last year, but unfortunately we were obliged to make an appropriation of \$4,000 for the Brown school after the Assessors had made up their figures, which practically wiped out their over-lay.

It appears to me that the most practical way to get rid of this dead asset is by continuing the policy of appropriating up the limit on an over-lay and gradually wiping out these dead taxes. It will take some years to do this, but I think you will agree with me that something of this kind should be done.

By referring to our Auditor's report, which is to be found on page 262 of our annual report, you will observe that the net overdrafts for the past year have amounted to \$16,660.22 and I regret to say that a net over-draft has not been an unusual thing in the past few years and you will realize, of course, that it means to a certain extent that the City has been going behind financially just the amount of such over-drafts and it has been suggested to us by our Auditor from time to time that the net overdraft should be put into the next year's tax levy as an appropriation to cover over-drafts. While such an action would appear somewhat of a hardship it is the only way that I can see for overcoming the excess of expenditures.

My experience in town and city affairs has convinced me that it is very bad policy to allow any department to overdraw its appropriation. Of course, there are times when unforseen emergencies arise which cannot be provided for in the appropriation, but it does seem as though the department heads should make an estimate of their requirements which would be at least large enough to cover the work.

The Finance Committee, of which I had the honor of being a member during the past year, in their report, as published in our annual report, (page 257) after careful consideration has recommended appropriations to the amount of \$199,408.57, which includes the sum of \$16,660.22 to cover over-drafts of last year. The amount which we have recommended would be an increase of \$11,398.42 over the total amount of taxes assessed for the year 1914, and unless there should be an increase in our valuation, would necessarily result in a slight increase in our tax rate, but I am in hopes that our valuation will be increase to some extent so that there will be no necessity for an increase in the tax rate.

Since this report of the Finance Committee was submitted our County Delegation has met and made much larger appropriations for the coming two years than was the case during the past two years, in consequence of which, our county tax the coming year will be approximately \$12,000, instead of \$7,864.35 as was estimated by the Committee or an increase of more than \$4000 which will necessarily make our appropriations that much larger than we anticipated. This is something over which we have no control and the amount called for must be paid.

The general depression in business throughout the country and the large direct tax which is now being levied by the Federal Government in the form of income taxes and stamp taxes, would seem to demand from us the strictest economy.

During the past few years the City has made many substantial, but expensive, improvements, which have increased our debt to large, though not alarming proportions and whether the making of the improvements at the time when they were made, was wise or unwise, we owe for them and the debts must be paid.

## Department of Public Works.

This department includes Streets, Sidewalks, Sewers, Civil Engineering, Sprinkling Streets, Cleaning Streets, and Garbage Collection and is the most expensive department of our City Government. Last year there was an over-draft in this department amounting to \$9,760.93, making a total expenditure of \$47,478.90.

In addition to the ordinary needs of this department the coming year I should favor the expenditure of \$3,500 on the highway between the Paine Bridge, so-called, and the Milan line, on the west side of the Androscoggin river, and the sum of \$3000 between Cross' Machine shop and the Gorham line, provided the State will contribute like amounts for that purpose, which I am led to believe will be done. These roads are not only used to a large extent by our own citizens, but are a part of the East Side Boulevard, and are used by tourists who have occasion to pass through our city in large numbers during the summer season.

#### Fire Department.

This department is well organized and is a credit to our city. Last year there was a saving from the appropriation and other receipts, amounting to \$2,975.88. With the exception of some new fire hose there would seem to be no need of any other equipment and it is quite likely that there may be some saving in this department during the coming year.

### Police Department.

The affairs of this department are managed by a Board of Police

Commissioners appointed by the Governor and Council, over whom the Mayor and City Council have no control. There was an overdraft in this department during the past year amounting to \$460.28.

The recommendations of the Board of Police Commissioners in regard to appropriations for this department should largely control, but now that the receipts from our Municipal Court are to be turned over to the City, we should be able to make a substantial saving in this department.

## Public Schools.

It is my firm belief that our public schools are today better organized and equipped and are doing better work than ever before. A new school building is needed in that section of our city known as Ward One and sooner or later will have to be provided, but under the present condition of business in this city, I should doubt very much if it would be wise to attempt to build this school house during the present season.

Our Board of Education has shown good judgment in the management of the affairs of this department and are to be congratulated upon the good results which they have obtained.

There was an overdraft in this department during the past year of \$1,325.88 and I should recommend that some increase in the appropriation for this department over that of last year, be made.

The report of the Board of Education will be found in our annual report, beginning on page 123, and should be carefully read by every citizen.

## Public Library.

Our Public Library has been well and economically managed during the last year and no changes in regard to the same seem to suggest themselves at the present time, and it would seem as though the same appropriation as that of last year would be sufficient.

#### Health Department.

Notwithstanding the fact that reliable statistics recently published show that New Hampshire has the highest death rate of any state in the Union, we have been remarkably free from epidemics of contagious and infections diseases and our Board of Health and Health Officer seem to have performed their duties in an energetic and systematic manner.

This department is now comfortably located in our new City Hall and well equipped with expensive and awe-inspiring paraphernalia and now that it is so well equipped and comfortably located there should be some saving in the expense of this department over that of last year.

## Department of the Poor.

The poor and unfortunate in our city have been carefully and suitably provided for during the past year with a remarkably small appropriation, out of which there was a saving of \$394.90. Under present conditions of business I should expect that there would be more demands upon this department during the coming year and I should recommend that the appropriation for this department be the same as that of last year.

## Law Department.

The affairs of this department during the past year have been well managed. The report of our Solicitor will be found on page 54 of our annual report and shows the present status of the various cases now pending, in which the City is interested.

## Conclusion.

The presence here today with us of so many of our former Mayors, assures me that it is possible to serve the City of Berlin as Mayor and then have the courage to come back and look the voters in the face.

Changing conditions will bring about new problems and we should keep abreast of the times and be prepared to solve these new problems as they may arise, without entirely losing sight of the landmarks of the past. Our fathers builded wisely and before we make any great departures from the beaten path we should be sure of our ground and convinced that the change is for the best. Let us go about our duties in a conscientious and painstaking manner, giving the people of Berlin the benefit of the best that there is in us and after we have done that, we may expect the reward, "Well done, good and faithful servants."

Respectfully submitted,

GEORGE F. RICH, Mayor.

March 29, 1915.

## Ordinances.

In the year of our Lord one thousand nine hundred and fifteen. AN ORDINANCE relating to the erection and maintainence of bill boards. Be it ordained by the City Council of the City af Berlin as follows:

SECTION 1. No person shall erect or maintain any bill board within ten feet of the street line or the front building line of the next building adjoining, fartherest from the street line, that is used as a public building, dwelling, tenement house, hotel, office or store building.

SEC. 2. All billboards shall be independently supported on substantial posts and be thoroughly braced and anchored against wind pressure. Said billboards shall be erected on said posts at a distance of not less than three feet from the ground.

SEC. 3. No person shall erect or maintain any bill board in accordance with sections one and two without a license from the City Council for that purpose.

SEC. 4. All applications shall be in writing and signed by the petitioner. They shall designate the places where said billboards are to be erected and shall contain such conditions and restrictions as the City Council may require. All licenses shall continue in force for one year from the first day of each April unless sooner revoked.

SEC. 5. If any person shall violate any of the provisions of this ordinance he shall be punished by a fine of not less than one dollar (\$1) nor more than ten (\$10) dollars for each offence.

Passed July 6, 1915. Approved,

GEO. F. RICH, Mayor.

Attest:

C. M. DAVIDSON, City Clerk.

In the year of our Lord one thousand nine hundred and fifteen.

AN ORDINANCE relating to the erection of certain structures on the street lines.

Be it ordained by the City Council of the City of Berlin as follows :

SECTION 1. No person shall build or erect any fence, retaining wall, or other structure on the line between his property, and any

#### ORDINANCES.

street, highway or other public property of the City of Berlin without having first obtained from the City Engineer a written permit to build or erect such structures.

SEC. 2. If any person shall violate any provision of the preceding section he shall be punished by a fine not exceeding ten (\$10) dollars for each offence.

SEC. 3. This ordinance shall take effect upon its passage. Passed September 28, 1915. Approved,

GEO. F. RICH, Mayor.

Attest:

C. M. DAVIDSON, City Clerk.

## Orders.

## Resolutions.

In the year of our Lord one thousand nine hundred and fifteen.

A RESOLUTION to raise money for the purpose of paying overdue notes of the City of Berlin.

Resolved by the City Council of the City of Berlin, as follows:

That a sum not exceeding fifty-five thousand dollars (\$55,000) be raised by a loan or loans, for the purpose of paying City of Berlin notes as follows:

No. 123, dated May 23, 1913, for \$10,000.00, No. 125, dated June 6, 1913, for \$10,000.00, No. 126, dated July 20, 1913, for \$10,000.00, No. 132, dated June 20, 1914, for \$15,000.00, all now held and owned by the City Savings Bank, of said Berlin, and No. 133, dated June 17, 1914, for \$5,000.00, and No. 135, dated June 30, 1914 for \$5,000.00 both owned and now held by the City National Bank of said Berlin.

And that the City Treasurer be and he is hereby authorized to give the note or notes of said City not exceeding in the aggregate said amount of fifty-five thousand dollars (\$55,000) at a rate of interest not to exceed four and one-half ( $4\frac{1}{2}$ ) per cent.

Passed April 6, 1915.

Approved,

GEO. F. RICH, Mayor.

Attest,

C. M. DAVIDSON, City Clerk.

In the year of our Lord one thousand nine hundred and fifteen.

A RESOLUTION to raise money in anticipation of taxes.

Resolved by the City Council of the City of Berlin, as follows:

That a sum not exceeding ten thousand dollars (\$10,000) be raised by a loan or loans, for the purpose of paying the current expenses of the various departments of said City in anticipation of taxes for the municipal year, A. D., 1915, to be paid from the taxes of said year; and that the City Treasurer be and he is hereby authorized to give the note or notes, of said City not exceeding in the aggregate said amount at a rate of interest not to exceed four and one-half  $(4\frac{1}{2})$  per cent.

Passed April 6, 1915. Approved,

GEO. F. RICH, Mayor.

Attest:

C. M. DAVIDSON, City Clerk.

In the year of our Lord one thousand nine hundred and fifteen.

A RESOLUTION regulating and establishing fees for liquor licenses of the second and third class in the City of Berlin for the four years beginning May first, nineteen hundred and fifteen.

Resolved by the City Council of the City of Berlin, as follows:

That the fees for liquor licenses of the second class shall be established at twelve hundred dollars (\$1200) and for licenses of the third class at eight hundred dollars (\$800), in accordance with Section 32 of Chapter 95 of the Laws of the State of New Hampshire passed at the Session of 1903.

Passed April 6, 1915.

Approved,

GEO. F. RICH, Mayor.

Attest:

C. M. DAVIDSON, City Clerk.

In the year of our Lord one thousand nine hundred and fifteen.

A RESOLUTION to exempt the Whitney Opera House Block, so-called and the lot on which it stands, situated on the southwesterly side of Mechanic street, from taxation for a period of ten years.

Resolved by the City Council of the City of Berlin, as follows:

That the Whitney Opera House Block, so-called, situated on the Southwesterly side of Mechanic street in said Berlin, and the lot on which it stands, shall be and hereby is exempt from taxation for a period of ten (10) years, upon the condition that the same is to be used for manufacturing purposes during that period by the Berlin Knitting Company, its successors or assigns, in accordance with the provisions of Section 11, of Chapter 55 of the Public Statutes of New Hampshire and amendments thereto.

Passed April 13, 1915. Approved,

GEO. F. RICH, Mayor.

Attest:

C. M. DAVIDSON, City Clerk.

In the year of our Lord one thousand nine hundred and fifteen.

A RESOLUTION to amend the Resolution passed April 6, 1915, authorizing the City Treasurer to issue \$55,000 notes for the purpose of paying overdue notes of the City of Berlin and to ratify and confirm acts done or performed under authority of said order of April 6th.

Resolved by the City Council of the City of Berlin, as follows:

40

#### **RESOLUTIONS.**

That the resolution passed April 6, 1915, authorizing the City Treasurer to issue \$55,000 notes of the City for the purpose of paying overdue notes of said City, be amended by adding to the same the following provision, to wit: That said note or notes shall be payable in four months from the date thereof, and that the date, rate of interest and other particulars as to form and issuance of said note or notes shall be determined by the City Treasurer, except in so far as said particulars may be determined by the Municipal Bonds Act of 1895, under authority of which said notes are to be issued, and that in all other respects said resolution and all acts done under authority thereof be and are hereby ratified and confirmed, so that said resolution shall read as follows: "That a sum not exceeding fifty-five thousand dollars (\$55,000) be raised by a loan or loans, for the purpose of paying City of Berlin notes as follows:

No. 123, dated May 23, 1913, for \$10,000.00, No. 125, dated June 6, 1913, for \$10,000.00, No. 126, dated July 20, 1913, for \$10,000.00, No. 132, dated June 20, 1914, for \$15,000.00, all now held and owned by the City Savings Bank, of said Berlin, and No. 133, dated June 17, 1914, for \$5,000.00, and No. 135, dated June 30, 1914, for \$5,000, both owned and now held by the City National Bank, of said Berlin.

