THE REPORT OF THE SCHOOL BOARD

For the Year Ending June 30, 1968

**Printed by
Maxfield Press, Inc.
Nashua, N. H.**

TRIBUTE TO THE LATE HARRY WATKINS

The late Mr. Harry Watkins, a former long-time resident and member of the Board of Selectmen of Merrimack bequeathed to the town \$234,260.58 to establish the "Harry Watkins School Fund". The income on said trust is to be used for the benefit of the School Districts of the Town of Merrimack for the operation and maintenance of elementary schools.

In addition, Mr. Watkins left his real estate to be held and preserved and to be known as the "Harry Watkins Forests". Any proceeds from the sale of timber, wood or gravel must be added to the principal of the "Harry Watkins School Fund".

Mr. Watkins was born in Barford, England, April 20, 1871 and came to Merrimack with his parents in 1872, was raised on a farm and educated in district schools and McGaw Normal Institute. He learned the Coopers trade and worked for Fessenden & Lowell for 30 years. Mr. Watkins was selectman, moderator of the school district and representative to General Court. He was deeply interested in the town and established the following trust funds for its welfare. In 1944, \$2,000. was given to the school district, the income of which was to provide prizes for a speaking contest in the grade schools.

In 1954, \$1,000 was given to the First Congregational Church, income of which is to assist in the maintenance of the Church. In 1955, \$1,000 was given to the school district, income of which is to provide prizes for a spelling contest in the grade schools.

Mr. Watkins was affiliated with the Masonic bodies and the I.O.O.F. holding high offices in both orders. He died on March 25, 1965 at the age of 94 and was buried in Last Rest Cemetery.

TOWN WARRANT

The State of New Hampshire

To the Inhabitants of the Town of Merrimack in the County of Hillsborough in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at the Junior High School Auditorium in said Merrimack on Tuesday, the eleventh day of March, next at six of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To choose all necessary School District Officers for the year ensuing.
3. To choose a Representative to the General Court of New Hampshire. (Special Election.)
4. To raise such sums of money as may be necessary to defray town charges for the ensuing year and make appropriations of the same.
5. To see if the Town will vote to ratify the Parking Ordinance adopted by the Board of Selectmen on January 30, 1969.
6. To see if the Town will vote to release \$250.00 for the installation of four flood lights (donated to the Merrimack Youth Association) at the Twin Bridges Recreation Area.
7. To see if the Town will vote to change the name of the road presently designated as "Stowells Road" or "Stowells Station Road" to "Parkhurst Road", not only in order to reestablish the correct and more ancient designation, but also in order to eliminate the confusion caused by having two roads, one a Bedford, New Hampshire, road, both with the same name and merging one with the other at right angles. (By petition.)
8. To see if the Town will vote to become a member of a Nashua regional planning agency.
9. To see if the Town will vote to raise and appropriate the sum of 15 cents per capita to finance studies to be conducted by the regional planning agency.
10. To see if the Town will vote to adopt the proposed Sewer Ordinance. (A copy of said Sewer Ordinance attached.)
11. To see if the Town will vote for the purpose of excluding a Selectman from holding the position of Town Moderator upon the completion of the present term.

12. To see if the Town will vote to instruct the Board of Selectmen to establish in the Town of Merrimack a Park Recreation Commission consisting of five (5) members. Two (2) of these members to be as follows: One (1) member of the Board of Selectmen, one (1) member of the School Board, the remaining three (3) openings to be appointed by the Board of Selectmen. (By petition.)

13. To see if the Town will vote to adopt the provisions of the Municipal Budget Law. (By petition.) (Vote by ballot.)

14. To see if the Town will vote to have the members-at-large of the Municipal Budget Committee appointed by the Moderator or elected by the Annual Town Meeting. (Vote by ballot.)

15. To see if the Town will vote to have three (3), six (6), nine (9), or twelve (12) members-at-large serve on the Municipal Budget Committee. (Vote by ballot.)

16. To see if the Town will vote to raise and appropriate money for a base property map.

17. To see what action the Town wishes to take regarding the reassessment of the Town of Merrimack.

18. To see what action the Town will take regarding an appropriation for a Sewerage Treatment Plant superintendent.

19. To see if the Town will vote to raise and appropriate the sum of \$82,500.00 for the purpose of financing construction of a new bridge at the site of the former Turkey Hill Bridge.

20. To see if the Town will vote to authorize the Selectmen to borrow, by the issuance of Serial Bonds or Notes, in accordance with the provisions of N.H.R.S.A. Chapter 33, as amended, the sum of \$82,500 for the construction of a new bridge at the site of the former Turkey Hill Bridge.

21. To see if the Town will vote to raise and appropriate the sum of \$11,000 to defray the cost of installing the temporary Bailey Bridge at the site of the former Turkey Hill Bridge and one year's cost of rental.

22. to see if the Town will vote to raise and appropriate the sum of \$3,500 for the Conservation Commission, for the procurement of land for ultimate public use.

23. To see if the Town will vote to authorize the Board of Selectmen to accept any trust funds offered to the Town.

24. To see if the Town will authorize the Board of Selectmen to offer a discount for the early payment of taxes.

25. To see if the Town will vote to continue the 20-cent penalty on Poll Taxes not paid on or before September 1st.

26. To transact any other business that may legally come before this meeting and make any appropriations in connection therewith.

POLLS FOR VOTING WILL BE OPEN FROM SIX O'CLOCK IN THE MORNING UNTIL SIX-THIRTY O'CLOCK IN THE EVENING.

ARTICLES OF THE WARRANT WILL BE TAKEN UP BEGINNING AT 7:30 P.M.

Given under our hands and seal, this seventeenth day of February in the year of our Lord nineteen hundred and sixty-nine.

DAVID E. PICKERING
HAROLD L. THRESHER
EDWARD J. HASELTINE
Selectmen of Merrimack

A true copy of Warrant—Attest:

DAVID E. PICKERING
HAROLD L. THRESHER
EDWARD J. HASELTINE
Selectmen of Merrimack

TOWN OF MERRIMACK
PROPOSED SEWERAGE ORDINANCE

SECTION 1. This ordinance regulates the use of the public sewerage and drainage systems and the discharge of waters and wastes into the systems and provides for penalties for the violations of this ordinance.

A sewer shall be defined as a conduit constructed for the purposes of transporting polluted waste waters; a drain shall be defined as a conduit constructed for the purpose of transporting storm water runoff, seepage and unpolluted waste water; and a combined sewer shall be defined as a conduit constructed for transporting mixtures of polluted and unpolluted waste waters and storm water runoff.

SECTION 2 Sewer Connections: The sewage from every building intended for human habitation use or occupancy shall be conducted into a sewer provided there is a sewer in the street, and provided the Health Officer of the Town of Merrimack may exempt any building from the foregoing requirement until such time as he may determine. On all streets provided with a sewer, the sewage from all buildings hereafter constructed shall be conducted into such sewer. No privy, vault, or cesspool for sewage shall hereafter be constructed on any estate abutting on a street provided with a sewer.

SECTION 3. Private Sewer Permits.: No private sewer or drain which discharges into any common sewer shall be constructed without a written permit to be obtained from the Town of Merrimack Planning Board, and the party applying for said permit shall pay to the Town of Merrimack the sum of Two (2) Dollars for the use of the town.

SECTION 4. Construction by License: No private sewer or drain shall be laid within the limits of any public street, except by an experienced drain-layer licensed or approved by the Planning Board. The drain-layer to be held for any expense to the Town on account of any imperfect work within the street limits done by him or his employees.

SECTION 5. License Issue: By vote of the Planning Board, licenses may be issued to parties who apply for the privilege of making excavation within the limits of the public streets of the Town for the purpose of laying private sewers. Parties so licensed shall execute a bond to the Town in the sum of One Thousand (\$1,000) Dollars with two or more good and sufficient sureties to be approved by the said board, conditional; that he shall comply to the satisfaction of the Board and with the ordinances of the Town or the rules of the Board; that he will cause the excavation to be

properly guarded at all times for the protection of the public; that he will properly make all connections and joints in every private sewer constructed by him and will leave no obstruction of any kind in any sewer and that he will indemnify and hold harmless the Town of Merrimack from any damage or cost for which it may be liable by reason of injuries resulting from neglect, carelessness, or incompetency in constructing, repairing or connecting any private sewer, or properly fencing or lighting any excavation or obstruction, or in performing any other work connected therewith. Said licenses shall be good during the municipal year unless sooner revoked.

SECTION 6. Unpolluted Wastes: No persons shall discharge or cause to be discharged any storm water, surface water, ground water, roof runoff, subsurface drainage, cooling water, or unpolluted industrial process waters, to any sewer.

SECTION 7. Disposal of Storm Water: Storm water and all other unpolluted drainage shall be discharged to drains or to a natural outlet approved by the Town. Industrial cooling water or unpolluted process water may be discharged upon approval of the Town to drains or natural outlet.

SECTION 8. Inflammable Wastes: No owner, agent, occupant or other person having charge of the premises drained into a public sewer or drain shall discharge into such sewer or drain, any inflammable liquid or other substance which is harmful to the sewers or drains, the treatment works or the sewage treatment process, or which will result in hazardous or obnoxious conditions in the sewerage system or at the sewage treatment works.

SECTION 9. Interceptors and Traps: Grease, oil and sand interceptors shall be provided when, in the opinion of the Town, they are necessary for the proper handling of liquid wastes containing grease, oil, sand or other materials which, in the opinion of the Town, will damage or interfere with the operation of sewers or drains or give rise to hazardous conditions therein. All interceptors shall be of the type and capacity approved by the Town and shall be located as to be readily and easily accessible for cleaning and inspection. Grease and oil interceptors shall be constructed of impervious material capable of withstanding abrupt and extreme changes in temperature. They shall be of substantial construction, watertight, and equipped with easily removable covers which, when bolted in place, shall be gas-tight and water-tight. Where installed, all grease, oil and sand interceptors shall be maintained by the owner at his expense, in continuously efficient operation at all times.

