## REPORT OF THE FOREST FIRE WARDEN

---

Your local organization to prevent and extinguish brush and woods fires is glad to report a good year of forest protection in 1948. In spite of danger conditions nearly equalling at times those of 1947 when great losses were suffered in New Hampshire and New England, fire damages and loss this year have been gratifyingly low.

With continuing cooperation of all the people, we can hope to have another successful year in 1949. Let us remember that in any year, over 90 per cent of all fires are caused by carelessness and that all of these man caused fires are preventable.

Today, we have more slash and uncut grassland than for many years in the past. Smokers, campers and tourists who use our outdoors are also more numerous than ever before. We must therefore be ready for fires which might occur but, above all, prevention by everyone is the greatest need.

A few simple precautions taken by every citizen will help, as follows:

- (1) Always get a written permit from the warden before kindling a fire outdoors when the ground is not covered with snow.
- (2) If you smoke, always extinguish matches and tobacco before dropping or throwing them down. In automobiles, always use the ash trays.
- (3) Report fires and smokes to the warden without delay.

The observance of these and other simple rules will go far to insure safety from fire damage and your cooperation in this way is earnestly solicited.

**1948 Fire Record:**

Number of fires, (6) fires reported

Acreage burned, one-eighth acre

Number of fire permits issued, 12

Respectively submitted,

District Fire Chief

## REPORT OF THE SUPERINTENDENT OF SCHOOL

I hereby submit my second annual report of the Errol School District.

### Pupil Enrollment

The grade distribution in the Errol Central School as of September, 1948, is as follows:

1	5	2	0	7
2	10	0	1	11
3	3	2	0	5
4	4	1	2	7
5	6	2	0	8
6	3	0	0	3
7	8	1	0	9
8	5	1	0	6
9	4	0	1	5
10	4	0	0	4
<hr/>				
Totals	52	9	4	65

A record of perfect attendance was achieved by the following pupils: Norman Eames, Donna Travers, Julia Turner, Anita Turner, Sherry Turner, Beverly Travers, Betty Gray, Wendell Turner, Jack Turner, and Gloria Porter.

Mrs. Lila Nutbrown, who has had several years of successful teaching experience, was elected to teach grades seven and eight.

Mr. William E. Bigelow returned as headmaster and teacher in grades nine and ten. Mrs. Esther Bean and Mrs. Shirley Hawkins returned to teach in the primary and intermediate grades.

Our teachers attended summer school at Plymouth Teachers' College and a Workshop in Elementary Education held at Groveton. This in-service training program was sponsored by the State Department of Education under the supervision of Dr. Gertrude M. Lewis, Director of Elementary School Services. A complete study was made of the unit method of teaching and teachers worked cooperatively in the development of sample units of work. This intensive course gave us a real understanding of the purposes of social education and a professional zeal for greater participation in the preparation of our youth for democratic living.

The addition of Mrs. Nutbrown to our teaching staff made it possible to assign a teacher to the ninth and tenth grades which unquestionably has improved the quality and type of instruction for those intending further secondary education. Erröl has willingly paid this high cost to insure the best possible education for all the children.

The school program was expanded this year to include the continuation of shop work for boys and sewing and cooking experience for the girls in grades seven through ten. One notable project completed by the girls in their sewing classes was the making of the uniforms for the girls' basketball team.

A well organized program of extra curricular activities included regularly scheduled games for our boys' and girls' teams in basketball, providing wholesome recreation for a large percentage. This activity was enthusiastically supported by the students and the community.

A large electric refrigerator has been purchased to add to our cafeteria equipment. Our successful school

lunch program is continuing this year with its policy to serve nutritious, balanced meals for 20 cents per meal.

We were most fortunate to secure the services of Dr. R. I. Hinkley and Miss Florence Wheeler, R. N. to provide us with an outstanding health program, complete details of which may be found in the Report of the School Nurse.

I again take this opportunity to express my appreciation to the School Board for their help in the administration of school affairs, to the citizens of Errol for their efforts in behalf of education, and to the teachers for their loyal and conscientious service.

Respectfully submitted,

DAVID APPLETON

Superintendent of Schools

## REPORT OF SCHOOL NURSE

---

The sixty-three school children of Errol were given, this year, a complete and thorough physical examination by R. I. Hinkley, M. D., assisted by Florence M. Wheeler, R. N.

Clothing was removed so that all parts of body could be carefully checked. Parents and guardians were urged to be present, to observe and to answer any necessary questions. Many responded to the request.

A urinalysis was made for each child who brought the required specimen. This request was met by nearly a 100% response.

Two days time was required for the Physical Check-up, with an extra day for the Vision Test, made by Miss Wheeler with the Massachusetts Vision Test Machine, which picks up many small vision defects, not always needing immediate attention, but once detected, can be watched, thus preventing them from ever getting to a serious stage.

Hearing tests have not as yet been given, but will be before the end of the year.

Tabulation of findings was as follows:

Defective teeth	Enlarged or infected tonsils	Skin
Temporary 26	7	3
Permanent 14		
Gland Disturbances 3	Orthopedic	
Thyroid 1	Flat feet, various degrees	8
Pituitary 1	Slight atrophy of leg, due to	
Cervical 1	former fracture	1
	Poor posture	3
	Small bone of foot (pro-	
	tuberance)	1
	Bone of elbow (protuber-	

		ance)	1
Cardiac		Defective Vision	
Functional murmur	3	Needing early correction	6
Rapid pulse	1	To be watched for prevention of further failure	8
Defects of Genitals			
	7		

All children having defects were referred to their own Physicians, Dentists, Clinics or Optometrists.

In the early part of the year, Mrs. Fancy, Tuberculosis Nurse, did Patch Tests for early detection of tuberculosis. There were seven reactors who were x-rayed at the State Clinic in Berlin. No activity was found, former areas were found to be either healed or arrested.

Respectfully submitted,

FLORENCE M. WHEELER, R.N.