And that the City Treasurer be and he is hereby authorized to give the note or notes of said City not exceeding in the aggregate said amount of fifty-five thousand dollars (\$55,000) at a rate of interest not to exceed four and one-half ( $4\frac{1}{2}$ ) per cent. That said note or notes shall be payable in four months from the date thereof, and that the date, rate of interest and other particulars as to form and issuance of said note or notes shall be determined by the City Treasurer, except in so far as said particulars may be determined by the Municipal Bonds Act of 1895, under authority of which said notes are to be issued, that in all other respects said resolution and all acts done under authority thereof be and are hereby ratified and confirmed."

Passed April 13, 1915. Approved,

GEO. F. RICH, Mayor.

In the year of our Lord one thousand nine hundred and fifteen.

A RESOLUTION to raise money in anticipation of taxes.

Resolved by the City Council of the City of Berlin, as follows:

That a sum not exceeding five thousand dollars (\$5,000) be raised by loan or loans for the purpose of paying the current expenses of the various departments of said City in anticipation of taxes for the municipal year A. D., 1915, to be paid from the taxes of said year, and that the City Treasurer be, and he is hereby authorized to give the note or notes of said City not exceeding in the aggregate said amount at a rate of interest not to exceed four and one-half  $(4\frac{1}{2})$  per cent.

Approved,

Passed July 13, 1915.

GEO. F. RICH, Mayor.

Attest:

C. M. DAVIDSON, City Clerk.

In the year of our Lord one thousand nine hundred and fifteen. A RESOLUTION to raise money to pay City of Berlin notes. Resolved by the City Council of the City of Berlin, as follows:

That the sum of fifty-five thousand dollars (\$55,000) be raised by a loan or loans for the purpose of paying the \$55,000 refunding notes of the City, dated April 18, 1915, due August 13, 1915, comprising Nos. 1-5 inclusive, of \$5000 each and Nos. 6 and 7 of \$15,000 each; that the City Treasurer be and he hereby is authorized to issue the note or notes of the City therefor, dot exceeding in the aggregate said sum of \$55,000 at a rate of interest not exceeding four and one-half ( $4\frac{1}{2}$ ) per cent, said note or notes to be dated August 13, 1915, payable three months from said date; and that the rate of interest and other particulars as to form and issuance of said note or notes be determined by the City Treasurer except in so far as said particulars may be determined hereby and by the Municipal Bonds Act of 1895, under authority of which said notes are to be issued.

Passed July 27, 1915.

Approved,

GEO. F. RICH, Mayor.

Attest:

C. M. DAVIDSON, City Clerk.

In the year of our Lord one thousand nine hundred and fifteen.

A RESOLUTION authorizing the issue of serial bonds of said City to the amount of \$90,000.

Resolved by the City Council of the City of Berlin, as follows:

That there be appropriated for the purposes hereinafter specified the following amounts respectively, to wit:

1st. For the purchase, erection and completion of an iron bridge to be built across the Androscoggin River northerly of the wooden foot bridge maintained by the Berlin Mills Company in that part of the City of Berlin known as the Berlin Mills Village, the sum of \$35,000.

2nd. To pay and retire outstanding notes of the City of Berlin, \$55,000. Be it further

RESOLVED, That the City Treasurer be and he is hereby authorized to borrow said sum of ninety thousand dollars (\$90,000) and for that purpose that the bonds of said City be issued to the amount of ninetythousand dollars (\$90,000) under the "Municipal Bonds Act of 1895" and Acts amendatory of and in addition thereto.

Said bonds shall be dated November 1, 1915, to be in coupon form, payable to bearer, maturing \$4,500 on November 1st of each of the years, 1916 to 1935 inclusive. Each annual payment to be divided into four bonds of \$1000 each and one bond of \$500; principal and

#### **RESOLUTIONS.**

interest to be payable either at the Manchester Safe Deposit and Trust Company in Manchester, N. H., or at the First National Bank in Boston, Massachusetts, and none of the said bonds to be obligatory without the authenticating certificate of said Manchester Safe Deposit and Trust Company endorsed thereon. The said bonds shall bear the seal of said City to be signed by the Mayor and countersigned by the City Treasurer and bear interest at the rate of four (4) per cent per annum, payable semi-annually. The coupon attached to said bonds shall bear the fac-simile signature of the City Treasurer.

Further particulars as to the form, issuance and sale of said bonds to be determined within legal requirements by the City Treasurer subject to the approval of the Finance Committee.

The proceeds of said bonds in the amount specified shall be applied solely for the purposes designated.

That for the purpose of payment of the principal and interest of said bonds, there shall be raised by taxation each year sums sufficient to pay said principal and interest each year until said bonds are paid in full.

Passed Sept. 14, 1915.

Approved,

GEORGE F. RICH, Mayor.

Attest:

C. M. DAVIDSON, City Clerk.

In the year of our Lord one thousand nine hundred and fifteen.

A RESOLUTION authorizing the discontinuance of the street known as Spring street.

Resolved by the City Council of the City of Berlin, as follows:

That the street known as Spring street, as laid out by the select-

men of the town of Berlin in the year 1896, said lay-out being recorded in the records of said town in book C, page 570-580 be and hereby is discontinued.

Passed Sept. 28, 1915.

Approved,

GEO. M. RICH, Mayor.

Attest:

C. M. DAVIDSON, City Clerk.

In the year of our Lord one thousand nine hundred and fifteen.

A RESOLUTION to amend the Resolution passed September 14, 1915, authorizing the issue of serial bonds of the City of Berlin to the amount of \$90,000, and to ratify and confirm acts done or performed under authority of said order of September 14, 1915.

Resolved by the City Council of the City of Berlin as follows:

That the resolution passed September 14, 1915, authorizing the issue of serial bonds of the City of Berlin to the amount of \$90,000.00 be amended as follows, to wit:

(a). By inserting in line seven of said resolution, between the words "Village" and "the" the following, to wit: "Said bridge to be situate wholly within the limits of the said City of Berlin."

(b). By striking out line eight of said resolution and inserting in its place the following, to wit: "To pay and return outstanding notes of the City of Berlin, said notes being dated August 13, 1915, due November 13, 1915, which in turn refunded a like amount of notes dated April 13, 1915, the sum of \$55,000."

(c). By striking out the words "November 1, 1915, in the fifteenth line and inserting in their place the following, to wit: "April 1, 1915."

(d) By striking out the words "November 1st," in the sixtecenth and seventeenth lines, and inserting in their place the following, to wit: "April 1st."

(e). By striking out from the nineteenth line the word "Either."

(f). By striking out from the twenty-first line the following words, to wit: "or at the First National Bank in Boston, Massachusetts."

(g) By adding at the end of said resolution the following, to wit: "and that in all other respects said resolution and all acts done under the authority thereof be and are hereby ratified and confirmed," so that said resolution, so amended, shall read as follows:

"That there be appropriated for the purpose hereinafter specified the following amounts respectively, to wit:

1st. For the purchase, erection and completion of an iron bridge

to be built across the Androscoggin river northerly of the wooden foot bridge maintained by the Berlin Mills Company, in that part of the City of Berlin known as Berlin Mills Village, said bridge to be situate wholly within the limits of the said City of Berlin, the sum of \$35,000.

2nd. To pay and return outstanding notes of the City of Berlin, said notes being dated August 13, 1915, due November 13, 1915, which in turn refunded a like amount of notes dated April 13, 1915, the sum of \$55,000.

Be it further resolved that the City Treasurer be and he is hereby authorized to borrow said sum of ninety thousand dollars (\$90,000) and for that purpose that the bonds of said city be issued to the amount of ninety thousand (\$90,000) dollars under the "Municipal Bonds Act of 1895," and Acts amendatory of and in addition thereto.

Said bonds shall be dated April 1, 1915, to be in coupon form, payable to bearer, maturing \$4500 on April 1st of each of the years 1916 to 1935 inclusive. Each annual payment to be divided into four bonds of \$1000 each and one bond of \$500; principal and interest to be payable at the Manchester Safe Deposit & Trust Company in Manchester, N. H., and none of said bonds to be obligatory without the authenticating certificate of the said Manchester Safe Deposit & Trust Company endorsed thereon. The said bonds shall bear the seal of said City to be signed by the Mayor and countersigned by the City Treasurer and bear interest at the rate of four (4) per cent per annum, payable semi-annually. The coupon attached to said bonds shall bear the fac-simile signature of the City Treasurer.

Further particulars as to form, issuance and sale of said bonds to be determined within legal requirements by the City Treasurer subject to the approval of the Finance Committee.

The proceeds of said bonds in the amount specified shall be applied solely for the purpose designated.

That for the purpose of providing payment of the principal and interest of said bonds, there shall be raised by taxation each year sums sufficient to pay said principal and interest each year until said bonds are paid in full, that in all other respects said resolution and all other acts done under the authority thereof be and hereby are ratified and confirmed.

Passed September 28, 1915.

Approved,

GEO. F. RICH, Mayor.

# Report of the City Solicitor.

BERLIN, N. H., January 18, 1916.

To His Honor, the Mayor, and the City Council of the City of Berlin:

I have the honor to submit herewith the report of City Solicitor for the fiscal year ending January 31, 1916.

My usual routine of work at the Municipal Court has been conducted in the customary manner. All complaints and warrants have been drawn to your Solicitor and criminal cases have been tried before that court when a trial was necessary.

During the past year I have assisted the several committees from the City Council in matters pertaining to my office, and when called upon, have advised the officers of the various other departments of the City Government.

Since April 1, 1915, the following civil cases have been tried:

(1). Lyford & Currier vs. City of Berlin. This was a writ of entry to recover possession of a certain piece of land in front of the Wilson Pharmacy used by the City for sidewalk purposes. The City defended on the ground of twenty years' adverse possession. This case was tried by jury and resulted in a verdict for the City.

(2). James J. Hickey vs. City of Berlin. This case was tried before the Superior Court in 1914 and resulted in a verdict for the plaintiff for \$500. On exceptions it was transferred to the Supreme Court and was argued at the November session of that Court. The verdict of the jury in the lower court was set aside and judgment was ordered for the City.

(3). City of Berlin (party in interest) vs. County of Coos. This was a suit brought by the officers of the City to recover certain Police Court fees alleged to have been wrongfully paid over to the County during the existence of the District Court of Berlin. The case involved an interpretation of the District Court Acts of 1913. The Supreme Court held that the fees were wrongfully paid to the County and that the City could recover them. An auditor was subsequently appointed who found the County indebted to the City in the sum of \$2586.59.

The following cases now appear on the Superior Court Docket, which will be disposed of at a later date:—

(1). Henry A. St. Laurent vs. City of Berlin. A claim for damages due to the high water from Dead river.

(2). Joseph J. Daley vs. City of Berlin.

(3). Michael J. Cryans vs. City of Berlin.

The two latter suits were instituted at the same time as the suit of Hickey vs. Berlin, above mentioned, and grow out of the same accident.

(4). Carl M. Mickelson vs. City of Berlin. Petition for assessment of damages for alleged change of grade of Seventh and Norwegian streets. This has been referred to the County Commissioners.

(5). International Paper Company vs. City of Berlin. Petition for abatement of taxes. Referred to the Tax Commissioners.

(6). City of Berlin vs. Charles L. Farnsworth. This is a suit for an alleged breach of contract between the City and the defendant. The case has been transferred to the United States District Court.

The case of City Bowling Alleys vs. City of Berlin is now pending before the Supreme Court. Arguments for this case are in order the first Tuesday in March next.

I wish to acknowledge the assistance of my partner, Herbert I. Goss, in my various duties as Solicitor and also that of Mayor George F. Rich who assisted me in the trial of the case of Lyford & Currier vs. City of Berlin and who has been free to lend me his assistance at all times.

Respectfully submitted.

WARREN W. JAMES, City Solicitor.

# Report of Police Commission.

To His Excellency, the Governor of the State of New Hampshire and to His Honor, the Mayor, and to the Honorable Council of the City of Berlin.

In accordance with Chapter 160 of the Session Laws of 1905, we herewith submit the annual report of the Police Department for the year ending December 31, 1915.

# Assessors' Report.

BERLIN, N. H., January 31, 1916.

To His Honor, the Mayor, and the City Council of the City of Berlin:

Gentlemen:--We herewith submit our report for the year ending January 31, 1916, for the nineteenth annual report of the City of Berlin.

The inventory of the taxable property of the City of Berlin shows an increase of \$765,053 over last year's inventory. Most of this was on stock in trade, by reason of a large amount of pulp wood on hand. There was about \$200,000 increase on real estate. For the coming year we do not see where we can make much increase, other than on new property which we find.

We personally inspect all property and locate the property so far as possible. It has been the custom of the tax assessors, which custom we have followed, to carry along from year to year in our field books, property thereon taxed, whether we know the exact location of the property or not, and the same is mixed up more or less.

Now we would recommend that a card system, similiar to the one now in use in Manchester, be installed for the assessors, in which every piece of property in Berlin would be located, with a card for each piece of property. In so doing we should not get double taxation which we do in many cases. On the other hand we would locate every piece of property. Once located and on a card it would be very little work to keep track of. Such a system, with the work involved, we estimate would cost from five to seven hundred dollars, and we would recommend that an appropriation be made for that purpose.