SECTION 10. Wastes Inadmissible to Public Sewers: No owner, agent, occupant or other person having charge of the premises drained into a public sewer shall discharge into such sewer any of the following described waters or wastes:

- (a) Any liquid or vapor having a temperature higher than 150 ° F;
- (b) Any garbage that has not been properly shredded;
- (c) Any ashes, cinders, sand, mud, straw, shavings, metal, glass, rags, feather, tar, plastic, wood, or any other solid or viscous substance capable of causing obstruction to the flow in sewers or other interference with the proper operation of the sewage works;
- (d) Any waters or wastes having a pH lower than 5.5 or higher than 9.0 or having any corrosive property capable of causing damage or hazards to structures, equipment and personnel of the sewage works;
- (e) Any water or wastes containing a toxic or poisonous substance of sufficient quantity to injure or interfere with any sewage treatment process, constitute a hazard to humans or animals, or create any hazard in the receiving waters of the sewage treatment plant;
- (f) Any waters or wastes containing suspended solids of such character and quantity that unusual attention or expense is required to handle such material at the sewage treatment plant;
- (g) Any noxious or malodorous gas or substance capable of creating a public nuisance.

SECTION 11. Industrial Wastes: The Town with the advice of a consulting sanitary engineer shall determine the quantity and quality of all industrial wastes which can be properly taken into the sewerage system and treated at the sewage treatment works, in addition to the sanitary sewage from the Town, and the Town may regulate by appropriation rules and regulations approved by the Board of Selectmen, the flow of industrial wastes into the sewerage system. The Town shall have the right to require an applicant, owner or contributor of industrial waste to install and maintain at its own expense, such regulating and metering devices as may be needed to control, measure and record the flow of industrial wastes from his premises into the sewerage system.

SECTION 12. Excessive Pollution Control: The admission into the public sewers of any waters or wastes

- (a) having a 5-day biochemical oxygen demand greater than 300 parts per million by weight; or
- (b) containing more than 350 parts per million weight of suspended solids; or

(c) containing any quantity of substances having the characteristics previously described in Section 10; or

(d) having an average daily flow greater than ten (10) per cent of the average daily sewerage flow of the Town, shall be subject to the review and approval of the Town. When necessary, in the opinion of the Town, the owner shall provide such preliminary treatment as may be necessary to

(a) reduce the biochemical oxygen demand to 300 ppm. and the suspended solids to 350 ppm. by weight; or

(b) reduce objectionable characteristics or constituents within the maximum limits established by the Town after consideration of the characteristics of the section of the sewerage system into which the waste water will be discharged; or

(c) control the quantities and rates of discharge of such waters or wastes.

Plans, specifications and any other pertinent information relating to the proposed preliminary treatment facilities shall be submitted for the approval of the Town, and no construction of such facilities shall be commenced until said approvals are obtained in writing.

SECTION 13. Maintenance of Preliminary Treatment: Facilities where preliminary treatment facilities are provided for any waters or wastes, they shall be maintained continuously in satisfactory and efficient operation by the owner at his expense.

SECTION 14. Control Manhole: When required by the Town, the owner of any industrial property served by a public sewer for disposal of industrial wastes shall install a suitable control manhole in the building sewer to facilitate observation, sampling and measurement of the wastes. Such manhole, when required, shall be accessible and safely located and shall be constructed in accordance with the plans approved by the Town. The manhole shall be installed by the owner at his own expense and shall be maintained by him so as to be safe and accessible at all times.

SECTION 15. Standard Tests: All measurements, test and analysis of the characteristics of the waters and wastes to which reference is made in Section 10 through 12 shall be determined in accordance with the "Standard Methods for the Examination of Water and Waste Water" and shall be determined at the control manhole provided for in Section 14, or upon suitable samples taken at control manhole. In the event that no special manhole has been required, special methods of sampling the waste waters satisfactory to the Town will be made on the request of the Town.

SECTION 15A. Sewer Rentals: Each user connected to the sewer system will pay a sewer rental charge to cover cost of operation and maintenance. The normal charge will be based on an estimated cost of 11.5 cents per 1000 gallons to be determined where possible from meter readings of water intake. Where water intake is not measured by meter or water is derived from private facilities, charge will be based on a usage of 60 gallons per day per occupant. If in any year revenues derived from sewer charges exceed operating and maintenance costs of the system, the surplus will be applied to operating and maintenance costs in the succeeding year. If in any year operating and maintenance costs exceed revenues, the deficit will be made up from revenues derived from the advalorem taxes on property; provided, however, that if the surplus or deficit should exceed 15% of the budget in any one year or 7% of the budget in each of two successive years, then the normal charge to users of 11.5 per 1000 gallons will be adjusted on a pro rata basis so that projected revenues will equal projected expenditures.

SECTION 15B. Payments: The Town will bill each user for sewer services quarterly based on current water meter readings where applicable.

SECTION 16. Special Agreement: No provision or combination of provisions in this Ordinance shall be construed as preventing any special agreement or arrangement between the Town and any industrial concern which contains provisions for acceptance by the Town of an industrial waste of unusual strength or character for treatment upon terms and conditions agreed to by the Town and the industrial concern, or which contains provisions which are otherwise inconsistent with any provisions of this Ordinance either expressly or by implication, provided that the validity of any such agreements entered into by the Town prior to the effective date of this Ordinance is hereby ratified and confirmed, and provided further that if any provisions of any such agreements are expressly or impliedly inconsistent with provisions contained in this Ordinance or rules or regulations promulgated hereunder, the provisions of such special agreements shall control.

SECTION 17. Conflict of Ordinances: If a provision of this ordinance is found to be in conflict with any provision of any zoning, building, safety or health or other ordinance or code of the Town of Merrimack or the State of New Hampshire existing on or subsequent to the effective date of this ordinance, that provision which in the judgment of the Town establishes the higher standard of safety and protection of health shall prevail; and that ordinance or provision which sets the lower standard is

hereby declared to be invalid to the extent that it is found to be in conflict with the ordinance or provision which sets the higher standard and is hereby repealed, provided, however, that the provisions of Section 16 hereof shall in no event be declared to be invalid or be repealed by the operation of this Section.

SECTION 18. Violations: Any person, firm, partnership or corporation found to be violating or in violation of any provision of this ordinance, shall be served by the Town of Merrimack with a written notice stating the nature of the violation and providing a reasonable time limit, as determined by the Town, for the satisfactory correction thereof. The offender, shall, within the period of time stated in the notice, permanently cease all such violations.

SECTION 19. Penalties: Any person, firm, partnership or corporation who shall continue any violation beyond the time limit provided for in Section 18, shall be guilty of a misdemeanor, and upon conviction, thereof shall be fined in the amount not more than TEN (\$10) Dollars for each violation in accordance with R.S.A. 252.8. Each day in which any such violation shall continue beyond the time limit shall be deemed a separate violation.

SECTION 20. Liability: Any person, firm, partnership or corporation violating any of the provisions of this ordinance shall become liable to the Town of Merrimack for any expense, loss, or damage, occasioned by the Town by reason of such violation.

SELECTMEN'S REPORT

The year 1968 saw a tremendous increase in the work-load of all your Town departments. This is the result of the spectacular growth which the Town of Merrimack has been experiencing.

The continual growth of developments, new homes, have added many miles of road to be oiled, plowed, and salted after acceptance by the Town.

The new industries coming in have added to the brighter side of the picture. Sanders Associates have expanded their facilities and have become a good neighbor.

Anheuser-Busch, with its very efficient construction effort, has proved a constant source of attention and entertainment to tourists and our local sidewalk superintendents. Its projected cost for the new Brewery are \$50,000,000.00.

The latest welcome addition of our growth of quality industry is the Nashua Corporation which started with plans for a \$1,000,000.00 industry and have since increased their plant to a \$5,000,000.00 unit. In addition, we have had a Masury paint warehouse, a large express company, and several other smaller industries locating here.

This means increases in the various types of permits, auto registrations, and other things which pass over our Town office desks.

Our Police Department has expanded to give better coverage and protection to our home owners and industrial plants. Chief John Wilders resigned as Police Chief and Granville M. Stearns was appointed as the new Chief of Police.

The Board of Selectmen commends the efforts of many individuals in the continued development of the Twin Bridge Ball Park area.

The construction of the Sewer treatment plant is currently on its projected schedule. It is proposed that construction will commence in April of 1969.

1968 saw the burning of the Turkey Hill Bridge. A bailey bridge (temporary bridge) was installed over the Souhegan River in co-operation with the State of New Hampshire.

REPORT OF THE SEWERAGE STUDY COMMITTEE

The greatest activity of this committee was concentrated into the early part of the year. At regular and special town meetings, bond issues were authorized to allow construction of sewerage facilities to be started when and if necessary to provide waste disposal for the Anheuser-Busch brewing plant. This construction to proceed with town financing until such time as Federal and/or State assistance might be available. This guarantee was one of the last steps taken leading to the decision of the Brewing firm to locate in our town.

Subsequently the Engineering firm of Anderson and Nichols was given instructions to proceed with preparation of construction drawings, specifications and schedules. They were further instructed to work along with Engineers of Anheuser-Busch to insure that our commitments to them would be met. We are aware that when fellow townspeople were asked to vote approval of the bond issue, they were also promised that expenditures for construction would not be started until the latest possible date consistent with the Brewing Plant's requirements. Further that extensive construction beyond that necessary to accommodate the Brewery would not be started until Federal and State assistance money might be available. To date no construction work is underway.

