IN APPRECIATION

On behalf of the Town of Northwood, the Board of Selectmen wish to thank J. Perry Richardson for the gift of old Town Reports and other old Town records given to the Town in memory of his Mother, Roxanna E. Richardson.

Appreciation is also expressed -

To Members of the citizen committees established as a result of the 1982 Town Meeting action, for the time, research and effort involved in preparing the reports that appear in this Town Report,

and

To all citizens who have accepted appointments to standing Town Commissions, Boards and Committees for volunteering their services towards the management of essential Town Business,

and

To all citizens who, in their individual ways, have inconspicuously contributed their services to the conduct of Town affairs.

TOWN OFFICERS

SELECTMEN

Walter M. Crandall, Jr.	Term Expires March 1983
Robert E. Bailey	Term Expires March 1984
True W. Chesley	Term Expires March 1985

TOWN CLERK

Arlene W. Johnson	Term Expires March 1984
-------------------	-------------------------

DEPUTY TOWN CLERK

Barbara T. Belmonte

TOWN TREASURER

Constance R. Linnell	Term Expires March 1984

SUMMARY OF ACTION TAKEN ON ARTICLES IN

1982 TOWN WARRANTS

March 9, 1982

Polls were opened by Moderator Robert A. Johnson at 10:00 A.M. at the Town Hall. The warrant was read and also the School Warrant. Absentee ballots were cast at 3:00 P.M. Polls closed at 7:00 P.M. and the count of ballots disclosed that 371 regular ballots and 19 absentee ballots were cast for a total vote of 390. This was about 31% of the 1255 voters registered on the checklist. The results of the vote are shown on the attached specimen ballot.

March 13, 1982

The meeting was held at Coe-Brown Northwood Academy and opened by Moderator Johnson at 9:00 A.M. There were approximately 60 present at this hour. By unanimous consent the reading of the entire warrant was dispensed with. Joann Bailey moved that we plan to adjourn our meeting today at 12:30 to reconvene at 9:00 A.M. on Saturday, March 20. Charles Johnson seconded. This was being done to enable townspeople to attend the State Championship B.B. tournament in Plymouth in which the boys from Coe-Brown were contenders. Mrs. Herron made a statement that some did not attend today because they felt this might happen and suggests that another year we might plan differently so that we would not give our young people the message that sports comes before citizenship. The motion prevailed by a show of hands, 57 YES, 10 NO.

By consent, Article 3 and 4 were dealt with before Articles 1 and 2 since the outcome of these would determine the figures in Articles 1 and 2.

ARTICLE 3 Charles Bailey, Chairman of the Budget Committee moved that the Town fix the compensation of the Tax Collector at \$3,600.00 per year, payable monthly, as a salary for the collection of property, bank and yield taxes, interest and penalties. Charles Johnson seconded. Walter Crandall, Chairman of the Board of Selectmen, amends the article to include after the word, Taxes, Current Use Change taxes, interest and penalties. The amendment was adopted by voice vote. Clarence Ahlgren offered an amendment that the salary be \$3,000.00 instead of the \$3,600.00. Ellen Ahlgren seconds. Charles Johnson pointed out that some towns collect only once a year so the comparable town salaries that Mr. Ahlgren had might not apply. The amendment was defeated by a show of hands: 17 YES, 38 NO. Next the main motion was adopted by a voice vote.

ARTICLE 4 Charles Bailey moved that the Town place the Town Clerk on an annual salary of \$3,000.00 payable monthly, instead of the current fee compensation system for auto and boat registrations, dog licenses, monthly recording fee, and hourly election and town meeting salary. Robert Bailey seconded. Motion adopted by voice vote.

ARTICLE 1 Charles Bailey moved to raise \$166,490.79 to defray Town Charges for the ensuing year and appropriate the same.

Robert Bailey seconded. The motion was adopted by a show of hands
70 YES, 0 NO.

ARTICLE 2 Charles Bailey moved to establish the Northwood Rescue Squad as a department of the town. Donald Post seconded. Walter Crandall explained purpose was to relieve the Rescue Squad of legal liability and would now be covered by the Town's policy. Mr. Behm asked if Rescue Squad agreed and Mr. N. J. Morse affirmed that they did. The motion was adopted by unanimous voice vote.

ARTICLE 5 Charles Bailey moved to appropriate the sum of \$32,368.17 and authorize the withdrawal of the same from the Revenue Sharing Fund established under the provisions of the State Local Assistance Act of 1972, for the following purposes,

Cemetery Trustees - ground preparation for the road	
construction at Pine Grove Cemetery	\$ 2,500.00
Records Committee - Microfilming five years of records	
and tax map	\$ 1,512.00
Police Department - Communications Equipment	\$ 4,800.00
Libraries - Cataloging of collection at Chesley	
Library	\$ 1,500.00
Town Hall - Construction of a cement block addition	
for record storage	\$10,000.00
Rescue Squad - Training Equipment	\$ 3,500.00
Town Hall - Insulating of Hall ceiling	\$ 1,052.00
Fire Department - Insulating and siding at Ridge	
Station	\$ 5,750.00
Fire Department - Equipment	\$ 1,754.17

Robert Bailey seconded. Mr. Behm asked for some explanations. Walter Crandall responded that the Record addition was to put all records in one 18x12 room that could hold all safes and permanent files. Chief Shafer responded about the Police equipment stating that the portable equipment is beyond repair so this is to purchase new. Motion was adopted by unanimous voice vote.

ARTICLE 6 Charles Bailey moved to raise and appropriate the sum of \$16,100.00 as its share of the capital cost, with interest, for the construction of an incinerator and energy recovery facility as set forth under the Agreement for Formation of the Lamprey Regional Solid Waste Cooperative, and to allow the Selectmen to accept Federal or State, and other grants that may be available to the Town in providing its share in the project. Robert Bailey seconded. Motion was adopted by voice vote.

ARTICLE 7 Charles Bailey moved to authorize the Selectmen to borrow money in anticipation of taxes and vote to raise and appropriate the sum of \$10,000.00 for interest on same. Robert Bailey seconded. Motion was adopted by unanimous voice vote.

ARTICLE 8 Charles Bailey moved to raise and appropriate the sum of \$10,908.00 for the Northwood Public Libraries. Veronica Post seconds. Mrs. Fogg asked what this included and Alan Thomson makes the suggestion that we use the detail pages in our town reports. Motion adopted by unanimous voice vote.

ARTICLE 9 Charles Bailey moved the sum of \$5,500.00 for the

expenses of the Northwood Fire Fighters. Veronica Post seconds. Mr. Frary asks if there is a difference between the Fire Dept. and and Fire Fighters. Mr. Chesley amends the article to read: for the expenses of the Northwood Fire Dept. Donald Post seconds. Chief Bassett explains the expenses would be just that, to recompense the fighters some for their gas, etc. and that it is NOT a wage. Amendment passed by voice vote. Then the main motion adopted by unanimous voice vote.

ARTICLE 10 Charles Bailey moved the sum of \$11,765.00 for Parks and Playgrounds. Randy DeTrude seconds. Mr. Frary asks whether there would be money in this for a lifeguard in case Article 11 is passed. Mr. V. Bane thinks a lifeguard would make an attendant unnecessary but W. Crandall says we would still need an attendant at the beach. Motion was adopted by voice vote.

ARTICLE 11 Vincent Bane move to indefinitely postpone this article. N. J. Morse seconds. After some discussion Althea Behm suggests that even if we do not have a lifeguard, the attendant could be better prepared by at least being able to swim and have a boat at the beach. The motion to indefinitely postpone carried by a voice vote.

ARTICLE 12 Veronica Post moved to indefinitely postpone this article. V. Bane seconds. Article is indefinitely postponed by a voice vote.

ARTICLE 13 Randy DeTrude moved to raise and appropriate the sum of \$475.00 for the care of cemeteries. V. Bane seconds. Motion was adopted by voice vote.

ARTICLE 14 Charles Bailey moved to raise and appropriate the sum of \$77,115.00 for Town Highways (Summer \$40,700.00--Winter \$32,000.00--General Expense of Highway Dept. \$4,415.00). Robert Bailey seconds. Motion adopted by voice vote.

ARTICLE 15 Veronica Post moved the article as printed in the warrant namely to remove a total of 22 lights from our street lighting in town, pending information from the Police Dept. and/or the Road Safety Committee saying that it would not constitute any safety hazard. Theresa Herron seconds. Walter Crandall said these were picked out in order to meet the Budget Committee's recommended cut. Much discussion was held about the safety of removing these, about how they were originally installed etc. Chief Shafer suggests a study committee meet between now and next Saturday, made up as suggested by W. Crandall, of 7 members, 1 each from the Highway Advisory Comm., the Police Dept., the Harvey Lake Women's Club, the Fire Dept., Board of Selectmen, and two legal voters appointed by the Moderator, with one to be from the Lake Shore Drive area. This was made as an amendment and seconded by Herbert Sherman. Amendment adopted by voice vote and this article will be committed to the adjourned Town Meeting on March 20.

ARTICLE 16 Walter Crandall moves that Article 16 be postponed until Art. 15 is disposed of. Deborah Clark seconds. Motion adopted by voice vote.

ARTICLE 17 Charles Bailey moved to raise and appropriate the sum of \$1,000.00 for the Northwood Rescue Squad. Theresa Herron seconds. Motion adopted by unanimous voice vote.

ARTICLE 18 Charles Bailey moved to raise and appropriate the sum of \$4,090.00 for the Town Ambulance expenses. Jean Lane seconds. Motion adopted by unanimous voice vote.

ARTICLE 19 Charles Bailey moved to appropriate the sum of \$5,110.00 for the purpose of Town Road Aid, the State's share to be \$4,443.52 and the Town's share to be \$666.53. Charles Johnson seconds. Motion adopted by voice vote.

ARTICLE 20 Veronica Post moved to raise and appropriate the sum of \$6,573.00 for the Town's share of the Rural District Health Council, Inc. Theresa Herron seconds. Motion adopted by unanimous voice vote.

ARTICLE 21 Charles Bailey moved to transfer the \$2,000.00 from the revenue of the Municipal Court to the Highway Safety Equipment Capital Reserve Fund. Walter Crandall seconds. Motion adopted by unanimous voice vote.

ARTICLE 22 Charles Bailey moved the sum of \$39,500.00 for new construction. The \$39,500.00 is comprised of \$24,139.88 of Town money, \$7,348.05 Highway Subsidy, and \$8,022.07 Special Highway Subsidy Funds. Breakdown: Lower Deerfield Road to Bigelow Road \$8,000.00; Old Pittsfield Road to Dimes Drive \$6,800.00; Mountain Road \$8,000.00; Pender Hill Road \$7,700.00 and Blakes Hill Road \$9,000.00. The last three roads are to have brush, ditch, shim and resurface work done. Stephanie Buzzell seconds. Randy DeTrude wonders if resurfacing without under work would be worthwhile. Mr. J. Perry Richardson, Road Agent, explains work to be done on Mountain Road, saying the bad spots will be fixed first. Mrs. Herron asks if large jobs are put out to bids. Mr. Richardson says they are done by people he feels are qualified to do a good job. Mr. Belyea is assured the brush will be removed on the Lucas Pond Road as soon as possible. Motion adopted by voice vote.

ARTICLE 23 Charles Bailey moved the sum of \$10,294 00 for the operation and maintenance of the Northwood Recycling and Reclamation area. Donald Post seconds. R. DeTrude asks for breakdown of salaries. Robert Bailey responds that there is one dump attendant but sometimes Mr. Richardson has to help with the town truck. Frances Newman asks whether the large number of private dumpsters makes any decrease in cost of our dump operation. Answer; Most certainly. Jean Johnson asks if Mr. Cate's dumpsters go to same place as our dump, why do we have to separate ours? Clarence Ahlgren says we are trying to reduce cost and if separated should cost less. Motion adopted by voice vote.

ARTICLE 24 Charles Bailey moved the sum of \$3,630.00 for Planning Board expenses. Robert Bailey seconds. Motion adopted by unanimous voice vote.

ARTICLE 25 Charles Bailey moved the sum of \$225.00 for Board of

Adjustment expenses. Robert Bailey seconds. Motion adopted by voice vote.

ARTICLE 26 Charles Bailey moved the sum of \$458.00 for the Conservation Committee expenses. David Behm seconds. Motion adopted by unanimous voice vote.

ARTICLE 27 Theresa Herron moved the sum of \$750.00 for the Newmarket Regional Health Center. Helen Fogg seconds. Alice Thomas spoke of the good transportation they offer for the elderly. Motion adopted by unanimous voice vote.

ARTICLE 28 Charles Bailey moved the sum of \$3,397.00 be placed in the Town Ambulance Capital Reserve Fund. Veronica Post seconds. Motion adopted by unanimous voice vote.

ARTICLE 29 Charles Bailey moved the sum of \$750.00 for the fee compensation and expenses of the Building Inspector. Robert Bailey seconds, and then explains that this is just an "in and out" figure. Helen Fogg asks who is the building inspector? Mr. Hubner will be when he returns from Florida. Motion adopted by unanimous voice vote.

ARTICLE 30 Donald Post moved to indefinitely postpone. Then withdraws his motion. Charles Frary moved a substitute motion; To see if the Town will vote to raise and appropriate the sum of \$1,464.72 to defray the Town's share of services rendered by Strafford Regional Planning Commission through joint action in planning for development, and developmental changes required by legislation at Town, county and regional levels, or take any other action relative thereto. Clarence Ahlgren seconds this motion. Then Mr. Post moved to indefinitely postpone this motion. Helen Fogg seconds. Mr. Frary says we can use the expertise of this Planning commission and without them we wouldn't have all the information we need such as on wetlands and highways etc. Mr. Post says he is opposed because our committees don't seem to have used them. The motion to indefinitely postpone was adopted by a voice vote.

ARTICLE 31 Donald Post moved to indefinitely postpone this article. Veronica Post seconds. Motion to indefinitely postpone was adopted by voice vote.

ARTICLE 32 Theresa Herron moved the sum of \$238.00 in support of Rockingham Child and Family Service. Robert Herron seconds. Mrs. Herron spoke of their value. On a show of hands vote which was 37 YES and 39 NO, the count was so close that after a discussion in which it was told that four families used the services from our town last year, another show of hands gave 46 YES and 42 NO so the moderator announced there would be a Yes and No ballot. Motion adopted by 50 YES, 46 NO.

ARTICLE 33 Veronica Post moved to indefinitely postpone this article. Donald Post seconds. Motion to indefinitely postpone adopted by voice vote.

ARTICLE 34 Robert Herron moved to indefinitely postpone this article. Donald Post seconds. This was the article about the Berry Elm and Walter Crandall explained the costs of removing it if and when it dies. Jean Johnson asks if action on this could safely be postponed another year. Mr. Crandall answers, "Probably". Motion to indefinitely postpone this article adopted by voice vote.

ARTICLE 35 Theresa Herron moved to indefinitely postpone this article. Donald Post seconds. Mr. Crandall read a report from Charles Johnson stating he felt it would not be wise to try Gypsy Moth suppression by the Town. Motion to indefinitely postpone adopted by voice vote.

ARTICLE 36 Donald Post moved to indefinitely postpone this article. Vincent Bane seconds. Motion to indefinitely postpone adopted by a unanimous voice vote.

ARTICLE 37 Veronica Post moved that the Town of Northwood approve a resolution to the N. H. Housing Finance Authority regarding the construction of low income family and elderly housing units as follows: Be it resolved by the Town of Northwood that the N. H. Housing Finance Authority be and is authorized to operate in the Town of Northwood, State of N. H., that said N. H. Housing Authority is authorized to sponsor a project for low income and elderly persons under Section 8 of the U. S. Housing Act of 1937 as amended, for the following accommodations: newly constructed housing, ten 2-bedroom low income family units, five 1-bedroom elderly units. The project shall be subject to the granting of required Federal, State and Town approvals for the development. Helen Fogg seconds. William Gibson says the access road will not be allowed to cross his land. Phyllis Thomson points out that the entrance would be a busy spot on Rt. 4. Many spoke about the dangers involved such as troubles from low income families, more school children, but also we do need more space for the elderly, and more rentals for newly married who can't afford to buy or build now. Since it is now past the time for planned adjournment, Joann Bailey suggests we continue this article next Saturday. So we adjourn at 12:40 after Moderator Johnson called the C.B. Boys B.B. team, with their coach, Mark Yeaton to the podium for a rousing vote of confidence from the townspeople. It should be noted that the boys went to Plymouth along with many, many supporters and won the State Class S Championship, for the first time since 1963. When they returned that evening, they were met at the Epsom town line and given a joyful siren-blowing ride through the town on the new fire truck, escorted by police and a parade of proud parents and friends.