We find that the citizens of Berlin are very lax in returning the inventories of taxable property according to law, in which case it makes it harder for the tax assessors, and we are not complying with the law when we allow this condition to exist; therefore we shall insist upon the inventories being returned the coming year according to law.

We desire to express our thanks to the citizens for the information and help given us in discharging our duty.

We find the following:

Real estate\$4	,743,559	00
Horses, 560	70,295	00
Cows, 342	13,255	00
Neat stock, 4	170	00

#### ASSESSORS' REPORT.

Hogs, 25	<b>\$</b> 210 00	)
Fowls	100 00	)
Carriages	67,600 00	)
Bank stock		)
Money at interest	23,375 00	)
Stock in trade	2,032,996 00	)
Mills and machinery	3,496,850 00	)
\$	10,514,139 00	)

Polls, 3576.

## Sanitary Department.

## Report of Board of Health.

BERLIN, N. H., January 31, 1916.

To His Honor, the Mayor, and the City Council of the City of Berlin:

Gentlemen:—In this year's report we have nothing but good news to present. The city has been more than usually free from contagious disease, and the sanitary condition of the city in general has been better than ever as is shown by the decreased number of complaints received during the year.

Although there has been no place provided this year for the burial of dead animals, we hope that something will be done during the coming year. At present dead animals are buried on some other person's property, or even left unburied near water supplies, and when the carcasses are discovered, decomposition has oftentimes set in so that the owner cannot be found. It would be a good plan to purchase a small lot of land outside the city limits for the burial of dead animals, and this could probably be done at a not too great expense to the city.

By your kind permission the district nurses have been granted desk room in the Board of Health office, and we expect that much good will be derived by this action. While the nurses are not officially connected with the health department, it is certain that they can cooperate with the Board to the general end of a healthier city.

Mr. Jas. H. Heald, our former health officer, resigned his position on December 15. Mr. Heald has done most excellent work in improving the general health and sanitary condition of the city. He was called by the Board of Trade of the City of Portland, Me., to supervise the milk production of that city. While we are very sorry to lose Mr. Heald, he has a more remunerative position where he is, and we did not feel that this city was able to pay as much as he was offered in Portland.

Mr. L. P. Geer was appointed by yourselves to succeed Mr. Heald, and will undoubtedly be able to carry on the work as health officer in this city.

Mr. Geer's report follows, and, while the contents are somewhat

changed from those of former reports, we feel that he has incorporated much useful and interesting information, and left out some of the things that are not so much of general interest.

This year again we can point to a credit balance from our appropriations. We respectfully request, however, that the appropriations be increased for the coming year, since we must furnish the pest house, and accomplish several other things which will require more money. The pest house has at present no furnishings with the exception of a stove and bathroom fixtures which are not connected. We estimate that we shall need twenty-two hundred dollars (\$2,200.00) for the sanitary appropriation, and one thousand dollars (\$1,000.00) for the contagious disease appropriation.

Respectfully submitted by the Berlin Board of Health.

A. LAVALLEE, M. D., Chairman, J. Clare Curtis, Secretary, Henry Blackburn.

BERLIN, N. H., January 31, 1916.

To the Board of Health of the City of Berlin, N. H.

Gentlemen:—I herewith respectfully submit the sixth annual report of the Health Officer and Milk Inspector. Attention should be called to the fact that the financial year for this city is from February 1, to January 31, while the statistical year is from January 1 to December 31.

Financial Statement Year Ending January 31, 19	16.	
Appropriation\$	2,000	00
Total Credits	2,035	50
Total Expended	1,769	11
Unexpended balance, sanitary account\$	266	39
Appropriation\$	600	00
Total credits	605	50
Total unexpended	439	67

Unexpended balance, contagious disease account....\$ 165 83 I hope next year to have the financial statement arranged so that one can tell more nearly how this money was expended, as I realize that the above table is not clear.

#### Diseases Dangerous to the Public Health.

The following tables show the occurrence of contagious diseases in this city by months for the year just ended, and by years for 1912 to 1915 inclusive. It is interesting to note the falling off of the number of cases and in the number of deaths from contagious disease since 1912.

#### SANITARY REPORT.

The following table is interesting because it shows the number of infant deaths from diseases liable to be due to poor milk. This table shows that the general sanitary condition of our milk supply is improving.

Infant	Mortality	ough N	lonly	I ransm	iitted	

	1908	1909	1910	1911	1912	1913	1914	1915
Cholera Infantum Ileo Colitis Gastro Enteristis	9 9 5	14 4 7	21 5 8	22 3 10	3 6 4	7 1 0	$\begin{array}{c}10\\8\\4\end{array}$	4 5 7
Total	23	25	34	35	13	8	22	16

#### School Inspection.

The following table shows the results of the medical inspection of the schools, both public and private in the city.

> Report of the Medical Inspection of Schools for the School Year 1914-1915.

No. pupils examined.	2968
No. pupils excluded with contagious disease	0
No. instances defects remedied	
No. instances treatment secured	
NUMBER OF CASES FOUND OF:	
Anaemia	58
Malnutrition	5
Nervous Disease	
Pulmonary Disease	1
Skin Diseases	67
Orthopedic Defects	12
Defective Teeth	615
Hypertrophied Tonsils	618
Adenoids	128
Gland Diseases	33

#### OTHER DEFECTS.

Defective Breathing	94

Enuresis	21
Strabismus	
Catarach	
Eye Disease	
Gum Disease	
Heart Disease	
	0

#### CITY OF BERLIN.

Impediment in Speech	6
Uvula, elongated	4
Tuberculosis	1

This work comes under the head of the Board of Education, and a more complete description will be found in the School Superintendant's report. The last year only one inspection was made, and practically no cases were followed up. For the coming year, however, the plan is to have each school inspected about once a month, and to have the District Nurse follow up each case where treatment would be beneficial. If this plan is carried out, it will mean, I believe, a great general improvement in the health of the school children. It will also be of value in educating the coming generation in the value of health work in general.

Vaccination in Schools.

Year	1911	1912	1913	1914	1915
No. Pupils	<b>92</b> 2	444	294	389	293
Total Cost	\$461.00	\$ 313.23	\$ 141.00	\$248.03	\$ 190.15

The above table shows the number of pupils vaccinated in the schools both public and private, with the total cost for this work, from 1911 to 1915, inclusive. No child is allowed to attend school without a certificate showing that he has been properly vaccinated, unless he can show a certificate from a physician indicating that he is physically unfit for vaccination. By this system a smallpox outbreak in the schools is precluded.

## Milk Inspection-General Statistics.

MILK INSPECTION-LABORATORY.

No. samples milk and cream for analysis	112
No. found below grade	
Chemical	7
Bacteriological	0
Percent below grade	06.25
MILK INSPECTION—FARMS.	
No. farms having licenses	41
No. farms inspected and scored	23
No. farms reinspected and scored	4
No. farms below standard	0
Percent farms below standard	0

The above tables show the amount of work accomplished in milk inspection, with the result of the inspections. The quality of the milk

is, on the whole, good, but there are a number of instances where milk or farms, while not being actually below standard, are not of a high standard of quality. Efforts will be made during the coming year to improve such situations.

#### Complaints.

There have been fifty-two compaints received at the Board of Health office during the year as follows:

	Jan.	Feb.	Mar.	April	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total
No. Rec'd	6	4	11	7	4	14	3	1	1	0	1	0	52

### Classified List.

No running water in barber shop 1
Water running from cellar 1
Broken sewer
Selling adulterated olive oil 1
Dirty premises
Frozen water pipe
Drinking fountain not properly operated 1
Broken plumbing
Maintaining a nuisance
Manue pile on premises
Sewage in cellar
Warm milk
Sewer plugged
Not connected with sewer
Throwing wash water in yard
Dead dog in highway
Pigs on premises within city limits
Improper cesspools
Total

The following table shows the marked decrease in the number of complaints since 1910.

	1910	1911	1912	1913	1914	1915
Total Rec'd	176	235	131	100	95	52

#### CITY OF BERLIN.

#### Garbage Disposal.

The system of garbage and refuse disposal has been the same this year as last, namely, the one can system, whereby all rubbish, swill, tin cans, and other filth are collected from a single rubbish can.

The fact that there are several dumping places about the city renders the disposal of the city waste a comparatively simple matter, for the refuse is taken to these dumps and burned, after which cinders are dumped over it. These dumps will, however, be filled before many years, and then the city will have to provide some other means for the disposal of its refuse.

The method employed in many cities is that of incineration. The city of Dover, N. H., has recently installed an incinerator at a not very great expense, and that city is much pleased with its efficiency. The cost of maintainance is small, since no fuel is required to operate it with the exception of that contained in the refuse itself. In my opinion, the city of Berlin should have an incinerator similar to that in Dover in the course of a few years.

During the year there have been about 1620 loads of refuse removed to the dumps, making about 810 tons. This system is handled by the Public Works Department, and more detailed information can be had from that department if desired.

#### City Cleaning Day.

This year, according to custom, a week was set apart for the annual clean-up week. This week came in the spring (April 26 to May 1) and all refuse was hauled away by the regular collection team. It was not found necessary to employ an extra team this year, which reduced the expense somewhat. The total cost to the city for clean-up week was \$9.50. This is a very small amount for the good work done, and I recommend that the custom be continued next year. It is my hope that those who participate in the recognizing of clean-up week by cleaning their premises or vacant lots will keep up the good work so well started, throughout the year.

The system as it is worked out is to make the regular garbage collection day the day which the refuse from each house is collected.

#### Public Water Supply.

Monthly samples of the water supply have been analysed at the State Laboratory at Concord. These analyseshave never at any time shown that the water was of unsanitary quality, although there have been times when the color and odor have been quite noticeable. I plan during the coming year to make more frequent sanitary analyses at our City Laboratory, especially during the time when the water is so highly colored. The records of all analyses are on exhibition at the office and are open to any who are interested.

#### Mortality Tables.

	1910	1911	1912	1913	1914	1915
*Population	11,780	12,069	12,358	12,647	12,936	13,225
Total deaths (excl. stillbirths)	) 207	204	210	200	196	194
Crude death rate per 1000	17.5	16.9	16.9	15.8	15.2	14.6
No. births	470	468	491	480	465	466
No. deaths under 1 year old	98	80	69	82	75	56
Infant death rate per 1,000						
births	208.5	170.9	140.6	170.8	163.4	120.2

\*The population was computed in the following maaner:

Population 1910—Population 1900 10 = increase in growth of the city

per year between 1900 and 1910. The quotient comes out of 289, and this figure is added to the population of each year to obtain that of the year following.

It is probable, however, that the rate of growth in the last five years has been greater then that indicated by the formula, and if that is the case, the death rates would be smaller than is shown in the above table. Even as it is, there is a large decrease in the death rate during the five years shown, which speaks for the good work done by this department in the past.

The reason for the decline in the crude death rate is hard to accurately determine, but in all probability is due to the manner in which the contagious diseases are handled, and to generally cleaner and healthier conditions in the city. This decrease in the infant death rate is due, no doubt partly to the better control of the milk supply in the city, and partly, also to the work of the District Nurses, an association of which Mrs. O. B. Brown is the head.

## LIBRARIAN'S REPORT.

#### BERLIN, N. H., December 31, 1915.

#### To the Board of Trustees of the Free Public Library:

The twenty-third annual report of the library, showing its work for the year ending December 31, 1915, is herewith submitted.

The circulation department naturally occupies the foremost place, for from this department is gathered the usefulness of the library. Therefore, it is with pleasure that we report the largest circulation in the history of the library. There have been given out for home and school use 36,815 volumes, including 14,552 from the children's department. A gain over last year of more than five thousand. While these figures are gratifying, still the library must do even better work, and with sufficient appropriation the circulation for the coming year should show another decided increase.

As you will note by the statistics appended to this report, 62 books have been added by gift, 559 by purchase, making a total increase of 621. This, together with the 253 rebound books more than balanced the 302 which had been worn out in actual service and necessitated destroying. The whole number of volumes now in the library is 9,291. The quality of both these additions and the books circulated has remained creditable. While the amount of fiction has been the highest, this has ceased to be a matter of apology. The modern library has come to recognize the fact that the library is public and for the public, and that it should respect the rights of every individual to shape his reading primarily by his own tastes rather than that of another, however enlightened. By this, however, is not meant that every "best seller" has been rushed into the library and thrust upon its patrons, regardless of its character or quality. Great care has been exercised that neither immoral nor unmoral books should find their way to the shelves and become like pernicious pests. On the other hand, such works as the American nation, edited by Albert B. Hart, and other valuable reference books have been added to supply the demands of the student. Also, many books on topics of the day, travel, applied science, and the useful arts have been purchased.

The reading room has continued to serve as a useful and entertaining factor in the library work. The magazines and newspapers have been freely used and circulated. The reference work has been carried on in the same way as heretofore. Bibliographies on various essays and debates have been carefully compiled and the material

87

#### CITY OF BERLIN.

placed conveniently in the reference room for the use of the students. It has been our aim never to let a single question from any pupil pass without some effort being made towards its solution, for this is surely one of the ways by which the link between the library and the schools can be firmly welded.

