REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board of Hooksett:

My eighth annual report includes enrollment and organization, emergency protection of school children, advancement in health projects and other activities.

The report of your enumeration officer for September, 1941 shows that Hooksett had enrolled in school 386 children under sixteen years of age. Three hundred and twenty of these were in local public schools, twenty-two were enrolled in elementary schools outside of Hooksett, and forty-four were registered in high schools and academy. If the forty-one high school pupils over sixteen years of age are included, the total high school attendance becomes eighty-five.

Recent industrial changes have contributed and will increasingly contribute to a reduction in high school attendance. This is reflected in the proposed budget by an estimated reduction of \$1000 for high school tuition.

During the last two years the cost per pupil in the elementary schools has decreased from \$58.56 to \$56.83. In the same period the median cost per elementary school pupil in the state increased from \$81.85 to \$84.61.

The year has been characterized by an unusual number of changes in teachers throughout the state. Hooksett has had four changes including one addition to its regular staff of teachers.

Mr. Clarence P. Amadon of Lancaster, New Hampshire, was chosen from several candidates to succeed Mr. Henry W. Thorne as teacher of the Village grades VII and VIII. Mr. Amadon was also elected principal of the school to fill the vacancy caused by the transfer of Mrs. Gertrude Washburn who has organized and conducted the newly established activity school at Martin's. Mr. Amadon was graduated in 1941 from the four-year course at Plymouth Teachers College. Previous to receiving his degree he had taught for six years in the Orford Grammar School.

Miss Yvonne E. Laflamme of Littleton, New Hampshire, and also a graduate of Plymouth, was selected to fill the teaching vacancy in Grades I and II of the Village School. Following her graduation from the three-year elementary course Miss Laflamme taught for five years the Hill School in Pembroke. In addition to her primary work, Miss Laflamme directs the girls' sewing classes in the seventh and eighth grades.

Miss Teresa F. McLay of North Andover, Massachusetts, a 1941 graduate of Lowell State Teachers College, succeeded in September Miss Mary D. Monahan in the Hackett Hill School. In January of this year Miss McLay was released to accept a graded school position in Massachusetts.

Mrs. Lois Cate Merrill, a former teacher in Hooksett and Pembroke, is substituting for the remainder of the year at Hackett Hill.

Mrs. Tashia P. Dunlap, who conducted your music instruction last year, withdrew in June to join her husband in Camp Blanding, Florida.

The position of Music Supervisor was filled by the election of Mrs. Doris S. Buswell of Andover, New Hampshire. Mrs. Buswell is a graduate of the Lowell State Teachers College and of the Conservatory of Music Supervisors' Course. She also supervises the music instruction in four neighboring school systems and is a director of the State Music Festival.

Complying with recent legislation for special instruction of physically handicapped children, Mrs. Madge V. Bergsman of Hooksett was employed from January, 1941 to June, 1941 to instruct at home a crippled girl. Mrs. Catherine E. Hammond of Manchester was recently engaged to give instruction in lip-reading to a boy seriously handicapped by loss of hearing.

An enrollment of nearly sixty children in the fifth and sixth grades of the Village School necessitated the opening in September of a third room at Martin's and the extension of transportation for more than twenty pupils from the Village. The educational results of the activity program, conducted by Mrs. Washburn at Martin's School, are proving the value of such organization. A visitor is soon impressed by an atmosphere of alert and purposeful activity of mind and hand in worthwhile achievement.

The recent emergency protection of school children does not anticipate an air attack directed against your schools. On the other hand it does anticipate that the defense of nearby military objectives may at anytime subject neighboring areas to damage from our own as well as from enemy planes. For this reason the least exposed shelter has been chosen in each school building. By the use of steel screens and black-out panels of veneer wood, these shelters afford reasonable protection except from direct hits by explosive bombs. The chance of a school building being hit by such explosives is considered extremely slight.

By well organized drills the children are now able to procure overshoes and outside wraps and to assemble in their shelters within five minutes after an alarm is sounded. Groups of older children are being trained to check and remove incendiary bombs, insert blackout panels in windows and doors, render first aid, and serve as emergency messengers.

Health projects have been continued and permanent services advanced.

Through the services of your school nurse, Miss Douillette, eleven cases of defective vision and thirteen cases of diseased tonsils and adenoids were corrected.

At the dental clinic, conducted in April by Dr. Mayo, 91 children were treated. Eighty-one of these received complete care and dental certificates. While there were 119 fillings, it is worthy of note that only 14 extractions of permanent teeth were necessary. Fifty-three paid the full cost of treatment, nine paid part cost, and 29 were given free care.

Through the loan of audiometer equipment, granted by the State Board of Education in April, your nurse was able to conduct thorough and scientific tests of hearing among 245 of the older children in the five schools. The results show a surprisingly small number of hearing defects.

Through the generous cooperation of the Surplus Marketing Association and the Federal Community Service program, hot lunches were continued at the Village School until June, 1941 and were resumed this year in December. The menu for a typical day includes:

Corn Chowder
Wheat Biscuit
Cocoa Peaches

You are fortunate to retain through the Federal Community Service program the services of Mrs. La-Valley in the preparation of nutritious and appetizing lunches.

Through the assistance of Mrs. Maude Langford, who was recently selected by the same federal service, approximately 100 hot lunches are prepared daily in the Village School kitchen. With the generous assistance of interested parents 25 or more of these hot lunches are being delivered at noon to the pupils of the Martin's School.

Fruit and some canned foods are being used in the three remaining schools.

In recognition of the united efforts of your teachers and pupils it is worthy of mention that in the standard battery of achievement tests, given annually to all pupils of certain grades in this Supervisory Union and covering thoroughly the skill and content subjects, Hooksett schools produced the highest record with a total average meeting the approved standard.

In the Union Spelling Contest of last May, your team of three members—Doris Smith, James Gray, and John Jacoby—returned the trophy cup to Hooksett by a winning score of 296 out of a possible 300 points. Two of the pupils from Hooksett attained perfect scores. This is the second year that Hooksett has held the spelling cup.

At the present hour the schools are more than ever concerned with the physical and mental fitness of our youth. Sound minds in sound bodies are demanded.

A public service is being rendered by everyone who in cooperation with the school nurse and teachers is seeking to make adequate diet, physical well-being, and health education available to every child in your community. For not only is health the basis of the individual's well-being, but, as Disraeli remarked, it is the foundation of the people's powers as a nation.

Respectfully submitted,

GEORGE H. HARMON,
Superintendent.