March 20, 1982

The adjourned meeting reopened at 9:15 by Moderator Robert A. Johnson. He read a letter from Headmaster David Smith thanking the townspeople for their support of Coe-Brown Academy last Saturday. Letter follows this report. Their trophy was displayed on the stage. Helen Johnson read a resolution: Be it resolved that the Town of Northwood congratulates Co-Brown Academy Basketball Team, staff, coaches, and student body for a successful championship basketball season. Keep it up! Resolution adopted by a unanimous vote. Next Mr. Johnson announced that there were tiles to be sold

by the Historical Society and that the Conservation Commission had a questionnaire to be filled out.

Reopened the meeting under ARTICLE 37 Mr. Mahoney, from Foss Builders is here today to answer any questions we may have. Tom Madson spoke of his concern about the impact this article could have on our town before we have had hearings and study work done on such a project. Richard Corning stated that he has spent time this past week at the HUD office in Manchester trying to find answers to the questions we had last week. He found the article has to be in a warrant at a specific builder's request. The limit on elderly assets is \$5,000.00, the rent will be quite high, although the renter pays only a part of it, and since we are already experiencing an influx of people going on welfare, he feels this would add to the list. He suggests the selectmen and/or with a committee study this project under Ch. 8 housing. He then made a motion to indefinitely postpone the motion made earlier to move the article. Jean Lane seconds. Mrs. Bailey reminds us to study things before it is too late, but Mrs. Herron wants the other side represented and look carefully, remembering that there are many poor people. R. Corning withdraws his motion to indefinitely postpone and Mrs. Lane withdraws her second. Mr. D. Post wonders whether the units are subject to taxation. Answer: Just like any other property. Jean Johnson asked if Mr. Mahoney would like to make a presentation. He replied that he did not come to do that today, only to answer any questions we might have. His company is not trying to sell this project, only that if a need is here they will try to fulfill it. Mr. Behm asks how the Housing Authority found a need, and whether our selectmen were asked about it. Answer: no. Audrey Huckins cited the bad impact a similar development had on the town of Newburgh, N. Y. and reminded us that our ancestors came to this land because it was a land of opportunity, not a welfare state. Original motion was then voted on by a Yes and No ballot. Result: Motion defeated 12 YES, 106 NO. Then some discussion followed and Richard Corning moved that the selectmen form a study committee to study Section 8 Housing and report prior to next Town Meeting. Robert Herron seconds. Motion adopted by show of hands 57 YES, 40 NO.

ARTICLE 15 Now we take up this article that was postponed. A study committee composed of Ronald St. Cyr, Chief William Shafer, Veronica Post, Donald Bassett, Robert Bailey, Walter Crandall, Lena Mead, Jean Johnson, Alan Thomson and Moderator Robert Johnson, met this past week as directed to study the lighting question. For the committee, Walter Crandall read an amendment to read: To see if the Town will vote to remove the street lights from poles numbered as follows (20 lights). List printed in Town Report with exception:

Route 4	8/85 to remain
Lake Shore Drive	80/49, 80/57, 80/59, 80/63 all to remain
Added to list to remove:	8/66 (Jeffrey Dr.) 86/21 (Main St. and Canterbury Rd.) 86/5 (Main St. and West St.)

New total - 20 lights to be removed. Poles originally listed in town report to be removed were: 820/19, 8/240, 8/229, 8/200, 8/204, 8/181, 8A/3, 8/167, 8/132, 817/3, 8/85, 8/74, 86/18, 80/23, 80/49, 80/52, 80/57, 80/59, 80/61, 80/63, 80/65, 80/67.

Robert Bailey seconds. Walter Crandall added that he feels the selectmen should do a complete review of all our lights with a view to relocating and upgrading the lights in some spots. Amendment adopted by unanimous vote. Main motion adopted by voice vote.

ARTICLE 16 Walter Crandall moved the sum of \$4,000.00 for street lighting. Robert Bailey seconds. Motion adopted by voice vote. Now back to regular order -

ARTICLE 38 Walter Crandall moved to place the fees charged for the use of the lagoon at the Northwood Reclamation Area in a Capital Reserve Fund. The monies from said fund to be used for lagoon maintenance, repairs and future replacement of present lagoons. Robert Bailey seconds. Mrs. Herron asks how it is being maintained now and Alan Thomson says there is money in the regular budget for that. Motion adopted by voice vote.

ARTICLE 39 Walter Crandall moved that the Town of Northwood express approval of a Broad Base Tax and present the results of our vote to our State Representative and our State Senator. Jean Lane seconded. seconded the motion. Donald Post spoke in favor of a broad base tax but expressed a fear that if we give our legislature a lot of money it may get all spent and we end up paying more taxes anyway. He felt a sales tax might be more fair but if we pass a broad base tax it should be designated for a specific purpose like our educational system. Walter Crandall read from a statement of Rep. John Stimmell who was unable to be present. "I would like to point out to you some of the broad base taxes we are now paying-room and meals, beer, tobacco, automobiles, interest and dividends, head tax, business profits, legacy taxes, real estate transfer taxes and innumerable license fees which are still taxes. In the meantime we are allowing the professional people, that is, doctors, lawyers, dentists and I am reliably informed over 200 airplane pilots in the 60 to 100 thousand dollars a year class are getting a free ride on our tax load." Jean Johnson spoke in favor of a broad base tax and suggests that this is just a yes or no ballot at this time so should not be restrictive and specific. Joseph Grano says that our legislature needs to know our thinking and a broad base tax is "no sin". Motion defeated by 43 YES and 65 NO.

ARTICLE 40 Walter Crandall moved that the Town authorize the Selectmen to dispose of the land and buildings thereon, formerly of Philip M. Carr, Jr., acquired by Tax Collector's Deed, to the said Philip Carr and Joyce M. Carr for the sum of \$2,281.08. Theresa Herron seconds. Motion adopted by unanimous voice vote.

ARTICLE 41 Walter Crandall moved to authorize the Selectmen to dispose of the land and buildings thereon, formerly of Michael E. Ames, acquired by Tax Collector's Deed, to the present occupant, Michael E. Ames, for the sum of \$1,171.87. Robert Herron seconds. Motion adopted by unanimous voice vote.

ARTICLE 42 Walter Crandall moved to authorize the Selectmen to dispose of the land and buildings thereon, formerly of Leon E. Jock, acquired by Tax Collector's Deed, to the present occupant Leon E. Jock, for the sum of \$1,733.35. Robert Bailey seconds.

Motion adopted by voice vote.

ARTICLE 43 Walter Crandall moved to authorize the Selectmen to dispose of the land and buildings thereon, formerly of M. Jessica Loy, acquired by Tax Collector's Deed, to the present occupant, M. Jessica Loy, for the sum of \$1,570.30. Robert Bailey seconds. Motion adopted by unanimous voice vote.

ARTICLE 44 Charles Johnson moved that the Town prohibit any member of an elected or appointed committee of the Town from becoming a paid employee of that committee. This prohibition shall not apply to a Town employee who by virtue of his knowledge of his particular employment is asked to serve on a committee as a consultant. Joseph Grano seconds. If this is passed Mr. Post says the cemetery committee would not be able to do work in the cemeteries and often they are only ones who will do it. Bruce Farr moved to indefinitely postpone this motion. Mr. Stanhope seconds. Charles Johnson recommends this action. Mr. Briggs recommends voting NO. Motion to postpone prevailed by show of hands 56 YES, 29 NO.

ARTICLE 45 Donald Post moved to authorize the Selectmen to convey property acquired by the Town by Tax Collector's Deed, by public auction or by advertised sealed bid, or in such other manner as determined by the Selectmen as justice may require. Robert Bailey seconds. Motion adopted by unanimous voice vote.

ARTICLE 46 Donald Post moved to authorize the Board of Selectmen to apply for, accept and expend money from the State, Federal or another governmental unit or a private source which becomes available during the year in accordance with the procedures set forth in RSA 31:95-6. Robert Herron seconds. Motion adopted by unanimous voice vote.

ARTICLE 47 Helen Fogg moved to authorize the Selectmen to execute Quit-Claim Deeds, and by so doing to ratify and confirm various deeds executed by previous Selectmen, which cite as their authority a vote of the March 14, 1933 Town Meeting and which convey various tracts of land and buildings acquired by the Town by Tax Collector's Deeds. Veronica Post seconds. Mr. Crandall explains that this article is to correct the failure of former selectmen to have put an article similar to Art. 45 in the warrant in the years between 1933 and 1965. Motion was adopted by unanimous voice vote.

ARTICLE 48 Charles Johnson moved to authorize the Selectmen to convey property acquired by the Town by Tax Collector's Deeds by public auction or by advertised sealed bid or in such other manner as determined by the Selectmen as justice may require and further, to approve, confirm and ratify the acts of the Selectmen on the Town of Northwood conveying various properties bought by the Town at tax sales and which deeds recite that the authority for those conveyances is a 1933 vote of the Town of Northwood and particularly to approve, confirm and ratify the acts of the Selectmen in issuing a deed from the Town of Northwood to Joseph C. Rogers and Madelienne M. Rogers dated November 28, 1964 conveying Lot #327, Harvey Lake Estates, recorded on January 15, 1965 at Vol. 1750, Page 229, Rockingham County Registry of Deeds which recites the authority of said

March 14, 1933 Town Meeting vote. Robert Herron seconds. Motion adopted by voice vote.

ARTICLE 49 Robert Herron moved to authorize the Selectmen to execute a quitclaim deed on behalf of the Town of Northwood, to Elizabeth M. Aldrich, conveying whatever interest the Town of Northwood has in three lots of land, shown as Lots #304, #306, and #308 of Harvey Lake Estates, as shown on a plan recorded in the Rockingham County Registry of Deeds as Microfilm Plan #01709, which quitclaim deed will also serve to ratify and confirm two deeds from the Town of Northwood by its Selectmen, or any of them, to Raymond H. Wilson and Mary E. Wilson, conveying said lots, which deeds are dated July 16, 1959, and are recorded in the Rockingham County Registry of Deeds at Book 1546, Page 385 (Lot #304), and Book 1546, Page 474 (Lots #306 and #308). Donald Post seconds. Motion adopted by unanimous voice vote.

ARTICLE 50 Moderator Johnson read a resolution given him at last week's session by Helen and Charles Frary who are unable to be present today.

WHEREAS: It is recognized that a thermonuclear war on this planet would wipe out all but minor vestiges of our civilization, worldwide, and would eradicate all but a few remnants of its population, aggressors and defendants and innocent bystanders, alike, and WHEREAS: It is to the advantage of all, universally, to reduce the likelihood of such a catastrophe by all possible means, in conformance with the often-expressed desires of the common people, so therefore: Be it Resolved, And it Hereby Is Resolved: That the Town of Northwood, N. H. in Town Meeting assembled, does hereby petition the Government of the United States of America, its Senators and Representatives, the President, his Cabinet and all duly constituted authority, to work toward a mutual freeze on testing, production, and deployment of nuclear arms with the Soviet Union, until an effective arms reduction plan can be worked out among world powers. Kathleen Hanson moved to approve this resolution. Frank Mitchell seconded. Motion prevailed by a show of hands 41 YES, 27 NO.

Chief Shafer moved that the Town give the Police Assn. authority to construct, and donate a garage for their cruisers at the Town Hall property. Donald Post seconds. This was followed by much discussion of the need to plan for appearance, suitable sites, and kind of building. Other departments cited needs for expansion. So Chief Shafer withdrew his motion and moved that the selectmen appoint a study committee to look at the long range needs of all departments of the Town that are running out of space and to report to the budget committee and to our next Town Meeting. Jean Lane seconds. Walter Crandall notes that people are eager to appoint committees to solve problems but reluctant to serve on those committees. Motion adopted by voice vote.

Moderator Johnson applauds the Town for their action taken last week to support the B.B. team and for their orderly conduct of the business today. The Town Clerk would like to add her expression for the good feeling that prevailed today, without the bitterness that sometimes prevails. Robert Herron moved to adjourn the meeting. Donald Post seconds. Meeting adjourned at 12:32 P.M.

The State of New Hampshire

The Polls will be open from 10:00 A.M. to 7:00 P.M.

To the Inhabitants of the Town of Northwood in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Town Hall in said Northwood on Tuesday, the eighth day of March, next at ten of the clock in the forenoon, to act upon the following subjects:

1. To choose all necessary Town Officers for the year ensuing.
2. To see if the Town will vote to adopt an ordinance relative to the prohibition of occupancy of self-contained camper trailers for year-round habitation.
3. To see if the Town will vote to adopt an ordinance requiring the public to obtain a permit for an amusement center with amusement devices.
4. To see if the Town will vote to adopt an ordinance to prohibit parking in no parking areas as defined in RSA 265:69 and RSA 265:71.
5. To see if the Town will vote to adopt an ordinance regulating the conversion of seasonal dwellings to year-round dwellings.
6. To see if the Town will vote to amend Article III, Regulations, A. 4. (a) of the Ordinances of the Town of Northwood to increase the minimum requirements for lakefront lots.

Given under our hands and seal, this ninth day of February, in the year of our Lord nineteen hundred and eighty-three.

TOWN WARRANT

The State of New Hampshire

To the Inhabitants of the Town of Northwood in the County of Rockingham in said State, qualified to vote in Town Affairs:

You are hereby notified to meet at Coe-Brown Northwood Academy in said Northwood on Saturday the 12th day of March next at nine of the clock in the forenoon to act upon the following subjects:

1. To raise such sums of money as may be necessary to defray Town Charges for the ensuing year and make appropriations of the same (\$195,677.00).

2. To see if the Town will vote to raise and appropriate the sum of \$1500.00 to engage the services of a firm to conduct a computer survey, and to appoint a citizen committee to work with the professional firm. (Not recommended by the Budget Committee)

3. To see if the Town will vote to appropriate and authorize the withdrawal of \$24,345.86 from the Revenue Sharing Fund established under the provisions of the State and Local Assistance Act of 1972, for the following purposes, or take any other action it deems necessary:

Town Hall	Smoke Detection System	\$2500.00
	Record Room completion and Evidence Room renovations	500.00
	Police Dept. expansion	<u>2000.00</u>
		\$5000.00
Library	Painting at Bryant	\$ 700.00
Police Department	Cruiser	\$6400.00
	Protective Equipment	<u>2500.00</u>
		\$8900.00
Cemetery Trustees	Road Construction	\$ 647.47
Fire Department	Equipment	\$1800.00
	Keystone Valves	1500.00
	Deluge Nozzle	1400.00
	2 Pagers	<u>600.00</u>
		\$5300.00
Rescue Squad	Portable radio	\$1600.00
	4 Pagers	<u>1200.00</u>
		\$2800.00
General Expense - Highway	Culvert, etc.	\$ 998.39

15. To see if the Town will vote to raise and appropriate the sum of \$6150.00 for the Northwood Rescue Squad and Ambulance.

16. To see if the Town will vote to raise and appropriate the sum of \$5,085.42 for the purpose of Town Road Aid, the State's share to be \$4,422.10 and the Town's Share to be \$663.32.

17. To see if the Town will vote to raise and appropriate the sum of \$6,829.00 for the Town's per capita share of the Rural District Health Council, Inc.

18. To see if the Town will vote to transfer \$3,000.00 from the revenue of the Municipal Court to the Highway Safety Equipment Capital Reserve Fund.

19. To see if the Town will vote to raise and appropriate the sum of \$26,300.00 for new construction. The \$26,300.00 is comprised of \$7381.50 of Town money, \$11,502.31 Highway Subsidy money and \$7416.19 Special Highway Subsidy Funds.

New Construction Breakdown:

Harvey Lake Road	\$12,000.00
Priest Road	4,000.00
Tasker Hill Road	2,500.00
Canterbury Road	4,000.00
High Street	2,000.00
Bridges (2)	1,800.00

20. To see if the Town will vote to raise and appropriate the sum of \$8891.00 for the operation and maintenance of the Northwood Recycling and Reclamation Area.

21. To see if the Town will vote to raise and appropriate the sum of \$3,225.00 for Planning Board expenses.

22. To see if the Town will vote to raise and appropriate the sum of \$250.00 for Board of Adjustment expenses.

23. To see if the Town will vote to raise and appropriate the sum of \$980.00 for Conservation Commission expenses.

24. To see if the Town will vote to raise and appropriate the sum of \$800.00 for the Newmarket Regional Health Center.

25. To see if the Town will vote to raise and appropriate the sum of \$4497.00 to be placed in the Town Ambulance Capital Reserve Fund.

26. To see if the Town will vote to raise and appropriate the sum of \$1500.00 for the fee compensation and expenses of the Building Inspector.

27. To see if the Town will vote to raise and appropriate the sum of \$100.00 for the Merrimack Day Care Center. (Not recommended by the Budget Committee)

28. To see if the Town will vote to raise and appropriate the sum of \$300.00 for Child and Family Services of New Hampshire. (Not recommended by the Budget Committee)

29. To see if the Town will vote to raise and appropriate the sum of \$2,000.00 to be added to the Highway Equipment Capital Reserve Fund. (Not recommended by the Budget Committee)

30. To see if the Town will vote to authorize the Selectmen to hire a Certified Public Accountant for the purpose of auditing the Town accounts for the year 1983 as required by U.S. Treasury Department - Revenue Sharing.