The juvenile department has been conducted on the same general lines. By the resignation of Miss Weymouth in August, who has been the children's librarian since 1911, this department lost an efficient worker. Miss Kailey, however, has taken up her duties with enthusiasm, and the work with children was not entirely new to her for her experience as a teacher had given her much practical help on knowing how to deal with them. The number of volumes circulated from this department were 14.552; and a large number of these were books of history and travel as well as books "telling how to do things." No record of the number of readers has been kept, but every session found the room well filled, one chair often holding two energetic read-The government, especially in the evening, became such a problem that many of the older boys, who simply used the room for a lounging resort or a place in which to play pranks, were forbidden the games or the use of the reading tables. However, by persuasion, tact, and force, this spirit of rowdyism has been quelled, and the true meaning and use of the children's room has been instilled even into the voungest patron.

The library has been called upon during the year to co-operate with the Y. M. C. A. in its efforts to spread the desire for more and better reading. The lists which have been recommended have been bought and placed in circulation, and every means adopted for furthering this extensive work.

While we can tell of no novel features introduced, we know the work which has been accomplished has been done whole-heartedly with one motive in view—the improvement of the library. To further increase its usefulness the following recommendations, which truly might be called necessities, are made—the installing of a telephone, the publishing of a monthly bulletin, the placing of a new stack in the literature alcove, and the re-establishment of the "rental system" with all rentals duplicates of the regular additions in fiction.

I wish to take this opportunity to express my appreciation to the Trustees for their kindly co-operation, and for the month's leave of absence granted to me in June. Part of this time was spent studying methods and visiting several of the large libraries of the middle West. Some of these were the Chicago Public Library, the Evaston Public Library, the Public Library of Indianapolis with a few of its branches, also the Library of the Art Institute of Indianapolis. Much help, LIBRARIAN'S REPORT

inspiration and a broader view of library work was gained from these libraries.

Grateful acknowledgement is here made to those who have shown their interest in the library by gifts.

Respectfully submitted,

\_\_\_\_\_

ADRIA A. HUTCHINSON, Librarian.

## Report of Library Trustees.

#### To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen :- Once more the Trustees have the honor to submit their annual report, containing a statement of the Treasurer and the report of the Librarian. Our Librarian, Miss Adria Hutchinson, continues to fill with increasing satisfaction and efficiency the position which she has held for several years. In the early summer we lost the services of our faithful assistant, Miss Gertrude Weymouth. Her position is now taken by Miss Lottie Kailey, who by her pleasing manner and interest in the work we feel sure will be most acceptable to the patrons of the Library. During the past year, much needed repairs have been made on the roof and skylight of the Library building and the chimneys have been thoroughly relaid. With the present appropriation the entire plant is being kept in good working condition and the amount of money expended for new books and magazines has been very much increased over any previous year. On account of some new attractions for the younger people of our city, we expected to see the circulation remain stationary or perhaps slightly decrease, but the Library has been patronized beyond expectation. The circulation has increased nearly twenty-five per cent. This increase in circulation and purchase of new books and periodicals increases the work of the Librarian and assistant. This will of course necessitate an increase in salaries which next year's Board will have to consider. The upkeep of the Library plant has been the first consideration of the trustees and the purchase of books and periodicals secondary. The first consideration is absolutely necessary. While more money could be expended to good advantage and thereby increase the good work of our Library, considering the pressing need in other departments of our city, we will recommend the same appropriation for the coming year.

Respectfully submitted,

L. B. Marcou, Caroline G. Brown, Ernest F. Osgood.

## Report of Board of Education.

BERLIN, N. H., January 31, 1916.

To His Honor, the Mayor, and the City Council of the City of Berlin:

We beg to submit to you the 31st annual report of the Department of Education for the year 1915-1916.

The greatest need of the Berlin School System is a new grade school in Ward 1. In our last annual report we recommended a four room building. However, when we take into consideration the number of children enrolled in the grade schools, the constant increase from term to term, the crowded condition of the schools at present and the fact that we should build wisely for the future it seems pest to the board to build a six room building.

There are now 900 children enrolled in the grade schools. They occupy 21 rooms or an average of 43 pupils per room. The board would prefer to keep the enrollment per room down to 35 to 40 pupils. The present enrollment divided by 38 pupils per room would give 24 rooms without taking into consideration the growth of the school system. The average growth of the grade schools has been about 80 pupils per year for the last two years. If there are 980 scholars enrolled in the grade schools next year at 38 pupils per room we shall need 26 rooms and shall have but one extra room left for the natural increase of the next year. If a four room building can be erected for \$20,000 a six room building can be erected for \$25,000 and the best investment the city can make will be to make the proposed building a six room school.

The question of a lot naturally comes next and in the opinion of the board there is only one lot available that fills all the requirements for a school house lot. That is the Cole lot on Mt. Forist street. It is centrally located, level and a very desirable lot in all respects. It will give ample play ground facilities and the school if placed on this lot would give the best service to the city. It is simply a question of price. There are other locations back on the hill which will answer the purpose and give a sufficiently large level tract of land for school house purposes. These can be purchased for much less than the Cole lot and could probably be made to answer the purpose. We hope that some decision can be made on this subject so that no more time than necessary may be taken in the spring for deciding the question of the

lot. In fact this school should be built if possible so as to be ready for use in September, 1916.

There has been no medical inspection by physicians in the schools this year though there is such an item entered in the financial statement. This item is carried over from the previous year. The district nurses, however, have visited the rooms when called upon and followed up cases in the homes with good results. There has been no money available for further extension in this direction. However, the nurses have arranged for the coming year to visit all grade schools once a week and to follow up any cases which show the need of attention. Arrangements also have been made for medical inspection by physicians of the first grade pupils.

Some much needed work has been done on the school property during the past year. Concrete walks and driveways have been installed at the High school and some grading done at the Burgess school. A coating of earth has been spread on the Brown school grounds. The sanitary equipment in the boys' basement of the Burgess school has been renewed. The physicial condition of our school buildings is good. The Cole school only is in need of repair. It should be repainted this summer and some minor repairs made.

We wish to call to your attention again the fact that the two vacant lots adjoining the Marston school ought to belong to the city as they are urgently needed for playground purposes.

The board would like to see another year added to the Berlin Public School System but not in the form of an eight grade. It would like to establish in the school system a Junior High school which would take the place of the seventh and eighth years. This would divide the school system into three parts each blending into the other and so designed as to carry the maximum number of pupils through the entire twelve years' course. These three divisions would be: the elementary schools taking six years, the intermediate school or Junior High school taking two years and the High school a four years' course. This method has been tried out to such a point that it can no longer be called an experiment and has apparently solved the problem of keeping the maximum number of pupils in the schools for the entire twelve years. This is exactly what our present seven grade system does, but the children from a seven grade system are apt to graduate from the High school at too young an age, and we have a social problem on our hands. These children then proceed to take a post graduate course in the High school or spend a year out of school before continuing their studies. It is useless, however, to talk of a Junior High school until Berlin has radically changed her policy as to the support that she gives her school system. It is something, however,

which we should look forward to and plan for.

There is an overdraft in the appropriation due principally to the fact that it is the custom of school boards to present contracts to teachers in May for the coming year. This means that the school board must know how much money they will have to spend when they present the contracts and as the teachers' salaries are about the only flexible item in the school expenses and amount to sixty-five per cent of the total expenditures if the school board does not get the appropriation it expected to get when it presented the contracts it must overdraw. If it does not present its contracts in May it loses its teachers. This simply resolves itself into a plea that the City Council and the School Board ought to get together by May 1st, and decide how much money will be appropriated for the schools for the coming year, and then the Board would know where they stand when they made up the contracts.

We may expect over 1400 children to be enrolled in the public schools during the coming year. We shall have to open at least four new rooms. We shall have to buy equipment and supplies for another school house and employ another janitor. We need at least two additional teachers in the High school and must provide for additional equipment there also. To carry on this work the board recommends that the sum of \$40,000 be appropriated by the City Council for the Berlin Public Schools for the ensuing year. Following is the financial statement for the fiscal year ending January 31, 1916:

	1914-1915	1915-1916.

HARRY D. GREEN,

Board of Education.

## Report of the Superintendent.

#### To the Board of Education :

I herewith submit to you my third annual report as Superintendent of your public schools, the twelfth to be issued from this office.

#### Membership.

The enumeration September 1915, gives 3337 children in the city between the ages of 5 and 16, 1638 boys and 1569 girls. The public school membership has increased from 1238 on February 1, 1915, to 1301 on February 1, 1916, a gain of five per cent. Following is the registration in detail:

Total Registration in the Public Schools, February 1, 1916.

Grade	I	II	III	IV	V	VI	VII	Building	Total
High Marston Brown Burgess Cole		47 51 34	36 49 40	44 40 44	51 31 42	48 79	91 49	397 359 210 170 165	397 904
Total Average Age in Sept., 1915	128 6-6	132 7-10		128 10-2			140 13-8	·····	1301

### Promotion and Retardation.

A retardation of ten per cent. is high. This is due to the large number of pupils entering from other school during the year and the absence from our system of any special provision for the care of backward children. I would urge that a class be opened in September especially equipped for the handling of overage and backward pupils of whom we have an exceptional number. Following is the promotion in detail.

Grade	I	Π	III	IV	V	VI	VII	Total	Per Cent
Promoted 1915	114	97	97	91	124	118	108	749	90
Not Promoted	13	8	10	8	8	10	23	80	10

#### School Savings Bank.

The Berlin School Savings Bank continues to be one of our most important school features. Approximately 1,000 children have balances to their credit. Our total balance on January 1 amounted to \$2,281.81. The value of the bank to the commercial students who conduct its affairs cannot be overestimated. Heretofore interest at the rate of five per cent. per year has been added to deposits of \$1.00 or over; two per cent. in January and three per cent. in July. On January 1, 1916, however, it was possible to declare three per cent., making a rate of six per cent. for the year. Following is the statement:

On deposit in Berlin Savings Bank, January 1 1915\$ Pupils' deposits January 1, 1915—January 1, 1916 Interest received	1,372 98
Total\$ Withdrawals by pupils' checks	
Balance on deposit January 1, 1916 \$	2,281 81 1,925 92
Increase for year\$	355 89

#### High School.

I cannot speak too strongly of the High school's strength of management and control. With few exceptions the class room work is of a high order. The variety of opportunity offered to boys and girls of Berlin and the rational methods of instruction make an appeal to any one interested in real education that few schools can equal. Results are apparent in the remarkable size of the school in proportion to the population of the city, and in the success the really competent graduates meet in after life. Some fail, it is true, but the failures cannot in many cases be attributed to the training received in school. Human qualities of slow mentality, lack of purpose and disinclination to work, no school obliged to handle children in the mass, can possibly overcome.

The building is crowded and for purposes of its present work insufficiently equipped. The present registration averages twentyeight pupils per teacher. At least two new teachers are needed together with additional furniture, books and apparatus.

With these additions and the constant use of all available space during the day the building can be made to accommodate at least five hundred pupils. For further information I refer you to the report of the principal.

#### BOARD OF EDUCATION.

### Teachers.

Berlin cannot afford to economize in the matter of her teaching force. Her overcrowded rooms and the quality of work required place unusual demands upon her teachers. No maximum salary applies to instructors in the High school; that for grade teachers is \$625.00 per year. Other cities of the State pay \$650.00 to \$700.00. Berlin expects from her schools equal results, she should be willing to provide equal means for their attainment. I would recommend an increased maximum salary for all grade teachers who have been receiving our present maximum for at least two years.

Every grade teacher in the city is a graduate of an approved Normal school and every High school teacher a college graduate or of equivalent training for the purposes of the work conducted. It seems to me an evidence of a highly commendable professional attitude that eight of our present teaching force have pursued advanced work during the past twelve months. This work has been done at the following institutions: New York University, University of Chicago, Dartmouth College, University of Maine, Simmons College, Lasalle Seminary, Plymouth Normal School.

#### Medical Inspection.

The work of examining the school children of the city was completed by the school physicians early in the spring. Cases of illness and physical defects were immediately reported to the parents and in many cases remedied. No systematic follow-up work, however, was possible. 2,968 children were examined and 1,739 defects reported. Of the number examined 1,529 or fifty-two per cent. passed without apparent defect. Following is the report in detail:

#### SCHOOL PHYSICIANS

High and Cole school	Dr. J. J. Cobb.	Dr. J. J. Cobb.							
Marston and Brown s	chools	Dr. H. H. Marks	Dr. H. H. Marks.						
Burgess and St. Regis	schoo	ls Dr. L. B. Marcou	Dr. L. B. Marcou.

Adenoids	128	Gland Disease	33						
Defective Breathing	94	Enuresis	21						
Skin Diseases	67	Orthopedic Defects	12						
Miscellaneous 43									

Since September no work has been done by the physicians owing to lack of funds. The district nurses, however, have been subject to

call and have willingly lent their services in several needy cases. Beginning with the week of January 24th systematic visits have been made by the nurses to each building each week for consultation with the teachers and following up cases needing attention. This I believe to be the most important service medical inspection can render. Yet it cannot entirely take the place of the physician's examination. I would recommend, therefore, that at least three physicians be appointed at once to examine the first grade children who entered in September. The physical record of all school children in the city would then be complete and the ground prepared for effective work for the remainder of the year.