Engineering work is progressing and is approximately 100 per cent completed for the first phase contracts. It now appears desirable to start construction about April 1, 1969. As of the end of the year about \$234,917.79 has been expended for Engineering services.

Early in the year Francis Burt was appointed to fill a vacancy left by the resignation of Bernard Quinney. Mr. Burt has subsequently resigned and no further appointment has been made to this date. The committee currently includes Franklin Haseltine, J. Wilson French, Mary Moriarty and John Lyons.

Respectfully submitted

for the Committee,

JOHN E. LYONS

MERRIMACK POLICE DEPARTMENT

Where this is a statement for the ending of a year, we find it difficult to look to the past, when we are having such great strides toward the future in our Town.

We then wish to express our thanks to all of the Towns people for the fine cooperation to their Police Department, and state that we are here to serve.

Our deep thanks also is extended to our fine Board of Selectmen whose time and patience has done much to make the future so pleasant to look forward to.

There can never be enough said in praise of our fine Fire Department that has been of great assistance, and the efforts and assistance of the Merrimack Ambulance and Rescue Squad is beyond measure.

We look forward to a year that will be bigger and better for all. We hope the Police Department will grow almost as rapidly as the Town. We dedicate our efforts to you, the People of Merrimack, whom we serve.

G. M. STEARNS, JR.,
Chief of Police

MERRIMACK FIRE DEPARTMENT ANNUAL REPORT

We wish to extend our deepest sympathy to Mrs. Helen Pynenburg for the loss of her husband, Joseph. Mr. and Mrs. Pynenburg have operated an answering service in their home for the fire department for the past fifteen years without charge to the town or department. It is impossible to adequately express in words our sincere appreciation for the outstanding job they performed.

In November a testimonial dinner was held honoring Deputy Chief Earl Bishop who retired to take up residence in Florida. Herbert Duxbury has been appointed Deputy Chief to fill this vacancy.

During the past year the department lost one of its charter members with the death of Harry McCalvey, Sr.. The department joins me in expressing our deepest sympathy to the McCalvey Family.

Due to the growth of the town, the department has voted to change its By-Laws to read fifty members instead of the previous forty.

In case of fire dial 4-5571. State location of fire. Do everything you can to keep the fire from spreading. Keep buildings closed as much as possible, and upon arrival of fire department, give them any information which may be of help to them.

Please keep all roads open so trucks can go and come at will, without being hindered by cars parked in the road.

Our thanks is extended to the local police department, the Merrimack Rescue Squad, and the Souhegan Mutual Aid System for their assistance during the past year.

GEORGE J. ALLGAIER,
Fire Department Chief

REPORT OF FOREST FIRE WARDEN AND DISTRICT CHIEF

People cause fires Our records show that the number of fires increase in an area as the population increases and our state is growing tremendously. This means that we all must be aware of fire causes and do our best to prevent their occurrence.

When we are very young the lighted matches is an adventure, burnt fingers and a dropped match is another fire. A little older we like to have a woodland cookout, or go out by ourselves for a smoke but fire and forests get together for another statistic. We adults like to clean up in the Spring, burn the old debris and the dead grass, result – escaped fires and much personal expense.

With new homes and summer cottages located in woodlands and with abandoned fields and forests crowding the back yard of our villages' streets, it is necessary that everyone be aware all through the fire season, which comes with the disappearance of snow, of the need to be careful with outdoor fires and fire sources.

The following action will help:

1. To teach our children the danger of lighted matches.
2. To NEVER discard lighted smoking material from a car or while walking through fields or woods.
3. To safely dispose of rubbish preferably at the town dump.

If you must burn –

- a. You need a written permit from the town fire warden for ALL debris burning except when the ground is covered with snow. Cooking fires in outdoor fireplaces or in charcoal braisers in your own back yard is permitted on notification of the warden.
- b. The warden is forbidden by regulation to allow burning of household rubbish on GRASS by householders between 9:00 A.M. and 5:00 P.M.
- c. Have equipment on hand to control the fire BEFORE you light the match.
4. Promptly report any fire out of control to your fire warden or fire department.

Help to keep our town out of the fire occurrence column and save your tax dollars for useful purposes.

Forest fire record for 1968:

	Number of Fires	Woodland acres burned
State	593	349
District	166	147½
Town	35	31¼

CLARENCE WORSTER, Warden
WINTHROP H. HANNAFORD
District Chief

CIVIL DEFENSE DIRECTOR'S REPORT

Our activity continues to center around the Ambulance Rescue Service. We wish to thank the townspeople, and especially, the Police and Fire Departments for their co-operation and assistance during the past year.

The following are presently members of the MARS: Fred Moriarty, Russ Luker, Dick Selig, Bernie Brault, Roger Papineau, Don Hayes, Ed Silva, John Mendalowski, Harry Thurlow, Jane Dwyer, Mary Moriarty, Steve Hurst, Ray Cote, Dan Carey, Dick Roy, Frank Colliton, Jr., and George Brown.

MARS meets all the requirements of Medicaire, ie: twenty-four (24) hour service; equipped with 2-way radio; oxygen and resucitator; all attendants hold a Red Cross Advanced first-aid card or better; and four (4) members presently hold Red Cross instructor cards.

During the past year two (2) of our members attended a three (3) day course in Emergency Ambulance Operation conducted by the N.H. Committee on Trauma, American College of Surgeons, and the N.H. Medical Society at Dartmouth College. This coming year, we hope to have five(5) members attend this course.

Ambulance runs this past year totaled ninety-five (95). Of this total, thirty-three (33) were made the first six (6) months, and sixt-two (62) were made in the last six (6) months of the year. The last six (6) months nearly doubles the thirty-four (34) runs made the last six (6) months of 1967.

A breakdown of runs made in 1968 are as follows:

Heart Attack	10
Severe Illness	30
Accident (general)	7
Pregnancy	1
Auto Accident	31
Stroke	2
Poisoning	4

The above were taken to:

Memorial Hospital	26
St. Joseph's Hospital	32
Notre Dame Hospital	2
Elliot Hospital	6
Sacred Heart Hospital	21
Miscellaneous	8

As may be noted above, Merrimack residents have a choice of Manchester or Nashua Hospitals. During the past year it has not been necessary to call on the Nashua Police Ambulance, but we wish to thank them for being ready to come to our assistance in the event that they may be needed.

With the purchase of the 1962 Cadillac Ambulance, the 1952 Pontiac has been converted to a combination Rescue-Ambulance vehicle, which may be used as a stand-by ambulance when necessary. It is now possible to carry three (3) stretcher victims at one time with our present ambulance.

New equipment added this past year:

1. 1962 Cadillac Ambulance
2. Five (5) Walkie-Talkie Radios (lost hunters, lost children, etc.)
3. Permanent oxygen setup in ambulance.
4. Police Radio
5. Citizen Band Radio
6. Plastic splints
7. Portable 2kw. generator w/flood, spot lights
8. Rescue equipment (come along, pry bars, axes, saws, ropes)
9. Broken back boards (3) 1 child's, 2 full size
10. Head and spine board.

Total man hours expended on ambulance-rescue duty, practice and first-aid instruction is 3,750 hours.

Meetings are held at 7:00 P.M. each Sunday at the ambulance garage. Any interested resident, is urged to attend these meetings and sign up as a member if they meet the requirements.

Any resident may obtain the ambulance service, twenty-four (24) hours a day, by calling the Merrimack Police number, 424-3774. Please be sure and give the dispatcher *complete* instructions regarding your location and the nature of the call.

FREDERICK W. MORIARTY
CD Director

LIBRARY REPORT 1968

Number of books in Library, January 1, 1968	14,362
Number of books added by purchase, gifts, etc: 1968	758
Number of books discarded, 1968	440
Number of books lost, 1968	10
Number of books on shelves, January 1, 1969	14,670
Number of books and Magazines loaned, 1968	26,737
Magazines subscriptions, Adults: 49	
Young People: 7	56
Magazine gifts	4
New names added, 1978 - Adults: 177	
Young People: 206	383
LIBRARY HOURS:	
Monday evening	7 to 9 pm
Wednesday	9:30 am to 12 noon 2 to 5 pm 7 to 9 pm
Thursday	10 am through 5 pm 7 to 9 pm
Saturday	2 to 5 pm

OVERDUE BOOKS:

Contact will be made for one week overdue. Cards will be sent or telephone calls made for two weeks lapse. Then a bill will be presented for the price of the book or books, and library privileges will be cancelled until such time as the book or books are returned and the fines paid, or the price of the books refunded.

The fine is one cent per day for each day overdue.

1,561 books are borrowed from the Book-Mobile from the Exeter Branch of the N.H. State Library.

Nashua, N.H. has been designated as our Service District Center, giving us the privilege of borrowing directly from the Nashua Libraries.

The borrower is expected to pay the return postage on any books that may be sent through the mail.

Classes from School, accompanied by Teachers, continue to be welcomed at the Library on Wednesdays and Thursdays.

The Librarians attended the 'District Book Meetings' held through the year, January to November. These meetings are held in conjunction with the policy of Co-operative Book Purchasing, thus enabling Town Librarians to observe and look over books of all descriptions that may be purchased as provided by the N.H. State Library Committee.

The Librarians participated at two 'Reference Workshops' held at Bedford, N.H. also a 'Mending Workshop' at Hampton Library, N.H. The annual N.H.L.A. meeting this year, was at the Wayfarer Motel in May.

Mrs. Rachel Sanborn, District Library Advisor, kindly gave her time on the advice of the N.H. State Library, to assist in a complete 'Book Weeding'. This resulted in the discarding of many worn and out-dated books.

We had on display, to celebrate the 'National Library Week' held in April, our Antique books, our yearly Scrap Books and a large supply of New books.