31. To see if the Town will vote to raise and appropriate the sum of \$3,622.00 to be used to finance the Town of Northwood's share in the purchase of a spare rubbish hauling container.

32. To see if the Town will vote to raise and appropriate the sum of \$10,200.00 to prepare and hot top the entrance to the existing highway garage, the parking between the Town Hall and Center School, the driveway and parking area used by the Police Department. (Not recommended by the Budget Committee)

33. To see if the Town will vote to require that the Town accounts be audited by a Certified Public Accountant beginning in 1984, thus eliminating the election of Town Auditors.

34. To see if the Town will authorize the Selectmen to award a franchise for provision of cable television service in Northwood as provided for under RSA 53-C subject to that franchise satisfactorily protecting the interest of the Town. (This Article recommended by the Town Cable Television Committee)

35. To see if the Town will authorize the Selectmen to take action to obtain appropriate property in the vicinity of the Narrows suitable for future construction of a fire station, also incorporating space for police functions. This authorization to the Selectmen to include authority to arrange contingent purchase and sale agreements to be brought to a subsequent Town Meeting for action.

36. To see if the Town will vote to authorize the Conservation Commission to retain any unexpended portion of its 1983 appropriation, said funds to be placed in the Conservation Commission's Savings Account, in accordance with RSA 36-A:5.

37. To see if the Town will vote to go on record in support of immediate action by the Federal Government to control and reduce acid rain which is harmful to the environment and economy of New Hampshire and to the health and welfare of the people of New Hampshire. These actions shall include:

1. Reduce by at least half the major cause of acid rain, sulfur dioxide emissions, by the year 1990.

4. To see if the Town will vote to accept the recommendation of the Space Needs Committee to construct an appropriate building at the Disposal Area for the purpose of housing highway maintenance equipment and functions. The building to be constructed is to be a three bay 36' x 48' wood framed gable-ended pole building with one bay enclosed, having pressure treated 2" x 6" firstline girt, horizontal girt style framing, wind and corner bracing, shiplap pine siding vertically installed, metal roof, one personnel entrance door and one overhead 10' x 12' door, and such additional features/additions such as to also provide State required housing for stray animals, and appropriate and authorize the withdrawal of \$16,500.00 from the Revenue Sharing Fund established under the provisions of the State and Local Assistance Act of 1972, for that purpose.

5. To see if the Town will vote to remove from the Highway Safety Equipment Capital Reserve Fund up to \$5600.00 to be used in conjunction with the \$6400.00 of Revenue Sharing Funds, for the purpose of purchasing a completely equipped police cruiser.

6. To see if the Town will vote to raise and appropriate the sum of \$20,446.00 as its share of the capital cost, with interest, for the incinerator and energy recovery facility as set forth under the Agreement for Formation of the Lamprey Regional Solid Waste Cooperative, and to allow the Selectmen to accept Federal or State, and other grants that may be available to the Town in providing its share in the project.

7. To see if the Town will vote to authorize the Selectmen to borrow money in anticipation of taxes and vote to raise and appropriate the sum of \$10,000.00 for interest on same.

8. To see if the Town will vote to raise and appropriate the sum of \$10,360.00 for the Northwood Public Libraries.

9. To see if the Town will vote to raise and appropriate the sum of \$11,775.00 for Parks and Playgrounds.

10. To see if the Town will vote to raise and appropriate the sum of \$650.00 for the care of cemeteries.

11. To see if the Town will vote to accept and expend monies received from the Motor Vehicle Transfer Fees - Highway Fund.

12. To see if the Town will vote to raise and appropriate the sum of \$86,751.61 for Town Highways. (Summer \$46,000.00, Winter \$34,500.00, Motor Vehicle Transfer Fees - Highway Fund \$4,000.00, General Expenses of Highway Department \$2,251.61)

13. To see if the Town will vote to accept the recommendations of the Street Lighting Committee, established by vote of the 1982 Town Meeting.

14. To see if the Town will vote to raise and appropriate the sum of \$3600.00 for Street Lighting.

2. Conclude negotiations and adopt a treaty with the government of Canada that will commit both nations to this same goal.

The record of the vote on this article shall be transmitted to the New Hampshire Congressional Delegation and to the President of the United States. (By Petition)

38. To see if the Town will vote to go on record in support of the adoption of a returnable container system for the State of New Hampshire. The record of the vote on this article shall be transmitted to the New Hampshire General Court.

39. To see if the Town will vote to close for swimming purposes, the Lucas Pond Public Beach, located between the Lucas Pond Road and Lucas Pond.

40. To see if the Town will vote to authorize the Selectmen to convey property acquired by the Town by Tax Collector's Deed by public auction or by advertised sealed bid, or in such other manner as determined by the Selectmen as justice may require.

41. To see if the Town will vote to authorize the Board of Selectmen to apply for, accept and expend money from the State, Federal or another governmental unit or a private source which becomes available during the year in accordance with the procedures set forth in RSA 31:95-6.

42. To see if the Town will vote to accept the report of the Housing Committee, established by vote of the 1982 Town Meeting, as it appears in the Town Report.

43. To transact any other business that legally may come before said meeting.

Given under our hands and seal this 9th day of February in the year of our Lord nineteen hundred and eighty-three.

REPORT OF THE CEMETERY TRUSTEES

For the year ending December 31, 1982

SALE OF CEMETERY LOTS

There were no sales of lots this year.

WORK ACCOMPLISHED

Work continued in the rear of Pine Grove to prepare the land for use as a cemetery.

The following was accomplished:

- a. Many of the trees in the right rear were removed.
- b. The drainage ditch which cut through the center of the cemetery was relocated to a site along the rear wall.
- c. The road was extended to complete the second loop as is continued on the master plan. Although the road was extended, it is not completed and still needs fill, grading and to be blacktopped.
- d. A center area was raised by filling with loam. This area will now be seeded and maintained as the primary sales area.

UPDATE ON LOT AVAILABILITY

As a matter of record, 78 full lots have been sold to residents. Approximately 45 lots are available and in useable condition. The balance, approximately 150 lots, are in unuseable condition. It is the long range plan of the committee to upgrade specific sections of the land on an as required basis. By its actions at Town Meeting the Town appears to agree with this approach.

LOSS OF CEMETERY TRUST FUND

We are taking this opportunity to notify you that during midyear the State Department of Revenue Administration decided that the Town's cemetery trust fund was not legal, and ordered the Trustee of Trust Funds to terminate the trust and forward the proceeds therefrom to be deposited in the Town general fund. The amount so deposited was \$3,352.53. It was the Town's stated intent that the money in the trust be used for the purpose of cemetery upkeep, and the purchase of future land. We have requested the Selectmen appropriate from surplus a like amount for use in completing the road work in Pine Grove Cemetery.

NEED FOR A TOWN VAULT

The time is coming when the Town will no longer be able to secure space in vaults in neighboring towns for the storage of deceased persons. We should begin to give serious consideration to the construction of a town owned vault. The present vaults that exist in various communities are too old, too small, and too

inconvenient to be considered for use today. The Town should consider the construction of a modern vault on the grounds of Pine Grove Cemetery.

THANK YOU

We wish to thank those who worked to make our cemeteries look nice, gave funds for their care, or merely gave words of support and appreciation for our efforts.

A special vote of thanks is due Sherman Elliott and Lawrence "Larry" Elliott, our caretakers, for several years now, for the excellent attention they have given to our cemeteries.

Respectfully submitted,

Donald E. Post, Chairman
Herbert A. Sherman
Lawrence Elliott

NORTHWOOD CONSERVATION COMMISSION 1982 REPORT

TOWN LAND

A Town Land Committee was formed, and its responsibilities have included marking boundaries, establishing trails, encouraging public use of land and overall management of town forest lands. Work is progressing on marking marketable timber on School Lot, Lucas Pond.

The Commission, through negotiations with property owners, state and local officials, and other parties, succeeded in retaining a cross section of the trunk of the Berry Elm tree for the town, at no cost. The elm had been the largest tree in N. H. until its death this year. The Commission also acquired 1/3 of the large branches for the town.

In October, the Commission sponsored the 3rd Annual Mountain Day guided hike up Saddleback Mt. This marked the completion of clearing trails and an overlook that provides a view to the north and the west. Certificates of Award were presented to Boy Scout Troop #312 and to White Eagle 4-H Club for their volunteer work on two Saddleback workdays in September and April.

The Commission began negotiations for possible acquisition of land for the town on Saddleback Mt.

The Commission began researching a possible aquifer in Northwood as a potential future water resource.

SCHOLARSHIP

The Commission raised funds and provided a scholarship for Donald Allard of Northwood to attend the Society for the Protection of N. H. Forests' Youth Conservation Camp in June. The Commission also awarded Joel Parsons of Northwood a Special Conservation Award of membership in the National Wildlife Federation.

PUBLIC INFORMATION PROGRAMS

In October, the Commission co-sponsored with the Library Trustees "Yesterday Again: N. H. Energy Tomorrow", a slide lecture on residential energy conservation.

The Annual Arbor Day program in May included planting and pruning demonstrations, the addition of 2 high-bush blueberry bushes and the relocation of 3 spruce trees on the town parade with the help of the F.F.A. and the Co-operative Extension Service.

In February, the Commission sponsored a public awareness program on Acid Rain presented by the Citizen's Task Force on Acid Rain.

A questionnaire was developed to determine the concerns of townspeople regarding conservation issues.

OTHER

A Committee was formed that will work with members of the Coe Brown F.F.A. who will be supporting Commission projects with volunteer help in the coming year.

A Commission member has been monitoring acid rainfall in Northwood as part of a statewide monitoring effort by the Citizen's Task Force on Acid Rain.

Two members of the Commission attended the annual meeting of the N. H. Association of Conservation Commissions and participated in workshops on state water resources policies and procedures, ground water resources and natural areas inventories.

Other projects included attending Planning Board meetings and review of dredge and fill applications.

The Commission voted to support returnable beverage container legislation.

NORTHWOOD FIRE DEPARTMENT REPORT

The year 1982 brought a welcome 15% decrease in emergency responses for the Fire Department. The Fire Department responded to 144 emergency calls which is 26 less than 1981 and does not include the medical calls the ambulance responded to.

BREAKDOWN OF CALLS

	1982	1981	1980	1979
Structural Fires	13	21	12	16
Chimney Fires	19	19	21	15
Motor Vehicle Fires	7	4	7	3
Motor Vehicle Accidents	19	28	23	20
Mutual Aid	40	44	43	39
Smoke Investigation	4	9	7	2
Brush or Grass Fires	10	17	13	27
Dump Fires	7	2	9	8
Wires Down	8	5	4	6
Rescue	10	8	1	7
Assist Public	3	7	7	12
Miscellaneous	4	6	18	2
Total	144	170	165	157

A major reduction has occurred in structural fires and motor vehicle accidents which are considered the two most serious emergency calls that the Department responds to.

A review of the fires indicates that of the thirteen structural fires only one was a major loss. Nine of the fires were confined to minor damages and three were quickly under control due to the well trained and quick actions of the Fire Department. Of the nineteen chimney fires reported to the Department, four had the potential of becoming structural fires if not controlled by the Department.

During 1982 a total of 5,400 man hours were provided to the Town for emergencies, training and work details which is more than 200 hours per firefighter. Fire prevention again has been stressed under the leadership of Deputy Paul Colby.

Firefighter and officer training continued to be important during 1982 under the leadership of Captain Calef. During 1982 two additional firefighters have obtained State Certification for a total of six. The training program has utilized both in-house training and outside schools and seminars. An aggressive training program is necessary if the Department is to provide the level of service that the town deserves.

The Fire Department is particularly proud of the cooperation that is continually received from the Rescue Squad, Police Department and Road Agent, but most importantly the citizens of Northwood.

I express my sincere appreciation to the officers and fire-fighters of the Department for their dedication in serving the Town. I especially commend the wives and families of the firefighters for their sacrifices during 1982 and thank the Town for their continued support.

Sincerely,

Donald E. Bassett
Chief of the Department

REPORT OF TOWN FOREST FIRE WARDEN AND STATE FOREST RANGER

Forest fire prevention, our business, your business, good business! This slogan has been the motto of the N. H. Division of Forests and Lands, Forest Fire Service since 1909 when the first forest fire laws were passed by the Legislature.

These laws set in place a cooperative forest fire protection program of State and local forest fire personnel that has, in the past 75 years, established New Hampshire as a leader in forest fire prevention and control. Our annual acreage loss to forest fires of one-half acre per fire is the best in the nation. This fire record has come about through the cooperative efforts of our state/town forest fire protection program. The state provides detection of fires, training for local forest fire wardens, low cost forest fire suppression equipment to local fire departments, and technical advice at the fire ground. Local governments provide the volunteer fire fighters who are appointed as wardens and deputy wardens and who respond quickly to suppress reported forest fires.

This program has resulted in a steady decline in annual acres lost to forest fires since 1910 when the average fire burned 33 acres compared to the modern day loss of one-half acre per fire.

Only by the continued cooperation of the State/towns and our entire citizenry can this record be maintained.

BRYANT CHESLEY LIBRARIES

ANNUAL REPORT 1982

The Bryant-Chesley Libraries were co-sponsors for two programs held at Town Hall this past year. In May, a Robert Frost program entitled "Birches, Stonewalls, and Telephone Poles" by William Ewert was made possible with financial assistance from the Harvey Lake Women's Club and the Northwood Historical Society. October was the time that Professors William Tatara and William Neikam of Plymouth State College presented an illustrated lecture "Yesterday Again: New Hampshire and Energy Tomorrow," a humanistic approach to solving the energy crisis. This program was co-sponsored by the Northwood Conservation Commission and through a grant from the National Endowment for the Humanities. Approximately 50 people attended these two events.

The children have participated in 40 Friday afternoon craft programs at the Bryant Library in Northwood Narrows and 22 film programs held at each library. A non-competitive summer reading program, entitled "Road to Adventure", had 36 enthusiastic youngsters chart their own road. The "Little Red Wagon", from the Children's Theater at the University, was welcomed in July for its annual visit. Despite a conflict with the swimming program, 45 children were on the lawn at the Chesley Library for the live performance. Classes from the Center School visited the Chesley Library in May and during Children's Book Week in November. The first and second grade at the Brookside School went to the Bryant Library for special stories during National Library Week in April.

The Librarian presented a program of book reviews for Harvey Lake Women's Club and six talks on library service and resources to classes at Coe-Brown Academy. She attended the spring conference and fall workshop of the New Hampshire Library Association.

Trustees Theresa Herron and Jean Johnson also attended the spring conference at which Trustee Johnson was elected director to the executive board of the New Hampshire Library Trustee Association. She was able to attend the association's fall workshop entitled "Library Awareness".

Pointing the chimney and resurfacing the steps at the Chesley Library was the basic maintenance planned and accomplished in 1982. However, water was discovered in the 28 year old oil storage tank during the routine cleaning which necessitated emergency installation of a new 500 gallon tank.

The Trustees, the Librarian and volunteers have continued the cataloging project at the Chesley Library. More than 480 hours have been contributed by Theresa Herron, Jean Johnson, Laurie Lalish, Eleanor Merrill, Sarah Shaw, Shirley Smith and Librarian Gladys Gardner in the past year. Nearly 100 hours of technical assistance has been received from the Extension and Library Development Division of the New Hampshire State Library. Revenue Sharing Funds are being utilized for the necessary materials.

The Northwood libraries were the recipients of a bequest from the estate of Frank Gfroerer who resided on Jenness Pond Road. Three double face bookcases (ordered from N. H. State Prison) for the Chesley Library, a paperback book rack and rolling stool for the Bryant Library, and bookends for both libraries were purchased with this gift.

Seven hundred twenty one books have been added to the libraries through appropriated monies, trust funds and gifts. The Librarian and Trustees are most appreciative to the Harvey Lake Women's Club, the Saddleback Mountain Lion's Club, Northwood Historical Society, Northwood Conservation Commission and individuals who have donated books, magazines, games, materials and time to the Bryant-Chesley Libraries of Northwood.

Northwood Board of Library Trustees

REPORT OF THE NORTHWOOD PLANNING BOARD

The Subdivision Regulations and Ordinances for the Town of Northwood were reprinted in 1982 to reflect numerous changes and additions that have been made since the regulations were last printed in 1979. The Subdivision Regulations and Ordinances have been put into booklet form, which is very convenient for reference.

The Planning Board held 10 subdivision hearings during 1982. Five of these subdivisions required referral to the Board of Adjustment for variances due to lack of frontage on town accepted roads, as property on private roads is now being developed more frequently. One public hearing was also held for the addition of an Expedited Review Procedure and minor changes to the Subdivision Regulations prior to printing.