### Burgess Memorial Evening School.

The fall term of the Burgess evening school opened Tuesday evening, October 5, and continued eleven weeks to Friday evening, December 17. Classes met regularly every Monday and Thursday evenings from 7.30 to 9.00 o'clock. Cooking, penmanship and Latin were added to the courses this year. The attendance and interest have been gratifying and clearly indicate a demand for the work the school is endeavoring to do. Yet it seems to me we have but made a beginning. Further effort and a larger expenditure should lead to better results another year.

Not including the Russian class in English held this year at the new Russian church the fall term's attendance is given below. A winter term for classes in English, cooking and mechanical drawing is now in progress.

## Noon Lunch.

On November 1st a noon lunch counter was organized in the dining room of the High School building. The undertaking has a double purpose: First to provide something warm for those who must depend upon cold basket lunches; second to furnish an excellent project for the cooking class of the Domestic Arts Department. From forty to fifty pupils eat their dinner here daily.

The preparing and serving of the lunch is in the hands of a group of two or three girls from the Freshman cooking class. This group changes each week. The management rests with the class in home economics who must manage to make the project "pay." The bookkeeping is done by the pupils from the Commercial Department. The washing and after cleaning is handled by a girl who volunteers as "housekeeper" for the purpose, for which work she receives twenty cents a day. She in turn hires a girl who acts as her helper.

The menu consists of cocoa and some kind of nourishing soup, also at times rolls or a pudding. Following are typical menus:

.

	annovisto the opportunity offered of		\$		03
	\$ 1	07	\$	1	07
	\$	87 20			
			\$	1	10
Cocoa at 2 cents, 3	4 cups	•••••	····		68
	2 cents, 3 plates				06
	cents, 12 plates				36

			\$		21
	\$	89	\$		89
Labor		20			
	\$	69			
			\$	1	10
Cocoa at 2 cents, 3	31 1-2 cups	• • • • • • • • •	•		63
-	s, 9 plates.				27
	nts, 10 plates				20
Menu	L		Se		
Served Decem	ber 13, 41 pupils present.				
Friday	Fish Chowder	С	ocoa	ι	
Thursday	Tomato Soup	С	ocoa	ι	
Wednesday	Vegetable Soup		ocoa		
Tuesday	Onion Soup	-	ocoa		
Monday	Menu for January 24 to 28, 1916. Chicken Soup	C	ocoa		
Friday	Oyster Soup	C	0008	1	
Thursday	Bean Soup		ocoa		
Wednesday	Rice Soup		0002		
Tuesday	Potato Soup	-	0008		
Monday	Corn Chowder	-	ocoa		
	Menu for January 17 to 21, 1916.				

The pupils seem to appreciate the opportunity offered of a respectable room in which to eat, also to secure something warm to supplement their cold lunch brought from home. The experiment appears to be decidedly successful thus far and has been at no expense whatever to the city.

#### Parent-Teacher Associations.

A very significant movement has taken place in the past few years in strengthening the relations between the public and the schools. Higher and broader ideals exist as to what schools really ought to be. More money is being spent in their support. Parents and citizens are beginning to realize that a good school system is the best asset a community can possess. A more intelligent understanding and a closer co-operation is the result. Organizations of parents and teachers have multiplied rapidly until few communities are without them. On the evening of October 20, a meeting was called by the schools to effect an organization in Berlin. Two hundred people were present, an association was formed and the following officers elected for the ensuing year: President, Mayor George F. Rich; vice president, Mrs. E. M. Macey; secretary, Mrs. G. F. Lovett; excutive committee, Rev. P. M. Wood, Mrs. A. E. Bean, Mrs. A. H. Eastman.

Such an association has a distinct position to occupy in the promotion of the educational welfare of any progessive community. Certain very definite things it can do, and as definite things it can not do. As an organization and through its membership it can take an active stand in favor of good schools; it can use its influence for adequate moral and financial support; at its meetings an opportunity is offered for parents and teachers to become acquainted and thus to understand each other better; to hear speakers actively engaged in school affairs and learn something of present educational theory and practice; in fine its highest office is that of creating an intelligent and sympathetic understanding between the schools and the parents. On the other hand such an association cannot presume to dictate in matters of school policy; such an attempt always leads to misunderstanding and injury. Neither can it afford to turn its meetings into a public forum for the exploitation of personal views or prejudices; this plainly leads to the defeat of every good for which the organization stands. A parent-teacher association can help or hinder the schools. It can hinder by creating an air of distrust and trivial criticism; it can help by encouragement and support.

#### A Reorganization.

For several years Berlin schools have been conducted upon a 7-4 basis, i. e., seven years of elementary and four years of high school training. In certain essential particulars this organization has proven well founded and satisfactory in results. Its operation, however,

presents two problems, namely, a very decided change in the character and methods of work between the seventh and eighth years of school, and the completion of public school life at an average of seventeen years of age. The first is a common failing in many school systems and remedied only by some reorganizing in the seventh and eighth years. It is an educational problem. The second is a social problem. The average pupil is young at seventeen to leave home for life work or college. An added year to our school system would raise his age at graduation to eighteen years. Conditions in Berlin are especially favorable to working out these two problems. This can be done by reorganizing our seventh and eighth years into a so called Junior High school and adding another year to the high school proper. This would result in a 6-6 plan in place of our 7-4 plan, and would provide for advanced work of college grade in the twelfth year.

For some time it has been difficult to provide respectable accommodations for the children already in hand without looking forward to any enlargement of our system. But as the matter of new buildings, teachers and equipment have now reached a critical point, no action should be taken without a well defined plan in mind for years to come. I submit the above for your careful consideration.

#### In Conclusion.

The greater part of the year has been spent in the routine of management. Time has not permitted a careful attention to supervision or any amount of assistance to the teaching force. Yet I believe the schools as a whole are in good condition.

In the death of Mr. F. D. Bartlett the schools have lost a sympathetic, broad minded supporter, and the Board of Education a valued member.

In conclusion let me express to the Board my thanks and appreciation for their continued support.

#### Respectfully submitted, H. L. MOORE, *Superintendent*.

Berlin, N. H., February 7, 1916.

# Principal's Report.

BERLIN, N. H., January 28, 1916.

To Supt. Harry L. Moore:

I hereby submit to you my third annual report as principal of the Berlin High School.

The total registration for the school year ending June 15, 1915, was 397 pupils, 187 boys and 210 girls. As a matter of comparison you will note from the report of last year that the total registration was 378 pupils, 172 boys and 206 girls, an increase of 19. The total enrollment to date for this school year is 421 pupils, 192 boys and 229 girls, or an increase of 43 over the school year 1913-14 and 24 over the school year 1914-15. It might be of interest to add that two pupils returned to school after one year's absence, and ten returned who had dropped out during the previous year. Table I gives the registration in full.

The registration of the Freshman class is as follows: From the public school 119, repeating their freshman year 8, from St. Patrick's school 22, from St. Regis academy 1, and from out of town 12, a total of 140 pupils.

From the report of last year you will note that in the class of 1915 there were 51 pupils registered at the beginning of the school year. Two left school, two lost their class standing due to poor work, one was expelled and the remaining 46 pupils graduated, or approximately 34 per cent of the entering class. Following is the table in detail:

Total number of pupils entering school September 1911		137
Entered from previous classes, and left due to poor work	4	
Left school due to poor work, sickness, moving away, etc	64	
Lost class standing due to poor work, but dropped out after		
several years	10	
Dropped for poor work	2	
Expelled	1	
Suspended and did not return	2	
Lost class standing but still in school	8	
Total loss		91
Total graduating		46
Per cent graduating		34

Table II gives a tabulated report of the different activities of this class, entered upon after graduation.

In connection with table III it will be seen that the number of pupils that left school from sickness, work and other causes for 1914-15 is greater than that of the previous year, but the data thus far obtained indicates that this loss will be less than for the two previous years.

The work of the school in most cases is of a high order, but there is still opportunity for improvement. I refer particularly to table III which shows the number of pupils not promoted to full standing. Since the pupils must be graded either in one class or another it will be necessary to explain what is meant and what governs class standing.

If the pupil fails in one subject, he continues the work in the next class the following year, but in addition either repeats the subject failed, or has the opportunity to pass this subject by special examination, if it is shown that he has given outside time through private study during the summer vacation, or while school is in session. If the subject is passed he continues with his class and does not lose class standing.

On the other hand if he fails in two subjects and does not pass by special examination under the same conditions as above stated, he is rated in the same class for the next year and thus loses his advanced class standing. This does not necessarily mean that he is to repeat all the work of that year, as each case is given careful consideration, much depending upon the grade, standing and attitude of the pupil in the work passed.

Last year three of the present senior class lost their class standing, and only one of the three regained his standing by passing the special examination given at the beginning of the new school year, as a result of study during the summer vacation. In this connection I wish to state that many pupils, particularly of the commercial department, lose one year through failing to pass the second course of bookkeeping, (most cases through laziness or inattention), which closes at the end of the first semester. This subject must be completed before beginning the subject of phonography, which starts the second semester. With other data that I will not have room to quote, it is self evident that the above should be given consideration by the parents and that they should not only know the facts, but should follow up and consult the principal whenever the report cards indicate poor or unsatisfactory work. In most cases the matter is left by the parents until June when, as a matter of fact, they have placed their signature to report cards that have shown unsatisfactory work for the entire year.

Great interest is not only taken in the work of the Mechanic Arts Department but I believe the work to be of high grade. It is with interest that I watch the different projects grow in the shop. The boys are about to complete a gasoline engine which they prize very highly. They have also constructed a wireless antenna, and built a radio station in the basement. There are under construction two receiving and one sending wireless sets. Standard time and the weather reports are received from Arlington, Va., approximately 600 miles away. Messages have been picked up from the following stations: New York, Cape Cod, Boston, Digby Island, Washington, Portsmouth, Charleston, Norfolk and San Juan, approximately 1600 miles away.

The type of work done by the Domestic Arts Department has improved and the idea of the noon lunch not only gives the girls of this department practical work along the line of cooking and accounts, but also in part, helps to solve the problem of looking after the pupils who remain in the building during the noon hour.

For the past year I have given special attention to the pupils who failed in some of their high school work, and I find that a great part of this failure is due to absence. These pupils are always back in their make-up work and as a result often become discouraged. Also it is generally the rule that the pupils behind in their work are just the ones who do not attend school regularly. The excuses indicate that not all of them are due to sickness, and I am in hopes that the parents will see to it that their children will not only attend school regularly, but be there on time.

The French Club "Entre Nous," the Debating Society "The Forum" and the "Science Club," organized several years ago are now active and have proven very successful.

The inter-class debating contest, held April 23, 1915, was won by the class of 1915. Subject: Resolved, that the Neutral Powers are justified in permitting the destruction of the German Nation. The speakers for the class supporting the affirmative were: Joseph Tucker, Albion C. Streeter, and John E. Gonya. A shield placed upon the wall in the Assembly Hall contains the names of all the students that took an active part in the debates for the school year 1914-15. The usual Junior Recital, the program of which will be found in the Appendix, was successfully carried out. A Latin Club "Societas Latina" has been organized this year. The following program rendered on the night of November 2 will illustrate the work done by this organization. CURRICULA BERLIN HIGH SCHOOL 1915-1916 Table No. 4

#### Program.

The Influence of Virgil down through the ages. Pastimes and Pleasure Resorts of the wealthy Romans. The Roman House.

Its heating.

Its ventilation.

Its lighting.

The Roman Baths, private and public.

This year a Mandolin Club has been formed. It is surprising to note the interest that has been taken. The membership now exceeds seventy girls.

A High school orchestra has been organized and it is hoped that it will prove as successful as the former organizations.

For the boys the Berlin High School Rifle Club has been formed. This organization is affiliated with the National Rifle Association of America. A gallery range has been built in the basement by the Mechanic Arts Department. Here the boys meet twice a week for target practice, always under the supervision of a competent person. In order to become a member of this club it is necessary to have a satisfactory rating, as is required in all other organizations of the school. Another requirement is the necessity of obtaining the written consent of the parent as indicated in the form below:

I am willing that my son\_\_\_\_\_\_\_shall join the Berlin High School Rifle Club which will affiliate with the National Rifle Association of America. The shooting is to be done in the basement of the High School, using the 22 short cartridge. A competent instructor is to be present at every meeting.

In Athletics, September found us in a much better position in every way than a year ago. From the beginning of school until it became too cold for out of door practice, efforts were made to organize Soccer Football teams for the boys and Volley Ball teams for the girls, the latter being made possible through the kindness of the Girls Club in allowing us to use their tennis courts for this purpose. Neither one of these sports met with the enthusiasm that we had expected, but we feel confident, from what interest was taken, that both of these branches of sport will hold an equal footing with track and basket ball another year.

During the summer it was decided by the Board of Directors of the Y. M. C. A. that High School pupils might have a limited use of the gymnasium. Not only did this apply to the boys of the school but to the girls as well. A schedule was arranged permitting ten hours' use of the gymnasium weekly. A suitable dressing room was arranged for the girls while the boys have the use of the locker room. Members of the Athletic Association not Y. M. C. A. members naturally do not have the use of the pool and the shower baths except after the games when the boys are allowed the privilege of the latter. In consideration of these arrangements the Athletic Association has shared its membership fees as well as its gate receipts at games held in the Gymnasium on a 50 per cent basis. The arrangement has been decidedly satisfactory and has proved a great advantage over that of last year.

