SELECTMEN'S SUMMARY AND
RECOMMENDATIONS

There is much we would like to discuss with you in the report of 1947. We deal with facts and figures for the year just past, and with your help we will plan for the future.

Our main problem again this year is Highways. You voted last March meeting to raise \$2,500.00 for summer and winter for Highways, which added to the amount \$2,744.40 received from the state under the Duncan Act class V money, totals \$5,244.40.

At the time of the March meeting there had already been spent for Snow Removal-Labor, \$2,005.43; Expense (gas, oil, and tractor parts), \$849.50; Sanding, \$319.40; Totaling \$3,174.33, leaving only \$2,070.07 for the nine and one half months remaining. We held the summer maintenance to \$1,795.09, adding general Highway expense of \$889.42 — makes \$2,684.51, leaving an overdraft of \$614.44.

Last March meeting you were asked to raise money for Bridges, which was voted down. You were asked to discontinue Highway from Robert Ford place to Dean road, also voted NO. Trucks loaded with lumber went through some of our bridges which had to be repaired and strengthened to state law requirements. The amount of \$581.07 was spent on Bridges alone. Then came this winter's Snow Removal expense together with Sanding, to the amount of \$1,318.10, which, added to the \$614.44, makes a total of \$1,932.54 expended above appropriations.

We recommend you vote "yea" under article 12. At the present time we have one Tractor with Snow Plow, one Road Machine, and one Fire Truck with equipment valued at \$3,000.00 with no building to house same. We

suggest you raise \$800.00 to buy of S. J. Ford the two buildings previously used by him as grain houses, the larger one to be used to house Town highway equipment, the smaller for Fire Department, also \$400.00 to repair same suitable to our needs.

Also article No. 13, in regard to buying Truck, we suggest you vote "yes". We spent \$2,149.02 last year for Truck hire. Deducting operating expenses we feel we can save \$1,200.00 a year. In summary, there is needed an appropriation of \$4,500.00 to add to the class V money received from the State if we continue to plow Door Yards, Logpiles, and Sand roads as is being done at present.

FIRE DEPARTMENT: We have a new department added to our report, that is the Danbury Volunteer Fire Department, which consists of three Commissioners, a Chief, Captain, three Lieutenants, and 22 members; also \$2,500.00 worth of equipment (with no housing facilities). We have had 1 major, 1 out of town, 7 chimney fires, and 3 oil stove explosions. The department has received through entertainments and gifts \$225.19, the latest gift from Miles B. Roby, of a check of \$25.00. This has been spent for expenses and supplies not included in the report of Town appropriation. There was raised last March \$250.00 for Fighting Fires; none of this went to the Fire Department as it was diverted to the Forest Fire Department.

As we look into the future we feel our expenses will be larger. Like other towns, our Highways and School expenses are continually on the increase. We must expect higher taxes if we expect our town to grow and succeed. First; Let us get all the benefit for our money spent. Second; Let us endeavor to improve our Highways and Schools — attract others to our town so as to improve our idle land and buildings, increase our valuation, and keep our tax rate reasonable.

TOWN WARRANT

The State of New Hampshire

To the Inhabitants of the Town of Danbury in the County of Merrimack in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Town House in said Danbury on Tuesday, the ninth day of March, at nine of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary town officers for the year ensuing.
2. To raise such sums of money as may be necessary to defray town expenses for the ensuing year and make appropriations of the same.
3. To raise such sums of money as may be necessary for the maintenance of highways.
4. To see what sum of money the Town will vote to raise for the George Gamble Library.
5. To see if the Town will vote to install lights in George Gamble Library and to raise money for same.
6. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes.
7. To see what sum of money the Town will vote to raise for cemeteries.
8. To see if the Town will vote to accept T. R. A. money, if available, and raise Town's share.

9. To see if the Town will vote to give a discount on taxes.

10. To see what action the Town will take regarding street light and raise money for same.

11. To see if the Town will vote to raise and appropriate a sum not exceeding one one-hundredths of one per cent ($1/100$ of 1%) of the net assessed valuation based on the assessment of 1947 for the purpose of publicizing and promoting the natural advantages and resources of the Town, together with other towns in the Dartmouth-Lake Sunapee Region Association.

12. To see if the Town will buy or build a building suitable to house the highway and fire equipment and raise money for same.

13. To see what action the Town will take in regard to plowing door yards and raise money for same.

14. To see what action the Town will take in regards to sanding roads and raise money for same.

15. To see what action the Town will take in regard to buying a truck for highway purposes and raise and appropriate money for same.

16. To see what action the Town will take in regard to repairing town bridges and raise and appropriate money for same.

17. To see what sum of money the Town will vote to raise for American Legion for Memorial Day.

Other articles will be added before warrant is posted.

SUPERINTENDENT'S REPORT

INCREASING COSTS. The facts herewith presented in brief are well known by all of us in our general everyday living but are less well known specifically in the field of education. Just received from J. L. Hammett's, a big school supply house in Boston, are these figures: Average increase in price of paper stock from January to October 1946 was 37.8%, and from October 1946 to October 1947 it was 20.6%. Figures on non-paper supplies for corresponding periods are 27.8% and 10%. Somewhat comparable increases would be found in books and work-books.

b) Teachers' Salaries: By State Board ruling a teacher of four years of training with a degree and at least two years of experience must be paid \$2,000. This is the minimum salary and any school system paying only the minimum runs the risk of having no teachers at all. This year there are 7 graduating from the elementary division at Plymouth Teachers' College and 18 at Keene. We are fortunate in being able to keep our schools successfully open. The National Education Association reports a salary of around \$2,500. today equal in purchasing power to \$1,500 in 1941.

c) It is not to be expected that the State of New Hampshire will continue to distribute \$2,000,000 in aid without insisting on full value received in the form of better education for New Hampshire youth. We need to keep this in mind at all times. The State will be reluctant to dictate anything but minimum standards and will prefer to lead as it has in the matter of in-service training of teachers through the very successful workshops it has been holding this year. We must expect results both tangible and intangible for the money spent.

NEW LAWS. In the long run the law passed in the legislature permitting cooperative school districts may well prove of more fundamental value than the State Aid

bill. It needs to be given careful study for it opens up new horizons for N. H. youth in the form of a richer, more varied, more meaningful educational opportunity particularly on the junior and senior high school level. A superintendent of schools is a liaison officer between many different groups and is always being "keel-hauled" sometimes in many directions at once! Certainly it is that much is being written and spoken on the defects of our educational system and of the things which we must do. Then too we realize our failings better than most others if we are conscientious in our work. Briefly stated, some of these ideas can be realized only with more efficient and educationally richer organizations.

b) School Districts are now permitted to set aside a capital reserve fund equal to $\frac{1}{2}\%$ of the assessed valuation. It would seem wise in some circumstances to take advantage of this provision while earning power remains high in anticipation of times when wages may be lower, particularly desirable to do if any major building alterations or programs are being considered.

c) New teachers must join the Teachers' Retirement System. To the school district this means an assessment payable July 1 of each year of at least 5% of the teacher's salary. This, plus voluntary membership, will account for the increase in the budget item of INSURANCE and

OTHER FIXED CHARGES.

d) Beginning with the school year 1948-49 pupils must be in attendance 180 days not counting teachers' institutes. As many as five days of this 180 may be used for teacher workshops under the supervision of the State Board. In effect this means the adding of a week to the school year. Days lost from a basic calendar must be made up before the close of school.

Respectfully submitted,

C. MAURICE GRAY