The Planning Board will present to the voters of Northwood in 1983 ordinances to increase the minimum lot size and frontage requirement for lakefront lots, new camper trailer requirements, and regulation of the conversion of seasonal dwellings to year round residences.

Respectfully submitted,

William T. Wormell
Chairman

NORTHWOOD RESCUE SQUAD REPORT

The Northwood Rescue Squad responded to a total of 163 calls during the year 1982. These calls consisted of 154 medical emergencies, 7 structure fires, and 2 searches (one for 3 missing children and 1 for a person missing in Northwood Lake). A total of 154 patients were treated with 116 being transported to area hospitals. Hospitals serviced were: Concord Hospital - 85 patients; Frisbee Hospital in Rochester - 13 patients; Wentworth-Douglas Hospital in Dover - 5 patients; Exeter Hospital - 4 patients; Veteran's Hospital in Manchester - 4 patients; Portsmouth Hospital - 2 patients; and 1 patient each to Elliott Hospital in Manchester, Catholic Medical Center in Manchester, Pease Air Force Hospital in Newington.

Accident related calls were as follows: automobile/pedestrian accidents - 2 (2 patients); automobile accidents - 17 (23 patients); aircraft crash - 1 (1 patient); and boating accidents - 1 (1 patient).

The Northwood Rescue Squad responded on requests for Mutual Aid to Nottingham 17 times; Epsom 11 times; Deerfield 3 times; Pittsfield once; and Strafford once. The Northwood Rescue Squad received mutual aid twice from Center Barnstead Ambulance; 3 times from Epsom Rescue Squad; and once from Durham Rescue for a MV accident in Nottingham.

The 23 volunteer member squad donated approximately 1,000 man hours for calls alone, which does not include the hours spent on administration, ambulance upkeep, maintaining equipment, or training. Each member also participated in numerous training sessions and advanced life support techniques. The members of the squad donated their time generously at the following town events: Lion's Club Flea Market selling popcorn; Potter's Corner Craft Fair selling salad pouches for 2 days; Snowmobile Water Ride at Lake Shore Farm; Walk-a-Thon for Hunger; and other events throughout the year.

The Northwood Rescue Squad would like to thank the members of the community for their continued support, both financially and morally.

REPORT OF THE NORTHWOOD ROADS COMMITTEE

The following is a summary of the work that was accomplished on Town roads in 1982:

1. Graded and raked all graveled roads.
2. Graveled approximately 1 1/2 miles of Town roads.
3. Shimmed and surfaced treated about 5 miles of Town roads.
4. Brush was cut on side of roads.
5. Mountain Road is now ready for seal which will be done under Summer Maintenance.
6. Old Pittsfield Road is now ready for seal which will be done under Summer Maintenance.
7. Pender Hill Road is now ready for seal which will be done under Summer Maintenance.
8. Lower Deerfield Road is being worked on and if the weather holds out should be completed.

The Northwood Road Committees' three (3) year road plan is as follows:

1983

1. Reconstruct Tasker Hill Road from where surface stops to the Strafford line.
2. Reconstruct Priest Road.
3. Reconstruct Old Canterbury Road from Rt. 107 to just past third house on right and put gravel on the rest of the road on up thru to Main St.
4. Prepare and tar Harvey Lake Estates.

1984

1. Shim and resurface Range Road & Cross St. on tarred area.
2. Reconstruct Blakes Hill Road from Anthony's to Wallmans corner.

1985

1. Reconstruct Green Street
2. Reconstruct Lucas Pond Road

Respectfully submitted,

Ron St. Cyr, Chairperson
Stephanie Buzzell, Secretary
John Lane
Jay McCartin
Perry Richardson, Road Agent

Proposed 1983 budget accepted by Northwood Roads Committee:

Summer:

Seal and Sand	20,748.00	
Gravel	2,000.00	
Mix for Patch	22,000.00	
Machinery	12,000.00	
Labor	2,000.00	
Brush Cutting	3,700.00	
Bridge Repairs - Pender Hill and Canterbury Road	<u>1,800.00</u>	
		Total: 64,248.00

New Constr. & Repairs:

Reconstr. Tasker Hill Road from where surface stops to the Strafford line.	2,500.00	
Reconstr. Priest Road	4,000.00	
Reconstr. Old Canterbury Road from Rt. 107 to just past third house on right and put gravel on the rest of the road up thru Main Street	4,000.00	
Prepare and tar Harvey Lake Est.	12,000.00	
Reconstr. High Street	<u>2,000.00</u>	
		Total: 24,500.00

Winter:

Sand	2,720.00	
Salt	1,500.00	
Plowing and Tires for Equip.	<u>30,280.00</u>	
		Total: 34,500.00

General Expenses:

Gasoline	600.00	
Oil-Grease	30.00	
Repairs-Truck	300.00	
Sander Reprs.	250.00	
Culverts	1,000.00	
Equip. Rental	200.00	
Misc.	500.00	
Pager	<u>270.00</u>	
		Total: 3,150.00

Total proposed budget for 1983: \$126,398.00

This is an increase of \$10,048.00 over last years budget, and is believed to be within reason of the inflation.

LAMPREY REGIONAL SOLID WASTE COOPERATIVE

The Directors of the Lamprey Regional Solid Waste Cooperative are pleased to report that the incinerator/energy recovery plant on the University of New Hampshire campus is operating on a continuing 24-hour, seven day a week schedule. Since our last report in 1982, the Directors have continued to plan ahead for improvements in operation and economy, and are able to report a number of completed and on-going programs to that end.

The day-to-day operation is carried out under the supervision of the Cooperative's Administrator, under the general supervisory control of the three-member Operations Committee from the Joint Board of Directors. The plant personnel, in addition to the Administrator, includes two mechanics, a truck driver, two daily shifts of 12 hours each involving 8 persons, plus a daily cleanup crew. This organization operates the incinerator system, maintains records, and coordinates with the University's Power Plant staff to monitor the boiler and steam production elements of the plant. The Cooperative's organization also handles the collection of refuse from the transfer stations of five communities, and handles the ash removal and its transfer to the landfill site.

During the past year, under the supervision of the State Bureau of Solid Waste, and the Environmental Protection Agency, stack tests for air pollution control were conducted for all three furnaces and were quite successful in achieving emissions control well below required standards. Also, during the spring and summer, the study of potential alternate uses of energy was completed with funds obtained under a CEIP grant administered by the Office of State Planning in New Hampshire. The study recommendations suggested strongly that the installation of a modular turbine and electric generator would result in the utilization of excess steam during the summer months, with a substantial payback from electric generation. Negotiations are presently underway to install a 25,000 lb/hour turbine to generate electricity year round and yet utilize the by-passed steam for normal heating purposes.

Arrangements are also being consummated with the N. H. Water Supply and Pollution Control Commission to incinerate oil spill debris where contamination occurs in the Seacoast area. A new concrete floor at the plant to insure protection against oil spillage will be funded under this program, and will be constructed in early spring.

The Town of South Berwick, Maine has voted to join the Cooperative as a member, and legal arrangements are under way in both states to permit the Maine town to join with us. A number of other communities have expressed an interest in bringing their household waste to Durham, while we still have capacity for additional refuse. We also have been working cooperatively with the City of Portsmouth's plant at Pease Air Force Base to the benefit of both plants.

The Directors of the Cooperative wish to express their deep appreciation for the assistance given their efforts by the University's staff as well as the officers and personnel of the cooperating towns. Every effort will be continued to keep the residents of the

region informed of the progress in the collection, processing and disposal of the waste which is being handled at the plant.

REPORT OF THE
NEWMARKET REGIONAL HEALTH CENTER

The Newmarket Regional Health Center completed its eleventh year of service in 1982. The health center operates two medical offices, one in Newmarket and the other in Raymond, the Lamprey River Clinic. Both facilities provide general medical care, preventive health services, community outreach, social services, and short term counseling with referral to area mental health agencies.

In 1982, Maude Guerin, M.D., an obstetrician/gynecologist, joined the staff. Dr. Guerin now provides prenatal, delivery and post partum care. In addition, the health center offers nutritional counseling and prenatal classes.

Other members of the medical staff include Sarah Oxnard, M.D., Peter Friedensohn, M. D., Michael Lewis, R.P.A., Barbara Janeway, M.S.N., A.R.N.P., and Anne Fawcett, A.R.N.P. The medical team also includes registered nurses, medical assistants and community health workers. For more information, or to make a medical appointment, call 659-3106 in Newmarket, 895-3351 in Raymond, or toll-free in Newmarket at 1-800-582-7279.

The community health workers coordinate a school health program and preventive screening clinics to detect potential health hazards. They hold informative workshops and act as liason between the medical providers and the patient.

In November, 1982, the Newmarket Regional Health Center initiated a self-care program for the elderly in conjunction with the Occupational Therapy Department of the University of New Hampshire. The purpose of this program is to enable the elderly to stay in their home setting as well as to maintain a quality of life and independent status within their community. The focus of the program is to provide self-care skills before disability occurs and to anticipate problems with functional activities. Contact Anne Fawcett, A.R.N.P., at 1-800-582-7279 for further information.

The Newmarket Regional Health Center continues to operate the Senior Citizen Transportation Program. Three of the four busses are equipped with hydraulic lifts to provide services to the handicapped. The transportation service enables senior citizens to remain independent, self-sufficient and active by providing the needed services, including medical, food shopping and recreational trips. For more information, or to arrange a ride for a senior citizen, call 659-2424 or toll-free 1-800-582-7279.

The Newmarket Regional Health Center wishes to express its deepest appreciation for the support of the town of Northwood.

Respectfully submitted,

Ann H. Peters
Executive Director

RURAL DISTRICT HEALTH COUNCIL, INC.

ANNUAL REPORT - 1982

The Rural District Health Council continues as a certified Home Health Agency covering nine towns - six in Strafford County and three in Rockingham County.

The priority service is the care of the sick program which includes visiting nurses, home health aide, physical, occupational and speech therapy, providing visits in the patient's home.

A maternal and child health program is offered to all children from any of the member towns, and includes physicals, immunizations, teaching and counseling for ages 0-6 years. It also provides home visits to newborns on request and any follow-up care as needed. Children have gained greatly from prevention and treatment of communicable disease.

A dental program is also provided by the MCH program and the pre-school dental services held for children 3-6 years, which includes cleaning and flouride treatments twice a year with referrals to local dentists as needed. The program also works closely with the Women & Infant Children Nutrition Program and the Strafford County Pre-Natal and Family Planning Program.

The agency also holds monthly adult health maintenance program which provides blood pressure checks, diabetic and anemia screenings, nutrition counseling, special diet and weight control. The first Wednesday they are held at the Farmington Town Hall, the second Wednesday at the Town Hall in Northwood at 1:00 P.M., the third Wednesday they are in Barrington at the Catholic Community Center starting at 11:00 A.M.- and the fourth Wednesday they are held in Milton at the Milton Health Center starting at 1:00 P.M. All screenings continue until all patients have been seen. The program is open to anyone in the area. Most heart disease and stroke cannot be explained or predicted.

The Rural District Health Council cooperates with other agencies in the area to provide a continuation of good health and social services to its' member towns.

The Rural District Health Council with the cooperation of Frisbie Memorial Hospital provides a discharge referral coordinator. The hospital funds this program in part with the Council. 236 referrals have been made in the past 10 months.

The Board of Directors has been investigating the relocating of the office to become accessible to the handicap. In June the agency was contracted by Christopher Kenyon from Am Tek Corporation to lease a building at 37 No. Main St., Farmington, N.H. He graciously remodeled the building to meet our needs and on August 2, 1982 the agency moved. As Director of the agency, on behalf of the staff, we would like to thank everyone for all their help and support in making this move possible. The clinics have improved in privacy and efficiency with noticeably less confusion for administrative staff.

On September 7, 1982 an answering service was implemented for patients being cared for by the agency. A nurse is available 24 hours a day, 7 days a week for reassurance and to answer any questions which the patients or the family may have. Home visits are made as indicated.

The Council employs dedicated staff who many times devote themselves above and beyond the call of duty reflecting the nurse who cares for people. Staff nurses include: Mary Timmons, R.N., Patient Care Coordinator, Arlene Thorne, R.N., MCH Coordinator, Paula Davis, R.N., Elderly Screening Coordinator and MCH staff, Jean Germer, R.N., Discharge Coordinator. Staff nurses in care of the sick program are - Betty Coons, R.N., Myrtle Walsh, R.N., Alice Ziegler, R.N., Dotty Demmons, R.N., Sally Sublette, R.N., Joann Pearson, R.N., and Joan Menez, LPN,; Renee' Wormell and Gail LaRosa are fulfilling the duties as Home Health Aides, while Junellen Chase handles the office duties as Administrative Assistant.

The agency receives funds from grants, United Way, town appropriation, medicare, medicaid, and private insurances. A bequest to the Council may be made either for unrestricted use in furthering the general purpose of the Rural District Health Council or for such special or restricted purposes as the donor may desire. Memorial gifts become a lasting honor to the memory of someone special such as a relative or friend. An acknowledgement is sent to the family without disclosing the amount of the gift. All gifts to the agency are deductible for estate and income tax purposes. Within the past year the agency has received donations in memory of: Joseph Berry, Clarence Fairchild, John Griffith, Arlene Lawrence, Max Metzger, Louis Russo, Charles Whitehouse, and Lillian Williams.

This year has been a year of facing some cuts in funding and with the medicare audit resulting in an agency pay back in April. The Board of Directors has voted to increase the per capita cost by 10¢, a result of \$3.10 per-capita for fiscal year 1983. The total population has increased by 1,011 residents.

During the past year the Council has made for your town 177 skilled nursing visits, 48 home health aide visits, and 54 therapy visits; there have been 72 child health home visits and 146 children have attended the Child Health Program.

Anyone interested in additional information or needing services may contact the Rural Health Council, PO Box 563, 37 No. Main St., Farmington, N.H. 03835, or telephone 755-2202 between the hours of 8 - 4 P.M., Monday - Friday.

PETITION FOR AN ARTICLE IN THE TOWN WARRANT FOR 1983

TOWN OF NORTHWOOD, NEW HAMPSHIRE

We, the undersigned, being legal voters in the Town of Northwood, do hereby petition the Board of Selectmen of said Town, to place the following article on the warrant for the 1983 annual meeting:

"To see if the town will vote to go on record in support of immediate actions by the Federal Government to control and reduce acid rain which is harmful to the environment and economy of New Hampshire and to the health and welfare of the people of New Hampshire.

These actions shall include:

1. Reduce by at least half the major cause of acid rain, sulfur dioxide emissions, by the year 1990.
2. Conclude negotiations and adopt a treaty with the government of Canada that will commit both nations to this same goal.

The record of the vote on this article shall be transmitted to the New Hampshire Congressional Delegation and to the President of the United States."

REPORT OF THE SPACE NEEDS STUDY COMMITTEE

In response to the wishes of the voters of Northwood expressed at the 1982 Town Meeting, the Selectmen on March 25, 1982 established and appointed members of a Space Needs Study Committee.

Among the space needs prompting the establishment of this committee were those of the Police Department for administrative, retention, evidence holding and vehicle maintenance, and those of the Fire Department highlighted by the basic inadequacy of the station at the Narrows and the general problem of equipment location versus responsiveness to the various parts of Northwood. The committee immediately found that treatment of these needs became inextricably involved with questions about Highway Department functions and Rescue/Ambulance functions in both the relatively near-term (one to five years) and the longer term wherein the Town can expect significant growth as depicted in the 1979 Town Plan.

In its examination of the space needs and the issues related to them, the committee arrived at certain fundamental conclusions as follows:

1. There were serious deficiencies with respect to space provided to the Police Department. Adequate protection of the rights of arrested persons, protection of evidence, and protection of Town owned property (vehicles) were deemed the most important.

2. The basic growth patterns which can be expected in Northwood, the nature and size of modern fire equipment, and the fire insurance distance consideration will require eventual location of a major fire station on the Narrows area as opposed to the inadequate, single truck, building now in that area.

3. There would be significant benefits to the Town by following the public safety functions pattern of many cities and towns wherein administrative space, heat, light, maintenance and communication savings are realized by placing the principal functions of the Police, Fire and Rescue/Ambulance at a common location.

4. The Town should seek to keep and enhance the historical environment of the immediate vicinity of the Town Hall.

5. While Town growth will require some addition to the quantity of highway maintenance materials and equipment that must be stored by the Town, this will be limited by continuation of the current practice of relying upon private contractors and their equipment for most highway maintenance functions. To avoid such growth taking place in the immediate historical vicinity of the Town Hall contrary to the conclusion noted at paragraph 4 above, the Town should construct an appropriate Highway function building at some other location.

6. The Town will have to respond to pressure from State agencies calling for construction of facilities to house stray animals taken into custody by Town officials.

In the context of these fundamental conclusions, the committee further concluded that the Town of Northwood should, at this time, take the following steps to assure both near-term and longer-term adequate provision of Police, Fire, Rescue/Ambulance and Highway services to the Town while assuring in the longer-term the historical environment of the Town Hall vicinity.