A further \$100.00 to be used for the purchase of Reference Books was received from the State. These Reference Books may be borrowed at the Librarian's discretion.

'National Children's Book Week' observed October-November, was this year, high-lighted by a Poster Competition. Children of the 3rd through 5th grades, attending the Library, participated. Many Posters were handed in and the judging was difficult.

The winners were: 3rd Grade - Audrey Chadwick, 4th Grade - Robin Ledoux, 5th Grade - Kent Dodge. Books were awarded as Prizes.

On display also at this time were a set of art books, paintings, etc., presented to the Library by Father D. Downey.

An "afternoon tea" to honor Miss Cecilia Gregg, author of "Autumn Wait for Me" was given on November 7th. Miss Gregg was a 4th grade teacher in our schools for several years.

During the summer a 'Used Book Sale' was held on the Library lawn. It is proposed to hold another such sale later in 1969.

It has been found necessary, due to our increased circulation and our inclusion in the Co-operative Buying Project from Concord, to have extra helpers on call for emergencies.

They are: Mrs. Jean Weston, Katherine Weston, Joann Garvey, Jeffrey Kent and Mrs. Ethel Mitchell Smith, who does our book repairing.

THE FOLLOWING HAVE DONATED BOOKS AND OTHER
ITEMS TO THE LIBRARY

American Legion Auxiliary	Miss Dorothy French
Book of the Month Club	Mrs. Edmund Garvey
American Quarter Horse Association	Miss Bonnie Greeley
Congressman Louis C. Wyman	Rev. Bruce Gordon
Ladies Aid of the Congregational Church, Merrimack	Mr. Seth Hudak
Merrimack Community Club	Mr. Joseph Kelly
N.H. State Library	Jeffrey Kent
Reeds Ferry Woman's Club	Mrs. Frank Morris
Secretary of State N.H.	Mrs. Peter Monast
University of New Hampshire	Mr. Irving Mower
Mrs. Ada Bond	Mrs. W. H. Nelson
Mrs. Richard Brown	Mrs. Rita Norton
Mrs. Wm. Brown	Mrs. Fay Read
Miss Pamela Connell	Miss Joann Shea
Miss Lillian Davis	Mrs. Ethel M. Smith
Mrs. Marion Desfosses	Mrs. Patricia Stevens
Rev. Dennis Downey	Miss Mary White
Mrs. Ezra Dupuis	Mr. & Mrs. G. C. Whittlesey
Mr. J. Wilson French	Mrs. Michael Vasco
	Mrs. Dorothy Zechiel
	Mr. Roland Fortune

Columbia Broadcasting System presented a further box of recordings and a book on President John F. Kennedy.

Mrs. Eva Bishop gave two paintings to the Library. One of Flowers and one of Birds. These we hope to have framed shortly.

“Portraits of Nature” by James Lockhart, a book of Nature paintings was given by Mrs. David Doray and Mr. Everett Johnson.

Mr. J. Wilson French presented a copy of his first book, “The Greatest Story Never Told”.

The late Mrs. June Abbott remembered the Library in her ‘Will’.

MRS. BEULAH HASELTINE
Librarian

TOWN OF MERRIMACK

Merrimack, N.H.

January 31, 1969

We have examined the accounts of Selectmen, Treasurer, Tax Collector, Town Clerk, Library Trustees, Trust Funds, Mastricola Fund, Sewer Fund, Twin Bridges Fund, Merrimack Municipal Court, Sewer Project Note, Sewer Construction Bonds for the year ending December 31, 1968, and find the receipts and payments correctly cast and properly vouched.

ROBERT TARDIFF
ROLAND NOEL
Auditors

REPORT OF THE ZONING BOARD OF ADJUSTMENT

The members of the Board again wish to express appreciation to fellow townspeople who gave of their valuable time to attend public hearings held during the year. In its attempt to minimize individual hardships without unduly compromising enforcement of the Zoning Ordinances, the Board welcomes all pertinent information brought before it at these hearings.

Board members currently are Walter Peavey, Franklin Haseltine, Roland Farland, Edwin Woodward and John Lyons. Henry Therriault has been appointed as a permanent substitute to assure the Board having a full five man complement available for all public hearings.

During 1968 a total of 26 requests for variances were received formally and acted upon by the Board. Public hearings were held on March 19, May 8, June 11, August 15, September 17, October 29 and December 12. Additional meetings were held for deliberation on decisions as required.

Five of the 26 requests were denied, one was granted in part with certain restrictions imposed and the remainder were granted as petitioned. Last year 32 petitions had been made to the Board. The decreased number this year reversed a trend even though the town continues to grow at a rapid rate. The Board would like to attribute this decrease as resulting from its efforts to avoid capriciously encouraging deviation from the terms of the ordinances in recent years. Certainly much credit should go to the building inspector, Ed Johnston, for his efforts to assist townspeople in complying with the law thus averting hardship cases from arising.

An appeal to Superior Court to set aside a decision made by the Board in 1967 was dismissed by the Court in October of this year. Accordingly this Board's decision will stand as rendered. In December, an appeal from another decision was filed with Superior Court and is currently awaiting action.

During the past year arrangements were made to expedite transfer of information between this Board and the Town Planning Board since both Boards have many interests in common. Board members also attended meetings called by the Selectmen to bring together and coordinate activities of all town Boards and committees.

Respectfully submitted
for the Board
JOHN E. LYONS, Chairman

REPORT OF THE TOWN PLANNING BOARD FOR 1968

The rapid growth of the Town has presented many problems for the Board in the past year. Most of the Board's time has been devoted to the review of new subdivision plans.

New members of the Board were David Pickering, representing the Board of Selectmen, and Lester Langley, who was appointed to fill the opening left by the resignation of Armand A. Bibeau.

A public hearing was held to hear all comments on streets submitted for acceptance. Of the twenty-two streets submitted, twenty streets were recommended to the Board of Selectmen for acceptance.

During the past year, the Board approved six new subdivisions and two revisions to subdivisions out of nine new plans and three revisions submitted.

Federal funds were made available to the Town for the first phase of the comprehensive plan. The State Department of Resources and Economic Development entered into a contract with Metcalf & Eddy, Community Planners, Boston, Mass., for this phase of the plan. The plan is scheduled for completion by October 1969. It is hoped that the zoning portion of the plan will be ready for review by early spring 1969.

The newly formed Citizens Committee has offered their help and is working with the Board gathering data for future planning and the Board wishes to express their appreciation to this group for their help.

Respectfully submitted for the Board by:

LEONARD E. WELCH, Chairman

REPORT OF THE BUILDING INSPECTOR

Building permits issued for the year 1968 reflect an acceleration in growth of the Town. This year the construction of two grammar schools were completed and the start of the Anheuser-Busch Brewery became a reality.

373 permits were issued for a total taxable valuation of \$54,798,933. A breakdown of this total follows:

244 new residences	valuation \$4,214,500.
94 residential alterations	152,133.
25 commercial	50,432,300.
10 sign permits	

With the coming of several industries it appears that Merrimack is no longer destined to be a "bedroom town" for the surrounding area and with a balance of tax producing properties, the future of the homeowner appears more hopeful.

Respectfully submitted,

EDWIN S. JOHNSTON

Building Inspector

REPORT OF THE BOARD OF HEALTH

The State now employs an engineer to inspect the sewerage systems in new housing, so it is no longer a duty of the Health Officer.

Infectious diseases have been no particular problem this year.

A laundromat in Town was again inspected and found to be in deplorable condition. This was reported to the State Health Department and reinspection found the condition improved.

Many homes were inspected for foster homes and all but one was approved.

Respectfully submitted,
LUTHER A. MARCH, M.D.
Health Officer

CONSERVATION COMMISSION REPORT TOWN OF MERRIMACK

During the year of 1968, the Conservation Commission was enlarged to five members. Added were Henry Kiestlinger, Roger Lawrence and John Pirog.

Efforts were made to develop a pilot recreation area in the Reeds Ferry section of the Town. Although it did not succeed, it tended to crystalize the problems of any such project, in that the failure will be most useful in our future recreational ventures.

The Commission is now meeting on a monthly basis, and have formulated plans for an "Open Spaces" town map. This project has been found essential, and is under the most knowledgable direction of Roger Lawrence.

It should be pointed out that the Town knowledge and conservation experience gained from our new members leave nothing less than optimism for 1969.

Respectfully submitted
for the Commission,
DON H. BURNS,
Chairman

MERRIMACK 1969 - 1970

DISTRIBUTION OF THE SCHOOL DOLLAR

SCHOOL WARRANT

MERRIMACK

March 4, 1969

To the inhabitants of the School District in the Town of Merrimack, New Hampshire, qualified to vote in District affairs:

You are hereby notified to meet at the Merrimack Junior High School Auditorium in said Merrimack on Tuesday, the fourth day of March, next at 7:30 P.M. in the evening to act upon the following subjects:

1. To determine and appoint the salaries of the School Board, Truant Officer, and fix the compensation of any other officers or agent of the District.

2. To hear the reports of Agents, Auditors, Committees, or officers chosen, and pass any vote relating thereto.

3. To see if the District will vote to raise and appropriate the sum of \$40,000.00 as a deficiency appropriation; this sum to be made available to the School Board and School District prior to June 15, 1969.

4. To see if the District will vote to authorize and appropriate the sum of \$25,000.00 for the purpose of employing an architect to draw plans and receive bids for an addition to the High School and to raise the same by the issuance of bonds or serial notes in accordance with the provisions of the Municipal Finance Act, Chapter 33, of the Revised Statutes Annotated of New Hampshire, as amended, and to authorize the Merrimack School Board to so issue and negotiate said bonds or notes in the name of or on the credit of the District, said board to have discretionary powers described in Section 8 of said Chapter 33 in respect to said notes or bonds.