The present membership of the Athletic Association is 167. The number of pupils playing basket ball is as follows:

Seniors	Girls	7	Boys	8
Juniors	66	14	**	15
Sophomores	"	13	44	11
Freshmen	66	17	" "	18

making a total of 103.

At the close of last year we had a balance of \$69.76 after paying all the expenses for basket ball, base ball and track. We have received, from dues this year \$81.50, from our games to date \$61.30; 50 per cent of this amount being paid to the Y. M. C. A., leaving to our credit for this season \$71.40. Our expenditures have been \$41.90, leaving us a balance in the bank at the present time of \$99.87. The attitude of the student body has been excellent in its co-operation with the faculty. This will be seen from the following amendment which was passed the latter part of last year.

Amendment: To the By-Laws of the Berlin High School Athletic Association.

"Any pupil of the Berlin High School who has failed in one or more subjects in the First Semester of any school year shall be ineligible to compete in any class or school activity during the remainder of that year and shall be ineligible for such a period of time after that as in the eyes of the faculty board of control seems advisable and to the best interest of that pupil's class standing."

What we want in addition to this is the moral and financial support in the development of a system of clean and active inter-class athletics of which Berlin may be proud.

Table IV is the curricula of the Berlin High School for the school year 1915-1916 adopted and approved by the State Superintendent of Public Instruction.

There are five post graduate students in school this year. These pupils are taking this work, not necessarily of advanced type, as there are no teachers available, but subjects that will help them on entering college another year. I wish that it might be possible for the school to offer work of advanced type for all students interested, as there are many possibilities for such a course under the conditions that exist here in Berlin.

Through the kind co-operation of some of the musicians of the City, it has been possible to arrange for a musical program for the first few minutes of each music period, thus making the work very interesting and educational.

There is also a program arranged where outside speakers give short talks to the commercial students of the Senior Class. This gives them a general notion of affairs of the outside world from a practical point of view. These talks have also been very instructive and have added interest to the work.

The Berlin High School prepares for college, not necessarily for all colleges, as there are few high schools in the country that do. On the other hand this is not the only aim of the school, because it must not only prepare the fortunate few that have the advantages and privileges of higher education, but the greater mass for life, whose education ends when they leave the high school.

Every course in the curricula that is offered has some aim or purpose. When a student goes through high school and graduates without some general notion of what he is going to do, and in June of the year of graduation says that he cannot enter this or that college it is then not the fault of the school or course of study but the pupil or parent. The fact is that any high school of approved standing can prepare for college. This as a school problem is much simpler than preparing students who can not go to college.

The Berlin High School has full certificate privilege to the following colleges and college entrance boards: University of Pennsylvania, University of Maine, New Hampshire State, and Dartmouth.

The New England College Entrance Board admits to Brown, Smith, Wellesley, Bates, Bowdoin, Colby, Simmons, Williams, New York University, Boston University, University of Vermont, Vassar College, Tufts, Clarks, Norwich University, Amherst, Mount Holyoke, and others.

The social composition of the high school has vastly changed during the past few years. From being an aristocratic institution fitted for the few who went to college, the high school has doubled in registration, ninety per cent of which never will attend college. The problems which these pupils will face when they leave school are largely the problems of life rather than the artificial demands of an academic college. With this in mind some of the colleges have adopted means whereby they admit on certificate pupils from schools that are trying to educate all the children of all the people. The following are types of letters received from three of the colleges that have adopted this plan.

#### BOARD OF EDUCATION.

## University of Maine.

"Since the University of Maine withdrew from the New England College Entrance Certificate Board in June, 1912, it has accepted graduates of Class A Maine high schools upon their record provide<sub>d</sub> their course of study covered the requirements of the college of the University that they wished to enter. During this time the University has not announced a definite policy with regard to the admission of candidates from schools in the other New England States. It now seems desirable that the University make a definite statement of policy regarding admission from schools outside of Maine. All schools that have sent candidates to the University upon certificate during the past three years will have the privilege continued for 1915, and indefinitely, unless there develops reasons for withdrawing it."

#### New Hampshire State College.

"In place of examination, certificates will be received from approved preparatory schools, including all approved by the State Superintendent of Public Instruction in New Hampshire. The certificate privilege will be withdrawn from any school whenever it appears that the work does not maintain the standard required by the college."

### Dartmouth.

"With the class entering in 1916, Dartmouth College inaugurates a new method of selecting the schools whose pupils have the privilege of admission by certificate. The College desires to promote more personal, and less perfunctory relations with the schools which prepare pupils for Dartmouth. Accordingly, personal visitation by a representative of the faculty will be planned, as far as possible, for each such school. The granting or re-issuing of the certificate privilege will be decided by the committee after due consideration of (1) the report of the visitor from the faculty; (2) the record of the graduates of the school who have entered Dartmouth, if any; (3) the standing of the school in the rating of the State Department of Education and other certificate bodies; (4) the information contained in the application blank submitted by the principal of the school."

The colleges require for admisson from 14 to 15 units. A unit means the study in a secondary school of one subject for one year for four or five periods a week. Two hours of manual training or laboratory work an equivalent to one hour of class room work.

Four years in the Latin Department in the Berlin High School will give 17 units and in the Mechanic Arts Department 15 units.

In this connection it might be well to add that it is important that the boy or girl if he intends to enter college, should have some general notion of the college he wishes to attend and the kind of work he intends to follow.

In conclusion permit me in behalf of the teachers of the Berlin High School to express our thanks to you for the co-operation and courtesies extended to us during the past year.

Respectfully submitted,

D. W. MACLEAN, Prin. Berlin High School.

JANITORS: G

### Department of City Poor.

#### BERLIN, N. H., January 31, 1916.

To His Honor, the Mayor, and the City Council of the City of Berlin:

Gentlemen:—I herewith submit my report as Overseer of City Poor for the year ending January 31, 1916, which shows the appropriation over run \$156.66. This was unavoidable as the conditions during the early part of 1915 were unusual in Berlin and in anticipation of this, I recommended to the Finance Committee a two hundred dollar increase for the year. The Committee conceded the necessity but the appropriation was made the same amount, \$1200., as in 1913.

At the present time we are supporting a few more people than at a corresponding period in 1915 and I can see where they will continue through the winter. This department for 1916 should have at least \$1500.00 and for a city the size of Berlin with similar conditions, this amount is small. Wherever aid has been given, the case has been thoroughly investigated and assistance rendered impartially.

I desire to thank all members of the City Government for courtesies extended me, especially Mayor Rich, whom I have had occasion to consult often.

Respectfully submitted,

A. B. FORBUSH, Overseer of City Poor.

### Report of City Engineer.

#### BERLIN, N. H., January 31, 1916.

#### To His Honor, the Mayor, and City Council of the City of Berlin:

Gentlemen:-The work done by the City Engineer's Department from April 1, 1915, to date includes, for the Public Works Department, laying out and giving batter-boards for 8,073 lineal feet of concrete curb for sidewalks, and 275 feet of concrete walls. There were also 75 feet of sidewalk curb and 811 feet of walls built without batters being set. Also it includes surveys for 3,990 lineal feet of sewers and surface drains, most of which were laid to batter-boards, about 604 feet having been laid without any surveys being made. About 660 feet of the whole were old sewers re-laid, to straighten them, even grades and replace broken pipe. For the same department I carefully surveyed and gave grade levels for grading of 200 lineal feet on Merrimack street, measured and estimated asphalt sidewalks laid by contract by S. D. Tilton, located the street lines on Denmark street for grading, and the so-called Croteau road on the East side. I also established and referenced carefully street lines on west side of High street for about 2,700 feet, on Treamer street, Burgess street in part and on part of Main street in the Narrows, and also at Berlin Mills. I gave street grades on Laurel street, First avenue, Main street in the Narrows, Champlain street, and Portland street at corner of High and Willard streets. A number of permits were given, after looking carefully over the ground, for light and telephone poles and hydrants, and many new houses numbered.

A large part of the work this season was on account of the new Berlin Mills bridge, consisting of location surveys, plans for the masonry and supervision of the same during construction, and I also did some work for the School Board, in arranging and surveying an agreed line between the new Brown school lot and Gustave Paulson.

A new lay-out of Spring street was made and recorded, and a record made of Guilmette street, which had never before been laid out by the City.

Maps have been made to show most of this work, and the remainder will be made through the winter, and all field-notes have been filed for the City, and records of the sewers made or being made in the sewer book. I have arranged the City plans to lie flat in the drawers instead of in rolls, as being much easier to find and replace, and with less injury to the plans, and most of them have been newly indexed.

I have also obtained copies for the City of a number of the recorded plans of different allotments which have been made, for the small expense of blue prints.

For the coming year, engineering work that is badly needed is the establishment of new records for several streets. For instance so far as I know, there are absolutely no defined street lines on Western avenue, the old records do not at all fit conditions on the ground, and if the City Engineer were called upon to locate the street lines on the greater part of this street, he would have nothing at all to work from. Nothing has been done this year towards perambulating any of the town lines. None of them have been gone over, as required by law, for nearly twenty years.

The sewer book should be carefully gone over, corrected and completed, and additional notes taken and entered in it. The old book is badly worn out, it needs re-indexing and replacing of torn pages and several sewers are not recorded at all. There are a great many man holes and locations of sewers not properly referenced, and the depth of sewers has hardly ever been recorded.

The indexes of plans and records should be corrected and completed, but this will not be a very expensive matter. The card index of street numbering and directory, however, needs to be entirely made over, as it is very incorrect and imperfect, and several streets have never been typewritten from the rough field notes.

The office will need very shortly further room for filing plans, the four drawers being as full now as they can possibly be without injury to the plans. A similar case to the one we have can be placed under the other end of the large drawing table, and I think the Mechanic Arts department of the High school would make it for us, if the City would provide the materials.

Respectfully submitted,

E. MCCOURT MACY, City Engineer.

Berlin, N. H. THE FRANKLIN PRINTERY 1916

## Report of the Public Works Department.

#### BERLIN, N. H., January 31, 1916.

#### To His Honor, the Mayor, and the City Council of the City of Berlin:

Gentlemen:—I have the honor to submit to you the annual report of the Department of Public Works for the year ending January 31, 1916. I want to take the liberty to say a few words in regard to the work done in this department and mention a few of the principal jobs, before giving you a description of the work done by job numbers.

It has been the aim of this department to do the largest amount of good work that they could for the least money. After carefully reading the costs of the different jobs, I hope that you will agree with me that the money has been economically spent.

The department has built nearly 10,000 sq. yds. of new water bound macadam roads, a new state highway on the west side of the Androscoggin river from Sam Paine's bridge to the Milan line, three and three-tenths miles in length. Have laid 4,660 feet of new sewer and have built 8,471 feet of new sidewalks, which includes a 6 inch concrete curb with cinder or earth fill covered with rock dust from our crusher, or nearly one and three-quarter miles of new walks. Have also covered old and new sidewalks with tar concrete covering to the extent of 6,268.5 sq. yds.

The department has used two tank cars of tarvia for the macadam roads, one tank car of oil for dust laying and nearly six car loads of cement. The cost of the work just mentioned will be found in an itemized account of the different jobs in this report.

Following is a list of the work done the past year with cost of same.

#### Job No. 41, Street Maintenance.

Under this head is included all street repairs, unkeep of catch basins and 25 new ones put in for taking care of surface water, street drains, culverts, etc., within the city limits, repairing and painting guard rails, street cleaning and cleaning out catch basins, snow removal, sanding sidewalks, cutting ice, and the collection of ashes in the spring. This job also includes quite a little macadam work. The cost of this work for the year was 8670.21

#### Job No. 42, Sewer Maintenance.

This work includes the repairing, maintenance, cleaning, re-construction and the general upkeep of the sewer system, including some new pipe and new manholes in reconstruction. Also land rent for such parts of the system as are on private property. The cost of this work for the year was \$749.05.

#### Job No. 43, Tools and Equipment.

The account includes the repairs and maintenance of the boilers, steam roller, air compressor and other equipment of the department also the new equipment and tools needed by this department. The cost of this job was \$640.61.

#### Job No. 44, Office.

This job includes all office supplies and materials, clerk hire and superintendent's salary, also three months' salary of former superintendent and one additional filing cabinet. The total cost was \$2,561.88

#### Job No. 45, Garbage Collection.

This job consists of the collection of the garbage and waste from all parts of the city. The work cost \$1,356.51. This should cost less next year as it was late in the season before a change was made which has cut the cost considerably.

#### Job No. 46, 1914 Account.

During this year bills were received for work that was done last year amounting to \$166.33.

#### Job No. 47, Blacksmith Shop.

The blacksmith shop was operated this year as in former years. The work of sharpening and repairing tools used in this department was charged out to the different jobs and credited to the shop. The cost to run the shop was \$638.48. Work charged out \$616.24 leaving a small debit of \$22.24. This account would have shown a credit if the cost of carrying tools to and from the jobs had been charged to the different jobs instead of to the shop as this work was done by the blacksmith's helper.

#### Job No. 49, Miscellaneous.

This account includes heating for the fountain on Post Office square, insurance, and work done for some of the other departments, part of which has not been paid to this department. The cost of this account is \$270.68.