1. Construct a building in the Disposal Area suitable for storage of Highway related materials and maintenance/storage of Town-owned Highway related equipment. By solicited bids, the committee determined that a suitable three bay building with one bay enclosed and two open can be constructed for \$14,000.00. Modifications and additions to partially meet state requirements for the housing of stray animals will increase the cost to \$16,500.00.

2. Upon completion of the above building for Highway functions at the Disposal Area, allocate the "roller shed" behind the Town Hall currently used for Highway functions to be for garaging and maintenance of police vehicles and holding of such bulky evidence as appropriate.

3. Obtain land in the Narrows area appropriate for eventual construction of a consolidated Fire and Police station. Such land has been identified by the committee as parcel of 1.84 acres (Plat 20, Sheet B, Lot 6) owned by Herbert A. and Helen A. Sherman currently assessed at \$9,210.00, and adjoining a Town-owned parcel of 0.2 acres providing access to Canterbury Road as well as Main Street.

4. Initiate planning and architectural work on the consolidated Fire and Police Station to be built on the parcel of land described above.

To carry out these steps, the committee recommends that at the 1983 Town Meeting, the Town approve articles in essence as follows:

1. To see if the Town will vote to raise and appropriate \$16,500.00 to construct an appropriate building at the current Disposal Area for the purpose of housing highway maintenance equipment and functions there making available the current garage facility adjacent to the Town Hall for police vehicles. The building to be constructed at the Disposal Area to be a three bay 36' x 48' wood framed gable ended pole building with one bay enclosed, having pressure treated 2" x 6" firstline girt, horizontal girt style framing, wind and corner bracing, shiplap pine siding vertically installed, metal roofing, one personnel entrance door and one overhead 10' x 12' door, and such additional features/additions such as to also provide State required housing for stray animals.

2. To see if the Town will authorize the Selectmen to take action to obtain appropriate property in the vicinity of the Narrows suitable for future construction of a fire station also incorporating space for police functions. This authorization to the Selectmen to include authority to arrange sale options, and

sale of other Town owned property for the new fire and police building.

Respectfully submitted,

John H. Jacobsmeyer, Jr., Chairman
Joann Bailey

REPORT OF THE CABLE TELEVISION ADVISORY COMMITTEE

On July 9, 1982, the Selectmen of the Town of Northwood established a committee to investigate the desirability of placing an appropriate article regarding cable television in the 1983 Town Warrant. The Selectmen had received visits and correspondence from several cable television companies expressing interest in providing services to the residents of Northwood. Any such service must be provided under a franchise agreement between the Town and the company with the Selectmen acting for the Town in accordance with RSA 53-C. The normal franchise is for 15 years and while usually awarded on a non-exclusive basis, it effectively is exclusive because of the limitations imposed by the Federal Communications Commission rules regarding spacing of power, telephone and cable television cables on public utility poles coupled with the economics of obtaining sufficient subscribers per mile to defray the cost of cable and amplifier installations.

The committee examined the basic nature of cable television services being offered or currently provided in towns such as Northwood and then formally requested proposals by letter to a number of companies and by public notice in two newspapers. Two companies submitted proposals which were studied by the committee in executive session, in meetings with each company and via a public hearing at which the companies described their offerings and responded to questions.

The committee has found that the two proposals and the associated franchise agreements are significantly different. The differences include the extent of initial versus future growth in the number of channels offered, initial versus future offerings of community oriented/originated programming, specifics of provisions for service to residents not on the main cable routes, provision of services to seasonal residents, the possible quality of subscriber premises equipments, the number of years the companies have been in business, the type of financial backing of the companies, and potentially the legal status of the franchise.

The committee has investigated the experience of other towns and cities in the State with respect to their cable television franchises. Several have had a company promise extensive services analagous to one of the proposals made to Northwood but then default on the franchise and their bond, apparently when their desired regional arrangement did not materialize. One town tried to take a company to court when the company refused to extend service to additional parts of the town as originally promised. But that town found the franchise did not have the legal standing of a contract so that town could not force compliance. Still another town voted to award a franchise to a company and then that company did no work at all. Yet, when the town reopened the issue and awarded a franchise to another company, the town found itself having to, in essence, pay damages to the first company.

The committee has concluded that awarding a franchise to a cable television requires a complex balancing of promised services, realistic prospects for receiving such services over the 15 year

life of the franchise, and the legal strength of the franchise document. The committee has submitted the companies' proposed franchise documents to the Town counsel for legal review and recommendation as to features which should be negotiated with the respective companies.

In order that the residents of Northwood be able to receive cable television service at the earliest possible date assuming one or more satisfactory franchises can be negotiated, the committee recommends that at the 1983 Town Meeting, the Town approve an article stating in essence as follows:

"To see if the Town will authorize the Selectmen to award a franchise for provision of cable television service in Northwood as provided for under RSA 53-C subject to that franchise satisfactorily protecting the interests of the Town."

Respectfully submitted,

John H. Jacobsmeyer, Jr., Chairman

HOUSING STUDY COMMITTEE REPORT

The Housing Study Committee was appointed by the Selectmen of the Town of Northwood in March, 1982, following Town Meeting, for the purpose of evaluating the impact of low-income and elderly housing on the Town of Northwood. The purpose was not to identify the need for such housing, but to evaluate the impact of these types of housing.

The workload was divided into areas concerning but not limited to: impact on town services, types of government assisted housing, appropriateness to the Master Plan, and methods of determining the needs of the Town of Northwood. During the process of investigation, it was discerned that the impact of such housing would be substantially dependent upon the type of housing; that is, low-income (no age qualification except as noted below) or elderly.

In the investigation of these types of publicly supported housing, the following agencies were contacted: United States Department of Housing and Urban Development (HUD), New Hampshire Housing Finance Authority, New Hampshire Council on Aging, as well as those people responsible for the administration of town services.

There are two types of Federal assistance available for the construction of low-income or elderly housing. The first is Section 8 housing. This type of assistance is usually sought by a contractor or developer who proposes a development, usually using recommendations from the NH Housing Finance Authority. The alleged needs of the communities are based upon population trends, available housing, and residency turnover rates. In any case, a need would have to be established, and the developer would be bound to abide by all rules, regulations, and ordinances of the town, and of the town's Master Plan. Additionally, existing apartment buildings may be deemed low-income housing when they meet NH Housing Finance Authority criteria, which include: pass a standard inspection, meet the rent schedule published by HUD, and have owner-approval of the Section 8 rental assistance program. A family (defined as: (1) a group of two or more persons, (2) a single person of at least 62 years of age, or (3) a single person who is disabled or handicapped) would then apply for rental assistance and, if approved, the household (family) would pay 25% of monthly adjusted income towards the rent and the Authority would pay the balance directly to the landlord. Thus, two avenues exist in the establishment of Section 8 housing: (1) a contractor builds to HUD criteria with pre-approval of the Section 8 rental assistance program, or (2) an existing building meets criteria and the owner accepts the tenets of the program.

In Section 8 housing, then, we could have both low-income and elderly in the same building. The requirement is only that low-income and elderly be separated, which could be accomplished by separation on different floors. Buildings usually, however, are not mixed, but there is no guarantee for future changes.

In either case, it should be pointed at that (1) current residents of a community have no advantage over non-residents in acceptance into Section 8 housing, and (2) no minimum time to

establish residency has been made (that is, if you move into a city or town, you are a "resident" from day-one). Therefore, if you live, for example in Suncook and qualify for Section 8 housing assistance, you could be sent to Northwood if a vacancy in approved housing existed, and your need was deemed greater than that of someone living in Northwood seeking the same housing. All persons applying for Section 8 housing assistance are placed on a waiting list and dealt with according to date of application approval (chronological) and degree of need.

When HUD makes money available through NH Housing Finance Authority and a builder/contractor or developer seeks those funds, certain studies must accompany the final proposal to be presented to the town (this also applies to Section 202 projects, described later). HUD must review and report (document entitled, "Normal and Special Environmental Clearance for Subdivision and Multifamily Projects", HUD-4049, 4-76) on a number of factors, including but not limited to demand for housing in the area, compliance with standards: A-95, local and regional comprehensive plans, zoning, historical properties, noise and air quality. Additionally, a complete site analysis must be performed as part of an environmental analysis, to include usual site evaluation, natural and man-made hazards, nuisances, and neighborhood character.

Services must also be reviewed with respect to availability, to include: elementary, middle, and high schools, employment, shopping, parks/playgrounds, police and fire, health care/social services and transportation. Each is given a rating according to "access to" and "adequacy".

Of special concern is the HUD study and report on the impact of the community (section E of the document cited above). Along with physical impact on the land, it also reviews: impact on social fabric and community structures, displacement of persons or families, impact on aesthetics and urban design, as well as impact on the services outlined in the paragraph above.

It is recommended by this committee that any person(s) or group proposing to build or convert any future or existing structure for multi-family, low-income, or elderly housing, whether or not Section 8 rental assistance approval is sought, be made to submit a complete (and preferable independent) study to include all information outlined in the document HUD-4049 (4-76) or its successor, and that the report be submitted to the planning board and made available at public meeting or town meeting to be voted upon by the residents of the town.

The information reported in the HUD-4049 document should be the minimum amount of information supplied by the developer at any presentation, and should be made available for review by the planning board. This must be available prior to any preliminary decision. (For example, it must be provided prior to vote on a warrant article at the Town Meeting.)

Another method of developing housing is the Section 202 program. Section 202 differs from Section 8 in that: (1) It deals with only

elderly housing, (2) It is usually proposed by a non-profit organization with adequate working capital (such as a church group), (3) it is not subject to state approval, (4) it can be better regulated by the owners, who may set their own policies, within reason, and (5) Northwood is probably not eligible for this housing, as we are not a metropolitan area.

In reviewing this material and possible options for housing available, the committee faced the problem that there are no communities our size that have such housing. There was, therefore, no model with which we could compare. Even a review of the project in Pittsfield would be misleading, as their population and tax base is different from Northwood's.

We were, however, able to gain some insight into the impact on town services. As mentioned earlier in this report, the impact on town services would differ according to the type of housing, i.e., low-income vs. elderly. In the opinions of the Selectmen of the Town of Northwood, and of the department heads of the town, and in the experiences of involved HUD officials, the impact of establishing elderly housing would be minimal. Although two areas might experience a higher utilization of service, the Northwood Rescue Squad with the town ambulance, and the rural health program, no real increase in other services could be discerned.

It should be pointed out that any such project would be subject to taxation by the town. HUD figures reveal a good return on taxes from these types of property. In terms of the effect of a project on abutters' property values, some facts are known. (1) Each property is evaluated according to comparisons made to similar structures/properties in similar areas. That is, condition of abutting property is not a factor. (2) In terms of market value, a well kept project could improve abutting property values, and a poorly maintained project could depress abutting property values on the open market. (3) No reasonable speculation would be made concerning possible future change of a project to condominium usage, or its impact.

The highest discernable area of impact concerns low-income housing. While no appreciable problems are foreseen in the area of fire services, as long as buildings do not exceed two stories and smoke detectors and alarm systems are required, the police department using information available to them from cities and towns with low-income housing, foresees an increase in utilization, requiring increased manpower, patrols, and possible full-time coverage. Two other areas could potentially escalate in utilization, those of welfare and education. While the welfare officer of the town currently can find no rhyme or reason for welfare-eligible people moving to Northwood (no family nearby, no job potential), he feels that low-income housing would be an incentive to move here, with the possible swelling of the welfare rolls.

In the area of education, low-income housing could have a major impact, not only on the enrollment of regular students, but also of students requiring special education, the cost of which must be borne by the town.

It is the recommendation of this committee that when sufficient public interest warrants, that the town commission its own study of the needs of the community for low-income and/or elderly housing. Feedback from senior citizens of our community at this time shows some interest in elderly housing, but such interest has not been quantified, as it was not the purpose of this committee to do so. Any such study would necessarily have to consider Federal and State guidelines in effect at the time, and any restrictions or limitations, as outlined earlier in this report.

Further, this committee recommends that the Selectmen study the possibility of passing an ordinance concerning low-income and/or elderly housing to keep such a project within the characteristics set forth in the Master Plan, as it has evolved by the planning board.

Respectfully submitted,

Richard W. Corning, Chairman
Thelma Eatough
Thomas B. Madson
William T. Wormell

STREET LIGHTING COMMITTEE REPORT

The members of the Street Lighting Committee met several times during the past months during which time on-site inspections during daylight and nighttime hours were made of the street lights in Town. The results of these meetings are the following recommendations:

REMOVAL of street lights from poles numbered:

Northwood Narrows
Lake Shore Drive

#80/49 near Northwood Beach
#80/63 opposite Kaffel residence

Northwood Center
Route 4

#8/85 in front of Congregational Church

Northwood Ridge
Route 4

#8/153 corner upper Bow Street

UPGRADING of street lights on poles numbered: (in the interest of safety)

East Northwood
Route 202-202A
Route 4 - 152
Route 4 - 202

#820/10 intersection
#8/246
#8/219

It is also recommended, since the above three street lights are on State highways, that the cost of lighting be assumed by the State.

INSTALLATION of street lights on poles numbered:

Northwood Narrows
Route 4

#5/12 nr. former Oakdale Clam Bar

Northwood Center
Route 4

#8/61 Harvey Lake Road

It is also recommended that a street light be INSTALLED at the WEST END of Town Parade driveway.

We recommend remaining with the same bulbs and wattage as now exist in all other street lights as we feel it would not be feasible for us as a Town to rent poles and equipment for maintaining our own with different type bulbs.

We also recommend that the tree limbs be trimmed and bulb cleaned on street light on pole #50/T on Route 107 near Putnam property; and branches trimmed at pole numbered #86/2 corner Route 107 and Pittsfield Road near Quimby and Lewis properties.

Respectfully submitted,

Veronica A. Post
Joseph A. Knox
Paul E. Colby
Margaret E. English

1982 SCHOOL DISTRICT MEETING REPORT
March 6, 1982

The annual School District Meeting was called to order at 1:10 in the afternoon, at the Northwood Elementary School by Moderator Robert A. Johnson. Mr. Johnson read the School Warrant and an announcement by Nancy J. Osborne, President of the Northwood Teachers' Association and Thomas B. Madson, Chairman of the Northwood School Board, in regards to a flyer distributed by a group calling themselves the "Northwood Education Association", which is not the organization representing the Northwood teachers. "The Northwood School Board reached a salary settlement with the Northwood Teachers' Association, which does represent the teachers of the Northwood School. To someone reading the ad on the flyer, it might appear that the Northwood teachers are against the negotiated salary settlement. Nineteen of the twenty-two teachers employed by the Northwood School District, are in total agreement with this settlement."

ARTICLE 1 To hear the reports of agents, auditors, committees or officers chosen, and pass any vote relating thereto. Lois DeTrude moved that this article be accepted as read with the exception of 4 changes on pages 114 and 141 in the Town Report. On page 114, Lois DeTrude's term expires in 1983, this should read in 1982, as she is an appointee. Ellen Morse's term expires in 1984, which should read 1982, as she, also, is an appointee. Also, on the same page, our Superintendent of Schools Barry Clough's name was eliminated. Also, on page 141, on top of the page where it lists "Tuition Rate" Coe-Brown Academy tuition rate is \$2100.00 for 1981-82 and not \$1914.00. This was seconded by Tom Madson. Motion was adopted. (Verbal)

ARTICLE 2 To choose agents and committees in relation to any subject embraced in this warrant. Lois DeTrude moved that we indefinitely postpone this article, as there are no agents or committees chosen at this time. Seconded by Mr. Madson. Motion was adopted. (Verbal)

ARTICLE 3 To see if the School District will vote to authorize the School Board to appoint a Building Committee composed of nine (9) members to work in conjunction with and advise the School Board regarding the construction of an expansion program of appropriate size for the School District. The Committee will use the recommendations of the Northwood Education Study Committee where it deems them advantageous to the District. Said Committee is to submit it's findings in a written report to the School Board and to the voters of the School District not later than November 30, 1982. Lois DeTrude moved that we adopt this article as read. Seconded by Charles Bailey. Motion was adopted. (Verbal) Mrs. DeTrude asked for volunteers and those volunteering were: Jim Morse, David Kreed, Jay McCartin, David Behm, George Stanhope, Jim Boyd, Gordon Smart, and Laurie Stolarczyk.

ARTICLE 4 To see what sum of money the School District will raise and appropriate for the support of school, for the salaries of

school district officials and agents, and for the payment of statutory obligations of the district. Mrs. DeTrude moved that we postpone this Article until after Article 5 was disposed of.