5. To see what sum of money the district will vote to raise and appropriate for the support of schools, for the payment of salaries for School District Officials and agents and for the payment of statutory obligations of the District.

6. To see if the District will vote to authorize the School Board to deposit all unexpended balances at the end of this fiscal year in the Capital Reserve Fund.

7. To see if the District will vote to authorize the School Board to withdraw all cash balances from the Capital Reserve Fund, prior to June 15, 1969, for the purpose of paying financial obligations incurred in the construction of the Reeds and Thorntons Ferry Schools.

8. To see if the District will vote to authorize and direct the School Board to deposit any revenue received from the sale of Masticola Property into the Capital Reserve Fund.

9. To transact any other business that may legally come before this meeting.

Given under our hands at said Merrimack, New Hampshire this 8th day of February, 1969.

SCHOOL BOARD REPORT

September opened the school term, and the opening of one of the two (2) new elementary schools, located in Reeds Ferry. Although all was not complete, administrators, teachers, personnel, and parents made the best of the situation until the building was completed. The Merrimack Grammar School, Mastricola Elementary, and the Junior High School put up with over-crowding until the Thorntons Ferry School was completed and ready for occupancy in October. With the opening of the second school, all schools settled down to resume their prime function, to educate the children.

Merrimack residents may well be proud of its new schools, which are the envy of the surrounding towns, who want to know "how could you get so much school for the price?"

The Bussing of the children, a great responsibility, is taken care of efficiently by Orin Connell, who instituted a schedule to transport the elementary students of both new schools earlier, to eliminate the confusion. The High School students are also being transported from the school, rather than having to walk to Bishop Street.

George Greenleaf has again used initiative and is providing the children of all schools with the school-lunch program.

The 1969-1970 School Budget has been reviewed at a public hearing, held on January 22. The budget is high, but the enrollment has increased, and will continue to increase as more children are served. It is hoped with the increase in business and industrial activity in 1969-1970, this will offset increased cost to the taxpayers.

With growth, comes expansion, and the concentration of classrooms at the elementary level, has left the high school at a stand still. This building built for four hundred (400) students, is now housing four hundred twenty-four (424) students, with no room for expansion of programs and activities, which were recommended at the time the school was evaluated in November of 1967. The concentrated effort of the School Board, along with the School Building and Planning Committee, are recommending that the voters approve an appropriation on the warrant for plans to expand the present High School.

We, the School Board, appreciate the interest shown by many of the residents to attend the meetings, which are open to the public, and invite all citizens to attend. Meetings are held the first Tuesday of each month.

MARY M. MORIARTY
CHARLES F. MORRILL
WILLIAM A. ERNST
Merrimack School Board

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Merrimack:

For the past five years we have summarized the events of the past year and projected the needs for the coming year in terms of pupil growth. In 1969 the pattern remains unchanged. Increased school enrollments and larger pupil projections persist to challenge our school district.

The completion of the Reeds and Thorntons Ferry Schools in 1968 served to bring about educational change in Merrimack. Our school program is geographically decentralized for the first time since the closing of the McGaw School in Reeds Ferry. All pupils in grades one through five attend elementary school in one of three schools which give some concern for where a child lives. In this respect we are progressing towards the concept of neighborhood schools. Our pupils in grades six through eight attend our junior high school and grades nine through twelve attend our high school.

The completion of our two elementary schools has and will continue to enable us to maintain a respectable pupil-teacher ratio thus giving us a better opportunity to meet the needs of each child. However, additional schools create travel problems for our specialists who serve the needs of all children. Because of the travel-time factor and the normal growth of more pupils we must increase the number of special teachers to maintain our previous standards of quality and quantity of instruction. This is especially true in Art, Music, Reading and Guidance. Despite our new schools additional classroom facilities will be required by September, 1970, if we are to provide for our growing elementary enrollments.

Our high school must be given serious and immediate attention if we are to provide housing for students and programs required in our present society. As we think in terms of additional elementary classrooms for 1970-71 we must relate comparative needs for the high school for the same date. If we are to provide our high school pupils with the proper preparation for college and the challenges of life we must provide our teenagers with the opportunities to develop their skills and interests. Additional high school facilities are mandatory.

Our educational program in Merrimack is fortunate to be directed by loyal and competent instructional staff members. Our teachers and administrators are a credit to our town, our schools and to themselves. We recognize too that members of our non-instructional staff play important supportive educational roles. We have been able to attract and hold our highly trained professional personnel because we have provided a highly desirable educational program for our children and we have adopted competitive salary schedules. This we must continue to do.

It is a pleasure to announce the following list of new teacher to Merrimack:

Miss Connie Ager, B.S. Central Michigan University 1967, M.A. Michigan State University 1968, grade 5, Mastricola.

Miss Judith Ayers, B.Ed. Keene State 1968, grade 2, Mastricola.

Miss Carol Balkus, B.A. University of N.H. 1966, additional credits Keene State, St. Anselm's and U.N.H., English-Latin, Merrimack High.

Miss Kathleen Ball, B.Ed. Keene State 1967, English-Reading, Jr. High School.

Miss Judith Bayliss, B.S. Westfield State College 1968, grade 5, Thorntons Ferry.

Miss Brenda Boda, B.Ed. Plymouth State 1968, Social Studies, Jr. High School.

Miss Diane Bouchard, Keene State 1966, B.Ed., grade 3, Thorntons Ferry.

Mr. Chester Buck, B.Ed. Keene State College 1954, graduate credits from U.N.H. and Boston University, Supervising Principal Reeds Ferry and Thorntons Ferry Schools. Fourteen years previous educational experience.

Mrs. Carolyn Cogan, B.A. Gordon College 1968, English – Social Studies, Jr. High School.

Mrs. Carol Coutris, B.Ed. Keene State 1960, additional credits U.N.H. grade 3, Mastricola.

Miss Jane Cummings, B.A. University of N.H. 1968, grade 2, Reeds Ferry.

Mr. Laurent Dubois, B.A. Dakota Wesleyan University 1968, Math – Science, Jr. High.

Mr. Edward Ducharme, B.S. Suffolk University 1964, Math, Merrimack High.

Miss Rosalyce Flint, B.Ed. Keene State 1968, grade 2, Thorntons Ferry.

Mrs. Annette Geraigery, B.S. Ed. State College at Boston 1968, grade 5, Thorntons Ferry.

Mrs. Carol Gerkin, B.Ed. Plymouth State 1968, Business Education, Merrimack High.

Mrs. Jan Givens, B.S.Ed. Framingham State College, grade 2, Reeds Ferry.

Miss Jean Glazier, B.Ed. University of N.H. 1963, graduate work at U.N.H., five years previous experience, Reading Supervisor.

Mrs. Marilyn Greenspan, B.A. Brooklyn College 1953, additional credits U.N.H., grade 2, Thorntons Ferry.

Mrs. Sheila Henry, B.E. Keene State 1958, Grade 3, Thorntons Ferry

Miss Abby M. Johnson, B.Ed. Plymouth State 1968, grade 1, Mastricola

Mrs. Mary Johnson, B.Ed. Keene State 1962, grade 1, Thorntons Ferry.

Mrs. Diana Judkins, B.S.Ed. University of Maine 1961, additional credits Penn. State and University of Hawaii, Math, Merrimack High.

Miss Barbara Keirstead, B.S.Ed., Bowling Green State University 1968, English, Jr. High.

Mrs. Jean Kelley, B.A. Rivier College 1967, grades 1 – 5, Art.

Miss Patrice Lawlor, B.Ed. Plymouth State 1968, grade 4, Thorntons Ferry.

Mrs. Mary Ann Logan, B.S.Ed., State University of New York at Potsdam 1962, Music.

Mrs. Betty Mehlhorn, B.Ed., Keene State 1968, grade 2, Mastricola.

Mr. Richard Mehlhorn, B.Ed., Keene State 1968, grade 9, Math, Merrimack High.

Mrs. Cynthia Merrill, B.Ed., Keene State 1966, grade 1, Reeds Ferry.

Miss Jeanette Mitchell, B.A. University of N.H. 1962, grade 7 and 8 Reading, Jr. High.

Miss Natalie Myers, B.Ed., Keene State 1967, Math, Jr. High.

Miss Susan O'Connor, B.A. Mt. St. Mary College 1965, grade 5, Reeds Ferry.

Mrs. Judith Parker, B.A. Boston University 1965, additional credits Rivier College and Boston University, English, Merrimack High.

Miss Diane Parks, B.Ed. Plymouth State 1965, additional credits Keene State, grade 4, Reeds Ferry.

Mrs. M. Marion Perreault, B.S.Ed. Lowell State 1968, grade 2, Reeds Ferry.

Miss Alice Pratte, B.A. Notre Dame College 1964, grade 1, Thorntons Ferry.

Mrs. Heidi Provencal, B.Ed. Keene State 1968, grade 2, Mastricola.

Mrs. Lucy Richardson, B.S. Ed. University of N.H. 1944, additional credits Keene State College, Elementary Guidance. Eleven years of previous educational experience.

Miss Nancy VanUden, B.Ed. Keene State 1968, grade 5, Reeds Ferry.

Miss Melody Witcher, B.Ed. Keene State 1968, grade 1, Reeds Ferry.

In conclusion I take this opportunity to express my appreciation for the assistance and support rendered our district during the past year by all members of our staff, the school board and the citizens of Merrimack.

Respectfully submitted,
CLAUDE H. LEAVITT
 Superintendent of Schools

REPORT OF ASSISTANT SUPERINTENDENT OF SCHOOLS

Dear Mr. Leavitt:

The following paragraphs constitute my report, as Assistant Superintendent, in the School District of Merrimack, New Hampshire.