#### Job No. 50, Storehouse.

This account is kept for the purpose of storing materials bought in quantities during the winter and charged out to the different jobs during the working season. This includes all sewer pipe, cement, cylinder oil, etc., together with freight on same and the handling from the cars to the storehouse. The materials are charged to the jobs at actual price, leaving the freight and handling charged to the storehouse. This job also includes the upkeep and repair on the storehouse buildings and cost of installing electric lights throughout the buildings. This job shows a debit of \$203.26.

#### Job No. 52, Crusher.

Under this job all rock used by the city was hauled and charged to the crusher and later charged out to the different jobs. This year we were enabled to get our rock very cheaply owing to having several jobs where we had to blow out ledges on street jobs and also a considerable amount of rock which we obtained from the Cummings Construction Co. at the International Paper mill for only the cost of the hauling. The cost of delivering the rock and operating the crusher was \$3,340.72. Number of yds. crushed was 3,695 cu. yds. at a cost of 90.4c a cu. yd. This was sold to the different jobs at that price-

#### Job No. 51, Road Maintenance.

The work included under this head is the maintenance of our country roads, including the construction and reconstruction of culverts, small bridges, guard rails, breaking roads, etc. This account includes the West Milan road, the East Milan road, Success road and repairs on the old Sam Paine bridge. The cost of this work is \$1,403.37.

#### Job No. 53, Gorham Road.

The work done on Gorham road and Glen avenue was the repairing of the old cinder road and the rebuilding of the old guard rail and painting the same. The cost was \$325.75.

#### Job No. 55, Sidewalk Maintenance.

This job includes the maintenance and general upkeep of all of our sidewalks not covered with concrete. The cost of this job was \$288.73.

#### Job No. 56, Sprinkling Streets.

This account includes \$300.00 water rental and the cost of operating three sprinklers in all parts of the city where the grades were not too steep for the teams to climb. The cost of this work was \$1,667.42.

#### Job No. 57, Engineering.

This job cost this department \$495.24 after deducting certain

#### CITY OF BERLIN.

charges for work done on account of the new bridge at Berlin Mills. The department work included all necessary engineering for construction and repair work carried out, and also various small jobs required from time to time, which are more fully described in Mr. McC. Macy's own report, appended hereto.

#### Job No. 58, Ottawa Street.

This was a small street job that was done at the further end of Ottawa street and was done for the cost of only \$21.70.

#### All Sewers Constructed During the Year 1915.

This list includes all new sewers laid the season of 1915. For details of cost the office records can be consulted by referring to the job numbers shown in the above table.

#### Job No. 61, Stafford Street.

This job consists of blasting out a ledge and grading Stafford street from Champlain street to Goebel street. The cost of this work was \$266.04.

#### Job No. 62, Goebel Street and Sidewalk.

This job consists of a concrete curb sidewalk with cinder fill, covered with crusher screenings. The walk is on the west side of Goebel street from Merrimack street to German street and is 306 ft. in length. This job also includes the blasting out of two quite heavy ledges, a good deal of filling and grading and some grading down German street. The street and sidewalk jobs were not kept separate as they were done in conjunction with each other. The total cost of the work done was \$556.37.

#### Job No. 63A, First Avenue, (Street Job.)

Under this job number, two separate jobs were kept. The first one was for the grading with gravel hauled from the city pit on the Jericho road, from Green street to the end of First avenue near the Grand Trunk railroad. The cost of this work was \$226.05.

#### Job No. 63B.

This includes the taking out of the ledge, cutting down the hill and some grading near the McGivney residence. This hill was not cut down as much as it should be on account of the sewer and water pipes in the street and the objections of some of the people owning houses on the west side of the street. The cost of this job was \$232.87.

#### Job No. 64, Columbia Street.

This account was for a small grading job on the street leading off Hutchins street on the East side of the river. Cost of the work was \$77.34.

#### Job No. 66, Champlain Street.

This job was for the blasting out of a ledge just north of Mason street, and was done at a cost of \$57.65.

#### Job No. 67, Jewell Street.

This work was for the opening up of Jewell street from Second to Third avenue. The work consisted chiefly of taking out ledge and grading after ledge was removed. The cost of this work was \$251.46.

#### Job No. 69, Norwegian Street and Church Wall.

Under this number two jobs were carried on. The first one was for the grading of Norwegian street from Eighth to Tenth street. This part of the street was very flat and muddy. There was a large amount of filling carted in from a bank on Denmark street and at the time it was done the weather was very wet and it did not improve the street as it should. It was necessary to haul cinders to cover the grad ing, which we did to only a part of the street, as we could not get the cinders. This work should be done the first thing in the spring. The cost of this job was \$401.44.

The second job carried on under this number was for a concrete wall and steps in front of the church on this street and also 90 feet of concrete curb sidewalk with earth filling covered with crusher screenings on top. The work cost \$139.77.

#### Job No. 70, Main Street (From End of Pavement to Sam Paine Bridge.)

This work covered the grading of this street from six to eight

inches in depth with material taken from Holt's gravel pit. This street was in very bad condition and this work had to be done to connect up with the new state road which commences at the Sam Paine bridge. The cost of this work was \$682.31.

#### Job No. 71, Hillside Avenue.

Hillside avenue was re-graded and surfaced with gravel from Hemlock street down across Dead river bridge and the Grand Trunk railroad to Madigan street. The work cost \$620.45.

#### Job No. 72, Portland Street.

This job was principally taking out a ledge on Portland street between High street and Willard street together with some grading and also the building of a small concrete wall in front of one of the houses. Cost of this job was \$182.82.

#### Job No. 73. Second Avenue.

This job was the taking out of a large ledge and widening the street in front of Mr. Seguin's house. The rock taken from this place was put into the big ravine on Second avenue between Jolbert and Hamlin streets for a fill. The cost was \$358.15.

#### Job No. 74, State Highway.

This job consisted of completely reconstructing about three and three-tenth miles of highway outside the city limits, running from the Sam Paine bridge to Milan line on the west side of the river. There was some heavy filling in places, and some bends were straightened out. The whole road was surfaced with gravel six to eight inches deep; sixteen concrete culverts were put in, ranging from 2 ft. sq. to 4 ft. sq., and the whole road was thoroughly ditched to take care of water. On some parts of the road the material obtainable was not all that could be desired, but on the whole the gravel used was satisfactory. Arrangements have been made with the State Engineer to establish a patrol system next season for the maintenance of this highway, and if it is properly taken care of it should remain in good condition for several years to come. The cost of this piece of road was \$7,372.61 and the City received back from the State \$3,497.20, leaving a net cost to the City of \$3,875.41.

#### Job. No. 75, Oiling.

We tried this year a car of light oil for use as a dust-layer on some of the residential streets, where the grade is so heavy as to make sprinkling difficult. We think it was a success and satisfactory to residents on these streets. The cost of the oiling and the application of same was \$563.29.

#### Job No. 78, Green Street.

This job includes building a water-bound macadam road on Green street from Roderick's residence through Second avenue, Madigan street and on Third avenue for a distance of 685 ft. to meet the gravel road put in on that street last year. The total length of streets surfaced was 1,900 ft. and the surface covered 6,910 sq. yds. at a cost of 50 15-100 cents per sq. yd. There were in places quite heavy fills to bring the road up to grade, which are all included in the above cost. Total cost of the work was \$3,560.36.

#### Job No. 81, Denmark Street.

This was an extension of Denmark street for about 400 ft. north of Eighth street for the accommodation of five or six families who had no road before. The total cost was \$226.80.

#### Job No. 82. School Street.

This was a retaining wall built to hold up the sidewalk along the property of the Roman Catholic church, a total length of 300 ft. The wall was three ft. high on an average. Total cost \$260.38.

#### Job No. 84, Burgess Street.

This was a job of grading and taking out rock, and widening out the street south of Stafford street. There was a heavy ledge cut and grading and removing of boulders, as there was nothing before but a bare wheel track. Total cost \$782.47.

#### Job No. 85, Cates Hill.

This includes the repairing of the old Cates Hill road, as well as the new road, which runs from Hillside avenue, also the building of a short piece of new road to connect up these two. A number of small culverts had to be replaced, and some small wooden bridges. The total cost was \$425.93.

#### Job No. 88, Laurel Street.

The larger part of this job is for the sewer but there is a small job included which was done in grading the street with cinders since winter came on. The total cost of this part of job No. 88 was \$147.24.

#### Job No. 111, Croteau Hill.

This job was for the opening up of a new street on the East side of the river for the residents on Croteau Hill, as the street formerly used by them had been closed by the owner of that property. The cost of the work was \$334.00.

#### Job No. 89, Calcades.

This job included re-grading, surfacing, ditching, repairing worn

out culverts, and general repairing worn out culvets, and general repairing of a number of streets at the Cascade settlement. Cascade street, so called, lies on the Gorham town line for a length of about 755 feet, and the Town of Gorham having let a contract to improve a number of their adjoining streets, the City of Berlin agreed to combine with them in this contract, paying 40 per cent of the cost of improving Cascade street. On this account the sum of \$229.64 was paid to the Town of Gorham. Western avenue, about one and one-quarter miles in length was re-graded and new culverts and bridges put in at an expense of about \$400.00 which is all included in this job. The total cost of this job was \$1,063.26.

#### Job No. 94, Coos Street.

This job was building an extension of this street from Sullivan street east about 600 ft. opening up a street for six or seven families who had no way of egress. Cost \$266.70.

#### Job No. 96, Oak Street.

This job included resurfacing of this street with crushed rock, a length of 356 ft., average width of  $25\frac{1}{2}$  ft. This was another new street to be treated with tarvia. Surface 1,009 sq. yds. at 30 cents (without tarvia.) Total cost \$302.00.

#### Job No. 99, Sully Street.

This job included grading, full width, partially across a very wet swamp a distance of about 265 ft. from Hutchins street to Horne street. A 15 in. sewer pipe was laid through the swamp for drainage. Total cost \$605.01.

#### Job No. 100, State Street.

This job included grading of this street between Willard and Hemlock streets, where there had only been a barely passable track before and removing a large quantity of stones to the crusher. Total cost \$167.90.

#### Job No. 95, Union Street.

This street which is narrow and has no sidewalks was re-graded with macadam for its whole length of 432 ft. an average width of 20 ft. This was formerly very wet and muddy but carried considerable heavy traffic, being practically an extention of Pleasant street to the Grand Trunk station. It is one of the new streets included in the tarvia job. Number of sq. yds. macadamized 960 at unit cost of about  $27\frac{1}{2}$ c, total cost \$264.34.

#### Job 86, Tarvia.

All the same streets were treated with tarvia as last year, also the

following new ones: Oak street, Green street (further end), Union street, Western avenue and Mt. Forist street, Madigan street, Second avenue, Third avenue. There was also a portion of the upper end of Main street and the state road covered, extending from the end of the paving at Berlin Mills as far as Bell's ice house, a distance of about half a mile. Total sq. yds. covered about 36,720 at a unit cost of about  $4\frac{3}{4}$  cents per yd, or total cost of \$1,747.73.

#### Job 106, Willard Street.

This job was grading on Willard street, north of Portland street, cutting down a hill, filling a hollow and widening the street. The total cost was \$149.95.

#### Job No. 108, Eighth Street.

This was a small job of cutting down the grade at intersection of Denmark and Eighth streets and raising it a little further down. Total cost was \$92.85.

#### Job 109, Sidewalk Work Done by S. D. Tilton Under Con-

#### tract.

The prices under this contract were 65 cents per sq. yd. for new walks, \$1.00 per yd. for crossings and driveways and 50 cents per yd. for recovering old walks, repair work to be the same as new work, 65 cents. Work was done on the following streets:

TT' 1 does at	0 017	0.5
High street	\$ 617	35
Hillside avenue	133	90

The detailed estimate of different kinds and prices on each street can be found in the City Engineer's office.

#### Sidewalks.

Job No. 60, Merrimack Street Sidewalk.

This is a new cement curb and earth filled walk on the north side

#### CITY OF BERLIN.

of Merrimack street between Goebel and Champlain streets. It includes a high curb, deep fill and a long piece of back wall. Total length 206 ft. at about 74 cents a ft. Total cost \$152.08.

#### Job No. 68, High Street Sidewalk.

This job includes building a nine ft. walk, cement curb and gravel filling, for 1,145 ft. on the west side of High street, from Emery street to Park street, also similar 6 ft. walks on one side of State street, High street to Willard street, 455 ft., both sides of Pine street, High to Willard street, 910 ft. and on one side of Willard street between Park and State streets. 227 ft., also a 5 ft. walk one side of Holt avenue, High to Church, 215 ft. Total length 2,952 ft. at 41 cents. Total cost \$1,212.50.

#### Job No. 79, Spring Street Sidewalk.

This job includes 500 ft. of new sidewalk, partly 5 ft. and partly 6 ft. in width, filling the same and building 100 ft. of back wall, averaging 5 ft in height, the curb and heavy iron railing on the top. The total cost was \$490.07 of which \$128.00 was for the back wall and \$28.48 for the railing, leaving \$333.59 for the curb and filling or 67 cents per ft. This was an expensive curb to build being very high in places, steep, and a good deal of filling. Total cost \$490.07.

#### Job No. 80, Prospect Street Sidewalk.

This job includes two pieces of walk, 585 ft. long in all, concrete curb and earth fill sidewalk 6 ft. wide. Price about 40 cents per running ft. Total cost \$223.19.