ARTICLE 5 To see if the School District will vote to raise and appropriate the sum of five thousand dollars (\$5,000.00) for a contingency fund as provided by the New Hampshire Revised Statutes Annotated 198:4b. Charles Bailey moved that this article be accepted as read. Seconded by Lois DeTrude. Mike Bane asked for an explanation. Tom Madson stated that it is in the Budget and passed by the Budget Committee, but it must be voted on separately, according to the law. It's in each year for the purpose of an emergency that might come up during the year. Motion was adopted. (Verbal)

ARTICLE 4 Charles Bailey moved that \$901,710.00 be raised for the School Budget. Mr. Madson mentioned that this figure includes the \$5,000.00 for a contingency fund. Seconded by Mr. Post. Mrs. Behm asked that we take up each Line Item separately. Mr. Bailey's motion will be amended after going over Line items. Mrs. DeTrude proposed that we increase Line Item 1100 (Instruction-Regular Programs) from \$499,350.00 to read \$507,420.00. Mrs. DeTrude stated that they needed to add 2 Kindergarten Aids, 3 Regular Aids, and 1 Reading Aid. This would be an increase of \$8,070.00. Motion was seconded by Ellen Morse. A hand vote was taken Yes-59 No-26. Motion was passed. Mrs. DeTrude amended Line Item 1200 (Special Education) to read \$88,503.00 instead of \$75,834.00 (Recommended by the Budget Committee). Mr. Madson explained that we have a catastrophic problem in town and the law states that we must be responsible for children needing Special Education from the ages of 3 years to 21 years. After much discussion, Mrs. DeTrude's motion to increase Line Item 1200 was withdrawn, to read \$75,834.00. This was seconded by Ellen Morse. After more discussion, Mr. Bennett amended Mrs. DeTrude's original motion to read \$88,503.00 instead of \$75,834.00. This motion was seconded by Mrs. Herron. The Moderator asked for a show of hands Yes-48 No-40. Since the vote was close and still in question, Mr. Bane asked for a Yes-No ballot. The results of that vote was Yes-39 No-66. Motion did not prevail. Line Item 1400, Mrs. DeTrude moved that this line be increased to read \$3,992.00 instead of the recommended amount of \$3,212.00. This is a \$780.00 increase in order for the School District to continue the handwriting program that was not recommended by the Budget Committee. A vote by show of hands Yes-54 No-46. Motion was adopted. Mr. Conway explained the Rheinart writing system. Line Item 2120 was amended by Richard Shaw to be increased to read \$13,000.00, an increase of \$12,000.00 from the recommended amount of \$1,000.00, to provide a full time Guidance Counselor for the School. This was seconded by Tom Madson. Charles Bailey asked if the School Board would recommend a Guidance Counselor? Mrs. DeTrude stated, "Not at this time." A verbal vote for the amendment was taken and the Motion did not prevail. Mrs. DeTrude asked that Line Item 2210 to read \$650.00 instead of \$450.00. The reason for this increase is to pay a teacher at the Brookside School for her extra duties and responsibilities. This was seconded by Ellen Morse. Motion was adopted. (Verbal) Mrs. DeTrude asked to amend Line Item 2400

to read \$32,540.00 instead of \$31,300.00 (an increase of \$1,240.00, for School Administration Services. Motion was adopted. (Verbal) Mrs. DeTrude asked that Line Item 2540 be decreased to read \$70,090.00 instead of \$70,300.00. Seconded by Ellen Morse. Motion was adopted. (Verbal) All other Line Items, not mentioned, were accepted as read. The total budget voted was \$911,790.00.

ARTICLE 6 To see if the School District wishes to authorize the Treasurer, with the approval of the School Board, to appoint a Deputy Treasurer for the 1982-1983 school year and every year thereafter in accordance with the provisions of RSA 197:24a, and to provide bond for said Deputy Treasurer as provided in RSA 197:22. Mrs. DeTrude moved that we accept this article as read. Seconded by Charles Johnson. Motion was accepted by a verbal vote.

ARTICLE 7 To see if the School District will authorize the School Board to make application for and to receive and expend, in the name of the district, such advances, grants-in-aid, or other funds for educational purposes as may now or hereafter be forthcoming from the United States Government and/or State agencies; private agencies and/or other sources. Mrs. DeTrude moved that this article be accepted as read. Seconded by Mike Bane. Motion was adopted by verbal vote.

ARTICLE 8 To transact any other business which may legally come before this meeting. Mr. Tom Madson moved that "If there is an excess of money from the School Budget on June 30, 1982, up to \$5,000.00 be transferred to Northwood School District Capital Reserve Building Fund, if this is deemed appropriate by the Department of Revenue Administration." Seconded by Ellen Morse. After much discussion, Mr. Bennett asked to have the entire School Budget listed for next year. Mr. Bane asked to have it published in the Town Report. A verbal vote was taken and Mr. Madson's motion was accepted.

A public "Thanks" was given to the Education Study Committee for an excellent report. Mr. Madson, also, thanked everyone who spent so much time and money on the new School playground, and "Thanks" to Lois DeTrude for taking over Letitia Richards spot on the School Board, and too, Ellen Morse for filling in on short notice. Nancy Osgood, representing the Teachers, presented Lois DeTrude with a gift of appreciation and support.

The meeting was adjourned at 4:15 p.m.

A True Copy Attest:

Jean W. Lane, Clerk

THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School district in the town of Northwood qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 8th day of March 1983, at 10:00 o'clock in the forenoon, to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a Member of the School Board for the ensuing three years.
- 3B. To choose a Member of the School Board for the ensuing one year.
4. To choose a Treasurer for the ensuing year.
5. To choose Auditors, and all other necessary officers and agents for the ensuing year.

Given under our hands at said Northwood this 10th day of February, 1983.

School
Board

Richard Lilly

To the Inhabitants of the School district in the town of Northwood qualified to vote in district affairs:

You are hereby notified to meet at the Coe-Brown Academy in said district on the 5th day of March 1983, at 9:00 o'clock in the forenoon, to act upon the following subjects:

1. To see if the School District will vote to raise and appropriate the sum of one million three hundred thousand dollars (\$1,300,000) for the construction of an addition to and renovation of the Ridge Elementary School, for originally equipping said addition, for architectural and other service fees, for site development including a new septic system and for any other items incidental to and necessary for said construction; to determine whether said appropriation shall be raised by issuance or sale of bonds or notes on the credit of the Northwood School District in accordance with the provisions of RSA Chapter 33 as amended; to authorize the School Board to invest said monies and use the interest earned thereon for said project; to authorize the School Board to obtain State or other aid which may be available; to authorize the School Board to determine the time and place of payment on principal and interest, fixing the rate of interest, the provision for the sale of notes and or bonds, and all other matters in connection therewith; or to take any other action relative thereto. (Recommended by the Budget Committee)

2. To see if the School District will vote to raise and appropriate the sum of six thousand five hundred sixty-three dollars and twenty-five cents (\$6,563.25) for professional services rendered by Banwell, White and Arnold, Inc., Architects in conjunction with the Northwood Elementary School addition referred to in Article #1 above.

3. To hear the reports of agents, auditors, committees, or officers chosen, and pass any vote relating thereto.

4. To see if the School District wishes to raise and appropriate the sum of eight thousand nine hundred dollars (\$8,900) for the purchase of a parcel of land belonging to the Estate of Ruby Hutchins comprised of two and nine tenths (2.9) acres more or less, with a three hundred seventy foot (370') frontage on Upper Bow Street and bordering on School District property.

5. To see if the School District will authorize the School Board to receive and expend during the current 1982-83 school year unanticipated special education tuition in the amount of nine thousand one hundred forty dollars (\$9,140). (Supplemental article - recommended by the Budget Committee)

6. To see if the School District will vote to raise and appropriate in addition to the original 1982-83 appropriation a sum of nineteen thousand eleven dollars (\$19,011) to be made

available to the School District prior to July 1, 1983 in order to meet unanticipated obligations mandated by special education expenditures. (Deficit appropriation - recommended by the Budget Committee)

7. To see what sum of money the School District will vote to raise and appropriate for the support of schools, for the salaries of school district officials and agents, for capital construction, and for the payment of statutory obligations of the District.

8. To see if the School District will vote to raise and appropriate the sum of five thousand dollars (\$5,000) for a contingency fund as provided by the New Hampshire Revised Statutes Annotated 198:4-b.

9. To see if the School District will vote to raise and appropriate the sum of money not to exceed five thousand dollars (\$5,000) from the unencumbered balance at the end of the 1982-83 fiscal year. Said sum of money will be deposited in a Capital Reserve Fund in accordance with the provisions of RSA 35 for the purpose of financing capital improvements as well as all or part of the cost of new construction for the School District.

10. To see if the School District will authorize the School Board to make application for and to receive and expend, in the name of the District, such advances, grants-in-aid, or other funds for educational purposes as may now or hereafter be forthcoming from the United States Government and/or State agencies; private agencies and/or other sources in accordance with the provisions of RSA 198:20-b.

11. To choose agents and committees in relation to any subject embraced in this warrant.

12. To transact any other business which may legally come before this meeting.

Given under our hands at said Northwood this 15th day of February 1983.

SCHOOL AUDITORS' REPORT

This is to certify that we, the undersigned, auditors of the School District of Northwood, have examined the books, receipts and vouchers of the School Treasurer and find them correct to the best of our knowledge.

Marjorie E. Boudreau
Helen B. Johnson

Auditors
Northwood School District

This is to certify that we, the undersigned, auditors of the School District of Northwood, have examined the books, receipts and vouchers of the School Lunch Program and find them to be correct to the best of our knowledge.

Marjorie E. Boudreau
Helen B. Johnson

Auditors
Northwood School District

August 1982

To the School Board and Citizens of the Northwood School District:

When school opened in September 1982, the Northwood Elementary School was organized as indicated below:

<u>EMPLOYEE</u>	<u>ASSIGNMENT</u>
Thomas Conway	Principal
Nancy Osborne	Kindergarten
Barbara Fraser	Grade 1
Cheryl Remillard	Grade 1
Susan Demarais	Grade 2
Linda MacKay	Grade 2
V. Gale Gustafson	Grade 3
Judith McGann	Grade 4
Stephanie Davis	Grade 5
Eva Pollard	Grade 5
Eleanor Loewer	Grade 6
Kenneth Przybl	7-8 Math/Science
Joanne Kreed	7-8 Lang. Arts/Reading
Allan Robertson	7-8 Soc. Studies/Science
Rosemary Zurawel	Reading
Anne Grabowski	Special Education
Mary Marini	Learning Disabilities
Susan Young	Speech
Maryanne Sisk	Music
Tobey Harman	Art
Carline Kallgren	Nurse
Jane Bates	Secretary
Marjorie Morrison	Reading Aide*
Edith Cummings	Librarian/Aide
Pamela Duffy	Kindergarten Aide
Emily Carr	Kindergarten Aide
Rhoda Barringer	Teacher Aide
Betty Warner	Teacher Aide
Leon Drew	Custodian
Lawrence Woodward	Custodian
Laura Josiah	Lunch Manager
Lorraine Colby, Angela Darienzo	Lunch Workers

*Funded as part of the Title I joint project for Barrington, Northwood, Nottingham and Strafford.

The enrollment by grades in the Northwood Elementary School as of October 1, 1982 was as indicated on the chart below:

<u>GRADE</u>	<u>K</u>	<u>1</u>	<u>2</u>	<u>3</u>	<u>4</u>	<u>5</u>	<u>6</u>	<u>7</u>	<u>8</u>	<u>TOTAL</u>
Number	36	31	43	28	38	46	41	45	32	340

Northwood pupils attending secondary schools at District expense are listed below:

<u>School Attended</u>	<u>Special</u>	<u>9</u>	<u>10</u>	<u>11</u>	<u>12</u>	<u>Total</u>
Coe Brown Academy		26	37	31	15	109
Dover High School			1	1	2	4
Dover Vocational			1	2	1	4
Oyster River			1		1	2
Totals		26	40	34	19	119

In addition there are 3 pupils attending Coe-Brown Academy's EMR Program; one pupil at Easter Seals; one at Latham School, one at Coe-Brown; one at Rochester Child Development Center and the following numbers at Strafford Learning Center Programs: 1 at TIP, 1 at TAC and 2 at PEP.

Undoubtedly, the most important topic of debate at the Annual School District meeting this year will be the report of the Northwood Building Committee and the related bond article which appears as Article 1 in the Warrant. There are several observations or comments which I would like to share with you concerning this very important issue. First, I wish to commend the School District for demonstrated commitment to the identification of District needs and long-range planning through the creation of the Building Committee last March. I also wish to commend the Building Committee and Assistant Superintendent Worthley for the very thoughtful, comprehensive nature of the Report. In my sixteen years as an administrator, I have never seen a more impressive committee effort. In review of the state of the economy, the efficient use of resources has become ever more critical than at any point in our history since the Depression. The Committee's report will be extremely valuable to voters as they debate the issue. In view of our facilities being at capacity and the need for major structural renovations at the Ridge School, I refer you to the Committee's recommendations which begin on page seventeen of this report.

During the past year, the School Administrative Unit has continued to be actively involved to two major areas: a) developing and evaluating the quality of the instructional programs and b) providing management services to the School Board.

With regard to the first area, Assistant Superintendent Worthley has been deeply involved with Mr. Conway and the staff on their project of curriculum development and refinement with particular emphasis being placed on staff organization, the development of clear, specific curriculum objectives for the year, and a philosophy of learning which reflects the age and learning characteristics of the student according to what research tells us about particular age groups of children. As part of this process, an in-depth review and analysis of achievement test results is compiled by this Office and discussed with Mr. Conway as a method of assisting him with curriculum evaluation. While the crowded space situation is causing us concern, the achievement test results indicate levels substantially above National and Unit levels in most grades and subject areas.

In addition to being involved with instructional matters at the building level, in-service recertification programs for teachers and administrators, the improvement of program evaluation procedures, staff supervision, computer education and special education matters, we have continued to provide management services to the School Board. The major cost savings analysis conducted this past year resulted in a recommendation to the eight School Districts in S.A.U. #44 to consolidate all multi-peril insurance coverage, which resulted in a projected annual savings of \$10,000.00 for each of the next three years for the taxpayers. Last year, also through the efforts and

recommendations of this Office, the School Board's Legal Liability Insurance Policies were consolidated with a resulting Unit-wide savings of \$4,300.00.

As in past years, on behalf of the Central Office staff I wish to express our continued appreciation to the members of the School Board, Mr. Conway, the teachers and citizens for the cooperation exhibited and progress achieved this past year. We look forward to the continuation of the present relationship in which our mutual goal will continue to be the best possible education for our young people.

Respectfully submitted,

Barry L. Clough
Superintendent

PRINCIPAL'S REPORT

1982 - 1983

To the Northwood School Board and the Citizens of Northwood -

We have opened the 1982-83 school year with an increase in our student population of 15 per cent. This has caused some hardships for some of our students. We have tried to compensate for the heavy pupil-teacher ratio in grades 4 and 6 by adding an additional aide to assist the teachers in these rooms.

The breakdown of enrollment at the school this year is as follows:

Kindergarten	38 - 1 teacher, 2 aides, 2 sessions
Grade 1	29 - 2 teachers
Grade 2	43 - 2 teachers
Grade 3	29 - 1 teacher
Grade 4	38 - 1 teacher, 1 aide
Grade 5	47 - 2 teachers
Grade 6	43 - 1 teacher, 1 aide
Grade 7	45 - 2 teachers
Grade 8	35 - 2 teachers

New staff members this year are -

Miss Rosemary Zurawel - Language Arts, Social Studies, Grades 7-8

Mr. Ken Przybyl - Math, Science, Grades 7-8

Miss Maryanne Sisk - Music

Mrs. Louise Wiley - part-time aide

Mrs. Judy Pellettieri - part-time aide

This year we are undertaking a new team approach at the school. Teachers in Grades 5-8 are involved in implementing a new Middle School model. This entails a great deal more individual contact with students by the teachers involved. Students and teachers are very enthusiastic about this change and we feel our students' performance will also be improved.

Our lower grade team, consisting of Grades K-4, is also working as one unit. This group meets on a weekly basis and keeps a constant observation on student performance and other problems related to this age group.

Our Special Education department at the present time has two active programs. One program entails youngsters who have returned from out of district and are in a self-contained unit. The other part of our program has grown considerably this year. In this area students are mainstreamed from regular classrooms for special help. The number of students referred has grown this year. We have found it very difficult to service all of the youngsters who need the extra help and have been

coded as learning disabled.

We still have an active speech program that works out of this area also. Our Speech Clinician spends three days at school working with students who are speech delayed or have particular speech problems.

Title One Reading is also an area where students receive special help in Reading. This area is badly in need of additional support staff as we are using an aide in this position. Many students could use a Reading Specialist to help diagnose some of our more serious problems.

Our staff has the use of the staff and facilities of the Strafford Learning Center who help us a great deal in the diagnosis and remediation of serious educational and emotional problems. Any testing involving the placing of a student into our Special Education program must be screened through this program.