The highlight of the current school year has, of course, been the opening of the two new schools in Reeds Ferry and Thorntons Ferry. Thanks to the untiring effort of the principals, the industry and patience of the teaching staffs, and the cooperation and understanding of the citizens of Merrimack, the schools opened their doors, with a minimum of inconvenience and hardship, to all concerned.

One of the principle additions to the overall instructional program, during the current year, has been the establishment of a special class in the primary grades. The function of this class is to provide the type of special and individual instruction necessary to help those children concerned to experience success, instead of frustration, in their school experiences and hopefully, bring them to a point where they can be re-channeled back into the mainstream of the educational process.

With additional personnel in the areas of art and music both of these programs have been improved significantly, allowing us to reach all the children with this type of specialized instruction on a more frequent basis. However, the fact still remains that the pupil-teacher ratio for these specialists at the elementary level, is approximately 1500-1, which is far in excess of what is necessary to maintain a good program. As a result, we are requesting extra help in this area, again this year.

With funds provided through Title I of the Elementary and Secondary Education Act of 1965, we currently have the services of a child psychiatrist who works in our elementary schools on a weekly basis. Merrimack is one of the few districts in this area to offer such an excellent supporting service to its instructional program.

Looking forward to the 1969-1970 school year there are several areas to which we should direct our immediate attention.

First and foremost, of course, is the need to provide adequate teachers to maintain a reasonable pupil-teacher ratio in the face of staggering increases in pupil enrollment.

Looking beyond this rather obvious need we would like to concern ourselves with an area that has remained rather neglected over the past few years. The construction of the two new schools has helped to magnify our needs in the area of library services. Both schools have excellent library facilities, giving us a total of four elementary libraries. The need becomes immediately apparent for a full-time, fully qualified librarian to organize and administer the libraries.

The school library, at both the elementary and secondary level, is one of the basic requirements for a quality program of education. In an era, characterized by what we call the "knowledge explosion" and, taking into consideration the constant demands placed on the schools by our dynamic society, a school library is an essential element in every school. The school library fulfils a double function, providing the teachers with a means of enriching the content of their courses, while also making available to the youngsters the wide variety of printed material necessary to supplement their regular school program.

We feel very strongly that libraries should be staffed by full time professionals. The librarians should then be responsible for the selection of appropriate materials for the library in collaboration with the regular teaching staff. The library program should make extensive use of a rich and varied school media collection that meets the needs and abilities of each student and makes use of a variety of approaches available through television, radio, films, filmstrips, film loops, recordings, realia, slides, transparencies, and a basic collection of printed materials. All of these material needs are reflected in the instructional area of our budgetary requests.

Prior mention was made of a pupil-teacher ratio of approximately 1500-1 in art and music at the elementary level. Two other areas where this almost unworkable ratio exists, at the elementary level, is in reading and guidance. Here again are two phases of the total school program, where invaluable but inadequate services are being rendered, within the framework of an inordinate pupil-teacher ratio. In order to provide the services necessary to make these programs functional, added personnel are necessary.

In the process of making this Annual Report I have tried to review some of the highlights of the current year and also take into consideration some of our more paramount needs for the coming school year. In closing, I would like to thank the School Board and yourself for your direction and guidance, Mr. Taylor, Mr. Lashua, Mr. Smith, Mr. Buck and the entire school staff for their unfailing cooperation, and finally the citizens of Merrimack for their commitment to excellence in the total educational program.

Respectfully submitted,
PETER G. DOLLOFF,
Assistant Superintendent

HIGH SCHOOL PRINCIPAL'S REPORT

The 1967-1968 school year found us rather crowded in the high school building, due mainly to the fact that it was necessary to include approximately one hundred and twenty eighth grade students in our program. We were able to increase our services and offerings to some degree, although not to the extent that we had originally planned.

In November, a committee of fifteen members, representing the New England Association of Colleges and Secondary Schools, visited our school for three full days. The purpose of this visit was to evaluate our entire high school program. This visit was followed by a comprehensive report which included both commendations and recommendations, and was designed to assist us in strengthening our educational program. The recommendations suggested program changes, additional courses and additional facilities in several areas.

At the present time members of the Merrimack School Board and Building Committee are in the process of developing plans for new construction and additional facilities which will enable us to make these changes and better meet the needs of our secondary students. The problem is two fold. We must build enough classrooms to accommodate the tremendously increasing school population and at the same time include special areas and special equipment to develop and strengthen a comprehensive curriculum. I am confident that during the next few months, as in the past, the School Board, the Building Committee and the citizens of Merrimack will make every effort to provide the means for quality education for the young people of our community.

1967-1968 proved to be the most successful year in history for the Merrimack High School Athletic Program.

The Varsity Soccer Team, coached by Lawrence Cross, completed the regular season with a record of 10 wins, 3 losses and 1 tie. At the conclusion of the season this team advanced to the quarter-final round of the State Soccer Tournament before being eliminated by Wilton High School 2 to 1.

Thomas Robinson in his first year as varsity coach, guided an unbelievably determined basketball team to what might be called its first "Triple Crown": Champions of the Monadnock League Holiday Invitational Tournament, Champions of the Monadnock League for the 1967-1968 season and Class "M" Champions of the State of New Hampshire. It should also be noted that Lowell Haseltine was selected by the N.H. Association of Basketball Officials, to be the recipient of the

John E. Burke Award for his outstanding participation and sportsmanship. Members of the varsity ski team, under the direction of coach Michael Lynch, made a creditable showing throughout the season to earn the Second Place Trophy for the Monadnock League. Arden Powers and Tim Styles placed first and third respectively in the Slalom Event at the State Class "B" Ski Meet.

The baseball team under the guidance of coach Lawrence Cross, also had an exceptionally fine season and were presented with the "Runner-up" plaque after being defeated by New London in the finals of the State Class "M" Tournament. This is also the first time a Merrimack High School Baseball Team has advanced so far in state competition. Thanks and congratulations to all who participated or in any way contributed to this exciting and successful year of sports.

On July 11, 1967 Merrimack High School was granted a charter for a local chapter of the National Honor Society. The induction of charter members and the installation of officers of the Robert McGaw Chapter of the National Honor Society was completed at a very impressive ceremony in the junior high school gymnasium on April 16, 1968. Speaker for the afternoon program was Mr. Edward J. Haseltine. Guests who attended the program were Merrimack High School Students, Parents and members of the Alvirne High School Honor Society.

In May members of our McGaw Chapter attended the State Convention of the National Honor Society. At that time Daniel Greenleaf was elected President of the New Hampshire State Organization, Allen Penrod was elected as a delegate and Mrs. Judith Cook, who is the advisor of our local chapter, was elected as the advisor of the State Organization.

Graduation Exercises were held in the gymnasium on June 12th. The Commencement Address was delivered to seventy-one graduating seniors by Mr. Walter K. Robinson, Director of Teacher Education, New England College, Henniker, New Hampshire. Diplomas were presented by Mr. Claude H. Leavitt, Superintendent of Supervisory Union No. 27.

Respectfully submitted,
H. DANA TAYLOR

MERRIMACK JUNIOR HIGH

Principal's Report

Population growth in the Town of Merrimack and its resulting increased enrollment in our schools has again dictated a change in our concept of a middle school. The school year 1968-69 finds the Junior High school organized for departmentalization in Grades 6, 7 and 8 rather than the middle school concept of grades 5 thru 8.

Increased enrollment also has meant increased staff and this year seven new teachers were brought to the Junior High; three due to additional needs, and four replacing teachers who had left Merrimack. Of the seven new teachers, three came to Merrimack with previous teaching experience. This hiring of experienced personnel reflects a keen insight by the School Board in its effort to bring quality education to Merrimack. Experience costs money but it pays dividends. With a staff in the Junior High School in which better than 75% of the teachers have had one or more years of experience, we are beginning this year to feel a sense of stability. It behooves the Town of Merrimack and the School Board to continue wanting and demanding the best, rather than making our schools a training ground for other systems.

In an endeavor to bring more than the academic to our students, Band and Chorus were added to our curriculum this year. Mrs. Mary Ann Logan has taken the position of music director and after only three months of preparation, a Christmas music program involving over 150 pupils was presented to the student body.

Other activities undertaken during this last year have been:

A Minstrel show program under the direction of Mrs. Mary Donnelly and Mr. Raymond Raudonis. This show was attended by over 600 people.

A field day in June under the direction of Mr. Demetrios Perdikis. This was open to all students regardless of athletic or academic ability.

A Student Council was organized with Mr. Raymond Raudonis as faculty advisor. This group operates a school store and organizes and supervises school dances.

A drama group has been formed by Miss Ball and Mr. Boisjolie and presented the play "The Little Red School House" in December.

A math club has been organized by Mr. Gonzalez which meets periodically for enrichment projects and programs in Math.

A field trip to Boston by English and Reading classes to attend the play "Your a Good Man Charlie Brown". This program was under the supervision of Miss Bournival.

A book Fair was conducted by the P.T.A. in October.

Other special events this year were a special safety assembly program presented by trained dogs under the direction of Sergeant Preston of the State Police. Another special assembly program was a Hansel and Gretel Operetta presented by the Center for Arts Exposure. The Mastricola School will be honored this year by having three Rivier College student teachers. Mrs. Coutris, Grade 3, Mrs. Farr, Grade 4 and Mrs. Mary Johnson, Grade 1, will supervise the training of these students.

Readiness grouping for first grades was discontinued for this year due to the division of first grades among the three elementary schools and the inability to do our testing prior to the beginning of school. An additional hampering factor was the temporary over-crowded conditions existing before the opening of the Thornton's Ferry and Reed's Ferry schools. Pupils who were immature have been receiving a specialized curriculum in their own classrooms which increased the instructional load of the first grade classroom teachers and has meant that immature children do not receive as much individual attention as they would in special classrooms. It is anticipated that with the increased number of first grades next year, we will again have first grade readiness classrooms. Mrs. Richardson, our Guidance Counselor, plans to do all readiness testing for incoming first graders before school closes next Spring.