#### Job No. 81, Denmark Street Sidewalk.

This job includes 915 ft. of new sidewalk, concrete curb and earth fill. It was high curb most of the way and required much filling and some expense for draining. Cost 60 cents per ft. Total cost \$548.33.

#### Job No. 83, Success Street.

This job included a sidewalk down one side of the street, from School street to Main street, concrete curb with earth, cinders and crusher dust filling. Length 372 ft. at  $55\frac{1}{2}$  cents per ft. Total cost \$207.00.

#### Job No. 90, Church Street.

This includes three separate jobs, the building of 392 ft. of cement curb and earth filled sidewalk on the East side of the street, also 211 ft. of cement curb and heavy iron railing on a back wall on the other side of the street and a wall 37 ft. long and  $4\frac{1}{2}$  ft. high between lands of Treggett and Preo. These walls form the second job. The third job is a cheap dirt sidewalk without any curb, which was graded for

600 ft. north of Portland street at a cost of \$89.45. Total cost of all three jobs \$526.02.

#### Job No. 91, Third Avenue Sidewalk.

This includes a cement curb walk 6 ft. wide, filled with earth and cinders for a length of 500 ft. at  $62\frac{1}{2}$  c ft. Total cost \$313.04.

#### Job No. 97, Rousseau Wall.

This was a concrete wall with pipes set in for an iron fence, along the line between land of E. Rousseau and the city storehouse lot. Length 114 ft., total cost \$115.99.

#### Job No. 98, First Avenue Sidewalk.

This includes about 397 ft. of concrete curb and earth filled sidewalk on First avenue and 110 ft. of the same on Green street, besides several short lengths of back wall on First avenue. Total length 507 ft. a 55 cents per ft. Total cost \$280.03.

#### Job No. 101, Cambridge Street Sidewalk.

This includes about 414 lin. ft. of sidewalk, with a flight of wide steps next to Main street, for which reason the length is figured at 492 ft. also a back wall next to School street with railing 65 ft. long. There is also a heavy fill at the School street end and the steps added considerably to the cost. Reckoning length of curb and wall added together there is a total of 557 ft. at 73 cents. Total cost \$406.09.

#### Job No. 105, Mt. Forist Sidewalk.

This includes a curb up Mt. Forist street between First and Second avenues and a retaining wall round the terrace of the Gaynor house, the cost of which is not separated. Total length of sidewalk 256 ft., wall 25 ft. or 281 ft. in all at 40 cents per ft. Total cost \$113.38.

#### Job No. 110, Grand Trunk Sidewalk.

This is 75 ft. of curb filled with gravel and crusher dust, at 57 cents per ft. Total cost \$42.69.

The average cost of all sidewalks, including concrete curb and filling with earth and cinders topped with crusher dust, was about 53 cents per running ft. Individual sidewalks vary considerably, owing to difference in height of curb, amount of fill, distances where materials had to be hauled from and in some cases the need of blasting out points of rock.

Office equipment	170 00
One express sled	50 00
Miscellaneous, small tools and material	923 45
Total\$	12,217 19
After studying the requirements for the coming year	, I wish to
make the following recommendations:	

#### Pleasant Street.

This street will need considerable expenditure, as it largely relieves the traffic on the most crowded part of Main street. Various suggestions have been made, such as granite block pavement, wooden blocks, or macadam with tar concrete covering, also a sidewalk will be required on the West side from Mason to Green street.

#### Sewers.

Many of our small sewers are overloaded, and expenditures on this account will necessarily be large, for replacing and enlarging small sewers, and putting in several large pipes to take care of the surface water.

Some of these surface water drains are as follows: Eighth street, Berlin Mills, Green street upper end, and a large pipe should be put in from Factory street up to Second avenue to take care of what now runs in an open ditch. A number of new sewers will be required in ward four, as many parts of this locality have none at all.

#### Third Avenue.

While we have put in about 2,283 sq. yds. of macadam this year, north from Madigan street, this work is by no means finished. Third avenue was originally laid out 80 ft. wide, and I would suggest that a curb be built on each side, 15 to 18 feet out from the sidewalk line, to form a boundary for the roadway, the intervening space between these and the sidewalk curbs to be filled with waste material and grassed over at a small expense.

Then the street could be brought up to grade with macadam and tarvia, which would form an attractive street and one that could be kept up at small expense.

#### Glen Avenue.

Without doubt the coming season will see a state highway built from the lower end of the city to the Gorham line. There will be a strong demand for a sidewalk from Post Office square to Cross' machine shop, which should be built. It will necessitate straightening of the car line, and widening and straightening the street in places. This will be an expensive job, but no doubt will have to be begun at least this year.

#### Macadam Water Bound Roads.

This work should be carried on similarly to this year, the crusher being placed in streets where ledges need removal, and where rock can be easily and cheaply obtained. By continuing this policy, our streets will shortly be cleared of rock obstructions and at the same time the best and cheapest material obtained for filling and surfacing where needed.

#### East Side Highway to Accommodate the New Bridge.

A considerable stretch of new street will have to be built, to connect the east end of the bridge with Hutchins street and improve the latter both northerly and southerly to connect with other streets. A bridge will be needed over Bean brook, a large stone culvert and heavy fill over the hollow beyond Horne's house and good roads should be built to the cemeteries, all of which lie north of the bridge on that side: This road also carries heavy teaming and should be substantially built. Some kind of a sidewalk should be built from the bridge to the

156

cemeteries as there are many foot passengers to them during the summer, largely women and children. These various jobs will necessitate an expenditure of probably from \$2,000.00 to \$3,000.00 at least.

#### State Road to Gorham.

This much needed improvement will undoubtedly be taken up as the State has notified us that they are prepared to do their part.

#### Painting Bridges.

The Mason street bridges must be painted this year, as they are in very bad condition in this respect.

#### Mt. Forist Street and First Avenue.

Mt. Forist street should be widened past the Cole property. Some arrangement should be made with owners of property setting low, so that First avenue could be raised to form a good grade from the corner of Mt. Forist street to the top of the hill where the McGivneys live, as this would seem the most feasible way to make a good passable street, leading up Laurel street to the flat around Second and Third avenues.

#### Sprinkling.

Sprinkler carts are becoming a thing of the past in most cities and I would suggest that we convert one of our carts into a flusher, wash our Main street, and those streets covered with concrete and tar, at night. This would do away with our street sweeper, which causes much dust and much injury to health. Other city streets could be treated twice a year with dust-laying oil and I think the results would be more satisfactory than by trying to lay the dust with a sprinkler. I think this change could be made for about the same as the cost to run three sprinkler wagons this year.

It might be well to consider the question of buying a five ton truck as the team hire needed by this department has been one of the largest items of expense in the past.

In closing I wish to add that my relations with the Mayor, City Council, Public Works Committee and City Engineer have been very harmonious, and I wish to express my thanks to them all for their assistance in the performance of my duties.

Respectfully submitted,

O. W. FERNALD,

Commissioner of Public Works.

### Report of City Clerk.

BERLIN, N. H., January 31, 1916.

To His Honor, the Mayor, and the City Council of the City of Berlin:

I herewith submit my report as City Clerk for the year ending January 31, 1916, which is as follows:

I have collected for the City of Berlin and credited to the appropriate departments the following sums:

Dog licenses, less fees\$	638 29
Rental of Assembly Hall	115 00
Rental of Old City Building	255 00
Tax sales	795 90
Interest on tax sales	32 65
Peddlers' licenses	136 00
Junk dealers' licenses	40 00
Hack licenses.	18 00
Truck licenses	19 15
Rag and rubber dealers' licenses	3 00
Show licenses	350 00
Bowling alley licenses	50 00
Pool room and shooting gallery licenses	303 24
Employment office licenses	60 00
	2,816 23
Paid City Treasurer\$	5 2,816 23

Respectfully submitted,

C. M. DAVIDSON. City Clerk.

#### Clerical Department.

### Municipal Regulations.

#### For the Payment of Bills Against the City.

All bills against the City must be approved by the person authorizing the charges; and unless this is done, no action can be taken upon the bill by the Con-mittee on Accounts and Claims, and no order will be given for its payment. When bills are certified as to above, and left with the City Clerk not later than 12 o'clock, m., on the Saturday preceding the first Tuesday of each month, they will be audited by the Committee on Accounts and Claims, and if approved by them and allowed by the Council will be ready for payment on the following Thursday, at the office of City Treasurer.

Meetings of the Committee on Accounts and Claims are held on Monday preceding the first Tuesday of each month, and the regular meetings of the City Council are held on the first Tuesday of each month at 8 o'clock, p. m.

# Auditor's Report.

BERLIN, N. H., February 17, 1916.

To His Honor, the Mayor, and the City Council of the City of Berlin:

Gentlemen:—I have examined the books and accounts of the Assessors, Tax Collector, City Clerk and Treasurer for the year ending January 31, 1916, and submit the following report:

#### Assessors.

Total taxes assessed as per Assessors Inventory Book, \$206,921.13 and this amount has been committed to the Tax Collector.

### Tax Collector's Account.

Joseph E. Gonya for 1907.		
Balance due the City, January 31, 1915\$ 2,907 18		
Abated in 1915 2,907 18		
Joseph E. Gonya for 1908.		
Balance due the City, January 31, 1915\$ 4,145 25		
Collected and abated in 1915 7 50		
Balance due the City, January 31, 1916	\$	4,137 75

AUDITOR'S REPORT.

### Resume,

Cash account.

Balance on hand, January 31, 1916..... \$ 47,641 08

The cash was verified February 15, 1916 and found to be fully accounted for by deposits in the Guaranty Trust Co. of Berlin, N. H. and checks in the hands of the Treasurer.

The cash disbursements are supported by satisfactory vouchers all of which have been compared with the drafts and charges in the cash book.

The cash receipts from the City Clerk and Tax Collector have been verified with the proper vouchers.

ARTHUR T. BYRNES,

City Auditor.

# Report of Finance Committee.

## To the Honorable City Council:

The Committee on Finance herewith submits its financial report for the fiscal year ending January 31, 1916.

Our City Auditor, Mr. Arthur T. Byrnes, has carefully examined all the financial affairs of the City during the past year and reports that he finds all receipts and disbursements properly accounted for and vouchers in due form for all money expended.

We have also examined the securities and valuable papers of the City and find the files to be complete.

The total receipts for the year, including cash on hand at the close	
of the last fiscal year were\$462,541 64	
Total disbursements during the year were 414,900 56	

Cash on hand January 31, 1916......\$ 47,641 08 The next overdraft for the year ending January 31, 1916, as appears from the report of the Auditor amounts to \$15,288.20.

The heaviest overdrafts appear in the following departme	ents :
Public Works\$	7,932 65
New City Building Construction	3,147 11
Schools	3,111 27
Miscellaneous	1,887 35

The overdraft in the Public Works Department was caused largely by what seemed to be almost an imperative demand for large expenditures on streets, sewers and sidewalks, much of the work which was done having been ordered by the City Council the year previous and not completed. The report of the Superintendent of Public Works will explain in detail just what has been done in the department.

The overdraft in the New City Building Construction Department was caused by an unpaid balance due the contractors for the erection of this building, together with necessary equipment, for which there was no appropriation.

We are informed by the Board of Education, on whose judgment we have relied, that our schools have been conducted as economically during the past year as it has been possible, keeping in mind the efficiency and high standard which it is desirable to maintain.

In recommending the following appropriation for the School

Department we have in mind the probable erection and equipment of a new school house in that part of the City known as Ward One.

The Miscellaneous appropration, as its name implies, covers everything that is not otherwise provided for, and we have been called upon to make settlement of claims and other demands which could not have been foreseen and from which there was no escape.

Bonds       \$25,000       00         Band Concerts       200       00         Cemetery       100       00         City Poor       1,500       00         City Poor       1,500       00         County Tax       12,898       53         Contagious Diseases       600       00         Election Expenses       1,200       00         Fire Department       13,000       00         Free Beds in St. Louis Hospital (three)       900       00         Grand Army       100       00         Hydrants       3,500       00         Interest       17,00       00         Lighting Streets       6,500       00         New Hampshire National Guard       200       00         Overdraft, 1915       15,288       20         Printing and Stationery       1,000       00

\$218,979 23

It seems advisable, and perhaps necessary, that the item of \$15,288.20 in the foregoing list, the same being the net overdraft for the past year, should be raised by taxation the coming year, even if it becomes necessary to increase the tax rate.

In making the foregoing recommendations we have been guided by the probable needs of the different departments, based upon our experience and the expenditures for the year 1915. The appropriation recommended for the Department of Public Works is with the understanding that all fees received from the State for liquor licenses held in this city, shall be credited to this department, as was the case during the past year.

Our tax rate during the year 1914 was \$1.85, and during the year 1915 \$1.90, and with the needs of the various departments, as they appear to us, it would seem as though there must be a slight increase in the tax rate the coming year, unless there is a larger increase in our valuation than now seems probable, but we recommend that the tax rate shall not exceed \$2.00.

In making our recommendation for the appropriation for the Public Works Department, we had in mind improvements on the highway from Post Office Square to the Gorham line, making the same a part of our State Highway System, towards the construction of which the State has agreed to contribute one-half of the expense of the same up to five thousand dollars (\$5,000).

Respectfully submitted,

GEORGE F. RICH, FRED W. RAHMANOP, ELI J. ROY, *Finance Committee.*