New programs that are presently being introduced at the school are in the area of computer education. The current trends in the country seem to clearly indicate that students must become literate in computer language and technology. We have two staff members who have been to many of the current workshops being held to instruct teachers as to the use of our computers. We hope to have four in place by 1983-84. At the present time we have two in use by students in Grades 5-8.

Our extra-curricular program has been greatly strengthened by the addition of Miss Sisk who has organized our vocal and instrumental music very quickly and efficiently.

We now have a regular band and a pep band in full operation. Students are very excited about these programs.

Miss Sisk and Mrs. Harmon are planning an excellent spring concert which we hope will equal last year's rousing success.

Our athletic programs have continued to excel and also allow many students an opportunity to participate.

The school soccer team one again captured the Southeastern League Championship.

Our basketball programs this winter, including cheerleading, will involve close to 100 students from Grades 4-8. With the limited recreational opportunities for our students we feel that the school's programs reach the needs of many of our students.

I feel that, even with the crowded conditions, we are having a very successful year. Both teachers and students seem to be working very well together to make our program a success.

In closing, I would like to express my appreciation to the Supervisory Union office staff for their assistance this year; Mr. Barry Clough, Superintendent of Schools; Mr. Leon Worthley,

and Mr. Bernard Davis, Assistant Superintendents of Schools; and Mr. Paul Campelia, Director of Special Education.

A special thanks to the Northwood School Board for their continued support of quality education in Northwood. A special thanks also to the teaching staff for their continued hard work in behalf of our students. And finally my appreciation to the parents and citizens of Northwood who have always supported education for their children.

Respectfully submitted,

Thomas R. Conway
Principal

SCHOOL HEALTH REPORT

1981 - 1982

The Health Program for the year 1981-1982 was carried out in the usual manner with an annual physical inspection of each student by the nurse. This involves vision and hearing screening, inspection of teeth, tonsils, cleanliness, scoliosis and blood pressure. When defects were noted the proper referral was made.

Vision tests	305	Heights and weights	294
Hearing tests	325	Physical inspection	294
Scoliosis	61	Home visits	7
Blood pressure	69	Parent conference	104
First aid	921		

Students transported to Immunization clinics 8
Pre-school registration 29
Pre school vision and hearing screening 123
Nurse administered 33 doses of medication

DENTAL PROGRAMS Because the State Marching Funds Program is not being funded at the present, the money donated by the Harvey Lake Woman's Club, the Northwood PTA and many local organizations, was used for the annual Cleaning and Fluoride Clinic. One-hundred thirty three students participated in this worthwhile program. Mrs. Linda Sawyer, Epsom, was the participating hygienist. This clinic is held annually in September. Through a program sponsored by the N. H. Bureau of Dental Health, students in grades 1-5 were given the opportunity to participate in a daily dry brushing program and weekly fluoride rinse program. This has been an ongoing program for several years and the cooperation of the classroom teachers is to be commended.

IMMUNIZATION PROGRAM Through the generosity of the Rural District Health Council, students are able to receive free immunizations. This is a very beneficial program and I would like to express my gratitude for this generous program. Through the years many students have received needed "shots" that have cut down considerably the incidence of communicable diseases. This year a total of 22 doses of vaccine were given to 12 students.

COMMUNICABLE DISEASES Most childhood diseases are now eliminated through an on-going school monitored immunization program. However, scabies and head lice continue to make an appearance and generally parents are very cooperative in treating these health conditions. Strep infections are serious health conditions that, if not treated properly, can lead to serious health complications. The State Diagnostic Laboratories no longer are funded to receive and process Strep Throat Cultures. This is a direct result of state budget cuts and eliminates one of the most valuable health tools school nurses used!

HEALTH EDUCATION Weekly visits were made to grades 1-5. Appropriate health related lessons and activities were carried out. The Family

Living and Human Sexuality Curriculum is enthusiastically received by students and parents. As part of V.D. and substance abuse education for the Junior High students, lectures, film-strips, guest speakers and discussion periods were planned and carried out. The Sixth grade students completed the Red Cross Basic First Aid Course.

CONTINUING EDUCATION

1. Union Workshop - attended sessions on Alcohol and drug abuse, The Environment and Parents and the Learning Disabled Child
2. Sexuality Workshop - Dr. Sol Grodon speaker - nationally known speaker and lecturer on "Healthy Sex Education"
3. New England Regional School Nurses Workshop - attended sessions on Blood pressure screening and the school age child, "Latch-key" children and health curriculum materials
4. Nutrition Applications - a 2 credit course offered by UNH
5. School Nurse Achievement Program - a 3 credit course offered by the University of Colorado - enabling school nurses to deliver health care as needed during the school day to boys and girls with handicap/developmental deviations who are enrolled in school.
6. CPR Course
7. Workshop on School Law

I would like to express my thanks to the Superintendent, School Board Members, Teachers and Parents for their cooperation and support during this past year.

Sincerely,

Carline E. Kallgren, R.N., B.S.N.
School Nurse

NORTHWOOD SCHOOL DISTRICT TENTATIVE CALENDAR

1983 - 1984

September through January - 96 days

February through June - 89 days

September 5	Labor Day
November 11	Veteran's Day

- V. Considerations for Additional Space and Recommendations
- VI. Required Funding, Alternatives and Recommendations

Introduction

The Building Committee, established at the March 1982 School District Meeting, was formed and charged by the Northwood School Board on March 26, 1982. The following members were appointed:

David Barr
Richard Corning
Jon Hopkins
Joseph Knox
Gladys Gardner

Jay McCartin
Judy Pellettieri
Gordon Smart
Louise Wiley

Mr. Leon Worthley, Assistant Superintendent of Schools SAU #44, Bunny Behm, School Board Member, and Tom Conway, Principal, met regularly with the committee and provided invaluable assistance.

Laurie Stolarczyk performed the difficult tasks of recording secretary.

The Committee met on a weekly basis to clearly define the problems and develop solutions. Over the course of six months we met with professionals in many areas to better understand the options available.

Four architectural firms were interviewed. The firm of Banwell, White and Arnold were chosen to develop preliminary plans and design the approved facility. Mr. Stuart White was assigned to our project and has worked closely with the committee to develop a proposal consistent with both our requirements and our means to pay.

The results of this effort were presented to the public on September 23, 1982. In excess of 100 people attended the meeting. Comments and suggestions made have been incorporated into the final proposal to the greatest possible extent. An informal show of hands by those present indicated a strong majority in favor of the proposal.

This report summarizes the results of an extensive study. Detailed technical information and supporting materials are contained in the meeting minutes and are available through the School Board.

A Brief Statement of the Problem

The Situation Today:

The existing facility has been thoroughly inspected and found to be structurally sound. However, the following problems exist:

1. Some cracking is evident in the exterior walls, particularly the southeast corner. This is caused by the extreme temperature differential on the walls.
2. The roof, now over 20 years old, leaks due to poor drainage and resultant seepage.
3. The kalwall material forming the southeast wall has exceeded its 20 year life expectancy and has seriously deteriorated.
4. The temporary classrooms, which have been in use over 12 years, do not meet life safety code standards. Of particular concern is the snow loading and the potential for water seepage near electrical heating units.
5. The lack of storage has forced the use of corridors to store tables and chairs presenting an unacceptable safety hazard.
6. Classrooms designed for a maximum of 30 students now seat in excess of 40 students in some grades.
7. The library is housed in a corridor and is limited in its resources by the lack of adequate space.

The Brookside School:

The district approved a Kindergarten program in 1979. The Brookside School was rehabilitated and brought back into service. Due to space requirements the school now houses over 60 students in three grades. This is an expensive stop-gap measure which should be terminated at the earliest possible date.

The Curriculum:

The lack of facilities has not only restricted the expansion of the curriculum but has caused the loss of some programs. Home Economics and Industrial Arts, once offered on a limited basis as electives, are not offered today. The lack of an appropriate library to support the curriculum has been the cause of frequent complaints. The lack of required space and facilities reflect most seriously on students in the middle grade (6-8) and those students who require Special Education programs. It should be noted that in 1980 the district voted to educate students requiring special programs at the Northwood School to effect a significant cost savings. However, no additional space was provided for this purpose. The problems of space and curriculum are well documented in the Northwood Education Study Committee Report submitted to the District at the March 1982 meeting. The summary of recommendations in that report are:

1. Build a separate building, either in the lower field or behind the existing school to house K-4.
2. Look into alternative types of construction (i.e., solar)
3. Create a middle school program at the existing grammar school for grades 5-8 by renovating the facility. Include space for a woodworking shop, home economics, art and music, a library/resource center, a teacher's room and a guidance department.
4. Discontinue using the Brookside School. In the interim period, do not add structurally to the existing church building.
5. Appoint a building committee at the 1982 School District Meeting.

It is the purpose of this report to address each of these problems and present a coherent solution which will be economical and preclude an foreseeable problems over the next several years.

Part I

Analysis of Existing Facility and Recommendations

No study of our building needs could be complete without first taking a hard look at the present facility.

At first, the committee had a strong desire to bulldoze the place in and start over. Instead, a structural engineer, Charles Goodspeed from U.N.H., was called in for some expert assessment. He discovered that we did have some serious problems, but that the building was basically sound.

The school was built in 1960, with the "temporary" classes added on in 1971. From the standpoint of energy efficiency, the building is a dinosaur. Both the walls and roof are poorly insulated. In our homes we all know how important insulation is. In the school building, however, the inadequate insulation has led to other problems as well.

The structure is almost entirely masonry, which is an inflexible material. Extreme temperature differences can occur between the inside and the outside surfaces of the walls. This causes the material to expand at different rates and crack.

There are also cracks in the wall resulting from poor construction techniques. The heavy double T joists which frame the roof are resting on the bearing walls without lintel beams to help spread their load. This problem has caused some major cracks near the corners. It could be corrected by removing the top layer of brick and installing the proper lintel where necessary.

Another example of poor construction is the outside wall of the storage area. This wall was built on the sidewalk slab with no foundation below. Frost has caused cracks which are getting worse.

We are told by the engineers that this wall will eventually collapse.

The remaining walls are kalwall. The material used here has a useful lifespan of 20 years if it is treated with a preservative. To our knowledge such a preservative has never been used. Technically, their useful life is gone. Great cracks have opened up where filler between the kalwall and framing has fallen out. This material must be replaced.

The recommendation of the committee is to insulate the masonry walls with rigid insulation 6" thick applied to the exterior of the building. The insulation is then covered with a very tough fiberglass impregnated cement. It is attractive, durable and efficient. We also recommend that the structural repairs recommended by the engineers be implemented.

The roof of the school presents more problems. While it was partially resurfaced two summers ago, there are dry spots in the tar. Leaks occur and reoccur due to the expansion and contraction caused by poor insulation. Ponding also adds to the problem because of insufficient pitch. The leaks which we have from time to time will always continue unless we properly insulate the roof to halt expansion and contraction. The insulation should be built up and pitched properly towards the drains. We also recommend re-roofing with a Carlisle membrane. This is the state of the art material for flat roofs.

Our study also included the temporary classrooms. We recommend removal of these structures because (a) they are not built to life safety code for snow loads, (b) they do not meet the life safety code for fire safety, and (c) the estimated cost to make them right would be half the cost of replacement.

We also noted that the school building has poor access with the doors on the cold side of the building. There is also the problem of inadequate parking and crowded access for bussing. We recommend that these problems be addressed in any new construction plan.

We conclude that these problems are solvable and that we should take advantage of a basically sound building. We should act responsibly in the area of energy and make certain that the building is raised to modern standards of insulation. With proper attention, we can get more service from the building. Continued neglect of the building will result in progressively more expensive repairs and maintenance.

PART II

Analysis of Septic System and Recommendations

The existing septic system was designed for a building population of 250. In preparing a plan to accommodate up to 500 students over the next ten years, the committee felt that the state and capacity of the present system should be investigated.

Mr. Ken Bradley of Waste, Inc., Concord, N.H., met with the committee to discuss the system. Mr. Bradley made the following points:

1. The system has exceeded its design life, but, if properly maintained, could last several more years;
2. Any increase in the load on the system would probably result in an early system failure;
3. The cost of a new system, whether for a separate building in the lower field or to accommodate an addition, would be essentially the same; and
4. The most suitable location for a system would be in the area southeast of the lower field, although no perk tests have been made in the area.

The committee concluded that any plan to close the Brookside School would require a new septic system to handle the increase of 60 or more students.

The cost for a new system is difficult to estimate without an approved design and site. The committee recommended that \$80,000 be included for this purpose.

Part III

An Investigation of School Population and Anticipated Growth

According to national projections, elementary school age groups are expected to significantly increase beginning 1985. These children are the offspring of parents born during the 1945-1950 post-war baby boom. In addition to this, New Hampshire is one of eight states showing a current enrollment increase in these age groups. Northwood is no exception. This year's enrollment of 345 is a 10 percent increase over 1981-82. The town of Northwood is experiencing the projected increase earlier and at a much more rapid rate than in most other areas.

The large unanticipated increase in the 1982-1983 school year illustrates the difficulty of projecting school population. The projection was 300-310 students versus the current enrollment ranging from 340-360. This has caused an increased burden on already over-taxed facilities.

Our local population figures show an increase from 1525 in 1970 to 2200 in 1982. However, the Office of State Planning has recently released projections which show a 128% increase in the town's population over the next 40 years.

Planning a school facility for future needs requires a crystal ball, but it would be imprudent to plan an expansion program which would not accommodate reasonable projections. Since most classrooms are planned for a maximum of 30 students per teacher at the present

time, most classes exceed this number - all but two require two classrooms. If a facility is designed to provide two classrooms per grade, it would accommodate a rough maximum of 510 students. This seems a reasonable maximum figure for the next 10 years at least and possibly longer.

It is recommended that a new facility provide 17 general purpose classrooms, (one kindergarten and 2 each for grades 1-8).

Projected Enrollment, 1983 - 1984

Part IV

Curriculum Needs and Space Requirements

The information contained in this report was drawn from the following sources: the report of the Northwood Education Study Committee, the Northwood School Board Endorsements, Special Education Laws of New Hampshire, SAU #44 teacher evaluation criteria, Northwood Elementary School teacher recommendations, and parental input.

The Northwood Education Study Committee recommended phasing out Brookside School. There are some special curriculum problems posed by the housing of two first grades and one second grade six miles from the main school. These students lose thirty to forty minutes of instruction time daily due to the busing schedule. In addition they are deprived of the use of the learning center, library area, art and music room, gym, cafeteria and nurse's room. When specialists service Brookside students, as when hot lunch is trucked there, travel expenses are incurred. While this little schoolhouse provides a pleasant atmosphere and a convenient stop gap measure, it was never intended to be used indefinitely.

The Education Study Committee (1981) recommended that the following be implemented for the overall betterment of the Northwood Elementary School curriculum: an adequate library, a full-time physical education program, both home economics and industrial arts, a better science program and a guidance counselor. Additional space is absolutely essential to facilitate the assimilation of these elements into the curriculum.

The State Dept. of Education listed the following areas where minimum standards are not being met in the Northwood School System - physical education and a physical education teacher; guidance counselling, library space and a certified librarian. Again, more space is necessary to help meet these standards.

Under the Special Education statutes, every New Hampshire school district has a responsibility to provide a free and appropriate education to all educationally handicapped students in their district. It is usually more economical to do this within the school rather than pay for costly programs and transportation. The social advantage of mainstreaming special students, both to the individual child and the general student population have long been known. Education should not be added to the list of segregated areas these children face. Northwood does its best to meet the needs of these students, but, at the present time, we have problems with the space allotted to the students and their varied needs. The special education personnel have to travel to Brookside and work with children right in the main classroom or in the very tiny kitchen. This procedure can be very distracting to everyone.

Criteria for effective classroom teaching includes the usage of at least three learning centers in each classroom, maintaining current and relevant bulletin boards and varied arrangement of classroom furniture. Quite often active hands-on learning designed to encourage curiosity and creativity must be curtailed due to

cramped quarters and lack of storage space. It is difficult, if not impossible, to provide a good learning situation when classrooms are overcrowded.

The major areas of concern this year are a sixth grade unit with 41 students in one room, and a fourth grade unit with 38 students in one room. These situations must be corrected in 1983-84. Our Special Education Department is in serious trouble. We have brought back to the community approximately 80% of the students who otherwise would have been tuitioned out of district at many times the cost. The space situation must be corrected or we may have to send 6 to 15 students out next year. We are servicing close to 30 students in this program.

Northwood parents responded to an Educational Study Committee questionnaire which led to the following conclusion:

"Clearly the overwhelming obstacle to a more comprehensive elementary curriculum is a lack of space. Unless space is increased, important educational services itemized above, including art, music, guidance, physical education, and a library, will be deficient. Our children will not receive the type of educational program they could receive in other school districts."