Although it is difficult for a community as fast-growing as Merrimack to meet all of its educational responsibilities, it is a pleasure to be associated with the Merrimack School system where the Board of Education is making every effort to meet the building needs and to provide a salary schedule and benefits that attract and keep superior teachers.

Respectfully submitted,

PAUL C. LASHUA
Principal

THORNTONS FERRY SCHOOL

REEDS FERRY SCHOOL

Principal's Report

The door of the moving van slammed shut at 12:30 A.M. on September 5, 1968. Working with flashlight and temporary lighting, the move into the new Reeds Ferry Elementary School was finished. In August the task had seemed impossible, now, in early September, the task still seemed impossible but the new school opened on time, September 9, 1968. In retrospect the first month in the new school seems somewhat of a nightmare. School functioned as close to normal as could be expected, what with carpenters, electricians and assorted tradesmen in and out of the classrooms. Just when things would seem to calm down, a bulldozer would roar by outside the classroom window. With all of this activity I'm sure our pupils learned much more than the basic three-R's.

Not enough credit can be given to the teachers working at Reeds Ferry during this early period. The regular staff plus Miss Bouchard and Mrs. Henry from Thorntons Ferry School were most cooperative and performed in an outstanding manner. My special thanks to them for their cooperation and patience during these difficult days.

The Thorntons Ferry School was ready for us in mid-October. We took advantage of the long weekend occasioned by the Teachers' Convention to make the move. This move involved moving from four schools, where the classes had been temporarily housed, to the new school. The move went smoothly with each child returning on Monday to the same seat in the same row with the same teacher in a new school.

Now the school year is over half gone, the dust has settled and the schools are running in good order. We are planning for the future, as much still needs to be done. We have a beautiful new library in each of the new schools and we are beginning the task of acquiring books and materials to outfit these libraries. A good library is essential to the educational process in every school. We are only beginning. It will take several years to have truly first rate school libraries.

A new math program was begun this year and will be continued, with the addition of one grade per year to the program. The teachers of this supervisory union are studying several new English programs. It is hoped they will have recommendations as to which new program we should adopt.

Our new schools show an increase in enrollment almost weekly. While each school has two empty rooms this year, these will have to be used next year to handle the enrollment.

On behalf of the staff and myself, we want to thank the parents for their patience and understanding while we have been getting these new schools operational.

In conclusion, I wish to thank the citizens of Merrimack for providing two fine new schools for their youngsters. Of equal importance has been the addition of several fine teachers. In this day of the severe teacher shortage, I hope we can retain these fine teachers and add the necessary new teachers to meet our needs as the community continues to grow.

Respectfully submitted,

CHESTER S. BUCK
Principal

JAMES MASTRICOLA SCHOOL

Principal's Report

The pressure of over-crowded elementary school buildings is relieved for the first time in four years. This year, we have rooms available for Art and Music instruction, as well as for the Speech teacher, and the Grammar School is now used for Secondary music instruction. Fast growth in the town continues and enrollment projection figures indicate that all classroom space will be utilized to capacity in September.

Major curriculum emphasis this year is in the establishment of a Special Education Class for the mentally retarded. This is the first time that the Merrimack School District has had its own Special Education Class and the pupils are of primary school age and come from all districts in town. Mrs. Virginia Ellingwood, who is specially trained for teaching mentally retarded children, is the teacher. There are 14 pupils on all levels of primary instruction in this classroom and many new materials have been purchased for this specialized teaching, with an emphasis on visual-perception training. It was hoped that an additional special education class could be established for middle-grade children for next year but this will be impossible due to lack of classroom space; however, this is a goal for the future. These pupils receive a great deal of individual attention in a small class and they do make academic progress. Pupils who learn slowly profit by taking part in a variety of activities. In the Special Education class the course of study includes many field trips. The Board of Education deserves credit for including a special class in the Merrimack school educational program.

We again have Art and Music teachers for the elementary classrooms. This specialized instruction revitalizes these areas of our curriculum and is a great help to the classroom teacher. Mrs. Mary Donnelly is the Elementary Music specialist. As you know, Mrs. Donnelly was the Secondary Music instructor in the Merrimack school system and is a long-time resident of Merrimack.

Mrs. Jean Kelley, a resident of Bedford, is our new Art teacher. Mrs. Kelley was in the commercial art field previous to joining our faculty. She has a B.A. degree from Rivier College, with a major in Art and a minor in Education.

Mrs. Lucy Richardson, a resident of Amherst, is the Elementary Guidance Counselor and new to our school system but not new to the profession. Mrs. Richardson has a B.A. in Education with a minor in psychology from the University of New Hampshire and has completed

requirements for a Master's degree in Guidance, also from the University of New Hampshire. She has taught for ten years in the elementary grades including special education classes for the mentally retarded. For two years preceding joining Merrimack, Mrs. Richardson was a guidance counselor at the junior and senior high level in the Milford Area School.

Miss Jean Glazier is the new Reading Specialist and joined the Merrimack School system this year. She has a B.A. degree in Elementary Education from the University of New Hampshire and has completed all requirements for a M. Ed. degree in the field of reading, also from the University of New Hampshire. Her experience background includes five years teaching elementary classes, departmentalized reading classes and remedial reading. Miss Glazier came to Merrimack from the Derry, New Hampshire schools.

Special events this year include an Open House in November, a P.T.A. sponsored Book Fair, and a Christmas program in December. Classes from Grades 1 through 4 in all three elementary schools participated in the Christmas program. An innovation this year in the Christmas program was the giving of gifts to the school by the parents who attended the program. Many useful items such as bean bags, games, etc. were received and distributed to the various classrooms.

A special event at the Masticola School at Christmas time was the Christmas carol serenading by the Senior High School Chorus under the direction of Mrs. Mary Ann Logan. The Choral Group serenaded all classrooms while strolling through the halls. This was very well received by pupils and faculty and helped to create an atmosphere reminiscent of old-fashioned Christmases. It is hoped that this event will be continued in future years.

Two of our teachers were appointed to Supervisory Union No. 27 Committees for studying specific projects. They were Mr. Farr, who worked with the committee looking into the need and/or advisability of sex education; and Miss Charlotte Bournival, who participated in a study of linguistic language programs. As a result of a union-wide study made last year, a change has been made in the Math program for the seventh and eighth grade.

Addison Wesley's School Math and Basic Modern Math have been incorporated into our curriculum. Addison Wesley presents a two level series which will better meet the needs and abilities of our students.

The 11th Annual Watkins Spelling Contest was held on May 15, 1968. Mr. Peter Dolloff, Assistant Superintendent, was pronouncer.

Principal

MERRIMACK HIGH SCHOOL

Guidance Department

The school year 1967-68 was indeed a challenge with the addition of the eighth grade causing our enrollment to climb to over 470 pupils in a building designed for only 400 pupils.

Nevertheless, every effort was made to continue offering quality services in counseling, educational and vocational guidance, testing and employment and college placement as was described in last year's report.

What with so many new students transferring in during the school year, it was decided that additional efforts should be made to bring about a more easy, comfortable and accepting adjustment for these pupils. It was for this reason that Student Council members volunteered to make themselves available and to encourage their classmates to do the same, in offering assistance to these new pupils in becoming familiar with the facilities, procedures and general information that help to make school life more pleasant.

Research in 1966 of the study and work habits of Merrimack High students indicated a growing trend for our youngsters to hold part-time jobs while attending school. Recognizing that part-time employment is a very valuable experience an attempt was made for the school to act as liason between our students looking for part-time employment and local employers with jobs available. At a meeting with the Merrimack Chamber of Commerce a plan was outlined that would cause each to become better aware of mutual needs. The program is quite simple. The employer fills out a form giving the basic information about the job. Notice of this opportunity is then posted on the bulletin board and interested students make the necessary contact. We do not propose to act as an employment agency but simply to provide the opportunity for the employer and the student to get together.

A "Follow-Up Study" of the classes of 1961, 1962 and 1963 was conducted. This twenty-seven item questionnaire contained two parts; the first of which pertained to personal, individual data about each student and the second part solicited responses pertaining to the high school curriculum and program of studies. The results were as follows:

Part I Personal Data

In each class more respondents were females than males. Females were graduated from high school at an earlier age than males. More females in each class were married than males. They were also married at an earlier age and as parents had more children than did males. Females on the average had held more jobs since leaving high school. Females had less formal schooling since high school but more non-formal schooling. More males than females were still attending post-secondary schools.

Part II Curriculum Responses

It should be noted that since these students were in attendance various changes have occurred, particularly with reference to curriculum and faculty. For example, in 1961 there were twelve classroom teachers, including a part-time school counselor. In 1968 there were twenty-five classroom teachers, a full-time librarian and a full-time counselor. Also since 1966 students of grades 9-12 have been in a new building offering improved facilities.

Many of the changes or courses suggested to be added have since become included in the curriculum. There have been three additional offerings in Business Education; two in Art and two in Music; Driver Education; four offerings in Practical Arts for boys, two in Mechanical Drawing and two in Electricity – Electronics; there are more homogeneous groupings in English, Social Studies, Mathematics and Science; an elective course for seniors in English Composition; content revisions have occurred in all subjects that have naturally required up-dating texts and materials.

Thus many of the comments made in Part II support changes that have taken place since these students left high school. The exceptions to this, however, as indicated by repeated alumni responses, were physical education, additional foreign languages and manual arts – shop program.

Since previous students have suggested there be changes that have already taken place and, furthermore, that their suggestions for additional changes are along the same lines which the school has been recommending, it would seem to suggest that the school is in no way out-of-touch or otherwise unaware of the needs of its young people.

