John D. Kelley

July 15, 1938

Auditor

To the School Board and Citizens of Sandown:

I herewith present my twelfth annual report as Superintendent of Schools.

Supervision

My primary duty should concern the welfare of the children in your schools. My philosophy is dependent upon that function. The supervision and improvement of instruction naturally come to mind as the first essentials whether they come from the introduction of a new textbook, advice to the teachers on school problems or absolute direction to perform certain tasks. You will admit that interruption of service makes this

ideal more difficult to perform. That has been our problem this year. Miss Cheney transferred her activities from Pine Grove School to another district as did Miss Gustafson of the Clark School. In their places came Miss Marjorie Andrews from Keene Normal School and Miss Alice Davis, an experienced teacher of some years. We had fond hopes for another successful year but must just now undergo further interruption due to the resignation of Miss Davis. We regret that Miss Davis, a hard and conscientious worker, does not have the strength equal to carrying on the task. Up to the present, your teachers were asking for whatever help I am able to render. I have no reason to believe this demand will expire after the present emergency is over. I trust that this aid and support is indirectly helpful to the pupils.

We must look to the results to determine the value of instruction. Among the forty-four pupils in your schools at the close in June 1938, forty were promoted or 91%. In other words, it was found that only 9% were in need of or could profit by remaining in the same grade for another year. I believe this is a worthy record. Last year's graduation class of five pupils will serve as another example of accomplishment. Along with the other 81 graduates of the eighth grade in this Union, these five took the Metropolitan Achievement Tests, Advanced Form. Three exceeded and two fell slightly below their grade standards. It is highly significant that the highest score in the whole Union was obtained from one of your pupils, namely Dean Hathaway. As a further example of parental cooperation and pupil interest, I am pleased to list the following pupil who was perfect in attendance during 1937-38:

Pupil	Parent
Ruth Merrick	Clarence Merrick

As the parent is more often as much responsible as the child, his name is added as extra credit.

The information which now follows gives a brief summary of statistical data about the school year, 1937-38.

*Average percent of attendance	91.62
Number of pupils enrolled	50
Average membership	41.89
Number of graduates	5
Number of graduates entering

Dean Hathaway	Rosie Melkonian

#### Finance

My second duty has to do with finance and the general operation of the physical plant. In a large Union such as this, too often this function comes ahead of the first ideal, supervision. Yet, certain situations must be faced and problems solved. Required reports must be finished on time, meetings held to review needs, plans made to meet conditions. Much time must be spent either by night or by day to determine the means of satisfying these needs by long-time planning. That is one of the School Board's duties, and mine, just now and a difficult one it is due to the length of time in advance before the spending occurs as well as the un-

certainties of high school tuition, caused by frequent shifts in family residence. Every budget presented to you must foresee the demands of a year or more in the future. This year's budget is no exception to this formula.

To show certain facts concerning the financial management of your schools I list the following information taken from recent releases of the State Board of Education. These indicate the financial burden and how well it is being done in comparison with other towns in this union.

#### APPRECIATION

I am very appreciative of the interest and activity of the School Board in their unselfish efforts to make your schools the best that available funds will allow. We have worked together for another year in harmony and for the best interests of the children.

I would like to express my gratitude for the cooperation of your citizens and parents. I am indeed grateful that they are interested in the problems of childhood and the schools.

I would not forget the loyal service and the active efforts of the teachers. I give them my thanks for their support and diligence in meeting our plans for pupil welfare. They deserve the bulk of the credit.

Very respectfully,

Harold C. Bowley
