REPORT OF SCHOOL BOARD.

Fellow Citizens:

In presenting again the annual report of our schools, it gives us pleasure to be able to say that, with hardly an exception, the schools of the town have enjoyed a year of general prosperity.

We feel it to be our highest duty to employ the services of such teachers as are best adapted by natural qualifications and education, to manage and instruct our children, and whenever we have succeeded in doing this, we feel our efforts in behalf of our schools have been successful.

The amount of good that a thorough, wide-awake teacher can accomplish cannot be overestimated.

While our teachers would be greatly benefitted by a course of Normal training, yet the best kind of teachers are born, not made.

Nature has fitted them for these responsible duties, and given them tact and skill such as art can never supply. The brainy, finely educated person often fails where teachers without special training succeed. The school-room is the only true test by which we can judge of her fitness. Where a teacher succeeds, there she should be retained to prevent the loss of time and uncertainty of success elsewhere.

We are pleased to notice the interest taken by some of the parents in our schools. If more attention were given by them, both in visiting the schools and in sending their children to school every day, the condition of

our schools would be changed for the better. Parents, much of the success of our schools depends upon you, for they greatly need your best efforts united with those of our teachers, scholars and school board, that the best results may be obtained.

To the teachers of the past year we express our grateful thanks for their earnest, faithful efforts for the welfare of the children under their charge ; also to those parents, who, by their coöperation, have seconded our efforts in behalf of education.