Respectfully,

NORMAN E. BROWN
Director of Guidance

ELEMENTARY GUIDANCE REPORT

This is my first annual report as Elementary Guidance Counselor for the James Mastricola, Merrimack Junior High, Reed's Ferry and Thornton's Ferry Schools. I have found it to be both an exciting challenge and a rewarding experience. Considering the growth of the area and the constantly increasing needs of our children and our society, there is every reason to expect continued demanding challenges with unlimited opportunity for rewarding experiences in the future.

The Counselor's job is to know all pupils and know them well. A ratio of over fifteen hundred students to one Counselor has made this a difficult task. For this reason I have initiated a referral system which the teachers use to bring to my attention students who need special consideration. The dedication of these teachers and staff members contributes immeasurably to coordinating the guidance program. We all function in the light of one basic philosophy – that of understanding and providing for the individual and group needs of all our pupils.

Whenever a student is found to have some particular problem, which prevents his adjustment to the school situation, an attempt is made to determine the causes and eliminate the problem. To do this we often have conferences with teachers, the principal, parents, the school nurse, the consulting psychiatrist and other sources of help. The Guidance Counselor has primary responsibility for making these services available. A considerable number of telephone and in-person consultations are held with parents.

When testing indicates a student is not working up to his ability, the counselor discusses study habits, budgeting of time and possible causes of failure with the student. Counseling students with personal problems is also part of that responsibility.

Administration of testing programs and their interpretation to parents, students and staff members is a major duty performed by your Counselor. Metropolitan Readiness Tests are administered in September to all grade one students to help insure that each child will be placed in a situation where he can achieve at a level commensurate with his maximum potential. Success spurs the child to a conviction of his own worth and to further achievement. Our aim is to limit the amount of failure and frustration a child will experience.

An achievement testing program in Union 27 was administered in the Fall to grades 2 through 8. The achievement test results help teachers adjust the instructional programs to better meet pupil needs.

The Otis-Lennon Mental Ability Test was administered to grades 2, 4, 6 and 8. This is a group test conducted by teachers under supervision of the Counselor. Results of this testing program are used in conjunction with achievement tests.

The Counselor administers individual ability tests, Binet or WISC, where a need is indicated.

The Counselor has a definite responsibility for record keeping. To help understand the children we have to keep records of his background, abilities, progress and needs. Tests are recorded and permanent records kept up to date.

We are most fortunate to have Dr. Margaret Kennard as a consulting psychiatrist for our schools. We have worked together closely helping children who have school problems.

To our teachers I express my sincere thanks and appreciation. The quality and dedication of staff members and administration make me proud to be a member of the Merrimack Public Schools.

Respectfully submitted,

LUCY B. RICHARDSON
Counselor

MERRIMACK SCHOOL DISTRICT
Comparative Budget Statement and Expenditures
for School Year 1967-1968

Item	Description	Budget	Spent

**REPORT OF THE PLANNING AND BUILDING COMMITTEE
FOR
MERRIMACK, NEW HAMPSHIRE SCHOOL DISTRICT**

The first three months of 1968 were busy ones as plans and specifications for the Thornton's Ferry Grammar Schools were in the process of completion and, in order to meet a September building completion, we were on an accelerated program.

Bids were received on April 4, 1968, and the contractor who could meet all of our requirements was Blanchard-Stebbins of Manchester, New Hampshire. From this point on, the School Board, Architect and Contractor became responsible for the erection and completion of the two schools.

In May, 1968, we began a series of studies to determine in which area we should concentrate next. After many meetings with Bedford, New Hampshire, discussing possible mergers, cooperative schools, tuitioning students and all other aspects of Bedford's situation and our own requirements, it was decided that Merrimack would continue on our own merits and expand our school system, without Bedford being involved.

At this point, we had to determine where our immediate problems were and what we could do to alleviate them. It has been determined by cold facts that we must increase our classroom capabilities in the Senior High School. In order to keep our heads above water, we must have additional classrooms by September 1970. As it is, they are full this year and will be overcrowded during the 1969-1970 session.

The Planning and Building Committee was unanimous with the School Board in diciding that we need \$25,000 to get our plans for the High School addition drawn up and ready for bid so we won't be forced into an accelerated building program which brings with it increased costs and hurried decisions which are not always the best for long-range planning.

We, as a Board, feel that 1968 has been a rewarding year and are pleased to work with the School Board that is keeping up with Merrimack's growing pains in a sensible and efficient manner.

Respectfully submitted:
NORMAN E. BROWN
EARL C. DODGE
FRANCIS J. O'GARA
MARTIN F. KELLEY
ROBERT E. PISCOPO
JOHN E. LYONS

HEALTH REPORT

Our health program opened this year as usual with physical examinations for the high school athletes. One hundred and forty girls and boys were examined by Dr. Lionel Lavoie.

The number of communicable disease cases averaged about the same as previous years. However, measles were practically nil due to the excellent attendance at the measles clinic held on November 9. First and second graders as well as pre-schoolers were immunized.

January 18, brought the annual Tuberculosis Testing program. However, State T.B. Association has revamped their state program and testing is now limited to first graders. 235 students were tested.

March, April and May were the months in which immunization clinics were held. These clinics are held in conjunction with the Merrimack Valley Home Association. Diphtheria, Whooping Cough, Tetanus, Polio and Small Pox immunizations were given by Dr. William Sheehan who was the attending physician. Members of the P.T.A. assumed clerical duties.

The pre-school registration was held on April 2. Physical examinations were done and 191 prospective first graders were registered at this time. Dr. Luther March, Dr. William Sheehan and Dr. Lionel Lavoie were the attending physicians.

Routine hearing and vision screening was done throughout the school year.

It was indeed a busy year but our work was made easier by the wonderful cooperation of those interested in school health. Parents, Doctors, P.T.A. members to them our sincere appreciation.

EMMA DODGE, R.N.
ELEANOR MONTE, R.N.

**SCHOOL DISTRICT
SCHOOL BUS REGULATIONS FOR SCHOOL PUPILS**

1. The school bus driver is in complete charge of the school bus and the pupils and shall have the same authority in maintaining discipline as a teacher in the classroom under the supervision of the school board and superintendent of schools.
2. The pupils must be on time at the designated bus stops to meet the school bus. Since the school bus is operating on a schedule, it cannot wait at any bus stop for children who are not within sight of the stop when the bus arrives.
3. Any unnecessary talking with the school bus operator is prohibited.
4. While ordinary conversation between pupils is permitted, loud, vulgar and other improper language will not be tolerated.
5. Smoking may not be permitted in the school bus. Waste paper and other articles may not be thrown on the floor or out the windows while the pupils are in the bus.
6. Pupils are not permitted to get on or off the bus while it is in motion. The center aisle shall be kept free at all times.
7. Lunch boxes, books and any other bundles carried by the pupils shall be kept on their seats or in a place designated by the school bus driver.
8. Pupils shall go to the rear of the bus when getting on unless assigned to a seat near the front by the school bus driver.
9. The rear emergency door shall be used only in case of emergency.
10. All pupils must be seated in the bus while it is in motion.
11. Any violation of the above approved rules or safety measures made by the school board will be reported to the school authorities who can forbid the offender temporarily or permanently from riding on the school bus.

**MERRIMACK SCHOOL DISTRICT
RULES AND REGULATIONS
PERTAINING TO USE OF SCHOOL FACILITIES**

1. The principal of the school is responsible for the schedule of the use of any school facility.
2. No school facility is to be used when it interferes with the educational schedule or creates a hardship on school personnel.
3. The use of alcoholic beverages on school property is prohibited.
4. Smoking will be permitted in restricted areas, namely the Front Lobby and lavatories only.
5. Requests for use of facilities are to be acquired from the building principal and stated in writing.
6. All payments for the rental of facilities shall be payable to the Superintendent of Schools, Hudson, N.H.
7. All payments for personnel services shall be made directly to the personnel involved.
8. The three OUTSIDE EXITS in the Auditorium shall be used in case of emergency only. The entrance and exit to the Auditorium shall be through the main lobby only.
9. There shall be no decorations of any kind affixed to any permanent part of the Auditorium. The use of any scenery or props on the stage shall be first approved by the school board.
10. No requests will be considered if a school sponsored or Town government activity is scheduled during the same period requested by an organization.
11. Statement that the organization or function will be in the event of damage to the building or equipment, reimburse the school District within a 30 day period from the date of the damage, the full amount of the cost of repairs or replacement.
12. District organizations may use school facilities free of rental charge provided no admission is charged or donation requested.
13. When admission is charged or donations required the following rental charges will prevail.
 - A. Use of auditorium \$25.00
 - B. Use of auditorium and kitchen \$35.00
 - C. Use of single classroom \$4.00

“NO SCHOOL” SIGNAL

If school is to be called off for any reason there will be notice read over stations WOTW and WSMN in Nashua and WFEA in Manchester 7:30 o'clock in the morning.

Because of the required 180 days of school brings the closing of the school year well into the month of June, it is the feeling of the School Board, that it would be unwise to call off school unless it is impossible for the busses to negotiate their routes. We are asking all parents to use their own discretion sending children to school during a bad storm.

SCHOOL BOARD MEETINGS

The regular monthly meeting of the School Board is held at the Merrimack High School on the First Tuesday of each month at 7:30 P.M. The meeting is open to anyone with complaints or suggestions on the operation of our school system. The only way that the School Board can act on any situation is as a body.

CLOSED SCHOOL YARD

School Street adjacent to the Junior High School and all driveways leading to both the Junior High School and Mastricola Elementary School are closed to all traffic except School Busses between the hours of 8:00 A.M. to 9:00 A.M. and 2:30 P.M. to 4:00 P.M. when schools are in session.
