## BUDGET COMMITTEE REPORT

---

Approval of a Town appropriation Budget of \$31,279.27 was granted for the ensuing year. This represents an increase of \$1,750.00 over last year's comparative figure of \$29,529.27.

Increase in Town Officers' Salaries and Expense, Police Department, Street Lighting, Town Poor, Old Age Assistance were approved. Readjustment of certain Town Officers' Salaries should be considered on a proportion of work basis.

Lesser amounts were asked for snow removal in view of the mild winter, also under Unclassified which was added to the Town Officers' Expense Account on the suggestion of the State Auditors.

Legal services estimated not to exceed \$2,500.00 was also approved.

The three articles pertaining to a Fire Station are submitted without approval, permitting the Town to vote to accept or reject, the Bond Issue not to affect this year's appropriation.

The following articles were disapproved for the reasons given.

No. 6 It is recommended that garbage and rubbish removal be considered under one article (No. 7) for the entire Town for a one year contract to the lowest responsible bidder.

No. 23 It is recommended that the Park Department be consulted on any proposed improvement to Parks and instructed to carry out the wishes of the Town. Any increase needed for this project can be added to the Park Department budget.

No. 26 It is recommended that whereas trucks of different size require snow plows of suitable size and weight, that the Town should plan to hire privately owned snow plows.

On behalf of the Budget Committee Members, I wish to thank the Town Officers for their cooperation in completing this proposed Budget.

Respectfully submitted,

ROBIE M. BECKMAN.

#### Exhibits C & D

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended December 31, 1947, are presented in Exhibits C and D. As indicated by the budget summary (Exhibit D), a net overdraft of appropriations of \$5,958.35, less a net revenue surplus of \$871.65, resulted in a net budget deficit of \$5,086.70.

#### Summary of Receipts and Expenditures: (Exhibit E)

A summary of receipts and expenditures for the fiscal year ended December 31, 1947, made up in accordance with the uniform classification of accounts, is included in Exhibit E. Proof of the Treasurer's balance as of May 28th, 1948, is indicated in Exhibit AA.

#### Statistical Tables:

The third section of the report is comprised of statistical tables covering the ten year period from 1938 to 1947. These are as follows:

### AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited. Vouchers and cancelled checks were compared with supporting invoices and payrolls as well as entries in the books of record. Receipts were checked by source insofar as possible, totals of receipts and expenditures verified and classification of accounts noted.

## GENERAL COMMENTS

### Change in Financial Condition:

As heretofore noted the change in financial condition of the Town during the year 1947 amounted to \$11,607.63, going from a Surplus of \$179.83 on December 31, 1946, to a Net Debt of \$11,427.80 on December 31, 1947. A part of the increase in Net Debt was due to a net budget deficit of \$5,086.70, which resulted from appropriation overdrafts. The three appropriation accounts in which substantial overdrafts occurred were:

Town Maintenance - winter	\$1,888.12
Town Poor	995.48
Overlay (Discounts & Abatements)	2,062.96

Careful budget preparation and closer adherence to appropriations as voted is urged to prevent the Town from going into a deficit position, i.e., one in which the "assets" are insufficient to meet the "current liabilities."

### Uncollected Taxes — Previous Years:

It will be noted that the item "uncollected taxes — previous years" in the Balance Sheet of December 31, 1947, amounted to \$1,229.39. This was made up largely of uncollected poll taxes on account of the levies of 1937 to 1944, inclusive. Although the total amount of uncollected taxes for these prior years was reduced during 1947 through collections and abatements from \$4,407.27 to \$1,229.39, there are probably many uncollectible accounts still on the lists which should be removed by abatement. A sufficient amount of "overlay" should be assessed for this purpose.

### Record of Tax Deeded Property:

In order that an adequate record may be maintained for property which the town has acquired or may acquire by tax collector's deeds, it is recommended that an individual card record be set up for each piece of property thus acquired.

A standard form is available for this purpose which provides for all the necessary information.

The total investment by the town from the date of the original sale, upon which the collector's deed was taken, until the property again returns to private ownership through sale by the town is indicated thereon. This includes all taxes, interest and costs to date when collector's deed is taken, annual taxes which accrue subsequently (based on the current rate and the last assessed valuation) and other expenses such as insurance and repairs. It is important that this information be available at all times as

the sale price of property thus acquired is usually determined by the town's investment therein.

**Unclassified Appropriation:**

It is the practise for the town to make an annual appropriation for "unclassified" items. As most of the items which are charged to this appropriation could be properly charged to the regular appropriation and expenditure accounts, it is recommended that in making up the annual budget the "unclassified" appropriation be eliminated and necessary revision be made in the other appropriations which may be affected thereby.

**Use of Town Orders as Checks:**

At the present time the Town Treasurer issues separate checks in payment of Selectmen's orders. It is suggested that in place of the present method the Treasurer countersign the Selectmen's orders which would then be used as negotiable checks. Vouchers and checks would have the same numerical sequence and the possibility of errors and differences occuring between the Selectmen's and Treasurer's accounts would be greatly lessened.

**Selectmen's Accounts:**

The use of the "Class A" receipts and payments book was recommended and has been adopted by the Board of Selectmen. This provides columns for the classification of all accounts which the abbreviated "Class B" book fails to do.

It was noted that a few orders were signed by only one Selectman. All orders should be signed by at least two members of the board.

Itemized statements should be filed with vouchers issued for Selectmen's expenses. Such statements should indicate in detail dates on which expenses were incurred, mileage travelled, meals, etc.

**Treasurer's Accounts:**

The Treasurer should make a monthly report on the prescribed form to the Selectmen, indicating in detail all receipts during the month. Also included in the monthly report are the total receipts to date, total payments and Treasurer's balance at the close of the month.

**Tax Collector's Accounts:**

The use of the standard loose leaf form of cash book was recommended and its use has been adopted by the Tax Collector, together with the regular report forms which accompany re-

mittances to the Treasurer on account of (1) tax collections and (2) redemptions from tax sales. The use of these forms will simplify the Collector's work and at the same time provide the basis for the preparation of accurate and informative annual reports.

Monthly remittances of all tax collections and redemptions from tax sales should be made by the Collector to the Treasurer as required by law.

**Town Clerk's Accounts:**

In every case where a transfer permit is issued the Town Clerk makes the practise of collecting fifty cents in addition to the required amount to be paid on the permit, i.e., the amount of the permit fee less the transfer credit. The law provides that a minimum of fifty cents shall be collected on every transfer permit issued but this only applies to cases where the actual amount to be paid is less than fifty cents. In all cases where the amount to be paid exceeds fifty cents only the actual amount to be paid on the permit should be charged by the Clerk.

Poll taxes should be paid only to the Tax Collector and the Clerk should not accept any further tax payments.

All motor vehicle permit cards which are unused or which have been voided should be retained by the Clerk until the annual audit is made.

The use of the standard form of Town Clerk's Cash Book for recording motor vehicle permits and dog licenses issued has been recommended and adopted.

**Conclusion:**

The provisions of Section 31, Chapter 211, of the Laws of 1939, require that this report or a summary of its essential features shall be published in the next annual town report. This letter of transmittal should be included in its entirety but the inclusion of Exhibits is optional.

We extend our thanks to the officials of the Town of Seabrook for their assistance during the course of the audit.

Yours very truly,

HAROLD G. FOWLER, Director,  
Division of Municipal Accounting  
State Tax Commission