The parents who signed a petition and participated in the small group discussions with Assistant Superintendent Leon Worthley last winter, expressed many concerns including separation of age groups and lack of programs and space. The Northwood School Board endorses a middle school concept, including the following elements: home economics and industrial arts; physical education; art and music; library space and the library person. Some of these areas benefit the overall curriculum, but some of them apply just to middle school, grades 5-8. A middle school education provides this age group with hands-on learning experiences under a team teaching approach. Research has shown that this works remarkably with this age group as they cope with many physical and emotional changes and peer pressure. The Northwood School System has already begun to use a middle school approach, but needs more space to succeed in this area.

In conclusion, the necessary space needed to implement valuable programs in our children's education is not presently available. A minimum of twenty-two classrooms is needed. The school is presently operating with sixteen classrooms, with three of these located six miles away. One special education class is in the small conference room that has only one exit. The library is still housed in a hallway and the teachers room is on the stage. The lack of storage space has reached a critical point. Educational materials are put in every available corner and folding chairs, cafeteria tables, and a duplicating machine are in the hallways - clearly a violation of fire codes. The need for added space is vital to improve the curriculum of Northwood Elementary School, but it has now entered into the realm of safety for the very children we are trying to educate. We cannot guarantee that additional space and programs will result in measurable changes in student learning; however, we are convinced

that the present situation places an unreasonable limitation to the opportunity of each student to grow and learn.

PART V

Considerations For Additional Space and Recommendations

On the evening of the first meeting of the School Building Committee, we began by touring the current building, with an eye for problems in the building. There are many. At the next meeting, we began to list and prioritize the problems of the existing building, of space needs, and of operations of the school attendant to having children in geographically separated structures. During subsequent meetings, and with the help of various experts in their fields, we began to set goals which we would attempt to attain in our proposal.

Given the cost of renovation and/or construction in the present economy, one goal was to ensure compliance with state standards so as to be eligible for a 30% reimbursement from the state on the principal of any bond issue. In order to achieve this, any renovations to the existing structure and all new construction must result in compliance with all articles of the National Fire Protection Association (NFPA) "life-Safety Code", as well as the State Elementary/Secondary School Standards.

Additionally, we set out goals as follows:

1. Meet all applicable state standards
2. Meet needs of projected 10-year enrollment
3. Renovate and Upgrade the existing structure
4. Minimize Operations Costs
5. Construct the required additional space
6. Eliminate duplication of services

In considering alternatives, we reviewed available plans from previous committees, both for additions to the existing building, and for a separate structure in what is commonly referred to as "the lower field" or the "old fairgrounds". These earlier plans were rejected for a number of reasons. First, the design was not energy-efficient, an important consideration in light of today's rising heating and lighting costs. Also, curriculum requirements have changed, with attendant changes in types of space required. Another major consideration is the current availability of newer cost-effective and efficient building materials, such as membrane roofing. In terms of our space needs, the old plans called for eight (8) classrooms, where our current and projected 10-year needs reveal the need for 13 additional rooms.

Two major options are available to us. One is to construct a new building in the lower field; the other to add onto the existing building. In order to better understand the implications of either route, we reviewed the changes and uses of the existing spaces both currently and for the future. The middle school concept was reviewed, including the possibility of middle school regionalization. (None of the adjacent towns have shown an interest in a regional middle school). We also evaluated the need for space in order to expand programming, to include home economics, shop, and

the needs of gifted children. We also felt a growing and strengthening need to properly address and correct the problems of the existing building.

Given the varied opinions of the members of the committee, with a certain prejudice for building in the lower field, we felt that we must review the pros and cons of each option, and decide which to pursue based not upon personal subjective feelings, but rather upon known factors. To accomplish this, we assembled a list of concerns in operating a school, both from the viewpoints of plant operations and education. The following list, in no particular order summarizes which category favors which method of achieving additional space:

<u>Category</u>	<u>Separate</u>	<u>Addition</u>
Administration		X
Food Service		X
Separation of Ages	X	
Play Area	X	
Septic		X
Art, Music, Phys. Ed.		X
Special Education		X
Library		X
Energy (Heat, Lights, Etc.)		XXX
Transportation and Roads		XX
Nurse		XX
Flexibility in Space Utilization		XXX

The administration of the school would be achieved by having all faculty and students under one roof. Not only would students have equal access to facilities such as the library, which is not the case now, but the faculty and students would have equal access to the principal and he to them. With food service consolidated under one roof, the problems of hot cold-foods and cold hot-foods would be eliminated, including food transportation time and cost. In separate buildings of close proximity (campus concept) a decision would have to be made as to where the kitchen and cafeteria would be located, and which students would be required to walk between buildings in inclement weather in order to have lunch. In any situation requiring moving between buildings, especially in winter, we must consider the loss of time of students making two outerwear changes plus walking (playing) time; time taken away from lunch period or instructional time.

Two areas of concern would benefit from separate structures, the play area and separation of ages, as both would result in the physical separation of lower from upper grade children.

Again with accessibility and travel time considered, Art, Music, and Physical Education would best be accomplished with all students in one place.

As mentioned earlier, access to the library should be equal for all students and is best achieved by a single, combined building. Because of the need for specialized learning centers and equipment, it would be costly and impractical to attempt to conduct special

education classes in other than a single classroom. Similarly, the nurses' facility would have to be duplicated in a separate building.

The largest single factor affecting the decision was in the area of energy. The present boiler is more than adequate to handle an addition, even without energy retrofit to the existing building. With an energy-efficient addition and a retrofitted building, less than half the capacity of the heating system would be used, leaving a wide margin of reserve in case of abnormally cold weather. A separate building would require another heating system, with its attendant costs.

In the area of transportation and roads, a separate structure would require movement of people between buildings, and a separation problem similar to Brookside, in that any movement between buildings would be accompanied by a loss of education time. New connector roads and access and parking would be required at considerable cost.

The plan resulting in the greatest flexibility of space utilization is that of an addition to the present building, where students, classrooms, and support services could be moved according to need, with no loss of access to resources.

A thorough review of the facts and projections available to us, including the engineers' reports on the condition of the existing building, reports of the various consultants on septic, site preparation, road, energy considerations, and long-term operations costs, along with the evaluation of curriculum-oriented space requirements, causes us to turn away from our thoughts of a building in the lower field, and realize the immediate and long-term benefits of an addition to the present building.

During this decision-making process we interviewed and selected an architectural firm. By using an architect we felt that we could develop a plan that was exactly what we needed; no more and no less. The design/build option was rejected because we felt we should get exactly what we needed for our money, and not be placed in a position to adapt our needs to a "universal" design. Additionally, we felt we would have more control over the project with an architect overseeing it, as compared with a designer and builder working in tandem.

A number of architectural firms with known school design backgrounds were invited to present themselves and their proposed services to the committee. We chose a firm with extensive school renovation and additions background, with a strong reputation for designing energy efficiency into their plans. Our choice was Banwell, White, and Arnold, Inc., of Hanover, N.H. Many of the committee members were familiar with and impressed by Banwell, White, & Arnold, Inc.'s design of the headquarters for the Society for the Protection of New Hampshire Forests; in Concord, N.H., and further felt that we could work well with their representative, Stuart White. As our site holds a strong potential for passive solar integration, which would substantially decrease our long term energy costs, we were also impressed by Mr. White's award from the American Solar Energy Society, for the integration of architectural design and

passive solar energy.

With Mr. White, we worked through many possible options and designs, based upon our needs. We simultaneously evaluated the cost of each plan, including a concrete structure in the lower field.

The plan chosen meets, we feel, the greatest number of needs of our school system. Further study reinforced our decision that an addition to the present school was the most judicious course to follow. The proposed plan meets our space needs as set forth in State standards for square footage, as well as our curriculum needs, not as determined by an outside agency, but as developed by our own system's curriculum committee. Additionally, as required, the proposed plan meets all NFPA Life-Safety Codes, and offers unrestricted access to handicapped persons.

As outlined earlier in this report, one goal was to develop a plan that would be eligible for the 30% State reimbursement. The proposed plan would meet all the State of NH Minimum Requirements for Elementary and Middle School Education.

Just as we cannot leave a window open in our own homes all winter, we felt that we must achieve a solution that would minimize heating and lighting costs in subsequent years. The proposed plan achieves this. One of the major benefits of the proposed plan is that by repairing, upgrading and retrofitting the existing building, and by adding an extremely efficient addition, we will make the total combined structure energy efficient.

Our current energy use is within the area of 65 to 75 Btu per square foot per year. If the Structure were built today, given that we are nearly doubling the square footage, this means that we could heat and light the entire structure for what it is costing us to presently heat and light the existing building. The biggest factor in efficiency will be seen in lighting. If the cost of fuel oil and electricity were to remain unchanged for the next twenty years, our energy savings would be in the area of \$347,158. Given the past history of fuel oil and electrical increases, however, the savings would meet or exceed \$416,589. The costs would be paid from the yearly operational budget of the school district. We should realize that this is better than 35% of our current school district budget for fiscal 1982-1983.

It must be pointed out that this plan is not concerned only with addition of the space needed to relieve our present overcrowding, but combines that solution with repairing and retrofitting our existing school, while decreasing our future operations costs. We would, therefore, address and resolve three problems: the condition of the present school, the curriculum/space needs of the present and projected school population, and the costs of maintaining the present and additional space.

In terms of flexibility, this plan offers area separation of lower from upper grade students in its design usage, while retaining all the benefits achieved by keeping the students under one roof,

such as access to resources. At the same time, four rooms can be easily decreased or enlarged to accommodate team teaching efforts.

The plan also addresses another ongoing problem for the community, that of parking. With the moving of the main entrance of the school from the Route 4 (North) side of the building to the West side, and the development of parking spaces in front of the school, between the building and the Route 4 right-of-way, more vehicles can be accommodated on the school property. A squared-off cul-de-sac at the West end of the building would allow bus pick-up and drop-off of children away from busy Route 4, and at the same time accommodate additional off-hour parking and winter snow removal.

The interior design of the addition would be solar-oriented, especially taking advantage of indirect light through the use of skylights in the classrooms and celestial windows in the halls, with glass block access of light into the classrooms. With the whole structure surrounded by insulation, the mass of the building becomes a giant heat storage bank, which helps to even out temperatures and fuel usage in the light of fluctuating outside temperatures.

All materials used in the interior of the school would be chosen for easy maintenance and cleaning. Bathroom facilities would be increased and upgraded to meet the needs of the student and faculty population.

Serious, thorough research went into the decision for the recommendation for the modular classrooms. It was decided that these former temporary solutions must be replaced with permanent classroom space. To begin with, these units do not currently meet the minimum snow load requirements for such structures used as classrooms. The cost to correct this problem alone is approximately \$40,000. In order for those units to meet NFPA Life-Safety Codes would require approximately \$100,000, the total of which exceeds the original costs for these buildings, which have outlived their projected useful life.

The plan also addresses the septic requirements of a school of this size. The current system was not designed for the load being placed on it. Any addition to the current building, or any construction of a separate facility would require expansion of the septic system.

In the area of playground space, we have worked out potential play areas for different activities. We recommend the sum of \$10,000 for the initial work on these areas at the time of site preparation for the addition (which would occur during the summer). The potential and existing play areas would also allow for separation of older from younger children.

With the addition of an earth berm bordering the parking lot on Route 4, and the change in location of the main entrance to the school, the whole orientation of the building would be changed, creating a pleasing appearance.

In summary, we reviewed the problems facing the school system,

including: the existing building, the modulars, curriculum and space needs, adherence to educational and safety standards, traffic flow, services, busing, access to resources, transportation, and school grounds. From the needs assessment we developed a series of goals, and formulated a plan to achieve as many of those goals as possible.

Based upon the information available to us, we feel that we have developed a proposal that meets the current and projected needs of our school system and resolves a considerable number of problems.

Only with adequate facilities and programs can we expect to meet the educational needs of our children in preparing them for their futures.

Part VI

Required Funding, Alternatives and Recommendations

We estimate the total capital cost of the school expansion project to be \$1.5 million, which would be funded by a bond issue. Schedule I lists the major elements of cost that make up the total. Renovation to the existing building, to fix the structural defects and the roof, insulate and spruce up the exterior walls, and refurbish the classrooms will cost \$208,000. The new construction consisting of 13 classrooms and a library in an attractive and energy efficient style, will cost \$997,000, or \$55 per square foot. The new septic system is included at \$80,000. The remainder of the bond issue amount covers site preparation, including some playground work, the cost of setting up the Industrial Arts, Home Economics and music rooms, and the architect's fee.

We recommend financing the capital cost of the expansion through a bond issue administered by the New Hampshire Municipal Bond Bank. This is a non-profit agency created by the State to help cities and towns in raising money for municipal projects. We will get the best advice, lowest interest rate and lowest administrative costs by using this agency. Current municipal bond issues are being written for ten year terms and carry interest costs in the range of 8-10%. It is not likely that we could issue bonds for a term of more than 10 years because there is little market for them. If we could, they would carry a higher interest rate which would offset the advantage of spreading repayment over a longer period.

The most likely case, then is an issue of bonds with a 10-year level repayment schedule at a rate at or just under 10%.

Schedule II illustrates the annual cost effect of such an issue at 10%. The State can be expected to continue their reimbursement program, which repays the town or school district 30% of each year's principal payment. Although this is an annually funded program, it has always been funded; we anticipate it will continue to be. The average annual cost of carrying a \$1.5 million bond issue is about \$200,000 for each of the ten years. This is the part that will have to be raised by taxes each year.

In addition, the expanded school will require extra operating

costs of about \$65,000 per year (Schedule III). Most of this is for people related functions. It is for four new teachers, two of whom are for regular grade teaching who would be part of our current budget if we had the rooms for them. The other two are to handle Industrial Arts, Home Economics and Physical Education. The rest of the additional operating costs are for a custodian for the extra space, a part-time librarian and a small amount of supplies, maintenance and insurance. Note that we project no additional cost for heat or lights. By providing insulation, solar orientation for light and heat, and low-energy lighting fixtures, we will be able to operate the new building for no more than the existing building.

The annual cost, then, will be the \$200,000 for bond issue interest and principal repayment, and \$65,000 in operating cost for a total of \$265,000. As is shown in Schedule III, this will amount to a tax rate increase of \$5.85 per thousand valuation. On a home assessed at \$40,000, this means a tax bill increase of \$234 per year for the ten year life of the bond issue. For a \$50,000 home, the increase will be \$293 annually based on our assumptions.

SCHEDULE I
Elementary School Expansion
Estimated Capitol Cost

Renovation to existing building - new roof exterior insulation, structural repairs and refitting of classrooms	\$ 208,000
New Construction - 13 rooms and library 18,122 ft. ² @ \$55/ft. ²	997,000
Site Preparation	50,000
New Septic System	80,000
Furniture and fixtures - Industrial Arts, Home Economics and Music	55,000
Playground	10,000
Architects/engineers fee - 8% of first two items	<u>96,000</u>
Total Estimated Capitol Cost	\$ 1,496,000

SCHEDULE II
 Elementary School Expansion
 Bond Issue Cost

10 year term, level payments at end of year

10% interest through New Hampshire Municipal Bond Bank

30% State Reimbursement of Principal

<u>Year</u>	<u>Principal Payment</u>	<u>Interest Cost</u>	<u>Reimbursement</u>	<u>New Cost</u>
1	\$ 90,000	150,000	(\$27,000)	\$ 213,000
2	100,000	141,000	(30,000)	211,000
3	110,000	131,000	(33,000)	208,000
4	125,000	120,000	(37,000)	207,500
5	140,000	107,500	(42,000)	205,500
6	150,000	93,500	(45,000)	198,500
7	170,000	78,500	(51,000)	197,500
8	185,000	61,500	(55,500)	191,000
9	205,000	43,000	(61,500)	186,500
10	335,000	22,500	(67,500)	180,000
Total	\$1,500,000	\$948,500	(\$450,000)	\$1,998,500

Average Annual Payment - \$199,850

SCHEDULE III
 Elementary School Expansion
 Estimated Additional Operating Costs

	Cost Per Year
Instruction	
4 teachers - 2 for grades and 2 for I. A., Home Ec., and Phys. Ed.	\$42,000
Part-Time Librarian	5,000
Employee Benefits	7,000
Home Economics/Industrial Arts Supplies	<u>2,000</u>
Subtotal	\$56,000
Plant Operation	
Custodian	\$ 5,000
Custodial Supplies	2,000
Repairs and Maintenance	1,000
Insurance	1,000
Heat and Light	<u>-0-</u>
Subtotal	\$ 9,000
Total Additional Annual Cost	\$65,000

SCHEDULE IV
Elementary School Expansion
Effect on Tax Rate

Based on total 1982 tax valuation base of
\$45,305,000 and tax rate of \$21.80 per
thousand of assessed value

Average annual bond issue cost from Schedule II	\$200,000
Annual increase in operation cost from Schedule III	65,000
Total Annual Cost	<hr/> \$265,000

Tax Rate Increase = \$5.85 per thousand

Tax Bill Increase on a \$40,000 house will
be \$234. On a \$50,000 house it will
be \$293.
